Lady Grey, accompanied by her good deal lately about the high price tea has been fetching in all the large markets of the world, and that for this reason many Canadian package tea houses have been compelled to withdraw their 25c tea from the market, stating they cannot supply the same quality to the public, except at advanced prices.

We take this opportunity of bringing before your notice that we still have our 25c tea on the market, for those who require a priced package, with the same excellent quality as in the past, with no extra cost to your grocer. We are able to do this, in spite of the present conditions, because we have facilities for buying that our competitors have not. We also have higher grade teas to offer than any other package tea house.

Blue Ribbon Tea is sold in air-tight lead packages at the following prices: 25c, 35c, 45c, 55c, 65c, 80c, \$1 in black, mixed and green.

School Accommodation is Inadequate—County Council Meet Next Week—Items.

WEST TORONTO, June 2.—In the police court to-day, James Sullivan was committed for trial by Magistrate Ellis on two separate charges. One was that the accused, in company with Michael Martin and John Kelly, broke into McKee's store on Wiloughby-avenue, on the night of March 17. The second charge was that on March 15 Sullivan broke into Mrs. Lee's house on West Floor-street, and stole about \$300 worth of jewelry, while the family were at church. It will be remembered that Sullivan, in trying to evade capture by the police on the night of his arrest, was shot in the leg by Sgt. Peters, and as a result spent several weeks in Grace Hospital.

Don Valley Band Have Acquired an Envious Record.

DONCASTER, June 2.—(Special.)—If there is one feature in and around Doncaster which more than another appeals for general recognition, it is the local brass band. The Don Valley Brass Band, as a musical organization, the banded together for only a short time, have already attained high standing as a high class musical company. George S. Rose, the leader, has gathered no less than 24 players, and the music furnished at their last public appearance, on Wednesday evening last, was a delightful treat to the residents. They are now open for engagements for social, garden parties or other functions, and this fact only needs to be known to ensure a large clientele.

BALMY BEACH.

Fair Gathering Listens to Number of Good Speeches.

BALMY BEACH, June 2.—The fair sprinkling of the free and independent electors of Ward 1 to-night at the meeting called in the interest of Alex. McCowan, A. J. Russell Snow presid- ent, and on the platform were Mr. McCowan, A. R. Harvie, Mr. Gardiner, H. H. Ball, Alf Kelly Evans and others.

Mr. Evans made an excellent but somewhat lengthy address on the political issues of the day, and incidentally touched on his favorite theme—fish and politics.

A. R. Harvie aroused considerable enthusiasm in his treatment of the liquor objection. The Whitney Government had boldly faced the temperance peo- ple and plainly stated their position, unlike the Ross administration, which had said to the farmer, "I am with you," and to the liquor interest, "I am with God's sake hold me back."

Dr. Walters, Mr. Gardiner and Mayor McMillan made capital the short ad- dresses.

Alex. McCowan was greeted with a volley of applause which left no room for doubt as to the warm place occu- pied by the Conservative candidate in the hearts of the electors. To speak briefly, but to the point, and was as- sured of a large support.

PROSPECTS ARE GOOD.

Mr. Simmers Sees in the Outlook Cause for Good Cheer.

Through the length and breadth of York County the prospects for an abundant harvest, tho far removed, are most encouraging, and farmers generally are buoyant over the out- look.

The season, tho remarkably late, bids fair to be abundantly atoned for in the delightful weather now prevail- ing.

Anton Simmers of the J. A. Sim- mers Co., the wholesale seed mer- chant, is greatly impressed with the outlook generally. To The World last night Mr. Simmers said: "The exces- sive moisture is producing a remark- ably rapid and soft growth of alisk clover, and the results, if the weather does not soon clear, may be serious. Fine weather from this time would insure a great crop. Red clover during the fast winter had shown about an average. Season Farmers are still buying field and garden seeds in large quantities, and the sale of corn of all the best standard varieties Mr. Simmers reports as very large. The fact that the institute meetings have impressed upon the members the ne- cessity for greater care in the keep- ing of seed corn Mr. Simmers regards as largely responsible for these con- ditions. Taken altogether Mr. Sim- mers is optimistic and looks for a bumper year in all departments of agriculture.

