

# A Luncheon Plot!

Taking advantage of the reduction in duty on English Goods, we intend in future handling English powder exclusively, as we can now sell a high grade English powder for the same price as a poorer American article. To make room in our magazine for our new stock we are closing out the balance of our AMERICAN DEAD SHOT at very special prices in 100-lb. lots.

Write for Particulars.

### OCTAGON WON THIS DERBY.

The Favorite Scottish Clubman Among the Also Names-A Heavy Track at Gravesend.

New York, June 10.—There was a heavy track at Gravesend today and the showers which came occasionally did not improve the conditions. The attendance was fairly good, but not so heavy as might have been looked for on a Friday day. The Octagon Club, which was the favorite, won the race, which was the Brooklyn Derby, at 3 1/2 miles, with Scotty Clubman, winner of the Belmont, as the favorite. The Octagon Club, which was the favorite, won the race, which was the Brooklyn Derby, at 3 1/2 miles, with Scotty Clubman, winner of the Belmont, as the favorite.

### LACROSSE IN THE C.L.A.

Orilla Takes a Championship Game From Barrie by 8 to 3.

Orilla, June 10.—The first scheduled lacrosse match in the northeastern district was played here today between the old time rivals, Barrie and Orilla, which the latter won easily.

# THE SCHOOL SETTLEMENT.

Senator Landry Wants to Know About It.

SIR OLIVER PARRIED HIM.

Government Has No Further Announcement to Make About It.

Senator Mills Pointed Out How English May Be Made of It in Regard to the Alaska Boundary—Sir Oliver Mowat's Interest Bill Passed Third Reading—Criminal Code Amendment Act Subjected to Some Tinkering—Tramps Who Carry Guns Are to Be Whipped—The Senate Proceedings.

Ottawa, June 10.—(Special.)—In the Senate this afternoon Senator Mills called attention to the unsuitability of the premises in the west block, which, until the recent fire, were used for the archives department. The editor in which the archives had been kept, he said, was damp and inconvenient for those wishing to examine the old records.

Senator Scott said that the records had not in any way suffered from the recent fire. They were now in the vaults of the Langavon block, and it was the intention of the Government to place them in rooms on the second floor of the building, which were not only fire-proof but were well lighted and accessible.

Senator Mills and Sir Mackenzie Bowell thought records of such value should be provided with a suitable and separate building.

The school settlement.

Sir Oliver Mowat asked as to the truth of the report from Winnipeg that an understanding had been reached between the school law and Premier Laurier and Premier Greenway regarding the future attitude of the Catholic authorities towards the school law; that Catholics would allow their schools to come in under the school law, and that the school law would be enforced nominally with regard to teachers' certificates and Government inspection. Senator Landry wanted to know whether any conference had taken place between the school law and Premier Mowat, at which any such understanding was agreed to.

Sir Oliver Mowat said the report was not correct. The Government had no further announcement to make as to its views or policy on this question. Any conference which had been held was between individual members of the Government and other parties, and was confidential.

Alaska Boundary.

Senator Mills called attention to the fact that Bartholomew and Keith Johnson, the English map publishing firm, in recent maps issued, had followed the United States contention in laying down the boundary line between Alaska and Canada. He pointed out that when the southern boundary of British Columbia was in dispute the United States had done as an argument for settlement of the question the fact that the British map publisher, had issued a large globe on which the United States contention in that instance had been followed. It was afterwards ascertained that the globe in question had been prepared at the request of the American Minister in London for use in the United States, in order to present a repetition of such an occurrence, he thought the attention of the Imperial Government should be called to the fact that British geographers in this instance had failed to follow the British contention regarding the Alaska boundary.

Sir Mowat issued by them, and that Canada had been robbed of a large amount of territory which by right ought not to have been given up. He said that the United States, through false and misleading maps placed before the public, had been misled.

Senator Scott said he would bring the matter to the attention of the Government. A protest had already been made by the British Government against a proposal made in the United States to establish an arbitrary point, according to their contention, from which the boundary line should run from Mount St. Elias.

Sir Oliver Mowat's bill to amend the Companies Act, permitting companies incorporated under Federal charter to borrow money on promissory notes guaranteed by the company, was passed through committee and stands for a second reading. The bill is intended to amend the Act respecting interest was read a third time.

Criminal Code Amendment.

