

HARTLAND ADVERTISER

VOL. II.

HARTLAND, N. B., SATURDAY SEPTEMBER 3, 1898.

No. 30

THE fondness some advertisers have of throwing bouquets at themselves is remarkable.

Instead of getting down to business, and telling people what they want to know, they waste their valuable space by pointing the finger of pride at themselves.

"Look at us," they say, "We are the people," "We are honest," "We are so busy, we can't find time to eat." "We lie awake nights studying up nice things for the dear people." "We sold 15 cars goods in 13 days, 5 hours and 17 minutes by the clock; what do you think of that?" "Just stick to us; we are a good thing; we never deceive anybody!" "We are the truly good." "Our store is a palace; a veritable fairy-land, a paradise of enchantment, and we can prove it. Whoop!"

All of which strongly moves all sensible people to exclaim, "Rats!"

**The undersigned simply says:
Call and examine Goods and get
prices. If you are doing as well
elsewhere, then you are getting a
good trade. If not, then buy from us.**

J. T. G. CARR,

Agent for Connell Bros., and Liverpool & London & Globe Insurance Co.

C. HUMPHREY TAYLOR.

PROGRESSIVE PERTH.

What There is in the Hustling Up-river Town.

Perth Centre is rapidly coming to the front as a trading centre. In a few years it has made most creditable strides forward. It is now following close on Hartland's heels, and has a splendid chance for further development. Situated as it is at the Junction of the T. V. and C. P. railways it is a general distributing post for the whole Tobique region, with its large farming and lumbering interests.

Commercially Perth is important. It has a number of general stores foremost among which is that of A. L. Green, situated at the end of the river bridge. No where else in all Victoria or Carleton County is there a store its superior. Exteriorly the building is a really beautiful one. It was built last year. S. B. Craig has a well stocked store. He formerly was a conductor on the C. P. R., but last March opened up a general store in Perth and is doing a good trade. W. L. Mallory is another general merchant and has a good trade; as does also Senator Baird, J. W. McPhail and F. D. Sadler. There are other smaller stores. Miss E. M. Parker, late of Woodstock, has a nice millinery store and does a good business, besides making a reputation for neat and tasteful work.

C. L. Olmstead has a tailor shop, and carries a fine stock of clothes and trimmings. There are two barber shops run by Wallace Larlee and Henry Green. The latter also has a shoe shop; and he possesses a remarkable genius for free hand drawing. In his shop is a portrait of Gladstone, done in shoemakers ink, which really is a marvel. James Burns runs a meat market; and the village boasts a jeweller and a photographer.

There are three hotels chief among which is Hotel Perth kept by Ira A. Willard. He looks well to the comfort of his guests and is therefore getting a good run of commercial and general travel.

The village school is taught by Mr. Miles of Centreville. The spiritual welfare of the people is looked after by Rev. H. D. Worden, Baptist, who holds service in the Hall. There being Methodist, Baptist, English, Presbyterian and Catholic churches at Andover.

There has been considerable building going on in this section this season.

J. Fletcher, Tweeddale, has the agency for Balmain Bros. of Woodstock, and carries a stock of farm implements and carriages. This gentleman has served in the municipal council for fifteen years, and contested Victoria in the provincial election on two occasions.

The balance of my summer Millinery Goods will be sold at reduced price in order to make room for fall goods.

BOOMING BRISTOL.

A Budget of Newsy Items of Importance—Building Improvements.

A temperance meeting was held in the hall Thursday evening.

Measles and mumps are both reported to be quite prevalent in the vicinity.

The Baptist friends are preparing for a tea meeting in their new church on Wednesday, September 14th.

Dr. Somerville now occupies his new residence further up in the village. His office and drug store are in the same building.

Belyea & Pitcher are now busy with their steam drill boring a well for C. A. Phillips. They have already put one in for G. A. Brittain and M. Welch.

M. Welch has been making some very noticeable improvements to his residence, which will add much its handsome appearance. He is now putting up another large barn near his other buildings.

T. Lynch has some men at work finishing the outside of his large warehouse opposite the railway station. The carpenters are at work on D. S. Jones' new house, which will soon be ready for occupying. Tylney Rogers has the foundation for his new house laid.

Mrs. Fred DeLong went to St. John on Wednesday last. Mrs. Gaines of Watt Junction is visiting her son A. B. Gaines, C. P. R. agent at this station. James Gaines is also spending a few days in the village, after an absence of about a year.