How Women Can Keep Themselves Cheerful

Women live indoors; they exercise little. They need laxatives more than men. Their headaches, their dull days, their "blues" are generally due to the bowels. Such conditions are wrong because they are unnecessary. One Cascaret—taken just when you need it—sets everything right. One candy tablet ends completely most of our minor ills. Cascarets are so gentle, so natural, you won't yourself if you don't take them. They are not like salts and pill cathar- tics, which injure the stomach and bowels. They are not like harsh physic, followed by griping and pain.

WRIGHT FOR WEST TORONTO.

If the Whitney-Beck power policy be the determining issue of this election then it is by their attitude towards it and towards the general principle of public ownership and operation of all franchise monopolies that the candidates should be gauged. More particularly is this necessary when, as in West Toronto, there are two Conservative candidates, one nominated by the machine and the other running on the independent ticket. Both support the government, and both profess allegiance to the movement for cheap power and for protection of the provincial resources and services. But while Mr. McPherson's record is blameless of any effort to aid the cause of public ownership, Mr. Wright has been long acknowledged to be one of its foremost and ablest advocates. And because there is no greater or more important question before Ontario and its cities than the call for public ownership and operation of all franchises Mr. A. W. Wright is emphatically the candidate best entitled to the suffrages of the voters of West Toronto.

Appeals are being made to the Conservatives of West Toronto to support Mr. McPherson because he is the nominee of the machine convention. This in the circumstances is not a recommendation, but very much the reverse. Every one knows that the machines and their methods have evoked wide, deep and justifiable resentment among the intelligent and self-respecting section of the constituencies. The men behind the machine do the real nominating and their favorites are selected without any pretence of effort being made to ascertain the mind of the electors who are to be representative in the legislature. Mr. Wright very properly refused to attend the convention that arrogated the right to make an exclusive nomination and the electors have now an admirable opportunity to assert their own independent right to be heard in the selection of a candidate. They have good reason to resent a system that requires, from them only that kind of party loyalty which uncompromisingly accepts whomever the machine operators thrust upon them.

In the years that are coming the conservation of the provincial and civic resources, services and utilities is a matter that will inevitably and rapidly increase in importance and urgency. Premier Whitney in the Niagara power policy has entered upon a course that cannot end with its immediate object. The appointment of the hydro-electric commission and all that has followed upon it, involves the acceptance of the principle of public ownership. But the struggle for public rights is not over—the outworks of monopoly have been carried—the citadel has yet to be taken. In Mr. A. W. Wright the citizens of West Toronto, and Toronto itself will have a powerful, fearless and able advocate of cheap and efficient civic services and utilities conducted for the common good and protected from manipulation by franchise hunters and high financiers. Mr. Wright stood for that great issue in days when it was the butt of the baser sort of politicians and long before Mr. McPherson's belated appreciation, which indeed only the necessities of his present campaign constrained him to avow.

THE MINISTER OF AGRICULTURE

When the Hon. John Dryden demitted his office, the matter of selecting a new minister of agriculture for the province was not an easy one. For he was a good administrator of his department, with progressive ideas and fully seized of the importance of the farm in the economy of Ontario. His successor, therefore, undertook a task which any man would be pardoned for regarding as of exceptional difficulty since, of all the portfolios of the Ross government, none was held in higher esteem than that of agriculture. Indeed, many of John Dryden's friends affirm to-day that had it not been for his outside interests, his public usefulness would not have ended with the good work he did for Ontario.

To assume the wide and always breeding duties of this notable department fell to the lot of Samuel Nelson Monteth, B.S.A., member for the constituency of South Perth, a county favorably known as the home of thrifty but progressive farmers. Of Irish parentage, but brought up on the fertile soil of western Ontario and educated in its schools—possessed, too, of an extensive experience gained thru the honest and painstaking occupation of various positions of trust in York Township and County, Mr. Monteth brought to the agricultural department a receptive mind, proven ability and integrity, and an alert and thorough appreciation of the needs of Ontario's rural population. Too firm in character and temper to be stampeded by either friends or foes, and like the master general, carefully reconnoitering the ground before advancing into new territory, Mr. Monteth, quite early in his tenure of office, revealed marked talent

to grasp the situation and to develop a vigorous line of policy.

Premier Whitney's choice of a minister of agriculture has been fully justified. The machinery of the department is running smoothly and harmoniously, and the action taken has been in accordance with advanced agricultural principles. Thru the educational work that has been undertaken, the youth of Ontario have been made, as never before, to feel that agriculture is a true service, honorable in itself and worthy the devotion of any mind. This alone is enough to stamp the head of the agricultural department as admirably fitted for his important post.

