## Fire Prevention Day, Oct. 9th

### PREVENT FIRES

#### In Your Home

By removing all Rubbish and Litter. Have your furnace and stove pipes in proper condition. Properly installed Lightning Rods are more than 99 per cent. efficient.

#### In Your Factory and Shop

By removing oily waste and other fire menaces. Prohibit smoking on the premises. Cleanliness, order and forethought are important factors in reducing fire waste. Provide better and more systematic inspection and watchman service and also more efficient fire-fighting equipment.

#### In Your Office

Do not leave lighted cigars or cigarettes where they may start a fire. Do not throw a lighted match into the waste-paper basket.

#### In Your School

By teaching the children the danger of Fire. Before leaving each night see that there can be no overheated stoves or furnace. Teach the children not to play with matches.

#### In Your Church

Have chimneys properly cleaned out before starting your furnace. Never put on an extra fire except when someone is on hand to attend to it.

**ONTARIO FIRE PREVENTION LEAGUE, INC.**  
Affiliated with Ontario Fire Marshal's Office, Department of Attorney-General, Parliament Buildings, Toronto

**McPHERSON & CLARKE**  
PLANING MILL LUMBER DEALERS  
GLENCOE, ONT.

### DISTRICT AND GENERAL

Hay sold at \$30 a ton on the Sarnia market last week.  
The Prince of Wales will visit London, Ont., on Oct. 23.

A woman in Milwaukee was fined \$10 for smoking on the street.

It is predicted that eggs will be one dollar a dozen next winter in New York state.

Douglas McKellar, a former prominent business man of Strathroy for many years, is dead.

A Cincinnati minister prayed for the success of his town's baseball team and asked his congregation to do the same.

A petition has been circulated among the ratepayers of Alvinston asking for a Government audit of the village books.

A street dance in the evening was one of the features of Strathroy Fair. The grand march was led by General and Lady Currie.

There is a shortage of about 4,000 teachers in Missouri, and almost as many in Kansas. Low salaries is given as the cause.

The Invererie Hotel at Port Stanley is soon to be razed, and its site divided into lots and sold for the erection of summer cottages.

Stuart McCallum of Newbury has purchased the general store, postoffice and mail route at Walkers Station and will take possession shortly.

A survey made in Massachusetts shows that only eight persons out of every thousand know the Lord's Prayer or the Ten Commandments.

John W. King of Brooke was seriously injured by a derrick falling upon him while he was assisting to get a drowned horse out of a chum.

Mrs. Mary Crouse of Aldborough, aged 73 years, died at the home of her daughter, Mrs. Hoover, near Rodney, from injuries sustained by a fall.

Now that a parcel post has been resumed to Germany, people in Milwaukee are deluging the mails with sausages for relatives in the Fatherland.

Billy, nine years old, son of John Peters of London, died a few hours after being scalded when a preserving kettle of peaches upset on the stove.

The gasoline tank of a government mail plane bound from New York to Chicago exploded above Cleveland, setting fire to and burning two houses.

The New York Sun has raised nearly \$6,000 for the Tanner children orphaned when their parents were run down by an express train in a Chicago suburb.

As a result of the Board of Commerce probe at Winnipeg pork prices will decrease fifteen cents a pound immediately, according to a statement made by a packer in that city.

Hutchinson township council refused to submit a by-law to provide for the erection of a memorial hall, the opinion prevailing that the ratepayers are not in sympathy with the movement.

The death occurred a few days ago at her home on the Murray Indian Reserve of Mrs. Johns, wife of Chief Sam Johns, following a long and severe illness. Two of her sons served in the war.

Already totalling \$1,652,000, it is expected that the amount of building in London, Ont., during this year, will reach more than \$2,000,000. This will be the highest record for building in the history of the city.

During the six months in which the government bureau has been in operation employment has been secured for upwards of 529 men and women. At present there are only four men on the list for whom employment has not yet been found.

Several farmers in the vicinity of Thamesville went extensively into the growing of tobacco this year, and are now reaping a profitable crop. One farmer states that from four and a half acres he expects to receive between \$3,000 and \$4,000.

Windsor business men declare that smuggling from Detroit into Windsor is increasing from month to month, and place \$3,000,000 worth of American goods at the average amount brought into Windsor in the last year, on which no duty is collected.

At the meeting of the London Presbyterian last week the call from the West Lorne and Crinan congregations to Rev. A. L. Carr of London, formerly of Fernie, B. C., was sustained. The induction will take place at Crinan church on Thursday, Oct. 2, at 2 p. m.

The custom of thinning out the deer on the government park at Rondeau will be carried out this fall as usual, although the number to be slaughtered will not be as large as last year. A carcass can be secured at a low price per pound by making application to the park authorities.

Nation-wide prohibition is making the proprietors of the famous vineyards of the Lake Erie islands rich in spite of themselves. The price of grapes produced this year is about 40 per cent. higher than last year, and five or six times as high as the growers obtained a few years ago.

The fruit this year is of exceptionally high quality and the yield abundant.

It is claimed that six hundred Methodist ministers stationed in all parts of Ontario will be disfranchised as a result of the fact that their removal to new charges occurred on July 1. The law stipulates that a voter must have resided in the municipality in which he is a resident prior to April 15 and none of the recently-transferred ministers can qualify in that requirement.

The matter is being taken up in their behalf by the temperance forces, but it is not believed that anything can be done to give them a voice in deciding the fate of the Ontario Temperance Act.

### GLENCOE'S BIG FAIR NEXT

Prize List Has Many Additions—Races, Band Music, and Other Attractions

Glencoe's annual big fair, Tuesday and Wednesday of next week, will be more popular than ever this year. The energetic staff of officers and directors are putting forth a special effort to instruct, entertain and amuse the large crowds that have never failed to patronize the show.

Many prizes are to be found in the extensive prize list, particularly of special prizes and in the domestic science, ladies' fancy work and fine and decorative art classes. A thorough revision has been made also in the floral exhibits and grain and roots and vegetable classes, bringing them more up to date, while the value of the livestock prizes is fully maintained.

For Wednesday afternoon a splendid program has been provided for the horse ring and speeding track. The services of the Marconi Italian brass band of London, said to be one of the best in Canada, have been secured to furnish a liberal selection of musical numbers. Other attractions are being arranged for.

In the evening at the opera house the comedy drama "It Pays to Advertise" will be presented by the Forest City Dramatic Club. This play has met with wonderful success in the large cities and will be sure to please. Intending exhibitors are advised to make their entries as soon as possible. Bring out the best you have and show how well this community is keeping to the front in the way of production.

**SCHOOL FAIR AT APPIN**

Ekfrid township hall was well filled on Friday by exhibits of five rural schools, the fair being held under the direction of the department of agriculture. Threatening weather did not dampen the spirits of the children, who were present in large numbers.

R. A. Finlay, district representative, was assisted in judging by F. A. Lockwood of Mt. Brydges; A. Sanderson, Springbank; J. E. Kedwell, Ailsa Craig; John Tall, Delaware; Mr. Whitmore, Detroit; and Miss C. N. Welsh, of the department of agriculture, London.

All the classes were well contested. The Women's Institute gave prizes in a number of specialties, and also conducted a refreshment booth. Displays of cooking, of sugar beets and other vegetables were exceptionally good.

There was a good contest in public speaking, which was won by Miss Olive Black, of the Appin school.

Trained animals, which many of the boys and girls exhibited, attracted much attention. The canines, which could shake hands and do other tricks at a word of command, were very numerous.

**GLENCOE HIGH SCHOOL**

The first meeting of the literary society for the term was held in Form III, on Thursday, Sept. 18th, when the following interesting program was given:

President's address, E. McDonald; secretary's report, E. Leitch; instrumental, Reta Kerr; address, Mr. Campbell; reading, Mary Westcott; reading of Oracle, F. Moss; roll call, responded to by quotations from Burns; respondent's report, Miss Steele.

**NIXON-TURK**

Wardsville, Sept. 17.—A pleasing event took place at the home of Mr. and Mrs. William Turk, when their daughter, Florence Beatrice, was united in marriage to Clarence Reid Nixon, both of Aldborough, by Rev. Dr. Husser of Wardsville.

The bride was becomingly attired in a gown of white crepe de chine, wearing a veil of white embroidered net with orange blossoms, and was given away by her father, while Mrs. Stanley Turk played the Bridal Chorus.

During the signing of the register Miss Olive Martindale sang "With You," after which a sumptuous repast was served.

The groom's gift to the bride was a handsome set of taupe wolf furs.

The happy couple left amid showers of confetti for an extended motor trip to London, Hamilton, Niagara Falls and Port Stanley. On their return they will reside on the groom's farm in Aldborough.

About thirty guests were present, including friends from Forest and Caladenia.

The bride received many beautiful and useful gifts, testifying to the high esteem in which she is held by her many friends. All join in wishing both a very happy and prosperous future.

**CLEMENTS-McDONALD**

Alvinston, Sept. 22.—A very quiet but pretty wedding took place at the home of Mr. and Mrs. David A. McDonald, Maple Hurst Farm, Euphemia township, on Wednesday last, when their daughter, Mary, was united in marriage to Alex. Clements of Moss township, in the presence of a number of the near relatives. Rev. R. G. McKay performed the ceremony, which took place at high noon. Archie McLean, the bride's cousin, played the wedding march and little Barbara Graham acted as flower girl. The bride wore a gown of white crepe de chine and a bird veil, and a travelling suit of taupe. The happy couple left from Glencoe via G. T. R. for a honeymoon to different points and on their return will reside on Mr. Clements' farm in Moss township.

Wedding cake boxes at The Transcript office.

### CONSERVATIVE IN THE FIELD

D. C. McKenzie, Police Magistrate, Nominated for the Ontario Legislature

Liberal-Conservatives of West Middlesex met in convention at Mount Brydges on Friday and selected Donald C. McKenzie of the Longwoods Road, Ekfrid, as standard-bearer of the party in the coming election for the Legislature. Others whose names came before the convention are Dr. W. A. Woods of Mount Brydges, John McEwen of Delaware and John Monteith of Delaware. They all withdrew in favor of Mr. McKenzie, who, having left for home before the convention concluded its business, has since accepted the nomination.

This will make the coming election in West Middlesex a triangular contest, with the three candidates residents of Glencoe or the immediate vicinity. Mr. Elliott, the present able representative and Liberal candidate for re-election, has been a well-known barrister in Glencoe for several years.

Mr. Lethbridge, candidate of the United Farmers, retired from the farm in Ekfrid to Glencoe a short time ago, and Mr. McKenzie is a well-known and progressive farmer residing a few miles from Glencoe, where he has frequently in the last few years officiated as police magistrate.

From a local standpoint at least the contest promises to be one of lively interest, and there are few at this stage who will venture an opinion as to the probable result.

**TWO NEW TRAINS**

Two more passenger trains will be added to the service on the Windsor division of the Grand Trunk next Sunday, when a change in the time table is made. One of these trains, to be known as No. 7, will run from Toronto to Detroit and will be due at Glencoe about 4.40 a. m. The other, No. 20, will run from Detroit to Toronto and will be due at Glencoe about 5.30 a. m.

Two changes in time of the old trains is noted. No. 115, westbound, now due at 1.31 p. m., will be about 45 minutes earlier, and No. 354, mixed from Petrolia, now due at 5.30 p. m., will be 25 minutes later.

**NEWBURY MAY TAKE HYDRO**

A well-attended meeting of the ratepayers of Newbury was held in the town hall, Newbury, Monday evening, to discuss the advisability of taking steps to obtain hydro light and power for the village. Ex-mayor Beamish of Bothwell and Mr. McDonald, members of the Bothwell hydro commission, were present and explained a number of matters in connection with the working of hydro to the satisfaction of the audience. At the close of the meeting a number of resolutions regarding by-laws, rates, etc., and if found satisfactory, to take immediate steps looking to the installation of hydro. The motion was carried almost unanimously.

**DEATH OF MRS. ELIZA EATON**

There died on Thursday, Sept. 18th, in Dunwich, at the home of her daughter, Mrs. Dougald Campbell, Eliza Corneil, relict of the late Philip Eaton, in her 85th year, after an illness extending over several months. Mrs. Eaton was an Ekfrid pioneer, the fourth child in a family of fourteen. Her parents were the late Philip and Letitia Corneil, who emigrated from Ireland in the late twenties, coming first to Montreal, then a few years later to Hamilton, where the subject of our sketch was born. Soon after they moved to Ekfrid township, where Mrs. Eaton lived continuously until within a few months of her death.

On Dec. 5, 1854, she was married to the late Philip Eaton, who had also emigrated from Ireland and who predeceased her some 45 years, leaving her with a family of seven, four of whom survive, two daughters and two sons, namely, Mrs. Dougald Campbell of Dunwich, Mrs. J. J. Wrinn of Detroit, Fred J. and Richard P. of Ekfrid. Two brothers and three sisters also survive. Alexander of California, Philip P. of Ekfrid, Mrs. Clara Blue of Duart, Mrs. Alex. S. McDonald of Appin and Miss Letitia of Ekfrid.

The funeral was held on Saturday, Sept. 20, from the residence of her son-in-law to Longwood cemetery, service being conducted by Elder J. B. Slawson of St. Thomas. The pallbearers were six grandsons of deceased.