In committee on the Criminal Code Amendment bill the clause designed to suppress Art Union lotteries, such as those in Montreal, was adopted. An amendment to the present law, making it an indictable offense with two years imprisonment for anyone to bring into Canada any girl or woman whom he had seduced elsewhere, was rejected. A clause was added to the law providing for the punishment by whipping of a tramp found guilty of entering dwelling houses at night with intent to commit indictable offenses, provided offensive weapons were found on their persons.

The clause restricting race meetings to twelve days was adopted despite the efforts of Senator Casgrain of Windsor to have it extended to 20 days.

The committee rose and reported progress and asked leave to sit again.

A Young Healer.

John J. Heal, the 18-year-old son of Charles Heal, of the high level pumping station, on the recommendation of Mr. H. P. Dwight, been awarded the bronze medal of the Royal Canadian Mounted Society for bravery in saving the life of a young man of Greenwood, who fell into the old pumping basin at the high level pumping station.

A Serious Allegation.

Frank Swersey, a youth who is supposed to be half-witted, was arrested on the 10th land yesterday by P. G. Johnson, and brought over to No. 1 Police Station. It is alleged that Swersey, Fisher, an Island workman named James Mullaney and stabbed him in the arm.

John Ross in Line.

The Independent Liberal, who represents East Toronto, was seen struggling with a bicyclist on Sherbourne-street last night.

# IRELAND'S SONS AND DAUGHTERS.

Sense of Loyalty Enthusiasm Yesterday—Benevolent Protest against Various Interferences—Officers Elected.

The Sons and Daughters of Ireland Protestant Association resumed their labors yesterday morning at 9 o'clock in the hall after having met on the previous day until midnight. Bro. J. M. Dixon, Past Grand President, was in the chair in committee of the whole.

The various reports from retiring Grand President Bro. James Steele, Grand Secretary J. S. Robinson and Grand Treasurer Bro. Alex Douglas were received and adopted.

Since the amalgamation a new order of lady associate officers has been introduced, and it has been decided that they have full powers to vote with other members of the executive.

A special committee has been appointed to revise the constitution and laws in conformity with the new order of amalgamation.

A Loyal Demonstration.

The Jubilee Committee presented a draft report of their address to Her Majesty Queen Victoria, and upon the reading and adoption of the same, a resolution, filled with loyalty to their sovereign, immediately rose to their feet and declared their devotion by the National Anthem.

Moved by Bro. A. F. H. Woods, seconded by Bro. William J. Wadsworth, the political complexion of our Canadian life has been recently soiled through the introduction of the educational system of our sister province, Manitoba, by an endeavor on the part of the Government (which Government has been taught the practical lesson of defeat) to force upon the province a system of separate schools.

It was pointed out that the introduction of the delegate of a foreign potentate in the person of Mr. Merry, Grand Secretary of the Dominion, or political destinies of the country at the invitation of the present Government, but were well lighted and accessible.

Therefore, he resolved, that this convention here assembled, representing, it does, the loyalty of 25,000 loyal, independent Irishmen, protest against the action of this Government in permitting British influence to spread in this truly British colony, and that a copy of this resolution be forwarded to the daily press and to the Orange Sentinel for insertion.

General Thanks.

It was motioned, seconded, and carried, "That the thanks of this convention be tendered to the Mayor and the City Council for their courteous and generous treatment of the visiting delegates, and that they heartily inaugurate the delightful views furnished, and the magnificent views obtained of one of the best residential cities of this continent."

Bro. Ald. F. H. Woods was instructed to convey the same as above.

Officers Elected.

The election of officers was then proceeded with, and was enthusiastically received. The following results: Grand President—M. A. Harper. Grand Vice-President—Alex Douglas. Grand Secretary—W. J. Wadsworth. Grand Treasurer—W. J. Dunlop. Grand Chaplain—Rev. J. C. Madill. Associate Grand Chaplain—Sister Mrs. Stewart.

A BREAK IN THE STRING.

The Torontos Lost a Game to Providence.

THE SCORE WAS 10 TO 5.

They Made Many Runs, Hits and Errors on Both Sides.

Champions Play Again To Day on the Island Diamond—Robuster, Syracuse and Buffalo Also Win—Maple Leaf Beat London and Madocks' Men Lost a Game at St. Thomas.

