FORMER CROWN PRINCE ESCAPES OVER BORDER INTO GERMANY

Had Been Interned in Holland Since Armistice Days; May Be Part of Plan to Embarrass the Allies

Paris, June 26.—Frederick William Hohenzollern, former crown prince, has escaped from Holland and made his way into Germany.

Hints have come from Germany within the last few days that the military caste there would not be averse to bringing about a military situation within the former empire that would embarrass the Allies in putting the peace treaty into effect, and it seems not improbable that the move made by the former crown prince is connected with some such plan.

The former crown prince made his way into Holland soon after the signing of the armistice last November and was interned there by the Dutch government, taking up his residence on the island of Wieringen, in the Zuider Zee.

Paris, June 26.—News of the escape of the former crown prince caused considerable stir in peace conference circles. While it is not felt that he is a figure around which the reactionaries and monarchists would gather enthusiastically, nevertheless his act is regarded as an event of considerable significance in view of other German recalcitrancy.

Washington, June 26.—Confidential reports that the former German crown prince and also probably the former Russian emperor would attempt to re-enter Germany after the signing of the peace treaty were received recently by government officials here. This became known today.

Knoting and Plundering in Streets of German Capital

Berlin, June 26.—(By the Associated Press)—The streets of Berlin were scenes of rioting and plundering last night and this morning. Incited by speeches from agitators in Alexander Platz, mobs attacked and robbed pedestrians and maltreated isolated soldiers. Troops sent to Alexander Platz were fired upon by crowds in the streets and from roofs of buildings. They finally succeeded in clearing the streets.

Elsewhere in the city bands of marauders robbed shops, and attacked citizens, rifling their pockets. After daylight this morning the city was quieter but at noon the police appealed for troops, as the crowds were gathering once more.

BOY TELLS OF KILLING FARMER

Indian Lad Said Campbell Made Rush at Him—Saturated Body With Oil and Started Fire

Winnipeg, June 26.—Guilty of manslaughter was the verdict of the jury at the afternoon hearing of the case of John William Cochrane, a fifteen year old Indian boy who killed James E. Campbell, a farmer, at Lockwood, Man., with a long two-pronged wrench on April 13. Mr. Justice Prendergast remanded the prisoner for murder trials on record in the province. He commenced yesterday morning. The witness was only thirty-four minutes in coming to a decision.

The only direct evidence was the confession of the boy himself. He told the details of the crime without faltering or displaying the slightest nervousness or confusion. He said he had fired himself out to work for Mr. Campbell and had got along fairly well until the day on which the tragedy occurred when he and his employer had a disagreement as to the relative merits of Joe Kepper and Marsh as long distance runners. In the boy's mind, "He came at me with both hands up. I was in a landing position and picked up the first thing that came to my hands—the wrench—and tried to hit his hands." The wrench landed him on the head, just behind the left ear. After lifting the body on to a bed, he said he saturated it with coal oil.

Under cross-examination, Cochrane said he did not know whether Campbell was dead or not at the time he poured the coal oil on him. The fire completely destroyed the house and it was not until the following morning that the charred remains of the body were discovered.

JULY 1 AND THE MAILS
There will be no delivery of mail by carrier on July 1 according to a notice issued by Postmaster Sears yesterday and the post office will be closed with the exception of the stamp bureau and the general delivery and registration windows which will be open from 9 to 10 a. m. and from 6 to 7 p. m., but no mail usually delivered by carrier will be delivered at the post office. The outgoing mails will be closed at noon. This arrangement is made by the department to meet the wishes of the organized postal employees so that no distinction will be made between one branch of the service and another so far as statutory holidays are concerned.

THE SOUTH END LEAGUE
The executive of the South End Improvement League will meet this evening at the close of the ball game between the Franklins and Alerts to plan for other sports on their ground. Unfortunately this league has had to spend much money on its grounds that its finances are very low and it may not be able to do all it had hoped to do this year.

THE EAST END PLAYGROUND
The first game of baseball on the East End diamond will be played on Saturday. The diamond will be in good condition. The game will be the biggest and best played in the city, but the great mass of east end people have not waked up. When they do the west end south ends should look to their laurels.

DEATH OF CHILD
Mr. and Mrs. William Cornfield of 309 King Street, West End, have the sympathy of many friends in the death of their infant son, Andrew-Cornia.

BABY BOY LEFT ON DOORSTEP

It became known today that about a week or ten days ago a baby boy, apparently about two days old, was found on the doorstep of the home of Mrs. Wm. Macaulay, 13 Main street.

The child was wrapped in a blanket which was pinned to the wall with a piece of brown paper. The note read: "Please find a home for this baby as his mother is homeless." It was signed "St. John River."

Mrs. Macaulay took the baby in and has been kindly caring for it until today when the Children's Aid Society were asked to take up the matter.

MINISTER GIVES NOTICE OF BILL RE HARBOR BOARD FOR PORT OF ST. JOHN

Ottawa, June 26.—Formal notice has been given by Hon. C. C. Ballantyne of a bill to constitute and appoint a harbor board for the port of St. John, N. B., and to empower the corporation of that city to transfer to the said board the title and interest of the city in the harbor works for a consideration of \$2,000,000.

EXHIBITION BUILDINGS
Commissioner Thornton spent this morning at the exhibition buildings going over that part of the premises which had been under lease to McAvilly & Sons, who are now preparing to give up possession. According to the lease, the lessees are obliged to restore the premises to the same condition in which they were taken over, but Commissioner Thornton is not inclined to insist on this provision, as many valuable improvements have been made. Offices have been fitted up, elaborate and costly toilet facilities have been installed and other improvements made which add greatly to the value and convenience of the property. Messrs. McAvilly have expressed a willingness to leave these improvements as they stand and the commissioner sees no reason for asking them to remove them. The matter will be referred to the exhibition association.

IN HONOR OF SOLDIERS
There was a pleasant time last night in the Congregational church, when a reception was tendered members of the honor roll of the church. All the members of the roll were present except one who, while a prisoner in Germany, died in the prison camp. Rev. E. J. Hooper gave a very interesting address. Readings and musical selections were rendered and a delicious refreshment was served. There are about twenty names on the honor roll.

NINETY ENTERTAINED
The children of the Mansel kindergarten class were given an outing in the Allison playgrounds this morning. They enjoyed themselves to the utmost, and many games after which lunch was served to which the kiddies did full justice. This is the closing day of their term.

"Get Together" is Suggestion Of The Premier

Hon. Mr. Foster Makes a Statement as to Affairs in Connection With the National Liberal Convention; Unity and Harmony the Key Note

Premier Foster, when interviewed today with regard to the call for a Liberal convention to select a delegate for the City and County of Saint John and County of Albert, as well as six other constituencies, to be held at Ottawa on August 5, 6 and 7, said that a short time ago he was invited by the National Liberal Committee to act as the New Brunswick representative of that body and to arrange for a call for a convention throughout the province in line with the plan for the organization of the Ottawa convention.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbush, this morning, "I am thinking of moving to Halifax."

"You don't say!" said Hiram. "Don't think about it long."

"Ever since the man began to fall there," said the reporter. "Whenever Halifax wants money it gets it."

"A few millions more or less falls from the clouds every little while. The citizens don't have to argue about it at all. I don't think if they have to send delegations to Ottawa."