Without being an orator, Mr. Monteth brings to the platform a convincing note of honesty and faith in his work. The best interests of agricultural life always command his attention, and of these he has personal knowledge, since it is within the maple-bordered fields of his quiet paternal homestead in Perth that he seeks relief from the toils and worries of a political career. This is why the policy, which is making Ontario good enough for every farmer's son, has a director and champion in the Hon. Nelson Monteth. Perth will do itself honor by re-electing him, and agriculturists thru-out the province will rejoice to know that the same steady hand will continue to guide the department in whose affairs they are so intimately concerned.

THE STANDARD OF EMPIRE.

How shall four millions of people, resident in all parts of the earth, and yet subjected to one vast empire and one King-Emperor, come to know each other intimately and fully as a family? The answer is that every section of the British Empire must have complete and important news about every other section, distributed by one medium.

This is the idea that called into existence "The Standard of Empire," a new weekly periodical, on the scale of the great London newspapers, owned and managed by G. Arthur Pearson. The first number of The Standard of Empire is at hand, and a guarantee of its large policy and vital quality is the fact that the managing editor is W. A. M. Goode, a journalist of wide and successful experience in gathering and editing important news. Hitherto there has not been a newspaper which could in any sense be called strictly a British Empire journal. Every separate portion of the empire had its own peculiar newspapers. But if the first essential for closer union between the mother country of Canada, Australia, New Zealand, South Africa, India and the crown colonies and between one another, is closer intercourse by which all branches may see one another as they really are, then this can be best brought about by a newspaper common to them all. In a word, a common interest requires a common medium of expression and communication. This is the large and vital policy that animated "The Standard of Empire."

Judging by the first number, just received, the quality of the paper and its responds with its splendid policy and ideals. The leading articles are by such empire builders and statesmen as Lord Milner, who writes a strong and stirring article on "The Meaning of Wider Patriotism," and the Earl of Meath, promoter of the Empire Day Celebration, who writes on a timely and apt subject, "The Danger of Apathy and Ignorance." There are other striking articles by Sir Gilbert Parker, M.P., A. Bonar Law, M.P., George F. Shee, secretary of the National Service League, and other well-known writers in his inimitable style on the "Tentative of Quebec." Further, there is special news from all the colonies—everything fresh, brilliant, readable, instructive and entertaining.

CANADA PERMANENT MORTGAGE CORPORATION.

Notwithstanding the disturbed financial conditions, as a result of its last year's trading, the Canada Permanent Mortgage Corporation has been able to increase its dividend to seven per cent. Monetary troubles are not necessarily harmful to the interest of loan companies, but their existence calls for added care and caution in the conduct of business, and the shrewd management that can gain such excellent returns. The profitable character of the transactions and the high standing of the Canada Permanent are sufficiently certified by the statement just issued. It shows the net earnings for last year to be \$68,250, and as only \$420,000 is needed to pay the advanced dividend, a substantial balance remains for other purposes. The paid-up capital of the corporation now stands at \$3,000,000; its assets

The Mistake of the Big Steak

By HERBERT KAUFMAN.

Watch out for waste in circulation. Find out where your story is going to be read. Don't pay for planting the seed of publicity in a spot where you are not going to harvest the results.

The manufacturer of soap who has his goods on sale from Oskaloosa to Timbuctoo doesn't care how widely a newspaper circulation is scattered. Whoever reads about his product is near to some store or other where it is sold—but you have just one store and it is in Chicago.

Buying advertising circulation is very much like ordering a steak—if the waiter brings you a porterhouse twice as big as your digestion will take care of, you've paid twice as much as the steak was worth to you, even if it is worth the price to the restaurant man.

It is not the amount of circulation that your advertisement gets, but the amount of circulation that gets people to buy.

If two newspapers offer you their columns and one shows a distribution almost entirely within the City of Chicago and in towns that rely upon Chicago for buying facilities, your business can digest all of its influence. If the other has as much circulation, but only one-third of it is in Chicago territory, the bulk of copies cannot establish its value to you—it's another case of the big steak—you pay for more than you can digest. That part of its influence which is concentrated where men and women can't get your goods after you get their attention is sheer waste.

By dividing the number of copies he prints into his line rate, a publisher may fallaciously demonstrate to you that his space is sold as low as that of his stronger competitors, but if half his circulation is too far away to bring buyers, his real rate is double what it seems. He is like the butcher who weighs in all the bone and sinew and fat and charges you as much for the waste as he does for the meat.

