Line on Left Pushed Forward
Further Than Con-
templated.

[Canadian Press.]

LONDON, June 30.—(5:30 p.m.)—An official British statement issued today, records a brilliant advance made by Sir Ian Hamilton's forces in the neighbourhood of Krithia, in the Gallipoli Peninsula. The attack took place on Monday. It was planned to capture two lines of Turkish trenches, east of Saghir Dere, and five lines to the west. The day's operations resulted in the capture of three lines on the west and four on the east.

Krithia is about four, and a half miles from the western point of the peninsula, and is an important railway centre. Its capture, which is believed to be imminent, would place the Allies in possession of a strategic position which would aid in operations against Jaidos, east of the Narrows. Krithia is more than a third of the way to the Narrows from the west.

Text of Statement.

The full text of the British official statement regarding the operations follows: "On June 29, Sir Ian Hamilton reports that the plan of operations on June 28 was to push forward the left of his line southward of Krithia, pivoting on a point about one mile from the sea, and after advancing on the extreme left, to attack the main line, establish a new line facing east on the ground just gained."

This plan entailed the capture in succession of two lines of trenches, and five lines of trenches to the east of Saghir Dere, and five lines of trenches to the west. An Australian corps was ordered to co-operate by making a vigorous demonstration. The action opened at 5 o'clock with bombardment by heavy artillery. The assistance rendered by the French in this bombardment was most valuable.

Artillery Fire Effective.

"At 10:20 o'clock the field artillery opened fire to cut the wire in front of the Turkish trenches. This was effectively done, and the effects on one of the enemy's trenches near the sea was great. The very accurate fire of the cruiser 'Talbot' and the destroyers 'Scorpion' and 'Volver' succeeded in keeping down their artillery fire from that quarter."

"At 10:45 a.m. a small Turkish advanced work in Saghir Dere, known as the 'boomerang' redoubt, was assaulted. This little fort, which was very strongly situated, and protected by extra strong, well entanglements, had long been a source of trouble."

"After a special bombardment by a French mortar, and while the bombardment of the surrounding trenches was at its height, a part of the border regiment, at the exact moment prescribed, leaped from their trenches as one man, like a pack of hounds pouring out of cover, and raced across and took the work most brilliantly."

"The artillery bombardment increased in intensity until 11 a.m., when the range was lengthened. The infantry advanced, and in the afternoon the work was carried out with great dash along the whole line."

Trenches Full of Dead.

"West of Saghir Dere, five lines of trenches were captured with little opposition. The trenches were full of dead Turks. Many had been buried by the bombardment. One hundred prisoners were taken."

"East of the ravine the Royal Scots made a fine attack, capturing two lines of trenches, which had been assigned as their objective, but the remainder of the brigade on their right met with severe opposition and was unable to get forward. At 11:30 a.m. the Royal Fusiliers led its brigade in the second phase of the attack to the east of the ravine. The brigade advanced with great steadiness and precision through the trenches already captured, and on across the line, reaching the objective allotted to it. The Lancashire Fusiliers inclined to the right, and forming a connect with our new positions along the ravine."

Gain on the Left.

"The northernmost objective had been obtained, but the Gurkhas, pressing on under the cliffs, captured an important knoll still further forward. This actually due west of Krithia. They fortified and held during the night, making our total gain on the left precisely 1,000 yards."

"During the afternoon the trenches, small portion of which remained unoccupied on the right, were attacked, but the enemy held on stubbornly, supported by machine guns and artillery, and the attacks did not succeed."

More Than Hoped For.

BOATLOAD OF MULES
ON WAY TO ENGLAND
IS SUNK OFF CORNWALL

Twenty-nine Men Lost and Ten Injured—Washington,
Aroused By New Sensation, Starts Wheels of
Inquiry In Motion Again.

WASHINGTON, D. C., June 30.—The Dominion freight liner Armenian, flying the British flag and carrying mules from Newport News, Va., to England, was torpedoed and sunk on Monday night by the German submarine U-35, off Cornwall, England, and nearly a score of American muleteers aboard are reported lost, according to messages received by the state department from Consul John S. Armstrong Jun. at Bristol. Twenty-nine men in all were lost and ten injured.

The news created a sensation in official quarters, as it was the first case of loss of American lives since the sinking of the Lusitania. The gravity of the incident, however, and the action of the Washington Government depends almost entirely on whether the Armenian was chartered by the British Government and was in fact a transport of war, or whether she was an unarmed merchantman. In the latter case, even though carrying contraband, the ship should have been subjected to visit and search and those aboard transferred to a place of safety before the destruction of the vessel was attempted.

WASHINGTON WANTS DETAILS.

In the absence of official information on these points, officials declined to say what effect the sinking of the Armenian would have on pending negotiations between the United States and Germany. Immediate inquiry was directed, however, to Ambassador Page at London to secure more details, and when Secretary Lansing returns tomorrow, Ambassador Gerard will be instructed to inquire of the German Admiralty as to its report.

From the messages received it appears that in addition to the torpedo, at least one shot was fired from a disappearing rifle. The consul's report said the wireless house was "taken by second shot." It was not made clear whether the Armenian was first ordered to halt and resisted capture, requiring a second shot, or whether the submarine attacked without warning. The fact that the number of the submarine was given indicated that she had come to the surface to make the attack.

MULES CONTRABAND.

Mules are contraband of war, according to all the lists of the belligerents, so there can be no doubt as to the contraband character of the Armenian's cargo. Officials will make an effort to learn, however, whether the vessel was armed and whether she was a part of the British naval forces before the opinion of the state department on the case will be disclosed.

All of the dispatches received were promptly telegraphed to President Wilson at Cornish, N. H., and Secretary Lansing at Amherst, N. H., and it was thought probable that they would communicate with each other.

DOMINION LINE I. M. M. SUBSIDIARY.

NEW YORK, June 30.—The Armenian sailed from Newport News for Avonmouth on June 17, in charge of Capt. Trickey. The vessel was of 8,325 tons gross register, 512 feet long, and had a beam of 59 feet and depth of 35 feet. She was built in 1895 at Belfast. The Dominion Line is a subsidiary of the International Mercantile Marine. The Armenian was a British steamship.

WAS A PEACEFUL MERCHANTMAN

U. S. MAY PREEMPT
SAYVILLE WIRELESS
FOR TRANSGRESSING

Evidences of Violations of
Neutrality Are Before
Department.

[Canadian Press.]

WASHINGTON, June 30.—The United States is seriously considering taking over the wireless station at Sayville, L. I., one of the two great plants by which direct communication between the United States and Germany is maintained. The other station is at Tucker, N. J.—already is under Government control.

Evidence of alleged violations of neutrality at Sayville has been gathered by the department of commerce. The belief of high naval officers here that the Sayville station is powerful enough to communicate with submarines across the Atlantic, thus making possible the use of American territory as a base of hostile operations, is one of the influences in favor of controlling the Sayville plant.

AT 113,439 IN WAR

London Telegraph Estimates Casualties
in Expeditionary Forces.

LONDON, July 1.—1:20 a.m.—The Daily Telegraph gives the following compilation of the approximate total casualties of the British expeditionary forces during the past three months:

April—439 officers and 19,000 men.
May—4,000 officers and 26,000 men.
June—2,300 officers and 62,000 men.

PROPOSED TO
HALT INQUIRY
FOR CIVIL SUIT

Norris Government to Give
Kelly Every Chance.

NO IMMUNITY PROMISED

Roblin Government Failed to
Live Up to the
Conditions.

PHIPPEN AT THE FRONT

Said Conservatives Would Re-
sign At His
Dictation.

[Canadian Press.]

WINNIPEG, June 30.—That a tentative arrangement was made whereby the royal commission investigating the Parliament Building contracts should temporarily cease, pending a civil action against Thomas Kelly & Sons, was stated today by Hon. A. J. Hudson, attorney-general in the new Manitoba Government, and the principal witness at today's session of the new commission, which Mr. Hudson stated was to be only temporary, was that it was unfair to Kelly that he should have to defend himself against a civil suit and watch his interests before the royal commission at the same time.

No promise of immunity from criminal prosecution was given to anyone. Hudson declared that the arrangement suggested was conditional on the resignation, making certain admissions of guilt. Some of those it omitted to make.

At Phippen's Commission.

Mr. Phippen was asked to resign whenever he (Phippen) asked it to do so. Later, when the commission continued, Kelly made threats to Premier Norris, that if it was to continue he would expose Liberal wrongdoing and embarrass some members of the Government. Hudson repeated (Continued on Page Three)

SIR CHAS. TUPPER
IS 94 TOMORROW

Leading a Life of Re-
tirement A Few Miles
From London.

LONDON, June 30.—Sir Charles Tupper is certain tomorrow (Friday) to receive congratulations from people of all shades of political thought throughout the Empire on his attaining his 94th birthday.

Sir Charles, in a quiet secluded spot at Bexley Heath, a few miles from London, leads a life of retirement. Many invitations have been extended to him to attend public functions, but he feels to accept would be dangerous to his health.

It is not now that what it was, his mental vigor is still phenomenal. He follows closely events of the day. A representative of the Canadian Associated Press visiting him found the venerable statesman in an armchair surrounded with magazines, Canadian and otherwise, as well as newspapers.

The war has brought trials to Sir Charles as to many other Canadians. His granddaughter's husband, Capt. Merritt of the 16th Battalion is among the killed. Capt. Merritt was mentioned in the dispatches. Mrs. Merritt was the daughter of Sir Charles Herbert Tupper, who has three sons serving with the Canadians, one of whom was wounded. Sir Charles was full of sympathy for those who had sustained losses, and proud of the gallantry shown by the Canadians.

"We knew, of course, it would be so, just as I knew the Canadians would stand by the mother country in any need," he said, but it is magnificent to see the way in which the outlying dominions are taking a share in the struggle. Sir Charles spoke with wonted enthusiasm of the future of Canada.

ITALY IS ANNOYED AT
MONTENEGRO'S AGGRESSION

Protest Against Occupation of Albanian Territory.

ROME, June 30.—(Via Paris.)—The hoisting of the Montenegrin flag over the fortress of Scutari, Albania, is causing a greater feeling of discontent in the Italian capital than did the occupation of the Albanian towns of Tirana and Durrës by Serbian forces. The Italian Government is understood to have protested to both Serbia and Montenegro against the occupation of the Albanian territory by their respective troops.

The Norwegian bark Kotka was sunk today off Fastnet by the gunfire of a German submarine. Twelve men of the crew were landed at Queenstown after being six hours in lifeboats.

