lowers the germicidal power of the body and that alcohol paralyzes the white corpuscies of the blood and renders them unable to take up and destroy disease germs. Disease germs cause the death of over one-half of the human race.

A blood medicine, made entirely without alcohol, which is a pure glyceric extract of roots, such as Bloodroot, Queen's root, Golden Seal root, Mandrake and Stone root, has been extensively sold by druggists for the past forty years as Dr. Pierce's Golden Medical Discovery. The refreshing influence of this extract is like Nature's influence—the blood is bathed in the tonic which gives life to the blood—the wird force of the hody hum brighter and their increased activity consumes the

tissue rubbish which has accumulated during the winter.

Dr. R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, and a physician of large experience and practice, was the first to make up an ALTERATIVE EXTRACT of roots, without a particle of alcohol or narcotic.

hausted, until paralysis of some form claims you as a victim.

The only way is to watch the warning symptoms, such as sleeplessness, headache, indigestion, tired feelings and irritability. By the prompt use of Dr. Chase's Nerve Food you can feed the feeble, wasted nerves back to health and vigor, restore the vitality of the body, and prevent serious disease.

Mrs. John McKellar, 11 Barton

Mrs. John McKellar, 11 Barton street east, Hamilton, Ont., writes:—
"I was injured some years ago, and that left me with a broken-down nervous system. I could not sleep, and suffered from twitching of the nerves and disagreeable nervous sensations.

"I then began using Dr. Chase's Nerve Food, and can say that I never used any medicine that did me so much good; in fact, I am entirely cured of my old trouble. The Nerve Food not only strengthened the nerves, but also built up my system in every way." Under date of Aug. 29, 1912, Mrs. McKellar writes, confirming her cure, and states that she has had inquiries from many people who had heard of the great benefits she obtained from Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50. The S. S. Prima entered port last midnight from Glasgow with a cargo of hard coal for A. J. Harvey & Co. The trip took twenty one days and was the stormiest ever experienced by the ship since she was built. After leaving the Scottish port moderate weather prevailed, but only continued for a day or so. After that the weather was boisterous. Gale succeeded gale was boisterous. Gale succeeded gale with mountainous easa running. The ship's decks were constantly inundated and the crew could scarcely get ed and the crew could scarcely get about. At intervals the Prima was buried beneath the waves, seas going over the smokestack, but the ship came through without mishap, beyond silght damage to the deck. The Prima berthed at Harvey's premises to-day to land her coal and after discharging will likely load fish.

#### **Hatpins For all** Occasions.

The hatpin is at all times a subect worthy of much and serious thought vet to note these in the majority of hats there is apparently little attention paid to the selection of this article. They neither follow the mode of the day nor the color scheme of the hat or costume. They are too evidently solely for utility. Two illassortéd ill-selected hat pins can destroy the beauty of any hat beyond remedy. The mode at present is for small headed pins, and where rhinestones are used it is in combination with pearls. In pearl gray and pale pink tones these imitation pearls with a border of brilliants make a charming ornament for the simple hats of the present vogue. For the black or white hats the popular black enamel

received a wound last evening came near causing his death. Moakler alleges, interfered, and a general fracas occurred. In the melee Moakler received a severe wound in the back and does not know if he fell against a sharp adze which is possible, or whether he was stabbed with a knife. Anyhow whatever in strument it was it cut through his coat and vest and inner clothing and the wound received was deep and dan-gerous. The man then went home, out did not seem to suffer pain and only once complained to his wife that his back hurt him. He partock of tea and then went to the police sta-tion to report the matter, but being under the influence of drink, and as here was then no sign of blood about him the matter was considered a trivial affair and he left the lockup going to Mr. John Kean's shoe store on Adelaide Street. Here a friend named Wakeham noticed "that the man's clothing was saturated with blood and assisted him home, where Dr. O'Connell on being phoned for promptly attended him and put several stitches in the wound. When the man arrived home it was seen that he was bleeding copiously and the chair on which he sat and the door which he rubbed against were smear ed with blood. The doctor said that if the wound had gone another ½ inch the principal artery would have been cut and he might have lost his life The police were then informed of the seriousness of the affair and after getting Moakler's statement Head Peet and Sergt. Noseworthy arrested Connors at the Casino Theatre. A new suit of clothes worth \$25 which Moakler were spoiled, the back have ler wore were spoiled, the back hav ing been cut out of the coat and vest The man will be confined to his bed for a long while. Connors to-day in court pleaded not guilty to the charge of wounding the man and was allow ed out on his own recognizance.

