WORSE ON OUTSKIRTS

As Low as 18 Recorded—Campbellton Had it Twenty-Five and Edmundston Thirty—T was the Coldest Day in St. John Since 1907

The coldest weather in St. John since 1907, is the record for today and a change of about sixteen degrees has been experienced in twenty-four hours.

The highest temperature yesterday was two above and the mercury commenced to drop toward night, and at 9 o'clock it was at 4 below.

The temperature for today is the coldest since 1907. On January 17 of this year, it was 18.0. The only redeeming feature since yesterday is that a dead wind today is at twenty miles.

Unofficially the coldest today has been 35 below, the glass registering that at D. McInnis, Marsh Road at 8 o'clock this morning.

The streets during the morning presented a deserted appearance only those who found it absolutely necessary venturing forth.

The extreme weather resulted in a thick vapor hanging over the harbor, probably the heaviest in many years, making it necessary for tug boats to sound their whistles and sirens almost continuously.

Reports from other sections of the province show it even more severe than here. Moncton reports weather fine with west wind and temperature at 17 below.

It is alleged that three men on one occasion voted to themselves \$2,500 each out of the funds of the bank, then in process of formation, and that Fraser was forced to go out and supply the shortage in the \$20,000 cash fund which was necessary to secure the charter, and that this was done and other further shortages made up by the hypothecation of notes turned in for subscriptions for bank stock, which, out of a total of \$100,000, was a substantial business man. CONVENTION OF LIBERALS OF KINGS, FEB. 15

Contest in Province to be Run on Party Lines—Strong Resolution Sets Out Position—Dr. McAlister Enthusiastically Received

Hampton, N. B., Jan. 16.—At the invitation of Dr. McAlister, M. P., the Liberal party chairman of Kings county and the officials of the Kings county Liberal Association met here in Hampton yesterday for the purpose of discussing matters of interest to the party.

Dr. McAlister surprised his friends by declaring that he was more encouraged by his profession than with politics and by the suggestion that he would be quite willing to give way to some other good Liberal. He was not discouraged in this course by the remarks of those present, though he must have felt much pleased at the complimentary references to him as a representative.

Through the weather was below zero every parish in the county save one responded to Dr. McAlister's invitation and the earnest enthusiasm shown indicated beyond any doubt the feeling of the Liberals of Kings county against the present local administration.

The representatives were unanimously in favor of an early convention to nominate Liberal candidates in opposition to the local government and arranged that parish meetings should be held throughout the county on or between the dates Jan. 25 and 30 to select delegates to a Liberal convention to be held at Hampton Wednesday, Feb. 15.

Coun. S. H. Newelling was chairman. Dr. McAlister reviewed the situation and made several suggestions which were embodied in the following resolutions, moved by E. Carter and seconded by Coun. Frank Preece:

Whereas, experience has shown us, election campaigns the issues between the Liberal and Conservative parties are not clearly defined as they are between the Liberal and Conservative; and

Whereas, in the last provincial campaign this was strongly urged by Mr. Haen and his associates as a reason why Liberals should give him their support; and

Whereas, relying upon his pledges of fair play to all parties many Liberals were induced to give his so-called coalition party a trial; and

Whereas, upon Mr. Haen's return to power his administration was conducted strictly upon Conservative lines and Liberal office holders throughout the province were dismissed without reason; and

Whereas, Mr. Haen, the leader of his so-called coalition government, in the federal campaign months last took a most active part in opposition to the Liberal administration, an example which was followed by every one of his supporters in having been transferred from Winter street to Dufferin school;

The secretary reported that \$24,200 and \$10,000 redemption bonds had been issued, and that the coupons for the interest had been destroyed. Miss McDade was granted a three months' leave of absence without salary. Miss Myles' salary was advanced to \$400, and John McKinnon was awarded an increase of \$5.

NO WORD OF THE THEA. Opinion is general among shipping men here that the Maritime Thea, which was out from Dorchester since December 12, and bound for New York, has foundered in the Atlantic. The ship was owned by the Hon. Major, son of Woodville Road, West End. The crew were foreigners. It is understood that Captain T. H. Sellar, of Parrsboro, the captain of the Thea, had his father with him as mate.

