Policyholders Organize May Sue for Restitution

Charter is Granted to Association Which Has for Its Purpose the Securing of Policyholders' Rights.

Judge Winchester yesterday granted a charter to the Policyholders' Association of Canada.

The objects of the association are to organize holders of life and accident insurance policies and benefit certificates throughout Canada into an association for the mutual protection and benefit of the members thereof.

The association will not only attempt to prevent future illegal division of money, but will go back to the past and demand restitution.

The officers of the association, whose names appear on the charter, are: President, Dr. H. H. Moorhouse; vice-president, W. B. D. Laurie; secretary, Wm. Christie; treasurer, C. Goode; directors, T. H. Barton, W. M. Stark, Arthur Hawkes.

The witnesses to the application are: H. Moorhouse, Charles L. Lawrie, Walter Mills, H. H. Goode, E. Barnes, Wm. J. Wells, Grace M. Lawrie, H. A. W. Moorehouse, W. L. Lawrie, Wm. Christie, C. Goode, A. M. Hawkes, W. M. Stark and T. H. Barton.

A holder of life or accident policies or benefit certificates "in sympathy with the objects" can become members, the fee being a dollar per annum.

The annual meeting of the association will be held at the City of Toronto on the third Wednesday of January in each year.

CHIEFTAIN DIED 15 YEARS AGO.

To-day is Anniversary of Death of Sir John A. Macdonald.

To-day is the fifteenth anniversary of the death of Sir John A. Macdonald.

In Toronto, as elsewhere throughout Canada, the memory of the great chief is still held dear, and with many of the old guard Tories the donning of the red neckties will be the tribute paid.

Toronto has, however, fallen into reminiscence in one respect, and it is to be regretted. The custom of decorating the Macdonald monument in Queen's Park has been allowed to die away.

It is several years since there has been a formal ceremony of decoration, and, since then, private visits have been paid by officials of Conservative associations and wreaths laid in place. This practice has, however, become irregular.

Kingston is more observant of custom, and to-day the grave at Cataract Cemetery will be decorated by members of the Kingston Macdonald Club and other Conservative associations.

TORONTO'S NEW THEATRE.

The Alexandra Will Be on the Old U.C.C. Grounds.

The new theatre is to be on King-street on the grounds of the old Upper Canada College. It will be finished by the commencement of the coming season. The work will start at the beginning of next week. Toronto people are interested to a large extent, and the building will cost \$150,000.

The Alexandra Theatre Co. of Toronto have awarded the contract to the new house to T. W. Horn, who is associated with John M. Egan & Co. of Chicago. The architect is John M. Lyle of New York, under Cramer & Hastings of the same city.

TEAMSTERS' STRIKE ENDS.

Domestic Transport Employees Go Back on Company's Terms.

Montreal, June 5.—(Special).—The teamsters of the Dominion Transport Company, who have been on strike since Monday, will return to work tomorrow.

They have accepted the company's offer to make the overtime pay at 6 p.m., instead of 6.30.

They got the old rate of \$1.60 per day.

WOMAN SUFFRAGE SWAMPED.

Portland, Ore., June 5.—George B. Chamberlain, Democrat, has been re-elected governor of Oregon by a majority of not less than 1000.

Woman suffrage was defeated by a large majority in Multnomah County alone it was defeated by about 3500 majority.

WON'T BE FIRED.

Peterboro, June 5.—(Special).—George Cochrane, licensee inspector for West Peterboro for eighteen years, has been requested to send in his resignation.

HAMILTON CONFERENCE TO INCREASE SALARIES

System of Grants for Funeral Expenses re Ministers' Families to Be Introduced.

Niagara Falls, June 5.—(Special).—Applications for amendments to church laws were a feature of to-day's sessions of the Hamilton Methodist Conference.

Hamilton District proposed a new schedule of assessments to resperannuation fund, the changes being designed to lessen the load on smaller and poorer circuits.

Milton and Welland Districts want a protest made against the new law requiring a 30 per cent. vote for local option.

Additional aid from the sustentation fund will be given to the poorer circuits, so that all married ministers will get at least \$800 a year; all unmarried ministers at least \$500 per year.

A system of grants for funeral expenses on the occasion of the death of a minister, his wife or his child, is to be introduced.

Rev. James A. W. Decewille was elected president of the Theological Union, Rev. J. Cooper Antill of Galt is lecturer and Rev. A. J. Johnston of Grand Valley, secretary and treasurer.

PAY OF PROFESSORS.

Objection Taken to Extra Privileges Enjoyed in Toronto.

Smith's Falls, June 5.—(Special).—The pay of Toronto professors was discussed by the Montreal Methodist Conference to-day.

A memorial from Montreal asked that the educational secretary remove discriminations in salaries made to professors in the various colleges.

It was made clear by several speakers that professors at Toronto get considerably more pay than most of their colleagues in other colleges.

It was brought out that one professor at Toronto got \$3000 for house rent and he owns the house.

It was also shown that the principalship of Wesleyan College gets \$1850, while net pay of colleges pay three or four hundred a year.

A proposal to abolish the office of assistant secretary was held.

Mr. G. Henderson, called to Domitico Church, Ottawa, was rejected by 98 to 67.

A motion favoring the retention of the secretary of education and the appointment of conference field secretaries carried.

TELEGRAPH A PROTEST.

London Methodists Record Views on the Lord's Day Act.

Windsor, June 5.—(Special).—The following telegram, drafted by the London Methodist Conference here to-day, was ordered to be sent to Ottawa for presentation to the government:

"The London Conference of the Methodist Church in Canada, consisting of 3000 delegates, representing 200,000 Methodists, most emphatically protest against any new or restrictive clauses of the Lord's Day Act; also to the widening of the same by the inclusion of any clause giving authority to railway companies."

The following were appointed as board of examiners: Rev. A. J. Russell, Fingal; Rev. A. H. Goring, Exeter; Rev. A. Birks, St. Catharines; Rev. W. L. Leavelle, London; Rev. Joseph Philip, Aylmer; Rev. G. N. Hazen, Goderich; Rev. C. F. Wells, Gortrie; Rev. D. M. McCannus, Thomas Manning and J. E. Ford.

