### THE HOSPITAL DEBT.

The treasurer's report for 1901 shows that the deficit on running expenses for the year was \$110.00 as against \$227.00 for 1900. In other words the hospital came within that amount of living within its income. The income was greater than that of former years, but owing to expansion of usefulness in opening the maternity annex, fitting up laundry and prosecution of necessary repairs and alterations in the main building, the expenditure was larger than was anticipated, though the promises and hopes of the advocates of extension and alteration eventually showed the wisdom of such measures in the hospital's increased earning ability.

The new year of the hospital, which begins in November has opened with very bright prospects in so far as its earning capacity is concerned, the improved facilities being fully taxed.

The management have determined to keep expenses down even more closely than last year, and not having in view any

extensive changes hopes, with the assistance of the friends of the hospital, to be able to show that the small deficit of the past year has changed sides on the ledger.

During the past two years the revenue from subscriptions and collections has been far below the average of former years, owing in a great measure to the lack of systematic organization and canvassing. This has been remedied, and a determined effort will be made to re-awaken substantial recognition of the hospital's needs among its many friends and the public generally.

Coming to the subject of the debt proper, which is one incurred for maintenance only; as the floating debt on buildings has been wiped out through the generosity of a few of the hospital governors; it might be well to remark that a goodly portion of it is a legacy of times when the hospital had not the earning capacity it now enjoys. The floating debt at present amounts approximately to \$2,000.00, slightly more, and consists of accounts due for provisions, fuel, medical and surgical supplies, etc.

It is well known that one can deal more advantageously with cash in hand or a reputation for prompt payment, and in order to enjoy such advantages to the full, this load of debt should be removed.

Many suggestions are offered as to ways and means to accomplish the end sought. With the exception of one proposed at the last Governor's meeting, they all lack the great essential—cash.

The treasurer's report shows that the hospital and its management, as it now stands, is not responsible for the incurring of this debt, and should not be compelled to carry the burden of it. The management, in addition to trying to make the revenue meet the expenses for

the coming year, proposes to materially reduce if not entirely clear off this incubus and appeals to the many friends of the hospital, the adherents to homœopathy and the charitably disposed public generally for aid.

Will some well-wisher of the institution give a certain fixed sum, from \$100.00 to \$1000.00, to be paid conditionally on a like amount being raised by the hospital within the coming year.

This seems the most feasible plan, offering as it does great incentive to work for the object aimed at. A few offers on this plan would soon solve the debt question, and bring nearer the time when the hospital could enter into its ideal sphere of usefulness—the ministering to the suffering poor and the promulgation of the beneficent doctrine of homœopathy. Let the offer be according to the ability of the giver, be it great or small, contingent on a like sum being raised, or in proportion (as the donor may see fit) to the amount collected by the hospital. Do not put off until to-morrow granting the help that can be given to-day.

### THE HOSPITAL'S ANNUAL MEETING.

The annual meeting of the Governors of the Montreal Homœopathic Hospital was held in the Board room on Friday, 29th November. There was a very good attendance of Governors. Among those present were Lady Van Horne and Mesdames J. T. Hagar, J. A. Gillespie, G. D. Phillips, Sutherland Taylor, George Sumner, E. Von Rappard, H. Thomas, S. C. Matthews, H. M. Patton and R. A. McGillis; Misses A. Moodie, M. Ames and M. E. Baylis; Doctors H. M. Patton, A. R. Griffith, Arthur Fisher, A. D. Patton, Laura Muller and E. M. Morgan; Messrs. R. C. Fisher, R. A. McGillis, S. M. Baylis, E. G. O'Connor and T. J. Dawson.

In the absence of Mr. S. Bell, president, Mr. E. G. O'Connor, vice-president, occupied the chair.

Complete and admirable reports were submitted by the Committee of Management, the Medical Superintendent, the Lady Superintendent, the Treasurer and the Woman's Auxiliary.

As it has been decided to print the reports in extenso and circulate them, a mere reference here will be all that will be necessary for the present.

The tenor of all of the reports indicated a most successful and prosperous year's work. A low death rate, a gratifying reduction in the hospital's debt, the laundry work done upon the premises at reduced cost with greater satisfaction, a successful year in the maternity wards, with still better prospects for next year, the maintenance revenue which came within a little over one hundred dollars of meeting the expenditure, the best financial year on record, an earning of over \$4,000 from patients' fees, and a lovely report from the Woman's Auxiliary were the distinguishing features.

Mr. Bell, the retiring president, having definitely declined re-election, was appointed trustee to the Jubilee Endowment Fund in the place of the late Mr. E. J. Barbeau.

Dr. H. M. Patton referred in feeling terms to the loss the hospital had sustained in the death of Mr. Barbeau and proposed that the Governors show their appreciation of his benefactions by electing his son, Mr. Louis Barbeau, and his daughter, Mrs. Albert Hebert, life governors, which was done.