#### A Brutal Act.

Man Throws Kettle of Boiling Water Over His Wife.

Last evening quite an 'alarming scene was created in the East End of the city. The commotion was caused by an elderly resident of that section. He came home at tea hour deeply laden with alcohol and immediately started in to make matchwood of the furniture. Later he threw at his wife a kettle of boiling water which scalded her badly about the arms, and body. At this juncture screams attracted neighbors to the house and Dr. O'Connell was sumsufferings. In the meantime the police were acquainted and officers Kelly and Tucker were despatched to the house, but did not make an arrest as the son of the brutal greybeard did not wish to see him go to jail.

#### Badly Scalded.

Mr. Chas. Moakler, of 36 Codner's MOTHER SAYS ZAM-BUK ACTED

He is a cooper by trade and worked last week and for some time on Franklin's premises, Last evening after having taken some drink he went to the wharf and had a dispute (s: "My litle boy, aged one and a with a man named Cantwell, when half years, put his foot into a pot mother, a laborer named Connors, so of boiling water. The foot was so badly scalded that the skin came off with his stocking, and he had a shocking scald, from instep to toes. "I at once sent for a supply of

Zam-Buk, and as soon as this was applied, it seemed to act like magic and gave him ease. It was good to tell that Zam-Buk stopped the pain, because up to applying it I had to nurse the child all the time, but soon after I applied Zam-Buk he was anxious to play! "I only used four boxes of Zam-Bu

and the scald was then entirely healed; so I consider this the best investment I ever made. I believe Zam-Buk would have cured the scald even more quickly had the boy been lying down all the time, but after beginning with Zam-Buk, it made the sore so easy that he was soon on his feet and playing about again.

"I might also tell you that my next boy to him aged five years, had some bad broken chilblains. We used Zam-Buk on these also, and it cured them. For sores of any kind I shall in future use only Zam-Buk."

Housekeepers everywhere speak similarly of Zam-Buk. It is a sure cure for eczema, rashes, ringworm chapped hands, scurvy, heat rashes, cuts, burns, ulcers, discharging sores. abscesses, piles, inflammation, festering and all skin injuries and diseases. 50c. box, all druggists and stores, or Zam-Buk Co., St. John's, Nfld., for price. Special Evening Telegram LONDON, To-Day

War news is still comparatively un-interesting, with small engagements nvolving manoeuvering for position, the Turkish and Balkan forces as sembling and preparing for big events. When the allied states declared war, it may be assumed Turkey had by no means concentrated her roops, Moreover, Turkey is still hoping to detach Greece from the conederation. Her failure to do this undoubtedly necessitated some change in strategic plans. She still needs time to transport her troops to re-quired positions. Hence the falling back of small Turkish garrisons from numerous frontier posts is of no great significance. The Servian army is steadily advancing and now has its headquarters at Vranya. The Greeks have captured Dissikata, from which position the Turks retired. A big pattle is expected shortly. According Meanwhile the rival fleets are both active, the Greeks blockading the li land of Lemos and the Turks bombarding Kavarna and Varna. The reports of the sinking by the Bulgarians of a torpedo boat is discredited at Constantinople. The Greek Consul at Cardiff, acting under instructions from his Government, is laying claim to all Greek tonnage entering port. Every vessel is commandeer-ed and becomes the property of the Greek Government Captains and officers and Greek ship owners have requested the British Foreign Office to protest against this procedure.

CONSTANTINOPLE, To-Day. It is admitted here that the Bulgarans are established about 12 miles from Adrainople and that a big battle is imminent. The Governor of Adrainople has issued a proclamation warning residents of the possibility of the infestment of the town. He ecommends those able to leave to do so. It is announced that an important concentration of Bulgarian croops has taken place southeast of Bulgaria at Koestendil, the objective of which doubtless is Struma Valley he easiest road to the heart of Macedonia. The Turkish Government will ssue a proclamation to the people of the European provinces in reply to Ferdinand's manifesto, enjoining on Moslem's good behaviour and assuring Christians they have nothing to fear, provided they remain loyal. It is asserted that in fighting around Elassona the Greeks lost 1,500 killed.