The Kotka sailed from Stockholm, Maine, May 5 for an English port. The other Norwegian boats sunk were the Cambuskenneth, which sailed February 9 from Portland, Oregon. Eight of the sailors on this boat were German and they were taken aboard the submarine. The other thirteen members of the crew were landed.

The Norwegian steamship Ojeso, 1,094 tons gross, was sent to the bottom by a torpedo and the crew landed at North Shields. This was a three-masted ship, 1,325 tons gross and was built in Glasgow in 1904.

Forty-Eight Years Old Today.

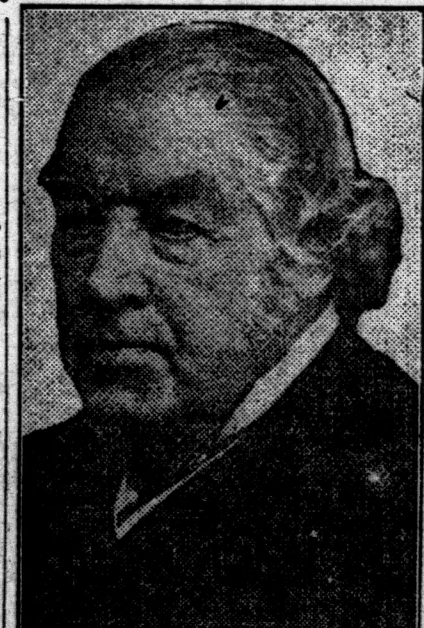

German Raids
On Buildings
Feared Today

Provincial Minister of Public
Works Orders Extra
Guards.

TORONTO, June 30.—As the result of a general warning received from the Dominion authorities, to the effect that there was reason to fear that German sympathisers had planned to "celebrate Dominion Day" by the commission of a series of "demonstrations" against public and Government buildings, Hon. P. D. Macdougall, provincial minister of public works, took action today to increase the guards upon all such buildings over the holiday. All public buildings in the city were placed under special guard, and the necessary arrangements for the celebration of Dominion Day have been made.

DETROIT PUBLISHER DEAD.

DETROIT, June 30.—H. P. Hetherington, managing director of the Detroit Journal, died today after an illness lasting many weeks. Mr. Hetherington had been active in Detroit newspaper work for nearly 40 years.

SIR CHARLES TUPPER.

GERMANS BUILDING
A SYRIAN RAILWAY
TO REACH EGYPT

Reason for Britain's Great
Activity in the
Dardanelles.

LONDON, July 1.—3:30.—An interesting discussion of the German policy is reproduced by the Times this morning from German newspapers. Dr. Ernest Jaekch, a well-known writer, maintains that if the English statesmen had to choose, they would rather lose Calais than Suez and contends that England's main desire is to protect Egypt.

Count von Reventlow, military writer for the Tageszeitung, agrees with Dr. Jaekch in the latter respect. He says that the attempted invasion of Egypt in January was only an experiment and that German engineers are now building a Syrian railway and a Sinai railway, which will convey the necessary heavy artillery and open the way from Constantinople to Suez. He adds that the way from Berlin to Constantinople must be opened by a decisive victory in Galicia; then England can be struck a mortal blow in Egypt.

"England's main interest in the Dardanelles," he says, "is the protection of Egypt and that is the explanation of all the efforts to range the Balkan countries against the Teutonic allies."

EIGHT CASES OF
DYNAMITE GONE,
SUSPECT ENEMY

Powder-House in New Ontario Looted—Two Full Bags of
Explosives Also Found by Stream.

COBALT, June 30.—Much excitement has been caused by the discovery that eight full cases of dynamite have been stolen from the old Hargraves Kerr Lake. This is the powder house from which powder was stolen previously. The theft is generally attributed to alien enemies. A number of Austrians have recently been discharged from the mines and are out of work.

Almost at the same time two bags full of explosives were found on a mill creek stream between Halesbury and Cobalt, by boys camping there.

DESPERATE EFFORT
OF GERMANS FAILS
IN ARGONNE REGION

Three Days' Bombardment
Followed by Attack.

MAKE A SLIGHT GAIN

Bombardment Also North of
Verdun and Near
Metzeral.

PARIS, June 30.—10:40 p.m.—The official communications issued today at the war office report slight progress north of Curcu, in the Argonne region, the repulse of the German attempt east of Metzeral in the Voges Mountains and the result of three days' fighting in the Argonne.

Tonight's statement says: "On the banks of the Xser and to the north of Arras there have been artillery actions. The day was calm between the Oise and the Argonne."

"In the Argonne, after a bombardment lasting three days, the Germans attacked our positions on the road between Binerville and LeFour-De-Paris, but were twice repulsed. They succeeded only in their third attack in gaining a foothold in some parts of our lines near Bagatelle and they were everywhere else thrown back after a violent engagement."

"There has been a bombardment on the front north of Verdun, on the Bois d'Ally, as well as in the region of Metzeral."

"An official communication from the Dardanelles says that since our success of June 21 the French troops have not been engaged, except in special actions intended to consolidate and extend the gains realized. They have occupied several new trenches and have during the night the works conquered to the lines previously held. Several counter-attacks by the enemy have been repulsed."

"The British have been having success by our artillery, won a great success. After an intense bombardment the British captured by assault four Turkish lines at certain points and advanced nearly 1,500 metres. They also occupied on the extreme left an eminence on the heights of Krithia and made 180 prisoners."

"A counter-attack by the enemy last night was crushed, the enemy's losses being very considerable."

DARDANELLES NEWS

PLEASING TO BRITAIN

Shows That Turks Can Be Driven
From Their Trenches.

LONDON, June 30.—11:01 p.m.—The British have forced ahead on the Gallipoli peninsula; the Austro-Germans continue their almost unbroken advance in Galicia and over the Polish frontier. These are about the only positive factors in the day's war reports, the fighting in the western theatre having advantage nothing to alter the situation.

From the British standpoint the account of the operations in the Dardanelles sent by General Ian Hamilton is especially welcome, as showing that the British, with the aid of the French, are able to drive the Turks from their well defended trenches if the advantage to be gained outweighs the inevitable losses. The British losses were not stated, but all these assaults against the German-led Turks have been costly and England is prepared to face heavy casualties there, even in comparatively isolated attacks.

ENEMY HELD
BY RUSSIANS;
HOT FIGHTING
IN PROGRESS

Austrians Make Admission In
Early Report.

BATTLE AT TOMASZOW

Teutons Attempt to Break
Muscovite Centre.

EXPLAINS THE RETIREMENT

Muscovites Arranged In
Semi-Circle Around
Lemberg.

[Canadian Press.]

LONDON, June 30.—1:01 p.m.—A brief Austrian official communication received this afternoon indicated that the Teutons were being held up along the Gnila Lipa, but a fuller official statement subsequently to hand, made no such admission, although conceding that hard fighting in this sector was in progress.

On that part of the eastern front to the north and northwest of Lemberg, it is claimed that the Russians are falling back precipitately. The Austrians, having occupied another Polish town, Zawichost, just over the frontier. The present position of the Russian forces covers a great semi-circle around Lemberg, the two tips of which, to the north and to the south, the Austrians are attempting to force back. They are hurling great forces at the centre, in the vicinity of Tomaszow. The success of this movement would sever the Russian forces as to leave Warsaw unprotected from the rear and the desire to checkmate the Russian advance explains the Russian retirement to the north.

AUSTRIAN STATEMENT.

VIENNA, June 30, via London, 10:30 p.m.—The following official statement concerning the progress of hostilities was given out here today: "Renewed attacks on the Bug River below Kamionka Strumilowa, fighting is proceeding which is successfully progressing for us. Between the Bug and the Vistula Rivers the enemy is further retreating. Rear guards covering its retreat were everywhere attacked and driven back."

"Our troops crossed the Tanew Plain and occupied a border height near Frampol and Zaklikow (northwest of Tarnobrod). The Teutons, after their successes east of the Vistula forced the Russians to evacuate positions on the west bank of the Vistula, and the enemy has been retreating since then, right towards the Vistula from strong positions on the front Zawichost-Ozaro-Sienno (southern Russian Poland). Zawichost has been occupied by our troops."

"The following official statement was given out tonight regarding the Italian war theatre: "After several days' interval, the Italians are developing lively activity on the Isonzo front. On Monday evening our troops repulsed an attack near Piava. In the Sagrado and Monfalcone district, after several minor, futile attacks, a general attack took place last night which was repulsed. Renewed attempts by the enemy this morning near Sels and Monfalcone were also unsuccessful. Artillery combats are proceeding along the entire front, which are especially severe on the Isonzo."

"Southwestern war theatre: "As a reprisal for our aerial attack near Sabar, one of our aerial squadrons early yesterday bombarded a wharf at Belgrade and a military camp at Orsova, southwest of Obren, with great success."

AUSTRIA SAYS ITALY
IS DEVELOPING ACTIVITY

Claims An Attack Near Piava Was
Repulsed.

VIENNA, June 30.—The following Austrian official statement was given out tonight regarding the Italian war theatre: "After several days' interval, the Italians are developing lively activity on the Isonzo front. On Monday evening our troops repulsed an attack near Piava. In the Sagrado and Monfalcone district, after several minor, futile attacks, a general attack took place last night which was repulsed. Renewed attempts by the enemy this morning near Sels and Monfalcone were also unsuccessful. Artillery combats are proceeding along the entire front, which are especially severe on the Isonzo."

THE WEATHER

FINE AND WARM.

TORONTO, June 30.—The weather has been fine and warm in Ontario and the greater part of Quebec, while showers have occurred near the Gulf of St. Lawrence and in many parts of the western provinces.

Minimum and maximum temperatures: London, 60, 83; Victoria, 56, 83; Vancouver, 54, 86; Kamloops, 56, 83; Calgary, 52, 72; Medicine Hat, 54, 74; Edmonton, 48, 62; Battleford, 50, 72; Prince Albert, 46, 60; Moose Jaw, 48, 75; Regina, 46, 75; Winnipeg, 53, 72; Port Arthur, 45, 72; Sarnia, 50, 72, 82; Toronto, 62, 76; Kingston, 58, 74; Ottawa, 56, 84; Montreal, 64, 82; Quebec, 58, 82; St. John, 52, 64; Halifax, 52, 63.

Forecasts.

Lower Lakes, Georgian Bay, Ottawa and Upper St. Lawrence—Light to moderate winds; fair and warm.

Lower St. Lawrence, Gulf and North Shore—Moderate winds; partly fair, but some local showers.

Maritime—Southerly winds; moderately warm and partly fair, with local showers.

Superior—Moderate westerly winds; fair and warm.

Manitoba, Saskatchewan and Alberta—Fair and moderately warm; showers in a few localities.

