VOL. XX., No. 134

Detective Power Denies "Third Degree" In Murder Case

OPPOSES GRAIN SHIPMENTS

NO COERCION IS USED IN GODWIN CASE

Com. Thornton Considers Taking Action to Defend Detectives' Course.

ALWAYS CAUTIONED

Suspect is Given Fair Warning in All Cases, is Statement.

Sergeant-Detective Power this morning emphatically denied that any "third degree" methods were used either by himself or his men since he took office. With reference to the Whiteside case, he pointed out that the court records will speak for themselves. He said they show that no coercion was used against Godwin, and while their evidence was being given lawyers were present for the prosecution and the defence.

Commissioner Thornton this morning said he had not yet taken any steps toward an investigation into the charges of "third degree" in connection with the "confession" of Stewart Godwin, the 16-year-old lad charged with the murder of Mrs. Clara Whiteside. He said he had the sworn evidence submitted before Chief Justice McKown, and if this was considered by himself as sufficient he would then ask the council for authority to hold an investigation under oath.

Always Cautioned, He Says.

Commissioner Thornton was asked if it was customary among the police of the city to inform a suspect, on their arresting him, that he was not required to say anything, but that if he did say anything it would be taken down and used against him at his trial. He said that this custom was carried out by both the police and detective forces. Furthermore, he said that when a man was admitted to the police force one of the first instructions he received was to warn suspects.

Asked why this procedure was not complied with when the Godwin boy was taken into custody, Commissioner Thornton said that he was simply detained by the detectives to explain a report that he had been seen near the scene of the crime. He had not been arrested but had been taken merely for examination. The detectives thought, he said, that the boy, having been seen near the scene of the crime, might have some information that would lead them to the detection of the real criminal.

There being no suspicion against him at the time, he was not warned.

The case was again parallel to that of the police asking anyone, no matter who, if they knew anything which might lead them to a clue. He said that the detective did not warn everyone he met and questioned about the crime that anything he said might be used against him, for if he did then those would give any information, and the efforts of the police to get any information would be absolutely futile.

When the police started to question the Godwin youth, Commissioner Thornton said, he admitted things which, on visiting the house where the crime was committed, he confirmed by his action there. It was not until after he had done this that he was suspected, accused of the crime and arrested.

7 Amherst Merchants In Gambling Net

Amherst, March 7.—Seven local merchants will appear in police court tomorrow morning, charged with maintaining illegal gambling devices upon their premises.

The devices are all "poker" cigar machines. Information was laid before the crown by an agent of the Provincial Government.

Needle In Finger; Taken Out of Toe

New York, March 7.—It took two years for a piece of needle about a quarter of an inch long to work its way from Mrs. Mary Borthwick's finger to her toe. The piece of steel was removed when Mrs. Borthwick, whose home is in Jamaica, was being treated for an ingrowing toe nail.

About two years ago Mrs. Borthwick, while washing clothes, felt the prick of the needle in the middle finger of her left hand. For some time she felt occasional pains in the finger, although she had at the time of the accident removed most of the needle. About eight months ago she felt severe pains in her knee. Recently she had complained of an ingrowing toe nail and consulted her physician. He removed the nail of her toe and the bit of needle came out.

WILL GET 2 MONTHS PAY IF LAID OFF

Civil Service Reduction to Be Made Gradually and With Consideration.

Ottawa, March 7.—While the Government plans reduction in the civil service they will be effected gradually and with such consideration as will involve the minimum of hardship. Premier MacKenzie King told the board of control and the city members, who waited upon him yesterday.

The Premier said the Government was now preparing its estimates for parliament which expect to show very substantial reduction. However, any that were made would not be effective until the first of the fiscal year, April 1.

Hon. James Murdock remarked that any of those laid off would get two months pay which would carry them over until June.

Are Coming To Canadian Farms

London, March 7.—(Canadian Press.)—A Salvation Army party of 80 boys from 15 to 18 years, who have been partially trained and are now going to situations in Canada, sailed for Halifax from Liverpool on the White Star liner Regina yesterday.

The Canadian National Railways sent on the same ship a specially conducted party of 60 men, women and children, mainly farm workers and hotel servants. Another party of 50 traveled under the auspices of the Ontario Government.