P.S.—Article No. 19 will appear in The World on Saturday, June 6.

World Office, Tuesday Evening, June 2. There was no increase in local speculation at the Toronto Stock Exchange to-day despite the buoyancy at other markets. The statement of the principal subsidiary of the Louisville and Nashville made public to-day is a very gratifying one.

Bullish operations are likely to be witnessed again in the stock market to-day. We would be more cautious in following them up.

The market opened wild, with great interest during the first hour, but was still in evidence on all breaks.

Snow's Report is Favorable for Growing Crop Chicago Markets Are Firm Despite.

World Office, Tuesday Evening, June 2. Liverpool wheat futures closed today 1/4 cent higher than yesterday, and corn futures unchanged.

At Chicago July wheat closed 1/4 cent higher than yesterday; July corn 1/4 cent higher, and July oats unchanged.

Chicago car-lots to-day: Wheat, 30; corn, 24; oats, 20; 200; last week, 20; year ago, 41.

Bradstreet's reports world's visible wheat stock decreased to 2,300,000 bushels last week, from 2,350,000 bushels.

The Iowa crop report says: The rainfall for the week was excessive, the total being above the normal in many sections.

A great deal of corn will have to be replanted, and, as a result, there is now nearly as large an acreage to be planted as there was last year.

The early planted fields are becoming very weedy, but the more favorable conditions which prevail during the last week afforded an opportunity to do some cultivating on high and well-drained lands, all small grains and grasses having made rank growth, but reports indicate that the condition is good, except on low land, where the grain is becoming yellow.

Snow's crop report for June 1 makes the average wheat standing for harvest, 20,422,000 acres, against 25,800,000 acres harvested last year.

The average reported as 85 against 90.9 per cent on May 1. During the month of May, there were some losses in Kansas and Oklahoma, due to weather and the growing apprehension of the injury from Russian fly.

Present condition favors a warrant a crop expectation of about 450,000,000 bushels; spring wheat acreage, 17,200,000 bushels.

The weather conditions have been exceedingly favorable, and the average corn is estimated at 83.5 per cent, against 85.5 last year.

COBALT DEMAND IS HEAVY FOR THE La ROSE CONSOLIDATED

MARKET OVERCLOUDED BY THE NEW ISSUE

LaRose Flotation Favored by Large Purchases on All Exchanges.

The successful flotation of the La Rose Consolidated demonstrates that Cobalt has come into its own.

It is in this camp that will give the public a square deal will be endorsed by the public.

The universal expression among those intimate with the camp and all former exploitations, is that the men responsible for the flotation and the original La Rose owners have given the friends of the camp a good opportunity to make public.

Without any flourish of trumpets and without ostentation, a market leader has been created that will help every shipping mine in the camp, the which is publicly held.

Conscious that an opportunity was being given to those who would get in early, to make money, the public was left to decide whether a mining proposition would sell on its own merits.

In New York the La Rose closed at 4 7/8 to 5 and 35,200 shares were sold there.

Boston absorbed probably 12,000 shares and interest in Cobalt has been again awakened on the curb in those cities.

During the past week the camp has maintained its record for steadily increasing shipments.

Eight mines shipped 459,235 tons of ore. The shippers are:

O'Brien, 127,400; Nipissing, 92,100; Trethewey, 62,420; Silver Queen, 55,515; Kinley-Darragh, 33,071; Conias, 31,011; La Rose, 30,000; and Drummond, 23,113.

George L. Walker, one of the owners and the managing editor of the Commercial, and the writer and publisher of "Walker's Weekly Copper Letter," is a recognized authority in the United States. He has been in Cobalt during the past few days making a careful examination of its leading mines. He made an impressive statement in stating yesterday his most emphatic in favor of the latest Cobalt market venture.

He also inspected the Silver Leaf. As a result he is very enthusiastic over this property's future.

Frank Burr Mosure.

A Deal in Cobalt.

Justice Magee will deliver judgment in the Curry-MacLaren mining case this morning in the non-jury court in the County Court.

The plaintiff is J. Walter Curry, K.C., and the defendants, Col. A. F. MacLaren, E. R. Clarkson, Hamilton, and James Curry, a mining broker.

In January, 1906, the defendants secured an option on mining lands known as the Peterson Lake Mining Property. This property was to be secured on a payment of \$10,000.

James Curry made a verbal agreement whereby the latter, by a payment of \$2500, was to secure a one-quarter interest in the property.