**A GREAT APPLE YIELD**

A correspondent writes:—On the north half of lot No. 19 in the second range north in the township of Ekfrid and county of Middlesex, midway between Glencoe and Appin, there is to be seen a demonstration of what science and labor can do in the production of apples.

An orchard of eight acres will yield from 800 to 1,000 barrels of clean fruit, about half Spy and half Baldwin. While nearly all the orchards in the vicinity have no apples, this one is loaded to perfection. Buyers from the cities say it is the best west of Toronto. The owner, Walter Squire, keeps it sprayed, pruned, scraped and many limbs bolted one to the other to keep them from breaking. It is manured and cultivated like a cornfield. Trees are forty feet apart each way, and full size. The apples are sold.

Talent is one thing; tact is everything.

### FIRE PREVENTION DAY

Thursday, October 9, Set For Canada By Royal Proclamation

An extra of The Canada Gazette has a proclamation appointing Thursday, October 9th, as "Fire Prevention Day."

After reciting the extent of losses and danger to human life by fire annually in Canada, and that at least seventy-five per cent. of the fires occurring are preventable by the exercise of proper care on the part of the individual citizen, it is recommended that on that day:

1. All dwellings and their surroundings be carefully inspected by their occupants and all conditions likely to cause or to promote the spread of fire removed.

2. All public buildings, stores and factories be inspected and cleared of rubbish.

3. Fire drills be held for the children in all schools and for employees in all large stores and factories.

4. Special instructions on the subject of fire prevention be given by teacher and by municipal officials in the schools and that such appropriate literature as may be available be distributed to the pupils.

5. All legislation and regulations enacted or issued by Dominion, provincial or municipal authorities dealing with fire prevention be given publicity by the municipal officials, and that by public meetings or otherwise as may to them seem most fit, they endeavor to impress upon the citizens the national importance of safeguarding life and property from loss of fire.

**ONTARIO ELECTIONS OCTOBER 20**

Toronto, Sept. 23.—Sir William Hearst tonight officially announced the dissolution of the Ontario Legislature and the issuing of writs for a general election on Monday, October 20, with nominations one week earlier, on Monday, October 13.

**MAIL COURIERS ORGANIZE**

The Rural Mail Couriers' Association of Ontario was organized at a meeting held a few days ago at Glencoe, with a view to doing away with the present contract courier system and having a flat \$60 a mile annual rate put into effect. It is claimed that the remuneration under the present system is wholly insufficient. It is also hoped to secure all public holidays off. The co-operation of all mail carriers and box-holders is sought in the matter. S. C. Wallace of Strathroy is secretary.

The publicity campaign of the Citizens' Liberty League has become a scandal. The League in its latest advertisements represents the Prime Minister as saying that the repeal of the Ontario Temperance Act does not mean a return to the general sale of the "spirited liquors. This is a deliberate falsification. The Prime Minister distinctly asserted that the repeal of the Act would restore the bar-room as it existed in 1916.—Toronto Globe.

**EKFRID STATION**

Christopher McCallum has installed the Delco light system in his farm buildings.

Miss Annie McLean and Miss Jessie McLean of Jackson, Mich., who were visiting friends here, have returned home.

Mrs. John Wrinn and son Gordon of Detroit and Mrs. Eugene Purrett and Clara Eaton of Toledo visiting friends here recently.

Gordon Wrinn of Detroit is visiting here with Lawrence Eaton.

A coal car on a freight-train jumped off the track on Monday evening, causing some excitement.

**TWENTY YEARS AGO**

An extremely dry season. Death of Peter J. McAlpine Sept. 7. Hay at \$12 a ton is considered a big price.

Barn of Cornelius Edwards, Wardsville, burned.

Ontario Government decides to have all tramps arrested.

Glencoe mill pond goes dry for first time in recollection.

Manitoba has an over-supply of harvesters, sent from Ontario.

Wardsville town hall reopened after being required and enlarged.

Apple buyers start buying at \$1 a barrel and later the price goes to \$1.60. Glencoe Presbyterians "farewell" Rev. R. W. Ross, their former pastor, who goes to Guelph.

Rev. E. E. Crawford of St. Thomas conducts anniversary services in Church of Christ, Glencoe.

Mosa farmer flags a train and emphatically presses his claim upon the crew for the burning of his fences.

Several hundred acres of woods and pasture land burned over in Ekfrid township and hundreds of rods of rail fence destroyed by the fires.

**SOME FALL FAIR DATES**

Alvinston.....Oct. 7 & 8  
Delaware.....Oct. 1 & 2  
Forest.....Oct. 30 & Oct. 1  
Glencoe.....Sept. 29 & Oct. 1  
Highgate.....Oct. 13 & 14  
Melbourne.....Oct. 13 & 14  
Mount Brydges.....Oct. 7  
Muncey (United Indian).....Oct. 3  
Ridgetown.....Oct. 1  
Rodney.....Oct. 29 & 30  
Sarnia.....Sept. 23 & 24  
Thamesville.....Sept. 30-Oct. 1  
Wallacetown.....Oct. 2 & 3

One of the principal reasons for the present unrest is that too many persons mistake speculation for business and agitation for work.

## Dollars saved by Bovril

Bovril used in the Kitchen means dollars saved in the Bank.  
It makes nourishing hot dishes out of cold food which would not otherwise be eaten. But see that you get the real thing. If it is not in the Bovril bottle it is not Bovril. And it must be Bovril.

### CHAPTER XIII.

Dr. Gleason's Arctic trip, designed to cover a year of research and discovery, prolonged itself into three years and two months. Shipwrecks, thrilling escapades, months of silence, and a period when hope for the safety of the party was quite gone, all figured in the story before the heroic rescue brought a happier ending to what had come so near to being another tragedy of the ice-bound North.

It was June when Frank Gleason, in the care of a nurse and a physician, arrived at his sister's summer cottage by the sea.

For a month after his coming Frank Gleason was too ill to ask many questions. But with returning strength came an insistence upon an answer to a query he had already several times put to his sister.

"Edith, what of the ehys? Where is Helen? Why do you always evade any question about her?"

"She is here with me."

"Here—still?"

"Yes. And she's a great comfort and help to me."

"And Burke doesn't know yet where she is?"

"Not that we know of."

"Impossible—all this time?"

"Oh, I don't know. All our friends know her as 'Mrs. Darling.' The Denbys never come here, and they'd never think of looking here for her, anyway. We figured that out long ago."

"But it can't go on forever! When is she going back?"

"An odd look crossed Mrs. Thayer's face."

"I don't know, Frank; but not for some time—if ever—I should judge, from present indications."

"What's the trouble? Hasn't that—er—fool improvement business worked out? Well, I didn't think it would."

"Edith Thayer laughed softly."

"On the contrary, it's working beautifully. Wait till you see her. She's a dear—a very charming woman. She's developed wonderfully. But along with it all has come a very deep and genuine—and rather curious humility, together with a pride, the chief aim of which is to avoid anything like the position in which she found herself as the mortifying, distress-causing wife of Burke Denby."

"Humph!" commented the doctor.

"That Burke doesn't love her, she is thoroughly convinced. To go to him now, tacitly asking to be taken back, she feels to be impossible. She has no notion of going where she isn't wanted; and she feels very sure

V. CLARK, LIMITED,  
MONTREAL.

way up, he used to talk of her—except for the time when—"

He stopped abruptly. The doctor, watching, wondered at the white compression that came suddenly to his lips. In a moment it was gone, however, and he had resumed speaking.

"Late years, dad has seemed to talk more than ever of mother, and he's always as if she were with him. And now I'm alone—so utterly alone. Gleason—how ever am I going to live—without—dad!"

The doctor's heart leaped with mingled fear and elation: fear at what he was about to do; elation that his chance to do it had come. He cleared his throat and began, courageously, though not quite steadily.

"But—there's your wife, Burke. If only you—"

He stopped short in dismay at the look that had come into Burke Denby's face.

"My wife! My wife! Don't speak of my wife now, man, if you want me to keep my reason! The woman who brought me sorrow to my father—"

"What do you think I wouldn't give if I could blot out the memory of the anguish my marriage brought to dad? My wife, indeed! Gleason, I never want to see her face again, or hear her name spoken!"

"But your—your child," stammered the dismayed doctor faintly.

A shadow of quick pain crossed the other's face. He lifted a protesting hand, changed the subject abruptly; and the relieved doctor was glad, for once, not to have him wish to talk longer of his missing wife and daughter.

Very soon the doctor said good-night and left the house. But his heart was heavy.

"Perhaps, after all," he sighed to himself, "it wasn't just the time to get him to listen to reason about Helen—when it was his runaway marriage that had so grieved his father years ago; and his father now—just gone."

Ten minutes later he boarded the train for Boston.

To his sister he told the story of the Dalton trip.

"But I can't write, of course, to Helen, now," he sighed gloomily.

"That is, I can't urge her coming back—not in the face of Burke's angry assertion that he never wants to see her again."

"Of course not. But don't worry, dear. I haven't given up hope, by any means. Just wait." And the doctor waited. It was, indeed, as his sister said, all that he could do. From time to time he went up to Dalton and made his way up the old familiar walk to have a chat with the taciturn, sember-eyed man sitting alone in the great old library. The doctor never spoke of Helen. He dared not take the risk. Burke Denby's only interests plainly were business, books, and the rare curios he and his father had collected.

A Mrs. Gowing, a distant cousin, had come to be his housekeeper, but the doctor said little of her. She seemed to be a quiet, inoffensive little woman, plainly very much in the background.

There came an evening finally, however, when, much to the doctor's beatific surprise, Burke Denby of his own accord, mentioned his wife.

It was nearly two years after John Denby's death. The doctor had run up to Dalton for an overnight visit and had noticed at once a peculiar restlessness in his host's manner, an odd impatience of voice and gesture. Then, abruptly, in answer to the doctor's own assertion that Burke needed something to get him away from his constant brooding in the old library.

"Need something?" he exclaimed.

"Of course I need something! I need my wife and child. I need to live a normal life like other men. I need—"

But what's the use?" he finished with outflung hands.

"I know; but—yourself—" By a supreme effort the doctor was keeping himself from shouting aloud with joy.

"Oh, yes, I know it's all my own fault," cut in Burke crisply.

"You can't tell me anything new on that score, did I haven't told myself. Yes, and I know I haven't been willing to have her name spoken," he went on recklessly, answering the amazement in the doctor's face.

"But why—this sudden change, Burke?"

"It's not so sudden as you think." Burke's eyes, gloomily fixed on the opposite wall, did not turn as he spoke.

"It's been coming gradually for a long time. I can see that now. Still, the real eye-opener finally came from—"

"Mother?"

"Yes, her diary—or, rather diaries. I found them a month ago among father's things. I can't tell you what was in them. I wouldn't, of course, if I could. They're too—sacred. Perhaps you think even I shouldn't have read them; perhaps I shouldn't. But I did, and I'm glad I did; and I believe she'd have wanted me to."

"Of course, at first, when I picked one of them up, I didn't know what it was. Then I saw my name, and I read—page after page. I was a baby—her baby. Gleason, can you imagine what it would be to look down into the soul of a good woman and read there all her love, hopes, prayers, and ambitions for her boy—and then suddenly realize that you yourself were that boy?"

"I took up then the first one—the diary she kept the first year of her marriage; and if I had felt small and mean and unworthy before—"

"On and on, I read; and as I read, I began to see, dimly, what marriage means—"

"For a woman. They were very poor then. Father was the grandson of

the younger, runaway son, Joel, and had only his trade and his day's wages. They lived in a shabby little cottage on Mill street, long since destroyed. This house belonged to the other branch of the family, and was occupied by a rich old man and his daughter. Mother was gently reared, and was not used to work. Those first years of poverty and privation must have been wickedly hard for her. But the little carries carried no complaints. They did carry weariness often, and sometimes a pitiful terror lest she be not strong enough for what was before her, and so bring disappointment and grief to 'dear John.' But always, for 'dear John,' I could see there was to be nothing but encouragement and a steadfast holding forth of high aims and the assurance of ultimate success."

"Then, one by one, came the babies, with all the agony and fears and hopes they brought with them. Three came and slipped away into the great unknown before I came—to stay. About that time father's patents began to bring success, and soon the money was pouring in. They bought this house. It had been one of their dreams that they would buy it. Then, when I was four years old, mother died."

"That is the story—the bald story. But that doesn't tell you anything of what those days were to me. In the light they shed I saw my own marriage—and I was ashamed. I never thought of marriage before from Helen's standpoint. I never thought what she had to suffer and endure, and adapt herself to. I know now. Of course, very soon after our marriage, I realized that she and I weren't suited to each other. But what of it? I had married her. I had effectually prevented her from finding happiness with any other man; yet it didn't seem to occur to me that I had thereby taken on myself the irrevocable duty of trying to make her happy. I have no doubt that my ways and aims and likes and dislikes annoyed her as much as hers did me. But it never occurred to me that my soft greens and browns and Beethoven harmonies got on her nerves just exactly as her pinks and purples and ragtime got on mine. I was never in the habit of looking at anybody's happiness but my own; and I wasn't happy. So I let things run."