Reports Vaccine Is Not Successful

London, March 7.—A tuberculosis vaccine evolved by Prof. Geo. Dreyer, distinguished Oxford bacteriologist, which was the subject of much newspaper comment last summer, has not proved successful, according to the Westminister Gazette, but it says no one has been known to suffer from the treatment.

Apparently the vaccine has not been abandoned and it is suggested that experiments with larger doses may have better effect.

Wire Briefs

Liverpool, March 7.—Because passengers had difficulty in pronouncing the name of the Cunard liner "Tyrrhenia" the owners have rechristened the ship "Lancasteria."

New England.—Rain or snow tonight; slightly colder tonight. Saturday fair and colder; fresh east, shifting to south and west winds.

London, March 7.—The estimates for the British air service for 1924-25 show a gross increase of 781,000 pounds sterling and a net increase of 2,800,000 pounds sterling over those of 1923-24.

Washington, March 7.—Representative Langley of Kentucky and Zihlman of Maryland, both Republicans, denied today that they ever had improperly exercised their official influence and received money for doing so.

Ragone, Burmas, March 7.—The town of Myanaung, on the Irrawadi river, near Prome, was almost entirely burned on Tuesday for a number of years, has been a number of years, has been appointed to receive the province at the British Empire Exhibition at Wembley, London.

Frederickton, March 7.—W. R. Bowler, who has been engaged in immigration and other work in London as N. B.'s representative for a number of years, has been appointed to receive the province at the British Empire Exhibition at Wembley, London.

MINERS IDLE, M'LACHLAN GOES HOME

Hundreds of Men Quit Work to Welcome Released Prisoner.

CHEERED ON WAY

Former Secretary of U. M. W. Has Triumphant Entry to Cape Breton.

(By Canadian Press.) Sydney, N. S., March 7.—Hundreds of miners throughout Cape Breton are idle today in honor of the homecoming of James B. McLachlan. It was at first proposed to suspend work entirely and declare a general holiday, but on account of the delicate situation resulting from the rejection of the Montreal agreement yesterday, this was not done and some mines in the district are working today.

The triumphal progress of the U. M. W. ex-secretary began last night at New Glasgow, where 1,200 miners came in from Westville, Stellarton and Thorburn with two bands and an address of appreciation and congratulations.

In spite of a downpour of rain as the train entered the northern fringe of the Cape Breton mining region early this morning, enthusiastic miners and citizens besieged McLachlan's car at such points as Little Bras D'Or, Florence and Sydney Mines.

At the Sydney depot, where a small crowd had assembled, McLachlan did not at first recognize McLachlan because he had shaved off the long red moustache which was formerly his prominent distinguishing mark.

"Why, Daddy where's your moustache?" cried McLachlan's daughter as she embraced her father.

"I left that in Dorchester," replied McLachlan with a smile.

Mrs. McLachlan had accompanied her husband from Truro, but the rest of the family saw him for the first time when he reached the city.

In a few minutes the demonstration was reinforced by teams of miners, who came in from Glace Bay.

A procession formed and paraded about the city, to the Steel Workers' Hall which was jammed with people, and where the proceedings opened with "the red flag" which is sung to the tune of "Maryland" the old 1922 campaign song "All The Miners Love McLachlan," and "We'll Hang Brudner Sil to a Sour Apple Tree," both to the tune of "John Brown's Body," were sung enthusiastically.

McLachlan is vigorous. The speakers were McLachlan, former Mayor Alex. S. MacIntyre, and Alderman M. A. Mackenzie.

McLachlan has lost nothing of his old vigor as a speaker. His address was along conventional lines, urging the men to stand fast in the ranks of unionism. He was in high spirits and his speech bristled with humorous references to his experiences in Halifax jail and in Dorchester penitentiary, where he had served a sentence for sedition, when released on ticket-of-leave, Wednesday. The speaker exhibited no timidity toward the miners connected with his trial or imprisonment.

Shortly after ten a.m. McLachlan and his friends left in special train for Glace Bay, where a formal civic welcome will be extended, the town council having authorized this unanimously at its last meeting.