This afternoon Rev. T. A. More, secretary of the Lord's Day Alliance, dwelt upon the necessity of stringent parliamentary measures for the prevention of Sabbath desecration.

Rev. H. A. Fields told the States was threatened by the increasing disregard now open to the Sabbath.

The conference adjourned six days before midnight.

A Royal Recognition.

It must be most gratifying to Canadians to learn that a royal warrant has been issued to the Radnor Water Company as purveyors to His Royal Highness the Prince of Wales, as well as His Excellency the Governor-General of Canada.

Considering the enormous number of mineral waters, the royal favor, as shown above, undoubtedly means that Radnor has a great many excellent qualities.

In fact, no mineral water mixes as deliciously with whisky, wines or milk as does Radnor.

Empress Hotel, Yonge and Gould Streets, Sissette, Prop. \$1.50 and \$2.00 per day.

LAURIER DEFENDS OLIVER HIS DUTY TO EDIT REPORT

Premier Claims British Custom as Precedent—Borden's Motion Lost on Division.

Ottawa, June 5.—(Special).—Mr. Crawford (Portage la Prairie) resumed the debate adjourned from Friday last upon R. L. Borden's motion for a special committee to investigate the abuses of the land department.

The Conservatives had decidedly the best of the debate. Mr. Roche (Marquette) made an exhaustive argument from the standpoint of the west. He warned the government that there was universal dissatisfaction among the people.

Mr. Ames (Montreal) made the direct charge that Hon. Clifford Sifton had profited by the irrevocable grazing leases which he had granted as minister of the interior, and although compelled by the rules to accept Mr. Sifton's denial it is understood that he has strong documentary proof to support his contention.

Dealing with grazing leases, Mr. Ames showed that during five months 230,461 acres were so leased. Those leases were irrevocable and accompanied with the right to purchase 10 per cent. of the land at \$5 per acre.

The Grand Forks Cattle Company leased over 60,000 acres and purchased 9422 acres at the above price. Another such lease was made to the Milk River Cattle Company. It was now owned by Hon. Clifford Sifton.

At the evening session Mr. Sifton (Brandon) denied that he or any of his family were directly or indirectly interested in this grazing lease or ranching company, as charged by Mr. Ames.

Mr. Burrows (Dauphin) said that he had acquired a number of timber leases from the present government at public competition. There had been no favor extended to him personally.

Mr. Roche (Marquette) referred to the fact that the same was going on in the west. The people in that part of the country were suspicious and thoroughly dissatisfied. The Liberal government had chosen to let the matter pass as to permit friends, relatives and political supporters of Mr. Sifton to secure timber limits without compensation.

Mr. Wilfrid Laurier defended Mr. Oliver's right to "edit" the reports of his subordinates. If the minister did not have recourse to this it would require days to carry the various reports to parliament. It was the practice in England to edit reports. When the correspondence respecting the Alaska case was brought down in the house, both here and in Canada, the letters submitted were purposely mutilated for reasons of state.

It was pointed out that this should be done from the imperial government.

The premier said that he could not believe that Mr. Borden, respecting the Alaska case, expected or wished it to carry. It was a mere attack on the government.

Mr. Oiler (West Toronto) denied that the lands sold to the government were the same or similar lands as those sold by his company to the Saskatchewan Valley Land Company.

Mr. Borden's motion for a committee was lost on division—52, 31, 19.

The government to-day appropriated \$200,000 to carry out the various bills and purely private bills are at an end. This will probably shelve the important legislative bill and other important legislation.

On motion of Sir Wilfrid Laurier the Alberta Express Committee on the telegraph and the proposed amendments of the Railroad Act (Amendment) Mr. Wilson (London) and Mr. Adair (London) called up his bill for the repeal of the pension grab.

The premier promised to bring in a bill amending the pension grab. Mr. Taylor (Leeds), spoke in favor of pensioning ex-members of parliament.

Mr. Roche (Marquette) pressed the application for some decision respecting the application of Manitoba for leave to appropriate existing telephone systems. Sir Wilfrid Laurier would make a definite answer.

PRESBYTERIAN AFFAIRS.

General Assembly Opens To-night in London—Presbytery Business.

Rev. Dr. W. D. Armstrong, moderator of the Presbyterian general assembly, was in the city yesterday. To-night, at London, he will deliver the sermon at the opening session of the assembly. The question of church union will be fully discussed, he says, but the discussion will be most likely tentative in character, although the debate will doubtless have the effect of extending the session devoted to this purpose. After the question has been fully thrashed out it will be handed down to the presbyteries for further discussion.

The Knox Church trouble will be settled by the general assembly. The issue will decide whether a portion of the proceeds of the sale of the old property should be paid to the presbytery, or if the total sum shall apply on the new church.

Rev. R. C. Tibb, secretary of the Toronto Presbytery, was unable to attend the presbytery meetings yesterday. He is threatened with appendicitis. A call from Hornby and Omaha to John MacKenzie, B.A., a 1906 Knox graduate, was endorsed.

The following Knox students were licensed: John MacKenzie, B.A., W. McRae, W. D. Lee, Lachlan H. Currie and Albert McCracken.

A new form of communion roll was introduced, designed by G. E. Dalby, introduced, designed by G. E. Dalby, session clerk of College-street Church.

The book is in two volumes. The roll introduced, designed by G. E. Dalby, session clerk of College-street Church.

The index is designed to temporarily supply the place of the roll and will be much appreciated by clerks of large congregations.

MAKING HIM TELL

THE SENATOR: And that's about all that it would be good for you to know, my little man.

THE SENATOR: And that's about all that it would be good for you to know, my little man.

Crawls on Fire Ladder Rescues Man From Falls

Crazed Patient From Toronto Wades Out Into Water Above Cataract—Heroic Measures Save Him.

Niagara Falls, N. Y., June 5.—(Special).—Amos Schweitzer was rescued in a sensational manner at the brink of the American Falls at an early hour this morning.

The rescue was one of the most sensational that has ever been recorded at the falls.

It was after midnight when Reservist Officer Thomas Blaine discovered the man standing at Prospect Point.

As the officer approached the man walked out into the river. Officer Blaine called to him to come back, but the fellow stood almost waist deep in the swirling waters.