It was understood that the defendants had already made the payment.

Curry then acted as solicitor, in a deal whereby the syndicate were to turn over the property to the defendants.

The defendants, however, had a verbal agreement with Curry, limited, at a profit of \$125,000, and for which the defendant agreed to pay him \$7000.

The deal fell thru and the property was sold to the Peterson Lake Mining Co. The defendants received 600,000 shares of stock as profit.

Mr. Curry is suing for a portion of the stock of \$5000. G. T. Blackstock appears for defendants and Mr. Ferguson for the ex-crown attorney.

CONFIDENCE RETURNS

As the Wheat in the West Grows Higher.

WINNIPEG, June 2.—A remarkable feature of returning confidence, due to the exceptional crop prospects, is the number and volume of orders being wired down by Winnipeg and western jobbers to eastern wholesale houses.

This movement is quite unprecedented for this season of the year.

Fatal Tenement Fire.

NEW YORK, June 2.—Fire, which started in the basement of Mrs. Mary Mooney's boarding house, at No. 313 West 23rd-street, early to-day, completely cut off the escape of such persons as were in the building, and when the flames came one young woman had fallen or thrown herself from the roof to the pavement and was dead.

Other others were severely burned and at all the upper windows, front and rear, were men and women begging to be saved.

Moderately Priced

In our Ladies' Millinery Department we have put our best effort forward to be able to offer real, novel and exclusive ladies' hats at a moderate price.

We believe that there is no other store in Toronto that has succeeded in doing what we have accomplished in this regard. All the models used as examples were imported by our agents in Paris, and every hat has been made under the supervision of one of the best ladies' milliners in Canada.

This week we intend disposing of the beautiful stock now in the show cases at greatly reduced prices.

BELIEVER IN CANADA'S DESTINY SENDS \$10,000

Anonymous Correspondent Sends Cheque to Governor-General as Donation to Battlefields Fund.

A cheque for \$10,000 has been received by Earl Grey from an anonymous contributor from the Hotel St. Regis, in New York, and has been handed over to the Quebec battlefields commission.

The letter, which explains itself is as follows:

"To His Excellency Earl Grey, Governor-General, Canada:

"As a British subject, I admire the pluck and patriotism of the Canadians in the work of consecrating the historic battlefields of their country in a way to emphasize the genuineness of the entente cordiale so happily established between the two powerful races resident in the Dominion.

"It is now universally admitted that harmony and goodwill amongst its different races, especially in new country, constitute one of the greatest of national assets.

"If the spirit of unity, typified as it will be, in the course of celebration at Quebec, is perpetuated, Canadians must become a great and powerful people—a lusty nation.

"About this I seem to me, there can scarcely be two opinions, and of this observant outsider as perhaps better able to judge than Canadians themselves.

"Your patriotic efforts, sir, in connection with Canada's tercentenary celebration well deserve to be crowned with the success that is attending them, for every such effort exerts a powerful influence in the building of the national foundation.

"I believe it is a mistake to suppose that intelligent Americans are envious of Canada's prosperity and prospects. Americans look on at the preparations for your coming celebration with deep interest and good will and they will be with you in thousands in July.

"It is not an exaggeration to say that the eyes of a great part of the world are turned towards Canada at this time.

"If it will serve any good purpose to publish this letter, you are at liberty, Earl Grey, to do so.

"With profound respect and the best of goodwill and wishes I enclose my card and a cheque for ten thousand dollars, as a subscription to aid you in your battlefields plans, from 'A Believer in Canada's Destiny.'

FREE TO MEN UNTIL CURED.

All men, with very few exceptions, were made strong, and should be so through life. Many have abused this grand privilege and through disipation have become weaklings, puny, lack confidence, can't face the slightest difficulty, have drains, losses, impotency, vertigo, rheumatism, lame back, etc., and are mere playthings in the hands of their associates. How deplorable! But all these men can be made full of strength, vigor and life if they will only turn to the right source. Electricity cures these cases. I have been curing thousands every year for nearly forty years. So positive am I of what my world-famed Dr. Sanden Electric Belt will do that if you will call or send for one you can use it.

FREE UNTIL CURED. Not a penny on deposit or in advance. I will take your word for results, and only charge price of belt—many cases as low as \$5. My wonderful success has brought forth many imitations of my belt, but my valuable experience to day is free until cured. I also send two best books ever written upon health and strength of men. Free, sealed, by mail.