Object To Civil Service Economy

Montreal, March 7.—Serious objection to civil service economy on the part of the Dominion Government was voiced here yesterday at the meeting of the re-organized Export Club of this city by Victor G. Bartram, president, in connection with projected curtailments in the department of trade and commerce, which, said Mr. Bartram, threatened seriously to interfere with its efforts in behalf of foreign trade. He suggested that the export club, the bivalent with the Canadian Manufacturers' Association in a protest against any such curtailment. This view was supported by Fred W. Stewart, former president of the Canadian Manufacturers' Association.

Propose Law For Jay-Walker

Albany, N. Y., March 7.—A bill introduced in the State Assembly seeks to regulate the movements of the "reckless jay-walker." The measure provides that "pedestrians shall not use the streets or highways negligently or recklessly, or wilfully refuse to obey the signal of a traffic officer, or recklessly disregard their own safety or the safety of any other person by the use of the streets or highways."

Woman In Nightgown Walks Street in Sleep

New York, March 7.—After walking twelve blocks in her sleep, dead only in a nightgown, in the early morning, a woman who later said she was Christine Bristol, 28, and that she had an apartment at 488 East Seventy-first street, became hysterical when she awoke as Patrolman Daniel J. Mully approached her in First Avenue near Eighty-fourth street. The patrolman threw his overcoat over her and called Dr. Kand of Reception Hospital, who took her to that institution, suffering from exposure.

After the young woman had been calmed she said she had left her home once before in her sleep but awoke after walking a short distance and found her way back alone.

BRITISH PREMIER URGES HUMANISM

Says Too Much Over-indulgence in Pleasure and Empty Honors.

Brighton, England, March 7.—Deserting the role of political leader of the British Empire for a brief hour yesterday, Ramsay MacDonald stood forth as the apostle of humanism at a gathering of delegates of the Free Church Council. The subject of his address was the "Social Implication of Christianity."

The present was an age of conquest over nature, Mr. MacDonald said, "but, thank God, this also is an age when the still small voice of spirituality is challenging the materialism of the day."

The Premier asserted that there was at the present time too much attention to over-indulgence in pleasure, too careless an observance of the Sabbath; too much attention to empty honors; and not enough to human values.

FOSTER WOULD CUT CABINET NUMBER

Sir George E. Suggests 12 Ministers - Casgrain Advises Quit Nations League.

Ottawa, March 7.—In the Senate yesterday Sir George E. Foster suggested reduction in the number of Cabinet ministers from 17 to 12 by the merging of several departments in the interests of economy. He felt that any tariff reduction at this time would be a serious matter.

Senator J. P. B. Casgrain suggested withdrawal from the League of Nations, on which Canada was spending \$200 a day, and the abandonment of the idea of a minister to Washington. He said that he was "a Liberal and a protectionist."

JEWISH STATE IN CRIMEA IS PLANNED

Would Approximate 14,000,000 Acres - Soviet Leaders Reported in Favor.

London, March 7.—It is said in Jewish circles here that it has been decided to establish an autonomous Jewish region in Northern Crimea and adjacent districts in the Ukraine, including the cities of Odessa, Kherson and Nikolayev, where the populations are predominantly Jewish.

The area to which it is proposed to give an independent Jewish administration by about 1927 comprises approximately 14,000,000 acres, of which 2,000,000 hitherto have been uncultivated and unpopulated.

The diplomatic correspondent of the Daily Telegraph hears that the Soviet leaders, Trotsky, Bucharin and Kamenef, favor the scheme, which it is declared is not, as suggested in some quarters, a revival of the Czarist system of the "Palee."

REBELS ARE VICTORS

Reported Spanish Forces in Morocco Have Met With Disaster.

London, March 7.—Reports that the Spanish forces in Morocco have met with disaster in their campaign against the rebels continue to arrive from Tangier. The correspondent of the Daily Mail says Rifish tribesmen operating from Tizana toward Melilla, the Spanish base, have brought down four Spanish airplanes.

The Tangier correspondent of the Daily Express reports that the railway station at Melilla was set afire by rebel aviators.

RAPS RUM SYSTEM IN THE STATES

Sir Auckland Geddes Tells Dinner Guests of the Disgraceful Trade.