SYDNEY, To-day. Horace J. Mayhew, interested Broughton coal areas announce that work would begin immediately on construction of railway from Broughton o Mirably a distance of 3 miles. It is expected next summer a pier will be built and development of areas on a considerable scale begun.

OTTAWA, To-day. Monk's letter of resignation was handed to Prime Minister to-day. Borden will communicate it to Governor General and with the withdrawal of Minister of Public Works the incident will have been completed.

OTTAWA, To-day. With practical close of season for deep sea fishing at end of September the total value for six months from April to end of September is \$11,343,421 against total \$11,753,706 for corresponding period. The decrease is due to falling off in lobsters to the extent of 32,733 cases.

TURBOT PLENTIFUL. — Large shoals of turbot struck into Hodge Cove, T. B., Saturday, and big catches of them have been made on trawls Jacob Smith took 103 in one haul and the fish will be salted and brought to

#### The Sunday Express.

(With apologies to Walt. Mason.) There was once a paper called the Sunday Express, its first editorial laid particular stress that politics and scandal were to be banned, its aim was just for the good of the land. But lo and behold, on the first page we see a whole half column devoted to Mr. Downey; his love and devotion to the "isles of the west"-of all the Tory party he was the best. Nor was it then its politics ceased, page 2 said Higgins would come to the east, and was ready to go through blood and through fire to break the three "dreadfor the print, and other expenses would come from the Mint.

But alas and alack there was raised a loud cry, the SUNDAY EXPRESS had to bid a good bye, Sir Edward says the ads, were unauthorised, and to this effect each Department advised. They thought Newfoundlanders to burn were too green, but now never more will the ads. be seen. Something else for Mr. Dooley will have to be found, for Sir Edward be bad spect like the loans, its memory now will be cherished by groans. MR. DOOLEY.

The distinguished Mr. Dooley concocted a little scheme, By which he'd boom the Tories, non-political it would seem.

He published a little paper, and called it the SUNDAY EXPRESS, He sure did make a bad mistake for

he struck a hornet's nest. CHORUS: Oh, 'tis Mr. Dooley, 'tis Mr. Dooley, A man they say that knows a thing or

two,
You got us in hot water, when you
known you shouldn't oughter,
Oh, Mr. Dooley-ooly-ooly-oo.

#### **About Time.**

ernment had a few "lvelies" engaged Blackhead Road. If they continue as they are no doubt the work will be completed on the era of the coming election. Never before, as the "Telegram" remarked recently has this thorofare been in such a condi-tion and though it is rather late in the day to do the work now the people of St. John's West must be grateful for 'small favors." They of course recognize that our present economic rulers have not much money to spend on such paltry utilities as road re-pairing, the past season's picnicing ashore at Fox Island. #### Fisherman Drowned.

Yesterday afternoon the Minister of Marine and Fisheries was in receipt

"Four bankers arrived here, viz., Acme, with 120 qtls.; Cayuga, 300; Valoria, 500, and Grayling, 130. The Acme reports that one of her crew, Martin Byrne, was washed off the bowsprit and drowned on the 11th inst., off Point Amour. There is a slight improvement in the shore cod-fishery. Schools of herring were seen in this harbour and at other nearby places during the past few

#### INSTANT POSTUM

-the new food-drink

This beverage has a charming flavour much like mild, high-grade Java. Instant Postum is a regular Postum in concentrated

form-nothing added-made in the cup-

#### No Boiling Required

Stir a level teaspoonful in a cup of hot water-add sugar and cream to taste—a delicious beverage is ready instant-

Tea and coffee contain a drug—caffeine—which causes a lot of trouble-nervousness, sleepless nights or some other annoying condition.

Postum tends to build up steady nerves and a clear, trusty brain, and ten days' trial will show valuable results. Grocers sell Instant Postum in 100-cup tins at 50c. Small er tins making 50 cups at 30c.

#### Coffee averages about double that cost

If your grocer does not have Instant Postum, send a 2cent stamp, to cover postage, for a free 5-cup sample.