SAYS CANADA HAS TOO MANY RAILWAYS NOW

Dominion Government Counsel Thinks Question May Be Probed.

DUPLICATION NOT NEEDED

Significant Remark at Hearing on the Freight Rates.

ENGINEERS MAKE PLEA

Ask That Increase Be Allowed in the Interests of Employers.

OTTAWA, June 30.—The eastern freight rates case ended today, after being before the railway commission exactly four months. The last incident in the case caused a surprise all around. It came from Calvin Lawrence, legislative representative of the Brotherhood of Locomotive Engineers, one of the largest and most influential labor organizations on the continent. He appealed to the board on behalf of the engineers and the railway companies, asking that the rates be left as they are, rather than to have a rate set that would not cause further interference to the business of the railways. "For as they suffer so will the employees," and fully forty per cent of the population of Canada depends on the railways and the railway employees for a living.

Mr. Lawrence said that it was not for him to say what rate the board should fix, but he was of the opinion that better service would be rendered to the public by raising the freight rates than by reducing them. J. F. Orie, K. C., special counsel for the Dominion Government, spoke strongly against the application. He said he was holding a watching brief for the public, and the public rightly assumed that the rates were safe in the hands of the board. The application, he said, came as a shock to the people. He held that the present rates were not too high, but that the public was to face the increased burden of the railways.

SUGGESTS AMERICANS SUBSCRIBE TO LOANS

Chairman of English and Foreign Bankers Proposes Help for Exchange Situation.

LONDON, June 30.—5:30 p.m.—The situation arising from the weakness of New York exchange on London continues to be much discussed, the treasury appearing to be willing to permit gold to flow to America in part payment of the balance created by war purchases. The exchange situation meanwhile has not been remedied. E. F. Davies, chairman of the committee of English and foreign bankers on exchange problems, in discussing the exchange question today, said to a Canadian Press representative: "I consider the best way for Americans to subscribe liberally to the war loans, exchange being at present something like two per cent in favor of America on such an operation; or by Americans granting about \$500,000,000 of credit to Great Britain."

"The former way is much the better one. Paris depends solely on London, and any payments for munitions or food, must be made through London."

"BATHTUB" CASES REACH CONCLUSION

Prisoner's Counsel Argues That No Safe Man Would Commit Crime Charged.

LONDON, June 30.—The trial of George Joseph Smith, charged with the murder of three women who were his wives, approached its conclusion today. Smith, it is alleged, killed his wives while they were in their baths and collected insurance money on their lives.

Addresses were made to the jury at the afternoon session by Prosecutor Todkin and Marshall Hall, an attorney representing the prisoner, after which Justice Scrutton summed up.

Mr. Hall pleaded that no sane man and the sanity of the prisoner was not in question—could so guilty of such crimes which, if the deductions of the prosecution were correct, constituted "one of the most diabolical series of continuous crimes which ever have been recorded in any country. You must go back to the days of the Borgias for a parallel," Mr. Hall declared.

YOUNG WOMEN SAVE A MUSKOKA HOTEL

Two Hundred Organize a Bucket Brigade to Put Out Fire. GRAVENHURST, June 30.—Two hundred young women did valiant work at 4:45 this morning when fire broke out in the Elgin House, where the annual summer Young Women's Christian Association conference is being held. The young women were under the guidance of an officer of the association, and formed a "bucket line" from the fire to the lake. The male guests handled the hose. There is very little loss to the hotel, thanks to the aid of the young women.

CZAR DECLARES ALL MUST UNITE TO SUPPLY ARMY

Imperial Rescript Regarding Military Board.

MUST CRUSH THE ENEMY

Only Way in Which Peace Is Possible, Says Russian Emperor.

PETROGRAD, June 30.—An imperial rescript was issued today in connection with the formation of the Russian board of military supplies. After expressing an unshakable assurance in the brilliant future of the Russian people, Emperor Nicholas proceeded: "A prolonged war calls ever for fresh efforts, but surmounting the growing difficulties and parrying the violent attacks which are inevitable in war let us strengthen our hearts, resolved to carry on the struggle with the help of God to a complete triumph of Russian arms."

"The enemy must be crushed, for without that peace is impossible. With firm faith in the inexhaustible strength of Russia I expect the governmental and public institutions of Russian industry and all the faithful sons of the fatherland without distinction of ideas or classes, will work together in harmony to satisfy the needs of our valiant army."

"This is the only and henceforth the national problem to which must be directed all thoughts of united Russia, invincible in her unity."

CONCESSIONS TO LABOR IN MUNITIONS BILL

Compulsory Arbitration Limited to Work on Army Supplies.

LONDON, June 30.—David Lloyd George, British minister of munitions, announced substantial concessions to labor in the form of amendments to the munitions bill, the concluding stage of which will be dealt with in the House of Commons tomorrow. The chief amendment limits the power of compulsory arbitration of labor disputes in fields outside the actual manufacture of munitions. As amended, this prerogative will be exercised by the government only when the munitions work is affected. The coal miners particularly objected to being subjected to forced arbitration, as they contended that the miners never have been shirkers.

EARLY WHEAT HEADING IN SASKATCHEWAN

Grain Recovers From Frost—Conditions Are Good.

TORONTO, June 30.—A report from the department of agriculture for Saskatchewan to the Canadian Northern Railway gives the increase in wheat area as 881,362 acres, in oats, 54,338, a decrease in the area sown to barley of 41,228 acres and a fallow off in the acreage of 363,120 acres. This advice says that the grain has recovered from frost and that early wheat is heading out. There is ample moisture and conditions are described as good.

A temperature higher and quite seasonable is reported from the department of agriculture in Manitoba. Wheat is described as up to the average in condition, while oats and barley are rather above, with the possible exception of the districts where severe frosts have been noticed. This pest, however, does not appear to have been a factor in the province, and the extent of its activities have not as yet been accurately determined.

CHILDREN OF CANADA SHOULD BE GUARDED

Sir James Grant Urges Special Care in View of Loss in War.

TORONTO, June 30.—The feature of the session of the Ontario Medical Council today was Sir James Grant's address, advising greater specialization in the care of infants. Sir James pointed out that thousands of the young of Canada are going to the front to protect the interests of the Empire, and that their places must be taken by the children now at home. He moved a resolution, which was carried, that more care and watchfulness should be exercised by a special class of trained nurses, and thus conserve infants' lives at a time when a large part of the population of Canada of our young generation to the present seat of the war.

WHOLE STATE INVITED TO ATTEND WEDDING

Thousands of People Present at Marriage of Champ Clark's Daughter.

BOWLING GREEN, Mo., June 30.—Miss Genevieve Clark, the 20-year-old daughter of Speaker Champ Clark, of the National House of Representatives at Washington, was married this afternoon to James M. Thomson, editor of the New Orleans Item. The ceremony took place on the lawn of "Honey-shuck," the Clark homestead. Never before in the state has there been a wedding like that of the Speaker's daughter. A general invitation had been issued to the people of Missouri, and from all parts of the state they came by train, carriage and automobile. Thousands of Missourians mingled on the lawn with social and political notables from all sections of the country. This town of 2,000 inhabitants celebrated the event as though it were a royal occasion. From every window a flag was flying, the streets were gay with bunting, and the townspeople vied with each other in making the wedding guests feel welcome. Wedding cakes were baked by scores of Bowling Green housewives and hundreds of cakes were sent from other towns.

POINT GUN AT GIRL; LOOT CASH DRAWERS

Two Robbers Get \$200 From Toronto Office.

TORONTO, June 30.—Miss Annie Kehoe, stenographer for E. T. Lightbourn, real estate agent, 69 Adelaide street east, reported to the police this afternoon that two men entered the office while she was alone, and while one covered her with a revolver, the other took nearly \$200 from the cash drawer. She was unable to give any clear description of the men.

NO INDUCEMENTS FOR AMERICANS TO JOIN SERVICE

British Consulate Denies California Charges.

NEW YORK, June 30.—The British consulate-general here disclaimed today any knowledge of inducements having been made United States soldiers and sailors to desert the American service for the British army and navy, as charged by a federal agent in San Francisco, who has been investigating recruiting activities in California.

"The first question we ask an applicant is whether he is an American citizen," said a representative of Sir Courtenay Bennett, the British consul-general, today. "If he is an American citizen, his services are invariably refused."

The "Capitula Roche or Roach" referred to by witnesses in San Francisco, it was said, is George Roach, one of the secretaries at the consulate. Mr. Roach is not an officer. He usually attends to the applications of British subjects who want to go home to fight, it was said, but has accepted no Americans.

CAN. TEMPERANCE ACT CARRIED IN PERTH BY 175 MAJ.—OFFICIAL

Stratford Now Has Public Utilities Commission for Light and Water.

[Special to The Advertiser.] STRATFORD, June 30.—The official majority for the Canada Temperance Act, voted upon in Perth County last Thursday is 175, according to the figures given out by Sheriff Macdonald, returning officer, today. There were 4,373 votes favorable and 4,198 otherwise. The final standing is as follows:

	For	Agst.	For	Agst.
N. Easthope	250	209	41	...
Ellice	189	565

PUBLIC UTILITIES COMMISSION. STRATFORD, June 30.—According to an act of Parliament, the light and heat commission and the water commission will automatically merge on Thursday, July 1, and will be known as the public utilities commission. Definite steps towards amalgamation were taken by the city council some months ago.

THERMOMETERS FOR A. M. C. MEN. STRATFORD, June 30.—Ptes. R. W. Barrett, C. F. G. Cooke and Alex. Cameron, members of the C.P.T. ambulance corps, at London, were given thermometers by the Grand Trunk ambulance corps.

BIBLICAL STUDENT BECOMES VIOLENT; MIND SEEMS AFFECTED

[Special to The Advertiser.] WYOMING, June 30.—Because of violent tendencies, recently developed Guy Lucas, a London road boy, aged 20 years, had to be taken charge of today. It is believed that his nervous breakdown is due to an accident to his head sustained about three years ago, while threshing at the barn of J. F. Donald, second line.

At any rate the youth became wild at a picnic at Hillsboro, Lake Huron, on Saturday, and has since so conducted himself as to make his friends fearful for their safety or the safety of their property. He had been working for a farmer in an endeavor to make enough money to put him into the ministry. He had secured many books and was studying persistently. This, the heavy farm work, and the weakness left by the accident may have brought about the crisis.