IS HUMILIATED

Says He Complained Yesterday to Secretary Hughes About the Violation.

British United Press. London, March 7.—"Every week I had to go to Secretary Hughes about this or that disreputable alleged British motor boat or schooner engaged in lading stuff that anybody ought to be ashamed to land."

This was the declaration of Sir Auckland Geddes, former British ambassador to Washington as he told guests at a Pilgrims' dinner given in his honor Thursday about the difficulty of being an ambassador.

"I was humiliated because these ships flew the British flag," Sir Auckland continued. "I tried that Embassy is showing the United States that our flag and name are not helping to cover this disreputable trade. The question is not with ill-will, hostility, doubt and distrust. I hope that the treaty (regulating search and seizure of rum-runners) will be ratified by both countries at an early date."

The former ambassador declared that Britons did not realize the "feelings of the best people in the United States in regard to rum-running."

VOTE AGAINST CITY MANAGER PLAN

Halifax City Council Members Turn Down Resolution - Gordon Stairs Advocates.

Halifax, N. S., March 7.—That the modern towns and cities are business corporations, that the administrations of the large city involved the handling of millions of dollars yearly is a tremendously complex and intricate business, and that the town manager plan of the City Council is the best approach to the establishment of an administration on a modern business basis that has yet been evolved, was the opinion advanced by Gordon Stairs in an address before the Halifax branch of the Engineering Institute of Canada, here last night.

Mr. Stairs, in town manager of Wolfville, a position which he assumed some months ago and which is the first experiment of that nature in Civic Government in Nova Scotia.

Members of the City Council expressed their disapproval of the city manager plan at a meeting of the council held last night, and voted against a resolution presented calling for the adoption of the city manager form of Civic Government for Halifax.

ONTARIO HOUSE IS STIRRED OVER DRINK

Hon. Manning Doherty Moves Six Months Hiast for Referendum Enabling Bill.

Toronto, March 7.—Liberals and Progressive members of the legislature yesterday united in opposing the Ferguson government's O. T. A. referendum enabling bill. The debate, which commenced at 3 p.m., raged all afternoon and evening and continued until midnight, when it was adjourned until today.

The Liberals stood behind their leader, W. E. N. Sinclair, K. C., in maintaining that the government was totally unwarranted in taking upon themselves all the direction as to when the vote was to be taken and what questions were to be asked. As Liberals, said Mr. Sinclair, he and his followers were prepared to trust the people, but the Premier, in turn, should trust the legislature whose 111 members were sent to represent the people.

Hon. Manning Doherty, Progressive leader, took much the same ground and moved the six months' hiast for the measure early at the night session. Former Attorney General Raney charged Ferguson with being the friend of the "wet" and his barbed declarations brought rapid fire retorts from Conservative benches all through his four hour speech.

H. Fisher, K. C., Ottawa, described the bill as an arrogant, intolent and arbitrary measure.

Is Detained at "Island"

Baroness Rojca-Garret, member of the old Russian nobility, still is detained at Ellis Island, New York, on account of the alien quota law. Her husband is not permitted to enter the U. S., so she stays out, though she could get in because she is an artist.

Seized \$150,000 Gems As Smuggled; Trail Party Ran Through Canada

New York, March 7.—The seizure by customs officials of about \$150,000 worth of jewelry was disclosed this week with the arraignment of Arthur M. Mediansky, 527 Fifth avenue, said to be a partner in a Viennese jewelry firm and one of five persons indicted by the February Grand Jury on charges of conspiracy to smuggle jewelry into the United States.

Exquisitely wrought platinum jewelry set with diamonds and other precious stones was seized—150 pieces in all—at Mediansky's Fifth avenue office, where he dealt under the firm name of Moritz Kraus.

The return of the indictments and confiscation of this jewelry, Mr. Housh said, marked the culmination of months of investigation by four customs agents. The investigation took the agents to Austria, Canada and Florida.

BANDITS SENTENCED

Twenty-two Are Condemned to Death in Russia - Leader Escaped.

Moscow, March 7.—Twenty-two members of the bandit gang which held up the Warsaw-Moscow express train near the Polish frontier last October, robbing the diplomatic couriers on board have been sentenced to death at Minsk. The leaders, the former Polish Colonel Monich, escaped capture. The others were taken by the state police.