The Toronto Baseball Club had an off day and Providence was allowed to break the winning spell yesterday on the Island diamond. It was the finest afternoon of the year and there was a splendid and well-attended crowd. Irwin's men started out in winning form and had two runs across the plate before the champions settled down to business. The visitors sent up only one new man of their traveling combination, and he pushed Williams' hit did it. The score on the field was 10 to 5 in favor of the home team. The Toronto team was composed of the following: half the diamond crew, and the islanders ran in the year. Tom Rogers, sacrifice hit, a base on balls and White's weak attempt to steal. Rogers' hit did it. They ran away with two more in the sixth on two singles and Williams' hit did it. They ran away with two more in the sixth on two singles and Williams' hit did it. They ran away with two more in the sixth on two singles and Williams' hit did it.

Table with 2 columns: Player Name and Score. Includes names like Lush, Cooney, Williams, and scores for various players.

Providence... Toronto... Score: Providence 10, Toronto 5.

Providence Again To-Day. Toronto and Providence meet again today on the Island diamond at 4 o'clock.

NATIONAL LEAGUE table with columns for Team, Wins, Losses, and Games Played.

THE TORONTO FOOTBALL CLUB. The Toronto Football Club will practice to-night at Jesse Ketchum Park.

GOLF AT ROSDALE. On the Rosedale links yesterday afternoon the married and single ladies played a game of golf.

IT WAS HUGHES AND HALLAM

Who Made the Break About Jubilee Games.

BUT IT'S ALL FIXED UP NOW

Public and Separate School Children Will Compete Together.

The Mayor Helps His Friend Hallam Out of a Bad Hole—Inspector Hughes Opposed to Competition Between the Public and Separate School Children—Tenders for Coal Awarded—Civic Officials Who Want an Increase of Salary.

The citizens generally were well pleased to learn that arrangements were made yesterday for the children of the Public and Separate schools to compete together in the games on Jubilee Day at the Exhibition Park, instead of having separate games for each, as was foolishly decided upon at the meeting of the Jubilee Committee on Wednesday. The announcement in The World of the decision to hold separate games brought forth protests from hundreds of citizens, and yesterday afternoon a sub-committee of the Jubilee Committee met to consider the question. Public School Inspector Hughes and Separate School Trustee Ryan were also present. The Mayor said that in his opinion it would be most objectionable to hold separate games. He was in favor of a proposal which would meet with the approval of the citizens generally. He proposed to know why it was proposed to do so.

Inspector Hughes explained that the games were held for the Public school children every year. This year it was proposed to hold them on the 20th inst. They were held for Jubilee Day. The Mayor said that he had never understood until a day or two ago that there were to be separate games. He said that he had never understood until a day or two ago that there were to be separate games. He said that he had never understood until a day or two ago that there were to be separate games.

PORT ARTHUR WILL GROW

The Thunder Bay Town Has a Great Future

AS A BIG MINING CENTRE

Thriving Port of Upper Lake Navigation and Its Surroundings

Mineral Deposits of Great Value to the East of It and to the West of It and North of Thunder Bay, All of Which Will Bring Business—Some of the Valuable Properties—The People of Port Arthur Have Faith in Their Surroundings—A World Man's Investment.

Port Arthur, Ont., June 10.—(Special.)—As conductor of the mining department of The World's news columns, I have, for upwards of a year, from after devoted considerable attention to this western mining country, but until I came and began to enquire for myself I had no proper idea of the extent or possibilities of the region, or of the important part likely to be played by Port Arthur in the development of the several mining districts with which it is surrounded.

In a series of letters, to be dated from this point, and of which this is the first, I propose to take up the different sections of the surrounding country, with a view to giving the eastern public an idea of their resources and of the development going on in each.

Port Arthur has been long known as a shipping and business centre, and some years ago it came forward as the capital of the local silver mining industry, but now it bids fair to surpass itself as a distributing point for the various gold mining districts in its vicinity.

As I have been here for only a few days, I have not yet had an opportunity of visiting any of the mining sections referred to, but, from all accounts, the present summer will see a great amount of development east and west, and some possibly north of this town.

British East of Port Arthur. In the first place, a few words might be said regarding the possibilities of the region lying to the east. At Jackfish and Schreiber during the last couple of years a number of promising gold-bearing veins have been discovered, and the outlook is that before the end of the season some very good properties will have been partially developed.

