

OIL STRUCK IN BLACK DIAMOND DISTRICT

Oil and gas have been found at Black Diamond, 35 miles south of Calgary and 10 miles from Okotoks. The product is said to be present in commercial quantities. The discovery has precipitated a tremendous rush, and all the oil and gas rights for many miles around the points of discovery have been taken up within the past few days. The records of the land office show that more than nine townships have been filed on.

GRAND TRUNK TRAINS HERE BY AUGUST

Grand Trunk trains will be running into Calgary by August 1. The difference between the government and the officials of the Grand Trunk have been practically settled. It is understood that the railway agrees to construct the new barracks of the Northwest Mounted Police, which are to be located east of the General hospital. The new barracks will cost about \$200,000 and work is to be started at an early date.

TWELFTH YEAR—No. 70

WOMEN ARE ACTIVE IN FRANCHISE MATTERS; HITCH OCCURS

City Solicitor Holds That Married Woman, Living With Her Husband, Is Not Entitled to Vote, as Joint Tenant on Property

MOTHER CAN'T VOTE TILL FATHER WAIVES HIS RIGHT

Assessor Refuses to Be Governed by Ald. Ross' More Liberal Interpretation of Charter Provision—Compromises Matters for Women

The women of Calgary have lost no time in adopting Ald. William Ross' advice to increase their voting strength; but a hitch has occurred which may damp the ardor of the ladies. This first difficulty occurred yesterday afternoon when the application of Mr. T. O. Jensen to have his wife's name put on the assessment roll as joint tenant of the property on which he resides, was refused by the city assessor.

The city solicitor supports the ruling of the assessor on this point. A married woman living with her husband is not entitled to a vote as joint tenant of property on which her husband votes, nor as tenant in common owned by her husband, who votes both in the Alberta City Solicitor's and the Alberta City Assessor's office.

What the West Did Yesterday

VANCOUVER, B.C.—Calculations based on the directory census give Greater Vancouver a population of 100,000, including Vancouver, South Vancouver, Point Grey and Burnaby. The Franco-Canadian Frontier is to build a ten-story office structure, costing \$2,000,000.

WINNIPEG, MAN.—Permits were issued today for 40 dwellings to cost \$200,000. The C.P.R. will award contracts to a large amount for double tracking. The building permits have passed the \$6,000,000 mark. One was issued today for an apartment block to cost \$35,000. Today 1,150 immigrants arrived.

EDMONTON, ALTA.—Four hundred steers fed at the Provincial Government's demonstration farms at Olds, Sedgwick, Vermilion, and Claresholm in the winter of 1912-13, yielded, according to Supt. Craig, a net profit of \$4,187, an average net gain of \$10.60 per head. Average increase of weight, 187 1/2 lbs.

CALGARY, ALTA.—Fifty thousand dollars will be offered in premiums and purses at the Industrial Exhibition this year. Allan Cameron, general superintendent of lands, C.P.R., department of natural resources, returning from a three weeks' tour of the United States, states American immigration will pass all records this year, thousands of farmers being disheartened over three years of bad crops. In Colorado irrigation farmers are much discouraged over the high prices of water in some parts the cost running as high as a hundred and twenty-five dollars an acre. It is reported in Denver that ten times as many American farmers migrated to Canada owing to Canada's liberal terms than there are in all the U.S. national reclamation projects. American farmers are much attracted by the C.P.R.'s general twenty-year payment and loan policy.

GOVERNMENT AND G.T.P. AGREE ON SITE; TRAINS RUNNING BY AUGUST

The Dominion government and the Grand Trunk Pacific railway have practically completed arrangements about the taking over of the Mounted Police barracks and it is almost certain now that the G.T.P. will be running into Calgary some time in August.

There is one detail upon which the government and the railway have not come to terms but that is not so serious that it will cause any delay in the arrangements. The Grand Trunk Pacific will not take the case to the court and the arrangement is not very different from that which was offered to the company some years ago.

It is understood that the railway will build the new Mounted Police barracks, which will be located to the east of the hospital and that the new buildings will cost about \$200,000.

The work will be started at an early date.

NEW JOCKEY CLUB TO BUILD RACE TRACK FOR NEXT SPRING

Will Have Mile Course and Hold Fourteen Days' Racing Each Year—80 Acres Have Been Purchased South of the Country Club

PROMOTE BREEDING OF THOROUGHBREDS

Special Prizes for Local Breeders—Many Leading Horsemen and Others in Calgary Are Behind Scheme Which Has Capital of \$350,000

The Chinook Jockey Club of Calgary which was incorporated at the last session of the legislature, is now on the way to do something of note. Eighty acres of land have been secured south of the Country Club and work will be started at once in preparing a first-class racing track which will be ready next spring.

The company has been incorporated with a capital of \$350,000 and there will be built on the site chosen, a mile race track, stables, grandstand and club house after the most approved style. There will be two meetings during the year and fourteen days of racing, part in the spring and the remainder in the fall.

FRANCE SATISFIED WITH STRENGTH OF NAVY

Special Attention Being Given to Armaments, Declares Minister of Marine

CAR LEAVES TRACK NO ONE INJURED

Yet another car ran off the track on Fourth street east, last evening on the hill leading up to Crescent Heights. Fortunately no one was injured but several of the passengers on the car got a bad shake. It was about 7 o'clock that the car left the track and it was fully a half hour before it could be replaced. The accident help up traffic for a time. This is the second time that a car has run off the track at the same place and the track appears to be somewhat loose. About two weeks later the car was going up hill at the time of the accident.

CITY HALL WRECKING CREW DISAPPOINTED; ULTIMATUM FAILS

The Mayor and Commissioner Graves Decline to Support Commissioner Samis in His Controversy With Reporter of the Calgary Herald

NEWSPAPER MAN STAYS IN; COMMISSIONER STAYS OUT

Commissioner Samis Not Visibly Vexed With Colleagues, but Refuses to Do Business With Them in the Presence of Reporter

After all the excitement at the city hall yesterday over the collision between The Herald reporter and Commissioner Samis, the wrecking crew which hung around in the corridors went home in disappointment. It all turned out very tamely. The immovable body stayed and the irresistible force went round it and out the side door—in other words, the Herald man stayed to report a meeting of the mayor and Commissioner Graves, and Commissioner Samis retired.

Commissioner Samis is not visibly cross with the Mayor or Commissioner Graves, but he refuses to do business with them in the presence of the Herald reporter today, tomorrow, or ever in the future. It is something of a puzzle to understand just how the city's business is to be carried on satisfactorily under these conditions. It may be adjusted by the other two coming to Mr. Samis' office in the city hall to discuss the affairs of his department with him, as Mr. Samis has the right, it seems, to eject the reporter from his own private office.

SIX NEW POLICEMEN TO BE NAMED BY CHIEF TODAY

Examinations to Be Held at City Hall This Noon; New Station Opens in Two Weeks

The first actual move towards adding to Calgary's police force will take place today, when six new policemen will be appointed by Chief Cuddy. Fifteen applications will be scanned before the appointments are made. The men have been notified to be ready for a physical examination this noon at the hands of Dr. Mayhood, the city's medical health officer. After the examination Chief Cuddy will select the fortunate men to wear uniforms, and submit the names to the mayor.

PROSPECTORS HAVE SECURED ALL RIGHTS IN A HUGE OIL AND GAS FIELD NEAR TO BLACK DIAMOND

THE next great rush of the west is already over and those who want to get in the deal are now too late. Black Diamond, 35 miles south of Calgary and 10 miles from Okotoks, is the scene of the boom. Oil and gas are the causes and the former is already found to be present on the spot in great commercial quantities.

All the oil and gas rights have been taken up within a radius of many miles and all this has taken place within the last ten days. So quietly and unobtrusively has it all been done that even before farmers on the spot knew anything was in the air, all was over.

The Dominion lands office in Calgary, has been the scene of the activity but there has been no noise about the work. Those who have been in the know, including many Calgary people and a large number of investors from the States, have been very alert in their work. The whole of the oil rights and the gas rights, it is now found from a consultation of the records, have been taken up around Black Diamond for the whole area of nine townships and more.

Two Companies Boring
For some time past the district was believed to be an oil district and there are at present two companies boring to locate the oil there. These are the Petroleum Products company and the Segur Co. Up to the present there has been no oil struck but it is known that already, as a result of the boring, there has been reached oil shale which is but the last step before reaching the oil itself. The district is clearly an oil one and it was located by two quite independent parties some months ago, both working from the south and reaching the district about the same time.

AMATEUR THEATRICAL MAGNATES LAND IN POLICE CELLS

On Capital of \$4.80 and One Automatic Revolver Two Young Men Plan to Take Country

Amateur theatrical agents were given a setback in Calgary yesterday, when two men were interviewed in their work of recruiting a "company" to visit the Peace River district. Through some clever detection, work on the part of Sergeant Cooper the so-called agents spent last night in a cell at Central station.