"Mother had trials of her own—lots of them," he resumed, after a moment's silence. "She even had some not unlike mine. I believe, for I think I could read between the lines and dad was more than a bit careless at times in manner and speech compared to the polished ways of the men of her family and social circle. But mother never whined nor ran away. She just smiled and kept bravely straight ahead; and by and by they were under her feet, where they belonged—all those things that plagued. But I—I both whined and ran away—because I didn't like the way my wife ate her soup and spread her bread. They seem so small now—all those little ways I hated—small beside the big things that really counted. Do you know? I believe if more people would stop making the little things big and the big things little, there'd be a whole heap more happiness lying around in this old world! And Helen—poor Helen! She tried—I know she tried. Lots of times, when I was reading in the diaries what mother said about dad—how she mustn't let him get discouraged or downhearted; how she must tell him she just knew he was going to succeed—lots of times then I'd think of Helen. Helen used to talk that way to me at first! I wonder now if Helen kept a diary! There, there, old man, forgive me," he broke off, with a shrug. "I didn't mean to run on like this."

"I'm glad you did, Burke." The doctor's carefully controlled voice expressed cheerful interest; that was all. "And now what do you propose to do?"

"Do? How? What do you mean?"

"Why, about—your wife, of course."

"Nothing. There's nothing I can do. And that's the pity of it. She will go on, of course, to the end of her life, thinking me a cad and a coward."

"But if you could be—er—brought together again," suggested the doctor in a voice so coldly impersonal it was almost indifferent.

"Oh, yes, of course—perhaps. But that's not likely. I don't know where she is, remember; and she's not likely to come back of her own accord, after all this time. But enough of this!" he broke off abruptly, springing to his feet. "You don't happen to know of a young woman who has the skill of experience, the wisdom of age, the adaptability of youth, and the patience of Job all in one, do you?" he demanded.

The doctor turned with startled eyes.

"Why, Burke, after all this, you don't mean—"

"No, it's not a wife I'm looking for," interposed Burke, with a whimsical shrug. "It's a stenographer or private secretary, only she must be much more than the ordinary kind. I want to catalogue all this truck father and I have accumulated. She must know French and German—a little Greek and Hebrew wouldn't be amiss. And I want one that would be interested in this sort of thing—one who will realize she isn't handling mere notes, say. My eyes are going back on me, too, and I shall want her to read to me; so I must like her voice. I don't want anything, you see," he smiled grimly.

(To be continued.)

Get busy and attend to business—but be sure it is your own business.

### Homely Wrinkles.

Dry some elderberries to feed to the birds during the winter months.

A few drops of glycerine put on the creases of fruit jars before screwing on the lids will keep mold from forming on the fruit.

Drive one more nail into the board that holds the swing shelf up, if you have loaded the shelf heavily. It may save a drop in canned goods.

An old teapot is one of the best things to use for putting paraffin on glasses of jelly. After using set the teapot away, and it will be ready for future use.

Fingers will not be burned or stained if when straining hot jelly you stretch the cloth across the top of a deep vessel and fasten the cloth with spring clothespins. Pour the juice into the cloth and let it drain through.

When making jams and marmalades, place a large dishpan of boiling water directly over the fire, put a handful of small pebbles in the bottom and upon these set your preserving kettle, which should be covered closely. Very little stirring of the contents will be required as it is impossible for the fruit to burn. Keep the water boiling until the desired result is obtained.

## Events in England

Essex County Council is arranging for moving pictures to the county asylum.

Disability pensions from former wars are to be increased to the present standard.

Sir Richard Glynn's Dorset estate, consisting of 5,500 acres, has been sold for £192,666.

Flowers said to have cost £7,500 were sent by gipsies to a gipsy funeral at Orpington, Kent.

John R. Mayne, of Aldershot, while rabbit hunting, was killed by the accidental discharge of his gun.

Men in the tramway and electric light departments of the Southend corporation have gone on strike.

The Bucklands Hotel, Mayfair, established for more than 160 years, has been sold to the Guards' Club.

Princess Christian paid a visit to the holiday homes for crippled boys of London at Englefield Green, Surrey.

Geoffrey James, a thirteen-months-old infant of Tooting, died as a result of swallowing thirteen strychnine tablets.

Workmen have discovered that the statue of George III. at Weymouth is made of plaster and is fast crumbling to pieces.

Thomas Myerough, of Bowgrave Hill, Garstang, Lancs., died from injuries received when he was blown from his bicycle.

Dr. Edwin Greaves, of Maida Vale, London, was accidentally drowned in a boating accident near Four Mills Bridge, Anglesey.

William Roberts, aged fifteen, fell two hundred feet from Dover cliffs and escaped with a broken leg and some bruises.

### GOLF OF LOWLY ORIGIN.

And Popular Game Did Not Have Its Start in Scotland.

If tennis has a royal lineage, golf, which was her regarded as a rich man's game, had most plebeian beginnings, says a magazine writer. Contrary to a widespread belief, it seems not to have originated in Scotland, but in northern Europe. Apparently it was first played on ice, being one of the winter sports adapted to the physical geography of the Low Countries.

Even in the north, though, it evolved to a terra firma stage, as indicated by a sketch in a book illuminated at Bruges, which shows three players, each with a ball and one club, playing on turf.

By the 15th century golf had attained such vogue in Scotland that it threatened the cherished archery, and it is classed with "futeball" and "unprofitable sports" by James IV. That monarch, however, seems to have disregarded his own edict, as did enough other Scotchmen to keep the game alive.

Like tennis, golf was played by both sexes. Critics of Mary Stuart cited evidence that her husband's fate weighed so lightly upon her heart that she was seen playing the game in the fields near Seton.

To the Romans also is ascribed a game that suggests modern golf. It was played with a feather stuffed ball and called "paganica," because the common people played it—another evidence of the game's lowly origin.

### Good Reasons For Good Roads.

The way to make prosperity flow into any locality is to build roads that will last and not have to be done over every few years.

With good roads farmers can deliver all their products direct to town within a radius of fifty miles or more, and by making more profit themselves they reduce the high cost of living for other people; for merchants are able to take advantage of new sources of supply to buy their stocks under favorable conditions, and sell them to their customers at a lower price.

Millions of dollars are lost every year through perishable goods spoiling on the railroads because of the freight delays and complications. Single large firms have actually saved more than \$100,000 yearly by using motor trucks; and the trucks will undoubtedly contribute largely to organic improvement of roads.

Good roads bring trade and increase property values in a community. They attract home-seekers and industries.

### Naughty Nations.

A novel inquiry has lately been held in the Republic to the south. Which is the "naughtiest" of all the foreign nations represented in the United States?

The method adopted to decide this question has been to take a census of all the people who have been imprisoned for breaking laws, and the fairest record is held by Switzerland. Only 0.31 per cent. of the Swiss in the United States have been to prison.

Mexico is the bad boy of the family, with 2.3 per cent., or just over one in fifty. Ireland is only a fraction better, 2 per cent., and Scotland is third from bottom with 1.2 per cent.

Following these, each country being better than the last, come Austria, England and Wales, Canada, France, Italy, Russia, and Denmark.

What about Germany? Prepare for a nasty blow. Omitting Switzerland, Germany comes top!

# Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

**What is CASTORIA**  
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## VILLAGE OF GLENCOE

**BY-LAW NO. 257**  
To take the vote of the ratepayers of the village of Glencoe entitled to vote on money by-laws, on a question to be submitted whether the said ratepayers are in favor of a supply of electric power from the Hydro-Electric Power Commission of Ontario.

WHEREAS the municipal council of the corporation of Glencoe deems it advisable to submit to the ratepayers of the village of Glencoe entitled to vote on money by-laws a question as to whether the said ratepayers are in favor of a supply of electric power from the Hydro-Electric Power Commission of Ontario.

1. THAT the following question be submitted to the ratepayers of the municipal corporation of the village of Glencoe entitled to vote on money by-laws:

Are you in favor of obtaining from the Hydro-Electric Power Commission of Ontario a supply of electric power?

2. THAT the votes of the said ratepayers shall be taken on this question at the following times and places and by the Deputy Returning Officers and Poll Clerks hereinafter mentioned, that is to say: On the fourteenth day of October, A. D. 1919, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon, at the following places: For Polling Division Number One—at the town hall, by Charles George, Deputy Returning Officer, and Arnold Aldred, Poll Clerk; for Polling Division Number Two—in the building known as the Simpson House, by P. J. Morrison, Deputy Returning Officer, and Harry Moss, Poll Clerk.

3. A true copy of this by-law shall be published in the Glencoe Transcript on the following dates, namely: the 18th day of September, 1919, and the 2nd day of October, 1919, and copies of this by-law shall be posted in the following places, namely: The town hall and the post office in polling subdivision No. one, and at the building known as the Simpson House and the electric power station in polling subdivision No. two.

4. On the tenth day of October, A. D. 1919, at the council chamber in the town hall in the village of Glencoe at ten o'clock in the forenoon, the reeve of the said village of Glencoe will in writing signed by him appoint two persons to attend at the final summing up of the votes by the clerk of this corporation and one person to attend each polling place on behalf of the persons interested in and desirous of the answering of the said question in the affirmative, and a like number on behalf of the persons interested in and desirous of the answering of the said question in the negative respectively.

5. The fifteenth day of October, A. D. 1919, at the said council chamber in the village of Glencoe at ten o'clock in the forenoon is hereby appointed for the summing up by the clerk of this corporation of the number of votes given in the affirmative and in the negative respectively.  
MADE, PASSED AND ENACTED this fifteenth day of September, A. D. 1919.  
A. J. WRIGHT, CHAS. GEORGE, Reeve, Clerk.

**Notice**  
TAKE NOTICE that the above is a true copy of the by-law passed by the municipal council of the village of Glencoe on the fifteenth day of September, A. D. 1919.

**AND FURTHER TAKE NOTICE** that at the hour, day and places thereof in fixed for taking the votes of the electors the poll will be held.

First publication the eighteenth day of September, A. D. 1919.  
CHAS. GEORGE, Village Clerk, Council chamber, fifteenth day of September, A. D. 1919.

Blank oil leases for sale at The Transcript office.

## CANADA'S LARGEST ENGINEERING PROJECT

Hydro-Electric Power Commission Carrying on  
Wonderful Power Development Work  
at Niagara Falls—A Second  
Panama Canal

Operating the largest shovels in the world, and reversing the flow of a river, the Hydro-Electric Power Commission of Ontario is carrying on an enormous engineering project at Niagara Falls, practically without the use of steam.

There are many startling phases to the work which is the largest engineering feat attempted in the Dominion of Canada, and the biggest engineering job at present being carried on in the North American continent.

In order to get water to the new power house which will be erected just above Queenston, the Commission will use four and a quarter miles of the Welland River, men present a striking picture. The weary householder painfully feeding the furnace, shoveling by shovel, from the ton or two of coal, his winter's supply, will marvel at the enormity of the electric shovels which pick up from eight to ten tons of material, lift it 70 feet into the air and deposit it into waiting cars, all within the short space of 40 seconds.

Trains, loaded by electric locomotives, convey the mud and clay to the dump at St. David's. The boulders and rock from the canal are borne away to the stone crusher on the cliff above Queenston, and converted into material for roadways, railroad roadbed and riprap which will line the shores of the canal.

The stone crusher, which has a capacity of 4,000 cubic yards, is well worth a visit. The rocks from the excavations are cast into a trough opening into gigantic steel jaws which grind and munch, breaking the largest pieces into smaller bits that are carried away on a belt conveyor. A series of crushers reduce the rocks to a form where they may be utilized for building purposes and stored for future use.

Fifty-five miles of railway, all electrified, and trapping five trunk lines, are required in the construction work on the development. On this railway the commission has in operation more electric locomotives and less than any railway system in Canada. At present 2,000 men are employed on the big job. These men are housed and fed by the commission. A surgeon, an ambulance and a hospital maintained by the commission are at the disposal of the employees in case of accident. The adoption of the newest safety devices has minimized the danger of accident on the development, and the commission has devoted a great deal of time to safety first propaganda in order to safeguard the men in its employ. About 2,500 acres, or 50 per cent, of the lands acquired by the commission for its right of way, have been converted into farms, and the produce from the farms is sold to the employees of the commission. The commission maintains its own telephone system on the development, and it has connections throughout the province. Garages, machine shops and office buildings line the right of way.

By establishing its power house at Queenston the Hydro-Electric Power Commission is enabled to take advantage of the full drop of both Niagara Falls and the Gorge, a total drop of 205 feet, affording 100 per cent, more electric power from the same amount of water. The largest electric units in the world, 55,000 horsepower generators, will be installed in the power house, to produce electrical energy for distribution throughout the Province of Ontario. This great work is a striking example of the big vision and initiative of Sir Adam Beck, under whose direction the commission carries on its functions. This work is one which gives the people of Ontario just cause for pride in achievement.

Even the drills employed on the rock deposits of the canal right of way are operated by air, electrically compressed. A mile or two inland a huge clamshell, swung from an aerial cableway, drops into the river and then emerges, bringing with it generous bites from the river bottom, which are dumped on the river bank at the foot of the tower from where the operator directs the activities of the clamshell. Deposits of sand and gravel along the north bank of the river reveal the effectiveness of the clamshell in this particular portion of the development.

A short ride from Niagara Falls over new roadways built by the commission from crushed limestone removed from its right of way, brings one to the canal proper, where the activities of huge electric shovels, electric trains and gangs of men present a striking picture.