Another promising property is the Ontario, which is being developed by the Ontario and Schreiber. This was discovered late last fall, and at present the owners have a gang of men at work stripping and cross-cutting the vein, and assays made of samples of ore taken from the prospect run, I am told, on an average \$30 to the ton in gold. The work on the Ontario and the Empress has been succeeded by active prospecting in all the surrounding country, and, as a result, locations have been taken up for several miles in all directions, both in the neighborhood of Jackfish and Schreiber.

Half way between here and Schreiber is the Neponitan district, in which, though no actual development work has been done, promising deposits of gold, silver and marble are said to be found.

On Black Bay, in the same vicinity, are said to exist large lead deposits, and on Black Sturgeon River, near by, deposits of iron. These remarks may be taken as a preliminary review of the situation immediately east of here, and to be supplemented in detail in the course of the following articles.

West of Port Arthur. To the west of Port Arthur lie several mineral areas that are already pretty well known in Eastern Ontario. These include the Shebandawan, Atikokan, Upper and Lower Seine, Saw Bill and Hawk Bay, Manitow and Wabigoon districts. Each of these is very readily accessible from this town.

In the Shebandawan region so far little development work has been done, but several Port Arthur and Toronto companies have taken up a number of locations near Lake Shebandawan, and, according to all accounts, the prospects for developing paying mines in that district are good.

Mr. H. H. Fraser, M. P., of Toronto, is just in from Shebandawan to-day, and he talks in very glowing terms of the outlook there. The Shebandawan country is very easily reached from Port Arthur, as a steamboat service has been established on Lac des Mines, connecting St. Armand, on the C. P. R., with the height of land, 12 miles to the south of which are located the prospects referred to. This steamboat service, by the way, also furnishes ready communication with the Atikokan from range and the Seine River and Saw Bill countries.

Another convenient route into the

Saw Bill or Upper Seine country is by way of Bonheur. At present the journey is from Bonheur to the Saw Bill, Hawk Bay and Hammond Reef gold mines is made by canoe and a series of portages, but only a couple of days ago the Government road commissioner left here with 110 men and a number of teams to build a road into these properties. The construction of this thoroughfare will, of course, facilitate the transportation of supplies, accelerate the development of the district and generally benefit it by bringing it within easy reach of civilization.

Lake Harold District. Half day's journey by canoe from the Saw Bill mine brings the traveler to Lake Harold, in the neighborhood of which a number of properties are now being actively worked. A day and a half's journey further down the Seine brings one to Mine Centre and Seine River City, in the vicinity of which are the Foley, Ferguson, Olive and other gold properties, all very favorably known in the East.

Sixty miles west of Bonheur, on the C. P. R., are Wabigoon, Dinosaur and Dryden, the immediate distributing points of the Wabigoon and Manitow districts. Three steamers are at present engaged in transporting supplies and machinery to the working mines, of which there are at present about 10 in the region, among them the Erasm, owned in St. Paul, the Kirby, controlled by a Winnipeg syndicate, and the Larson and the McDougall.

In the preceding paragraphs the mining districts lying to the east and west of this town have been briefly referred to, but it is thought by a great many that the great unexplored country lying to the north of Thunder Bay will yet prove to be rich in minerals as any of these districts. Hundreds of prospectors have already gone out into these northern wilds, and during the next month or so numerous discoveries will likely be announced from this quarter.

With such an extensive group of mining districts surrounding it, Port Arthur, as before stated, should have a most prosperous future. Lying, as it does, at the head of navigation on the Great Lakes, and being an important point on the C. P. R., and the terminus of the Port Arthur, Duluth & Western Railway, it has already benefited largely from the distribution of supplies to the mines in operation, and when the Ontario & Rainy River Railway is once constructed its importance will be greatly enhanced.

In the first place, taking everything into consideration, Port Arthur is bound to become within the next three months a gateway to the gold-bearing fields of Northwestern Ontario, not of the gold-bearing fields along, for hand in hand with the mining of the precious metal will likely come the development of the iron deposits of the Mattawin, Atikokan and Black Sturgeon River regions and the silver and other mineral riches of the country.

As I stated before, most of the above are merely running remarks based on hearsay, and given with the idea of conveying to the people of the East a general idea of the extensive mineral-bearing areas tributary to and largely dependent for supplies upon Port Arthur as distinct from the Lake of the Woods and Rainy River regions in the vicinity of Rat Portage. Within the next few weeks the several mining districts will be visited and described from a conservative standpoint by your correspondent.