Mrs. James Boyer died on the 23rd inst. after a protracted illness. She was about 70 years of age, and leaves a husband and six sons. Her death occurred at the home of her son, Dow Boyer. The funeral services were conducted by Rev. A. H. Hayward, and the sermon was preached at the house.

Thomas O'Donnell was before magistrate Farley yesterday charged with killing and wounding geese belonging to Mrs. James O'Donnell. The case was adjourned for a future hearing. The magistrate was also called upon to settle some trouble in the Sayles family of Beaufort, and Smelter Sayles and a companion, Walter Wood, were bound over to keep the peace, for assaulting William Sayles, the father of the first named defendant.

The Woodstock Exhibition.

It was expected that in view of the offer of the local government to give \$500 towards an exhibition in Woodstock this fall, an exhibition of three days' duration would be held, but at a meeting of the agricultural society held a day or two ago, a motion to hold the exhibition was voted down.

Chairs, Tables, Bedsteads, Bureaus, Rockers, Bedroom Suits, in elm ash and oak—low for cash at Carr's.

Just received this week our third car of Ryan Brick and they are good brick. Shaw & Dibblee.

Windsor. News.

The farmers have nearly all finished haying. Fred Smith told your correspondent that he had cut about 120 tons of hay this year. At present he is cruising on the Miramichi for a lumber chance.

Benjamin Tedford will leave here on Monday next to settle down in Deerfield, N. S. The best wishes of his many friends go with him and Mrs. Tedford. The remainder of the family will remain in Windsor.

Ralph Tedford is spending a few days here with friends. He intends going to St. Stephen on a business trip the nature of which it might not be well for me to say, but there is a woman in the case.

Wayman and Willie Shaw have their new threshing machine in running order. It was manufactured by Connell Bros., and is claimed to be the best in the world. They have a good team and will be ready to work for the public, either on short or long notice. Address: Windsor, four doors below the post office.

George Robison lost a fine three-year old colt a few days ago. George don't say much but he feels his loss just the same.

One of our bachelor farmers brought home from Shaw & Dibblee's a fine cooking stove. He is now looking for some one to cook on it for him.

Andover Notes.

Among the delegates attending the liberal-conservative convention were T. J. Carter, J. F. Tweedale, John Tapley, J. R. Stevenson, Albert Brymer, Alex. Tone, Wm. Brayall, Alex. Stratton and J. B. Porter. After talking matters over, it was decided to organize under the provincial association, which requires delegates from the parishes to form a county association. The parish officers will hold meetings and start organizing and nominating committees. The nominating committee will meet here on the 25th September to choose the candidates of the liberal-conservative party.

The clergy of the deanery of Woodstock met on the 24th at Birch Ridge. In the afternoon a well attended meeting of the deanery Sunday School was held.

Pokiok.

Harvesting has already commenced, and the sound of the reaper is heard on every hand.

Mrs. Charles Gillin is recovering from a severe attack of congestion of the lungs.

Mrs. Lydia Snow spent one day of last week with her niece, Mrs. D. W. Gray.

Mrs. Joseph Hall-t is rejoicing over the arrival of a son. Her husband died a few weeks ago.

Miss Cassie Gillin is at present visiting friends in Houlton, and intends taking in the fair at Bangor before she returns.

Ernest Bryden has finished haying here and returned to his home at Clearwater on the Miramichi on Tuesday.

Pat. Culbert left here on Tuesday for New Hampshire.

ROSY O'GRADY.

Returned from the West.

Jas. Simms of Windsor, who lately returned from British Columbia, reports times very dull in the town of Nelson, fully five hundred men being unable to obtain work. The cheapest board to be had is \$6 per week. He says butter is only obtainable at 35 cents per lb., beef 25 cents, eggs, 25 cents a doz., potatoes 5 cts. per lb., and so on. In his opinion the Crow's Nest Pass Railway is a gigantic fraud, and a white man doesn't stand a ghost of a show, chiefly Chinamen and Italians being employed. Mr. Simms met one man who had worked all winter and had only \$30 to his credit, and on presenting his cheque the officials charged him \$7 for cashing it.

Poirier Acquitted.

Jury Returns a Verdict in His Favor.