C.P.R. PUSHING DOUBLE TRACK ON MAIN LINE

Contracts Let for Construction of Three Portions of Double Tracking in B. C.

LEGAL ADVISERS OF CITY'S FISCAL AGENT DELAY LOAN; MEN ARE NOT PUT TO WORK

NEGOTIATIONS through the bank of Montreal for a \$2,000,000 loan with which to carry on the city's business are being delayed by certain complaints from the bank's solicitors, of five legal flaws in the securities; and the city has been unable to engage men. It was hoped that the city would put 1,000 men to work on Monday, but this has been impossible.

It is understood that the bank has already closed the negotiations for the money in London, but the hitch is in Calgary. The bank's solicitors have three times complained of legal flaws in the treasury bills of the city, and the by-law providing for the loan, and although the city council held a special meeting last week to arrange these details, fresh difficulties appear to be cropping up. On the occasion of the special meeting, which was arranged to suit the pleasure of the bank's solicitors, the aldermen were detained for almost three-quarters of an hour awaiting the arrival of the solicitor's messenger with a form of motion which the solicitors had prepared to provide for the aldermen the location of a word or two in a motion previously passed.

COL. SAM HAS TROUBLE WITH CHIEF OF STAFF

Major Gen. McKenzie Going Back to England but Will Not Discuss Differences

Ottawa, May 20.—The Evening Free Press prints a story to the effect that as a result of a row between Col. Sam Hughes, minister of militia, and Major-General C. J. Mackenzie, chief of staff, the latter has resigned and is going back to England in the fall. General Mackenzie is the expert the British government sent to Canada to replace General Lake. According to The Free Press a warm exchange of letters has taken place between the minister and General Mackenzie and the correspondence will probably be tabled in parliament.

COMMISSIONER SAMIS'—One of the principals in the little comedy now being enacted at the city hall.

Commissioner Samis is not visibly cross with the Mayor or Commissioner Graves, but he refuses to do business with them in the presence of the Herald reporter today, tomorrow, or ever in the future. It is something of a puzzle to understand just how the city's business is to be carried on satisfactorily under these conditions. It may be adjusted by the other two coming to Mr. Samis' office in the city hall to discuss the affairs of his department with him, as Mr. Samis has the right, it seems, to eject the reporter from his own private office.

LEGAL EXPERTS OF BANK PROCEEDING LEISURELY; CITY NEEDS THE MONEY

There is a general impression at the city hall that the dilly-dallying of the legal experts could very easily be cut short, an dthe money provided for the city to get on with the work which has been delayed for about six weeks beyond the usual time. The opinion is expressed in some quarters that the city has already lost more money in the delay than the bank has saved by the sale made in London, over the offer made to the mayor in New York. The bank has been negotiating for a sale at 5-1-8, whereas the New York offer for the mayor was at 4-1-8, a difference of 2-4 per cent. for eight months will barely cover the loss which the city has sustained through the delay.

BANKS CANNOT LOAN MONEY ON SECURITY OF LIVE STOCK

Clause Which Was Inserted by Banking Committee Believed to Be Unworkable and House Struck It Out—Talk Somewhat Acrimonious

NO CHANGE MADE IN BANK INTEREST RATE
After Much Discussion and Long Consideration Bank Act Passes Committee and Now Up for Third Reading—7 Per Cent. Is Interest Rate

Ottawa, May 20.—After two days' talk in the house, the bank act which was considered for ten weeks by the banking committee, was passed in a somewhat acrimonious manner. The clause which was inserted by the banking committee, in particular contending that there is no reason why parliament should not be able to fix a maximum of interest, it was decided to leave the act just as the law stands at present. Under the present act, the rate of interest is fixed at a maximum rate, but the courts have decided that when the loan is negotiated, it is lawful. The clause put in by the committee on banking and commerce recognized this practice and the house today decided that this was worse than the present law with the result that it was decided not to make a change.

One amendment introduced as a result of the discussion in the house provides that the banks must make an annual return as to the value of their real estate holdings. An amendment put in at the request (Continued on Page Eight)

FAIR

Car Visits Germany
St. Petersburg, May 20.—Emperor Nicholas left here today for Berlin to attend the wedding on May 24 of Princess Victoria Louise, the German emperor's daughter, and Prince Ernest Auguste of Cumberland.

The Name "Gourlay"

Employing 25 men to start, and with every possibility of this number being increased to fifty this summer, or to an even greater number if the business done by the company demands it, a new manufacturing plant is being started in Calgary, when the Calgary Sanitary Garbage Can Company starts operations.

The new company, in which Charles Chapman, well known in this city, and men in the province, among whom he has traveled for years, and W. J. Metzger, well known in this city, are interested, will be in full operation in a few weeks. The company holds a patent for a fly-proof sanitary garbage can, samples of which were submitted to Medical Health Officer Dr. Mahood and City Sanitary Inspector J. J. Dunn yesterday, both of whom have issued certificates stating that they have inspected and approved of the can, which they consider absolutely fly-proof and sanitary.

The new industry will be located in East Calgary, and at the start the factory will have a capacity of 250 garbage cans daily. All the cans will carry an advertisement for Calgary and the patent for the United States has already been taken out under the name of the Calgary Sanitary Garbage Can Company.

Already the Winnipeg city authorities are negotiating for a supply of the cans, which will also be supplied to the city of Vancouver and the city of Hamilton, Ontario.

"We will start with a staff of 20 men," said Mr. Chapman yesterday, "and intend to increase this by 50 per cent before the summer is over. Our first payroll will run about \$2,000 per month, but before the end of the year we expect to have a monthly payroll of over \$7,000, as we will have to bring a number of skilled workmen here for specific work."

The cans will be made in two sizes, one for use in houses and the other for use in hotels, hospitals, and institutions. The inventor of the can is Mr. Chapman, who says he was practically forced into inventing the fly-proof, less garbage can by hotelmen who had asked him for means to supply an article of this kind. A felt pad, saturated with disinfectants and deodorizers, is part of the patent, the holders of which claim that the new Calgary industry will revolutionize the garbage problem all over the world.

"We intend to take out patents all over Europe and the British Empire," said Mr. Chapman yesterday, "but as far as possible we will concentrate our manufacturing to Calgary. We expect to make this city the headquarters for our Canadian and American trade, and in a few years' time to build up an important manufacturing industry in this city. In any event, no matter where new factories are located, in Britain or in Europe, the name will never be changed, and the garbage can will always be known as the Calgary Sanitary Garbage Can."

Mr. Chapman has been a resident of this city for some time, and is well known all over the province. Until he took hold of his present invention he had not tried his hand at anything in the inventing line.

The city is unable to do anything to improve the muddy condition of the water except at a very great expense, says Commissioner Graves, and in view of the fact that one million dollars or more will be spent next year on a new intake and reservoir with a complete filtration plant, he thinks the citizens must endure muddy water for a few weeks this year.

The water is always muddy at this season, and in anticipation of this, Commissioner Graves requested Waterworks Engineer Pawkes to take the matter up some time ago. The engineer submitted a report showing that the cost of a filtration plant on a large scale would be about \$400,000, and would be prohibitive for one year, in view of the extensive program to be undertaken next year.

"We are concentrating our expenditures on devices to purify the water of bacteria, and to prevent an epidemic of typhoid fever and other diseases, and to increase fire protection," said Commissioner Graves. "The city water is chlorinated and is quite free of bacteria. Although it is unpleasant to look at, it is not dangerous."

At the present time Engineer Pawkes is having erected a temporary chemical purification plant at a cost of \$500 at the Bow river intake, which will chlorinate 20,000,000 gallons daily. At present a small chlorination plant is in use there.

The survey camp of the waterworks department has moved on toward the mountains, having completed a survey of the Elbow river up to "Hagarty's" homestead, where they have located one possible site for a reservoir and dam, and have mapped out alternate courses to the city.

CUSHINGS' IS NOW FEDERAL COMPANY

Hon. W. H. Cushing of Cushing Bros., announced yesterday that the various rumors which had been circulated to the effect that the business of Cushing Brothers had been sold were incorrect. The only change which had been made in the business, explained Mr. Cushing, was that where the firm had previously worked under a provincial charter it would now carry on its business under a Dominion charter. This would facilitate the business to a great extent, but that was all that could be said in the matter.

OUTSIDE PROTESTS MADE AGAINST THE TARIFF BILL

Objections to Reduction on Imports in American Bottoms

Washington, May 20.—While Democratic senators are wrestling with home manufacturers' protectionists against numerous rates in the Underwood tariff bill, they are confronted also by protests from foreign countries against administrative features of the bill, and the provision that would grant a five per cent reduction of the duty on imports in American bottoms.

Protests from England, France, Italy, Austria, and other countries have been lodged with the State department and communicated to the Finance department, where they will first be considered by a subcommittee of which Senator Williams is chairman.