Patrolman Blake was summoned, and the assistance of others a long way was whistled toward the man. He grabbed hold of the end and attempted to pull the officer into the river.

When Blake got a firmer hold the stranger let go of the pole.

A moment later he slipped and fell again, and this time he was held by the rushing torrent about him.

Finally a hook and ladder truck was called. When ropes were thrown on and taken to headquarters.

At a special meeting of the fire company a specially conveyed session took the same action with regard to Batts.

Schweitzer is a young man who lives at Sutton, Ont. Family hold, a resolute man. He was taken to Detroit General Hospital, but he escaped and disappeared until he was located to-day.

ALTERED SAFE COMBINATION GETS AWAY WITH BIG SUM

Union Bank Branch at Winchester Robbed—Young Clerk Missing.

Ottawa, June 5.—A young bank clerk named Ross, employed as teller at the branch of the Union Bank at Winchester, has been missing since May 23.

He altered the combination of the safe at the bank, and a Montreal expert was required to open it.

It is said a large sum was found to be missing. It is variously stated at from \$12,000 to \$30,000, but surties have covered liabilities.

Ross is but 19 years old, and had the reputation of being a quiet, steady young fellow.

Local Citizens Said to Have Been Deceived by R. E. Campbell.

R. E. Campbell, 318 Robert-street, was arrested last night by Detective Wallace, on a charge of forgery.

He is said to have obtained about \$1000 from prominent citizens, as donations toward the Toronto Press Club, using the souvenir program for the theatrical performance as a means to an end.

The Press Club will, it is understood, refund this money.

BIRTHS.

COSTELLO—On 4th June, at 465 Bathurst-street, to Mr. and Mrs. J. L. Costello, a son.

BALDWIN—Suddenly, at his late residence, 36 Lowthian-avenue, Toronto, on Sunday, 3rd June, 1906, Robert Russell Baldwin, in his 64th year, son of the late W. A. Baldwin of Muskogee.

Funeral from the Church of the Redeemer on Wednesday, 6th June, at 10.30 a.m.

HOBBS—On Sunday, at 7.20 a.m., at her home, 168 Howland-avenue, after a long and painful illness, Frances Elizabeth, the dearly beloved wife of Thomas Hobbs, of the Mail and Empire. Her end was peaceful.

Funeral Wednesday, June 6th, at 3.45 o'clock, to Mount Pleasant Cemetery. Friends and acquaintances please accept this intimation.

HARRIGAN—On June 4th, 1906, Sarah Harrigan, at her son-in-law's residence (John Liston), 210 Church-street, aged 92 years.

Funeral Thursday morning, at St. Michael's Cathedral, at 9 o'clock, thence to St. Michael's Cemetery.

KENNEY—On the 5th June, 1906, Catherine, widow of the late Joseph F. Kenney, after a lingering illness, June 7th, to Stratford, via G.T.R., at 6.30 a.m.

Funeral papers please copy.

MARTIN—On June 4th, 1906, at his late residence, York, Iowa, line, Westport, died Mrs. Martin, in his 76th year.

Funeral to Mount Pleasant Cemetery on Wednesday, at 12 o'clock sharp. No flowers.

PLESTED—On Tuesday, June 5th, 1906, Ada Mary, beloved wife of George Plested, in her 32nd year.

Funeral from the residence of her mother, Mrs. H. England, 271 Davenport-road, Thursday, June 7th, at 2 p.m., to Mount Pleasant Cemetery.

MANY HAPPY RETURNS.

ATTEMPT TO WRECK TRAIN TIES PILED UP ON TRACK

Soo Express on C.P.R. Has Close Call From Bad Accident Near Almonte.

Almonte, June 5.—(Special).—One of the most dastardly attempts was made here to wreck a C.P.R. train this morning.

The scene of the attempted outrage is a quiet spot between Packenham and Almonte, and the train that was so nearly wrecked was the Soo train going west, leaving Ottawa at 20 minutes past 1 o'clock in the morning.

The train was a heavily loaded passenger train, and passed thru Almonte nearly on time at 3.30.

Nearing the obstruction the engineer, by the aid of the electric searchlight, saw that there was an obstacle of the ties on the track, and brought the train to a standstill only a few feet from the bunch of railway ties which had been placed in a V shape across the track.

A more diabolical attempt at train-wrecking has never been attempted in Canada, and only the watchfulness of the engineer prevented a catastrophe. At the time the train was running at the rate of 35 miles an hour.

Word was sent to stations along the line, and section men on hand cars were hurried up the line.

They, with volunteer searches from the villages and townships are scouring the woods and farm buildings. No punishment can be too severe for the miscreants.

GENERAL ELECTION IN SPRING

Chamberlain Predicts That Education Bill Will Cause It.

(Canadian Associated Press Cable.) London, June 5.—"Let the empire be self-sustaining," said Chamberlain, addressing friends at Birmingham to-day again urging closer commercial relations. At the last election he said, they were fighting for an imperial navy, an imperial army, all for the peace and prosperity of those to come after.

He predicted a general election being held in the autumn. The fiscal reform would then be carried, he said.

WATERWAYS COMMISSIONERS.

Consider Application of Minnesota Company to Divert Watershed.

The international waterways commissioners were in session all yesterday at the Queen's Hotel, hearing the delegates from Minneapolis and Duluth re the application of the Minnesota Waterway Power Co. for leave to divert the watershed of the Birch Lake basin in Minnesota, which now flows northward thru Rainy River, and northward to Lake Superior at Duluth.

The basin comprises 1000 square miles and the whole question of the diversion of waters crossing the international boundary is in issue.

The commission will consider the subject at to-day's session.

WOMAN KILLED BY STONE HURLED FROM NEARBY BLAST.

Montreal, June 5.—(Special).—Mrs. Antoinette Courtesmanche, while sitting on her doorstep tonight, was instantly killed by a stone falling on her head as the result of a blast nearby.

RIDES 8700 MILES FROM CHINA TO RUSSIA.

St. Petersburg, June 5.—Capt. Byliff, who left the front in Manchuria shortly after the peace treaty was signed, arrived in St. Petersburg to-day. He rode the entire distance, about 8700 miles, in eight months and four days.