In this case the matter at issue is not involving Government action, and a law to which all will be subject is to be based on the decision of the people as expressed at the polls. In such a case, more even than in any other, it would seem that each side has a legal and moral right to insist on an even chance to present its case.—Ridge-town Dominion.

stable that such debentures shall be issued at one time and that the principal of the same shall be made payable in annual instalments during the period of twenty years, such instalments to be of such amounts that the aggregate amount payable in each year for principal and interest shall be as nearly as possible equal to amount payable in each of the other nineteen years of said period or in \$1,506.23.

AND WHEREAS the amount of the whole rateable property of the corporation, according to the last revised assessment roll, is \$352,802.00, and the amount of the existing debenture debt of the corporation, exclusive of local improvement debts secured by special rates or assessments, is \$11,342.19, and no part of either the principal or interest thereof is in arrears.

Therefore the municipal council of the corporation of the village of Glencoe enacts as follows:  
1. That it shall be lawful for the purposes of remodeling the existing municipal electric lighting plant and constructing of an electrical distribution plant for the said village of Glencoe, pursuant to the estimate furnished by the Hydro-Electric Power Commission, that debentures of the corporation to the amount of \$18,000.00, in sums of not less than \$100.00 each, shall be issued as required within two years after the date on which this by-law is confirmed by the vote of the duly qualified electors of the village of Glencoe, and each of said debentures shall be dated on the day of the issue thereof, and shall be payable within twenty years at the office of the town treasurer of the corporation as hereinafter provided and as to both principal and interest may be made payable in Canadian currency or in Sterling money of Great Britain and shall have coupons attached for the payment of interest; each debenture shall be signed by the mayor of the corporation or by some other person authorized by by-law to sign the same and by the treasurer of the corporation and the clerk, who shall attach thereto the corporate seal of the corporation.

2. Said debentures shall bear interest at the rate of five and one-half per centum per annum, payable yearly, and in such amounts that the aggregate sum payable for principal and interest in any year, in respect of the debt, shall be equal as nearly as possible to what is payable for principal and interest in each of the other nineteen years of said period.

3. There shall be raised and levied in each year for twenty years by special rate on all of the rateable property in said municipality the sum of \$1,506.23, being a sum sufficient to discharge the several instalments of principal and interest accruing due on the said debt as the same become respectively payable according to the following schedule:

Year.	Principal.	Interest.	Annual Payment.
1	\$ 516.23	\$ 990.00	\$ 1506.23
2	514.62	961.61	1506.23
3	514.58	931.65	1506.23

17	488.27	290.28	1506.23
18	489.52	223.51	1506.23
19	490.57	152.96	1506.23
20	491.40	78.53	1506.23

\$18,000.00 \$12,124.56 \$30,124.56  
4. This by-law shall take effect and come into operation from and after the final passing thereof.

This by-law was read a first, second and third time 15th day of September, 1919.  
A. J. WRIGHT, CHAS. GEORGE, Reeve, Clerk.

**Notice**  
Take notice that the foregoing is a true copy of a by-law which has been taken into consideration, and which will be finally passed by the council of the municipality (in the event of the assent of the electors being obtained thereto) after one month from the first publication in the Glencoe Transcript, the date of which first publication being Thursday, the 18th day of September, 1919.

Further take notice that tenants who desire to vote must deliver to the clerk, not later than the tenth day before the date appointed for taking the vote, the declaration provided for by section 265, subsection 3, of the Municipal Act, R. S. O. 1914, Chapter 192, in the building known as the Simpson House in the village of Glencoe; P. J. Morrison, Deputy Returning Officer.

Further take notice that on the 10th day of October, 1919, at the town hall, Glencoe, at ten o'clock in the forenoon the reeve will attend to appoint in writing signed by himself, two persons to attend at the final summing up of the votes by the clerk of the said corporation, and one person to attend at each of the said polling places on behalf of the persons interested in and desirous of promoting the passing of said by-law, and a like number on behalf of the persons interested and desirous of opposing the passing of said by-law.

And further take notice that the 15th day of October, 1919, at the said town hall at ten o'clock in the forenoon is hereby appointed for the summing up by the clerk of the number of votes given for and against said by-law.  
Dated at the village of Glencoe this 15th day of September, A. D. 1919.  
CHAS. GEORGE, Town Clerk.

# THE GENTLE ART OF MAKING CUSTOMERS

A Sale is good for One Profit, while a Customer is a Continual Source of Profits.—More Customers, More Sales. *It's the Large Turnover in Business at Little Overhead Cost that Makes This Store's Success.*

## Concerning Your Fall Shoes

If you would secure satisfaction and service from your shoes this fall, it is more than ever important that you should go to a reputable dealer in whom you have confidence and see that the maker's trade mark is on the shoes you buy. This is for the reason that leather is scarce and prices higher than at any time during the war, and a lot of worthless shoes are put on the market at so-called slaughter prices. Many who buy these goods are the least able to lose, and it simply means money lost. Our big Fall and Winter Stock of Most Worthy Quality and Desirable Style of Shoes and Rubbers are here for your early comparison.

Comparison means Sales. Selling more shoes each year because more people buy "Quality" and less "Trash."

## Glencoe's Big Clothing Wardrobe

Young Men's Swagger Top Coats—Middle-aged Men's Smart Fitting Top Coats—Elderly Men's Comfortable, Serviceable Ulsters—very moderately priced, considering the quality and fine tailoring—\$18.50 to \$35.

Bench Tailored Suits to please the most exacting tastes, and prices more reasonable than you would expect. Young Men's Waist Line in several new styles—\$18.50 to \$35. # Booze Costs Years of Life

Insurance Records Prove Moderate  
Drinking Increases Death-rate 35%

LIFE Insurance figures prove that the excess of deaths among moderate drinkers over abstainers runs from 11% to 74%. It is the business of Life Insurance Companies to know the risks a man takes when he uses liquor. These Insurance men have no theories to prove and no doctrine to preach. Their figures are as cold as ice, and they make you pay for the risks you run. To them it is simply business—a matter of dollars and cents. But to you it is a matter of life and death.

## Actuarial Comparison of Death Records

Ages	Total Abstainers	Moderate Drinkers	Excess Deaths Among Moderate Drinkers
20-30	4,221	4,617	11%
30-40	4,291	7,041	68%
40-50	6,246	10,861	74%
50-60	13,856	18,524	42%
60-70	29,078	34,568	19%

From tables prepared by R. H. Moore, Actuary of the United Kingdom Temperance and General Insurance Company, based on Records of over 60 years' experience.

## Are You Willing to Die Before Your Time for Sake of Booze?

THE number of deaths among moderate drinkers averages 35% higher than among abstainers.

If you have habitually taken two glasses of whiskey per day or the alcoholic equivalent in beer, your chances of dying before your time are double those of total abstainers.

It has been costing total abstainers yearly millions of dollars in premiums to help to pay for excessive deaths among drinkers! Can we afford such waste of life and money in the face of the war losses of money and men?

Vote "No" to repealing the Ontario Temperance Act, and "No" to rendering it practically worthless by the proposed amendments.

## "No!"—Four Times—"No!"

Answer every question on the Referendum Ballot with an X under the heading "No," and herein fail not, or your vote is lost to Temperance Progress.

## Ontario Referendum Committee

Duff church will hold their anniversary services on Sunday, Sept. 28th. Rev. J. P. Falconer of Rodney will preach morning and evening and special music will be given by the choir of New Glasgow Presbyterian church. On Monday evening a grand concert will be given by the following artists: The Elgar Ladies' Quartette of London, and Robert Hannah, B. A., eloquist and dramatic interpreter, of London. The choir will be taken by W. Hollingshead of Dutton.

In the opinion of a Winnipeg packer pork prices will drop fifteen cents a pound immediately as the result of the session of the Board of Commerce in that city. He based his forecast on his belief that the market would be adversely affected by the revelations regarding profits and the overhead costs of the producers, packers and retailers.

**A SIMPLE METHOD TO REMEDY RHEUMATISM**

AGE DOES NOT INTERFERE IF TREATMENT IS PROPERLY FOLLOWED

Many persons contend that there is no sure remedy for Rheumatism, Sciatica, Neuralgia, Lumbago, Neuritis, or their kindred diseases, but don't be biased; draw your own conclusions from the proof submitted.

Over two years ago, William Nesbitt, of 113 John St., Toronto, Ontario, was attacked by Rheumatism. Mr. Nesbitt was 53 years of age at the time and he feared the worst. After trying many remedies and prescriptions without obtaining relief he took a friend's advice and used Templeton's Rheumatic Capsules. Result—today Mr. Nesbitt says, "He hasn't lost a day's work since nor fears Rheumatism any more."

Mr. Nesbitt gives the entire credit for his recovery to T.R.C.'s. Profit by his experience. Try them.

H. I. Johnston, Phm. B., druggist, optician and stationer, sole agent for Glencoe. Mail \$1.04 to the above address or to Templeton's, 142 King St. W., Toronto. T. R. C.'s will be sent postpaid.

# Those Who Fought Endorse the Citizens' Liberty League

The Citizens' Liberty League is proud to state that the following Organizations of Veterans have signified their approval of the League's objects and are supporting it in the endeavour to obtain sane, moderate temperance legislation.

Great War Veterans' Association—Toronto Branches:  
Parkdale Central Riverdale West Toronto Earlscourt.  
The Grand Army of Canada. His Majesty's Army and Navy  
Veterans' Association. The Naval Veterans' Association.  
75th Battalion Association. 75th Battalion Officers' Association.  
The Originals' Club. 83rd Battalion Association.

These great Organizations of men who were the first to answer the call in the fight for liberty are endorsing the platform of the Citizens' Liberty League because they know, with the League, that the Ontario Temperance Act unduly restricts the liberties of the citizens of the Province.

These men ask,—and what men in the Province have such a right to ask?—that you vote "YES" on questions two and three on the Referendum Ballot—and so assure to the citizens a beer containing 2.51 per cent. alcohol by weight, absolutely non-intoxicating—the Beer of the Ballot.

## Vote "YES" on all Four Questions

Remember, every voter must vote on every question or his ballot will be spoiled.

## CITIZENS' LIBERTY LEAGUE

PROVINCIAL HEADQUARTERS—22 College Street, Toronto. T. L. Carruthers, Secretary

Hon. President: Sir Edmund B. Osler

President: Lt.-Col. H. A. C. Machin, M.P.P.

Vice-President: I. F. Hellmuth, K.C.

Hon. Treasurer: F. Gordon Osler

### McClary's Pandora

IT is every woman's right to have the best kitchen equipment that can be had. The Pandora saves trouble, saves work, and gives a woman the joy of baking things just as she wants them. It is a woman's choice. Let us show you the smoothly working grates, the clear oven door, the fine thermometer. Let us explain why the oven is so evenly heated. You want the best for your kitchen. Then see the Pandora.

Apple wood is used for special purposes like the handles of tools, and is purchased locally in Ontario.

### In Memoriam

KUNES.—In loving memory of Pte. Isaac Kunes of the 87th Canadians, who was killed in action in September, 1918.

He sleeps beside his comrades in a hero's grave somewhere in France, but his name is written in letters of love in the hearts he left at home.

From his sisters.  
Born  
HENRY.—On Wednesday, Sept. 17, 1919, to Mr. and Mrs. Thos. Henry, Kinistino, Sask., a daughter.

### TOWN AND VICINITY

Nice showers. Are you ready for the Fair? Mushrooms are again in season. The ulster and the oyster are with us again.

Mosa township council met at Glencoe on Saturday.

Business is sometimes slow, but compound interest is doubly quick. It is always a fellow's sore finger that he needs to button his collar.

Once more the corn is in the shock—but the frost is not yet on the pumpkin.

What has become of the old-fashioned farm horse that used to shy at automobiles?

The next meeting of Metcalfe township council will be held on Monday, October 6.

The Canadian House of Commons has approved of a bill to substitute electrocution for hanging.

Rev. J. P. Falconer will conduct anniversary services in Lalgie Presbyterian church next Sunday.

Suits are said to be a hominifid crop, and the small boy is anxiously waiting for the result of the first frost.

Dutton and Glencoe baseball teams are scheduled for a game here on Wednesday afternoon of this week.

Secretary McKellar informs us that the Marconi Italian Band of London has been engaged for Glencoe Fair.

Rev. James Malcolm of Newbury conducted anniversary services in the Presbyterian church at Cowal on Sunday.

Mr. Dickson of Taber, Alberta, who succeeds Mr. Doull as manager of the Royal Bank, is expected here this week.

The barn of Wm. Bale, near West Lorne, was struck by lightning on Saturday night and was totally destroyed, together with contents.

Thanksgiving Day in future will be celebrated on Armistice Day, November 11. The bill to this effect passed the Commons Tuesday.

Owing to the scarcity of apples the probabilities are that Mrs. Copeland will not operate the Glencoe evaporating factory this season.

"Rally Day" will be observed by Glencoe Presbyterian Sunday School next Sunday by holding a special service in the church in the morning.

Rev. T. J. Charlton, rector of St. John's, was in St. Thomas yesterday officiating at the wedding of two former members of his church at Mitchell.

is to be discontinued at 2 a. m. on the last Sunday in October. Canadian railways will then get back to standard time.