"They just sit around and look as if they needed some more and it is there in the morning. But there are other considerations. The people over there believe in good streets and wherever the city is ready to go ahead the property owners along the streets affected cheerfully pay half the cost of the paving. Hence in Halifax you do not find craters in the thoroughfares."

"I'm glad to hear that," said Hiram. "They deserve a little manna—don't they?"

"But that is not all," said the reporter. "I learn from the Halifax papers that the board of health at its last meeting granted permits to thirteen citizens to keep their dogs."

"Well, now, that's quite help 'em keep down the cost of 'em—yes sir. These dogs can be kept on ninety little outside of the table scraps."

"And I think the reporter, 'are you the owner of the dog?'"

"Haven't that," added Hiram, "but I was a Halifax man for a couple—yes sir."

"You don't say?" repeated Hiram. "Well, now, that's quite help 'em keep down the cost of 'em—yes sir. These dogs can be kept on ninety little outside of the table scraps."

FRENCH ARE TO HAVE VICTORY CELEBRATION ON BASTILLE DAY

Paris, June 26.—The French government has decided that the official victory celebration by France shall take place on July 14.

July 14 is Bastille Day, the principal French holiday. It is also the anniversary of the beginning of the revolution of their last drive toward Paris, which ended so disastrously for them through the staunch Allied resistance and ultimately the counter-attack.

ANOTHER ALLED WARNING TO HUNS

Paris, June 26.—The German peace delegation has been informed in a note from Premier Clemenceau that the German government will be held strictly responsible for any movement against Polish authority in the territory given to Poland in Posen and East and West Prussia.

RE EMBARGO ON CANADIAN CATTLE

London, June 26.—(By the Canadian Associated Press)—Replying to a despatch urging the removal of the embargo on the importation of Canadian store cattle, the president of the board of agriculture admitted no ground for the embargo on account of disease, for the Canadian herds were the healthiest in the world, he said, but if the board obtained the power of admission they must refrain from using it owing to the present labor difficulties.

Reparation For Sinking

Allies Tell Germany Pretty Plainly What They Think About Sinking of War Vessels in Scapa Flow

Paris, June 26.—Germany has been notified in a note sent today by the Allies that they possess the right to punish the persons responsible for the destruction of the German ships and to collect reparation for the loss. The sinking of the fleet is deemed as a violation of the armistice and a deliberate breach in advance of the conditions of peace.

When the investigations have been completed, the note states, the Allies will exact "the necessary reparation." Here is the indictment.

Paris, June 26.—The Allied and associated powers today sent the following letter to the German peace delegation:

"Mr. President:
The terms of the armistice signed by Germany on Nov. 11, 1918, provided as follows:

"Article 23.—The German surface warships which shall be specified by the Allies and the United States shall forthwith be disbanded and thereafter interned in neutral ports, or, failing them, in the Allied ports designated by the Allies and the United States. They shall there remain under supervision by the Allies and the United States, only care and maintenance parties being left on board.

"On June 21 the German warships which had been handed over to the Allies and the United States were not in the port designated by the Allies and the United States, but were in the port of Scapa Flow, with the German care and maintenance parties on board, and were not in the port designated by the Allies and the United States, but were in the port of Scapa Flow, with the German care and maintenance parties on board, and were not in the port designated by the Allies and the United States, but were in the port of Scapa Flow, with the German care and maintenance parties on board.

"According to the information which has been collected and transmitted by the British admiralty, the German admiral in command of these warships, the German naval forces has alleged that he acted in the belief that the armistice expired on June 21 at midnight and consequently, in his opinion, the destruction in question was no violation of its terms.

In law, Germany, by signing the terms of article 23 set out above, entered into an undertaking that the ships handed over by her should remain in the ports indicated by the Allies and associated powers, and that care and maintenance parties should be left on board with such instructions and under such orders as would ensure that the armistice should be observed.

"The sinking of these ships instead of their preservation as had been provided for, and in breach of the undertaking addressed to the German delegation by the Allies and associated powers, is a violation of the armistice, and is a breach of the pledge handed over and an act of gross bad faith towards the Allied and associated powers.

"The admiral in command of the care and maintenance parties belonging to the German naval forces has, while open to the Allies and associated powers, by alleging his belief that the armistice had expired, attempted to justify his conduct, and to shift the responsibility for the destruction of the ships to the Allies and associated powers.

"This alleged justification is not well founded as, under the communication addressed to the German delegation by the Allies and associated powers on the sixteenth of June, 1919, the armistice would only terminate on refusal to sign the peace, or, if no answer were returned on the twenty-third of June at 7 o'clock. According to international law, the armistice is binding on the German naval forces and on the German government, and the German government is bound to accept the armistice, and to ensure that the German naval forces should accept the armistice.

"The Tagblatt also states that it has been suggested that a commission of officials who were outside the pale of politics or former members of the diplomatic corps, should be appointed to provide such individuals would accept the assignment.

Berlin, June 25.—(By the Associated Press)—The Tagblatt is informed that Hermann Mueller, minister of foreign affairs, is urged to accept the assignment to go to Versailles, but has declined on personal grounds. The newspaper says:

"The best and most natural solution of the situation would be to have Matthias Erzberger set his name to the peace instrument. He, however, is evidently not inclined to draw the logical conclusion from the peace policy he has been pursuing in recent months."

"A violation of the terms of the armistice by individuals, acting on their own initiative, only confers the right of denunciation on the Allies and associated powers, and if necessary indemnity for the losses sustained. It will therefore be open to the Allies and associated powers to bring before a military tribunal the persons responsible for these acts of denunciation. It is evident that any penalties may be imposed. Furthermore, the incident gives the Allied and associated powers a right to reparation for the loss caused, and in consequence a right to proceed to such further measures as the said powers may deem appropriate.

"Lastly, the sinking of the German fleet is not only a violation of the armistice, but can only be regarded by the Allied and associated powers as a deliberate breach in advance of the conditions communicated to Germany and now accepted by her. Furthermore, the incident is not an isolated act. The burning or permission for the burning of the French flags which Germany was to restore constitutes another deliberate breach in advance of those same conditions.

"In consequence, the Allied and associated powers declared that they take note of these signal acts of bad faith, and that the investigations have been completed into all the circumstances of acts like those must have a very unfortunate effect upon the future operation of the treaty which the Germans are about to sign. They have made complaint of the fifteen years period of occupation which the treaty contemplates. They have made complaint that admission to the League of Nations may be too long deferred. How can Germany put forward such claims if she encourages or permits deliberate violations of her written engagements? She cannot complain should the Allies use the full powers conferred on them by the treaty, particularly article 428, if she on her side, deliberately violates its provisions.

HOPE TO HAVE TREATY SIGNED ON SATURDAY AFTERNOON

Paris, June 26.—Efforts were being made today to arrange for the signing of the peace treaty at three o'clock Saturday afternoon. The Council of Three is apparently satisfied with the semi-official assurance that the Germans would be on hand.

Paris, June 26.—(By the Associated Press)—It is understood that if no official communication is received by nightfall from Berlin relative to the plans of the German government for signing the peace treaty, something in the nature of an ultimatum will be sent to Berlin by the peace conference.

Paris, June 26.—At 11:30 o'clock this morning nothing had been heard from Berlin and the conference was in complete ignorance as to Germany's plan. Paul Ducloux, secretary of the conference, went to Versailles this morning seeking information. He was informed verbally by Dr. Haniel von Hainhausen that the German signatories, who will probably be Hans Meisner, Hans Gieseler and Herr Lehner, might arrive by Saturday, but he was unable to speak authoritatively on the subject.