His horse, which was of English breed, was in good condition when the journey was finished. The captain's orderly, who was his sole companion, had a Mongolian mount.

Ontario Ladies' College.

The annual commencement exercises of the Ontario Ladies' College will be held at Whitby on Tuesday, the 13th inst. A special train will leave the Union Station at 2:15 p.m. on that day, calling at Queen-street station (both ways), going direct to the college grounds, and returning will leave at 9:30 p.m. Railway tickets and tickets of admission may be procured from R. C. Hamilton, 46 Scott-street, or R. J. Score, 77 King-street west.

Not Author Baring-Gould.

Cape Town, Cape Colony, June 5.—Edward S. Baring-Gould, a cousin of the Rev. Sabine Baring-Gould, the novelist, died on board the steamer Norman at Port Elizabeth yesterday. A confusion of names led to the cable last night of the death as that of the author. The latter is in London and in good health.

London, June 5.—Sir Charles Tennant, formerly a member of parliament for Glasgow, and who was prominent in commercial and financial affairs, died yesterday. One of his daughters, the wife of H. H. Asch, chancellor of the exchequer. Sir Charles was 73 years of age.

Suicides by Shooting.

Detroit, June 5.—S. Harroun, for many years assistant wire chief of the Western Union Telegraph office in this city, committed suicide early to-day, by shooting. He had been suffering from a nervous attack for two weeks. He was born in Niagara Falls.

A NEW FAIR TREASURER AND A NEW FAIR BUILDING

J. P. Edwards Resigns and Major J. K. Leslie Succeeds Him—A Structure by Railways.

In the absence of Lieut.-Col. McGillivray, who is still in poor health, Vice-President George presided at the regular monthly meeting of the exhibition board, held yesterday. A letter was read from Rev. S. D. Chown, explaining that he had been inaccurately represented regarding some remarks he made recently in Montreal. He had learnt to appreciate the high ideals of the present management. An application was read from the independent Order of Oddfellows for the use of the grounds, several buildings and the grand stand during the meeting of the grand convention from Sept. 15 to 22 next. On motion of A. D. Oliver, seconded by E. Briggs, the application was granted. J. P. Edwards, who has been treasurer of the exhibition for twenty years, tendered his resignation, which was accepted with regret, and a committee appointed to draft an address expressive of the board's appreciation of his services, and to secure a suitable memorial. Mr. Edwards was also made an honorary director, Major J. K. Leslie, who has filled the position of cashier for some years, was appointed treasurer. The executive authorized, if they deemed advisable, to make the same arrangements with the Labor Day demonstration committee as prevailed last year. The location of the horse stables are to be covered with tan-bark. The Ontario Society of Artists will have charge of the art gallery, the same as last year. The dog show committee were authorized to revise the bench show prize list, and to increase the premiums to an amount not exceeding \$200. Chairman of the Dog Committee J. G. Kent explained that the exhibition bench show was now the third largest in this continent. Plans for attention to the dairy building, to cost \$1800, were adopted. The Linde British Refrigerator Company being authorized to remove the old plant in the cheese department and to install a new one. Hon. President McNaught moved, and Geo. H. Gooderham seconded, that the application of the Canadian Pacific, C.P.R., the C.N.R. and the Canada Northern for permission to erect a combination building on the site at present occupied by the Canadian Pacific be granted. Mr. McNaught explained that the companies would probably erect a building that would cost \$25,000 or \$30,000, and that Architect Goulet had already been instructed to prepare plans, subject to the approval of the board and endorsement of the board of control.

FAKE ALARMIST REPORTS OF TROUBLE AT CANANBA.

Bisbee, Arizona, June 5.—Col. W. C. Greene, president of the Greene Consolidated Copper Company, who is at Cananba, Mexico, sends the following statement: "To the Associated Press.—Some accounts of disturbances at Cananba were much exaggerated. Mexican authorities are giving full protection to our interests. Work is being resumed. Evidently false and malicious report has been extensively circulated by interested parties for mercenary motives."

York Pioneers.

At the invitation of Hon. Dr. Pyne, the regular monthly meeting of the York Pioneers was yesterday held in the lecture-room of the Normal School, and was largely attended, fully 100 members being present. William Henle presided. The report of the secretary, Rev. H. S. Matthews, showed the cost of printing the yearly reports to be \$33.55. Rev. Mr. Colpitts, late secretary, was made an honorary member, while twelve new members were admitted. The report of the treasurer, John Harvie, showed a balance on hand of \$328.45. The agreement between the Canadian Institute and the York Pioneers was ratified, and on motion the president and secretary were authorized to sign the agreement. A committee was appointed to meet with Dr. Orr and other members of the Industrial Exhibition committee at 2 o'clock this afternoon at the Old Log Cabin, to consider the removal of the building to a joint near Dufferin-street. Following the general business of the society, addresses were given by Dr. Hodgins, who was made an honorary member. At the close of the gathering a pleasant hour was spent by the pioneers in visiting the different rooms and points of interest around the building.

Get Sand and Be Healthy.

Several Torontonians are said to have become "sand eaters," using sand obtained from East Toronto pits, which is run thru a specially prepared sieve, washed and baked, and then taken in doses by the spoonful. It is claimed to act as a cleanser of the stomach, by scraping off the foulness and sourness from the inner coating and giving the gastric juices a chance. The fad had its origin in St. Louis, where, after a storm, the sand in the Mississippi water seemed to result in less sickness.

Railway Criminals Beware.

Washington, June 5.—Over 200 delegates assembled here to-day for the tenth annual meeting of the Association of the Railway Special Agents of the United States and Canada, composed of men engaged in secret service work. Major Richard Sylvester, president of the international police chiefs, assured the delegates of hearty cooperation in the work of apprehending train thieves, wreckers and hold-up men. The delegates proceeded in a body to the White House and were received by President Roosevelt.

Small Fire—Fatal Results.

New York, June 5.—A fire in a junk shop in West-street to-day was the cause of the death of Sebastian Gavett, a bootblack, and of possibly fatal injuries to Jacob Fried and Charles Rosenthal, who were employed in the junk shop. Rosenthal was unpacking a case of rifle cartridges when the ammunition exploded. Their faces, bodies and arms were burned by the powder, and it was believed that they were struck by flying bullets. A fire engine responding to an alarm following the explosion ran over and instantly killed Gavett.

