S. P. GRANT DIES FROM INJURIES

Early Friday, April 3, at Prescott Private Hospital occurred the death of Simon P. Grant a well known and respected Wakefield farmer. The deceased came to this community many years ago, when he married a daughter of the late Charles Birmingham and settled on the farm still occupied by him at the time of his decease.

Mr. Grant had been away from home for several weeks spending the time mostly with two brothers in Southampton, his native place. A little over a week ago he was working alone in his barn mowing away some straw on a scaffold when he slipped to the floor. In jumping to save himself, he miscalculated distance and came in contact with the wheel of a wagon stored on the floor. Injuries resulting from this accident made necessary his immediate removal to the hospital where every effort was made to save him but in vain as the end came on the above time and after days of intense suffering.

Since locating in this community the deceased has been actively interested in all church work and for a score or more years has been deacon in the Victoria United Baptist Church.

Services were held at the home and at the church Rev. L. A. Fenwick being the attending clergyman. Rev. P. J. Trafton was present at the church service and spoke feelingly of the excellent Christian qualities of the deceased. Mr. Grant was sixty-eight years old and in addition to a sorrowing widow and one son he leaves four brothers and three sisters.

Two brothers, Gordon A. and B. Grant of Southampton and one sister, Mrs. Salome Grant Shaw, were present at the final services, as were also more distant relatives Mr. and Mrs. Wright Southampton, Mr. and Mrs. Geo True Woodstock, Dr. and Mrs. Scriber, Portland Me., and others.

The deceased was highly respected in this section for his many excellent qualities as a neighbor and a Christian citizen and will be greatly missed in the community.

Beautiful floral offerings were sent by Dr. and Mrs. W. D. Rankine, Mr. and Mrs. Geo True, Mrs. Salome Shaw and Mrs. C. J. York and family.

Interesting War Incident Concerning Son of Former Hartland Girl

Mr. Editor: You and some of your readers, no doubt remember my nephew, C. E. Ogden who some 20 years ago was here on an extended visit and when he returned to England, carried away a bride from Hartland, Miss Nellie Sharp.

Their son, now a young man, is a skilled motorist and has enlisted in the Army Transport Corps. He however has not yet been sent from England but is stationed at Colchester where the Germans dropped bombs from aeroplanes a short time ago.

He drives an officers car. I received by last English mail a letter from my nephew, in which he relates an incident in his son's experience which may be of interest:

"Charlie told us of a little episode which happened him. He was called up by telephone about two o'clock one morning and told to take out his car. He was handed twelve rounds of ammunition for his rifle, and had to take in four privates similarly armed. His only instructions were 'follow

the officers car which precedes you'. Of course the boy wondered what was afoot. They drove on through the night until they reached a desolate spot on the East Coast, where the police had in charge three aliens who had been discovered with a wireless instalment nearly completed. They were handed over to the escort, and Charlie drove them back and landed them safely at Colchester. I asked him what became of them, but he shrugged his shoulders and said he didn't know, but I think he did."

Yours truly
John Barnett

Grafting In The Name Of The Union Jack

Canada is willing to vote millions for the empire's defence but not a cent for Tory grafters. Ponder over these facts:

1—Every time you put a war stamp on a letter you do so to pay for rotten shoes supplied for the first contingent.

2—Every time you put a stamp on an express or other money order, you are paying for graft on the purchase of horses for the first contingent.

3—Every time you discount a note at the bank or with a money lender, you are paying for graft through the government's purchase of horses at \$172 and selling them for \$55 each, because they were not needed or unsuitable.

4—Every time you issue a cheque, by using a war stamp you are paying for "graft horses," bought, shot and sent to the glue factory.

5—While you are taxing yourselves by war stamps, etc., the Tory officials are living at Ottawa in riotous extravagance at your expense; purchasing luxurious sleeping lounges for their offices whilst the brave first contingent volunteers are glad of a bundle of clean straw "at the front" or of a shingle to fasten on as soles to protect their shoes.—Transcript.

