The Loan of 1838 Criticised.

Upon motion to go into committee of supply Sir Bichard Cartwright challenged the course of the Government upon the loan of 1888, his speech being summed up in this amendment which he offered:

That it appears from the public accounts and from statements made in this House by the Minister of Finance and from the prospectus of the loan that the Government of Canada placed a loan of \$1,000,000 sterling on the Loudon market in the month of June, 1889.

That the said loan bears interest at the rate

25,00,000 will be to raise the price of the said stock abnormally and may result in the loss of a burge sum to this country.

10. That in any case the cost of the commission, brokerage and other charges incurred in negotiating the said loan suread over a period of about five years, will add greatly to the rate of interest puyable on the same loan.

11. That oven if the said loan can be repurchased at an average of purit will involve the payment of a rate in excess of the price obtained for five said loan which will make the annual classifier for the said loan, till the same be fepurchased, equal to a rate of interest of about 5 per cent her annum and will at best make the transaction. Induly onerous to this country.

12. That the said transaction is improvident and evidences negligence on the part of those charged with the interests of Canada in this minuter.

Mr. Foster's Reply. Hon. G. E. Foster in reply said this lo had been floated by the same financial agents who had floated loans for Canada for a great who had hoated loads for Canada for great number of years past and who had been ex-tolled by Sir Richard Cartwright as men of ability and honor who would not give advice against the interest of Canada. He thought the agenta were entitled to the same charac-

the agents were entitled to the same character now.

The statement in the prospectus upon which this question had been raised was merely a declaration of the intention of the Government, and simply carried out what had been the practice of the Government from the time of Confederation. The bond of the loan, which was advertised upon the very same page of the prospectus, stipulated that the principal and interest should be chargeable to the consolidated fund, but there was no mention of or provision for a sinking fund in the bond. If the loan were exhausted in ten years, though nominally to run for fifty, and the bonds were thereby appreciated to par or above, the countries of the same charge.

He did not think that the financial history of Sir Richard Cartwright was such as to enable him with good grace to criticise the management of his successors in the office of Finance Minister in placing loans upon the market, for no such heavy discounts had been paid on any loans, before or since, as on the loans floated by Sir Richard. Sir John Thompson gave it as his opinion that the Government were under no obligation to purchase this stock if the price were unduly inflated. He pointed out that the adoption of Sir Richard's resolution would put the Government at the mercy of stock speculatora, Hop. W. Laurier and Messrs. Mulook, Peter White and Colter followed.

In his speech to-day Sir Charles Russell recounted the story of enforced frum emigration to America, of the growth of Femianum in that country and of its development into a movement to obtain justice for Brelland by means of legal agitation. He said it was the instifiable boast of Parnell and Davitt that they had taught Irish Americans to combine and assist them in their efforts within the law. He traced the history of the National League in America and declared it proved conclusively that the organization was in no way implicated in crime. The National League, he said, had been founded to maintain the right of the Irish people to make in their own national assembly laws relating to Ireland beyond the soas were not withing to accept the instory of Ireland in which the people of the Irish race in that greater Ireland beyond the soas were not willing to accept the untual right of Self-povernment and live in amity with the rest of the Empire. Ald. Gillespie moved that the sub-committee on sites wait on the Ontario Government and the College authorities to see at what figure they would part with the property. The motion was adopted.

Ald. Dodds deprecated the present method of selecting park sites. It warned the owner of what was in hand and gave him an opportunity to sak 25 per cent. more than the land was result worth. ST. LAWRENCE WARD CONSERVA-TIVES ENDORSE JOHN SMALL.

INSPECTOR HARRIS SUNTAINED.

A Bispute Between the Toronte and Winsaipeg Inspectors Adjusted.

For some time past there have been complaints heard among grain men as to the various inspections of the Dominion, and of late it has been customary in effecting sales to specify Winnipeg. Port Arthur or Toronto inspection, as the case might be. A casus belt was up before the Board of Trade arbitrators yesterday, in that Mr. Joseph Harris, the Toronto inspector, graded a car of Manitoba frosted wheat as No. 2 frosted, whereas Inspector one grade higher. The arbitrators sustained Mr. Harris.

Clendenau, Mayor-elect of West Toronso Junction, is making a strong race for the Junction, is making a strong race for the nomination; many of his friends say he will get it sure. On motion of Mr. J. P. Brill. J.P., the convention was adjourned until May 18 next, when it is supposed there will be a large attendance of delection.

This, while satisfactory in reducing their capital, and at the same time bringing up the value of the shares, left no money for dividends. But dividends were in prospect.

The committee decided to follow the official advice tendered, St. Paul's Catholic, Association, through Assessor Mallon, and the Protestant Committee through Ald. I have spent two years going through this world only half myself—never using medicine, as I dislike it. However, on the New Year I tried one bottle of B. B.