S. S. NO. 22, LONDON. Class II, to IV.—Total, 550; pass, 330.—Pearl Poole, 414 (honors); Irene Mooney, 413 (honors); May Smith, 382; Sidney Pratt, 367; Maggie Hyslop, 336; Leslie Murphy (junior), 305; Rosebelle Eggett, 254. Class II, to III.—Total, 560; pass, 330.—Charlie Wood, 400; Annie Attrill, 392; Viola Awoock, 385; Jimmie Hyslop, 372; George Hyslop, 355; Richard Caldwell, 342; Holly Parsons, 341; Bert Pratt, 340; Edna Nelson, 234. Class II.—Total, 450; pass, 270.—Doris Richmond, 335; Russell Awoock, 330; Corrie Johnson, 320; Ernie Wood, 285; Victor Whitlow, 252; Jack Elliot (absent). GLADYS E. ABBOTT, teacher.

BOWLEY-MURPHY. ATLIMER, June 30.—A quiet wedding was solemnized at 10 o'clock today at the residence of the bride's brother-in-law, S. P. Bell, John street north, when Emily Murphy, daughter of Mrs. Hubert Murphy of Detroit was united in marriage to Elman Bowley, son of Aylmer's prosperous young businessmen. Rev. Charles Miles, M. A., rector of Trinity Church, performed the ceremony. After a short honeymoon in Toronto, Niagara Falls and Buffalo, Mr. and Mrs. Bowley will return to Aylmer and reside corner Talbot and Myrtle streets.

JOINS COLORS IN WEST. LOBO, June 30.—Dugald C. McGugan, son of the late Archibald McGugan of Lobo, has joined the 10th Canadian regiment at present is stationed in the Calgary district, at Scarce Camp, with the 56th Battalion, A Company, 1st Platoon.

"Dug" is a husky boy of 5 feet 8 inches, and weighing about 180 pounds. Since leaving Lobo he has followed the grain business and is considered one of the best grainmen in Alberta.

TRANSFERRED TO WOODSTOCK. STRATHROY, June 30.—N. J. H. Hodgson, accountant in Canadian Bank of Commerce here, has received notice of his transfer to Woodstock and will leave for that city in a few days. His removal is much regretted by all.

FIRE RANGER DROWNED. TORONTO, June 30.—A dispatch to the provincial forestry department today stated that Charles H. Porter, Toronto, was drowned near Sudbury on Monday while engaged in his duties as provincial fire ranger. No information as to the cause of the accident was given. He had been serving his second season as fire ranger.

Whitewear Manufacturers' Overstock Clearance at Factory Prices and Less --- FRIDAY MORNING

This is a time when we act as a clearing house for those of our regular standard manufacturers, who find it a vital necessity to "cash in" the surplus standing stocks at this season. The present event is the most important of its kind we have ever held, as all stocks are fresh and new, dainty Whitewear just out of their boxes, and are being marked today from the factory stock sheets at manufacturers' prices—some will go for less—and it is with considerable pride that we are able to state from a careful analysis of their stock that this is one of the record merchandising events of the year—a sale tomorrow that will bring "worth while" savings to hundreds of our customers just at the very time they need such garments—the beginning of the summer season.

The quantities given over each list of prices below will give you some idea of the importance of this sale. Detail descriptions of each would be impossible.

About 4,000 Garments At Factory Prices Tomorrow

MAIL ORDERS FILLED FROM LISTS BELOW.

OTHERS NOT LISTED

Many lines in the different garments are in quantities too small to list, one to one-half dozen each. Some higher grades up to \$5.00 a garment. These will be found among the different classes, all marked at factory prices. SECOND FLOOR.

THE JULY COTTON SALE OPENS ON FRIDAY MORNING --- COTTONS, SHEETINGS, SLIPS AND SHEETS

The July Cotton Sale will be a noteworthy event this season, inasmuch as prices have not been as favorable in many years, and we are quite sure in stating that the difference in your favor from prices of a year ago during this July sale will be from 20 to 30 per cent.

These savings have been augmented by many special purchases made specially for July sale, the preparation for which has been going on for the past three months, and will open tomorrow with the largest stocks of Cottons, Sheetings, Pillow Cottons and Ready-to-Use Slips and Sheets ever thrown into one sale at this store, and the smallest prices known in many years.

Such values as are listed below for the first day's selling should induce all householders to lay in a good supply this month—indeed, we would advise a whole year's supply at such prices. It's doubtful if such a low mark in the cotton market as this July sale registers will be reached again, at least for some months, or perhaps years.

JULY SALE, 12½c COTTON, 10c—40-inch Factory Cotton, a special heavy cotton, clean finish; regular 12½c yard. July sale price 10c yard.
JULY SALE, 15c COTTON, 12½c—40-inch Longcloth, an exceptionally good English cotton, free from dressing; regular 15c yard. July sale price 12½c yard.
WHITE COTTON, 14 YARDS FOR \$1.00—One bale of Bleached English White Cotton, strong make. July sale price, 7½c yard, or 14 yards for \$1.00.
JULY SALE, 22c MADAPOLLAM, 19c—Fine Madapolam, 42 inches wide, an ideal cloth for ladies' and children's underwear; regular 22c yard. July sale price 19c yard.
JULY SALE, \$3.50 SHEETS, \$2.95—Hemstitched Sheet, limited quantity only, superior English hemstitched sheets, size 80x99; regular \$3.50. July sale price \$2.95 pair.
JULY SALE, 45c SLIPS, 35c—Hemstitched Pillow Slips, eight dozen only, superior hemstitched pillow slips, laundered and finished ready for use; size 45 and 42 in ches; regular 45c. July sale price 35c each.
JULY SALE, 40c SHEETING, 35c—Bleached Twilled Sheet, limited quantity only, beautiful soft finish, twilled, 72 inches wide; regular price, 40c per yard. July sale price 35c yard.

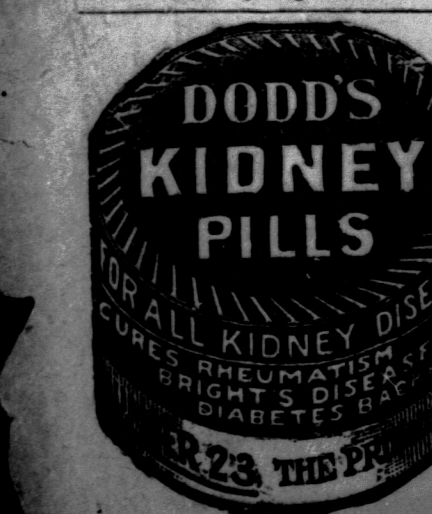

IN RESTAURANT—Cold Sliced Ham, Bread and Butter and Cup of Tea or Coffee—15c.

GALT CUSTOMS INCREASE

GALT, June 30.—The customs returns for the month of June just closed at the port of Galt show a very substantial increase. The returns are: June 1915, \$44,301.41; June, 1914, \$18,876.37. Increase, \$25,425.04.

STRATHROY MAN GETS WIFE

STRATHROY, June 30.—William Strathroy has secured his wife as M.D. His name appears on the list of those who passed the examinations of the College of Physicians and Surgeons of Ontario.

A PAGE OF GENERAL INTEREST TO WOMEN READERS

"What's In A Name?"

Well, if the name is

"SALADA"

it means irreproachable quality and value.

WASHABLE GLOVES. Everyone is wearing washable gloves nowadays, but not everyone knows how to wash them successfully. The chambray skin and washable kid are apt to dry very stiff and hard and the wearer often has difficulty in working them on the hands after washing. These kid or doekskin gloves should be well washed as usual in soap and warm water, but instead of rinsing in clear

water a basin of thick suds should be made and the gloves saturated in these suds, then wrung out without putting in clear water and hung up to dry. The suds have a softening effect on the skin of the glove and when dry it will be found that the gloves are quite soft. The cotton gloves are, of course, to be washed, just like any other cotton article in hot water and soap and then well rinsed in clear water.

**Appearance, Comfort, Service
Wear Holeproof**

Millions of people know that guaranteed Holeproofs are the cheapest hose of first grade style and quality ever put on the market. They wear twice as long as common kinds and therefore cost but half as much.

Six pairs of cotton hose are guaranteed to wear without holes for six months. Three pairs of silk hose are guaranteed for three months. If any of the pairs fail within that time we replace them with new hose free.

We use the finest Egyptian and Sea Island cotton yarns—made from long-fibre cotton, which is spun into softer, stronger, finer strands. With this soft, light-weight yarn and with our experience, we knit the longest-lasting hose ever made and they are light weight, smart looking and comfortable.

Go see these perfect hose at your dealer's. They are made in all the season's popular colors.

Men's, 25c per pair and up. Women's, 35c per pair and up. Children's, 35c per pair.

Holeproof Hosiery

A QUINTETTE OF TENNIS STARS

Advertiser Illustrations.

This picture, made at the Women's National Lawn Tennis tournament at St. Martin's Green, Pa., shows from left to right: Mrs. George Whitman of Boston; Mrs. Marshall McLean, former national champion; Miss Clara Castle, Miss Eleanor Sears, with Mrs. T. H. Cabot of Boston, racquet in hand, shown in action.

FROCKS OF SWISS.

Some very new imported muslin frocks, for which one must once more call the word quaint into service, are made of dotted swiss in the smallest and most thickly crowded of dot designs—a sort of swiss quilted out of use during recent years, though to our mothers and grandmothers it will look very familiar.

These frocks are untrimmed save for self folds, and perhaps a little narrow lace to soften the neck and sleeve finish. With their corded shirtings, their narrow ruffles, their scalloped edges bound narrowly with the swiss, they are the most old-fashioned looking of all the old-fashioned looking new things and, it must be admitted, rather more quaint than lovely.

White taffeta trims some of the most successful sheer white frocks and this silk is often used very liberally in such combinations, without detracting from the youthfulness and simplicity of the frock. Little pinked frills of white taffeta are used in profusion on one model of finest white voile. Another sheer frock of net is trimmed in graduated bands of taffeta from hem to hip and has an old sleeveless little overhaque of taffeta with a full narrow peplum below the cord that marks the waistline.

ADVERTISER PATTERNS

1363-A Unique and Stylish Design—Ladies' Costume, With Sleeve in Either of Two Lengths, With or Without Over Back, With Two Styles of Collar, and Waist Fronts.

This simple but attractive model, offers several style variations. It may be made with a flaring or a low rolled collar, a sleeve in wrist or short length. The fronts may be shaped in points or in straight outline, and closed at the side, or finished with a revers. The skirt is cut circular, and with four gores. For linen, pique, corduroy, poplin, repp, gingham, chambray, taffeta, serge, percale or lawn, this style is very suitable. The pattern is cut in six sizes: 34, 36, 38, 40, 42 and 44 inches, bust measure. It requires 5 yards of 44-inch material for a 36-inch size. The skirt measures about 3 yards at the foot.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

ADVERTISER PATTERN DEPT.
Please send above-mentioned pattern, as per directions given below, to

Name

Bale No. 23 contained 12 pillows, 2 quilts, special Echo numbers.