The attention of the committee has been called to a meeting of the National Association of Industry and Commerce of France a few days ago, at which the Underwood bill was condemned, the administrative features of which, it was claimed, would arbitrarily increase the hindrances to trading with this country.

From many countries come protests against the new provision in the bill which would give the Secretary of the Treasury authority to exclude from entry goods of merchants or manufacturers who refuse to submit for inspection by the United States agents their accounts pertaining to valuation or classification of merchandise whenever disputes arise. The present attitude of the committee and the administration is to adhere to this provision, the claim being that it will not be abused and will protect professional defrauders. Foreign governments insist that it will result in unusual trouble.

Subcommittees today listened to the views of the committee and tomorrow the full finance committee will meet to determine among other things how much more time a subcommittee will give to private hearings. The matter of sending the LaFollette's series of questions on tariff to manufacturers will also be decided.

JURORS UNABLE TO DECIDE CAUSE OF RIOTER'S DEATH

Open Verdict Returned at Inquest Into Death of Man Killed in Riot

Fort William, May 20.—The jury returned an open verdict at the inquest into the death of a man killed in the riot that took place, when a mob of foreigners endeavored to rescue the man from the hands of the police station on the night of Sunday, May 12. The jury was unable to solve the puzzle of Stefano's death. It will probably never be known whether the man was killed by a bullet from the revolver of an officer or whether he was hit by a stone or other missile in the hands of one of the rioters.

The man's head was crushed in on one side. There was also a hole in the front of the head, but it seemed as though it had been the result of a blow by a blunt weapon. According to the doctors who performed the post-mortem, the wounds could hardly have been caused by a bullet.

Sergeant's Version. Sergeant in charge of the constables at the station, stated that the order to fire was not given until the panel of the door opened and to give way. He then ordered the men to shoot through the fanlight over the door. The first volley had no effect, and a second was fired, then the mob retired. The sergeant stated that he was not aware that Stefano had been killed and another man wounded until he reached the central police station with the prisoner whom they were holding from the mob.

The jury brought in an open verdict.

BETTER THAN SPANKING

Spanking will not cure children of wetting the bed, because it is not a habit but a dangerous disease. The C. H. Rowan Drug Co., Dept. 251, Chicago, Ill., have discovered a strictly harmless remedy for this distressing disease and to make known its merits they will send a 50c package securely wrapped and prepaid Absolutely Free to any reader of The Albertan. This remedy also cures frequent desire to urinate and inability to control urine during the night or day in old or young. The C. H. Rowan Drug Co. is an Old Reliable House; write to them today for the free medicine. Cure the afflicted members of your family then tell your neighbors and friends about this remedy.

BERLIN FESTIVITIES MAY PROMOTE ANGLO-GERMAN ENTENTE

Wedding Celebrations for the Daughter of William II on Saturday Include Elaborate Reception to Representatives of the British People

NICHOLAS TO GET COOLER WELCOME

Two Squadrons of Dragoons Will Receive King George but the Tsar Will Get but One; Papers Full of Amicable Talk Towards Britain

Berlin, May 20.—The preparations for the wedding on Saturday next of Princess Victoria Louise, only daughter of the German Emperor, and Prince Ernest August of Cumberland, give striking prominence to the emperor's ardent desire to make the occasion lead to a betterment of the relations between Great Britain and the German empire.

Officially, the non-political character of the emperor's desire is emphasized, but the real attitude of the emperor was illustrated today by the granting of a pardon to three English spies who are now undergoing terms of imprisonment in Germany. Another evidence of German concern in the forthcoming visit of King George and Queen Mary is contained in the official program published this evening in the Nord Deutscher Allgemeine Zeitung, which prints in its daily position a half column article on the reception arrangements for the British sovereigns, and in a few lines in another column describes the preparations for the reception for Emperor Nicholas of Russia.

According to the program, two squadrons of cuirassiers and dragoons will compose the escort of King George on his arrival in Berlin on Wednesday, while only one squadron has been assigned to escort Emperor Nicholas on his arrival the following day.

Papers Talk Entente. German newspapers are giving attention to the political importance which the wedding may have in bringing about a manifestation of friendship between Germany and Great Britain, but they have little to say concerning a similar manifestation toward Russia.

The visitors will make state entries into the city, each through two and a half miles of streets lined with the crack guard troops, and their welcome by the emperor will necessitate three changes of uniform on his part. Six German sovereigns and the representative of several other German reigning houses also will arrive in the course of the day making necessary more or less formal receptions.

A number of English British and Russian police officials arrived in Berlin today to supervise arrangements for the safety of King George and Emperor Nicholas.

The English precautions are attracting perhaps more attention than the elaborate installation of a system to ensure the security of the Russian emperor.

ALL DONE BY THE GIRLS. London, England, May 19.—The first colliery magazine produced by girl undergraduates has been brought out at Manchester. The staff consists of a chief editor, news editor, sports editor, and four reporters.

Besides writing every word that will appear in the magazine, the girls will read and correct the proofs and superintend the "make-up."

Distinguished professors are watching the experiment with interest and large circulation is anticipated.

The girls reporters perform their duties during the dinner-hour and between lectures. They decline to say how they like the work, but under the direction of the news editor (an undergraduate who is studying for an Arts degree) they are displaying wonderful energy. One of the special writers on the staff is taking the zoology course.

STOLE \$3 WATCH; SPENDS 23 YEARS IN PRISON.

Convict Paroled When Governor Declares "Society Has Committed a Crime."

Topeka, Kan., May 20.—Upon information that he had spent 23 of his 30 years of life in prison for no other crime than the theft of a \$3 watch and a meal, Arthur Patton was paroled today from the state penitentiary by Governor Hodges. The governor announced it as his belief that "society had committed a crime against Patton." He sent the paroled man to a farm "to become a citizen." According to information furnished by Governor Hodges, Patton was the victim of an environment and excepting the weeks' time, has been in custody since he was 7 years old, when he was sent to the state reformatory as an incorrigible youth after stealing a church watch. After four years in the reformatory, he was paroled. He could not find work. Hungry, he entered a farmhouse in Oage county, which was captured. When his term was up he was taken back to Oage county, tried and sentenced to prison for eating the farmer's supplies.

Red Rose Coffee

If you already know Red Rose Tea you will expect much of Red Rose Coffee because of its name alone. Nor will it disappoint you; for it is worthy of its name.

Blended to combine strength and rich flavor, this fine coffee is crushed new-roasted into small grains, and freed from chaff and dust. These uniform grains readily give the true coffee flavor to a brew which pours clear without any sediment. You may expect rare quality from every tin of

According to information furnished by Governor Hodges, Patton was the victim of an environment and excepting the weeks' time, has been in custody since he was 7 years old, when he was sent to the state reformatory as an incorrigible youth after stealing a church watch. After four years in the reformatory, he was paroled. He could not find work. Hungry, he entered a farmhouse in Oage county, which was captured. When his term was up he was taken back to Oage county, tried and sentenced to prison for eating the farmer's supplies.

PRYCE JONES STORE NEWS

Ladies' Fine Nightgowns at Nearly Half Price

We have been fortunate in securing 80 dozen Nightgowns that are slightly imperfect in texture and a little soiled, from a manufacturer who allows nothing to leave the factory as just quality unless it comes up to standard in all respects. These throwouts have nothing seriously wrong with them and in many cases laundering is all they require.

- \$2.25 Qualities for \$1.50—These are all extra size garments, round yoke of allover embroidery, edged torchon lace, slipover style **\$1.50**
- \$1.25 Qualities for 75c—These gowns are made of soft finished cotton, with square cut yoke trimmed 2 rows embroidery insertion and cluster of fine pin tucks, neck and sleeves finished neat embroidery **75c**
- \$1.75 Qualities for \$1.00—Nearly half price. These gowns are slipover style, V-shaped neck with yoke of good quality Swiss embroidery and cluster pin tucks; short sleeves finished embroidery edging to match **\$1.00**
- \$2.00 Qualities for \$1.25—Style, button in front, square cut neck with front of cluster tucks and embroidery, long sleeves, finished embroidery edging, made of fully shrunk pure cloths **\$1.25**
- \$3.00 Qualities for \$1.75—This garment is made of pure cloths and will wear, wash and fit perfectly, they are elegantly trimmed with fine quality embroidery insertion and edgings and are full size; button in front style with square cut yoke **\$1.75**

This store will remain open until 10 p. m. Friday

Women's Long Coats \$9.50
Your holiday outfit will not be complete without one of the smart Long Coats of which we have such an attractive showing. Our assortments in all grades are most complete and comprehensive—and whatever your ideas as to style and quality may be, we can satisfy you.
The Long Coats at \$9.50 which will be specially featured Wednesday are clearance lines formerly marked up to \$13.75. They are smart up-to-date models, in grays, checks and mixtures, particularly suitable for outing or business wear, and an excellent bargain **\$9.50**

Special Notice!
As Saturday, May 24th, is a holiday, this store will remain open until 6 P.M. Wednesday—and on Friday Evening until 10 P.M.