The following officers and staff were elected:—President, John T. Hagar; vice-presidents, E. G. O'Connor and R. C. Fisher; treasurer, E. M. Morgan; secretary, T. J. Dawson; committee of management, Messrs. J. M. Aird, H. M. Patton, A. D. Patton, A. R. Griffith, and Mesdames J. T. Hagar, J. A. Sheffeld, Sutherland Taylor and G. D. Phillips and Misses Annie Moodie and M. E. Baylis.

#### MEDICAL BOARD.

INDOOR STAFF—Senior Physician, Dr. A. R. Griffith; junior physician, Dr. A. D. Patton; senior surgeon, Dr. H. M. Patton; junior surgeon, Dr. E. M. Morgan.

OUTDOOR STAFF—Dr. W. G. Nichol, Dr. Laura Muller and Dr. O. W. Bradley.

MEDICAL SUPERINTENDENT, Dr. A. R. Griffith.

Mr. Leslie Boyd was elected honorary solicitor and A. H. Piimsoll honorary auditor.

The hospital begins its current year with very encouraging prospects.

## BAZAAR.

The bazaar held in the Windsor Hall Saturday, Dec. 7, under the auspices of the Woman's Auxiliary, surpassed all previous efforts and was one of the prettiest ever held.

Mr. Samuel Bell, for many years the honored president of the hospital, opened the bazaar with a few interesting remarks, followed by Dr. Fisher, who gave an account of the earlier years of Homoeopathy in the city.

The booths were decorated to show off the goods in the best manner. A snow hut, where lemonade was dispensed by Miss Hagar and her friends, was a novel feature, and a most artistic green booth with tasty decorations formed a fitting frame for the artistic fancy articles Mrs. Gaunt and her young assistants were kept busy disposing of. The Kitchener booth, with its military and patriotic colors, did a thriving business in tea, coffee, soap, bovril, etc., under the management of Mrs. A. R. Grafton and friends, with Miss Maggs as a pretty vivandiere.

The apron table, in white and rose, had eager customers for the pretty aprons provided by Mrs. Sheffield, Mrs. Birchall and Mrs. Bulmer.

Crimson and white decorated the booth of Miss Ames and Miss Baylis who, assisted by friends, were kept busy all day.

The dolls and the toys were where the children lingered longest. Mrs. Wait and Mrs. A. D. Patton had a large and interesting family of girl and boy dolls to dispose of. The young people found many foster mothers for many of their family and many a dolly's wardrobe was replenished from their store. The circular stall was prettily draped in green and white surmounted with a group of flags

Miss Nichol had a unique "corner in toys" under a big Japanese umbrella, where the smallest purse could find something to suit its contents.

Miss Mildred Hagar and her young friends, chaperoned by Mrs. Watson and Mrs. De Forest Smith, had a bewildering display of the work of their own busy fingers at most reasonable prices. Their booth was becomingly dressed in shaving paper balls of all colors. Yellow and white were the decorations at Mrs.

Griffith and Miss Robertson's home-made jam and preserve table, while Mrs. Morgan, Mrs. Binks and Miss Moodie had a pretty cake table done in pink and white, as was also the candy table in another part of the hall, where the following young ladies were in charge:—Misses Irene Von Rappard, Roach, Douglas, Chillas, Gillelan, Adams, Parkins, Sumner and others. The measuring and weighing looth, under Miss Fairman's charge, was decorated with spruce boughs over white, and the Egyptian Soothsayer with his two foreign brothers had a retired booth on the platform, where the mysteries of the art were unfolded behind closed curtains.

The city union of King's Daughters, under their president, Mrs. J. H. Magor, and Miss Reddy, with Mrs. Von Rappard to represent the hospital, kindly took charge of the refreshments and high tea, at the end of the hall, decorating with their society colors of purple and white.

The young ladies who assisted were from the various city societies, who disinterestedly gave their services to help this city charitable institution, a kindness very much appreciated by the Woman's Auxiliary and all the other workers.

Punch and Judy drew large crowds, and the two dainty little pop corn girls had their baskets emptied many times. Masters Wilfred Small and Willie Epstein, with fife and drum, gave a spirited and thrilling exhibition of their clever exercise both afternoon and evening. Wallace's orchestra discoursed sweet music at frequent intervals.

HOSPITAL WANTS.

- 1 barrel apples,
- 1 barrel flour,
- 1 barrel sugar,
- 1 box soap,
- 1 box tea.

The above are needed to fill up voids in the store-room, so that the new year may begin with a full larder. The house-keeper will see to it that all donations over and above requirements are promptly delivered to less fortunate institutions.

Broome, John Lewis, Presno, Sharp.