Bale No. 24 contained 12 pillows, 2 quilts, special Echo numbers.

TASTY SAVORIES FOR HOT DAY LUNCHEONS

Sardine Savories.—Sardines, one egg hard-boiled, brown bread, parsley. Cut the brown bread into strips and butter them. Remove the skin and the bones from the sardines and lay one fish on each finger of the bread. Chop the white of the egg into fine pieces and rub the yolk through a strainer. Chop the parsley very fine and decorate each sardine with layers of the white, the yolk, and the chopped parsley. Season with pepper and salt.

Tomato Toast.—Half an ounce of butter, two ounces of grated cheese, one tablespoon of tomato; paprika. Melt the butter and add the tomato (either canned or fresh, sliced), then the grated cheese; sprinkle with paprika and heat on the stove. Cut bread into rounds or small squares, fry, and pour over each slice the hot tomato mixture.

Ham Toast.—Mince a little leftover boiled ham very finely. Warm it in a pan with a piece of butter. Add a little Chutney pepper and paprika. When very hot, pile on hot buttered toast. Any left-over scraps of fish or meat may be used in a similar way, and make an excellent savory to serve with a green salad.

Cheese Savories.—Butter slices of bread and sprinkle over them a mixture of grated cheese, and paprika. Set them in a pan, and place the pan in the oven, leaving it there until the bread is colored and the cheese set. Serve very hot.

Egg Savories.—Pass the yolks of three or four hard-boiled eggs through a sieve and pound them with an ounce of butter and tablespoonful of grated cheese. Season with celery, salt, pepper, and a little cayenne. Add a teaspoonful of warm butter. When it is hot, spread it on some triangular-shaped pieces of toasted bread. Heat carefully in the oven and serve sprinkled with chopped parsley.

THE ROAD HOME.
It's just a common country road,
Leading who cares where?
An old rail-fence crawls by its side,
Fallen here and there.

A purple thistle stands as guard
Lest strangers venture nigh;
A bursting milkweed sends out ships
That lazily drift by.

A meadowlark calls plaintively,
Hid by the tall green grass;
A saucy sparrow cocks his head
To watch me as I pass.

Why is it that I praise this road
That looks just like the rest?
Because it is the road to "Home";
That's why I love it best.

—Alice M. Clark, in Family Herald.

RENOVATING HAT BOWS.
Hat bows that have been crushed in the rain can be renovated in an easy and practical way without untrimming the hat. Take a tablespoon, warm it over a gas stove or a lamp, with the concave side toward the heat. When the spoon is sufficiently hot, slip it carefully under the bows that need refreshing, and pass the damp parts of the ribbon over the arched side of the tablespoon.

Why Prized Panama Hat Costs So Much

American in Panama Tells of Long Process From Leaf to Hat.

Did you ever stop to wonder why it was that your prized Panama hat cost so much money? An interesting article by Ross Hazeltine, United States consul at Cartagena, tells of the slow work of weaving, and describes the entire process from palm leaf to the finished hat. These facts are set forth by Mr. Hazeltine:

Toquilla straw, from which Panama hats are made, is obtained from five or six species of the palm. The most important of these is known as *Carludovicia palmata*, and grows in the warm, moist regions of the Pacific coast in Colombia and Ecuador, and also in the forests of Peru along the headwaters of the Amazon. This palm attains a height of six to ten feet. The leaves are fan-shaped. Toquilla straw is exported to the United States and other countries, where the hats are made by machinery.

From Leaf to Hat.

Panama hats are made in Colombia in the following manner. When the palm is about five feet high the most tender leaves are cut and the veins taken out, submerged in boiling water several times, and placed in the sun to

dry and whiten. Further to whiten the straw lime juice is added, the boiling water. Then the straw is moistened to make it flexible and split with the finger into strips of the required width. A bunch of the straw is tied in the middle and placed in the centre of a wooden mold. The fibres are placed in equidistant pairs and weaving is begun in the upper part of the cup and continues in circular form until the hat is finished. The addition of fibres while weaving the crown is carefully avoided, and the number of fibres is increased to make the hat brim and edge. The beauty and durability of the hat depends largely upon the degree of exactness with which the fibres are interwoven. Once completed, the hat is washed in clean, cold water, a coat of gum is applied, and the hat is finally polished with dry sulphur.

Process a Long One.

To weave a fine hat requires three to six months with four to five hours' work daily. Two inferior hats of ordinary straw can be woven in one day. First-quality hats of toquilla are sold in the foreign retail markets at prices varying from \$55 to \$100 each.

Cynthia Grey's Mail-Box

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn. No letter can be answered privately.]

He Can Contribute Something.

Dear Miss Grey,—Please advise me about going to a basket picnic with a young lady. I would like to know whether the gentleman or the lady should pay for getting up the lunch basket? Thanking you for your advice.

Ans.—As a rule the lady is supposed to get up the lunch, make sandwiches, cake, fried chicken, etc., but if the young man wishes to do so there is no reason why he should not contribute something towards the lunch such as fruit, candy, or olives.

Limp's Longings.

Dear Miss Grey,—How can I reduce the bust?

2. Is there a remedy for redness of the hands? Yours, LIMP.

Ans.—As I explained to "Tidy" in a recent issue, little can be done to reduce the bust, unless the flesh is reduced on the entire system.

2. Have you tried applications of lemon juice and rose water? This is excellent to whiten hands. Just now, when the heat is excessive, a person's hands are apt to be red and swollen, conditions difficult to avoid.

Recommend These Tarts.
Dear Miss Grey: I have been reading your column for some time, and this is my first letter to you. I would like you to answer a few questions.

1. Would you please publish the Rose Bread recipe, as I have mislaid mine?

2. What colors look good on a dark-complexioned person?

I am sending you a recipe for cheese tarts. I am very fond of them in my lunch basket, and want other girls to taste them:

Two eggs, ¼ cup butter, ¼ teaspoon cinnamon, 1 cup of raisins or currants, 1 teaspoonful flour, 2 teaspoonfuls of water.

3. What do you think of my writing? Hoping to see this in print. I remain "COUNTRY LASSIE."

Ans.—1. As this appeared in answer to "A New Reader" yesterday, I am not repeating.

2. Shades of brown are generally most favorable, especially if the person has brown eyes; also cream, very pale pink, and a shade of olive blue.

Your recipe sounds fine, but why "cheese" tarts when no cheese is used?

Try Simple Way to Darken Gray Hair

No One Will Know You're Using This Fine Preparation.

Specialists advise against harmful hair dyes and dyes. But why use them when you can bring back the natural, youthful color with Hays' Hair Health? This is a simple, safe, and effective application by the action of oxygen in the air induced by this famous old-time preparation. Absolutely harmless. Keeps new gray hair from showing. Removes dandruff; keeps the hair that must surely still live quietly where she was born, at the old homestead in New Orleans, surrounded as it is by banana trees, crepe myrtle and magnolias, writes Helen Smith Woodruff, in Southern Woman's Magazine.

A musician of no small talent, an exquisite Grecian dancer, a philosopher, a magazine contributor, a poet, wife of Bru-Baker, the well-known artist, and herself one of the most successful art photographers in America, she nevertheless gives one the impression of an old-school Southerner who does nothing more arduous than "sit on a cushion and sew a fine seam, and feast upon strawberries, sugar and cream!"

HOMES SEWERS may bring their own material. We instruct and give necessary assistance in making.

LONDON CRACKLY BEATS ONE OF THOSE SOUTHPAWS

Paddy Dougherty Trimmed by Locals Yesterday, While Graham Holds Hams in Hollow of His Hand—Errors and Timely Hits Win It.

[BY BERT PERRY.]
LET us rejoice and be exceedingly glad, "Doc" Reising's ball team won a game yesterday afternoon. This is almost good enough to get real gloomy over the fact that the London Crackly team, who have been quite a source of annoyance to our boys over in the West London pastime pantry this week, were actually subdued. The most astounding part of it all is the fact that London won despite the presence of Paddy Dougherty, one of Mr. Crista's numerous southpaw heavies, on the mound. Yes, indeed, it doesn't sound convincing, but nevertheless it's true. Far be it from us to come out and prevaricate. We are willing to take affidavit, sign the pledge, or cross our hearts and spit-for-death that it is absolutely true. Really and truly London won a ball game yesterday. The score was 6 to 2 and those grasping Hams, those pesky, lefthanded, horseshoe Hams, were on the small end of the score. Hip-Hip-Hurrah! and a couple of Rah Rats!

Hits Were Few for Both Teams.
It's really quite interesting how it all came about. Our boys did not make many base-hits, but then, neither did those dim-headed Hams. Alexander Graham, whose fondness for pitching overboard has resulted in his getting his name into the newspaper occasionally, was out there on the knoll, serving them up for the prize. Alexander is getting to be one of our most reliable little twirlers. The Hams couldn't do much with him. They piled up seven hits, but what are seven hits, anyway? What are they? We ask, if you haven't got enough wild pitches, or bases on balls, and things to go with them, what are they? Eh, what are they? Only one run scored yesterday. Ray Whitcraft, who was playing a whack of a game over the shortstop, pegged a little too low in the seventh inning, and that gave "Touch" Woods a life that was later converted into a tally. The run that the Hams secured in the ninth frame was earned. McGroarty's two-pitcher, one-base smash to left, did the necessary. Outside of these frames, the Hams were as dangerous as a June-bug frozen into a cake of ice.

Dougherty's Error Costly.
Paddy Dougherty is one of the best of William Crista's large assortment of port-siders, and when he first innocent into the box, he was the first innocent. It looked like another day of last evening for the Reising team, but what a surprise! The Reising team, who were piled up on the left, and visions of another long row of batters in the London score by innings, were looming up. But the third aspin was quite an affair. Mr. Dougherty pitched to right field, and the ball, which was a low one, went into the hands of the Hams. The ball, which was a low one, went into the hands of the Hams. The ball, which was a low one, went into the hands of the Hams.

More Trouble for Hams.
The London team, who were piled up on the left, and visions of another long row of batters in the London score by innings, were looming up. But the third aspin was quite an affair. Mr. Dougherty pitched to right field, and the ball, which was a low one, went into the hands of the Hams. The ball, which was a low one, went into the hands of the Hams. The ball, which was a low one, went into the hands of the Hams.

TWO STAR CLOUTERS INSPECTING A FAMOUS SERIES WAR CLUB OF YEARS AGO.