Greater Berlin.
Berlin, June 26.—(By the Associated Press)—General Gronow, who succeeded Field Marshal von Hindenburg as German chief of staff, has tendered his resignation to President Ebert, but has agreed to remain at his post until the situation in the eastern provinces becomes stabilized.

Loss Wife If He Signed.
Paris, June 25.—(Toronto Mail and Empire)—Whatever may have been the German government's intention as having Dr. Haniel von Hainhausen, now head of the German delegation, sign the peace treaty, the plan went awry when Hainhausen himself said that he would not undertake the responsibility.

"The Tagblatt also states that it has been suggested that a commission of officials who were outside the pale of politics or former members of the diplomatic corps, should be appointed to provide such individuals would accept the assignment.

Berlin, June 25.—(By the Associated Press)—The Tagblatt is informed that Hermann Mueller, minister of foreign affairs, is urged to accept the assignment to go to Versailles, but has declined on personal grounds. The newspaper says:

CAUCUS FAVORS A UNIONIST PARTY

Ottawa, June 25—A government caucus this morning considered the organization of a permanent Unionist party. Sir Robert Borden made a speech favoring the principle and it is said he expressed a willingness to retire from the leadership of the party at any time it was considered in the best interests of the Unionists. The feeling of the caucus, however, was that he should remain.

It is understood that the great majority of those who spoke, favored the organization of members who were elected to support the government into a permanent political party and that definite plans looking to this end will be presented at a later caucus.

To decide a wage regarding Willard's age the clerk of the county court today exhibited the license record book which showed that on March 15, 1909, a license was issued to Jess M. Willard, aged twenty-six, and Hattie Evans, aged twenty-two, both residents of Potawatomi county, Kansas.

REPORT ON THE ST. JOHN HARBOR PROPERTY VALUE

The report of the valuation of the St. John harbor properties prepared by P. R. Hess & Sons for the department of marine and fisheries, is a rather involved document. Extracts from the report are as follows—
We have not found it possible to obtain any reliable information in regard to the figures prior to December 31, 1909. The chamberlain in his report of 1891 says that no property inventory had been made since the year 1860. We were unable to get any information of the inventory referred to and were obliged to estimate the value of the properties on the valuations as shown in the published accounts of 1890.

No effect has been given in our figures to a certain agreement between the king, the C. P. R. and the city, dated April 20, 1918. We are not in a position to judge as to the concessions given the crown and the railway company, nor the value of the properties acquired by the corporation. The corporation claims value on this agreement to the extent of \$200,000. We note, however, such expenditures have been charged included in maintenance account.

In the year 1918 the corporation made certain valuations of its harbor properties, relying likely on the estimate of their engineers. These values (totaling \$1,364,000), are apparently used as a basis or arriving at the valuations of 1918. Comparing these valuations in detail with the actual capital outlay may not necessarily establish a valuation on any of these properties as both report suggests that legislation bringing the individual differences seem to be considered.

The results of our investigations are—
In 1890 and expenditures subsequent to that year, including any amount for the C. P. R. wharf valuation, the city has made capital expenditures on the properties of \$2,077,672.

This difference might be accounted for by allowance having been made to the most satisfactory in rebuilding fire loss, etc.

In order to arrive at the total cost of construction and operation we have summarized our findings as hereunder:
Cost, less various deductions and additions on the original capital outlay as at 1890, \$228,023.37.
Apparent outlay in wharves and property thereon and above outstanding bonds, \$998,690.
Total bonds outstanding at December 31, 1918, \$1,342,717.45.
Bonds redeemed from 1890 to 1918, \$820,890.

The apparent net loss on harbor operations in the figure by the additve at \$308,281.
We have not given consideration in

HOUSE AGAINST SENATE ACTION ON PROHIBITION

Ottawa, June 26—When the senate amendment to the prohibition bill, making federal prohibition terminable on the conclusion of peace came before the House of Commons this morning, Sir Robert Borden moved that the house disagree with the amended measure. The motion was carried by a vote of 105 to 84.

INVESTIGATE MERGERS IN THE DOMINION

Ottawa, June 26—The immediate creation of a tribunal with power to investigate mergers, trust monopolies and all matters affecting the public interest, was the subject of a resolution introduced this morning by G. B. Nicholson, chairman of the special committee on trusts, which has had time to reach final conclusions and another report will be made later in the week. This tribunal into existence should be enacted at the present session of parliament.

COL. C. W. W. McLEAN AT CANADIAN CLUB

Lieut.-Col. C. W. W. McLean, C.M.G., D.S.O., M.P., addressed the Canadian Club at luncheon today and was given a glowing reception. His father, Major-General H. McLean, M.P., was also at the great table. The chairman, Mr. M. Boddie, who presided in the absence of Sir Douglas Hazen, remarked that he was in the unique position of having on either side a distinguished soldier, both of whom were also members of parliament and who bore to each other the relation of father and son. It was a notable incident in the history of the Canadian Club.

GERMAN CAPTAIN FINED FOR NOT SALUTING AMERICAN

Coblenz, June 24—(By the Associated Press)—Captain Bachmayer, assigned by the German army to duty in Coblenz, was fined 1,000 marks today for refusing to salute an American lieutenant. The captain contended that the war was over and that, anyway, the regulations did not call for his saluting an officer of lower rank. This is the first instance of an action of this kind since a definite truce was taken in the peace situation. Allied officers say that after the treaty of peace is signed the regulation compelling German officers to salute will probably not be enforced.

Robber Who Defied 'Dead Line' Caught. Chester Yates Arrested in Kansas City, Mo.; New York Crook Took \$87,000 From Broker in 1912.

New York, June 25—Chester Yates, who robbed Aaron Bancroft of \$87,000 in money and securities at the entrance of the Produce Exchange vaults in 1912, escaped without Bancroft finding out at the time that he had been robbed, and who made a daring escape from Sing Sing, has been captured.

Warden Edward V. Brophy of Sing Sing received a telegram from Charles Yates, who had been taken there under the name of Charles Van, on another charge. The Kansas City letter said that Yates had been identified by his Sing Sing photograph and Bertillon measurements.

Brophy said he will send the most careful guards he has after Yates, for the convict escaped from custody once before when arrangements were being made to take him back to Sing Sing.

The Bancroft robbery occurred on March 2, 1912. Bancroft, an elderly broker, was walking along a dim passageway with an envelope containing the money and securities in his hand. Yates and a companion, Charles Ross, bumped into him and knocked him sprawling.

With great politeness Yates picked up and returned the broker's hat and cane, but substituted an envelope stuffed with newspaper clippings for Bancroft's envelope.

The robbery was discovered when Bancroft went to the vaults again two days later. The police were especially wrought up over the robbery's escape, because his act took place below street level, but did not get a clue until Dan O'Reilly, a lawyer, offered to get the stolen property back for a reward.

O'Reilly was arrested, charged with receiving stolen goods. Yates' arrest soon followed. O'Reilly was sent to Blackwell Island for three months and discharged.

Judge Malgreen sentenced Yates to twenty-one years in Sing Sing. His escape on Dec. 15, 1912, after serving four months, was the most mysterious in the annals of the prison.