Mrs. Densmore, Los Angeles, kindly sent a valuable contribution in California cedar, orange wood, red wood, yucca palm in the shape of pincushions, burnt plaques, calendars and pin dishes, which found a ready sale for Christmas gifts, such articles being rather uncommon in Montreal.

BAZAAR NOTES.

Master Willie Eustein and Wilfred Small gave a clever performance on the fife and drum during the Bazaar, which was loudly applauded.

The Misses Sandham, in dainty white frocks and picturesque bonnets, disposed of a large stock of pop-corn from their fancy baskets carried by a ribbon in front of them.

Messrs. McMaster, Dr. Wilkins, H. Duff, Hoy, Mallett, Pedley, Fisher, Gaunt, Baylis, Morin, Baikie, Hagar, gave their services at several of the booths, and helped with the work of decorating.

Mr. Jas. Paton donated the very unique booth he had constructed for the snow fort, as well as sent his men to have it erected.

The Royal Electric Co. sent men and loaned lights for many of the booths.

Mr. and Mrs. Hagar collected the money for the expense of the Hall and Mrs. De Forest Smith for the music.

The Messrs. Sharpe, A. Renaud, Morrison and others, kindly gave their services for the benefit of the Hospital.

Mrs. Gaunt's supply of artistic copper articles was soon sold out, and many more could have been disposed of.

All the returns from the different tables not having been handed in, the total amount realized, cannot be announced till the next issue of the RECORD.

Christmas will be celebrated as usual at the Hospital with a tree, and dinner for all.

Donations in money, gifts for the tree or to the dinner will be gratefully received by Miss Lorenz, Lady Superintendent at the Hospital.

**DON'T FORGET** the RECORD, its New Year gifts should be in the form of twenty-five cent pieces, but you can introduce it to four of your friends and save the bother of changing the dollar.

PHILLIPS TRAINING SCHOOL NOTES

Nurse Routhier, "03," has fully recovered from a very serious attack of acute bronchitis.

Nurse Dunlop, "03," is convalescing rapidly after her two months' siege of articular rheumatism. She will spend the holidays at her home in Ottawa.

The second half term of lectures begins Jan. 3. Lectures have been given in Anatomy, Physiology, Hygiene and Toxicology, Obstetrics, Gynecology, and Practice of Medicine.

Miss Malbœuf, "99," has returned from New York, where she has been holidaying, and again taken up work.

As several changes have been made in the residences of graduate nurses, also changes in telephone numbers, a new directory will be printed in next issue. The graduates will please leave new addresses and numbers with the Lady Sup't.

**"RADNOR"**

Dr. J. R. Kippax, Professor of Medical Jurisprudence in the Chicago Homoeopathic Medical College, writes: "Radnor Water is an agreeable and exceedingly pure table water, and surpasses the leading German Waters in therapeutic value."

## HOSPITAL NOTES.

BEGIN the New Year well. Subscribe for the RECORD for yourself and three friends and send us the dollar.

A HANDSOME automatic spring, the gift of Mr. W. R. Granger, now renders the slamming of the front door impossible.

A COUPLE of small screens are needed for the windows of the nurses' dormitory.

EMPTY medicine vials are always acceptable for use in dispensary.

THE PRESENT month has been a record one in the hospital's work and earnings.

THE SPARE maternity room has been handsomely furnished, through the generosity of Mrs. S. C. Matthews. It looks invitingly cosy.

SANTA CLAUS is to visit the hospital; better send something to help to welcome him, and go to his reception about three o'clock Christmas afternoon.

ALL THE private rooms, the maternity rooms and the up-to-date operating room, with services of indoor and nursing staffs, are at the disposal of any reputable physician, irrespective of school. No other hospital in the country offers as much for the same money.

THE ANNUAL meeting of the Governors, held Nov. 29, was the largest attended since the early days of the institution.

MRS. D. DENSMORE, of Los Angeles, Cal., substantially remembered the hospital by sending a very unique and complete assortment of Californian novelties for sale at the bazaar.

THE PRETTIEST bazaar of the season, was the general comment by visitors as they entered Windsor Hall on Dec. 7.

THE FIRST inventory ever taken of the hospital furnishings and goods has just been completed, showing moveables to the value of nearly \$5,000.00.

AS THE TIME for good resolutions is approaching, would it not be well to resolve to take a more active interest in the welfare of the sick and identify yourself with a work that is its own reward.

WHO will start the debt ball rolling away from the hospital?

AN ANNUAL subscription of ten dollars (not quite 85 cents per month) entitles you to a voice and vote in the government of the hospital.

THE ANNUAL report is being prepared, comprising the reports of all the various organizations under the control of the association. Ask for a copy and get acquainted with the workings of Homœopathy in Montreal.

IF YOU meet with poor people in need of medical assistance, direct them to the Dispensary any day from 12 to 1.