Mrs. J. E. Roome had the misfortune a day or two ago to step on a rusty nail which penetrated her foot, making a painful though it is hoped not a serious wound.

George Parrott is offering a prize of \$2 for the best hitched horse on the grounds at Glencoe Fair. Through an error this special prize was omitted in the prize list.

Rally Day will be observed in the Glencoe Methodist church on Sunday, beginning with the Sabbath school at 10 o'clock. There will be special music and addresses.

The death occurred at her home in Loversburg, Sask., on September 8th of Mrs. John McCush, formerly Miss Sarah McAlpine of Mosa. She leaves her husband and four children.

Of the three high school students who tried at Glencoe, Earl McDonald and Ellen McKellar were successful in obtaining full junior matriculation and Marion Huston partial standing.

Summer time in the United States An exchange advises that people do their Christmas shopping early before the Hun goods get in. That is right. There may be microbes in the dolls' hair and poison gas in the baa lambs' bleat.

At the annual meeting of the Canadian Natural Gas and Petroleum Association, held in Hamilton on Friday, the opinion was expressed that there are vast oil deposits in Western Ontario.

Pte. Russell Dobson, who has been overseas for over a year, arrived at his home here on Monday evening. Pte. Dobson enlisted in the 4th Re-

serve battalion and went overseas in July, 1918.

During the recent electrical storm Hugh McCutcheon of Mosa had a valuable horse struck by lightning in the field and killed. Dugald Campbell had a steer valued at \$110 killed in the pasture field.

A special meeting of the Glencoe Industrial Board will be held in the town hall Friday evening of this week at 8 o'clock to deal with important matters. It is requested that every member be present.

Joseph, the three-year-old son of Peter Johnston of Bothwell, backed into a pail of boiling water. He was so badly scalded that the flesh dropped from his bones. He died a few hours afterwards.

Mrs. Thomas Foley, residing near Newbury, had the misfortune while in Wardsville on Tuesday afternoon to fall down a stairway, severely cutting her face and sustaining other injuries of a serious nature.

Glencoe and Dutton baseball teams played at Dutton on Wednesday of last week. Score, 13-4 in favor of Dutton. Batteries: Dutton—Duncan, Barrett and Atteck; Glencoe—Hamilton and Lethbridge.

W. G. Thompson, who has been teller in the Merchants Bank here for the last two years, has been transferred to St. Thomas and left for that city on Monday. Mr. Hill of Chesley is Mr. Thompson's successor.

George Innes has disposed of the homestead farm of the late Wm. J. Innes, north half lot 8, 3rd concession, Mosa, to Andrew Watson of Omphah, near Kingston, for \$5,300. Mr. Watson will move to the farm in March.

Reeve Wright has had correspondence from the Ontario Hydro-electric Power Commission stating that the work of connecting up Glencoe with the power system will be undertaken at once and pushed to completion with all possible speed.

Glencoe council met Monday evening. The only business of importance transacted was to strike tax rates, as follows:—Village rate, 5 5-10 mills; county rate, 5 5-10; debenture rate, 6; electric light, 3 1-10; public school, 5 7-10; high school, 4.

A Detroit man with a penchant for abbreviation expressed the date, Friday, September 19th, thus: 9/19/19. Such a date will never be seen again. The day was the nineteenth day of the ninth month of the year 1919. All one had to do was to separate the figures this way: 9-19-1919.

The people of Wallace town and adjacent farmers, as also the farmers from Dutton to Glencoe by way of Campbellton, have sent petitions to the Hydro Power Commission at Toronto asking that hydro power and lighting be installed along the routes designated in said petitions.

Strathroy Dispatch.—Howard Gordon has been appointed musical instructor in the public and high schools of Glencoe, Petrolia and Port Stanley.

He still continues in Watford and Strathroy schools and will have a busy time. Mr. Gordon, in addition, has a large private teaching connection.

Glencoe is indebted to G. W. Smith of London, a veteran of the great war, for a splendid large photograph in oval frame of the boys who enlisted at Glencoe in the 135th Middlesex Battalion. The photograph was taken at Witley, England, shortly after the battalion crossed the ocean. It is needless to say that the gift is greatly appreciated and will be given a prominent place in some one of our public buildings.

### PERSONAL AND SOCIAL

—Miss Sarah Mitchell is spending a week with her brother in Toronto.

—Miss Marion Higgins of London spent the week-end with Miss Florence Walker.

—Mrs. Wright and Miss Wright of Strathroy are visiting at A. J. Wright's.

—Arthur Crowe of Kent Bridge spent the week-end with his aunt, Mrs. Colin Leitch.

—Mr. and Mrs. Arthur Larington of Toronto were week-end visitors at Mrs. Rose Stuart's.

—Miss Estelle Smith of Chatham is home attending her mother, who has been ill for the past few days.

—Miss Sylvia Carr of Newbury returned home on Monday after a two weeks' visit with relatives here.

—Alfred Crowe, Flint, Mich., spent Tuesday in town to visit his acquaintances some twenty years ago.

—Mr. and Mrs. Walter Davis and family of Stratford were visitors over the week-end with Mr. and Mrs. Daum-Woodgreen.

—Mrs. Charles Lewitt and two sons of Detroit are spending a couple of weeks with her parents, Mr. and Mrs. George Precious.

—Mrs. Grant returned home last week after spending some time with her daughter, Elizabeth Grant, and other relatives in Detroit.

—Pte. Frank Pol, who has just returned from overseas, visited friends in Wardsville and vicinity last week before going to his home in Calgary.

—Mrs. Angus Campbell and son Kenneth of Kilmartin and Miss Florence Mitchell of Glencoe have returned after visiting at T. H. Jones', Port Burwell.

—Mrs. Charles Haggitt and children, who have been visiting in St. Thomas, Belmont and Newbury, left on Monday for their home in Revelstoke, B. C.

—Mrs. Archer has returned from Winnipeg, accompanied by her daughter, Mrs. Heal, and two children, Mercedes and Jack, who will spend the winter in Glencoe.

—Mr. and Mrs. David Waterworth of Wardsville announce the engagement of their daughter, Marjory, to George L. Padwick of Dawn township, the marriage to take place early in October.

—Mrs. Gardiner, Mr. Emerick, Misses Label and Sadie Bowie, Elva McIntyre and Miss McPhail of Napier, Miss McNally of Detroit and Miss Cora Sutherland of Toronto visited at J. B. Gough's this week.

—Mrs. Charles Doyle of Dutton announces the engagement of her only daughter, Millie Freeman, to George Norman Burrows of Detroit, son of Mr. and Mrs. W. G. Burrows of Chatham, the marriage to take place in October.

You will make no mistake in buying overalls at Lamont's clearing sale. A good pair of gloves free with each pair.

# GIVING UP THE ENTIRE SHOE BUSINESS

BARGAINS GALORE ALL OVER THE STORE!

IN THE DAYS OF THE STAGE COACH SHOES WERE NO CHEAPER THAN THEY ARE TODAY AT RUSSO'S BIG CLEARING SALE

From the time this Monster Shoe Sale has started we have sold many hundred pairs of the choicest shoes. Just ask your friends and neighbors about the values they have received at the Mammoth Shoe Sale. The balance of the entire stock to go regardless of price. The values you receive at this store and the general hospitality of the waiters make the Modern Shoe Store the busiest place in Glencoe. Bargains by the dozens for your uncles, aunts and cousins.

The last awful days have come, and every pair in the store is to move out by September 28, regardless of price. Shoes have advanced to such a high-water mark in the last year, and are going to retain this level, that the people are given more to repair work, so I have decided to give up the shoe business entirely and make room for new repair machinery, to which I will give my full time and attention. I would advise the public to take advantage of these prices and buy while the buying is good. These shoes are not inferior stock and every pair carries a word of praise by those who have worn them. And take a tip from me—when this sale is finished you will then pay the higher prices.

### MEN'S WEAR

Men's Gunmetal Shoe, goodyear welt, dress shoe, sale price \$5.95.

Ladies' White Pumps, reg. \$4.50, going for \$3.

MODERN SHOE STORE - GLENCOE

# Soils and Crops

This Department is for the use of our farm readers who want the advice of an expert on any question regarding soil, seed, crops, etc. If your question is of sufficient general interest, it will be answered through this column. If stamped and addressed envelope is enclosed with your letter, a complete answer will be mailed to you. Address: Agronomist, care of Wilson Publishing Co., Ltd., 73 Adelaide St. W., Toronto.

**Manure—A Gold Mine on the Farm.**  
Each horse produces \$27 worth of manure a year (as compared with commercial fertilizers); each head of cattle \$20 worth; each hog \$8 worth. It is estimated that the total value of manure produced is about \$200,000,000—a veritable gold mine.

At least half of this great wealth of fertilizing material is sheer waste. In some good general farming sections not more than fifteen per cent. of the manure produced is used. Even in the most intensive dairy regions, where cows are largely stall fed and comparatively great care is taken with the manure, the loss seems to be approximately twenty-five per cent.

The best plan to prevent this waste is to haul the manure and spread it on the field as fast as produced. When this is not practical, store the manure where it can not leech out.

To save manure, concrete manure pits are being used more and more. These pits have concrete floors and sides so that not any of the valuable fertilizing elements are wasted. A pit 6x12 feet and three feet deep, with walls and floors five inches thick, will serve the needs of the average farm. In ground that does not drain in, only an inside floor will be needed in building such a pit, except where the concrete extends a few inches above the ground to prevent flooding by surface water. The floor should be reinforced by woven wire fencing, put in after about two inches of cement has been laid, the section of fencing being cut long enough to bend up a few inches at either end into the side walls. When the reinforcing has been put in, the remaining three inches of the floor is laid and the forms for the side walls set up and used immediately. Use one part of cement, two of sand and four of screened gravel. A pit of this kind is large enough to hold the accumulation of manure on the average farm until such a time as it can be conveniently spread on the field.

A manure pit doesn't cost money; it saves money. The value of the manure saved when stored in pits will equal at least five per cent. on the pit investment. Where manure is stored in loose, flat piles in the barnyard, the loss by leaching and decay in six months amounts to from thirty to sixty per cent.

In some places manure is simply thrown out through the barn windows and left to lie against the sides of the barn. The losses in fertilizing value are large—much larger if the water from the roof drips on the manure. Such a practice is not only wasteful, it is also very unsanitary. If it must be followed, the gutters on the barn should be constructed so that the water will be carried away. A lean-to shed may be built as a cover over the pile of manure exposed to the weather.

Another good way to save manure, especially in the case of hogs or beef cattle, is to have a concrete paved feed lot, preferably under a shed roof. Where the owner of the farm can not afford a paved floor, a cheap open feeding shed may be made to serve the purpose very well, if abundant bedding is used to absorb the valuable liquid manure. In such a feeding lot or shed, the manure is allowed to gather under the feet of the animals, each day's bedding being strewn over the well-tramped manure. Some farmers using this system arrange their feed-racks so that they can be raised from time to time, making it possible to feed till solidly packed manure has accumulated to a depth of several feet under the shed. It has been shown that manure thus handled suffers little from heating and leaching.

For saving manure the feeding shed serves the purpose of giving the general farm, or the beef cattle farm, something of the advantage held by the intensive dairy farm. The manure saved on the Canadian farm under present conditions is almost exactly proportional to the number of animals stall-fed on the farm; the manure of animals not stalled has very little effect on yields, except in cases where field crops are hogged down or otherwise pastured down, or where pasture is used in a rotation.

If no shed or pit is available the best method of storing manure in the open is to pile in a compact pile with nearly perpendicular sides. The pile should be left flat on top so that it will absorb the rain water. This not only lessens the amount of leaching, but helps keep the manure moist and thus reduces the fermentation. This method will not prevent leaching; therefore it is recommended only when there is no better way of storing the manure.

By gearing it to the grindstone we could sharpen the mowing machine knives, grind the scythes, axes and other tools with the same source of power. Altogether I find that the machine enables me to do without help that I would otherwise have to keep through the winter months.

**McDairy**  
There are a good many fine things about a milking machine. One of them is that your hands don't get tired milking. The last cow milks as easy as the first one.

That is my neighbor's way of sizing up the milking machine. He was left alone through the shifts and turns of the times and could not get help to do his farm work as it ought to be done. The milking was especially tedious.

"I used to spend from an hour and a half to two hours right on the milking stool. By the time I got through I was tired and in poor shape to begin the real work of the day. Now I am fresh and ready to go at other things after breakfast. I milk my cows in about half the time and they don't mind it as much as they used to when they were pulled and hauled around by careless or indifferent milkers."

He spoke of a number of other good features about the milking machine, but this was the windup.

"You can't tell how long a man will stay if you hire him. I had two or three men last season at different times. I thought I had them for the season, but they slipped away from me. Contracts will not hold men who make up their minds to go. The machine stays right on the job. I know in the morning when I get up that I am going to find it in its place, ready for business. Of course, I have to do some things for the milking machine, but it won't go back on me if I use it right."

Another man told me of his experience with a milking machine as follows:

"It used to take me just about two hours to milk eighteen cows. That meant four hours, counting night and morning, sitting on the milking stool, the best I could do. Last winter was unusually cold, and I actually frosted my feet in the stable, working there so long at a stretch with little chance to move them around."