Falls to Death.

Moosajaw, Sask., June 5.—Joseph Kevr, while assisting in boring a well near Spasqua, fell to the bottom, 110 feet, and was killed.

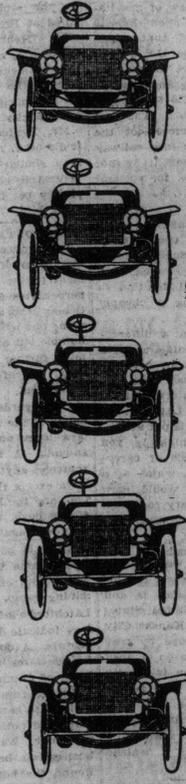

WHEN LONG BREATHS HURT

You can know that trouble exists which needs quick attention. Proper action chest and side with Nerviline, which sinks into the tissues where the pain is seated and gives relief in a few minutes. No liniment so clean, so strong, so powerful. Results guaranteed with every 25c bottle of Poison's Nerviline. Get it to-day.

If you tried every Automobile that's made

If you compared, by personal scrutiny and actual test, every automobile that is known to the motoring world, your choice at last would simmer down to a selection from these very twelve makes that comprise our offering to the Canadian buyer of an automobile

You would spend many months and many dollars making an examination so complete, a comparison so inclusive, and you would finally be no further towards certainty than you can be right now if you deal with us for the automobile you think of buying. How do we know that? On what grounds do we make an assertion so positive and so unqualified? We make it upon these grounds: As the chief automobile concern of Canada it is our special business to know—not to guess or hazard, but to KNOW—which of all the world's motor cars are the absolute standard of value, each of its kind and for its price, and which best meet Canada's peculiar road conditions and the specific and distinctive requirements of the Canadian motorist, whose needs differ essentially from those of his cousin over the border. This too we must KNOW, and know how to provide for those needs. Before we can know that, we must have made the very comparison we have outlined here—we must have examined and contrasted the merits of ALL the good cars, and we must have considered the respective claims of each maker in

their relation to the special demands of the Canadian motorist. That much we must do, big as the task looks—and is. We must have done it, because we could in no wise afford to put our reputation back of any maker's cars unless we KNEW absolutely that no other maker could outvie him in merit, or outsell him in value. That's mere business logic, you see. For we can afford to sell only the supremely best—why should we sell any automobile less good than that?—since it is true that we could make no greater profit from the dubious car than from the car we KNOW is good. So we scrutinize the auto market—with the judgment of experts, sharpened by the necessity of business. And, therefore, the fact that we have just twelve makes on our list instead of forty, as we easily could have with our purchasing power and our selling power, is of itself proof that we have chosen capably from the market as a whole, and that these twelve makes represent no dictate of commercial necessity, but merit—supreme, examined, compared merit, judged against all the automobiles there are.

These are the Twelve Chosen Makes

A BANK BREAKS.

Zanesville, O., June 5.—The Farmers' and Merchants' Savings Bank in Zanesville, Muskingum County, Ohio, has failed. It is said that the depositors will be paid in full.

Train Hits Auto.

West Peabody, Mass., June 5.—A crossing, where W. F. Croving's car was struck by a train, and several of his children were injured here to-day by a train on the Georgetown branch of the Boston & Maine Railroad, which struck the automobile in which the family were touring.

Boiler Explosion Kills Three.

Stirling, N.Y., June 5.—The boiler in the saw mill of the Lyons Company, near Frenchburg, blew up to-day, killing three men and perhaps fatally injuring three others.

The Empress of Ireland.

Glaxow, June 5.—The Empress of Ireland, the C.P.R.'s new sister ship to the Empress of Britain, sailed speed trials on the Clyde to-day. She will proceed to Liverpool and leaves there June 29 for Quebec.

Rate Bill Goes Back.

Washington, June 5.—The discussion of the railroad rate bill conference report in the senate to-day showed conclusively that the bill would be sent back to conference.

Fatal Quarrel in Saloon.

Buffalo, June 5.—As the result of a quarrel in a saloon at Springfield about midnight, a man named Percival was shot and killed and another man was wounded in the leg.

Falls to Death.

Moosajaw, Sask., June 5.—Joseph Kevr, while assisting in boring a well near Spasqua, fell to the bottom, 110 feet, and was killed.

BOOKMAKERS ARE FINED CASE WILL BE APPEALED

Stated Case to Be Prepared and Privy Council May Be Final Arbitrator.

A fine of \$50 and costs of 30 days in jail was registered against J. Saunders, Arch McDonald, Jerry Jones, Alex Mitchell and John Sullivan, in the bookmakers' cases, by Magistrate Denison yesterday. The judgment will be appealed and the cases against 16 others were therefore allowed to stand until October. A charge against S. C. Blake was withdrawn, and he gave evidence.

The magistrate held that the decision in the court of appeal in the Harrigan case must be followed; that the charge against Mr. Hendrie last year had failed only because directed against the wrong party.

T. C. Robinette, K.C., for the defence, said it seemed as if the court of appeal was in the wrong in taking a narrow view, and the quoted Sir John Thompson (182) as saying that the section proposed relaxation of betting on a racecourse of any incorporated association while a race was going on.

Patrol Sergeant Sandell and P. C. McKimney, who had made about 50 bets gave evidence. Sandell said that Saunders & Co. were a dollar to the good at the conclusion.

Blake gave technical evidence against his own desire. It was shown that in one race Saunders had lost \$258 and on another made \$48.

A stated case will be prepared for appeal, and Mr. Robinette promises to carry it along to the supreme court, and probably the privy council, to clear up all doubts.

Day Ride Through Switzerland of America.

On Lehigh Valley R. R., New York 15 day excursion, Friday, June 15. Tickets \$9, round trip from Suspension Bridge. For tickets and particulars call at L.V.R. passenger office, 10 King-street East.

Books and Readers.

James McLaughlin, 9 Elm Grove-avenue, before Judge Morson yesterday, resisted payment of a bill of \$1. & Co., book agents, for a series of books entitled "Comme il est d'Amour Series."

