How to Live weil.

### The Experimental Farm.

work has been pushed steadily and on the 15th inst the first regular passenger train ran over the entire route. The line from Oxford Junction to the pretty and thriving town of Oxford, lies through a level but uncultivated tract. At this place a very hand-some and commodious station of bricks and dispute the expressions of the warmest friendly feeling and regret that the community was to be deprived of one of its most useful and earlies that war is imminent between Guatemala and Salavdor.

—A twelve year old boy stepped into Courtney Bay, St. John, the other day and was drowned.

—A porcupine having six legs was shot near St. John, recently. All the expressions of the warmest friendly feeling and regret that the community was to be deprived of one of its most useful and earlies that war is imminent between Guatemala and Salavdor.

—A porcupine having six legs was shot near St. John, recently. All the legs were well developed.

—The London Times commends the reported course of the U. S. Government in reverting to its Behring Sea will soon be started in that town.

Sould and visit it. But unless an Island agriculturist leaves home with the expressions of the warmest friendly feeling and regret that the community and was drowned.

—A boot and shoe company is being organized in Hantsport, and a factory will soon be started in that town.

—The London Times commends the reported course of the U. S. Government in reverting to its Behring Sea policy of 1888.

—Mr. J. Ross Roberston, of Toronto, has been elected grand master of Freemasons for Canada, and Hon. J. M. Gib.

—The Patriot clearly shows its

is equally true regarding the great advantage accrning to a colony in continuing part and pared of a vantage accrning to a colony in continuing vantage accrning to a color propagation of the part and ation, we must endure in pocket and in person, the rapacity of our invaders, and even contribute for the support of wa foresight, a little self-denial in peace, will produce that preparedness for war which is the palladium of national security. When we see the United States beginning to emulate the armed nations of Europe in providing fleets of war vessels and devoting hundreds of nillions to forts and armaments, we may be satisfied that all this preparation is not for nething, and that we,too, should put our house in order if we would avoid humiliation and possible disaster."

### This is Correct.

(From the Toronto Globe:)

(From the Toronto Globe:)
"The Halifax Herald apparently forgets that in 1865 and again in 1869 the Tory party was willing to make any sacrifice for reciprocity; that in 1878 Sir John hoped to get it through reciprocity of tariffs; and that only the other day Sir Charles Tupper offered to settle the fishery question on that basis." The Globe then admits that the ex-

### THE SHORT LINE. BETWEEN OXFORD AND PICTOU.

Saving of 33 Miles and a Fine Section of Cou try Opened Up.

It is now about three years ag The Charlottetown Patriot, in the since work was tenimened appropriate to the course of a recent editorial, assails the line between Oxford Junction and Hall to say farewell to him on the eve of Neals, at Gagetown, was destroyed by the town of Pictou passing through the fertile district of Tatamagouche pan as an institution of no practical the fertile district of Tatamagouche in Ontario. The whole proceedings, Maritime Experimental Farm at Nappen as an institution of no practical benefit to the farmers of these provinces, and a galling burden to the tax-payers of Canada. It says:

In between Oxford Junction and the between Oxford Junction and Pictou passing through the fertile district of Tatamagouche and Pictou county. Since then, the work has been pushed steadily and on the 15th inst the first regular passing through the provinces.

Nappan, he is never likely to see it in a and several stone culverts were relifietime."

The Patriot clearly shows its ignorance of the nature, requirements and utility of the Experimental Farm in the above paragraph. Already the farmers in various sections of the Island, in fact every farmer desirous of keeping abreast of the times in his long years of connection with it. The presence of himself and family has long been felt in Sackville and the citizens would ever feel the irreparable loss which it would sustain in his removal. In the presence of himself and family has long been felt in Sackville and the citizens would ever feel the irreparable loss which it would sustain in his removal. In this long years of connection with it. The presence of himself and family has long been felt in Sackville and the citizens would ever feel the irreparable loss which it would sustain in his removal. In this long years of connection with it. Island, in fact every farmer desirous of keeping abreast of the times in his business, have made large and satisfactory sowings of the different varieties of grains which have been tested and have been proved valuable at body of earth which had been dumped body of earth which had b

mich approach which we have the report of which a present with a place of grange which appeared productive. The use present of the farm to the farmers of the Land possible of the farmers of the Land possible of the farmers of the Land possible of the L

the dark green back-ground of the wood-covered hills. Across the river looms up Green Hill, from whose summit a commanding view of the surrounding country may fe had, and as the town of Pictou is approached, the train winds along a mazy intricacy of curves against incursions from such vast sources of enterprise. If this be true, and it hardly admits of a doubt, we are called upon to admit that the converse is equally true regarding the great advantage accruing to a colony in continuing part and parcel of a vast trading empire, and thereby securing access to for the less talented.

Losiah Wood, W. F. George, H. S. Trueman, E. Woodworth, C. Pickard, Geo. E. Ford, Harry Dickson, S. C. Wells, J. R. Inch, Frank B. Black, W. F. McDougall, W. F. McDougall, W. F. McDougall, W. F. McDougall, S. C. Wells, J. R. Inch, Thos. Murray. Those surrounding country may fe had, and the many fine drives and walks recreation for the less talented.

### CLIMAX THE

Has Been Reached and Every Doubt Removed. Fawcett's Furnace is the Best!

I NOW TAKE GREAT PLEASURE IN OFFERING MY

"Climax" Wood Furnace

to every one desirous of obtaining a first class Heating Apparatus at a mederate cost. This Furnace has been thoroughly tested throughout the New England States and has given perfect satisfaction, besides a large number of them have been in use in the Maritime Provinces for the past two years and from the experience of those using them, I do not hesitate

Far Superior to any Furnace in the Market.

The fire BOX is made wholly in one piece and heavily corrugated; thus giving it great strength and a large heat radiating surface. The RADIATOR is of cast iron jointed only at the base in same style as the Fire Box, so that smoke cannot possibly escape into the heated rooms, as is the case with many of the Wood Furnaces in use. An examination of most of the Wood Furnaces in use, will reveal to you the fact that they are all more or less warped and cracked with but one or two seasons wear, and cases exist where the sc called cheap Furnaces have proved useless and had to be renewed within the space of one year. I WARRANT THE "CLIMAX"

to last longer than any two Furnaces of other makes, give more heat with a less quantity of fuel and so yery compact that it can be set up in . many places where other Furnaces could not possibly be placed.

The price has been reduced which gives the "CLIMAX" the preference far before all others. Estimates furnished and every Furnace put in Warranted

A CAREFUL INSPECTION OF THE "CLIMAX" IS SOLICITED. CHARLES FAWCETT. SACKVILLE FOUNDRY.

to give entire satisfaction.