THE DRAWING sent by Mrs. Wanless is a reminiscence of homœopathy's early days in Montreal. The curing of this case was justly regarded by Dr. Wanless as one of his greatest achievements.

## DONATIONS IN NOVEMBER.

The Lady Superintendent acknowledges with many thanks the following:—

Miss Moodie — For the "Moodie Room," 2 quilts, 3 blankets, 1 bath sheet, 3 towels, 6 linen towels, 6 huckaback towels, 4 tray cloths, 1 table napkin.

Mrs. James Baylis — For the "Baylis Room," 1 call bell, 1 screen.

Mrs. J. T. Hagar — For the "Hagar Room," 1 screen, 1 pair blankets, 2 quilts, 4 draw-sheets.

Mrs. Sewell—Bureau covers, etc.

Mr. A. Malbœuf—Magazines.

Woman's Auxiliary — 20 yds. H. S. muslin, 27 yds. pillow-slip cotton, 33 yds. sheeting, 1 doz. blankets.

Mrs. Wanless, Toronto — A large, framed drawing of a surgical case, successfully treated (medically) by the late Dr. Wanless.

## ACUTE CORYZA.

"COLD IN THE HEAD."

**SYMPTOMS**—Chilliness; sneezing; watery discharge; aching: "stuffedness;" depression; fever; dry throat and mouth; frontal headache; the nasal discharge soon becomes thick and yellowish; sense of smell may be lost.

## MEDICINAL TREATMENT,

**CAMPHOR TINCT**—As soon as the first chilly sensation is felt. A drop on sugar every fifteen minutes; three or four doses will usually be sufficient to cause a feeling of grateful warmth.

**ACONITE 3x**—To be given early: when attack comes on suddenly, after exposure to cold winds and there is chilliness followed by fever.

**ARSENICUM ALB 3x-6x**.—Free, watery, acrid discharge, but nose feels stopped up; frequent sneezing; burning discharge which excoriates upper lip.

**ARSENICUM IOD 3x**—About the same as arsenicum alb; more violent sneezing and tendency to asthma.

**AMMONIUM CARB. 3x**—Acrid, watery discharge during day; dry and stuffed up at night.

**EUPHRASIA 1x**—Sneezing; burning discharge from eyes; bland from the nose catarrhal hoarseness.

**MERCURIUS 3x**—Profuse, fluent, corrosive discharge; a thin mucous discharge, rawness and soreness of nose, worse when warm in bed.

**NUX VOM. 3x**—Brought on by cold, damp weather; sneezing and stuffed up; feeling in nose. Nose dry or very little discharge, oppression in frontal region, symptoms better in open air.

**PULSATILLA 3x**—A ripe cold, with a thick, yellow, bland discharge; no sneezing or excoriation, for later stages.

**SAMBUCUS 1x**—Snuffles of infants; nose greatly stuffed up, hoarseness, with much tenacious mucus in throat.

## A CHANGE IN MEDICAL ETHICS.

That "the world do move" in medical circles is indicated by an address recently made by Dr. George B. Fowler, the retiring President of the New York County Medical society, a practitioner of the allopathic, or "regular" school, as it calls itself.

Dr. Fowler on this occasion said that the code now permits consultation with any legally qualified medical practitioner, and that the high standards of medical education in New York to-day are the results of this. He said further: "We have secured the co-operation of the societies of the regular, the eclectics, and the homœopaths. We do not respect ourselves and are not respected when we disagree amongst ourselves. I think the day is near when there will be a general handshaking and agreement, and I hope the day is coming when the whole medical profession will be one."

The society which Dr. Fowler addressed applauded him warmly, and committees were appointed to secure the union of the regular and homœopathic county societies.

All this is most encouraging. The "medical hatred" has been in years past wellnigh as bitter as the "theological hatred." The warring medical schools have fought each other as fiercely as the religious sects used to do. But as we have come into the new century there has been a softening down of the asperities and there is now a disposition to make concessions and not any longer claim the whole truth. This liberalizing process in the medical profession is particularly gratifying. For some time past the adherents of one school have not hesitated to declare that they have taken what they thought was effective from the materia medica of the other, and more than once the old time unyielding opponents have met on middle ground between the infinitesimal attenuation and the full-grown

bolus. This, as we have said, is hopeful. No one school is big enough to contain the whole truth. It is wise, then, to utilize what is good in all and to combine for that purpose. When the day comes that "the whole medical profession will be one," as Dr. Fowler says, perhaps the mortality lists will not be so large—Ex.

**NEW BOOKS.**

We have received from the New England Electric Publishing Co. a copy of Dr. Alex. Wilder's History of Medicine. The outline history of medicine from the earliest known period is one of the best and most concise we have ever seen. The account of the old and new schools of the nineteenth century and the progress in the art of healing is dealt with in a masterly manner, showing a vast amount of research and labor.