The judge held that Mr. McLaughlin was legally bound to carry out his contract, but the agents agreed to make an exchange.

Grand 15 Day New York Excursion.

Tickets only \$9, round trip from Suspension Bridge, Niagara Falls, Friday, June 15. Tickets and particulars, Lehigh Valley office, 10 King-street East.

Special Price for Pica col. P. Burrus & Co.

44 East King. Phone Main 181 and 182.

WANT A BIG ELEVATOR.

Montreal, June 5.—The Montreal Corn Exchange, at a special meeting held to-day, decided to petition the government to erect a two million bushel elevator at Port Colborne, Ont. An intimation had been received that the government elevator, if erected at all, would only have a capacity of 1,000,000 bushels, and local grain men contend that a big elevator at Port Colborne is necessary.

Modest Chief Justice.

Ottawa, June 5.—Hon. Charles Fitzpatrick, the new chief justice of Canada, took his seat on the supreme court bench to-day. In accordance with the new chief justice's own desire, the members of the bar present made no reference to his appointment. The hearing was postponed for a week of Dan Gahery's appeal from the decision of the lower court, depriving him of his seat in parliament.

For a Good Complexion

FOR Clear Eyes
—Sweet Breath
—Clean Tongue
—Calm Nerves
—Good Temper and
—Pole

Eat a Cascaret whenever you suspect you need it. Carry a little 10c Emergency box constantly with you, in your Purse or Pocket.

When do you need one?
—When your Tongue is coated
—When you have Heartburn, Belching, Acid Risings in Throat.
—When Pimples begin to peep out.
—When your stomach Grows and Burns.

That's the time to check coming Constipation, Indigestion and Dyspepsia.
That's the time to take a Cascaret.

One candy tablet night and morning, taken regularly for a short time, is warranted to cure the worst case of Constipation or Indigestion that walks the earth.

One tablet taken whenever you suspect you need it will insure you against 90 per cent of all other ills likely to attack you. Because 90 per cent of these ills begin in the Bowels, or exist through poor Nutrition.

Cascarets don't purge, don't weaken, don't irritate, nor upset your stomach. They don't act like "Physio" that flush out the Bowels with a waste of precious Digestive Juice needed for tomorrow's Bowel-work.

No, they act like Exercise, on the Bowels, instead.

They stimulate the Bowel Muscles to contract and propel the Food naturally past the little valves that mix Digestive Juices with Food.

They strengthen these Bowel-Muscles by exercising them.

This stronger action, producing greater nutrition from food, brings back to the Bowel-Muscles greater strength for self-operation.

The Bowel-Muscles can thus, in a short time, dispense with any Drug assistance whatever.

Cascarets are safe to take as often as you need them, while pleasant to eat as Candy.

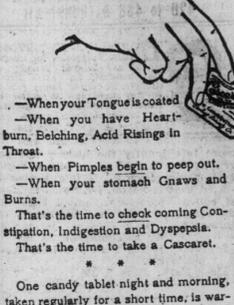

Then carry the little ten-cent box constantly with you in your purse, and take a Cascaret whenever you suspect you need it.

One Cascaret at a time will promptly cleanse a foul Breath, or Coated Tongue.

A thousand dollars a year spent in amusements could not buy for you half so much hearty Happiness, solid Comfort, Cheerful Temper and Health Insurance, as that little ten-cent "Vest Pocket" Box of Cascarets will bring you.

All druggists sell them—over ten million boxes a year, for six years past. Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

A sample and the famous booklet, "Cause of Constipation," Free for the asking. Address Sterling Remedy Company, Chicago or New York.

FREE UNTIL CURED

No man need be weak, no man need suffer from the loss of that vitality which makes life worth living. He can be made strong, magnetic, forceful, and lighthearted, confident of his power both in business and society.

DR. A. B. SANDEN, 140 Yonge Street, Toronto, Ont. Office Hours: 9 to 6; Saturdays until 9 p.m. DINNER BUILDING, ENTRANCE 6 TEMPERANCE STREET.

THE NEW FRENCH REMEDY, THERAPIE

This successful and highly popular remedy, used in the Continental Hospitals by Ricord, Rosta, Jobert, Velpeau, and others, cures all the ailments which are caused by a disordered circulation of the blood.

THERAPIE No. 1. In a remarkably short time, often a few days, removes all discharges from the urinary organs, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 2. For impurity of the blood, scurvy, piles, spots, blotches, pains and swelling of the joints, rheumatism, and all diseases for which it has been too much a fashion to resort to mercury, arsenic, and other destructive remedies.

THERAPIE No. 3. For nervous exhaustion, impaired vitality, debility, and all the distressing consequences of early venereal disease, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 4. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 5. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 6. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 7. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 8. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 9. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 10. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 11. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 12. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 13. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 14. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

THERAPIE No. 15. For all the ailments which are caused by a disordered circulation of the blood, restores the vitality of the system, and relieves the patient of all the distressing consequences of early venereal disease.

Purity
—above everything else—
distinguishes KUNTZ
"REGAL" Lager from
the average.

Of course, there's a
great, big difference in the
materials.

**KUNTZ
Regal
LAGER**

is brewed of best Canadian
Barley Malt and imported
Bohemian Hops.

But it's the fact that "Regal"
is pure—that makes it so fine
and so healthful.

Aren't you particular enough
about pure food—to insist on
having "Regal"?

Association Limited**

Hamilton, Ont.

A GIFT TO THE CITY.

J. Ross Robertson Presents Interesting and Valuable Paintings.

J. Ross Robertson has presented to the city three splendid paintings of Toronto in its early days. They are each 10 feet by 4 feet and will be placed on the north side of the north corridor on the second floor of the city hall.

In a letter to the mayor, Mr. Robertson says:

"The corporation was good enough to accept from me a year ago an oil painting of Toronto, or rather, of York, in 1818.

"I now ask the city's acceptance of three oil paintings—one of York, now Toronto, in 1793, from the original drawings by Mrs. Simcoe, wife of the first governor of Upper Canada; another of Toronto in 1842, and a third of Toronto in 1854.