Successful Recruiting for 55th Battalion

Recruiting for the 55th battalion is going on well. Fifty-nine have enrolled at Woodstock and others are ready for the medical examination. Dr. Gardiner, the regimental examiner, did not reject a man in this contingent, which speaks well for the type being selected. Lieut. Graves went to Perth this week on a recruiting tour, Major J. J. Bull doing the work in this county. Uniforms and shoes for the men are expected this week.

During last week the following were enrolled: Joseph E. Willett, Grand Falls; Ensign Clement, Four Falls; Perley Graham, Eel River Lake; Thomas Green, Debec; Earl Morris, Kilburn; Edward Donley, Bath; A. Vandine, Centreville; John Banks, Arthur Barrett, Northampton.

LIEUT. W. B. SHAW AT THE FRONT

In France, Mar. 18
Dearest Mother and all:

Letters and parcel received O. K., and such a treat! Just like a Christmas stocking and the same expectant feeling when opening the box.

Both our sections have now taken up position forward and have done a good deal of shelling. We fired a good deal yesterday. We have also been getting shells in return the last few days but none of them have been close enough to damaged the guns or give any casualties. The position is, perhaps, further forward than any battery in the division, within rifle fire range of the German trenches.

I am going up observing tonight to a new observing station which we may use permanently. Mr. Taylor and Capt. Stewart observed from there this week and found it very interesting. An advance has been made which you will read about.

The people here are left far from attractive in their habits of life, but the sun is shining, the roads are dusty, everything is rosy and nothing to worry about. Love to all and God bless you all,

WENDELL

FLEMING "EXONERATED" AGAIN

In an amazing editorial the Woodstock Press this week applies the whitewash brush to the one-time premier of the province, J. K. Fleming.

It says Fleming is a poor man. It says he is of unimpeachable character.

It says the late Royal Commission found no guilt in him.

If the Press means "Fleming is a poor man" to represent Carleton county, or to rule the province, it is sure right; but he is a jimdandy crackerjack at gathering in a campaign fund.

If Fleming is of such saintly character, and the Royal Commission found no guilt in him, why is he not premier of the province today?

In India, or wherever it is the beasts grow, the natives worship the white elephant with solemn faith. But when Barnum brought one to America it proved such a failure that he coined a famous expression—a white elephant on his hands.

The Press may pretend to worship its white elephant but it realizes that to do so is mawkish sentiment.

All the whitewash in the world will not conceal the boodle stains that besmirch the Tories' white elephant.

POLITICAL NOTES

The Chatham World, discussing the fact that \$2,903 given by the Dalhousie Lumber Company to W. H. Berry on stumpage account was passed on to J. W. Brankley of the Miramichi Lumber Company without any record of the transaction in the public accounts, says that Mr. Fleming, if the money was due the last named company, should have paid it openly and above board, and not "sneakingly and underhandedly." The World further asks how many such "irregularities" have escaped detection, "and how many future rebates and check-switchers are liable to occur when election funds are to be raised." This is a very pertinent question.

Almost the first thing the Liberals did when they came into power was to reduce letter postage from 3 to 2 cents. At the first opportunity the Tories re-started the old rate under pretext of war necessity. But they have refused to promise to reduce the postage when the war ends. However, the people know the next Grit government will do so.

A minority reports is necessary to give official standing to the fact that a weakening and treasonable fraud has been perpetrated by British subjects in Canada who took advantage of the Empire's necessities. This shows a dark political outlook.—Toronto Globe.

TRUCE POLITICS

Sir Wilfrid Laurier and his supporters, while they have said enough to show what they thought essentially wrong in the acts of government, have let measures slide through that at other times they would have fought with all the reason, wit and physical endurance that they possessed. No one can blame them for demanding a few investigations, such as those into the sale of drugs to the government, the sale of boots for the army, and the purchases at Valcartier.

In the House of Commons they have held back their natural desire to oppose to the extent of lenience if not tolerance.