Admiral Illustrations. Eddie Collins, at left, and Ty Cobb, looking over the bat with which the former poked out many timely swats in world series when second baseman for the Athletics, Eddie's with the White Sox now and he's saving the war club for another world series this year.

Walter Johnson's recent home run ball hit the dog and knocked it off the track, which was heralded as "the longest hit ever made," has started the old discussion over again. Who made the longest hit in the history of baseball probably never will be known. It is a matter of opinion. Some say it was Frank Chance, who hit a ball over the fence at the Washington grounds the first year he played in the big league. He "cricketed" a low ball, smashed it on a line to left field, he shortstop leaped and came near touching the ball it was so low, yet it passed out to left and passed under a sign-board, rolled around the fence clear to center.

I saw Ed Delehanty hit a ball entirely over the fence, which is perched on top of the wall around the Philadelphia park. I believe Delehanty's drive over the fence was very effective. Score: Cincinnati back in the middle nineties and Zimmerman's claim to the top of the list. I have seen a lot of long hits, but it is to be desired. Bill Lush's famous drive over the fence at the Philadelphia grounds in one game in 1909 was equally as long as Lush's. The ball cleared the center field fence, crossed Western avenue, broke through the front window of a saloon and hit a table where a group was seated.

I believe Helme Zimmerman's two drives over the fence at the Philadelphia grounds in one game in 1909 were equally as long as Lush's. The ball cleared the center field fence, crossed Western avenue, broke through the front window of a saloon and hit a table where a group was seated. Several players have hit the ball from Boston to New York by driving it over the fence at Washington, and his claim to the top of the list is well known. Several players have hit the ball from Boston to New York by driving it over the fence at Washington, and his claim to the top of the list is well known.

MARQUARD BLEW UP IN THE EIGHTH

Held Brooklyn to Two Hits Until That Time.

PIRATES BREAK EVEN

Cincinnati and Chicago Split a Pair, Both By Shut-Out Route.

BROOKLYN, June 30.—Pfeffer outlasted Marquard today in a pitching duel, and Brooklyn won by 7 to 0. Up to the eighth inning the Giants' pitcher had allowed two hits and Pfeffer one, and their support was brilliant. In the eighth Marquard blew up and was found for several hits, including a home run by Wheat, with two on bases. The fusillade netted six runs. Score: Brooklyn 7, Pittsburgh 0.

BOSTON FOUGHT UPHILL BATTLE. PHILADELPHIA, June 30.—Boston put up a fine uphill battle here today. By host to the home team 8 to 5. A drive off Cravath's bat took an ugly bound and struck Left Fielder Connolly of Boston, who was sitting in the dugout, rendered unconscious. Score: R. H. E. Boston 0 0 0 0 0 0 0—8 5 3 Philadelphia 0 0 0 0 0 0 0—5 3 0

REDS AND CUBS DIVIDE. CINCINNATI, June 30.—Cincinnati and Chicago divided honors here today in the unfinished race. Cincinnati shut out the visitors 1 to 0 in the first contest, and Chicago duplicating the trick in the second game, won 2 to 0. Both battles were pitching duels. Scores: First game—R. H. E. Cincinnati 0 0 0 0 0 0 0—1 0 0 Chicago 0 0 0 0 0 0 0—0 0 0 Second game—R. H. E. Cincinnati 0 0 0 0 0 0 0—2 0 1 Chicago 0 0 0 0 0 0 0—0 0 2

PIRATES WON AND LOST. ST. LOUIS, June 30.—Willie Cook hurled his first shutout of the season here today, winning the first game of a double-header from Pittsburgh at St. Louis, 2 to 0. Saltee made things easier for the visitors in the second game, and they found him for 4 to 2 victory in ten innings. The scores: First game—R. H. E. St. Louis 0 0

ORDERS ARE ISSUED! FOURTH CONTINGENT WILL BE RECRUITED

Stratford Will Start to Enroll
150 Tomorrow.

BRANTFORD ALSO ADVISED

Capt. Dunlop Hears Three
Regiments Are Wanted
From District.

[Special to The Advertiser.]
STRATFORD, June 30.—Orders have been received by Col. Lawrence, commanding officer of the 28th Regiment, to commence recruiting for the fourth overseas contingent.

No number of men was stipulated, but Col. Lawrence has issued instructions to recruit 150, the number it was expected would be asked for. Recruiting will commence Friday, with Major F. J. R. Forster as recruiting officer.

THREE WEST. ONT. REGTS.

BRANTFORD, June 30.—Capt. R. S. Dunlop, who is acting as C. of the 28th Dufferin Rifles, has received orders from the divisional officer commanding, stating that three additional infantry regiments were to be raised from Western Ontario, and that recruiting should open immediately at the D. R. Armories. The quota required from the Dufferin Rifles, it is anticipated, will be upwards of two hundred men, and, in all probability, a whole battalion may be raised in this city.

The officers of the Dufferin Rifles have undergone many changes in rank since the departure of Col. H. Genet and Major P. P. Ballacree with the 58th, and the senior officers on the staff are at present taking part in a field officers' training camp at Niagara. Attending at present are Major M. B. Cutcliffe and Capt. W. J. Robinson. Lieut. R. Secord and Lieut. Robinson are trying for captains' certificates, while Lieut. G. Fair is qualifying for his certificate.

THREE OXFORD BAKERS ARE BROUGHT TO BOOK FOR UNDERWEIGHT BREAD

Others Are Scheduled to Appear On
Similar Charges Soon.

[Special to The Advertiser.]
WOODSTOCK, June 30.—That local police authorities intend making the bakers of Oxford County live up to the strictest letter of the law in regard to making bread of proper weight was made manifest this morning, when three bakers from the southern part of the county were before the magistrate and heavily fined. Constable Hill, who recently made the tour of inspection which resulted in the summonses, had as silent witness several sample loaves of the underweight bread as evidence, and the magistrate imposed the following penalties:

Charles Dawkins, Ottawa, \$12.50; P. Stewart, Tillsonburg, \$18.75; and W. Keith, Tillsonburg, \$1.00.

Several other bakers from the county are scheduled to appear on the same charge later in the week.

NEW LEAMINGTON COUNCIL GETS OVER WELL TROUBLE

Purchase Two Acres of Property Con-
taining Disputed Fount.

[Special to The Advertiser.]
LEAMINGTON, June 30.—The trouble about the Atwell well, which the town had put down, has been settled. Last year's council had sunk the well before the terms of the agreement had been settled and when they secured a fine flow of water the trouble of settlement began.

The present council took the matter up and all trouble is ended by their purchasing two acres of land and the well for \$2,000. A suggestion has been made that it be made into a park without interfering with the supply of water. Another suggestion is that it be used as a factory site. It is located alongside the Michigan Central Railway.

The high school board advertised for three teachers and has received and received eighty-nine applications.

IS THERE A NEW PEST ATTACKING ONIONS?

Leamington Growers Observe a Ten-
dency to Withstand and Curl Up.

[Special to The Advertiser.]
LEAMINGTON, June 30.—The onion growers are becoming alarmed at what seems to be a destructive pest that has attacked the fields of the growing crop. Never before was the crop more promising in appearance and everything indicated a large yield. But in a few days a great change has come over the fields. The onion curls up as if the plant were dying and no cause can be seen for it. Some growers have examined the plants and they found a small yellow fly, but whether that causes it or not they cannot say, and they are waiting for a specialist to come to the fields for their knowledge of no insecticide, which they could apply.

A large acreage of this marsh is devoted to onions and if this should prove serious it will be an enormous loss. Mr. Henry has 60 acres, Adolphus Roach has about the same, John Campbell also one of the largest growers and many others to a less extent will suffer loss. They are hoping for a good rain which may do much to revive the plants.

TWO WEDDINGS.

PRINCETON, June 30.—Wedding ceremonies were performed this afternoon at the residence of Rev. W. N. Vollick. The contracting parties were Walter Henry Kipp and Miss M. Olive Brand; and Nelson Vail Field and Miss Annie Kipp, sister of Walter H. Kipp. Miss Annie Kipp wore her handsome travelling suit of grey cloth, and black chiffon hat with white ostrich feathers. The afternoon west-bound express stopped specially for the wedding party. Mr. and Mrs. Kipp went to Detroit, where they will be the guests of the bridegroom's brother, Dr. Arthur Kipp and sister, Mrs. Edmonston. Mr. and Mrs. Nelson Field will spend their honeymoon with relatives in London. On their return, the happy couples will reside in the village.

PRESTON YOUNG LADY, ENVELOPED IN FLAME, IS TERRIBLY BURNED

Mrs. Edward Drier, Prominent Society Woman, May Die
as Result of Ignition of Pot of Wax Which She Was
Boiling, Her Clothes Catching Fire.

PRESTON, June 30.—Mrs. Edward Drier, one of the town's prominent society ladies, was terribly burned in her own home this afternoon when a pot of wax that she was melting on the kitchen stove took fire, and in trying to put it out, her clothes became ablaze and she was enveloped in flame. Mrs. Drier was alone in the house.

FIREMAN'S BODY BURNS LIKE TORCH SUSPENDED IN AIR

Robert Thurlow of Windsor
Electrocuted.

Robert Thurlow of Windsor was electrocuted this afternoon when 4,300 volts of electricity shot through his body. Thurlow was engaged in placing a new fire alarm circuit in position. When he reached the pole in the centre of Ferry avenue, it is believed that his climbing spurs came in contact with the ground wire, the shock from this sending his body forward onto the high tension wires.

PLACING ALARM CIRCUIT Flames Shot From Body Until Power Was Turned Off —No Inquest.

[Special to The Advertiser.]
WINDSOR, June 30.—Robert Thurlow of the Windsor fire department was electrocuted this afternoon when 4,300 volts of electricity shot through his body. Thurlow was engaged in placing a new fire alarm circuit in position. When he reached the pole in the centre of Ferry avenue, it is believed that his climbing spurs came in contact with the ground wire, the shock from this sending his body forward onto the high tension wires.

Burned Like a Torch.
Without a cry, Thurlow fell across the mass of wires, flames shooting from his body in several places. The body burned like a torch for more than 15 minutes, sixty feet above the ground until the power was shut off at the sub-station.

The fire company from No. 2 station and the firemen of the hydro commission assisted in getting the body from the mass of wires. The lower limbs and one side of the body were terribly burned.

Two Brothers in Army.
Thurlow became a member of the fire department last June when he resigned a position as fireman with the Bell Telephone Company. He came from England two years ago and his relatives still live there. Two of his brothers are serving with the British army.

By orders of Alderman Eansor, Fire Chief Murray, cabled a message to his sister at 115 Moray road, Finsbury, London, England. The city will make arrangements for the funeral.