The Town of Port Arthur. And now a word or two with regard to Port Arthur itself. In common with other towns of its size it has a standing population of over 3000 souls—it has suffered from the commercial depression of the past few years, but it has survived the ordeal nobly, and to-day money seems to be freer here than in any other place that I have lately visited. This comparative prosperity is of course directly traceable to the active mineral development in the surrounding country, and particularly to the extensive business done by the merchants of the town who deal in mining supplies and provisions. As an instance I need only mention that the bulk of the groceries and other supplies required in the construction of the Bonheur-Saw Bill road are being furnished from here. A secondary result of the mining activity is the employment of numbers of miners who have for several years past lain idle around the town.

Have Faith in Their Country. The merchants and other leading citizens of the town, who seem to be particularly energetic and public-spirited in their attitude toward the development of the surrounding mines, and those who are not active promoters of properties are in at least large stockholders in some of the companies. They thus show faith in their own country and a determination to use every means to thoroughly test its resources.

In this they are not alone in their faith. And they are not alone in their faith in the West the trains daily bring in Canadians, Americans and Englishmen interested in the country, as do also the steamboats landing here from Owen Sound, Sarnia, Duluth and other great lake ports. The hotels, of which the town has a large number, are consequently becoming well patronized, and the streets are alive with men either going in to or coming out from the mines. "Rich finds" are reported every day, and to keep pace with the times up here one has to acquire each morning what new discovery has been made.

Many Conventions. In addition to the convenience of this place to the mines by virtue of the Canadian Pacific, the Port Arthur, Duluth & Western and the projected Ontario & Rainy River Railways there are other features about Port Arthur which will greatly aid in advancing its material interests as a capital of the country, and these are its superb location, its glorious

COUNTRY AND SUBURBAN NEWS

Budget of Interesting News Gathered by World Correspondents Over a Wide District.

The members of the County Council will take a run on the Metropolitan Electric road to Richmond Hill this afternoon.

The meeting of the county magistrates that was slated to be held last Monday will not take place till Monday next, the 14th. The list of county constables will be up for revision at the meeting.

Mr. Silas Hill of Lansing died at his residence on Wednesday, after long suffering from cancer. The funeral took place yesterday at York Mills cemetery.

Complaints of the electric lights have been made by the shareholders of the Township Council will notify the town that they will have to make arrangements for the supply of electricity.

The Junction Cricket Club will play the North Toronto team at Davarville grounds to-morrow afternoon.

The Conundrum Social, which was to be held by the Davarville Club and the North Toronto team, has been postponed for one week, and will now be held Friday, the 15th.

Mr. S. J. Douglas and Mr. C. Bonnell, representing the Methodist Conference, were in Toronto yesterday on business.

A taxpayer of North Toronto would like to know why the chairman of the Public Schools Board has not asked the school children or school trustees to contribute to the Jubilee meeting on Sunday, the 20th.

Before the meeting of the York Township Council of Revision, Monday, Deputy-Reeve J. A. Macdonald of Mount Pleasant, who has not asked the non-assessors of the City and Suburban Electric Railway, the ex-Reeve entered into a long and interesting discussion regarding the subject, his views being concurred in by Township Solicitor W. C. Macdonald.

Mr. Macdonald explained that, although he is entering his appeal to the Board of Revision, he is not asking for a reduction of the rate, but for a more equitable assessment.

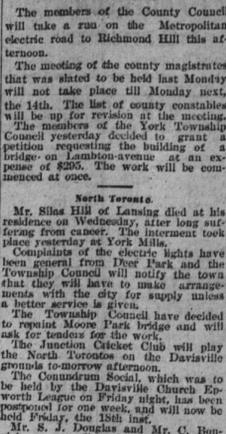

Deputy-Reeve J. A. Macdonald of Mount Pleasant, who has not asked the non-assessors of the City and Suburban Electric Railway, the ex-Reeve entered into a long and interesting discussion regarding the subject, his views being concurred in by Township Solicitor W. C. Macdonald.

Shaft House and Dump at Saw-Bill Gold Mines.

THE SAW-BILL ORE DUMP.

THE SAW-BILL ORE DUMP.

To-day The World gives a reproduction from a photograph of the ore dump at the Saw-Bill Mine. This wonderful pile of rich gold-bearing quartz is the talk of the district. Over two thousand tons are ready for milling, besides something like 10,000 tons blocked out ready for stopping, thus giving a supply of ore sufficient to keep a ten-stamp mill running 18 months.