Samuel Gompers At Alberta Congress. Calgary, June 25—Advisers received at the headquarters of the Alberta Industrial Congress are to the effect that the trains of manufacturers who are members of the Dominion Manufacturers' Association will leave eastern Canada for the congress, arriving at Medicine Hat on August 11, the opening day of the big industrial convention and tour.

Advices received from the chamber of commerce at Minneapolis, indicated that a special train load of industrial men will leave the twin cities of Minnesota for the congress, as well as many individuals who will travel privately.

The congress is being given publicity throughout the continent as well as in the United Kingdom, and many visitors will come from as far as the Gulf of Mexico and England. Just what number will attend is not definitely known, but it is thought that there will be thousands in attendance and that the congress, which is really a series of small industrial conventions, with a central educational session at Calgary for two days, August 13-14, and linked up by special trains carrying the delegates and visitors, will be the greatest of its kind ever held in the Dominion, if not in the entire western portion of the continent.

It now seems quite certain that Samuel Gompers, the great labor leader will attend and address the congress at Calgary on either August 13 or 14. A communication just received at the congress headquarters here declared that Mr. Gompers will attend unless something unforeseen prevents it.

SPRUCE MARKET IS CLIMBING AND NEW RECORD IS PREDICTED. Boston, June 25—The market for spruce is climbing with an agility that corroborated all that many of the prophets of the spruce market have been saying for some months. Dimension of course reached \$47 base recently and the general opinion of the experts is that it has still enough energy in store to break easily all war time records. The people who believed that an advance was due until the autumn have been startled, while those who refrained from buying, because they half believed that a decline was near, are suffering from sensations that suggest their blood is running cold.

Several of the wholesale merchants are in a quandary. It is not easy to find spruce either in New England or the provinces who have more than a little spruce to offer for quick delivery, and it is becoming more difficult to get in touch with any that quote for future delivery.

Traveling men who are ordinarily engaged in selling are now looking about to see where they can buy and are not meeting with much success. There is quite a little excitement in one way and another.

Canadian Medical Council. Quebec, June 25—The official opening of the fifth annual convention of the Canadian Medical Association took place here at Laval University tonight when the visiting delegates were welcomed by Sir Charles Fitzpatrick, lieutenant-governor of the province of Quebec; Mr. Francois Pelletier, elector of Laval, and Dr. Grondeur, president-elect of the association.

COUNCIL OF WOMEN IN BATTLE OVER USE OF PROXIES. Regina, Sask., June 25—The National Council of Women will continue the system of allowing delegates to carry votes from societies which are not sending delegates themselves to the annual council of women's meetings. Three divisions were taken last night on clauses concerning this subject. The main point was lost by a vote that differed by a single ballot. As a majority of two-thirds was required before any change could be made in the constitution, the motion for doing away with proxies was lost.

Agreement Reached. An average increase of twenty-four per cent on the wage scale for men in the building trades in Halifax was decided in the findings of the board of arbitration yesterday. This is about eight per cent more than the employers offered. The new rates of the various trades will now be as follows: Carpenters and painters, 66 cents; plasterers and masons, 75 cents; electricians and plumbers, 70 cents per hour, these rates to continue until Dec. 31, 1920. The men are to receive the difference between the wage offered by employers on their return to work and the new scale.

NO COMPETITION.

The cost of living committee learned yesterday that there is no competition in Canada. The president of the Ames, Holden, McCready Company testified that "prices charged by different firms for their rubber goods were the same; the others followed."

"Mr. Devlin asked if the shoe trade is participating in overseas trade secured by government credits, and if this had a tendency to make the price of shoes higher."

"Mr. Reider replied that the demand from overseas was principally for boots of medium quality."

This was a clear evasion of the question, and the committee appears to have let Mr. Reider get away with it. There seems to be very little doubt that the government by providing credits overseas is enabling manufacturers to keep up the prices at home.

"The most serious question before the country today is the high cost of living, and if we have certain industries at the expense of the general consumer, the high cost of living for the consumer will not go down but will go up and there will be greater unrest than there is now."

The hon. member (Mr. Stevens), at the close of his remarks, said that there is a great temptation to make use of, or to take advantage of, the foreign market at the expense of the enhanced price. That is to say, the subsidized manufacturer or exporter is to have the benefit of this credit at the expense of the general consumer.

The mere conception of a League of Nations gives the world a new moral and spiritual outlook. Certain forces which retarded human progress along the lines of peaceful co-operation and progress have been rendered powerless, and wonderful new possibilities invite universal effort for their realization.

The pathway is strewn with stumbling blocks, but how small they are in comparison with those which have been overcome. The world has a new hope, and may well cherish also a serene confidence that what has been gained in these five years of agony will not be lost.

An Ottawa dispatch says that the Unionist caucus in Ottawa today will consolidate the party or give an impetus to the disintegration that has lately been in progress. Let us hope, if the latter should be the outcome, at some very probable, that there will be no disintegration of the Liberal party as a result of unwise counsels.

News that the former German Crown Prince has escaped from Holland has little significance. It is not to be feared that he is wanted in Germany or would be able to cause any serious trouble there.

HOME FROM WAR. Mr. and Mrs. P. Henneberry, 20 Castle street, received a telegram yesterday from their son, Corporal Louis A. Henneberry, reporting his arrival at New York from overseas. He had been attached to the aviation corps in the United States army for the last two years. Previous to his enlistment he resided in the States. Corporal Henneberry will reach the city in a few days and will spend some time with his father and mother here. A large number of friends will be glad to hear of his safe return.

Aprons of the whites for mercy that keep coming out of Germany—Rhine whites, as they are called—Dr. Nicholas Murray Butler of Columbia said the other day: "Germany reminds me of a woman, who, entering her little boy in a new school, said to the teacher: "Leidle Fritz! he is delicate and so, if he is bad—and he will be bad sometimes—just lick der boy next to him, und dat vill frighten him."

THE NEW WORLD.

Mr. Norman E. Richardson, in Moral Education as a Reconstruction Problem, throws out a challenge to religious leaders which contains food for thought and an inspiration to those whose ability and commanding influence enable them to sway the minds of men. He says:—"Multitudes of the more intelligent and humane citizens of every civilized nation have set their hearts upon a new civilization based, not upon the philosophy of brute force, but, rather, upon that of justice, liberty, righteousness. We live at the most momentous turning-point in all history. An acute sense of peril has elevated the moral tone of our national life. It startled our people into a search for those spiritual realities which are the surest guarantee of the morals of soldiers and civilians. It has loosened the selfish grip of many a citizen upon material things. A revelation of the great truth that all values are ultimately moral and religious has come to men and women of every station."

"It is for the religious educators frankly to say whether or not the nation is going to settle back into the materialism of five years ago. The question which we now face is not: Shall our military victories be conserved? It is: Are our great spiritual victories going to be conserved? Are we able to discover agencies and methods that are adequate to prevent a moral relapse? In the work of reconstruction are we going to begin where the war left us or is it going to be where the war found us? Does the period of reconstruction mean spiritual conservation and does it constitute a clear and supreme challenge to erect a new civilization, or is it going to be 'just as they were'—can we come to a clear understanding of the deeper meaning of this fatal period and can we put our knowledge to immediate use?"

The mere conception of a League of Nations gives the world a new moral and spiritual outlook. Certain forces which retarded human progress along the lines of peaceful co-operation and progress have been rendered powerless, and wonderful new possibilities invite universal effort for their realization.

LIGHTER VEIN.