Several other bakers from the county are scheduled to appear on the same charge later in the week.

WALLACEBURG'S CHIEF SENDS AUSTRIAN AWAY ON 3 MONTHS' HOLIDAY

Refined, Educated Gentleman Travelling
As "Hobo" Under Suspicion.

[Special to The Advertiser.]
WALLACEBURG, June 30.—For a "vagrant" to be summarily sentenced to three months in the county jail is unusual, but that is what happened to Wallaceburg's chief of police, who was sentenced to three months in the county jail for being a vagrant. The chief of police, who was a refined, educated gentleman travelling as "hobo" under suspicion, was sentenced to three months in the county jail for being a vagrant.

The mistake was due to confusion attendant upon rushing jobs to make way for the opening of the tomorrow. The "way car" (caboose) of the electric train was smashed by, while a workmen's car was considerably crumpled.

Creman Gibson, in case of the latter car, was thrown from the floor by the impact and injured, but not sufficiently to necessitate being sent to the hospital.

The mistake was due to confusion attendant upon rushing jobs to make way for the opening of the tomorrow. The "way car" (caboose) of the electric train was smashed by, while a workmen's car was considerably crumpled.

29TH BATTERY HAS FULL COMPLEMENT; RECRUITING CEASES

Sarnia Officially Told to Quit
Enlisting.

HOSPITAL MEN WANTED

Point Edward Public School
Will Have Big Field Day
Today.

[Special to The Advertiser.]
SARNIA, June 30.—Orders have been received here from military headquarters that the establishment of the 29th Battery of Field Artillery has been completed, and that no more men are to be accepted for that battery.

The recruiting officer here, however, is taking men on for the 3rd Stationary Hospital.

FIELD DAY AT POINT.

SARNIA, June 30.—The public school of Point Edward will hold a field day on July 1 in Bayview Park, when a good program of sports will be held, the pupils taking part.

A subscription list was passed around last week among the local merchants and also those at the Point, with the result that quite a bit of money for prizes was secured, and the sports promise to be interesting.

BUSY REPAIRING DAMAGE.

SARNIA, June 30.—A large gang of Imperial Oil men has been employed for a week or so building the new condenser to take the place of the one that was destroyed when its supports collapsed some time ago. The work has been pushed forward as fast as possible, as the company is receiving many orders for its products.

It is expected that a new battery of ten high pressure stills at No. 2 plant of the Imperial Oil works will be started next week. A large gang of men has been employed on the construction work on them for some months, and they are now just being completed. These stills will add greatly to the capacity of the works and will also give more employment.

METEOR SEEN IN SARNIA.

SARNIA, June 30.—The meteor which was seen by people at Kingsville on Sunday night was also observed by residents along the lake shore here. They report that the meteor was very bright and traveled rapidly.

MORE IMAGINATIVE FLIGHTS.

SARNIA, June 30.—Reports of people seeing aeroplanes are becoming so common here that those reporting the incidents are being considered a joke. Hardly a day passes but someone thinks he sees a machine flying about at night.

DANCE GROWS MORE POPULAR.

SARNIA, June 30.—A large crowd of young people took in the dance given by the Alexandra Orchestra, at the pavilion at Lake Huron Park this evening. Dancing is one of the popular amusements at the local resorts, and is followed by young and old.

HORSESHOES, THE GAME.

SARNIA, June 30.—Horse shoe playing is a game that has been popular at the different camps at the lake, and many an interesting game is participated in each evening. Thomas Laughlin, of the pavilion at Lake Huron Park this evening, was the best player, with Les Dodds a close second. These two men are great friends, but do their best to make the game interesting.

The "way car" (caboose) of the electric train was smashed by, while a workmen's car was considerably crumpled.

The mistake was due to confusion attendant upon rushing jobs to make way for the opening of the tomorrow. The "way car" (caboose) of the electric train was smashed by, while a workmen's car was considerably crumpled.

BICYCLIST HURLED TO ROAD BY AUTO; SKULL FRACTURED

Aged Engineer Is Unconscious
In Hospital.

CRASH ON INTERSECTION

Collision Occurs At Wellington
and Hyman Streets—No
Blame Attached.

Unconscious, and with a serious fracture at the base of his skull, Matthew Sandford, an aged man, residing at 450 Grosvenor street, is lying in St. Joseph's Hospital, as a result of being run down by an auto, while riding a bicycle, at the intersection of Wellington and Hyman streets, at 7:15 o'clock last night.

Last night it was stated by the hospital authorities that he was not expected to recover.

Car Driven by Traveller.

The auto, a five-passenger car, was driven by N. M. Ripley, a commercial traveller, residing at 338 Oxford street. Mr. Sandford was attempting to turn from Wellington street onto Hyman street, when the accident occurred. The car, which was travelling at a fair rate of speed, was going west on Hyman street.

At the intersection the driver turned his machine, hitting the wheel square. Sandford was hurled to the roadway, face foremost. His bicycle was crushed and ground to pieces under the machine.

Rushed to Hospital.

The car was hastily stopped, and Sandford, who was bleeding terribly, was carried onto a lawn. Police headquarters were notified and the motor ambulance rushed to the scene. The injured man was taken to the hospital and placed immediately in the operating room. Besides the fracture he is badly bruised and cut.

Dr. W. J. Tillmann, who was summoned, is attending him.

Sandford is employed as an engineer at the plant of the McClary Manufacturing Company.

His way home from work when the accident occurred.

The police attach no blame for the accident.

STILL NO TRACE OF MISSING GIRL, POLICE DECLARE

Whereabouts of Wilma Poy-
ner a Deep Mystery.

FOLLOWING MANY "TIPS"

But All Efforts to Locate
School Girl Are Un-
availing.

Police investigation yesterday and last night into the disappearance of fifteen-year old Wilma Poyner, missing for over a week, was confined to attempts to run down tips supplied regarding the supposed whereabouts of the girl.

Last night detectives declared that nothing further which might have any direct bearing on the case had been learned. Detroit and other border cities where inquiries were made have failed to throw any light on the mystery.

Search Continues.

The police are busy weighing a mass of evidence in connection with the case. Persons who have declared they have seen the girl on the night she disappeared have been carefully interviewed by the authorities. No one so far, however, apparently has been able to supply the necessary information which would place the police department on the right track in solving the mystery.

During yesterday's stories reached the ears of the authorities that the girl had again been seen on the streets of the city. The police place no credence in this, however. They declare that with the parents searching the city daily and watching the downtown streets and with patrolmen, who have been furnished with Wilma's description, on the lookout for the girl, there is little likelihood that she could pass without being recognized. Her description is already in the hands of the police throughout the district.

Held a Prisoner?

Voice of the People

Old Countryman Again.

To the Editor of The Advertiser: You have, in this morning's paper, carried on a letter I wrote the other day to you—perhaps if you were an "Old Countryman" too, you would see the side that we see, and when I say we, I mean practically all of the rank and file, who are going to hold, in the name and for the honor of Canada, all that the British Empire stands for. I should be the last to deny the right of petitioning, but at the same time, both you and I can agree on at least one thing, that some petitions appear very futile to those who know the real facts of the case—this to me, is one of them—and is quite on a par with the ridiculous attempt to cut off the tobacco supply, that has recently been made. In any section of the community there are exceptions who will use to excess both tobacco and alcoholic liquors, but I maintain that the ordinary citizen of Canada today is as temperate as a like number of men taken haphazard from civilian life, and there should not be this discrimination that shows the soldier as a bad citizen, and the civilian as a good one. No soldier can be a good soldier if he is not temperate, and the soldier has as much common sense as the civilian and it too—on these questions I wish to be treated sanely, not to be interfered with, as to our tastes, by any associations or alliances who really do not know the inner side of the case.

As to another point—I notice you quote the Minister of Militia as saying that he could get a million men, and British cabinet ministers have said that Canada has contributed in greater proportion than has the Old Country. Well sir, do you believe either statement?

Honestly now—do you? I know of places in the Old Land, from which every eligible man has gone, and I know such a small corner of England—and doubtless every other part is doing its share as well. Furthermore, it is not usual for you to quote the Hon. Sam Hughes, who is a man of best friend would always make a certain allowance for him when he makes public utterances—it's his way to be optimistic. I think I kindly I pursue the subject further. I know the fellows out there—both native born and Old Countrymen—born are rather disgusted with all this fussing and they do, just as all the home, Indian or other troops are doing—their duty. If they get chances to shine, they shine—no one expects anything less—from the Canadians to the British.

With regard to the proportion of native-born to the remainder in the contingents already raised, it's merely a statement of fact—papers have spoken about it. Appeals have come from all sources for Canadians to recruit, but they don't! It cannot be glossed over by quoting the increase of population as you do, your figures show nearly twice as many Canadian-born in the Dominion, that should the need arise, owing to prolongation of the war, that the native-born will rally to the colors. To enjoy the privilege of understanding the real possibilities is not a many thing to do, and so far it amounts to this. As I said before, mine is not the opinion of a solitary grouchy old fellow, but of a Canadian-born enlistee we'll win—we can't help it—but for the sake of the Dominion, if for nothing else, rouse up the Canadian-born in the ranks. We mean we'll still "go marching on!"

As before, sincerely yours, "OLD COUNTRYMAN."

London, June 29, 1915.

"Another Old Countryman."

To the Editor of The Advertiser: I was pleased to note your editorial in Tuesday night's Advertiser re "Old Countryman's" protest, which, as your writer suggests, does certainly voice the views of more than one old countryman, although it is obvious that "Old Countryman's" letter was garbled and twisted in the said editorial. The publication withheld because he did not specifically ask his insertion in your valuable paper. Now, to the first point in "Old Countryman's" letter regarding the old women of Bruce County and dry canteens, most of old countrymen don't consider them worth powder and shot. Point number two, the mothers of Canada, keeping their sons from the battle front is a moot one. If, as the editorial says, there is more evidence in the favor than against them, that only goes to show how really soft the sons must be. Your editorial quotes the Minister of Militia as saying he could raise a million men in Canada. I have other editorials clipped from your paper to show he is the biggest bull-peddler in Canada which is some thing to say. Then your editorial goes on to say, "the casualty lists tell a tale for themselves." They certainly do, and we'll leave it at that. With regard to the proportion of Canadian-born of military age in the Dominion, that speaks little, the fact remains that young men are walking around in thousands in parti-colored hats, white socks and delicate cravats and vests, and a foreign baseball bulletin in their sock attraction, outside a change of gum and the game.