He was found aboard the steamer Leclerc, and was kept under guard for a while by the manager, and later he was captured by Sgt. MR. PETER'S RETREAT. Again last evening St. Peter's church was well filled with the female parishioners, who listened to an excellent sermon by the Rev. Fr. Patrick. He spoke upon the subject of "A Model Mother," and set forth the ideals which should dominate the minds of mothers, how they should instruct their children in the gospel, and by good home training, and domestic happiness, inspire them with lofty ideals and an ambition to become worthy citizens, and dutiful children of God. The service will be repeated for the women this evening.

COUNCIL COUNCIL. The January meeting of the municipal council is being held this afternoon in the court house. It was stated before the meeting that there would likely be strong opposition from the city members to the proposal of the buildings committee that a new city and county building be erected in the Market Square. The estimates for the year will be taken up in a report from the finance committee and a number of routine matters dealt with.

WOODSMEN NOT SCARCE

According to report at the Bangor woodmen's agencies very few men are being shipped to the woods now, and the shipment out of the state, to such companies as the Connecticut River Lumber, is lighter than usual at this time of year. A few men are leaving their jobs in the woods, although not nearly so many as usual, and those who drift down to Bangor do not stay much longer than 24 hours before returning to their homes. It is estimated that there were about 100 woodmen in the charge class of labor in the city Monday, looking for work. The smaller cut of the present season may be responsible for the decreased demand for men, although the fact that the crews are staying in the camps better than usual accounts for it in a large measure.

Joseph Sinclair Finds Himself in Awkward Predicament After Encounter With An Automobile

New York, Jan. 17.—In the middle of brilliant Broadway last night, at the cold and windy corner of Seventeenth street, there suddenly burst into the glare of the headlights a man clad like anybody else from the neck to the waist and from the heels to the ankles, but as bare between the waist and the ankles as a pig. This apparition, which appeared to have been a somewhat sophisticated neighborhood, but it shocked nobody more than Sinclair, a thirty-two year old. He had just dangled one foot over the edge of a trolley car step to alight when the forward man, grasping the railing, was caught him. There was a sound of rending cloth, the automobile continued and there stood Sinclair unprepared, yet a living definition of a hiatus.

INVENTION OF THE SALAD.

Delicate cookery has long been known to flourish best in those lands where roast beef is hard to get. It was starvation that invented the salad, for example. Somebody had to eat grass or go hungry, so he put vinegar and oil, pepper and salt in it, and lo! it made dry bread seem like a dinner. I do not doubt that we shall like the meat trust for a varied dietary ere we get through with it or it with us, which ever way the thing comes out.

The Japanese government believes that the careless manner in which the Japanese goods for export are made is injuring Japan's foreign trade. In consequence, the authorities intend to draw up a law for the examination of all such goods before they are exported, and a bureau of examination will be established in Tokyo and later in other commercial centres.

THE BRITISH PLAN OF INVALID INSURANCE

It is a Scheme Apart From Old Age Pensions and Unemployment Insurance

The Evening Chit-Chat

By RUTH CAMERON

"He tried to do too much." I overheard those words on a trolley car today and it suddenly came over me that a very common epithet they would be if it were them whenever we had reason to.

You were flurried and fussed and hurried about getting them done up and off in time. You went in town the day before Christmas to get some ornaments for the tree which had been overlooked until then.

Oh, yes, you might easily have gotten something that would have done at the little corner store, but it wouldn't have been just what you had set your heart on, so you went in town and wore yourself out, body and mind and soul by contending with that wearing, confining crowd of half-tannap shoppers.

And Christmas Eve you sat up until nearly midnight to finish that sofa pillow that had so much more work on it than you realized.

And Christmas morning you had to get up early because you were going to have all the relatives and have a very elaborate dinner.

And an absolutely inevitable consequence of all this, on the day when "Peace and Good Will" should have reigned in your heart, you were cross and tired and hardly able to keep from bursting into tears.

There is an inebriating expression for this method of dissipating our powers which I like for its forcefulness. It is "biting off more than one can chew."

I think this insane inclination to "bite off more than one can chew" is a disease of this generation—especially with the women.

TEACHERS APPRECIATE THE ANNUITIES SCHEME

The teachers in the public schools must, as a rule, themselves provide against the day when their age or infirmities will demand their retirement from their profession, and many of them are taking advantage of the provisions of the government annuities scheme to secure a competency for their old age.

