

The Union Advocate

Established 1867. NEWCASTLE, MIRAMICHI, N. B. WEDNESDAY, APRIL 25, 1894.

Newcastle Societies.

MEET AS FOLLOWS: NORTHERLAND LODGE No. 17. A. F. & M. in the Lodge rooms on the evening of the fourth Tuesday of each month at 8 o'clock.

COURT MIRAMICHI No. 165 I. O. F. in their rooms Masonic Hall, on the evening of the fourth Tuesday of each month at 8 o'clock.

Editorial Notes.

The excitement about the new tariff imposing a duty of ten per cent on tea is not imported direct from the country.

The local house was prorogued on Saturday morning last after the Lieut. Governor had signified his assent to a number of bills passed, reserving his assent to the bill respecting the use of tobacco by minors.

Mr. Blair refused to grant the request of a large number of petitioners asking for woman suffrage, and pleaded that he would like to see it tried in other countries before attempting to put such a law in force.

Mr. Blair endeavored to keep clear of such a step in advance, but as several political astuteness know that once woman had the privilege of voting there would be no need of withholding leaders of governments to conceal their acts of corruption as in the Leary and Quinn cases, for one such experience would relegate them to political oblivion and they would never again have the opportunity of disgracing their constituency and previous by such acts.

Hon. L. J. Tweedie in reference to the subsidy to the Rastler, and stating that the subsidy of \$400 granted would not be increased as it was quite large enough for the services rendered, and expressing the wish that the subsidy would be accepted by Mr. Russell and the services of the Rastler continued and the people of the Northwest accommodated.

The president and secretary on Monday had an interview with Mr. Tweedie in reference to the down river service, in which the matter was discussed, and the necessity of delivering freight at Newcastle on the same day as put on board the steamer Miramichi, and which had not been done in former seasons.

Mr. Russell explained his position in reference to the subsidy for the service up the Northwest. He could not run the boat for less than fifteen to sixteen dollars per day, and that did not include anything for interest on capital invested or for repairs. A subsidy of \$400 would only involve the steamer in debt and be preferred to keep out of that if possible.

The secretary presented the official document from the secretary of State, Ottawa, regarding the incorporation of the Newcastle Board of Trade under the general act of incorporation.

Remarks were made by Messrs. John Niven, P. H. Messer, James Troy and others and the meeting then adjourned until Monday evening next.

The Search Light.

We have received Nos. 1 and 2 of this monthly Probation paper, published in St. Stephen, at 25 cents per year. It contains a long and interesting article on the question of prohibition of the traffic and we commend it to the notice of temperance friends and prohibitionists.

The grass is commencing to look green on the square and the beds of the street to swell, and shortly it will be arrayed in full summer clothing.

General Intelligence.

Mr. John McGovern, of Toronto, relates an experience of his interest—utterly helpless and suffered grievously before Relief came.

Very little is heard by the general public of the great discoveries in medicine and the countless scores of lives that are saved by the advancing knowledge of medicine.

The Scott Act has been re-adopted in Charlottetown, P. E. I., by the small majority of two, the vote being 714 for the act and 712 against it.

THE GREAT SOUTH AMERICAN NERVE TONIC AND Stomach and Liver Cure The Most Astonishing Medical Discovery of the Last One Hundred Years. It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk.

This wonderful Nerve Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nerve Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

It is a GREAT REMEDY FOR THE CURE OF Nervousness, Broken Constitution, Debility of Old Age, Indigestion and Dyspepsia, Headache, Nausea, Vomiting, Weight and Tenderness in Stomach, Nervous Chills, Paralysis, Nervous Tremors and Nervous Choking, Got Flashes, Apitiation of the Heart, Mental Deceitfulness, Sleeplessness, St. Vitus' Dance, Nervousness of Females, Nervousness of Old Age, Neuralgia, Pains in the Heart, Pains in the Back, Failing Health.

NERVOUS DISEASES. As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nerve Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual.

A SWORN CURE FOR ST. VITUS' DANCE OR CHOLEA. My daughter, eleven years old, was severely afflicted with St. Vitus' Dance & Cholera. We gave her three bottles of the Great South American Nerve Tonic, and she is completely restored.

INDIGESTION AND DYSPEPSIA. The Great South American Nerve Tonic. Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach.

RHEUMATISM CURED IN A DAY. South American Rheumatic Cure for Rheumatism and Neuralgia radically cured in 1 to 3 days. He action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears.

CHANGE OF SEASONS. The budding forth of plant life as spring advances reminds one forcibly of the changes that are constantly going on in nature. Nor is it exempt from this change of the seasons, for with the spring, comes either renewed strength and vigor, or a feeling of lassitude and a generally enervated condition.

HAWKES' NERVE AND STOMACH TONIC is all that its name signifies, and more. It is a great blood and flesh builder, restores healthy digestion and renews the whole system.

while it is being filled. If the boxes and other parts are permitted to flutter into one place, and the stalks, ears and heavier portions are allowed to settle by themselves, the ensilage will not keep well.

The mixture is to be tramped thoroughly around the sides and in the corners of the silo.

After the silo is filled the surface should be leveled and thoroughly tramped; and after the lapse of not more than one day, it should be covered with a depth of 6 inches with cut straw or cheap fodder. This cut straw should be tramped down, and a foot of cut straw be put on top of that a few days later, probably two, waste ensilage will be found in the opening of the silo for feeding.

Feeding the ensilage—The Robertson Mixture is to be fed with a little less meal or grain per 50 lbs. of ensilage, than is usually required with ordinary Indian corn ensilage, to make an economical ration for feeding milking cows and fattening cattle.

Following appears in the Maine Farmer as the best egg producing ration for hens: Perhaps poultry raisers are aware that which is known among farmers as 'foul seed,' is the very best stuff to make hens lay yet such is the fact. I made the discovery some years ago in this way. I had a flock of hens, but I was getting no eggs, and there were no signs of eggs. Hens were in good condition, but combs and gills small and dark brown in color. They were kept in the barn, and the barn was cold and open, and my husband told me that I need not look for eggs before spring. In the latter part of December he said that he had a bag of foul seed, which he must destroy. Now I am a very economical woman, and at once thought that perhaps I might use this seed instead of burning them up; so I tried feeding them to the hens. They refused to touch them; then I tried mixing them with corn meal, and by scaling two quarts of seeds I found I had a ration that my hens devoured greedily.

Result? At the end of three weeks every hen was laying well. I have used it since and always with good result; am using it now satisfactorily.