The first and third pictures are by Mr. Owen Staples, and the second by Mr. P. S. Challenger, both Canadian artists of good ability and reputation. This comprises the series from 1793, the date of the founding of the city, to 1854.

"I will be gratified if you will ask the council to be good enough to accept these works, and thus enable me to do something towards perpetuating scenes from the infancy and youth of my native city."

The pictures represent Toronto at four different periods in its history. 1. York (now Toronto) in 1793, showing the original buildings of the Old Fort, and the north side of the bay, east of the Old Fort. This picture is taken from two original drawings made by Mrs. Simcoe, wife of the first governor.

2. This picture was presented a year ago. It represents York (now Toronto) and is from the original drawings made by Mr. Irving, an artist residing in the city at that time, the picture being taken from the Lighthouse in 1842. This picture represents Toronto in 1842, from the original drawing made by James Cane. He was a surveyor and artist, and at the same time made a plan of the city. This picture was taken from about the centre of the bay.

4. This is a reproduction in oil of the original drawing by Whitfield, in 1854. It is a very accurate drawing. At that time St. James' Cathedral had no spire. It was erected some years later, but Whitfield, as the architect, placed the spire in his picture. The spire was erected about 1860.

The board of control accepted the gift and will forward a formal letter of thanks to the donor.

NOT GOVERNMENT OFFICIAL INDEMNITY CAN BE TAXED.
Kingston, June 5.—The assessor of Gananogue assessed as income the seasonal indemnity of George Taylor, M. P. Before the court of revision Mr. Taylor held that the Ontario government has no power over the salaries of government officials, but the assessor's counsel, says Mr. Taylor was sent to parliament by Leeds County and is in no sense a Dominion official. Taylor will take the appeal to the county judge.

In Pitiable Plight.
Bowmanville, June 5.—The police magistrate, after hearing the evidence of Mrs. Torriff and the little girl, Mary, who was assaulted by the orphan lad, William Cole, and of Dr. Putter, committed the boy for trial at Whitby.

The boy evidently did not consider how heinous is the crime with which he is charged.

When the magistrate spoke of sending him to jail he broke out and wept as if his heart would break. He has been a good boy.

GIVE OPPOSITION LEADER POWER TO NAME SENATORS

Senator Ferguson Submits Proposal to Mend Much Abused Upper Chamber.

Ottawa, June 5.—(Special.)—In the senate to-day Hon. Senator Ferguson resumed the debate on senate reform, and proposed a scheme of reorganization, fixing the age limit at sixty and giving the leader of the opposition power to select senators in proportion to the voting strength of his party at the preceding general election.

Hon. Mr. Ferguson said the action of the senate in defeating the Teslin Lake Railway bill of 1898 was not open to criticism. No reasonable man would today open his mouth in defence of that measure. In defeating the redistribution bills of 1899 and 1900, the senate had performed a valuable service and established a wholesome precedent. Hereafter no government would dare to interfere with the representation of the people in the house of commons, except in the way and at the time prescribed by the British North America Act. In the thirty-nine years of confederation there have been two crises in the history of the house and no bill was defeated a second time, except the redistribution bill. Indeed, the experience of that period in Canada affords a magnificent example of the successful and harmonious working of British parliamentary institutions. If any criticism of the senate is deserved, it is on the ground that in the periods between 1878 and 1896, and between 1901 and 1906, the majority being in sympathy with the administration of the day, was too acquiescent, except in the case of the redistribution bill. In the federation debates, the real danger lay in the senate being too much in sympathy with the popular feeling of the day has been to some extent verified by results.

Useful Body.
It was unfair to minimize the usefulness of the senate, because it did not loom as largely in the eye of the press and the people as the house of commons. The control of supply, which is a matter in the British system rest with one house, and that the more popular one, gave more work and prominence to the commons. That the senate, in the house of commons, cannot make or unmake an administration, is a wise limitation, and forbids the senate from becoming the arena for the keen struggle constantly occurring in the commons. The lack of necessity for senators to talk for the electors adds to the value of their deliberations, although those deliberations are thus made less attractive to newsmongers and active politicians. It is a favorite pastime with some of the members of the commons to indulge in criticism of this chamber. Without any desire to be disrespectful, he would quote Edmund Burke's simile: that because a half-dozen grasshoppers under a fern render the air vocal by their incessant chirping.

its committees into the deliberations of the senate.

Real Defect.
The real defect in the senate was due to the weakness of government in making appointments to this house, a sole matter of party patronage. The evil of this practice became intensified when administrations are long-lived. At the close of the Conservative regime in 1896 the senate had become overwhelmingly Conservative, and a somewhat similar state of things will prevail at the end of this parliament, with the state of parties reversed.

He did not think that any method of senate reform would greatly improve the persons of that body which stood admittedly high. A better apportionment of work between the two houses, and proportionate representation in the senate supply a complete program of reform. He did not think that Sir Richard Cartwright's suggestion of a compulsory introduction of private bills in the senate would increase the work of the upper chamber nor materially lessen the influence on the part of the press in the criticism of these departments and in dealing in the first place with public bills affecting them. That the senate should effectively discharge its duty in respect of public business coming before it is often taken for granted by the press. Greater diligence on the part of the press in following the work of the senate would remove this misapprehension.

He had no hesitation in saying that the senate furnished an excellent sphere of activity for an industrious man. Proportionate representation of the two parties in the senate was the theme of Sir Richard Cartwright's speech, but the remedy he suggested would not remove, but rather perpetuate the evils complained of. A limited tenure was a principle which he could not assent. He quoted the views of George Brown as expressed in the confederation debates against a limited tenure. Mr. Brown argued that with a nine years' term the independence of a senator would be gone for the rest of his life. He agreed with Sir Richard Cartwright that the senate was already too many elections, and quoted the opinions of Sir John Macdonald and George Brown that an elective upper chamber had not fulfilled expectations in the old Province of Canada. There was a danger of the senate becoming unwieldy when the west became filled with a large population. Any reduction must be effected with regard to the sectional basis agreed on at Confederation.