Occasionally they have used their speeches in opposition for the creation of party capital, their speeches have not all been sincere and judicial, but on the whole we think the partisans of both sides in the country will acknowledge that they have recognized the desire of the country that the government be given a free hand in its prosecution of the war.

They have never debated the government's proposed method of raising money for the war by a loan, they have never criticized the number of men the government proposed sending, there has hardly been a word of criticism directed against the militia department in its handling of the men, though some seems to be called for, nor has the government ever been called on in the House to bring to account the Minister of Militia, even on the occasions when he has made the absurd mistake of supposing himself to be a Kaiser.

Now the government, it is said, proposes plunging the whole country needlessly into a political warfare right in the middle of our European war.

Every day the impression is growing stronger that the government is determined to have an election in June.

Why? Parliament will not probably meet again till December, or more likely January.

There is time enough for an election after the fall crop has been harvested, and after the soldiers have returned from the war. An election at such a time would not at all interfere with the running of the government or the business of the country.

There is only one possible reason, for the government desiring to bring off an early election. In war time an opposition is muzzled. If the government which has demanded from the opposition a respite from criticism on the ground that internal strife is not seemly at a time when the country is fighting for its position in the world, should go to the country in the early summer, while the war is yet on, and it can find no other excuse for such action than that it will thereby gain political advantage, it may gain a momentary advantage, but at a cost of going down to history in dishonor.—Montreal Witness.

AT F. E. SAYRE'S GASOLINE left over from woods work, below cost, in lots not less than one barrel, 20 Cents a Gallon, cash. ALSO Pair Team Horses weighing not less than 3000, with or without harness. Young, sound and good.

How to Paint for Less Money

We'll tell you how in three words—use less gallons. That's the thing to go by in Paint—not the price per gallon, but the number of gallons required plus the length of time it will wear and look well.

"100% Pure" Paint costs about half as much, covering the surface it covers, and wears two or three times as long as ordinary paint.

You pay by the gallon—both for the paint and for the application. The Paint that is cheapest for you is the paint that gives the most surface.

MARTIN-SENOUR "100% PURE" PAINT

"MADE IN CANADA"
has a covering capacity of 900 square feet of surface per gallon on cast, 95 against 500 square feet covered by hand-mixed Lead and Oil—on good square feet covered by low priced prepared paint.

And as further proof—if you will send us the dimensions of your house, we will tell you the number of gallons of "100% Pure" Paint required to cover it thoroughly. No charge for this service.

Ask for a copy of our interesting book "Town and Country Homes". It is free to our friends.

Mogul Oil Engines

The International Harvester Mogul Oil Engine is the latest development in internal combustion engine of portable power 17 1/2 hp, an engine that will run on either kerosene or gas. Furthermore, kerosene has greater explosive power, at considerably less cost, and much less danger in handling. The Mogul Engine is constructed with automatic crank case and mechanically operated valves and has automatic force feed oiler on 17 1/2 hp. This engine is made in sizes from 1 1/2 to 20 horse power, equipped with absolutely frost proof and do not have to be drained off even in the coldest weather. Hon. Robert Rogers on Saturday declared himself in favor of a general election; making the senate the issue. His real desire is to run a flag election and snatch a favorable verdict from the people before any further relations, such as those in connection with military supplies, are made at Ottawa. He realizes that the machine can be operated more effectively now than when the people have got more inside information about the scandalous grafting operations winked at by the government.

THE "TRUCE" IS AT AN END

Sir Robert Borden's speech of Thursday makes an end of pretence. If the holding of an election in June or September, while the Empire is still engaged in a struggle for existence against the most formidable foe it has ever encountered, seems likely to prove advantageous to the Conservative party Parliament will be dissolved. The fact that there is no legal need for a dissolution before the fall of 1916, when the war will be nothing more than a memory and the tens of thousands of young Canadians of both parties now in the trenches or in camps in the Dominion will be back home in their respective constituencies, is not likely greatly to influence the Premier. He has deliberately put the country's interests in a position of inferiority. Party comes first. The whisper of the Hon. "Bob" Rogers has more influence than the sincere protests of thousands of honest Conservatives who object to the intrusion of party when the supreme need of the nation is harmonious co-operation in measures to strengthen the armed forces of Dominion.