It's all a matter of comparison, according to Donald McKee, cartoonist, who told the following as proof of his assertion: "Shrapnel shrieked all about. Bombs dropped from the sky and every minute or so a German shell burst over his head. Suddenly one Yank burst into a fit of laughter. "Smatter, Buddy?" his

mate asked, fearing that he had suddenly gone insane. "I was thinking, Bill, answered the other between chuckles, 'of the rust that held me up one night in Memphis with a 22-caliber revolver.'"

Didn't Need Any.

"Have you given Mr. Stuyvesant any encouragement?" asked the impatient mother. "No, mama," replied the confident daughter, "so far I haven't found it necessary."—Story Stories.

Miss Simpkins was a lady of uncertain appearance and age, and rather frightened De Vere, who was a young assistant in a chemist's shop, by her persistent demonstration of friendship. He flattered himself that every girl and woman

madly in love with him. He felt sure she meant to hook him. But chance threw them alone one day, and De Vere felt that his hour had come.

"Mr. De Vere," she said, "I can no longer bear this unspeakable anguish. I have at last plucked up courage to ask you a question which concerns my future happiness and comfort. Will you be good?"

"My dear lady," gasped De Vere breaking out into a cold perspiration, "it would break my heart to refuse. I have every regard and respect for—"

"Sir! what do you mean?" gasped Miss Simpkins. "Surely you can't object to my asking what cure you can recommend?"

The happy couple left last evening on a honeymoon trip to Ottawa. The bride, who was unattended, wore a gown of white georgette with veil and orange blossoms and carried a bouquet of roses. Mr. and Mrs. McAllister will motor to Boston, and on their return will reside at Gullford street. The out-of-town guests included the bride's brother, Professor W. J. Cunningham, professor of transportation, Harvard College, and wife; Mr. and Mrs. Clement Caruthers, Summerside (P. E. I.); Mr. and Mrs. R. S. Cunningham, Moncton; Mrs. C. O. Daley, Newton (Mass.). The wedding gifts were numerous and appropriate and included two fine pictures from G. E. Barbour & Co., Ltd., and silverware from staff.

THE PRINCE OF WALES AND HIS KENNINGTON TENANTS

The Prince of Wales, in a conference with the Lambeth labor party with regard to the housing problem on his Kennington property, mentioned that he was only receiving about half what was paid to his father and grandfather from the estate.

This, it may be explained, is a consequence of the extensive building scheme adopted by King George in 1911. For that year over £50,000 was set aside out of the revenues for the Royal Highness for the past two years £50,000 has been paid to the Prince of Wales.

The prince of Wales, who is taking so close and practical an interest in the housing question on his Duchy of Cornwall estates in South London, paid another visit to humble dwellers in North Lambeth and had informal chats with some of them.

In the evening His Royal Highness had a two hours' conference with a deputation from the Lambeth Central Labor party. He was attended by Walter Peacock, secretary to the council of the Duchy of Cornwall, and Mr. Bartlett, the agent at Kennington. The labor men were quite obviously impressed by the unaffected and shrewd understanding of the subject exhibited by the prince.

As a result of the conferences His Royal Highness agreed that—

In schemes for housing on the estate there should be collaboration between the Lambeth Central Labor party and the

officials of the Duchy of Cornwall, and the best for the people of England, and especially those on the Duchy of Cornwall estate at Kennington. He pointed out that a number of houses in Kennington road, which were empty, were made to appear as if they were tenanted, when the royal family visited Kennington, by having curtains put up.

The Prince—"I knew that the houses were empty." (Laughter.)

Mr. Lockyer remarked that there were houses on the estate which had been in a disgraceful state for years. For the last four years the workers had loyally accepted the prevailing conditions, but they now thought that building operations should be commenced on the estate at once.

The prince would prefer to see the

new houses to be erected should be larger than those already on the estate, if possible.

In all building contracts the clause securing trade union wages and conditions should be observed.

Consideration should be given to the establishment of a Duchy of Cornwall works department to carry out all repairs and building.

The prince would privately inspect the derelict sites and houses on the estate.

W. Lockyer, president of the Lambeth Central Labor party, said they were conscious how little the members of the royal family knew of the real conditions under which the workers lived, but they

MOMENTOUS CAUCUS OF THE UNIONISTS IN OTTAWA TODAY

Montreal, June 26—A special despatch to the Gazette from Ottawa under Wednesday's date, says: "A momentous caucus in the history of the Unionist party will be held tomorrow. Less than two years ago Sir Robert Borden, in a caucus of the Conservative party, asked full power to negotiate for the organization of a government and a party that would give effect to the desire of the Canadian people that ample reinforcements be sent overseas in support of the army. The result was a union cabinet with a union party both in parliament and in the country, which has, in the main, carried out the policy endorsed by the voters. Tomorrow's caucus will consider the party formed in the streets of war, or will give an impetus to the integration that has been apparent during the present session."

June Brides

(Continued from page 1)

McMonagle-Logan. A wedding of much interest to a large number of friends in the province was solemnized in St. Alphonsus church, Hampton, this morning at 10.45, when Rev. A. P. Allen united in marriage Miss Annabelle Frances, daughter of Mr. and Mrs. James T. Logan, of Hampton, to William Emmet McMonagle, son of Mr. and Mrs. William McMonagle of Windsor, N. S. The bride was becomingly attired in a white crepe de chine dress with hat to match, and carried a beautiful shower bouquet of bridal roses. Her going away suit was of grey taffeta silk with hat to match. The bride was attended by her sister, Miss E. M. Logan, who wore a pretty peach satin dress, trimmed with crepe de chine and hat to match, and carried a shower bouquet of roses. The groom was supported by Edward J. Henneberry, St. John. The site was given away by her father, and they walked to the altar to the wedding march played by Miss Helen Desmond. Nuptial mass was celebrated. The church was artistically decorated with potted plants and wild flowers. A large number of people were present, although only the immediate friends and relatives of the bride and groom were guests. Among those present were: Mrs. William McMonagle, mother of the groom, and Miss Evelyn McMonagle, sister of the groom, and his brother, Cecil McMonagle, of Windsor; also Miss Gertrude Horan, R. N.; Miss Annie McGee and Miss Ethel McGee of St. John, and Miss Conlogue, R. N., of Rochester, Mass. The bride has been a resident in St. John for some time, having graduated from St. John's Hospital, Lowell, Mass.

practising her profession in this city and other parts of the province. The groom attended Kings University, on Windsor, receiving his B. A. degree from that university, after which he attended the Kings College Law school in this city, graduating from there with a B. C. L. degree. While studying law he was in newspaper work here. Since that time he has been practising law in Grand Falls, where he has made a host of friends. The bride and groom will leave for their home in Grand Falls on the evening train. A large number of friends in this city and throughout the province extend hearty congratulations to Mr. and Mrs. McMonagle and wish them much happiness.

Bartsch-Connelly. A pretty wedding was solemnized in St. Jude's church yesterday, when Rev. J. H. A. Holmes united in marriage John Clarence Bartsch and Miss Bessie Irvine Connelly. The bride wore a neat traveling suit of taupe and a black lace picture hat. She carried a bouquet of pink and white carnations. Her uncle, P. W. Cunningham, gave the bride away. Many valuable wedding gifts were received. Mr. and Mrs. Bartsch left on a short trip to Fredericton. On their return they will reside at 145 King street east.