GEN. BULLER IS DEAD SERVED IN MANY WARS

Veteran Soldier Was No Stranger to Canada—Drove the Boer Army From Natal.

LONDON, June 2.—Gen. Redvers Henry Buller, who has been ill for some weeks, is dead. He was born in 1839.

Gen. Buller entered the army in 1858, and in 1881 he had risen to the rank of lieutenant-general. He saw active service in many parts of the world. He served in China in 1860, in the Ashanti war in 1874, in the Kaffir war, in the Zulu war in 1879; he was in South Africa in 1881, and in Egypt in 1882, and was present at the battle of Tel-el-Kebir; he also fought in the Sudan war in 1884, and was secretary for Ireland in 1887.

He became well known during the Boer war as the man who relieved Ladysmith. He was general commanding the forces in South Africa, and afterwards general officer commanding Natal. He conducted the operations for the relief of Ladysmith, which was successfully accomplished after an investment of 119 days, and subsequently he conducted the operations that resulted in the expulsion of the Boer army from Natal.

The late Gen. Buller, during his long military career, saw a great deal of service in Canada. He came out here with the 1st Battalion of his regiment, the 60th Royal Rifles, which came to Canada during the Fenian raid troops of 1866, and later accompanied the four companies of that famous corps, which formed part of the Red River expedition of 1870, under Lord Field Marshal Lord Wolseley. It was that expedition which first established the reputation of Lord Wolseley as a soldier, and it was also in the course of that campaign, with its wonderful record of the march of the Canadian and imperial troops thru the wilderness that then existed between Port Arthur and Fort Garry, that Buller first attracted the attention of Lord Wolseley.

Three years later, when Wolseley was selecting his officers for the Ashanti expedition, he remembered Buller and chose him as one of his staff on that campaign in West Africa.

In April Gen. Buller contracted a chill in London. This indisposition was followed by a severe attack of jaundice and other complications, recovery was hastened by his physician, and the turn for the worse was unexpected.

Gen. Buller married Lady Audrey Jane Charlotte, daughter of the fourth Marquis Townshend.

THE SORT OF STUFF THAT BULLER WAS MADE OF.

A. W. Wright was a sergeant with No. 2 Co. of the Ontario Rifles during the Red River expedition of 1870, and tells the following anecdote concerning Buller, who was with the 60th Rifles: At Thunder Bay a fatigue party were working building a magazine. The officer in charge was composedly smoking a pipe, watching the men do the work.

Captain Buller came up, and, without saying anything, took off his tunic, picked up a shovel and started in to help the men dig the trench. Afterwards the lieutenant started in to help, when Captain Buller stopped and said:

"I trust you will carry this out thruout the campaign. For it is necessary to carry the principle out if we are to have any chance of success."

Buller was for three years stationed at London, Ont., for the intelligence department, and made a thorough study of Western Ontario.

IN JOINT SESSION. International Waterways Commission Meets at Buffalo.

BUFFALO, June 2.—The international waterways commission began an important joint session here to-day. "The meeting was called," said George Clinton, one of the three members of the United States, "to consider the laying out of the boundaries which run thru the great lakes and the connecting rivers and channels from the point of the intersection of the international boundary line with the St. Lawrence River to Pigeon River. This work comes under the terms of the new treaty, which calls for a revision of the boundary line between the United States and Canada."

MANY FIXTURES OMITTED.

The city has filed further particulars in its statement of defence in the suit of Architect Lennox for balance due on the erection of the city hall.

Fixture work and electric wiring of Nov. 18, 1896, for which the city paid Bennett & Wright full contract price, now completely out of specification, it is claimed, and of 31 proper fixtures omitted, 18 were replaced by inferior substitutes.

T. & N. O. Advances.

Only 35 miles remains to be laid on the T. & N. O. Railway to reach the Grand Trunk Pacific route. A 400-foot bridge is being built at Driftwood, at a cost of \$42,500. Passenger traffic is lighter, but ore traffic is constantly on the increase.

Discount to Townships.

ST. CATHARINES, June 2.—(Special.)—Lincoln county council adopted a resolution to the effect that in future all townships paying the township rate before December 15th, will receive discount of five per cent.

Red River on Rampage.

TEXARKANA, Ark., June 2.—Several persons were reported to have been drowned, hundreds of others are marooned, and thousands of acres of cultivated lands are under water, as a result of an almost unprecedented rise in the Red River.

The crest of the flood should pass to-day.