UNTRIMMED HATS at 25 cts.

The response to last Saturday's announcement that untrimmed hats would sell at 25c was so overwhelming, that the millinery section could hardly cope with the rush of eager buyers, and towards the latter part of the day many were unable to obtain the necessary attention.

However, we have prepared another lot for tomorrow's selling, in which assortment and value will be equally good. Furthermore, we shall be better prepared for the inevitable rush, and will do our best to render you prompt and efficient service.

French Straws, Milans and Tagels, small and medium shapes; all colors. Sale price **25c**
Special tables of Millinery Flowers **10c** and **15c**.

WEEKLY ALBERTAN. Per Year \$1.00

WEDNESDAY, MAY 21, 1913.

A MUNICIPAL UNIVERSITY

The university situation in Alberta has not changed in any way since Chancellor Stuart of the University of Alberta, referred with regret to the indifference of the people of Calgary to the provincial institution and suggested that the provincial university might permit or direct one of its professors to give a course of lectures in Calgary.

The suggested remedy to the indifference of which Chancellor Stuart complains, fell so far short of meeting the trouble that his suggestion has caused but little discussion and very little interest. The people of Calgary believe that the real problem is not so much the indifference of the people to the provincial university as the indifference, and in some instances, the hostility, of the provincial authorities to a university of some kind in Calgary.

Conditions cannot continue as they are now. We have in Calgary a university organization with a small but competent staff, with meagre equipment but without degree conferring powers and technically without the right to call itself a university. The attendance at the Calgary institution is very good. It has demonstrated in its first year that not only is it needed here but that Calgary cannot proceed without such an institution.

There is no solution of the problem which does not include in the plan an institution of higher learning in Calgary, where students may get a university education and secure university degrees. That is essential. Where and how or by whom those degrees may be conferred is a matter of detail. University education for young men and women of this district is positively necessary. The sooner the department of education recognizes that fact the better.

Chancellor Stuart scouted the idea of a university which did nothing more than confer degrees, with colleges of instruction in Edmonton and in Calgary. Such an organization, he pointed out, somewhat resembled that of Manitoba which seemed sufficient to condemn it. But that suggestion, which is the only alternative that has been offered to that of giving Calgary university degree conferring powers, deserves much more consideration than he seemed inclined to give it.

Calgary university has been made possible by the generosity of a few public-spirited Calgary citizens. It cannot continue as such. It is not wise that it should so continue even if it were practicable. This is the democratic age and the people should control. If Calgary university is not to be

part of the provincial university then it should become a municipal institution and part of the educational system of the city. That might be the most desirable solution of the present problem. It would ensure a more definite policy for the university. Thus organized it would have a better standing and the legislature could not continue to refuse it the status of a university. It would still be a worthy object for the generosity of public spirited citizens.

The university is a Calgary institution at present and will continue as such for many years to come. It will be of great advantage to Calgary. It will form an essential part, not only of our educational system, but of our city life and of the life of the entire district

A FALSE ALARM

The opposition cried before it was hurt. They declared with no uncertain sound that the government party had tampered with the ballots in Medicine Hat and Macleod. But the recount proved that the ballots were tampered with in neither, for in both places opposition candidates were declared elected. Now any election trickster, who is evil enough to tamper with the ballots, is evil enough to make a complete job of it.

But the ballots were not tampered with in either constituency. The opposition candidates got just the number of votes that they polled and not one less.

Here is another instance of a nervous party getting wrought up over a ghostly visage without any substance to it. It would be much fairer to the government and much better for the province, if the opposition would withhold these cruel and unfair criticisms until they had some foundation to build them upon.

THE REAL SEPARATISTS

The Nationalists are always Nationalists. R. B. Bennett may wave the flag by the hour to the amusement of many in Western Canada, and other professional flag flappers may do the same in other parts of the country. But the Nationalist is the Nationalist. He is the separatist and is a supporter of the Borden government.

When Mr. Southam's Calgary paper complains of the separatist policy of the opposition because it insists upon furnishing Britain with men as well as ships, the French Conservative newspapers insist that the Borden naval policy should be supported because it means nothing and that the money to be granted by parliament need not be spent.

L'Evenement is one of the most influential French Conservative papers in Canada. It is published in Quebec and is under the influence of the French Canadian leader, M. Pelletier, postmaster general.

Here is an extract from that paper published on May 2. It says:—

"It is sufficient to read this naval bill to grasp the fact that there is no real question of sending a single cent to England, but only a mere appropriation of a fixed sum which the government may spend in any way it pleases, and which it need never spend at all if circumstances change some of these days; for the bill specifies no date, place, or conditions, or even any obligation to spend the money. Liberals themselves admit that the British shipyards are now overwhelmed with orders, and that the Canadian vessels could not be commenced for a couple of years. Moreover, it is well known that when the Laurier Naval Act was adopted in 1909-10 a year and a half elapsed before the tenders from the naval contractors were taken into consideration; it would have been two years more, had these tenders been accepted, before the actual construction of the ships could have been begun. Probably it would be the same with the ships which the present government will be authorized to have constructed, should the act ever become really operative."

"The public can now form its own conclusion about the comparative loyalty of the two parties in Canada.

Sidewalk Sketches

By Howard L. Bann

BEETHOVEN. Ludwig Von Beethoven was a well-known musician who specialized on piano forte and could play just as well with one hand as the other. He was of foreign descent, but most of his music has been translated into the English language and is intelligible to anybody who knows a diminished seventh from a sideboard.

that series of masterly 88-note records which are now sold to the piano-player public at \$5 per roll. He also got up a number of songs which are still sung by vocalists who insist on inserting the Swede accent into the German language.

The later years of Beethoven's life were saddened by a great calamity. One day, while engaged in drawing plans and specifications for a new opera, he lost his hearing. He looked around his studio for it, as it was the only he had, but he never was able to find it. However, this relieved him from the necessity of listening to pupils who played everything in waltz time and were not handicapped by a sense of rhythm.

Beethoven never composed any rag time music, as it had not broken out in its present eruptive form. What he did write, however, is very durable and can be heard over and over again without causing people to edge uneasily to the rear.

Vest Pocket Essays

By George Pitch

SALT. Salt is a season. It is not as pleasant a season as summer but it is a good deal more useful than winter.

Salt is the most universal habit in the world. Even the animals are slaves to it. An animal which would scorn whiskey would travel a hundred miles to lick a chunk of rock salt. If the greatest cook in the world were to prepare a banquet of nightingales' tongues and other extravagances and were to forget to add a nickel's worth of salt to the \$10,000 worth of food, the guests would turn away sadly and order ham sandwiches at the nearest lunch counter.

Kerosene and coal are considerably necessary, but if any wicked trust magnate were to corner the salt supply of the earth and to sit on it until he got his price, he could be international king unless he got lynched first.

The Poet Philosopher

By Walt Mason

BRINY TEARS

Once I met a gloomy mortal and I said to him, said I: "You should caracole and chortle—better far to smile than sigh. All our woes and pains will leave us, and the sun for us will shine; nothing is so doggone precious as to call for all this brine. For your napping there's no pardon, it's against all recent styles! Read the dope of O. S. Marden, note the curves of Sammy Smiles! Why go snoring round to borrow trouble when there's joy to spare? If there's gloom about tomorrow will disperse your grief and care." But the old man wept the louder as he heard my gems of thought, saying: "You are full of chowder—all the things

you say are rot. For my trade is helpful verses and the uplift graft, my son, and I feel like forty hearses with a corpse in every one. Life has lost its charms and glories, it has nothing but distress, for I write the sunshine stories for the optimistic press."

Lloyd George's Work.

(Kingston, White). The chancellor has been denounced politically more than any man in England. He has been deprecated, too, but no man has proved so farseeing, no one clearer in his mind and views, no one as able in the discussion of the budget. He is the incomparable one in his sphere of service, and he has been laying down principles which cannot now be departed from. No reign nor rule has been so triumphant as he.

A San Francisco scientist says flirting was a crime in ancient Egypt. The case of Cleopatra shows that unpopular laws weren't any better enforced then than now.

GLEE CLUB TO PRODUCE "THE ANCIENT MARINER"

"O, sweeter than the marriage feast 'Tis sweeter far to me To walk together to the kirk With a goodly company."

Readers of The Albertan will recognize the foregoing quotation from "The Rhymer of the Ancient Mariner." This poem by Samuel Taylor Coleridge has been set to music by Mr. T. Wm. Pattison. The Sunnyside Glee club will present Mr. Pattison's "Ancient Mariner" and other choice selections, under the direction of Ven. Archdeacon George H. Hogbin, as conductor, at the Masonic temple, Alexander corner, Eighth avenue and Seventh street west on the evening of June 3, next, commencing at 8:30 o'clock sharp.