"Being faced with another winter of like experience, on account of the lack of help, I determined to put in a milking machine. The original cost of the machine was \$200, but by turning it in a separator that we were no longer using, I was able to get the milk by paying \$200 in cash."

"The machine shortens the work of milking about one half, which counts in the short days when chores take such a large part of the time. That gives me a better chance to work at other winter work, such as getting up wood."

"I made a pulley out of a round stick of wood and attached it to the driving shaft of the milker, so that

## Protecting Our Furred Friends

Now that the nights are getting frosty, it is time to begin to think again of trapping. Even more important, however, is the proper protection of our fur-bearers until their fur becomes prime and worth full value.

You do not want to begin trapping during September or October, before the pelts are No. 1 in quality, and thereby lose half or two-thirds of the value of the furs, when by waiting they will be worth double price.

Resolve not to trap until the fur is prime, of No. 1 quality. With most furs this will be early in November. When furs are prime, the flesh side of the pelts will remain white, without dark blue streaks, after the animal is skinned. If the flesh side turns blue at any time, even after drying, the fur is not yet prime, and will grade No. 2. If very blue, it may be a No. 3 or 4 pelt; and these last two classes are worth very little. Primeness of skins is judged entirely by this white or blue color of the flesh side of the skin. Whether the hair slips a trifle or not is not considered so much, for the condition of the skin, whether it determines whether the hair will slip or not. Of course, a skin may be perfectly white, No. 1 in primeness, and still grade No. 2 or 3 because of shortness of the fur, cuts in skin, etc.

Primeness of muskrat skins cannot be judged by whiteness. A muskrat never becomes fully prime and white until about February. The skins caught during the fall, if good quality, may be more or less blue streaked, and yet grade No. 1 fall. The same is true with winter-caught skins. These No. 1 fall or winter skins do not, of course, bring so much as a No. 1 spring-caught skin, but they are nevertheless considered prime. Muskrat skins vary a great deal during the fall, however. You may catch a perfectly prime, but if left out in the trap during a hard rainstorm lasting several hours, the pelts are liable to turn perfectly black.

Therefore, resolve not to start trapping too early. See your neighbors so that they will not start before you do. Draw up a pile of furs to all, and get them to sign it. Then if any wandering early trapper tries to come in and get furs before they are prime, Marten skins, also, are hard to judge at certain times. In some places in Canada they may be caught, being perfectly prime, but if left out in the trap during a hard rainstorm lasting several hours, the pelts are liable to turn perfectly black.

Therefore, resolve not to start trapping too early. See your neighbors so that they will not start before you do. Draw up a pile of furs to all, and get them to sign it. Then if any wandering early trapper tries to come in and get furs before they are prime, it pays to protect the birds.

Many people have signed pledges to protect the birds. It is just as important that we should wake up to protecting the fur-bearers, before it is too late. One year there were hundreds of thousands of passenger pigeons, and the next year there was hardly one alive in the world. Now not a single survivor can be found. It pays to protect the birds.

Health Talks  
By John B. Huber, AMMD

Dr. Huber will answer all signed questions of general interest. If your question is of general interest it will be answered through these columns; if not, it will be answered personally. Address: Dr. John B. Huber, M.D., care of Wilson Publishing Co., 73 Adelaide St. West, Toronto.

**Catarrh.**  
Nasal catarrh is either acute or chronic. Doctors call the acute variety coryza or acute rhinitis; and say it is either simple or specific.

A simple coryza is due to exposure to cold and wet, to irritating vapors such as workmen are exposed to in some occupations; and it accompanies a good deal of rheumatism, tuberculosis and asthma.

A specific coryza comes on in the beginning of most cases of the "common cold," diphtheria, measles and scarlet fever, and other infections, and is due to the germs of those diseases. The symptoms are sneezing, hoarseness, headache, chilliness, at first dryness in the throat and then, after a few hours, of copious, watery, charges, stuffing up of the nostrils and occasional incessant blowing of the nose. Such a nasal catarrh is very likely to be "catching."

A sufferer from acute rhinitis should take one-half a grain of calomel every hour until there is a movement of the bowels. The calomel should then be topped off by a sedative powder. Then grains of Dover's powder is a good bedtime dose for this condition, after having taken a hot footbath. Net day take Dr. Lincoln's rhinitis tablets, one every half hour, until the throat feels dry; these can be had of any druggist. The best local application is to snuff up and to gargle several times a day normal salt solution (one-half teaspoonful of table salt to a tumblerful of water) as hot as can be borne with comfort.

Chronic nasal catarrh is likely to follow an acute rhinitis. In the course of time the nasal mucous membrane becomes thickened and obstructive, making the breathing labored and difficult. Then after many months or years, the mucous membrane becomes atrophied, with a bad odor and greenish offensive crusts.

Chronic catarrh is more a symptom of some other ailment than a disease in itself. There is generally some constitutional disease which the doctor must cure, upon which the catarrh will generally get well of itself. Any body with catarrh, therefore, must regulate his diet and habits, and must

attend carefully to his general health. Especially must he keep his feet warm and dry. Only the doctor can manage successfully cases of chronic catarrh. For he has to use caustics to the thickened, hypertrophied; and he has to remove the crusts and then make proper application to stimulate the atrophied condition. No alcohol or tobacco habitue can be cured of his catarrh, while he uses these substances. The vast majority of incurable deafness comes from neglected catarrh.

Questions and Answers.  
I am a returned man. Was severely gassed in May, 1915, and was invalided home, discharged as medically unfit in 1917 with dilated heart. Since then I have suffered very much with nerves, being very irritable, sensitive and at times have pains in the temple. Also at times I have smarting sensations in the legs and arms. I used to have severe pains around my heart, but have not been troubled much in that respect lately. Sometimes I have a kind of suffocation at night. This mostly happens just when I am going to sleep. At times I get a very depressed feeling and get moody. I have been a fairly heavy smoker and tea drinker. I am at present working on a farm to complete my vocational training course. Do you think that class of work will suit me?

Answer—I can hardly think of an invalided hero more worthy of admiring sympathy than the man who has been gassed in warfare. It is possible that you will never regain 100 per cent. efficiency. But by quiet living, being careful not to over-exert, cutting down the coffee and tea, smoking tobacco in moderation (I should advise cutting it out entirely in your case, unless you don't care much about it anyway), the sensations you mention will in large part disappear. Try to get good sleep, with windows wide open. I am very glad you are on a farm. That is the place and the vocation for the returned man. But until your health comes around don't overwork. I am mailing you further information. Best wishes!

## Fall Fertilizers For Lawns.

To stimulate the growth of a lawn and to improve its appearance for the following spring no better treatment can be recommended than the application of a properly rotted manure in the late fall. This application should not be made until after the frosts have stopped the growth of the grass. Ten to twenty two-horse loads should be applied to the acre, according as the soil is more or less rich.

It is important that the manure should be thoroughly rotted before application so that all weed seeds are killed, otherwise damage done by weeds will more than offset the fertilizing value of the application. Manure needs careful handling before it is suited for spreading over the lawn. Unless it is properly "composted" it may have most of its valuable constituents destroyed by improper handling. To "compost" manure properly it should be treated as follows:

Pile all manure in heaps with alternate layers of sod or other litter. Keep it wet enough so it will not burn. Let it stand a whole year through summer and winter, turning it over two or three times during the year. It will then be ready for use on the lawns and danger from weed seed will be minimized.

Many object to the use of manure at all, not only because of the danger from weed seeds, but because of its unsightly and unsanitary appearance. These will undoubtedly prefer to use something else, and the most economical substitute is finely ground bone or bone meal. This should be applied at the rate of from 500 pounds to one ton an acre, according as the ground is more or less rich.

With the bone meal it is desirable to use double the quantity of wood ashes, which may be mixed with the bone meal or sown separately. These ashes contain considerable lime in a

very desirable form, as well as other valuable elements.

All applications should be made before the ground freezes permanently for the winter, as otherwise the fertilizer may be largely washed from the soil before it has a chance to become incorporated with it.

Prepared sheep manure is an excellent dressing. As it has been sterilized by drying and rendered odorless, there are not the objections to it that there might be to ordinary manure. If there are parts of the lawn which will be tramped over when they are not frozen, especially when snow is melting there, they should be protected to prevent persons from cutting across. Tramping on the turf when it is covered by slush or snow is destructive to a lawn.

**Webster's Morale**  
MORALE (Moral) is (1) the moral condition, or the condition in other words, the state of mind, as of a soldier, a sailor, a man, a woman, a child, or a nation, or of a body of men, an army, and like.

HAT is Dr. Webster's definition. Many of us know the word only in its war-time application. Webster dwells first on the usage of the word "morale" as applied to the common-place happenings of every-day life. His allusion to its reference to an army comes later. And Webster is correct—mercifully so.

It was their private-life morale that made such splendid soldiers of our boys when the time came for them to don the khaki. It was that, and that alone, that made them take the first step, and it was that which carried them through to victory. If their every-day morale had been neglected, the Army could have done little with them and success would not have crowned their efforts.

It is the many little incidents of your daily routine that make up your morale—the morning shave, your clean linen, polished shoes, brushed clothes. Webster speaks of zeal, spirit, hope and confidence. It is by attention to the small details of your personal appearance that these may be attained.

The Gillette Safety Razor enters as much into the morale of every-day life as it did into that of the trenches. It helped our soldiers to maintain their confidence and bearing. It will do the same for you. The Gillette Safety Razor makes the daily shave come easy—there is no pulling or scraping—no honing, or stopping—just five minutes of perfect shaving comfort. And, afterwards, a chin that tells of morale and self-respect.

## USING YOUR SENSES

Using Your Senses.  
Not one of our God-given faculties was meant to lie dormant, but after talent has been latent for a time it may require a strong stimulus to rouse it.

Sometimes this incentive is provided by a cogent personal force touching or invading our lives; sometimes it is the force of circumstances themselves, bringing out the best that is in us. "You never know what you can do till you try"; and if the history of the war were to be completely written it would be full of examples of men who have done better than they—or anybody else—thought they could.

Their wits were sharpened by the great emergency; all their faculties were roused by the spur of the thought of dear ones at home, whom they were bound to make proud.

You and I have not begun to live unless we have called into play all the powers of our possession. They are the finite senses by which we learn and develop and enrich our beings, in order that we may create from the raw material something of value to the age and to the earth we inhabit. Beyond the finite senses there is the realization of duty, of love, of religion, of immortality; and life is not complete if we cannot see what is invisible, hear what is inaudible and feel the impalpable.

If we use our senses aright they supply us not with places of final arrival but with points of departure. The mind's eye begins to perceive where the body's eye leaves off. That inner ear which is beside the still small voice in each of us, in order to catch its faintest accent, begins to hear where the gross physical ear detects no sound. The tongue indicates the delicious or the repugnant flavor of the food that is the body's fuel, but still there are the hunger and the thirst of the soul to be appeased by the nectar and ambrosia of the banquet of the gods. We may take in our hands the substantial things for which men and women lay down their lives—but beyond this book is the meaning of the book, which the spirit apprehends; beyond whatever the hand can hold or the scales can weigh is the essence, which cannot be seized in the fingers and translated into pounds and ounces of avoirdupois.

And yet as a stair to the spiritual realm we use the senses. We look at the stars and we are uplifted by what the eye beholds to what the eye hath never seen. We listen to the music and we are transplanted to the place where music dwells and never dies. And then we cannot be content to lead the life that is immersed in the consideration of what we shall eat and what we shall wear and where we shall go. The sensual life cannot make us happy. There are aspirations roused which only the freedom of the spirit can satisfy.

Saving and Storing Seed Corn.  
Selecting seed from the field or garden while standing gives one an opportunity to get large well matured ears that were produced under normal conditions and not the result of exceptional opportunity for sunlight and growth.

Selection of seed at husking time is much preferable to taking seed from the crib, where it may have heated and become mouldy.

Good seed corn should be: First, well matured, save the hard, firm, fully grown ears. Second, of good size for the variety. Third, with deep kernels well filled out and with large germs. Fourth, with small to medium sized cobs.

Save all the well matured ears that are large or medium size. These can be more carefully sorted before planting.

The first essential in the care of seed corn is to dry it out as quickly as possible, not by artificial heat but by putting it in a dry, airy room. Ears saved for seed should be thinly spread out as soon as possible and not left in piles or sacks. Any room that is dry, well ventilated, and proof against vermin is satisfactory for storing seed corn.

Seed corn needs ventilation in order to dry well. This may be secured by spreading it on slatted shelves, arranging in specially made racks, or by "stringing" it. Nails may be driven into the walls, or into boards, then after cutting off the nail heads the ears can easily be stuck on the spikes.

Putting a Polish on the Plow.  
Many plows, even those that have been well covered with oil or axle grease, fail to scour readily when first taken into the field. The following method is being used by many farmers to overcome the inconvenience attending the use of a plow that fails to clear off quickly. The plow is taken to the nearby branch or creek and drawn a few times through the mud or gravel beds that invariably are found along water courses. It usually takes but a few turns to get off the rust or hardened grease. Under the circumstances does the sand stick to the plow, no matter how rusty it may be; and if the gravel does not contain large stones the plow will not be dulled.

The care of farm implements demands at all times the careful attention of the farmer. Never was there greater need than now for exactness in this direction.

## SECRETS OF WAR AND STATE

EXTRAORDINARY REVELATIONS  
NOW BEING MADE.