He was strongly opposed to the choice of senators by the provincial legislatures. It would introduce a rigidity and positive corruption into the legislature. Besides if the choice was made in that way, the strength of the popular vote in any province would be somewhat obscured. The nomination of 24 to remain in the crown, the other 48 to be elected by the provincial legislatures, was a moderate and equitable compromise. All new appointments or elections to be on a twelve-year tenure. The scheme will not be likely to take effect in any case before the end of the present parliament.

While Sir Richard expressed a strong dislike of disproportionate representation, his scheme would certainly effect a complete gerrymander. Mr. Ferguson then submitted the actuarial calculations in support of his contention. The present group of Conservative senators were nine years older on an average than the Liberal group. The present Liberal majority with all vacancies filled in, is 29. From experience and mortality tables that majority will in three years be increased to 30. It is assumed that each party might receive accessions in equal numbers, from the provincial legislatures, while the party in power in Ottawa would fill all the nominative seats. Assuming the Conservatives obtain power at the next election, which they are almost certain to do, and continue in power until 1921, the numbers would stand 48 Liberals to 29 Conservatives. This would be proportionate representation with a vengeance. Should the Liberals remain in power after the next election the senate would in 1921 consist of 16 Conservatives to 57 Liberals. With any change in the constitution of the senate the Conservatives would secure an equality in the senate in six years after the next election, assuming they obtain power in the meantime. Sir Richard's scheme would consign them to a hopeless and perpetual minority for 20 years irrespective of the vote of the federal electorate.

Mr. Ferguson's Proposal.
Mr. Ferguson then proposed to submit a counter proposition, declaring that he spoke for himself only. He would retain the principle of a life tenure and appointment by the crown. The age of entrance (30 years) was certainly great enough. Out of nearly 300 appointments made since confederation, only 15 people had been summoned were under 40 years of age, and he doubted if a single senator had been called at a younger age than 35. He would put an age limit at the other end, providing that no senator should be summoned who was over 60 years of age. He believed that the measure approved by the country, in giving the leader of the opposition a status of constitutional right, would be a good constitutional function of the senate. The qualifications of the senators selected, and as the popular vote in the country is always close between the two parties, the universities would advise the governor-general with regard to the issue of patents, but he would have to accept the nomination in the proper proportions, from the leader of the opposition and the universities.

Fair to Both Parties.
The plan would supply an upper chamber absolutely fair to both parties and which the government could not count on to measure the merits of a bill. It would be sure to contain a sufficient number of fair-minded men to give any administration a proper scope in the conduct of public affairs. He was not sure that this scheme could not be adopted, retaining our present number of senators. The British North America Act, but simply by joint resolutions of parliament. It would be constitutional, maintaining the British recipe: Trial and successful repetition.

We would then import into Canada from Great Britain, Mr. Ferguson's idea of a nation's "where freedom slowly broadens down from precedent to precedent."

SEWERAGE AND WATER WORKS
Provincial Board of Health Will Receive Reports on Schemes.

Dr. C. A. Hodgetts, secretary provincial board of health, has received a number of plans of municipal water and sewerage systems upon which he will prepare a report after visiting various municipalities. This report will be acted upon by the board at its July meeting. Under the provisions of the act, the nature must be approved by the board. Chesley, in Bruce County, proposes a water system by means of an artesian well, and Bradford, York County, intends to expend \$20,000 on a water system from wells. Picton, Prince Edward, has a scheme for approval, for the establishment of water and sewerage systems.

The Town of New Liskeard proposes a water supply and sewerage disposal scheme, which Dr. Hodgetts looked into when in New Ontario last week. The doctor visited Watson's Falls and the Walsh River, the proposed source of supply, but decided that the water there was not good, and it is now proposed to tap springs in the Township of Harris, two miles from the town. These are capable of giving 1,500,000 gallons a day. An analysis of the water is being made. The town of New Liskeard has a modern water system, either from Lake Temiskaming or springs.

WANTS MARITIME BRANCH.
Carvell, M.P., Thinks G.T.F. Should Compete With I.C.R.

Ottawa, June 5.—The Grand Trunk Pacific Branch Lines Company was up at the railway committee to-day.

Mr. Biggar, solicitor of the G. T. F., said that the company was required to finance the branch lines bonds, which could be floated easier under the guarantee of the G. T. F. than otherwise. Mr. Carvell, Carleton, said that he wanted to see the minister of railways present before the bill was proceeded with. He was opposed to the Northern New Ontario's great clay belt, the famous silver mines of Cobalt, and to the great fish and game preserves of Temagami and the Montreal all G.T.R. and C.P.R. trains. Through sleepers from Suspension Bridge, Montreal, Ottawa and Toronto, and connections made with all steamboat lines or other means of transportation running in this great mineral and agricultural belt of the north. See the T. & N. O. Railway folders and the latest map of Ontario's great hinterland. For further particulars apply to any agent of the G.T.R. or C.P.R., or to W. D. Cunynworth, freight and passenger agent, North Bay, Ont.

Cunynworth, freight and passenger agent, North Bay, Ont.

BOY ACCEPTS CHUM'S DARE LEAPS INTO WHEAT; SMOTHERS.
Lancaster, Pa., June 5.—Walter Leiser, 9 years old, accepted a dare from his chum, William Short, 12 years old, but it brought him death in a frightful form. The boy was playing on the third

floor of a grain elevator at Ephrata when Short dared Leiser to jump into a bin which holds thousands of tons of wheat. The boy jumped, ignorant of the tremendous suction, which slowly drew him down as in a quicksand. Men succeeded in reaching the boy, half buried in wheat, but the suction was so great they were unable to pull him out. The lad slowly disappeared until he was buried, while his father stood by helplessly.

Summer School Topics.
The following syllabus has been decided upon for the course of ten lectures on Sunday school organization and management at the summer school in Victoria College, Toronto, July 9 to 21: origin of the Sunday school, its development amongst the Jews and in the early Christian church; the evolution of the modern Sunday school; the Sunday school in relation to the home, and the church; the organiza-

tion and grading of a Sunday school; departments of Sunday school effort, for example, missions, temperance, etc.; officers and their relations; the teachers and their duties; the students and their work; the primary department; lectures will be furnished on application to J. A. Jackson, B.A., general secretary, Ontario Sunday School Association, 99-100 Confederation Lane, Toronto, Ont.