McKee-Akerley. A pretty wedding was solemnized yesterday afternoon in the presence of a large gathering of friends and relatives in Exmouth street Methodist church, when Rev. Mr. Dawson united in marriage Walter Thompson McKee, son of Mr. and Mrs. George McKee of Waterloo street and Miss Bessie Fernie Akerley, daughter of Mr. and Mrs. Melvin B. Akerley of Adelaide street. They were unattended. The bride looked charming in a suit of navy blue with hat to match and carried a bouquet of sweetheart roses. Following the ceremony Mr. and Mrs. McKee left on a trip to Montreal and Ottawa.

Ryan-McGivery. Yesterday morning in St. Alphonsus church, Hampton, Rev. A. P. Allen united in marriage Miss Frances McGivery, daughter of Mr. and Mrs. James A. McGivery of Tusville, Kings county, to Thomas Ryan of Hampton. The bride looked charming in a beautiful white satin gown with peach trimmings, with a bridal veil and orange blossoms and carrying a bouquet of pink roses. She was attended by her sister, Miss Letitia McGivery, who wore a pretty dress of blue crepe de chine with hat to match. The groom was supported by Fred Doherty of Passaseage. After the ceremony Mr. and Mrs. Ryan motored to the home of the bride's parents, where a dainty luncheon was served, after which they left on a wedding trip to Prince Edward Island.

ASK LARGER GRANT FOR TECHNICAL EDUCATION FOR MARITIME PROVINCES

Ottawa, June 26—When the technical education bill was up in the house the maritime province members made a strong appeal for a larger grant than they would receive if based on their small population.

Messrs. McIsaac, Copp and McKennie spoke on the question. It would cost nearly as much for an instant boiler at a small province as for a large one.

Hon. Mr. Calder said that the clauses affecting the principle would be allowed to stand so that the matter might be given further consideration.

NEW FARE BOXES

In the vestibules of some of the street cars today new fare boxes made their appearance. They are much different from any used for fare collection in the city and have one special advantage that the receptacle for the fares is larger than the opening in the old hand boxes. This may help to let people pass inside more quickly. The new boxes are stationary, fixed on a stand in the vestibule.

P. E. ISLAND MATTER TAKEN UP IN SENATE

Question of Government Subsidy For Boat-Freezing Station at Souris

Ottawa, June 26—Failure of the minister of marine to endorse the application of Matthew and McLean for the granting of a government subsidy to a boat freezing station at Souris was brought up in the senate today by Senator McLean. He said that the boat station was established under the government act in 1900, fishermen providing half and the government the other half required for erection. After running for some years, it failed and operation ceased. At public auction it was bought by Senator McLean's firm, and was changed from an ice and salt to a chemical freezer, at a cost of some

\$10,000. Application was made for government subsidy, which on the percentage fixed would amount to about \$2,000. For the subsidy the firm undertook to run the plant as a public utility by reserving a fifth of the storage space for bait.

The minister of marine declined the application on the ground that the bait station had been aided by the government once, and that the government during the war was not spending money in aid of the erection of cold storage plants, large or small. Senator McLean maintained that his firm had been unfairly treated.

Sir James Loughheed said that he had not obtained the information from the government that would enable him to discuss the matter at the present time. ENGAGEMENT ANNOUNCED. Mr. and Mrs. W. Wallace Hay, of Woodstock, N. B., have announced the engagement of their daughter, Cassie Leighton, to George Harold Lutz, son of Mr. and Mrs. A. J. Lutz, of Moncton. The wedding will take place July 9.

400 blind in Italy, and that music was the popular study of the Italian blind. "We are playing up the blind soldier in the United States, not that we have so many of them, but so that we will get sympathy and support for the blind civilians, of which we have more than 100,000," said Charles F. Campbell, Red Cross Institute for the Blind, Baltimore.

Ottawa, Ont., June 25.—Hon. Arthur Meighen announced in the house tonight that he would introduce a bill to increase the salaries of Canadian district court judges. They have hitherto been paid \$4,000 and in a few cases \$3,500. All will be raised to \$4,500. It will also raise the salaries of superior and king's bench judges in the west and in the maritime provinces by \$1,000, wherever that is necessary to place them on the same level as judges of the same rank in Quebec and Ontario. Those provinces are not affected by the bill.

Do You Remember The Old Corn Doctor?

He stood on the street, in the olden days, and offered a "magic corn cure." The same ingredients, harsh and inefficient, are sold in countless forms today.

But they did not end corn, and they do not now. Modern scientists in the Bauer & Black laboratories have evolved a perfect method and embodied it in Blue-jay.

In 48 hours, while the corn is forgotten, Blue-jay completely ends it, and forever. Hardly one corn in ten needs a second application.

The way is sure. It is easy, pleasant, scientific. Quit old-fashioned methods. Try Blue-jay on one corn—tomorrow.

FROM SPHINX TO CELEBRATION

Before the Sphinx

From the Sphinx in Egypt to Jerusalem is a rocky, difficult journey which took the followers of Moses forty years to cover on foot and which Lowell Thomas, war observer, covered by camel, motor, horse, airplane and on foot in much shorter time.

Being pictured before the Sphinx is a diversion which Napoleon set the example for Mr. Thomas but the great departure never drew over the Holy Land as an airplane as did this modern traveler. His experiences with the British forces in the Bible lands form a part of an interesting travelogue which Mr. Thomas preserved in motion pictures.

These give such a vivid idea of the Holy Land that the traveler was engaged to show his pictures and give his travelogue throughout the Methodist Centenary Celebration at Columbus, O., June 20 to July 18. Although Mr. Thomas was booked to appear in only the largest cities, he responded to this opportunity to show to the visitors from hundreds of communities just what the land is like in one field of missionary endeavor, the one made familiar to every Bible student.

His motion and still pictures show the beach whereon Samson and Delilah strolled and the city from which the Biblical strong man bore the graven gates. They show the gates. They show the valley of Ajalon where Joshua commanded the sun to stand still. Striking motion and still views are shown of Joffa and Hebron and Bethany and Jerusalem, Bethlehem, Nazareth,

NEW CEMETERY IN MANAWAGONISH ROAD WAS SUGGESTED

A special meeting of Cedar Hill Cemetery Company was called last night to discuss the extension of the cemetery grounds. This meeting was held in the Temperance Hall, Esterville, and was called to order by the president, K. O. Jones. The secretary, W. H. Allingham, explained that the income from the cemetery was not sufficient to pay for the proper upkeep of the place and as practically all the lots were sold the directors recommended that another piece of land be purchased on the Manawagonish road. From this lot could be sold and the funds of the cemetery thereby augmented sufficiently to care for the Old Cedar Hill cemetery, as well as the upkeep of the new one.

THINKS THE FALLS COULD BE HARNESSSED

Professor B. F. Howell, of the faculty of Princeton University, accompanied by his wife and child, arrived in the city yesterday. Great developments are being made in hydro-electric schemes at present. I am not a hydro-electric man myself, but I know that such schemes are being promoted largely in the United States, and British engineers are becoming greatly interested in them. The scarcity of coal and its increased cost are forcing some of the larger industries and the railways into finding ways to keep their plants going without coal. In Pennsylvania this is especially true.