All About Ciphers, Codes, and Other  
Wonderful Methods of Convey-  
ing Information.

There are few beside the initiated who have the slightest conception of what extraordinary methods are employed for conveying secret information, especially during war-time. The Morse code woven into cloth, chess problems in the newspapers, invisible writing on the human body, beside many others, have been used. Before describing actual instances and methods, let us see the general ideas underlying the use of secret writing.

Secret writing is used by the State, the Army, and the Navy to guard their secrets. These are called "ciphers," and must not be confused with "codes" which are used in commerce. The ciphers employed in messages of State and military communication are very cleverly made. To create them is difficult enough; to decipher a message composed with their help is only possible to those who hold the key or the cipher itself. To obtain possession of such a cipher in war-time for your country is the dream of every would-be "agent." The price offered to an individual who has access to it is prodigious. A photograph of its pages is sufficient; and therefore these ciphers are guarded with extreme vigilance. The criminal and paid spy, on the other hand, use as a rule far simpler methods. They are often composed of cryptograms made with the help of simple transposition of letters, or by stencil.

Examining Document.  
The examination of a suspected document is interesting. First of all it is carefully read, and particular note made of anything seemingly devoid of sense. If there is nothing in the document, a remark, special attention is given; or, if there should be more than one insignificant scrawl, it may turn out to be a cipher writing. The letter is then submitted to the light test, which may reveal signs of chemically-prepared paper, or show up minute pin-pricks under certain letters. This was for a time a favorite method of conveying information by newspaper. Again, the document is submitted to tests for invisible ink—from the heat and warm-water test to the highest tests modern chemical science has been able to devise. One of the most difficult inks to deal with is the visible ink made invisible after writing by a chemical process, and only to be restored by one reagent. A difficult case may occur in which a stencil paper has been used. The letter may have every appearance of being bona fide, and only the holder of the duplicate stencil paper can read the hidden message, by placing the stencil on the lines and using only those letters which he can see through the slits in the stencil.

Carried by the Cards.  
Packs of cards have been used for conveying secret messages. One of the most interesting cases happened not so very long ago. Mr. X. lived in a very fine house on a hill not far from the East Coast of England. He was an old inhabitant, and naturalized. He lived with his wife and daughter just outside one of the prohibited areas. Suddenly he developed a liking for playing patience and bridge. His liking developed into a passion, and he was continually buying fresh packs. Threehanded bridge is not much fun, and the whole thing struck the patriotic servant as peculiar. She noticed that the packs never remained in the house long, but were sent off to an address right on the coast. One evening she watched through the keyhole. She then noticed that no bridge was played, but something was being done to the pack, and very wisely she informed the police. The truth was then revealed that the man was sending information abroad by the playing-card cipher. The pack, which should be new, was arranged in a known order. It was then held tightly together, and a series of small figures written on the side. The pack was then well shuffled, packed up, and despatched.

The Personal Method.  
The highest form of conveying information is the personal method. It is impossible, however, for an individual to carry all that may be told him in his memory, but it is also of the highest importance that nothing shall be omitted and that nothing incriminating shall be found on him if he is searched. Therefore, an aid to memory of some sort must be evolved. For some time at the commencement of the war the following simple method was employed—until it was found out. Words, dates, numbers, etc., were written on the man's flesh in ink. This could not be seen when the man stripped, but when the skin was warmed, and fine graphite powder sprinkled on the part it adhered to the writing, and could be read even after a fortnight after it was written. But of course he must not wash for that period.

These are just a few of the many methods of secret writing employed. To record them all in detail would take up two or three thick volumes.

## National Educational Conference

AT WINNIPEG

PROMINENT SPEAKERS—LIVE SUBJECTS

In advance of the definite program in the form in which it will be issued at the time of the Conference, the Convening Committee announces that the following items are definitely assured:

- 1—Salutatory Addresses—By His Excellency the Governor-General of Canada, Sir James Adair, Lieutenant-Governor of Manitoba, and His Worship C. F. Gray, Winnipeg.
- 2—The Lessons of the War for Canadian Education." Hon. Dr. Oedy, Minister of Education, Ontario.
- 3—"The School and the Development of Moral Purpose." Dr. Theodore Sorensen, Professor of Religious Education, University of Chicago.
- 4—"The Development of a National Character Through Education." Mr. Robert Falconer, President University of Toronto.
- 5—"The Essential Factors of Education." Dr. Helen Macdonald, Ontario Department of Education.
- 6—"The Boy Scout Movement as an Auxiliary to the School in Moral Training." Dr. James W. Robertson, Dominion Commissioner of the Boy Scouts.
- 7—"Methods and Ideals of the Canadian Standard Efficiency Training Groups." Taylor Statton, National Secretary Boys' Work Department of the Y.M.C.A.
- 8—"The Function of the Public School in Character Formation." Dr. J. F. White, Principal Ottawa Normal School.
- 9—"Education and Reconstruction." Peter Wright, British Seaman's Union.
- 10—"The Basis of Moral Teaching." Michael O'Brien, Toronto, Ont.
- 11—"The School and Industrial Relationships." Dr. Susskind, President University of Washington.
- 12—"The School and Democracy." President John H. Stanley, Commissioner of Education for the State of New York, Albany, N.Y.
- 13—"The School and the New Citizens of Canada." Dr. J. E. Anderson, Director of Education among New Canadians, Regina, Sask.
- 14—"The Interest of the State in Character Education." Dr. Milton Fatchild, Washington, D.C.

The task of initiating discussions has been assigned to persons representative of all parts of Canada. Among those definitely secured at this date in this connection are:

Dr. Clarence McKinnon, Principal Pine Hill College, Halifax, N.S.; Prof. H. T. Coleman, Dean of Faculty of Education, Queen's University, Kingston, Ont.; Tompkins, Esq., Vice-President University of St. Francis, Xavier's College, Antigonish, N.S.; Very Rev. Dean Ljward, All Saints' Cathedral, Halifax, N.S.; Dr. H. P. Widdien, M.P. Brandon, Man.; Prof. Iva E. Martin, Royal Military College, Kingston, Ont.; Prof. W. H. Alexander, University of Alberta, Edmonton, Alta.; Dr. G. W. Parmelee, Deputy Minister of Education, Quebec; R. W. Craig, Esq., President, Winnipeg Canadian Club and Chairman Winnipeg School Board; Dr. John Mackay, Westminster Hall, Vancouver, B.C.; R. L. Torrance, Manager, Royal Bank, Quebec, Ont.; W. A. Buchanan, M.P. Lethbridge, Alta.; W. McL. Davidson, M.P., Editor, Calgary Alberta, Calgary, Alta.; Dr. Raymond, Esq., Post Master, Brantford, Ont.; Prof. C. B. Slesna, Victoria University, Toronto, Ont.; W. J. Slater, Principal Strathearn School, Winnipeg.

Delegates to the Conference should make their hotel reservations immediately.

The following committees are at your service: Reception, Entertainment, Transportation, Hotel Accommodation.

Address all Communications to

THE GENERAL SECRETARY, NATIONAL EDUCATIONAL  
CONFERENCE  
505 Electric Chambers, Winnipeg.

## Your Mysterious Powers

The normal senses of mankind are sight, hearing, touch, smell, and taste. But there are other senses which have not been classified, and they are enigmas for the scientist and the psychic investigator. There are men and women who can predict a thunderstorm through observing sensations in the brain and the nervous system. This abnormal sense is often acutely developed in women of an impressionable, nervous nature.

Although the discovery of water beneath the ground by means of the divining-rod has been proved to be trickery in some cases, there is scientific evidence that some persons do possess a strange sense which enables them to find water in a dry land. The proximity of water, which cannot be seen, is revealed to these sensitive persons by a curious shivering sensation, and it is probable that the successful water-diviners possess a specific sense.

There are many baffling marvels associated with the sub-conscious mind of mankind. There are somnolent people who can carry on a conversation with another person during deep sleep.

Promising Ontario Linen Industry.  
With the installation of modern web-spinning machinery completed, a firm at Guelph, Ontario, is now turning out web-spun linen yarns from flax grown in the province. A flax spinning mill, operating in conjunction with the linen mill, makes this industry a self-contained one, able to turn out linen fabrics, including the finer grades, from raw flax to finished goods. During the war the plant was running on cotton and union goods, because of the difficulty of getting linen yarn; but with a steady supply of Canadian spun-linen yarns now assured, it is turning out a full line of all the finer linen goods, as well as the coarse towelling, butchers' linen, etc.

The development of flax spinning will have a stimulating effect on the

growing of flax by Ontario farmers. Ontario flax has in the past been found acceptable by Irish linen manufacturers in the production of the famous Irish linens. A newly invented Canadian machine to harvest the flax, which, for purposes of spinning, must be pulled, not cut, is expected to reduce labor costs greatly.

The elimination of the tithe crop in Russia, which formerly placed Russian flax on the world market almost as cheaply as cotton, gives Canada an added advantage. There seems little reason why flax production and spinning, with the complementary industry of linen weaving, should not become one of Canada's important industries. In view of this, Ontario's leadership in the enterprise of a self-contained linen industry is especially interesting.

"Pickwick Papers" contains some 860 characters.

A Petition.  
I ask not, Lord, Thy special care,  
But just sufficient strength to bear  
The trials that may come my way,  
The ill I meet from day to day.  
Not isolation would I seek  
From those who fall, the erring, weak—  
Nor deem myself more just than they  
Whose feet, perchance, have gone astray.  
When others' faults before me rise,  
Let me now with uplifted eyes  
And outstretched arms, stand far  
apart.  
But let me, with a contrite heart  
And humble mien, my sins confess—  
Unworthy of Thy righteousness.

## PAINFUL RHEUMATISM

May be Driven Out of the System  
by Enriching the Blood.

In the days of our fathers and grandfathers rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as many young people. Medical science did not understand the trouble—did not know that it was rooted in the blood. It was thought that rheumatism was the mere effect of exposure to cold and damp, and it was treated with liniments and hot applications, which sometimes gave temporary relief, but did not cure the trouble. In those days there were thousands of rheumatic cripples. Now, medical science understands that rheumatism is a disease of the blood, and that with good, rich, red blood any man or woman of any age can defy rheumatism, can be cured, by killing the poison which causes it. There are many elderly people who have never felt a twinge of rheumatism, and many who have conquered it by simply keeping their blood rich and pure. The blood making, blood enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and it is the more general use of these pills that has robbed rheumatism of its terrors. At the first sign of poor blood, which is shown by loss of appetite, palpitations, dull skin and dim eyes, protect yourself against the further ravages of disease by taking Dr. Williams' Pink Pills. They have cured thousands of people—if you give them a fair trial they will not disappoint you.

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Mistakes That Paid.  
It is surprising how many useful things come into general use simply by some slip or inadvertence. Blotting paper, for instance, was the result of a workman's spilling of a batch into which he had forgotten to put any sizing material. Nobel discovered dynamite by a slip, and the first bayonet was the result of a soldier's suggestion that, as the powder was done, they should fix their long knives into the barrels of their rifles and charge.

This is to certify that I have used MINARD'S LINIMENT in my family for years, and consider it the best liniment on the market. I have found it excellent for horse flesh.

(Signed)  
W. S. PINEO.  
"Woodlands," Middleton, N.S.

## Brain Power.

Back of the oil are the well drilled that pound steadily, into the ground. Back of the lighting, the power plant's force—Wondrous its working and secret its source. Back of the fabric, the loom that must weave it; Back of the loom are the hands that achieve it; But back of the dream and the perfected plan. The invention of Nature—the brain of a man! Back of the message, the wireless spark. Outracing the sunbeams and cleaving the dark; Back of the airplanes, the motors that dare contend with and conquer the forces of air; Back of the bullet, the rifle that whirls it; Back of the missile, the cannon that hurls it; Back of the fortress, the engineer's plan, But back of the blueprint—the brain of a man! Yea, we may soar as the winged eagles soar, And the uttermost caverns of ocean explore; Laugh at the barriers of desert and sea, And be free as the winds of the world are free; Ours is the earth; we shall wield it and mould it; The scroll of the ages shall seize and unfold it; This only shall baffle direction and plan: None can fashion or fathom the brain of a man! All men are born illiterate, and many never outgrow it.

## Agents Wanted

Agents wanted in towns throughout Ontario and Quebec to handle high-class securities. Particulars on application. Good commission. Room 406, 12 King St. E., Toronto.

## Wrong Numbers.

She: "In way, getting married is like using the telephone."  
He: "How's that?"  
"One doesn't always get the party one wants."

## Poor Husband.

"Were you annoyed because I sharpened a pencil with my razor?"  
"Twice," replied the patient husband. "After I had given up trying to shave I tried to write with the pencil."

## Thrifty.

Wife—"John, why do you take that patent medicine when it nearly kills you like this?"  
Sick hubby—"You don't suppose I'm going to let any fake medicine peddler beat me out of two dollars do you?"

## Empty Thoughts.

The school instructor was teaching a class in which there were some foreign pupils whose vocabularies were very extensive.

"Now," he said, pointing to one of them, "tell me what is a vacuum?"  
The pupil thought hard for a moment, and then answered: "I have it in my head, sir, but I can't express it."