New Carlisle, Que., Aug. 27.—The jury in the case of Theodule Poirier, accused of murdering Jerome Martin of St. Alexis de Metapedia, on April 3 last, after two hours deliberation, returned a verdict of not guilty. The judge's charge was strong against the prisoner. Poirier and Martin were both in love with the same girl. They attended a dance and on the way home, with some companions quarreled. A fight ensued, in which Poirier drew a common jack knife and, during the scuffle, cut Martin's throat.

Horse Thief Arrested.

(Portland Presa.)

A man who gives his name as James David Holland, and who says that he lives in Woodstock, N. B., where is a hostler, was arrested by Deputy Sheriffs Frith and Officer Pillsbury at Rigby Park Wednesday morning. He was taken to the police station. Holland was arrested on a charge of horse stealing.

Wednesday a man went to a residence in Portsmouth, N. H., and stole a horse and team. He drove to Kennebunk and there an officer became suspicious and took the fellow on charge of cruelty to animals. The officers stepped aside for a few minutes and this gave the fellow a chance to escape. He then walked to Rigby, and the officers thinking the man might come here, arrived early yesterday morning, found the fellow and at once identified him. An officer from Portsmouth had also arrived at the grounds. Holland does not deny that he is guilty of the offence and says he did it because he was despondent.

Forging to the Front.

Harry H. Macdonald, late of the Gazette staff, but now of the Worcester Daily Telegram, has proved himself a valuable addition to that live journal. In a letter received from a St. John man, now at Worcester, he gives Mr. Macdonald great credit for the splendid work he is doing abroad. Harry has many friends in this city who are glad to hear of his success, and predict a bright future for him.

(Mr. Macdonald calls himself a Hartland boy, he having resided here with his father, Rev. G. W. Macdonald.)

Woodstock Manufacturing Establishments.

According to the Woodstock Dispatch there are about 250 hands employed in five of the leading factories of the town, divided as follows: The Woodworking Factory, 15; the Small & Fisher Co., 28; the Maritime Pure Food Co. (canning factory) 60; the Maritime Wrapper Factory, 48; Dickinson's tannery, 25; Connell Bros., 47; Woodstock Carriage Factory, 20; the Woollen Mills, 11.

Piles Cured without the Knife by Dr. A. W. Chase's Ointment.

Mr. Geo. Browne, painter, of Woodville, Ont., Victoria Co, says:—"For thirteen years I was a sufferer from bleeding piles and the intense agony which I passed through during those years and relief I obtained by Chase's Ointment prompts me to give this testimonial. My physician wished me to have an operation but I felt I could be cured without the knife. Three boxes of Dr. Chase's Ointment stopped the bleeding and effected a permanent cure."

“Well, That's Cool”

Is what everyone says when they get a glass of Soda from Thistle & Co's new fountain. "How refreshing" are other expressions. The new fountain, which is a picture to look at, produces man different flavored Sodas, including Cream Soda and Orange Phosphate. Call and get a drink. A no more refreshing nectar flows in arleton Co. This warm weather is fatiguing, don't suffer with the heat, cool yourself at Thistle's fountain.

Shrinkage of Stored Grain.

"Wheat from threshing time for the next six months shrinks 6 per cent.; that gives the shrinkage about two quarts per bushel, and the shrinkage of ear corn is 20 to 30 per cent. in six months." Forty years ago I saw this statement published in one of our agricultural papers, and last winter the same account of shrinkage in grain was published in the Cincinnati Enquirer, not being changed a particle from the article published forty years ago. Now I have always claimed that any article written for the press should be known facts to be of any value, and based upon tested experiment for a series of years by weighing when stored and weighing when sold. For the past ten years I have been experimenting to learn the facts as to the exact amount of shrinkage in weight of grain by storage and find the following facts by weighing: Clover seed from time of threshing, if in good condition when stored, will in twelve months gain 1 per cent. in weight. Two years ago I weighed three sacks of wheat as it came from the threshing machine. The wheat was in good condition, and the three sacks weighed 405 pounds. They were placed in the wheat bin where nothing could disturb them, and they were reweighed April 1, making eight months in storage, and they weighed 405 lbs. showing no shrinkage. There may be a loss by wastage, but not in weight. The 1st day of August, 1894, I filled ten burlap sacks with oats as they came from the threshing machine. Each sack was weighed separately, a card was sewed on each one, stating weight, and the total weight of the ten sacks of oats was 1,272 pounds. The ten sacks of oats were reweighed January 1, 1895 and weighed 1,316 pounds, a gain in weight of forty-four pounds, showing a gain of 3.1-5 per cent. I assure you this was a surprise to me, but I called to mind that there had been no rain from the time they were heading until they were threshed. In years of abundance of rain during growth and ripening I think there would be less gain. It is the general opinion that corn shrinks more from time of husking in the fall up to May than any other farm product. Many farmers say from 10 to 20 per cent. Last fall I commenced my experiments to test the shrinkage. I filled a large sack full of ear corn on the 9th of November, 1895, the day it was husked. A card was sewed on the sack giving date of weighing and weight was 153.1-2 pounds. I reweighed it April 1, 1896, making nearly five months, and it weighed 154 pounds, showing one-half pound gain in the five months. Last fall was a remarkably dry fall, and early varieties of corn were fully matured and dry, especially the small cob varieties, and this corn was of that kind. Large ear corn, and especially large cob varieties, during a wet fall, will shrink from 5 to 6 per cent. This has been my experience by weighing.—Joseph Allen, in Prairie Farmer.