Farms For Soldiers

To the Editor of The Times:
Sir—An announcement through an Ottawa despatch of the 21st inst. in the Times of that date that the Ottawa government has decided to discontinue the purchase of farms through real estate agents, leaves an impression grossly unfair to those engaged in the real estate business hereabouts. It is the more so as the result of the local story in connection with the announcement referred to, to say nothing of the editorial paragraph summing up the whole. In the first place we have the account of a certain alleged offering of farm property from the standpoint of one Major Ashton, and apparently judgment is pronounced after hearing the witness for the prosecution only. Would it not have been fairer to have made some endeavor to get something further before publication or before any pronouncement as to the merits or demerits of what is alleged to have taken place. We might say at the outset that we have no knowledge whatever other than that contained in the Times of this matter, and do not wish to be understood as rushing to the defence of anyone. If there has been any attempt to exploit a returned soldier, any such would and must be condemned, no matter in what manner; and if it can be shown that such has been the case why not let us have the name of any one or more alleged real estate operators so that there may be some distinction as between the sheep and the goats. To do otherwise is to reflect on any and all engaged in the real estate business, and from our standpoint we are jealous of our reputation of some seven or eight years of business life in St. John and throughout the province. The impression gained from the story in the Times that we are referred to is that to have business dealings or re-

lating with real estate brokers is precarious and to be avoided.
It perhaps would occur to most people that what would seem to enter primarily into the cases referred to is the all-important question of value. Apart altogether from what profit was or was not made, were the farms worth the price at which they were offered for sale? This Major Ashton does not say, nor do we know whether or not Major Ashton is an expert or authority on the value of farm lands. If they were offered at a price far in excess of the value placed upon them by the appraisers then some steps should surely be taken to prevent any recurrence of what is plainly a cornering scheme or a plan to tie up the best farm property. Then, surely it is true from the opposite standpoint, that if the price offered represents the value, the question of profit or gain does not enter into the transaction. In such a case the difference as between what was paid and what it was sold for represents a loss by the farmer rather than the returned soldier. Nor can it be said that it was any fault of the man who made the re-sale, as the farmer apparently was satisfied or he should not have sold. At first glance it would appear that there was a squeal by the former owner when he realized that a good profit was made on the re-sale. Real estate business differs little from trading in any other line. The produce dealer who is satisfied to sell on a commission basis must be satisfied with what he can make on that basis. Should he buy and sell he is entitled to whatever profit he can make, be it large or small, and the same applies to almost any line. Much is made of the announcement that the government has decided to purchase direct from the farmer, and why not an advocate to carry that principle further and have the farmer sell his produce direct to the consumer, and have the same rule apply generally?

In such an event, the merchant would be quickly eliminated, and a general co-operative plan would then be evolved.
Those engaged in the real estate business under a service for what they receive, that is so far as the broker is concerned; then the dealer is in the same position as the dealer in any other line of business, and is entitled to his profits, provided of course that he is fair, and this applies in any and all lines of business. In everyday life we find someone holding up not only the returned soldier but the public in general. Witness the testimony being taken by the living cost commission. Should we eliminate the merchant the dealer and the trader is the evil then cured? We think not. So far as those engaged in the purchase or appraising of farms on behalf of the government are concerned we should like to know if their best qualification is that they are major or colonel. We will hope that the public generally and for the sake of the returned soldier that they know something of the actual worth of farm lands. If this is not the case then the returned soldier will get anything but a square deal, and the farmer, if no one else, will have the advantage. We have gone into this matter to some little extent in order that fairness may be done to all concerned. Thanking you, Mr. Editor, for so much of your valuable space, we beg to remain, Very sincerely yours, TAYLOR & SWEENEY.

The committee appointed by the Board of Education to consider the question of salaries of the instructors of the Normal School will meet July 4, at St. John, and will make their report to the Board of Education. Enough food to provision the people of the United Kingdom of Europe until their own farm crops have been harvested this fall will be in transit by July 4, it was announced at New York Monday, by the American relief administration through Theodore F. Whitmarsh, an administration representative, just returned from Europe. THE ICE SHORTAGE—HOW TO COPE WITH IT. The shortage of ice this summer, due to the unusually mild winter, is more serious than is generally supposed. The supply for this year is about one-third of that of last summer. Ice dealers are urging the greatest economy to be observed in the supply of ice over this summer. An empty ice box has on a shelf in a well known store. It is next to impossible to keep food fresh or cool in the ice box. The obvious remedy is to use the ice box in empty as well as when it is full. The things the housewife will have to do to cope with this season. Leaving the ice box and refrigerator scrupulously clean will help a great deal. Swastika Automatic Ice Makers in water makes an excellent solution to this difficulty. It can be found in cuts all grocers and will sweeten the refrigerator. Swastika may be obtained from any grocer—Advt.

Twelve Millions Died of Influenza

(Toronto Telegram)
It is estimated that up to the present more than 12,000,000 deaths have resulted from the greatest and worst of influenza epidemics. An appalling death toll to be sure, but although the number of cases has been so gigantic, the percentage of deaths is not so high as to be more than seven or eight per cent. It must also be borne in mind that white races suffer less than black. Fifty per cent of the inhabitants of northern Labrador perished during the winter from an epidemic of flu. One village, with a population of over 200, was wiped out, while at another—Hebron—only a few of the 200 inhabitants were left to tend the sick and dispose of the bodies of the dead, medical aid being unobtainable. In some South African kraals the deaths have numbered forty per cent of the cases. In England they are hardly three per cent. The greatest mortality from any disease at the present time is from cholera, of which there is an epidemic in Bombay. One in every two cases is fatal. Smallpox among unvaccinated races is deadly in forty cases in a hundred. In Samoa smallpox broke out in the village of Hapana, and killed 100 out of 400. It was followed by typhoid fever, and at the end of twelve months there were only two survivors left. In the Pacific Islands measles is terribly destructive, whilst in Madagascar, during a recent epidemic, thirty per cent of those who caught measles died. At its worst, scarlet fever kills ten per cent. Typhoid fever is much less to be feared nowadays than was the case twenty years ago. In the Sudan, in 1884, a very large proportion of our forces contracted it, and thirty-nine per cent of all cases proved fatal. On the Nile, in 1898, when Kitchener smashed the power of the Mahdi, typhoid proved fatal to twenty-eight per hundred, and the average was much the same in the South African War. The mortality from typhoid is now down to seventeen per cent of cases, but inoculation appears likely to put an end altogether to this much-dreaded disease. New York Gull for the Jewish Blind, through the sale of lead pencils in the last three years, raised \$100,000 to provide a permanent home for the organization.

Young Woman Held Prisoner In House

Miss Donahue Tells Story of Abduction in Boston

Boston, June 25.—A story of being held a prisoner in a house at 7 Newman street, South Boston, for almost twenty years by several young men, who rescued her of a gold watch valued at and threatened to kill her if she med, was told to Capt. John J. Mahoney, of Division 12, South Boston, by Miss Donahue, aged twenty-nine, yesterday.

is charged with robbery. Capt. Rooney said that a more serious charge would be preferred against him. Miss Donahue said that when she got off a car at the corner of West Broadway and Dorchester streets she requested a group of young men to direct her to a Fields Corner car. The men volunteered to show her to a car. She said that they started along Dorchester street and that when she realized something was wrong she was threatened with death.

When they reached Newman street the men took her to the house at No. 7. She said that one of the men, whom she has identified as Mahoney, climbed through a rear window and opened the front door. Capt. Rooney said that the house is occupied by a brother-in-law of Mahoney. Miss Donahue said that when released she was warned that if she "squealed" she would suffer the consequences.