The concert will be for the benefit of the Masonic home and school fund and the edification of members of the fraternity and ladies. Tickets may be procured at the Masonic club rooms at any time.

AT THE THEATRES

ROSE STAHL'S FIRST EXPERIENCES WERE WRITING "DOPE"

Acting of exceptional quality; a play with a gripping and very human story; a star whose personal following has been gained by meritorious past performances—all these are a guarantee that Miss Rose Stahl will have a prosperous engagement at the Sherman Grand for three days and Wednesday matinee, commencing Monday, May 28. "Maggie Pepper," the Charles Klein play, it is said, will please all classes of playgoers. It treats of people whom one meets in every day life and reveals them with that touch of romance which is essential to success in the theater. Miss Stahl herself does the best acting of her career in the name part of the piece. She is not only a comedienne as "Maggie Pepper," but reveals power as an emotional actress which those who remember "The Chorus Lady" had not before suspected.

front. A feature of the evening was the presence of a large number of the knights of the stop, the tub and the mangle who are at present in town on a convention talking over the trials and troubles of being a laundryman and trying to out the Chinaman. The comments of the visitors on the play were of the rarest. They found the performance clean and spotless, not one of the players mangled his part and the lines were all set forth in due place. Tonight and tomorrow afternoon and evening the Pollards will be seen in a similar piece known to many under the title of "Sergeant Brue." This will give yet further scope for the clever singing and dancing boys and girls of the company.

ROSE STAHL IN "MAGGIE PEPPER" OPENS MONDAY

Charles Klein has ever been an opportunist in his plays. He has looked about him for conditions peculiar to our times and people, and then about that idea built a story with a big heart appeal. It is such a play he has made in "Maggie Pepper," in which the Henry H. Harris estate will present Rose Stahl at the Sherman Grand for three nights and a Wednesday matinee, commencing Monday, May 28.

LONDON PALACE GIRLS HEAD ORPHEUM'S NEW BILL

Tomorrow's new bill at the Orpheum has as its headline an act that many a vaudeville manager would almost give his right arm to have on his circuit and one that was exceedingly hard to procure at any price. They are the London Palace Girls, who have been secured for the Orpheum shows at great expense and after much persuasion on the part of Martin Beck. They have been called the "aristocrats of the dancing world" and are to England what the Imperial Ballet is to Russia, only that the members, who have been trained in the famous Tiller school of dancing, are more exclusive and this is their first and what they say will be their last appearance in vaudeville.

Politics and the police have made splendid subjects for the pen of Mr. Klein, and there is no playwright today so capable of handling the problem of the department store girl. "Maggie Pepper" is a typical girl of the big store. She began her business life as a cash girl and gradually mastered the work until she became assistant buyer, where the story of the play begins. Her life after that proves not only interesting but attractive as a stage narrative, and there is no actress on our stage today who could make her live as does Miss Stahl.

Miss "Mike" Berkin is the daughter of a wealthy Briton, Montana, miner and need never work, but she has a penchant for the stage and the fact that she is a remarkable performer on the violin makes her a very acceptable feature. Gymnastics by man and beast is the best description that could be given of the act of the Goyt Trio, who have taught a fine little fox terrier to perform many of their stunts. Chief Caupolica is the possessor of a fine voice of the baritone range and has been spoken of as the "India Caruso."

Completing the bill, and far from being the last feature in line of merit, are the "talkies," which are entitled to a prominent place at any time and in any place.

POLLARDS ARE ON RETURN VISIT TO GRAND THEATRE

The Pollard juveniles made another appearance at the Sherman Grand last night and if anything added to the reputation which they have gained here on previous occasions. The play last night was a new one to most of the audience and entitled "La Belle Buterfly." It was of the usual variety of the musical comedy and there were many tuneful airs interspersed with passages of wit and humor which were relished to the full. All of the members of the company acquitted themselves with credit and at the close were accorded a hearty call to the stage.

Harry Lauder was the first of the Scotch comedians to visit this side of the "pond," but there have been one or two since that time who have not been obliged to acknowledge him as their superior even on their native heath and G. S. Melvin, who is regarded as the best of Scotland's dancers is one of that number.

Miss "Mike" Berkin is the daughter of a wealthy Briton, Montana, miner and need never work, but she has a penchant for the stage and the fact that she is a remarkable performer on the violin makes her a very acceptable feature.

Gymnastics by man and beast is the best description that could be given of the act of the Goyt Trio, who have taught a fine little fox terrier to perform many of their stunts.

Chief Caupolica is the possessor of a fine voice of the baritone range and has been spoken of as the "India Caruso."

Completing the bill, and far from being the last feature in line of merit, are the "talkies," which are entitled to a prominent place at any time and in any place.

Summer By The Grand Old Pacific

Many Will Enjoy Real Outing This Summer at Canada's Greatest Pleasure Resort

Demand for immediate occupation of lots by many purchasers decides company to establish tent city—water supply and community dining hall provided for—nucleus of a great Resort.

This will interest every man or woman who loves the out-of-doors, the smell o' the sea, the zest of real sport, the pleasure of boating, of bathing, of walks in the primeval woods—and it will more than interest those who are seeking an investment that is certain of good returns within a reasonable time.

When we first offered lots in this resort property, on the west coast of Vancouver Island—Canada's Treasure Island of the Pacific—we guaranteed developments, including a hotel, beach bath houses, boardwalk and pleasure pier, golf links, etc., WITHIN THREE YEARS, OR SOONER IF THE C. N. R. COMPLETED ITS LINE BEFORE THAT TIME. We did not anticipate any demand for at least two years. But as a result of the descriptions brought back by some of the purchasers of lots who have visited the property, scores of those who have bought lots have asked us to make arrangements to allow them to take advantage of the charms of this great natural resort THIS summer. Arrangements have been completed

We have rushed preliminary development work on all parts of the property. A large community dining hall and other necessary structures have been built on one of the prettiest parts of the beach; a water supply of purest hill-spring water—and sulphur water, too, for those who desire it—has been provided for; arrangements have been completed with truck gardeners who are now raising vegetables and general supplies for campers, and the company has transported a large stock of tents to the property for the use of those who will enjoy the outing. Many of the tents are already in position, but the majority of those who will spend the summer or part of it on the property will go up next month. The result will be a Tent City of considerable size THE FIRST SUMMER OF THE RESORT'S EXISTENCE

Imagine the fun this resort provides for even now, with complete developments still to come, among the finest on the continent, on the open Pacific; glorious scenery of sea, woods and hills; the very best of swimming, boating, bathing, fishing, shooting. Salmon, trout, duck, deer in plenty. The only REAL pleasure resort on the open ocean to be found in Canada. With the developments now under way completed, this resort will soon rank among the most famous in America. Property is available for a mere song and on very easy terms. Now is the time to buy it.

All lots in this property are approximate quarter acres, and all are guaranteed good building sites. Arrangements are such that a man can buy one of these lots, build a small cottage, have it for himself and his family for a month or two and rent it for the balance of the season if he so desires. All lots are bound to increase rapidly in value as the resort progresses. You buy with the company's guarantee to RETURN ALL MONEY PAID BY THOSE WHO ARE DISSATISFIED WITH THEIR PURCHASE AFTER INSPECTING SAME.

Western Canada NEEDS this great resort. People will flock to it in greater numbers every year. It lies as one link in a chain of points of interest on wonderful, scenic Vancouver Island, one of America's greatest tourist playgrounds.

Send right away for complete literature with pictures showing you just what this resort is and will be—Find out about the offer of a large cash prize for the best name—Read the remarks of purchasers who have seen this property—No obligation attaching to your enquiry—Send today.

MAIL THIS NOW. West Coast Development Co., Ltd. Union Bank Bldg., Victoria, B. C. Please send me complete details of your offer of lots in Canada's Greatest Pleasure Resort. Name: Address:

HORSE EATS HIS HEAD OFF; TRAINER AND OWNER IN ROW

Trainer Grant Puts in Claim for Caring for Animal Considerably in Excess of Purchase Price and Owner Refuses to Pay—Chief Cuddy Is Consulted.

TRAINER IS RESTRAINED FROM SELLING ANIMAL

And the Fleet Motitor, Trained to the Fineness of a Razor Edge Rests at His Ease in a Roomy Stall and Cannot Be Raced Until Difference Is Settled.