"We shall have peace soon, I think, Miss Flossie."

"Yes, isn't it mean? Just when I've laid in a lot of war stationery."—Chicago Record.

Costly Flag.

Just now much money is being spent in the purchase of flags, by which men endeavor to express their patriotism. Some of these flags are very large and handsome, but the costliest flag in the whole city of New York is not a large flag at all. It measures only seven inches by four, but it is a dainty little work of art, and its value is somewhere in the neighborhood of eighteen thousand dollars. It is displayed in a jeweller's window, and the materials of which it is made are diamonds, rubies and sapphires.

It has thirteen stripes and forty-two stars. The white stripes are made of small diamonds, of which eight hundred have been used. The red stripes are formed of an equal number of rubies, and three hundred sapphires make up the blue field. Then come the stars—forty-two diamonds—the whole making a flag as beautiful as it is costly.

Of course the flag was made before the admission of Idaho, Wyoming and Utah.

FOR THE AGED.

Paine's Celery Compound gives the needed stimulus to good digestion and assimilation, and keeps the blood pure.

Nature's medicine brings health and happiness to those in advanced years.

King David, the sweet singer of Israel, says: "The days of your years are threescore years and ten; and if by reason of strength they be fourscore years, yet is their strength labour and sorrow."

The physical troubles and burdens of old people are many. Disordered nerves, constipation, flatulence, drowsiness, indigestion, palpitation and impoverished blood seem to make them grow weaker day to day.

Paine's Celery Compound is a precious and invaluable medicine for old people. It is nature's true nerve tissue and flesh builder; it keeps the blood pure and fresh from day to day, regulates the organs of digestion, and keeps the appetite natural and healthy. No other medicine in the world so quickly recruits the strength and waning energies of men and women advanced in years. Paine's Celery Compound has added many long years to the lives of old people in the past, and to-day thousands sing the praises of the wonderful medicine, because it has bestowed peace and comfort and kept them free from the infirmities of old age.

HARTLAND, N. B., SEPTEMBER 3, 1898.

The store keepers have again decided to close their stores at 8 p. m. every evening, commencing Monday, Sept 5. This will be a great improvement over the long hours the clerks have heretofore been forced to keep and will give them a chance for recreation, reading, etc. This is a move in the right direction and we heartily hope it may continue all winter.

PLEBISCITE CAMPAIGN.

Brighton People are Pushing the Matter.
The work of the prohibition campaign is being energetically pushed in Brighton Parish.

On Monday evening a public meeting was held at East Windsor. The house was well filled and a good interest was manifest. The speakers were Allen Rideout, Walter Doucette, Jas. Faulkner, Jas. Simms and Rev J. B. Daggett. J. T. G. Carr was in the chair.

On Tuesday evening another meeting was held at McKenzie's school house in Carlisle. Rev'ds. J. J. Barnes and J. B. Daggett and Jas. Simms were the speakers.

On Wednesday evening Cloverdale was the place of meeting. J. T. G. Carr and Allen Rideout were the speakers of this occasion.

Next week an open air meeting will be held here in Hartland on Monday evening, and on Tuesday evening a meeting will be in the Newburg school house, back district.

The prospects are reported as being excellent for an overwhelming majority in favor of prohibition.

Hartland Market.