As to "Old Countryman" being a member of a Canadian battalion, let me tell Canadians that not one cent has been expended on the war by this country with the exception of subscriptions to Red Cross and patriotic funds. The tollers of the British Empire are paying for these so-called Canadian battalions, and are sending millions a month into this country, the while political scavengers are robbing the old country workers have their eyes opened to the enormous cost of Canadian loyalty. England could have got almost every man she has got from this Dominion by simply advancing their fares and saved millions, but for the sake of giving Canada a stake in the Empire, they are shooting money away like water, and Canada is grabbing the stake by false pretences.

Let me say, Mr. Editor, in conclusion, that although there is grave danger right on our own doorstep, Canadians are not even organizing to defend their own precious Dominion, but are looking to the British-born battalions here and probably Uncle Sam "sic" to take care of them.

Asking that this be pushed, and bucking no responsibility for same, I am, Mr. Editor, "ANOTHER OLD COUNTRYMAN." London, June 29, 1915.

Who Will Pay the Shot?

To the Editor of The Advertiser: I understand that the new electric engines of the L. and P. S. Railway cost in the neighborhood of \$70,000 each.

If this be true and trolley men experienced in the use of such engines of rolling stock in general, who pays the shot?

Railroading is a trade, learned and acquired through years of hard service and not a position that a street car man can fill.

Recently I learned that some first-class railroadmen would have taken positions with the new road, but not for 23 or 24 cents per hour. It is beyond all the logic of the experienced railroadmen working for such wages, or of inexperienced men giving satisfactory service in the freight service.

I am not a knocker, but have served years in the railroad business and know of what I speak.

It does not seem right to see this (finest) equipment America handed by underpaid men, when a few cents more per hour would undoubtedly mean the saving of thousands of dollars in the long run.

I see a future for the L. and P. S. in the freight business if they railroad? Yours truly, OBSERVER.

WEDDING BELLS

CLARKE-ROEMMEL. APPIN, June 30.—A pleasant event took place at the home of Mrs. J. C. Clarke, formerly of Glenora, now of London. The ceremony was performed by Rev. George Weir of Glenora in the presence of a large number of guests.

The bride looked charming in her travelling dress of Belgian blue silk crepe de chine, with chiffon hair and a small hat. The bridegroom wore a suit of grey flannel.

The ceremony was performed by Rev. George Weir of Glenora in the presence of a large number of guests.

U. S. WOULD FIGHT IF NEEDED IN WAR

American Sure Country Has Understanding With Allies.

WOULD BE NO REVOLUTION German-Americans Are Loyal to States, Declares W. R. Wendell.

Will the United States enter the war on the side of the Allies? W. R. Wendell, the speaker at a special patriotic service in the schoolroom of the First Methodist Church, last evening, declared his emphatic opinion as an American that they would—if it should become necessary.

At present, he declared, he was convinced of the understanding existed between London and Washington, and England very probably preferred that the United States should remain neutral for the present in order that she might have the benefit of the American factories.

But, he said, no doubt existed in his mind that should the democratic institutions of which Great Britain was the champion appear to be in danger, the United States would at once declare war on Germany, the enemy of these institutions.

When States Would Fight. "You ask on what pretext this could be done," he said, and answered: "On any pretext, or on no pretext at all. The United States would not wait for a pretext to take a hand in the struggle on their side."

In the event of America becoming involved, he believed, practically all German-Americans of the second generation, and the great majority of those who had emigrated within the last ten, fifteen or twenty years, either would take up arms for America or would remain quiescent. So long as America is neutral he said, the sympathy of these German-Americans might be with the fatherland, but directly she entered the war their sympathies would be with the country which they had made their home, and whose ideals and institutions they had come to love.

Mr. Wendell gave as the probable reasons for the neutrality of the United States in the beginning of the war that they should have no knowledge of European politics, and therefore were not in a position to judge of the fundamental causes and issues of the war.

When President Wilson issued his proclamation of neutrality, he said, he probably was for peace at any price, but apparently the logic of events had carried him out of and beyond the limits of his individual personality. This was indicated by the tone of his latest note to Germany. William Jennings Bryan, the speaker thought, was actuated in the present instance, as he was in every action of his political life, by self-interest, and was paying the way for his candidature at the next presidential election.

People Not Responsible. In reply to a question as to why America had not considered she was under an obligation to live up to the spirit of the treaty which she signed, Mr. Wendell expressed the opinion that at least a strong protest against Germany's action should have been voiced by the President. He thought, however, that the people of the United States could not be held responsible for this omission, because very few of them were paying the way for his candidature at the next presidential election.

MR. HUN HAS NO CHANCE IN FIGHT, SAYS SOLDIER NOW "TOURING FRANCE"

London Doctor Writes From Front—Canadian Weather for Mine, Declares Peat, Clark.

Miss Margaret Martin, 135 Kensington street, has received the following letter from her brother, Dr. C. E. Martin, now serving with the first Canadian contingent in France. It is written undated, but is dated as follows:

"When you wrote me on May 25 we were in the thick of a scrap, and, take it from me, we did not show a yellow streak. I celebrated my birthday in great style. We took the road on May 24, and were on it three days, 'touring France,' in a primitive style. 'About all I can tell you is that the war is what we are keeping our end up fine. Mr. Hun hasn't got a chance. You people in Canada know more about it than we do. All we see are little incidents which we cannot relate. 'It was a good idea in sending writing material, as it is scarce out here. That is the main hold-up of correspondence, which we cannot relate. 'I had some London papers and surely enjoyed them.'"

CANADIAN WEATHER BEST HE'S EXPERIENCED.

Another letter from the front is one received by Alf Gatecliffe of West London, from H. W. Clark, now in the second divisional supply column of the second contingent. At the time of writing he was in England.

In part, he says: "Give me Canadian weather. We can see Calais on the coast of France. The British gun boats and torpedo destroyers can be seen from the shore, too. 'Is nothing but motor-trucks and motorcycles here. You should see the moving vans and brewery wagons that have been pressed into service. They use all tractor engines to pull them. Two or three wagons behind each engine.'"

MEMORIAL SERVICE SUNDAY FOR LIEUT.-COL BECHER

Will Be Held in St. Paul's Cathedral in Morning—Citizens Invited.

A memorial service for Lieut.-Col. Becher will be held in St. Paul's Cathedral next Sunday morning, and a special sermon will be preached by Canon Tucker. The service will be held at 11 o'clock.

The memorial for fallen Canadians will be held in St. Paul's, London, Eng., recently by the Bishop of London.

All soldiers and citizens are invited to attend, and it is expected that the memorial service will be one of the most largely-attended ever held in London.

BOY SCOUT CONCERT TO AID BRADY FUND

Entertainment Will Be Given Friday and Saturday Evenings.

Tomorrow and Saturday nights, the Boy Scouts of London are putting on a splendid concert in the auditorium of the Y.M.C.A. The proceeds will go to the Brady memorial fund.

The program consists of an act dealing with scout work, by practically every troop in the London district. Special features will be a two-act play, "The Indian Death Trap," written by Scoutmaster Cree and acted by Troop Seven, and a two-act play, "The Twink," featuring the Wyckoff twins, written by Scoutmaster Perry, music directed by Wm. Bugler, and acted by Troop Eleven. Special scenery has been loaned by the management of the Majestic Theatre.

"The Call to Arms," which was composed by Mr. Butler of 377 Dundas street, is to be sung in the second act of "The Twink." This song was dedicated to the late Col. Campbell Becher and was his favorite marching song while in England and France.

The concert is to be under the patronage of the Lord Roberts Chapter, Imperial Order, Daughters of the Empire. The ladies of this chapter have always been keen supporters of the scouts since the founding of the movement. There is a very fine lot of Scout Swastika Bages of Brotherhood.

Miss Jean Walker, elocutionist, Miss Davina Scott, soprano and Miss Mayme Patterson, contralto, will assist the boys on the program.

Major Stevenson will occupy the chair. Vincent G. Perry, S. M., is director.

There will be quite a few people on Manor Park in South London this afternoon, looking over the ground and viewing the new buildings and selecting their own homesties. There is a very fine lot with a large tree that might just suit you.

THE MAN WHO WEARS Medium-priced shoes is often disappointed in the shoes he gets. Buy the wrong store for them—that's the principal reason for the trouble. This store prides itself on the value it gives a man in a pair of popular leather faced shoes at \$3.50 and \$4. Come in some time and judge for yourself.

To Help Nature Shed a Bad Complexion

Beauty devotees are enthusiastic over the beautifying qualities of mercuriol wax. Nothing discovered within recent years accomplishes so much, so quickly, without harm, at such small expense. The principal reason for its wonderful merit is that it works in harmony with physiological laws. Instead of hindering, it actually takes off the aged, faded, yellow, freckled or blotchy surface skin, gently, gradually, causing no inconvenience. It is Nature's way of renewing the complexion. When the natural process is retarded because of deficient circulation or nerve tone, mercuriol wax comes to the rescue and hastens the skin shedding. The new complexion which appears is a natural one, youthful, healthy, exquisitely beautiful. If you've never tried mercuriol wax, get an ounce of it at the drug store, use it at night like cold cream, washing it off in the morning.

Another natural beautifying treatment—for wrinkled skin—is to bathe the face in a lotion made by dissolving an ounce of powdered salicylic acid in a half-pint of water. This is remarkably and instantaneously effective.—Adv.

Last M. C. Train

Leaves London; Lease Expires

Closed Agreement for Running Rights Over L. and P. S. R. at Midnight.

The Michigan Central agreement for running rights over the London and Port Stanley line expired at midnight, last night, and the last train left for St. Thomas about 11:30.

It was a mixed, and included all that remained of the company's rolling stock. For many days past the railway has been busy getting all its cars

and other equipment moved away from London.

The city ticket office will still be kept open, and Manager Thos. Evans will look after freight and passenger business. He declared to The Advertiser last evening that there was no statement to make regarding what is to be done at present.

SPORTS FOR SOLDIERS

Although a great number of the men in training at Carling's Heights are out of the city today, quite a few are remaining in town, and for these the officers have arranged a program of sports. This morning a football game will be played between a picked team from the 33rd and 84th, and in the afternoon two baseball matches are scheduled to take place. It is expected that a goodly number of citizens will be on hand to witness the games.

I'm Proud of that "High Standard" Job

Good painters feel sure of satisfactory results when Lowe Brothers High Standard Paint is specified.

They know it can't be surpassed for covering power, spreading capacity and durability. When properly applied "High Standard" paint wears evenly and leaves a good surface for repainting. It is the paint to use for Best Results.

When you paint insist upon getting "High Standard." You can feel sure of its quality because the "Little Blue Flag" is on every can. This trademark is your assurance of quality.