Not only are we to have an election, but we are to have a political campaign deliberately planned with the object of raising the "loyalty" cry once more. Laurier and the Liberal party are represented as "caring not one whit for the Empire," and the wavering elector is to be implored to vote Conservative because "Borden backs Britain." Thousands of young Liberals and many of their elders are the front prepared to shed their blood for the Empire, yet the authorized last-minute Conservative election poster, prematurely discovered at Ottawa, throws upon them and their Parliamentary representatives the odium of following a leader who "cares not a whit for the Empire."

The Globe calls upon Liberals everywhere to combat actively these slanders against the chief of the Liberal party. There is no need to wait till the writs are issued and the campaign formally begun. Sir Wilfrid has been lied about in a most disreputable way. He and his followers dared to divide the House in opposition to the increase of the taxation upon British goods. The authors of the British preference sought to defend it from emasculation. That is the offence for which they are to be punished. But not openly. There is to be no repetition of Sir Charles Tupper's declaration of 1900 that Laurier was "too British" for him. There is to be no campaign such as that of 1910-11 in Quebec, in which Laurier was represented as the arch-Imperialist engaged in "selling out" the French-Canadians to Britain in return for a title and a riband, and determined to build a navy in which the sons of the habitants were to be sent to fight Britain's battle all over the world. All that is past. Once more the Conservative party is to appropriate the flag as its exclusive property. "Borden backs Britain" is to be the rallying call. Beneath the folds of that flag will march not only the great army of honest, patriotic Conservatives, but the makers of shoddy army boots, the men who sent Canadian officers to the front with inferior field glasses that cost them \$20 and the government over \$50, the crooks who bought horses so old that they were rejected for that reason fifteen years ago during the South African war, the purveyors of supplies for the wounded at extortionate prices, the gentry who said they had influence with the Minister of Militia and coined that influence into money, and all the other grafters, rake-off men, and contract jackals who have been sniffing and yelping around the national treasury during the past eight months. The flag will fly over all.

Your Grocer

sends out KING COLE TEA confident that it will please. He has a positive assurance of its quality, in the guarantee on every package—entire satisfaction or money refunded. There is no stronger guarantee of quality. "You'll like the flavor."

"Laurier cares not a whit for the Empire," we are told. Yet he has given to the service of his country and of the Empire the years that most men spend in the acquisition of wealth. He has walked unstained through the mire of Canadian public life for over forty years. No man ever accused him of profiting from his high position. Sir Wilfrid is not facile in flag-waving. To him the flag is something more than a pawn in the political game. It represents great deeds, high ideals, all that is noble in human aspirations. It is with something like amazement that he sees the coarse corruptionists who are sending our soldiers to the front with rotten and inferior supplies taking shelter under the flag they have disgraced, while once more he is to be held up to the approbation of Ontario as one who cares not a whit for the Empire.

The duty of Liberals is plain. They must drag the crooks and grafters from beneath the shelter of the flag. It must not be allowed to shield their particular brand of scoundrelism.

Committee Finds Boodle Transactions Must Go to Department of Justice

Ottawa, April 13—The curtain dropped today on any further disclosures in the public accounts committee this session. The probe has been inserted into only a few of the transactions to which the auditor-general has already directed attention, horses, binoculars, surgical supplies, housewives, drugs and motor transports, but with the government ready to prorogue the house in a day or two, there was no time left for the committee to start any new cases.

There were others waiting, including the connection of middlemen with militia supplies of clothing, saddlery, shirts, hardware, pails, and other equipment, etc., but although the fringe had already only been touched, the committee decided to report the evidence to the house with recommendations that it be referred to the justice department for further action, that further investigation be made by the government, through a commission, of all irregularities, and that governmental and parliamentary action be taken to inaugurate a system of purchase, audit and inspection which will adequately protect the country from irregularities and fraud.