The fall marketing has not yet fairly commenced, and already prices are beginning to drop. But in comparison with the bountiful harvest of this and the scant crops of other years, prices will average better. The price of oats is now 18 and 23 cts., the latter price for re-cleaned ones. Hay is worth about \$4.00 first quality and a dollar less for second quality. Apples have been bought in large quantities and shipped by J. W. Boyer & Co. and Richardson, Porter and Co. to Edmundston and St. Stephen. The price went as high as 90 cts., at which there is a good profit to the raisers. Pork is worth 4 cts. on foot but local dealers are not buying as it seems that the farmers have no matured stock. Buckwheat meal is worth 80 cts.

The Fredericton Reporter of Wednesday says: Rev. John B. Gough and bride, nee Miss D'Orsay of St. John, are at Windsor Hall, having arrived here last evening.

South Knowlesville correspondence received too late for this issue.

Apple pearers, guns and all kinds of ammunition at Shaw & Dibblee's

There is too much fast driving and bicycle scorching on our narrow streets. A county by-law was made to provide immunity against this nuisance, and it should be respected.

The ADVERTISER is informed that an Exhibition will be held in Hartland by the Peoples Union Agricultural Society on some day between Oct. 1st and 10th. This sounds good. Further and complete particulars will be announced next week.

The little 5-year old son of Mrs. D. H. Pyne, who is visiting her mother, Mrs. Murdoch Matheson, met with a painful accident and a narrow escape from a broken limb on Monday. He was riding on a sloven loaded with slabs when he fell off and a wheel of the heavily laden wagon passed over his leg, which certainly would have been crushed had not a stick of wood lying in the road borne part of the weight of the wheel

General News.

Various Items from all Around.

The Disposition of the Philippines.

The disposition of the Phillipine Islands, which is generally recognized as the most difficult problem arising from the war, is to be settled in the final treaty of peace, which is to be negotiated at Paris by a commission composed of five representatives of each country; but in the meantime the United States is to hold the city, bay and harbor of Manila.

Tried To Shoot The Falls.

St. John, N. B., Aug. 26. — Two State of Maine Indians attempted to shoot the St. John Falls in a canvas canoe this afternoon, but were unsuccessful, their frail craft capizing. One of the men succeeded in reaching the shore, but the other was drowned.

Surrender of Manila.

August 13th, before the news of the protocol reached Manila, Admiral Dewey demanded the surrender of that city. The demand being refused, he began a bombardment of the forts, and at the same time General Merritt's forces made a land attack. After a brief resistance, the city surrendered unconditionally. Captian-General Augustin took refuge in a German war-vessel, and was carried to Hongkong.

The Pope's Successor.

The pope is in such precarious health that it is felt by those around him in Rome that he will not live for any length of time. Already there is much talk of his successor. Cardinal Rampolla who has been Papal Secretary of State for the Vatican for ten years is spoken of as having the inside track, for succession. An Italian has great advantages over a foreigner for the Holy See.—Reporter.

Will Return to India.

It is said that Miss Jessie Hooper intends to return to India shortly to resume missionary work there. She is now preparing for the journey, expecting to leave home in October next. Miss Hooper is not going out this time under any missionary society, but will labor with a native Indian woman who has been converted from heathendom, and who is now laboring on behalf of her countrywomen. The lady recently visited St. John and Miss Hooper met her there.—Fredericton Gleaner.

Fish Hatching in N B.

L. B. Knight of St. John, N. B., chief game warden, and T. F. Allen of Bangor, the Tobique Salmon club's superintendent, who has his headquarters at Andover, N. B., visited Caribou Sunday, from the latter place, to examine the Caribou fish hatchery and feeding station. These gentlemen expressed themselves as being very much pleased with the institution. The Republican understands that Mr. Knight is at the head of a movement to secure the establishment of modern fish hatcheries in New Brunswick.—Caribou Paper.

Serious Accident—Mrs. Young's Sudden Death.

Alber Brewer of Upper Woodstock, a well-known bridge builder, met with a painful accident on Saturday evening. He was driving home from his work on the Meduxnikik bridge, when his horse became uncontrollable and, turning sharply, threw him out with much violence to the ground, breaking two of his ribs.

The funeral of Mrs. Louis Young of Grafton, who died suddenly Saturday morning, was buried Monday afternoon. Her premature death has caused sincere sorrow throughout the vicinity where she was held in the highest regard.