## The Servant Problem.

First Maid (bragging about a party given the day before by her mistress): "And they all came in limousines, and had on the grandest clothes, and wore the biggest diamonds."

Neighborly Maid—"And what did they talk about?"

First Maid—"Us."

## Smart Boys.

Teacher—"Now, boys, I want to see if any of you can make a complete sentence out of two words, both having the same sound to the ear."

First Boy—"I can, Miss Smith."

Teacher—"Very well, Robert. Let us hear your sentence."

First Boy—"Write right."

Teacher—"Very good."

Second Boy—"Say, Miss Smith, I can beat that. I can make three words of it—'Write, write, write.'"

Third Boy (excitedly)—"Hear this—'Write, write, write right.'"

## The Last Straw.

Joggles is a good sort, but at times he gets worried. You see, he has a large number of little things to worry him. In other words, Joggles is the father of thirteen children.

As a good father should, Joggles took the whole newspaper dozen with him on his summer holiday. Was he annoyed at any of the humorous remarks of would-be humorists which fell on his ears? No. He simply puffed with paternal pride.

It was a railway porter who "broke the camel's back"—a common or garden railway porter. It happened thus: Joggles and his little lot came up to the barrier, Joggles leading.

"What have you been doing?" demanded the porter, with a Sherlock Holmes-like air.

"No nothing," stammered Joggles.

"Then," thundered the porter, "wot's all this crowd followin' yer for?"

## Minard's Liniment Relieves Neuralgia.

The smallest bone in the human body is situated in the ear.

Store your seed corn where it cannot freeze before becoming thoroughly dry.

A heavy horse from 16 to 17 hands high is what the present market demands.

Climbing the ladder of life may be difficult, but it is only when you are sliding down that you get caught on the splinters.

## Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at these painful pests which merely makes the corn grow hard. This suicidal habit may cause lockjaw and women are warned to stop it.

A few drops of a drug called freeze-one applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of freeze-one, which costs very little but is sufficient to remove every hard or soft corn or callus from one's feet.

This drug is an ether compound and dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Clip this out and pin on your wife's dresser.

ISSUE No. 39—19.

## In My Garden.

There is a garden set in trees,  
Honored, adored by birds and bees,  
Enchanted with the sunshine's gold,  
Gay with the blossoms which unfold;  
And roses, velvet-clad each one,  
Raise lovely faces to the sun;  
Delphiniums rear themselves on high,  
Endeavoring to reach the sky;  
Notice their gowns of blue brocade.

Of sky, some say, those gowns were made;  
Flaunting silk robes like gorgeous dames,  
Poppies burst forth in crimson flames,  
Ere long the birds' "good-night" swells  
And hark! the Canterbury Bells  
Chime out the curfew, soft and deep,  
Evening is here the blossoms sleep.

## TEETHING TROUBLES

Baby's teething time is a time of worry for most mothers. Baby's little gums become swollen and tender; his bowels get out of order and constipation, colic or even diarrhoea sets in. To make the teething period easy Baby's Own Tablets should be given the little one. They sweeten the stomach; regulate the bowels and keep baby good natured. Concerning them Mrs. Marcel D. LeBlanc, Memramcook, West, N.B., writes: "I have used Baby's Own Tablets for the past six years and have found them indispensable. To my mind nothing can equal them in allaying the fever accompanying teething. I would not be without them and can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Hats Were Helms.

In the olden days in the United States, soon after the revolutionary war, a good beaver hat became a kind of family heirloom, and was handed down from father to son. For some strange reason it was considered to be rather frivolous and extravagant to be seen wearing a new beaver hat, and it was the custom when a man bought one to leave it out in stormy weather before wearing it, to "take the newness off."

## MONEY ORDERS.

Send a Dominion Express Money Order. Five Dollars costs three cents.

Good geldings are bringing from \$700 to \$1,200 in the Old Country at present.

Minard's Liniment Cures Burns, etc.

Patience is often an excuse to wait for something when energy to go and fetch it would be more appropriate.

What is perhaps the only aerial band in the world belongs to the British dirigible R-33, sister to the R-34, whose flight from Scotland to America and return to England made her famous. The R-33 will soon try a flight from England to India and return, and the musicians will enliven the trip.

## WHEN YOU SUFFER FROM RHEUMATISM

Almost any man will tell you that Sloan's Liniment means relief

For practically every man has used it who has suffered from rheumatic aches, soreness of muscles, stiffness of joints, the results of weather exposure.

Women, too, by the hundreds of thousands, use it for relieving neuritis, lumbago, sciatica, sick headache. Clean, refreshing, soothing, economical, quickly effective. Say "Sloan's Liniment" to your druggist. Made in Canada. Get it today.

35c, 70c, \$1.40.

The Transcript.

THURSDAY, SEPTEMBER 25, 1919

### CAIRO

The heavy rains of the past few days have relieved the farmers of this vicinity of the necessity of driving their cattle to the Haggarty creek for watering purposes.

Fred Sullivan is moving into the general store, which he recently purchased.

Miss Rosa Smith of London is visiting friends here.

No service was held in the Presbyterian church on Sunday owing to inclement weather.

The council of Euphemia met on Saturday and transacted business. Among the items were two drainage by-laws—Sheppard and Baynton drains.

Mrs. Stuart Smith and daughter Muriel of Detroit are assisting the former's mother to get settled in her new home.

Chopping Tuesdays, Thursdays and Saturdays.—W. R. Stephenson, Appin.

### SHIELDS SIDING

We had a welcome rain. The Ferguson's Crossing Needle Club will meet this week at the home of Mrs. Neil McVicar.

A large number from here attended the burial at Kilmartin of Mrs. P. D. Ferguson of Detroit on Sept. 18.

Mrs. Stewart and Miss Tena Ferguson of Detroit are at their home here. Misses Catharine and Gertrude Purcell are back to school again after a successful operation, having had their tonsils and adenoids removed in St. Joseph's Hospital, London.

Mrs. Bailey visited recently at Hugh R. McAlpine's.

Mr. McBride spent a day recently in London.

Mrs. John F. McTavish is with her daughter, Mrs. Gillies, whose family have the measles.

Mrs. D. H. McLachlin spent a day recently with her brother in Thamesville.

Mrs. Angus Campbell has returned home after visiting her grandmother in St. Thomas.

Mr. and Mrs. Alex. McKay, Detroit, motored up and spent the week-end with his aunt, Mrs. Nancy Ferguson.

Let us all vote "No" on the temperance cause and give John Barleycorn the cold shoulder.

### NORTH EKFRID

The Glen Oak Methodist church held their anniversary services last Sunday. A large crowd enjoyed a chicken supper and concert in the basement of the church on Monday night.

**TEMPLETON'S RHEUMATIC CAPSULES**  
FOR RHEUMATISM, NEURITIS, SCIATICA, LUMBAGO, NEURALGIA, GOUT ETC.  
ASSURE RELIEF FOR THE WORST HEADACHE  
15c PER BOX  
TEMPLETON'S 177 Broad St. NEW YORK

Humanity has lacked a practical rheumatic remedy since time began. Fortunes are spent yearly at hot springs, electric baths and hospitals to obtain relief, yet better results are achieved right at home by using T.E.C.'s "The common sense treatment." Just compare cost and results with any other treatment and you will be convinced. Ask your druggist or write us for our new booklet. It is interesting and costs you nothing (Templetons, 177 Broad St., New York). We mail anywhere on receipt of \$1.00.

Sole Agent for Glencoe, H. I. Johnston, Pharm. B., Druggist, Optician and Stationer.

### NEWBURY

Ed. Gilleland of Oakville visited his uncles, Wm. and J. G. Bayne, last week.

Mrs. Fletcher returned home on Saturday from a visit with her daughter, Mrs. A. J. Walker, London.

Wm. Glennie and wife spent a few days in Detroit last week.

Rev. R. J. Murphy attended the Wycliffe College Alumni in Toronto this week.

Cameron Bayne left on Saturday for Toronto, where he will continue his studies at the dental college.

Mrs. George Fennell and baby Mary have returned to British Columbia.

Peck's CLOTHING

### WARDSVILLE

Mrs. Erwin of St. Thomas is visiting her sister, Mrs. Petch. Misses Ila and Waitie Quigley and Miss McKay and Miss James of the Essex school staff spent the week-end at Miss Cornell's.

Miss Martindale attended the wedding of Miss Beatrice Turk and renewed old acquaintances here.

Mrs. McLean was called to London last week, her sister having met with a serious accident.

Mrs. Jennie Rogers has gone West. She has been appointed assistant superintendent of domestic science in Williams Hospital, Battleford. It is a splendid position and we wish her every success.

Jack Douglas has returned home from Windsor.

Miss Gordon had a very painful accident when she fell from the steps of her home last week, severely tearing the ligaments of the ankle and splintering the bone. She will be confined to the house for some time.

Mrs. Salmon and baby have gone to London for a visit.

Miss Edith Clark of Toronto has returned home after spending her holidays here.

Mr. and Mrs. D. L. Purcell are spending some time in Windsor.

Mrs. Cassidy of Toronto spent a few days last week with her aunt, Mrs. English.

Mrs. Douglas has gone to St. Thomas to take osteopathic treatment.

Rev. Mr. Stewart of London preached in the Presbyterian church Sunday.

### MOSA

On Friday, Sept. 5, the Ferguson's Crossing Needle Club met in the school house to do honor to another returned soldier, Allan Whitburn. After a spicy program, Angus Campbell, as chairman, called Mr. Whitburn to the front and Ward Leitch read an address and A. D. Ferguson presented Mr. Whitburn with a well-filled purse. The ladies then served lunch to about one hundred guests in the basement of the school house.

On Friday night, Sept. 12, the Ferguson's Crossing Needle Club and neighbors met at the home of Mr. and Mrs. Jim Chisholm to do honor to their son, John A. Chisholm, and his English bride, who had just arrived from overseas. Rev. Mr. Robertson was chairman and presented a lengthy program. Archie McAlpine read an address and Mungo Leitch presented Mr. Chisholm with a well-filled purse. The ladies then served lunch, and young and old enjoyed a few hours in dancing.

These presentations make the eighth purse of money presented by this society.

### KILMARTIN

One of the most enjoyable days of the season was spent last Tuesday when the Kilmartin basketball team motored over to Ebenezer and played an interesting game with the "Sunny-side Seven." The score was 7-6 in favor of Kilmartin. Our team is to be congratulated on their success, as it was the first time they ever challenged another team. Keep on, girls, and continue winning.

Mr. and Mrs. Hugh McCallum have returned after spending a few weeks with their son in Cleveland.

Misses Annie Dewar and Catharine McKellar left for Detroit last week.

Alexander Munroe spent the week-end in London.

Mr. and Mrs. Watson and children of St. Thomas spent the week-end at the home of Mrs. Watson's mother, Mrs. Hugh Munroe.

The Women's Missionary Society of Burns' church, Mosca, gratefully acknowledge a contribution of \$27.55 from the Ferguson's Crossing Needle Club.

Mrs. Jessie Munroe, treasurer.

Warts are unsightly blemishes and are a painful growth. Holloway's Corn Cure will remove them.

### APPIN

Frank Nichols has taken the contract for building a garage for Neil Galbraith and is busy making the cement blocks.

Threshing and silo-filling are the order of the day here.

Duncan Stewart of London is building a new cement garage for Geo. McGill.

The farmers were delighted to see the rains of late and report the plowing good.

James McMaster is decorating his new home purchased from J. A. McTaggart and expects to move soon.

The school fair held here last Friday was a grand success, only the rain can a little too early in the day and spoiled the sports some.

Mary Sinclair, who failed by a few marks on her entrance examination, has been given a certificate.

Miss Walters spent the week-end at her home in Chatham.

A baseball match, the last of the season, will be played here on Saturday, Sept. 27, at 4 o'clock between London and Appin teams. A snappy game is looked forward to.

### AUCTION SALES

"Off for a day's sport on their RED BIRDS"

## Own a Bicycle and Enjoy Life

Ride wherever you go, speeding along almost on wings, as swift or as leisurely as you please, in easy comfort enjoying the fresh air.

That's your enjoyment when you own a RED BIRD Bicycle—Canada's leading make—a beauty in rich maroon and nickel.

We make it so easy for you to own one of these pleasure-giving, time-saving machines that it will earn its cost while you use it.

\$52.50 and \$57.50 for Men's and Women's Models. \$45.00 for Girls' and Boys'.

**Your Credit is Good**  
**Pay Only \$10 Down**  
**and the Bicycle is Delivered**  
**The Balance You Pay in Small Weekly or Monthly Payments**

We are exclusive RED BIRD dealers, selling thousands of bicycles throughout Western Ontario.

In the bicycle you buy you must have quality or you'll have trouble—the other RED BIRDS are built to look well, built to run well, built to last well—and they do all three.

"Your money back if you are not satisfied," is our guarantee.

Catalogue gladly mailed on request. We pay all shipping charges to your station, and the bicycle comes carefully crated.

Write or phone 3182 at our expense.

100 hens; whiffletrees and neckyokes, and other articles too numerous to mention. At three o'clock the farm, consisting of fifty acres, will be offered for sale subject to a reserve bid.—W. J. Simpson, proprietor; L. L. McTaggart, auctioneer.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin.

It is the recognized healer among oils and myriads of people can certify that it healed where other oils failed utterly.