The racing days of Motitor, a brown gelding, are over—at least for the present. Times was when the horse swept eastern tracks and sometimes with speed enough to carry the money with him. Now he rubs a sleek side against his stall in the stable of Miss Grant, a horse trainer, and waits for the legal word that will send him upon the track again. The cause of Motitor's inactivity is a dispute between H. R. A. West, the owner of the animal, and Grant, who for some months has cared for the horse and trained him. The legal restraint upon the activities of the racer is an injunction obtained by Joseph T. Shaw, of Short, Ross, Selwood and Shaw, attorneys, for Albert Feyman, the agent of Justice W. Roland Winter of the District Court, forbids Grant to sell or dispose of the horse until by legal process the injunction is set aside. This action, unless a compromise is reached, will mean the beginning of a fight for the possession of the animal.

Motitor was purchased by West, who is a Calgary ranchman, from Harry Murray Lusk, of Okotoks, in January. In the legal papers the animal is described as a racing horse, brown in color, and with a white star upon his forehead. Shortly after the purchase West gave the horse into the care of Grant and sailed for England. The latter, according to an affidavit made by Feyman, agreed with West to care for Motitor until his owner returned. The horse, it was agreed, was to be kept at No. 3 race barn, Victoria, B. C. How long he was kept there is not known to Feyman, who declares that the object of the dispute has been to prevent Grant from selling the horse and "his whereabouts are at present unknown."

Grant claims that he fulfilled his obligations well, and not only has Motitor been well cared for, but he has been so well trained that he is now in the pink of condition for the ring. So the Grant alleges, the board of training bill for the animal amounts to \$210, which is just \$40 less than West paid for him. It is this bill that has brought about the legal storm of which Motitor is the centre. Feyman claims that he has already paid Grant \$55 on account, and that \$210 is "entirely exorbitant," and that a total compensation of about \$100 would be ample compensation for the board bill of the animal. In this opinion Feyman is backed up by Lusk, the former owner of the racer. He maintains that while no deal-in agreement existed, that the trainer's price is beyond reason.

Invoke Cuddy's Aid.

Before a dispute reached an acute stage both West and the owner's agent called upon Police Chief Cuddy to involve his aid. "My bill for training and keeping the horse is a reasonable one," Grant insisted. "I have given the animal great attention and he is now in good condition. I do not intend to give him up until my bill is paid." Grant insists that he has spent much money in the purchase of suitable food for a race horse, and that he had to make a trip to Okotoks and return at his own expense. "Those interested were advised that the police could do nothing, either to restore the animal to his owner or to force the payment of the bill. The matter, they were advised, was one for the courts to settle. So Motitor, trained to the fineness of a razor edge, rests at ease in a roomy stall and is in danger of getting out of condition through inactivity, while the legal fight is on. In the meantime, too, Grant's bill for the upkeep of one race horse is mounting upward and will continue to do so until the dispute is settled.

SHE GAME FROM FINLAND ON FIVE DOLLARS

Young Finnish Girl, Who Spoke No English, Made Economical Trip to B. C.

Vancouver, May 20.—The Y.W.C.A. reports an interesting experience which befell a young girl, a native of Finland, about 18 years of age, who recently arrived in Vancouver by train with a ticket for South Bend, in the State of Washington. The ticket was made out in Seattle, but the United States authorities would not allow her to board the boat, and the Y.W.C.A. took charge of her for the night. The girl could not speak English, and it was supposed that she had no money. Upon being taken to the U.S. immigration authorities in the morning by the aid of an interpreter it was discovered that she was the possessor of \$25, the balance of \$30 that her passport had been marked wrongly, the name of her home town being in the place where her own name should have been. Compromising the girl on her economy in travel, the officials visited her passport through, and the girl left for Seattle, where she was met by Dr. Martin of the Seattle branch of the Travelers' Aid Society, who had been sent by the Y.W.C.A. and she was sent away to her destination.

MOOSE JAW CRIPPLES SLAMMED THE BRONKS OVER THE HEAD WITH THEIR CRUTCHES

Walter Frink Is Suffering From a Fractured Pitching Record While the Millers Fatten Their Batting Averages—The Score of the Sad Affair Was 6 to 0

The so-called cripples from Moose Jaw proved themselves to be a pretty healthy bunch of mortals last night, when they took more of their crutches and banged the Bronks in the tenderest part of the score column, winning the second game of the series by the score of eight to six. It was a sad, sad affair, in which Pitcher Walter Frink fractured his perfect record in a thousand pieces while the Millers fattened their batting average and their league standing.

The Millers jumped into the lead right at the start, getting three runs in the opening round, and although the Bronks made a desperate effort to re-assert, the measure came contact, the score was when they tied up the score in the shape of the figure five in the fourth inning, only to have the alleged cripples draw away from them and finish with a margin of two runs on their side of the ledger.

Northrup, who flung the no-hit-no-run contest against Medicine Hat last week, was selected to do the mound duty. He didn't seem to have anything on the ball except the cover and his reputation. The Bronks didn't have much trouble in connecting; in fact, they hammered out more hits than did the victors, but they could not connect when his meant runs, and that was the whole trouble.

Northrup was lucky all the way through, and in the sixth inning his team mates pulled him out of trouble by close fielding, although he was only able to job the ball over the plate because of an injury to his hand. Julie Streib caused the injury to his hand when he shot a hot one down toward second. Northrup got his bare pitching hand in the way of the ball, but did not stop it. The force of the contact benumbed the paw to such an extent that he was not able to fully close his digits around the sphere for the remainder of the inning. He just lobbed them over, uttering a prayer every time he did it.

Bronks Looked Foolish. The Bronks looked like kindergarten

PRESIDENT GRAY MIGHT GET SOME POINTERS

The Western Canada and International league are not the only organizations that have salary limits this year. The Big Four lacrosse associations, now that the poor old N.L.L. is out of the running, and Con Jones has agreed not to coax the players west, has cut salaries down to a minimum.

MOOSE DEFEATED CUBS

The Moose defeated the Cubs last night in an intermediate league game by the score of eight to six. The Cubs pounded McConeky out of the box in the first inning, after scoring seven runs. McConeky released him, but he twisted a steady game. In the fourth the Moose scored the delivery of Johnson and tallied seven runs.

Madam Woner The Royal English Phrenologist

By the art of Phrenology she gives you truthful advice on the affairs of life. She is recognized as the most wonderful phrenologist in the world. Her reading will assist the most enlightened and sceptical people. This wonderful woman challenges any phrenologist in the world to compete with her. She does not tell things to please a person, but reads the head just as it indicates. She tells you what step in life to take to better yourself.

FERRY MANNING COPS ONE MORE BIG VICTORY

Star Southpaw With Quakers Still Has Perfect Record—The Score Was 3 to 1

Saskatoon, May 20.—"Ferry" Manning won his fourth successive game in the "Big Six" today, when the Quakers defeated Regina, 3 to 1, before 1,300 spectators.

Burgess pitched for the Red Sox, and was well at critical times, although he performed in good style during most of the game. Manning was steady but was hit rather freely. The Quakers gave him good support, while Regina backed Burgess, poorly.

It was a fair exhibition, and the hitting of the Quakers, with the slow fielding of Regina, gave Saskatoon the victory.

GUNBOAT SMITH WINS FIERCE TWENTY ROUND BATTLE FROM JESSE WILLARD AT 'FRISCO

Fifty Pounds Advantage in Weight Could Not Stop Game Boxer from Navy—Smith Had Better of Start and Finish Willard Showed Well During Middle of Contest

SAN FRANCISCO, May 20.—Fifty pounds' advantage in weight, six inches in height, and a left to the jaw that dazed him, Smith won tonight for Jesse Willard from Gunboat Smith, who earned a refereed decision in the last round of a 20-round bout. The heavier punch of the more experienced and aggressive veteran counted for more in the result than the bulk and strength of his opponent.

It was 5:50 o'clock before the gong sounded and sent Smith and Willard on their way. The first round was uneventful, but toward the end of the second Smith landed fiercely with left and right to the jaw and Willard spat clear, as he went to his corner.

There was much clinching in the seventh, and Referee Selig was kept busy separating the pair. Both showed up perceptibly and not until the tenth round was fierce milling resumed.

CALLIES WILLING TO PLAY BENEFIT GAME

Misunderstanding Appears to Exist as to Attitude of Old Football Organization

Dear Sir: There seems to be a great deal of misunderstanding in connection with the proposed Callie Hillhurst player who recently died.

When the application was first made by the Hillhurst club to the Callies to play the game, the Callies at once agreed to play the game, if being then impossible for Hillhurst to get permission from the league.

The request was unanimously granted, and the president remarked that it would be a fine chance to introduce Hillhurst to the new grounds at Victoria park, and he hoped there would be a big crowd and the object would be well supported.

which was backed up with splendid fielding. The Maroons drove Schimmmons off the box in the first innings, when they tallied five runs, one of them being a homer by Karke.