The Maine Law Not A Failure

Quebec, Aug. 27.—Senator Dingley, of Maine, was seen yesterday in regard to the alleged failure of the prohibitory law in that state to prohibit the sale and use of intoxicating liquor therein. He was rather shy of Canadian newspaper men, after his experience of the language attributed to him a few days ago, and was loath to speak on that or any other subject. He was, however, willing to say in a general way that the charge that prohibition was a failure was absolutely untrue. He had had forty-seven years experience of the working of the Maine liquor law, and he was fully satisfied not only of its workable character, but of its beneficial effect.

Nedeau Got Bail.

George Nedeau who was taken to Portland last week by Dept. Marshall Norton of Belfast, has secured bail and returned to his home in St. Francis. Nedeau was arrested for shooting Officer McNally several years ago. He has been represented as an outlaw and a very dangerous man. His quiet and good behaviour while in the hands of Officer Norton, created a very favourable impression and no doubt did much in securing bail.

Nedeau is a jumping Frenchman, extremely exciteable, and possibly has been quite as much abused and wronged as the other fellow. He will go back to Portland for his sentence on the 27th of October.—Fort Fairfield Leader.

A Fine Hotel.

Nearly all the Maritime people that visit Montreal now stop at the palatial Queen's Hotel, corner St. James and Windsor streets. Although this house is now in the fifth year of its existence it must be said that its present high class has only been attained within the past twelve months. Ranking, as it does, second only to the Windsor, it has the agreeable reputation of moderate charges with no attempt at exorbitance on the part of the manager. Among other salient features this popular hotel possesses, is its central location; convenience to both R. R. stations; elegantly appointed dining hall; cozy parlors; large and airy bedrooms; passenger and baggage elevators; obliging attendants, etc. The Queen's Hotel caters to and shares the patronage of the highest class of travellers. One reason why it is gaining such a monopoly of the Maritime trade may be because of the popularity Mr. Geo. D. Fuchs, the manager, won for himself during the years he was at the Brunswick Hotel, Moncton.

A Popular Home Work.

Successful Only When the Diamond Dyes are Used.

In thousands of happy and thrifty homes in the Dominion and in the colony of Newfoundland the work of rug and mat making is becoming very popular. Homemade rugs and mats are more highly esteemed just now than imported goods. This is not surprising when we remember the fact that the home articles are the best wearing and prettiest.

The Diamond Dyes have given a great impetus to the work of making homemade rugs and mats. In former times the troublesome part of the work was the dyeing. With the old fashioned and poorly prepared dyes the dyeing operation was long and unsatisfactory. The introduction of the Diamond Dyes with their special colors for wool, and for cotton and mixed goods, has been a boon to womankind. Old and faded rags and yarns for mats and rugs can now be dyed any beautiful and brilliant shade with the Diamond Dyes—shades that are perfectly fast to sun and soap.

If you wish to be at all times successful in dyeing for rug and mat making, we here utter a warning note against the use of adulterated package and soapy grease dyes that only produce muddy and streaky colors that cannot possibly stand an ordinary washing. Ask for the Diamond Dyes, use them as per directions, and your success is sure.

We will sell croquet sets at reduced prices to clear them out. Shaw & Dibblee.

Read Shaw & Dibblee's ad. on the 5th page of this issue and govern yourself accordingly.

ADDRESS :

HARTLAND ADVERTISER,

Hartland, N. B.

"BREAK, BREAK, BREAK!"

Break, break, break,
On thy cold gray stones, O Sea!
And I would that my tongue could utter
The thoughts that arise in me.
O well for the fisherman's boy,
That he shouts with his sister at play!
O well for the sailor lad,
That he sings in his boat on the bay!
And the stately ships go on
To their haven under the hill;
But O for the touch of a vanish'd hand,
And the sound of a voice that is still!
Break, break, break,
At the foot of thy crags, O Sea!
But a tender grace of a day that is dead
Will never come back to me.

—TENNYSON.

Scott Act in Moncton.

The Scott Act Inspector for this county has been threatened quite frequently of late. He says a woman whose husband keeps a saloon on Duke street, Moncton, told him that if anything happened her husband as a result of Scott Act prosecutions, "his life would not be worth two cents." Another Moncton saloon keeper has also threatened the officer and has admitted that a scheme was put up in his house to waylay and kill him, but some of the parties "weakened." It is said that two parties recently sentenced to the penitentiary made a confession to Jailer Bowes at Dorchester that an effort was made to hire them to do the job.—Sackville Post.