The passing of these recommendations practically declared that the committee had found fraud on a large scale and that there was something wrong with the whole system of the purchasing and inspection of government supplies.

Holland Wants Hay and Oats

For some time C. H. Taylor has been in correspondence with a firm in Holland who want hay. They want it badly and offer a good figure, but the only drawback is that they require it delivered at their home port, and this, under existing conditions, Mr. Taylor does not see his way clear to guarantee. The Dutch people also want oats, but as the same conditions apply it is doubtful if they get them from Canada.

The Toronto Globe hears that a mid-June election is not improbable. Liberal candidates should be nominated at once.

There are now eight thousand names on the Ottawa patronage list, yet some pessimists hint that Canada is lacking in loyalty.

More and more it becomes clear that Canada is soon to have a general election.—St. John Globe.

SPRING BLOOD IS WATERY BLOOD

How to Get New Health and New Strength at This Season

Spring ailments are not imaginary. Even the most robust find the winter months most trying to their health. Confinement indoors, often in overheated and nearly always badly ventilated rooms—in the home, the office, the shop and the school—takes the vitality of even the strongest. The blood becomes thin and watery and is clogged with impurities. Some people have headaches and a feeling of languor. Still others are troubled with disfiguring pimples and skin eruptions; while some get up in the up in the morning feeling just as tired as when they went to bed. These are all spring symptoms that the blood is out of order and that a medicine is needed. Many people take purgative medicines in the spring. This is a serious mistake. You cannot cure yourself with a medicine that gallops through your system and leaves you weaker still. This is all that a purgative does. What you need to give you health and strength in the spring is a tonic medicine that will enrich the blood and soothe the jangled nerves. And the one always reliable tonic and blood builder is Dr. Williams' Pink Pills. These Pills not only banish spring weakness but guard you against the more serious ailments that follow, such as anemia, nervous debility, indigestion, rheumatism and other diseases due to bad blood. In proof of this Mrs. D. E. Hughes, Hazenmore, Sask., says: "About a year ago I was badly run down my nerves were all unstrung, and I could not go up stairs without stopping to rest. As I was a long ways from a doctor I decided to take Dr. Williams' Pink Pills and in the course of a few weeks I felt like a new person. As an all round restorative I can heartily recommend this medicine."

If you are ailing this spring you cannot afford, in your own interest, to overlook so valuable a medicine as Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Was Troubled for Years With Kidney Disease

And This Treatment Cured Me—This Statement Endorsed By a Baptist Minister.

The great majority of people are familiar with the extraordinary curative powers of Dr. Chase's Kidney-Liver Pills. But for the benefit of those who are not we continue to publish from day to day reports from persons who have been actually cured.

The case described in this letter was an extreme one, and the writer was in a very low condition when he began the use of these pills. The cure was so marked that Mr. Mosher's pastor did not hesitate to vouch for his statement. By their unique combined action on the liver, kidneys and bowels, Dr. Chase's Kidney-Liver Pills cure in

complicated cases which defy the action of ordinary kidney medicines.

Mr. W. H. Mosher, Brockville, Ont., writes:—"I used Dr. Chase's Kidney-Liver Pills, and firmly believe there is no medicine to equal them. I was troubled for years with kidney disease, and this treatment has cured me. When I began the use of these pills I could only walk from my bed to a chair. Now I can go to the field and work like any other man. Dr. Chase's Kidney-Liver Pills are an excellent medicine."

MR. MOSHER.

This statement is certified to by the Rev. E. H. Emmet, Baptist minister of Brockville, Ont.

By awakening the action of liver, kidneys and bowels Dr. Chase's Kidney-Liver Pills cure Constipation, He-lachos, Chronic Indigestion, Kidney Disease, Liver Complaint and Backache. One pill a dose, 25 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.