Many might follow the example of a woman in one city, who was forty-three years of age, had no heirs, and her salary over and above her weekly expenditures was just barely enough to keep her in the days when the shadows began to lengthen.

But soon after her \$1,000 had been paid to the government she became an invalid and was totally incapacitated from performing her duty. Her case came under the provision of the act which provides that if invalidity or disablement occurs, a person, if he or she has paid in sufficient to secure the annuity though then under fifty-five years of age, the payment which she had made gives her an annuity of \$100, so long as she may live.

THE ANNUITIES SCHEME. The teachers in the public schools must, as a rule, themselves provide against the day when their age or infirmities will demand their retirement from their profession, and many of them are taking advantage of the provisions of the government annuities scheme to secure a competency for their old age.

ULCERS AND SORES

Cannot Resist Zam-Buk's Healing Power

An illustration of the way in which Zam-Buk cures even the most serious and chronic cases of ulcers, eruptions and sores is provided by Mr. R. H. Barker, of Glenora, Ont. He says:

"I would not have believed that an remedy could cure so quickly, and at the same time so effectively, as Zam-Buk cured me."

"My face began to be covered with kind of rash, which itched and irritated. This rash turned to sores, which dis-comforted me and began to spread. I first tried one thing and then another, but nothing seemed to do me any good, and the eruption got worse and worse. My face was just covered with running sores."

"I was so annoyed that I have told the facts to several friends, and I have no objection to your using my experience for the benefit of other sufferers."

"Zam-Buk is pure herb and in composition, and is the ideal balm for babies and young children, for whose tender skin causes eruptions are so dangerous. Zam-Buk is a sure cure for eczema, chapped hands, frost bite, blood poisoning, varicose sores, piles, cold sores, chancres, softened patches, babies' eruptions and chapped cheeks, cuts, burns, bruises and skin injuries generally. **UTOPIA REALIZED**

**A Land Without Millionaires, Without Trusts, Monopolies or Disproportionate Personal Fortunes**

(Ottawa Citizen)

A land without millionaires, without trusts, without monopolies, without disproportionate personal fortunes! Surely this was the realization of Utopia. But it does exist, in despite of the Greek manner of its imaginary counterpart, this land of fair play, of equal opportunity, of privileges for none, where no poverty exists nor the shame of poverty.

The Spartans checked avarice, or avarice sought to check it, by instituting a coinage of iron. It was a clumsy device, for the people who lived in the valley of the Eurymachus were noted for their passion for filthy lucre. New Zealand, a little nation of the South Pacific, checks poverty and avarice by providing land for all. It permits none to have a preponderating share of pasture lands, inland waters or forests.

The Wellington, N. Z. Dominion which speaks with considerable official authority, declares:

"There are no millionaires in New Zealand. Wealth here in this little nation is divided among the people more evenly and more justly than in any other country of the globe. We have no poor people dying of hunger. A progressive country, always ready to help the people, assures to every one, according to their several powers, the means of making a comfortable livelihood. The country knows no trusts nor monopolies nor groups of people who live in wealth and extravagance at the expense of the community. Industrial peace reigns here. Politics is not dominated by graft nor commercial speculation. The great mass of the people control public affairs. The land question is solved by an application of the basic principle that the ultimate happiness and prosperity of the nation depends upon the occupation of the soil by the people with a reasonable limitation of the area to be granted each one.

In order to attain this end the government has monopolized all public offices, and assumed control of all national activities, and for individual enterprise subjects a strict watchfulness over all classes in the community. The government con-

Renfrew Beat Quebec.

Renfrew, Ont., Jan. 16.—The Renfrew hockey team, after four straight defeats, succeeded tonight in breaking into the win column. Quebec, the local rink, and after a hard game, repulse with roughness and stiff checking, the home team went out by a score of 10 goals to 5.

Halifax Beat Truro.

Truro, N. S., Jan. 16.—(Special)—The Halifax Crescents and Truro hockey teams battled here tonight to a 6 to 1 score, with the Halifax boys on the long end.

**Moncton Trims New Glasgow.**

Moncton, N. B., Jan. 16.—(Special)—About 2,500 spectators saw the Moncton Victoria play the New Glasgow hockey team to a standstill in the first professional league game here tonight.