COUNTRY STILL CALLS FOR RAIN

The weekly report of agricultural conditions in New Brunswick, as reported by District Representative of the Department of Agriculture, Fredericton, under yesterday's date, is as follows:—

"Rain is badly needed in all sections of the province. This is especially true in districts where the soil is light and sandy. Crops are suffering very badly by reason of lack of moisture at present and will not until there is rain. With rains in the near future it would still be a good fair crop. Clover is showing up exceptionally well.

"The apple crop promises well. There has been a good set of fruit with very little drop until the present. The strawberry crop is ripening and with a few showers will be heavy.

"The potato crop in Madawaska and Victoria counties is being attacked by the potato flea beetle, which is doing some damage; otherwise the crop is doing well.

"Reports from the dairying districts state that cows are showing up well in milk production. This is particularly true of cows that were wintered well.

"Sheep shearing is about completed. More than 60,000 pounds of wool has been graded at the Department of Agriculture Wool Warehouse in Fredericton. The grades pronounced the wool first-class and superior to Ontario wool."

man, an astute lawyer and politician, and a shrewd business man. He devoted the best years of his life to the public service at a salary far below what he would have earned in legal practice, so that the news that at his death he had accumulated a fortune of two millions caused much surprise to those who had always thought of him as a public man and a lawyer. It is understood that he made the bulk of his wealth in fortunate investments or speculations in oil in association with the Standard Oil

people who are on the inside in this industry. The late Mr. Hanns worked his way as a boy, and it is true that many another Canadian millionaire started life without a dollar, but for the good of the country let us hope that all are not Bolsheviks, who believe that many of the large fortunes which men have made in Canada and the United States were made, not by the sheer merit and hard work of boys who were born poor and went to school in their bare feet, but because our financial, industrial, and govern-

mental systems have been carelessly thrown together, and have in them loopholes of which not only the clever but the lucky take advantage. Some seem to fancy that because ten poor boys in a million become vastly rich at the age of fifty the conditions of life are all right, and any or all of the million boys could have become as rich as the

other ten if they had been equally deserving of success. Of course it is not so. Those who like to flatter the fortunate tell how the poor boy by sheer merit became a millionaire. But if one examines in detail the making of a great fortune he usually finds himself wondering why it is that we make lotteries illegal, and yet permit huge prizes to be drawn by a few out of the reservoir into which pours the country's wealth. BANKING VIEW OF SITUATION

Improvement in Employment Conditions but Labor Unrest the Disturbing Factor — Arbitration Then and Now

(Bank of Commerce Circular.)
The general unrest of labor has reached an acute stage in Canada, and it cannot be said that business is yet on a stable basis. Official returns are to the effect that there is a steady and fairly rapid improvement in employment conditions in Ontario and Quebec, in which provinces the chief industries of the Dominion are located. Reports received early in May from 1,869 firms, employing 147,899 persons, indicated a considerable increase in the number of persons upon their pay-rolls, and at a later date in May there was a further increase. The industries which show the greatest activity are lumbering, railway construction, textiles, leather, glass, stone, tobacco, pulp and paper, and the manufacture of vehicles. Farmers all over the Dominion complain of inability to obtain help. In view of the fact that many men are returning from military to civil life, the number of unemployed is not large when compared with the number out of work when the war began. It is evident, therefore, that lack of employment is not the cause of the prevailing unrest, but that it is due largely to the demands by the various classes of workers now on strike for higher wages, a forty-four hour week, and recognition of the right of "collective bargaining." The advances in wages already granted are very substantial but are not regarded by the workers as satisfactory in many cases. Employers are adopting a conciliatory spirit in being their desire to allay the existing unrest as far as possible. No

antagonism exists on the part of industrial employers to the principle of bargaining with organizations of their own work-people, but there is the strongest objection to the demand that they should deal with councils of workmen representing other industries.

In Winnipeg, Toronto and other industrial centres, strikes exist with a view to enforcing "collective bargaining" a form of "compulsory arbitration." In Manitoba a demand has been made upon the government to call the legislature together to pass a measure compelling employers to deal with councils of workmen representing groups of industries whose interests are not identical. In this connection it may be interesting to recall that in 1902 the Trades and Labor Congress of Canada specifically eliminated from their platform the clause "compulsory arbitration" and substituted the word "voluntary." This action was taken in connection with a proposal that the Dominion parliament should pass a measure requiring the compulsory settlement of railway labor disputes. Objection to the measure originated with the railway employees and their attitude was endorsed at the succeeding session of the Trades and Labor Congress.

The present unrest will seriously deter progress in the readjustment of industries to a peace basis; indeed such a readjustment cannot proceed satisfactorily until employers can confidently depend upon the faithful observance of contracts made with their employes, and are assured that the efficiency and wages of labor will remain on a basis that will enable Canadian products to be marketed in competition with similar products of other countries.

CHIVALRY AS IT IS TAUGHT IN TORONTO

(Toronto Telegram.)
"Goodness me, now what was that?—Silent he, it was the cat!"
"You're right, it was the cat."
So runs the rhyme in Pinafore about the merry cat of nine tails, but Pinafore, as everybody knows, is a comic opera, and there was nothing comic about the conduct of or its consequences to a boy who for the purposes of this story may be known as "Bill."
"Bill" made the acquaintance in his home the other day of a one-tailed cat 18 inches long, 3/4 of an inch wide and an eighth of an inch thick, held in leash by his father. Magistrate Kingsford was responsible for the introduction of "Bill" to this animal of the sharp claws. He ordered "Bill" father to make "Bill" acquainted with it when the latter appeared before him in police court the other day on a charge that concerned the protection of two little girls from such a "Bill."
"Did the meeting with the cat hurt

"BILL" you ask. Detective Crowe, who was present at the introduction, says that the walls of "Bill" testified to the fact that it did in the nineteenth times that "Bill" father repeated the introduction as ordered by the magistrate.

The hope of the magistrate and of "Bill" father is that Bill will henceforth be a man and not a jungle savage as regards his attitude to little girls and women generally, and that his fists will clench and his blows be hard when they need protection.
The warning of the magistrate is extended to other youths who seem to think the proper attitude of budding manhood to regard as an object of prey instead of something to be protected every girl who crosses their path. They can be seen at the dark places of the streets of an evening where they hope to escape detection, and to them passing girls are "janes" or "skirts" or "chickens," who can be insulted at will.
If the instincts of manhood cannot be wakened up in them in other ways Magistrate Kingsford proposes to try the same remedy as Bill has just had—a dose administered by fatherly hands.

DR. WILKINS, ACCUSED OF WIFE-MURDER, TAKES STAND IN OWN DEFENCE

Mincola, N. Y., June 25—District-Attorney Weeks resumed cross-examination of Dr. Walter Keane Wilkins in supreme court here today in an effort to break down the direct testimony of the defence in denying the state's claim that he murdered his wife, Julia. Dr. Wilkins was subjected to a grueling examination regarding his domestic relations and the story he told the police and repeated in court yesterday to the effect that Mrs. Wilkins was killed by burglars who had entered the Wilkins home.
As the chief witness in his own defence, Dr. Wilkins yesterday denied in detail many of the circumstances upon which the prosecution has built its case. Asked directly by his counsel if he killed

Mrs. Wilkins on the night of Feb. 27. Two navy seaplanes made a successful flight from New Orleans to Chicago.