TAKE CHARGE OF SUNDAY SCHOOLS' 'TEEN AGE WORK'

Hugh C. Leggat, of Birmingham, Ala., Will Arrive in City On Thursday for New Office

Hugh C. Leggat, of Birmingham, Ala., has been appointed superintendent of the "Teen Age" work of the Sunday schools of Alberta and will arrive in Calgary this week to take up his work. This work will be for the purpose of securing for the Sunday school older boys and girls who are at the age at which they usually leave school and drift away altogether from the school and Christian influences. The appointment has been made by the Sunday school association of the province and the work of Mr. Leggat, while he is in the city, will be to visit the headquarters of the Sunday school association at Calgary and to devote to service of all parts of the province.

Mr. Leggat will be welcomed to the city at a luncheon to be given by the executive committee of the industrial bureau at Cronin's Restaurant on Thursday at 12.30.

MOOSE JAW NORWEGIANS WELCOME DISCOVERER OF THE SOUTH POLE

Captain Amundsen, on His Way to Calgary, Is Honored by His Countrymen

Moose Jaw, May 20—This city seemed to be in a fever tonight when a procession of several hundred Norwegians marched up Main street accompanied by a local band, at the head of which was the South pole discoverer, who earlier in the day had been accorded a civic reception.

The explorer lectured to a large house at night, describing his last dash at paying a high tribute to the dead Captain Scott and his companions. "Of the 116 dogs we started with," he said, "only one survived to see Norway."

Amundsen leaves for Saskatoon tomorrow and then goes to Edmonton.

COST OF LIVING IS CONTINUALLY ON THE INCREASE

Moves Up One Point During Last Month—Rent and Meat Higher

Ottawa, May 20—The labor department index number of wholesale prices stood at 136.3 for April as compared with 135.9 in March and 136.9 in April, 1912. The chief increase occurred in western grains, animals and products, carriages, paints and oils. There were increases in eggs, fresh fish, flint, and raw rubber. Grains and fodder, dairy products, fruits and vegetables were lower than a year ago, but most of the other groups were higher. In retail prices there was a decline in eggs and an upward movement in meats, especially in poultry products. Meat was reduced for the summer in some localities. Rentals were strongly upward in several cities.

ESTABLISH A SERVICE OF CARRIER PIGEONS

Prince Rupert, May 20—This month will see the start of the carrier pigeon service out of Prince Rupert, which will enable the Adlin Fisheries to know how the catch is going, and whether it is large or small. Fifteen pigeons have arrived. They are under the care of Mr. Cummings of the company. Once the birds become thoroughly familiarized with where they are at present, they will be taken out to sea aboard the fishing boats from time to time and released, each bird bearing a message.

This service is a most novel one, and is certainly something new in the fishing industry of the North Pacific. Next month the present fleet of fishing boats will be increased by the arrival of the Charlotte Cox, which carries eight dories.

Mr. Winkie's House Being Torn Down. Two buildings in Birmingham associated with Dickens have been demolished, and a third, Mr. Winkie's house, is being pulled down.

When Mr. Pickwick asked the waiter at the Old Royal where Mr. Winkie lived he replied: "Close by, sir, not above 500 yards, sir. Mr. Winkie is a wharfinger, sir, at the canal, sir." And Mr. Pickwick found in a quiet, substantial looking street stood an old red brick house with three steps before the door, and being pulled down.

fat Roman capitals, the words, "Mr. Winkie."—From the Pall Mall Gazette.

ONE CENT A YEAR RENTAL FOR ACRE

Caradoc Church, London, Ont., Gets Land for 99 Year Lease.

London, Ont., May 20—An interesting land lease was drawn up by Mr. E. W. Scatcherd, on Monday, when an acre of land, part of lot 17, concession 7, township of Caradoc, was leased for 99 years at an annual rental of one cent. The owners of the property are Mrs. Sarah McNeil, Duncan and Archibald McNeil, and the land was rented to the North Caradoc Presbyterian congregation, who will build a new building on the site.

A CANADIAN TELLS OF FINDING BODIES OF HEROES

C. S. Wright, of Toronto, Was One of Party Which Went to Recover Scott and Comrades

Vancouver, May 20—Positive denial that the death of Captain R. F. Scott, the South Pole hero, and his four brave companions, was due to any other cause than starvation is given by C. S. Wright, of Toronto, the only Canadian representative on the ill-fated Scott expedition and one of the search party which made the tragic discovery of the bodies. Mr. Wright and Frank Benham, of Sydney, Australia, another of the relief party that discovered the resting place where Scott and his companions passed to a hero's death arrived in the city yesterday from San Francisco having reached the Golden Gate city from Australia last Thursday. They came on direct here.

OGILVIE COMPANY PLAN ELEVATOR AT TABER

Lethbridge, May 20—The Ogilvie Milling company announce their intention of building a 45,000 bushel elevator at Taber, for the purpose of buying wheat for the Alberta mills at Medicine Hat.

ROMANTIC STORY OF THE KRUPP GUN COMPANY

That Now Notorious German Firm Are the Largest Gun Manufacturers in the Armament Business in All of the European Continent

Works of the Company Cover Vast Area, and Essen Has Grown from Population of 4,000 to a Census of 300,000 in Century

Berlin, Germany, May 20—The house of Krupp, which at times has been drawn recently by disclosures in German political circles, is the largest steel, iron and gun-making establishment in Europe. It was founded 101 years ago. August 26, 1812, Essen, was held the centennial of Friedrich Krupp's venture into the manufacturing of crucible steel and cast steel goods. Among those who attended the celebration were Kaiser Wilhelm and many noted German officials.

The year in which Friedrich Krupp actually began the manufacturing of steel also marked the birth of his son Alfred. One of these events was just as important as the other. For while the father started the business, it was the son who built it up. Alfred Krupp, a merchant in November, 1811, to manufacture crucible steel, and cast steel goods to compete with the English products of this class. He was one of the few men who knew how to make crucible steel and also claimed to have secured a valuable secret, the knowledge of which was considered quite essential then.

Krupp rented a small shed and by the aid of two men began experimenting with crucible steel. His aim was to become a steady manufacturer of it to in 1812 he built a small factory consisting of a crucible steel foundry and a forge containing a tilt hammer. Power to operate the factory came from a small stream near by.

Suffered Many Setbacks. He went at his new work enthusiastically, but suffered more than the usual number of business reverses. His partnership was a failure. His partners lost money.

He went at his new work enthusiastically, but suffered more than the usual number of business reverses. His partnership was a failure. His partners lost money. He never looked back and a lawsuit Krupp instituted against him was never tried in three years before his death. And yet in spite of all his hardships, the industrious manufacturer soldiered on and experimented more and more, discovered new ways of treating metal, and never lost courage. At times he had more orders on his hands than he could possibly fill. When he tried to enlarge his plant, however, he found his funds were exhausted. Appeals to the state for financial aid failed. Then his family managed to get enough money together to help him out. For a time he got along well, doubling his former output. Financial difficulties again overtook him, and he was unable to get credit with which to go on with his work. The state again refused to aid him. He frequently was compelled to stop work because of lack of water from the stream that supplied his power. He had great difficulty in getting enough money to pay his workmen. Bad weather made the roads impassable a considerable portion of the year, so that deliveries could not be made for months at a time. With all these reverses, he finally fell ill and died at the age of 31, leaving to his wife and children his factory and his debts.

Immediately after his death, his widow issued a circular stating that the secret of making crucible steel was not lost, but had been transferred to her and her eldest son, Alfred, then 14 years of age, and that they would continue the business together. The name of the firm was still Friedrich Krupp, as it is today.

Became Sole Owner. Despite his extreme youth, Alfred knew considerable about the factory, and with his energy and the able counsel of his mother, the business prospered. Relatives again loaned them money with which to operate, and when his mother died in 1873, Alfred became sole owner.

In investigating new devices and processes for steel making Alfred equaled his father in zeal. He was the first to obtain the German rights for the famous Bessemer process, and revolutionized the steel industry. Although famous now for gun-making, the house of Krupp made no business of firearms for the first 40 years of its existence. It was some time later that Krupp went into the armament business in earnest. The story is told that the German government did not recognize the merits of Krupp's guns until the French government ordered some of them. Whereupon the German War department immediately began ordering from him and caused him to stop supplying the French. Now the Krupps are the armament suppliers of the German government. Essen, a town of 4,000 when Frederick Krupp started his factory there, has now a population of 300,000. The Krupp works cover 232 acres.

Alfred Krupp was the moving spirit of the concern. In 1887 his son, Frederick Alfred Krupp, then undertook the general management of the establishment. The business is now run by a company, although most of the stock is still in the hands of the Krupp family.

Play is Child Training. Play is not merely the overflow of animal spirits. Every game that children play is part of an apprenticeship to a trade or calling. Children are trained in their play to learn the calling of adult life. Instinctively they will make their play assist in training them for the trade which they are familiar. That is why play should be wisely directed.—St. John Tele-

"BORROW—PAY LATER" IS ADVICE TO STUDENTS

Ithaca, May 20—Students who work their way through college have not the same chance of success as those who can "buy" against their fellow students socially.