There was nothing to the game but Moncton, and when the gong sounded at the finish of the last half the score stood 13 to 3 for the home team. From start to finish Moncton scored almost at will and goals came so fast that few in the crowd were able to tell what the actual score was.

Tomorrow's Game.

Tomorrow night's N.B. H. L. game between St. John and Fredericton in the Quebec rink should be one of the best of the season. The blue and white up to the present have an unbroken record of victories, but it will be necessary for them to win tomorrow night's game to get well placed for the championship. Fredericton also has a clean slate.

**Opera House**

The Skelville Tribune says:—On Friday the Victoria hockey team expect to go to St. John to meet the team which has been presenting that city in the New Brunswick Hockey League. This is quite an ambitious contract, but the local rink is confident it will at least be out to do their best and give the St. John team something to do. Even if they lose, they will have shown the game they are certain to show the Winter Park people that Skelville's material will be worth watching.

**How to Make Better Cough Syrup Than You Can Buy**

**A Family Supply, Saving \$2, and Fully Guaranteed**

Sixteen oz. of cough syrup—as much as you could buy for \$2.50—can easily be made at home. You will find nothing that takes hold of an obstinate cough more quickly, usually ending it inside 24 hours. Excellent, too, for whooping cough, sore lungs, asthma, hoarseness, and other throat troubles.

Mix 2 cups of granulated sugar with 1 cup of warm water, stir for 2 minutes. Put 2 1/2 cups of water (fifty cents' worth) in a 16 oz. bottle. When the sugar is dissolved, add the water. Make a teaspoonful every one or two or three hours. This is just what you need to help cure a cough. It is the only cough syrup that is really effective.

**Nothing Succeeds Like Success**

It is a glad and proper thing to be the originator of a proved success. The article that has caught on to the public taste may be less than your finger nail, or bigger than your whole body, but it is this: that you have worked your way to the discovery of a commodity that supplies a known and felt want, and that the great world-wide public have unambiguously taken to it.

It has been proved that with H. P. Sauce, made by the Midland Vinegar Company, of England, the largest and best-selling vinegar in the world, is first distributed.

H. P. Sauce, compounded solely of most delicious Oriental fruit, is a most delicious vinegar. It is made up for you to compare with it for true fruit flavor, and judging from its all ready popularity, the general public have been quick to endorse the good opinion of the manufacturers.

it will be noted, come from the army or navy. It is a fair inference that they started boxing rather late, and have not the speed that would be theirs had they begun boxing earlier in life, and stuck to that line of work.

The fight was staged by McIntosh, at the Olympia. He believes that experience was all that Wells needed, and figured Moir as a trial horse, rather than as a possible victor. He will now go along with the plans to import Langford, Burns and Morris, and will try to secure an American opponent for Johnson.

**The Harston of Australia.**

Letters received by Tommy Burns, former heavyweight champion of the world, from W. F. Corbett, the sporting writer and authority on things pugilistic in Australia and from his son, Claude, also an Australian newspaper man, throw some interesting side lights on the recent invasion of the Antipodes by American fighters, including Billy Papke, Clabby and "Doc" Thompson. The letter from Claude Corbett is especially worthy of reference as it deals with the Papke-Wilkinson fight. He writes:

"The American contingent of losers have all had a fight on each man has been successful. Papke was the first to fight and beat Ed. Williams of Victoria, knocking him out on the fifth round. The crowd looked on with a great deal of his roughing tactics, but the fault was mainly with Williams, who to save himself from being punished clinched a lot.

"Bronson the lightweight, went to Brisbane and beat Tommy Jones on points, and Clabby made a great impression. He beat Bob Bryant in eight rounds, after holding him off until he was above all some remarkable fine boxing and is quite the best of the bunch.

**Langford Won.**

San Langford had an easy thing with Fred Atwater, a very much larger negro in Ulula last night. Three rounds was enough for Atwater. This is Langford's best appearance before he sails for Europe.

**Bouts in Bangor.**

In the Gaiety Theatre, Bangor, on Saturday night, Johnny Stewart, of Bangor, and Kallio, of Rockland, were scheduled to a draw. In the semi-finals Kallio stayed forty-five seconds with Ellis Rankin, of New Glasgow, and Tommy Sheel and Young Martin boxed six slow rounds to a draw.