Such a showing from one year's development in a new country is a record seldom equaled, and is creditable to the company and undoubtedly a source of satisfaction to the shareholders.

A New York mining expert, who recently visited the property had assays made of ore which he took from the dump, giving results ranging from \$30 to \$300 per ton. He expressed the opinion that the ore is the richest and most uniform he ever saw for such a wide vein, and had no hesitation in stating that Saw-Bill is a big mine—not a small prospect, but a great big mine.

This opinion seems to be verified by every expert who has recently visited the property, and great speculation is now rife as to what the mill run will be when the machinery starts pounding out the yellow metal.

Mr. J. A. Switzer, lay delegate to the Methodist Conference, was in Toronto yesterday on business. Early closing is spoken of by some of the storekeepers, the assistants falling in perfect accord with the suggestion.

An old resident, in the person of Matthew Dean, passed away yesterday, aged 80 years. The funeral will be held on Friday at Thornhill cemetery.

Mr. D. James will preach at the morning service of the Methodist Church on Sunday, and the Rev. Mr. Hoach at 7:30 in the evening and Hutchinson in the afternoon. The pastor, Rev. J. W. Morgan, will preach at the morning service at Parliament-street Methodist Church.

Arrangements have been made by the council to have the dining dinner at 8 o'clock for the purpose of appointing a committee to draw up a constitution for the club. It is important that a large attendance be present, as arrangements will be made for the annual convention of the East York Yacht Club, to be held in the same hall on Wednesday next.

The Horse-Hair Worm. Lockport, N.Y., June 10.—The "horse-hair" worm, which has been found in different sections of the country, has made its appearance here. It is a whitish, cord-like worm, which is about the size of a hair and six or seven inches long. No damage to vegetation has been reported to date.

The Dress for Business. Never galsaid that the Neat Sack Suit holds away as the most comfortable every-day dress, and when they're dressed with that distinct individuality which Henry A. Taylor draper, the Boston block, gives his designs, they're the same old style.

THE SECESSION MOVEMENT.

Ontario Delegates Present a Memorial to the Supreme Judge of United Kingdom.

Milwaukee, Wis., June 10.—Last night the Ontario delegates to the Supreme Lodge A. O. U. W. presented a memorial to the special committee appointed to consider the threatened separation of the Ontario lodge from the order. The memorial states that the Ontario lodge desires the continuance of fraternal relations, but asks relief from all legislative and financial control of the Supreme Lodge.

The \$40,000 Gun Bury. Another of Uncle Sam's Experiments in Washington, D. C., June 10.—Disasters results attended the firing of the Gatthamm shell at the Indian Head proving grounds. A huge gun, weighing 133,000 pounds, intended to be 15 inches in calibre, but bored out to only 12 inches for experimental purposes, was blown to pieces, one fragment being found a mile away.

100 Bicycles by Auction. A gigantic auction sale of over 100 new and second-hand bicycles takes place on 91-93 King-street east, near Church-street, this afternoon at 2:30 p.m. The bargains may be expected, as the late Mr. Charles M. Henderson, who sold the stock, had to close up the business.

For Eric Race, June 10th to July 10th. It will interest the hundreds of Torontonians who intend going to see the race at the new Port Eric race track to know that the steamer Eric Race and the T. H. have made special arrangements to accommodate the thousands of sight-seers.

Richmond Hill. Mr. H. A. Nichols and Mr. M. McNeil are spokes of the two candidates for the vacant school trusteeship. Ex-Councillor J. H. Sanderson is making splendid headway with the school children in their evolutions for afternoon performances by the children.

The fair grounds, accompanied by the Rev. G. McCullough and J. A. Gray, will hold a grand display of fireworks.

The extension of the Electric Railway from the present terminus to the new terminus at the site for motor car accommodation and steam power, and electric power, will be a great benefit to the district.

By CHAS. M. HENDERSON & CO. 91-93 King St. East (near Church St.)

Bicycles! Bicycles! Bicycles! BY AUCTION. We shall hold a sale of over 100 Bicycles, comprising the following makes: Cleveland, Colby, Columbia, Council, Hercules, Pacer, Rapid and others.

By CHAS. M. HENDERSON & CO. 91-93 King St. East (near Church St.)

Elegant Furniture, Pianos and over 1000 Yards of New and Second-hand Carpets.

By CHAS. M. HENDERSON & CO. 91-93 King St. East (near Church St.)