UNBREAKABLE JAIL BROKEN. Montreal's New Three Millions' Worth of Stone Walls Did Not Make

Montreal, May 20—That stone walls do not make a prison make, even though the walls in question cost \$3,000,000, is evidenced here by the unauthorized departure of Arthur Brans and Louis Simard from Montreal's new and costly jail at Bordeaux, which was supposed to be absolutely proof against such escapes. The men, under the nose of the guards, placed a ladder against the 24 foot wall around the prison and slid down a water pipe on the river side.

GARMANGAY FARMERS AFTER AN ELEVATOR

Lethbridge, May 20—At a Saturday meeting at Garmangay, over 80 farmers, steps were taken to organize a farmers' elevator act. A large number of shares were subscribed for.

NEW YORK'S FOUR AND ONE-HALF OVERSUBSCRIBED

New York, May 20—New York city's \$5,000,000 four and a half per cent bond issue was over-subscribed by 75 per cent today. Four hundred and ninety-eight bids were received. These range in amounts from \$15,000,000 worth at par to \$1,000 worth at a little more than a point above par. It probably will be a day or so before the names of the successful bidders are announced.

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in ventilated factories or those whose stay up indoors in winter time with a coal stove burning in the oven or emitting in anemic people may have been caused by lack of good fresh air breathed into their lungs, or by poor digestion of dyestuffs. Sometimes people suffer intense weakness in the case there is but one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

ELEVATOR SCHEME AT GRASSY LAKE IS PROGRESSING WELL

Proposed Farmers' Elevator Is Now Regarded as Being a Practical Certainty

Grassy Lake, May 20—So successful has been the canvass for shareholders that the proposed Grassy Lake elevator in connection with the Alberta Farmers' Co-operative Elevator Co. is now almost a certainty. That one of the first elevators started by the company with the backing of the provincial government will be at Grassy Lake, G. A. Buchanan, the organizer, in the few days he was here, disposed of 100 shares, and there should be but little trouble to sell the remaining 30 or 35 necessary to make the number required to form a local branch of the company. Mr. Buchanan left on Wednesday to start organization at another point, but will return on Saturday with the expectation of completing the sale of shares at the farmers' meeting that day. If the money market had not been so close the required cash could have been raised in a day.

CLEM STUBBS MAY BE NAMED FOR UNION PRESIDENCY

Report Comes From Lethbridge That He Will Oppose Smith, Leader of Anti-Stubbs

Lethbridge, May 20—It is reported on good authority from Fernie that the local has elected to nominate Clem Stubbs to contest the election for the presidency of the union of the U. M. W. of A. in this district. This is in preference to J. E. Smith, one of the leaders of the anti-Stubbs faction.

Fernie was always considered the stronghold of the forces which put up such a bitter fight against the election of J. O. Jones, in the recent provincial election in this province.

Watch Repairs of All Kinds—American, English and Swiss. Moderate charges; work legally guaranteed. Dicks, working watchmaker, 331 Eighth avenue east, just below the Queen's. Phone 2440. Open till nine every night. Issuer of carriage licenses.

PARKDALE ADDITION

BACKED by experience and ample resources, and given a location second to none in Calgary--a close in city section on the Bow--we are honestly trying to develop PARKDALE ADDITION as the very finest and desirable residential section of Calgary, where a man may easily acquire and own a home to be proud of at a reasonable and justifiable cost. If you are thinking at all of building, you owe it to yourself to let us show you over this property and explain to you our plans and proposals

The Markets

WINNIPEG WHEAT TRADING HAS BETTER TONE

Operations Light in Options; Continental Markets Higher

Winnipeg, May 20.—Wheat markets were generally firmer on higher Liverpool cables, unfavorable weather in France and Bulgaria, and continuance of cold dry weather in Canada.

Chicago opened unchanged to 1-8 higher, following which they held steady, the strength in other markets being maintained.

Minneapolis opened 1-8 to 3-8 higher and closed 3-8 lower.

Chicago opened unchanged to 1-4 higher and closed 3-8 to 1-2 lower.

Deliveries through the clearing houses were: Wheat, 124,500 bushels; oats, 69,500 bushels; flax, 67,000 bushels.

Power Cities Realty Co. 707 CENTRE STREET

Chicago, May 20.—Cattle, receipts, 1,500; slow and steady. Hogs, receipts, 1,500; slow and steady. Pigs, receipts, 1,500; slow and steady.

London, May 20.—Money and discount rates were dearer today. With the exception of a rise in home rates, the settlement of labor troubles and a slight recovery in copper shares, the stock market was dull and easy.

Winnipeg, May 20.—With a new low record or two achieved and business on an even similar scale than usual, it could not be said that the Toronto stock market was a specially lively affair today.

THE CRIMINAL ASSIZES OPENED SESSION YESTERDAY

Charge of Illegal Operation Against Wm. Reddick, East End Druggist, Gone on With but Evidence Will Not All Be Heard Till Today

MINCHIN TRIAL IS POSTPONED TO FALL

List of Cases for Hearing Is a Long One and Will Take About a Fortnight—Mr. Justice Scott Presides Over Court

The court of assizes for criminal cases opened yesterday in Calgary before Mr. Justice Scott. Many cases were up for trial but little progress was made as the morning was occupied entirely with formalities. In the afternoon, part of the evidence against William Reddick, accused of attempting an illegal operation, was heard, while a Galician received sentence on a charge to which he pleaded guilty.

The court was crowded in the morning but was cleared for the Reddick trial and there were but few present in the afternoon. Reddick, who is manager of the Pure Drug Store, 1401 Ninth Avenue east, was charged with attempting to procure abortion on Rose Knight on March 28 and April 1 last. The accused is defended by Frank Eaton.

Rose Knight was on the stand for over two hours during the day and told of her visit to the store on the two occasions and on other days. She was the assistant in the Pure Drug Store. He declared that he never used the instruments personally though they were kept in the store. An interesting point brought out by the last witness was the fact that the materials, for which the cost price was 80 cents for the box containing the dozen, were sold at 75 cents each.

The case was then adjourned till this morning when the evidence for the prosecution will be continued while the defence will also put forward a number of witnesses.

Accused Does Not Appear
Plea of not guilty were entered by most of the defendants who will face trial at the present session. W. A. Elder, who is charged with obstructing the trial, J. H. Minchin, former sergeant and the bail provided by his bondsmen, W. H. McLaws and A. W. Bingham were arrested, while the judge issued a bench warrant for his arrest at the request of James Short, K.C., crown prosecutor.

There were a large number of public officials present, including the captain Deane of the R.N.W.M.P. and Chief Cuddy of the Calgary police force. Mr. J. H. Minchin, former sergeant, also appeared in court on the charge of obstructing the trial. He is charged with the delay and ball was renewed.

There are two cases of murder, the accused being Joseph Dionne and Baptiste McDougall. The latter will be the next case on the docket today.

Juryman Challenged
The following are the members of the jury for the Reddick trial: Alfred Livingston, J. G. Macfarlane, H. Leventine, G. S. Wayman, W. G. Long and A. A. Ackland. It is expected that the case will be concluded this morning. Before the jury was selected the lawyers on either side had exhausted their rights to challenge those summoned for service. They were promptly released on being challenged.

U. S. LEGISLATION MAY BAR INTERMARRIAGE

Conviction of Johnson Causes Congressman from South to Introduce Bill

Chicago, May 20.—National legislation prohibiting intermarriage is to result from the conviction of Jack Johnson, negro champion prize fighter, of violation of the Mann act.

Representative Roderbery of Georgia, who has introduced legislation in congress forbidding intermarriage of blacks and whites, sent word today to local federal officials asking for a transcript of the testimony in the case. Mr. Roderbery said he intended to use the story developed in the Johnson trial to show that relations between the races are impossible.

Johnson is crushed at the realization that the conviction might send him to prison. The negro said he had been broken financially and had spent about \$20,000 in his defence. Johnson's attorney declared that if Judge Carpenter refused a new trial he would carry the case to the supreme court.

The verdict will go around the world, said the prosecutor. "It is the forerunner of laws to be passed in the United States which we may live to see. Laws forbidding intermarriage. This negro, in the eyes of many, has been persecuted. Perhaps, as an individual he was; but his misfortune is to be the foremost example of the evil in permitting the intermarriage of whites and blacks. He has violated the law. Now it is his function to teach others: the law must be respected."

EXPERTS PLAN NEW U. S. CUP DEFENDER

Bristol, R. I., May 20.—Old boat-building experts here who have helped produce the America's cup defenders for twenty years, believe that the latest Lipton challenge will be accepted and are preparing for an active winter's work on one or two 75-foot sloops built on what are known as "wholesome lines."

It is also believed that two or three other boats will be constructed in Boston and New York and that the American trial races in the summer of 1914 will find half a dozen able-looking boats at the starting line.