**Basket Ball**

Two interesting games of basket ball were played last night in the Economy Y. M. C. A. hall, Beussie street. The Y. M. C. A. won from Millidgeville 49 to 11, and Esplanade won from Portland 29 to 12.

**How to Make Better Cough Syrup Than You Can Buy**

**A Family Supply, Saving \$2, and Fully Guaranteed**

Sixteen oz. of cough syrup—as much as you could buy for \$2.50—can easily be made at home. You will find nothing that takes hold of an obstinate cough more quickly, usually ending it inside 24 hours. Excellent, too, for whooping cough, sore lungs, asthma, hoarseness, and other throat troubles.

**Nothing Succeeds Like Success**

It is a glad and proper thing to be the originator of a proved success. The article that has caught on to the public taste may be less than your finger nail, or bigger than your whole body, but it is this: that you have worked your way to the discovery of a commodity that supplies a known and felt want, and that the great world-wide public have unambiguously taken to it.

**MISSILES FLEW IN MAXIM'S**

All Round Fight in New York Restaurant; Men and Women Hurt

New York, Jan. 15.—There was an all-round fight in Maxim's restaurant, an after-theatre resort at 110 West 28th street, at 3 o'clock on Thursday morning, with a good deal of blood spilling, a dozen or so heads cracked, many eyes blackened, gowns and dress suits torn and the restaurant wrecked.

When the smoke of battle cleared, a special policeman stood in the air, and three men lay at his feet, while automobiles and cabs scurried in every direction, and women who were unable to get the diversion died a marathon, some in the driveway, and some on the sidewalk.

Eight men, most of them said to be dealers in automobiles, were seated at a double table refreshing themselves with wine. The morning papers passed, but the dining room was still crowded with diners, or so heads cracked, many eyes blackened, gowns and dress suits torn and the restaurant wrecked.

When the smoke of battle cleared, a special policeman stood in the air, and three men lay at his feet, while automobiles and cabs scurried in every direction, and women who were unable to get the diversion died a marathon, some in the driveway, and some on the sidewalk.

**"COUNT" IS CONVICTED**

D'Aubley Sentenced to Month's Jail Which he Had Already Served

Tours, France, Jan. 17.—"Count" d'Aubley de Gatin, has been convicted and sentenced to one month's imprisonment.

As he already had spent more than a month in jail while awaiting trial, d'Aubley was given his freedom. The speaker announced the findings of the court.

The judge announced that he had found d'Aubley guilty of fraud in connection with the sale of a Corot.

The sale of a Corot, which also was on trial with her husband, but against whom the charge was abandoned by the prosecution, was acquitted.

d'Aubley was accused by the Duchesse de Claisen-Prussia with fraud in connection with the sale to her and her late husband, Charles Hamilton Paine of Boston, of a collection of pictures.

The duchess withdrew her complaint after the case had been in the courts for several days, but the public prosecutor refused to stop the proceedings. The defendant maintained his good faith in his dealings with the Paines, claiming that if the pictures were not what he represented them to be, it was because he had been deceived himself. He also defended his claim to the self-imposed title of count. His wife was a Boston woman.

**HEIRESS WEDS A POLICEMAN**

The "Best Dressed Woman in New York" Becomes Bride of Patrolman Werner

New York, Jan. 17.—Following the experience of her sister Victoria, who ran away with the family coachman, many years ago, Miss Gella Morisini, daughter of the late Giovanni Morisini, once partner of Jay Gould, this week started her friends by marrying a former policeman.

At the death of her father two years ago the bride inherited most of the fortune of \$2,000,000 he left, including the beautiful family estate at Riverdale, adjoining the homes of George W. Perkins, former partner of J. Pierpont Morgan and Darwin Kingsley, president of the New York Life.

Up to the time of the death of the elder Morisini, his daughter was credited with being the best dressed woman in New York, her dressmaker's and milliners' bills amounting to \$100,000 a year. She is a beautiful-looking woman of the Italian type and had many admirers, but turned a deaf ear to all of them until the policeman, William M. Werner, stopped her non-friendship from getting beyond her control one day on the speedway.

Her brother Giovanni, married Miss Bond, a great great grand niece of George Washington. His sister's marriage to Werner came as a complete surprise to society, which had made up its mind that because of the unhappy experience of her sister, she would remain single. In order to make himself eligible to become the husband of the heiress, Werner divorced his first wife, and as a preliminary to taking full charge of her estate became superintendent of the property, a position he held up to this week.

**Lobster Rarebit the Latest**

Washington, Jan. 14.—Consular reports from Prince Edward Island declare that the best part of the lobster has been undiscovered until now. Hitherto the claw and tail, all other parts having been rejected by the packers. Now, however, what has been extensively used as fertilizer in the Canadian provinces has become "lobster rarebit." It consists of a cross-shaped meaty layer, the liver and the roe. Spine is added to these components, which are mixed in the following proportions: Six-tenths of three-tenths liver and one-tenth roe.

Further, it is declared, that far from regarding lobster as the medium cause of stomach trouble, physicians of Prince Edward Island have for some time used lobster rarebit in the treatment of certain ailments.

H. P. Sauce, compounded solely of most delicious Oriental fruit, is a most delicious vinegar. It is made up for you to compare with it for true fruit flavor, and judging from its all ready popularity, the general public have been quick to endorse the good opinion of the manufacturers.

A special programme of music has been arranged. During the week there will be addresses delivered each night by ministers from city churches. One interesting feature of these meetings is the interest shown by workers who take part in the Torrey campaign. Several of the personal workers are present and are enthusiastic in keeping up the revival interest in the city. This is quoted by church members to show that the Torrey campaign was not a failure as some have intimated.

### EXMOUTH ST. SLEIGH DRIVE

Are you for a letter St. John? The Epworth League of Exmouth street church has given an answer in no uncertain voice by treating its members and friends to a sleigh-ride and supper which is but a fore-taste of the good things both social and literary to be enjoyed by the society during 1911.  
At 7:30 last evening a party numbering about thirty gathered at the church where the "Moonlight" sleigh four was already in waiting. All arrangements being made the merry party were soon on their way eastward. The sleighing was excellent and although a certain Jack Frost made his presence felt he times still everybody thoroughly enjoyed the drive as the happy faces in the silver moonlight and the joyous songs which sounded on the evening air fully proved.

On reaching Torribun the horses were turned homeward and on arriving in town again all partook of an excellent repast which the ladies of the social committee had prepared in the church schoolroom. After a vote of thanks had been tendered to the social committee and appropriately replied to, speeches were in order. Addresses were given by the president of the society and by the pastor, Rev. W. W. Brewer, who gave many valuable suggestions for the improvement of the society. After singing the national anthem, the happy party dispersed to their homes thoroughly satisfied with the outing and looking forward to many such in the future.

Question to Come Up at Annual Meeting of the Church Tomorrow Evening

At the annual meeting of the congregation of St. Stephen's Presbyterian church held tomorrow evening, the question of a vested choir will be discussed and a vote taken on the advisability of having the choir uniformly governed. This matter came up last year in connection with choir matters and was approved at that time, though no action was taken. At tomorrow night's meeting the congregation will be given an opportunity to vote upon it and it was said today that the vote would probably be favorable. Officers will be elected and the reports of the year submitted.

### REV. G. A. ROSS TO REMAIN IN FAIRVILLE

Chooses Present Charge in Place of Call from Sackville Methodist Church

At the second quarterly meeting of the official board of the Fairville Methodist church last Friday evening, a unanimous invitation was extended to the present minister, Rev. George A. Ross, to remain another year. In replying, Mr. Ross said that he had received a call from the Sackville circuit, to become their pastor, and asked that his board allow him until Monday evening to decide whether or not he would accept.  
The adjourned meeting which was held last evening was attended by many, and Mr. Ross, in a short speech, declared that, after weighing the matter carefully, he had decided to remain in Fairville.  
The board received the announcement with great enthusiasm, particularly as it was well known that great pressure had been brought to bear on him from various sources to induce him to accept the invitation of Sackville, which is looked upon as one of the most important churches in the New Brunswick circuit.  
Not only is the stipend larger than he is now paid, but the advantages in intellectual attainment and intercourse afford an alluring field for a progressive clergyman, and particularly one of such striking ability as Mr. Ross.  
Recognizing the fine spirit exhibited by their pastor in considering his church as of primary importance, the board, in a hearty vote of appreciation, and pledged themselves for renewed assistance to him in every way.