The evidence at the trial was that Colonel Monich's real aim was a monarchist uprising in White Russia in the spring.

20 Had Typhoid in Quebec Monastery

Quebec, March 7.—Following an outbreak of typhoid fever at the Eudist Fathers' monastery at Charlebourg, the total number of cases transferred to the St. Francois O'Assise Hospital is 20, comprising Father Le Dore, Rev. Sisters Louise Marie and Saint Paule and 17 brothers.

The condition of ten of the patients was reported yesterday as improving but regarding the remainder no statement was issued. The condition of one of the Eudist brothers, named Bassaroch, who came here from France some time ago, is causing serious anxiety.

Dismiss 20,000 On Hour Question

Cologne, March 7.—More than twenty thousand workmen at the Baden Aniline Dye Works in Ludwigshafen and Oppau have been dismissed upon refusal to work nine hours a day. At the Ludwigshafen plant yesterday a clash occurred between strikers and policemen, resulting in several casualties.

Forecast: Light Rain or Sleet Maritime - Fresh northeast winds, cloudy with occasional light rain or sleet today and Saturday. Gulf and North Shore - Strong northeast winds, cloudy with light snowfalls today and Saturday. Toronto, March 7.—Temperatures: Lowest Highest during Stations 8 a.m. Yesterday night

Table with 3 columns: Station, 8 a.m., Yesterday night. Rows include Victoria, Kamloops, Calgary, Edmonton, Winnipeg, Montreal, St. John, Halifax, New York.

MEMBERS SEEK HELP AT OTTAWA

Minister of Agriculture Asked to Stop U. S. Grain Shipments.

BOOST PORT HERE

Action follows Order in Connection with Shipping Canadian Cattle.

The St. John Board of Trade members are taking up with Hon. R. W. Motherwell, Minister of Agriculture, the matter of making an order forbidding the export of Canadian grain through any but Canadian ports, as has been done in the case of cattle, where an order has been issued, effective March 4, providing that all cattle from Canada must go through Canadian ports, a communication along these lines having gone forward this afternoon.

The prohibition on the export of cattle through United States ports came as the result of an outbreak of foot and mouth disease in that country, and should mean a large business for Dominion ports.

It is being pointed out to the Minister of Agriculture that shippers of grain have recently secured evidence, according to an article which recently appeared in the Montreal Star, that Canadian grain is being degraded while en route through the United States and that British buyers have suffered in consequence.

Identity of Grain. It has been claimed for years that the identity of Canadian grain was lost in shipping through American ports and now it is contended the evidence of degradation has been secured.

The board point out that if the outbreak of foot and mouth disease was sufficient ground for a prohibition of export of cattle through Canadian ports, the degradation of our grain, with its consequent adverse action, was sufficient to justify an order prohibiting export of grain through any but Canadian ports.

Should this action be taken it would mean large shipments of grain through St. John and Halifax, unusual business are going through American ports, as more than 6,000,000 bushels of our grain have gone through Portland already in the year which would have had to pass through these maritime ports.

WILL TRACE HOME BANK CHECKING

Liquidators Closely Inquiring Into Last Hours of Business.

Toronto, March 7.—The liquidators of the Home Bank have called for a list of the large withdrawals from branches of the bank on the day before the suspension, the day of officially closed its doors, and this list may be the basis of suits to recover the funds.

On the day of the failure telegrams were sent to all branch managers to close at the usual time and not to reopen. Several managers have declared that they did not receive notice and therefore opened on the morning after the failure.

The telegraph companies are being asked respecting delivery of all these telegrams and any receipts given for the same.

At a number of points there was very little currency on hand when the curator for the Canadian Bankers' Association took charge and this is regarded as indicating unusual business in the last hours of the Home Bank of Canada. It is said action is certain to follow for the recovery of many payments. In some cases explanations have already been demanded.

Amundsen Designs A "Sun Compass"

Christiansia, March 7.—An instrument known as the "sun compass" has been constructed to the design of Captain Rold Amundsen, for use on his trans-Polar flight. It will supplement the ordinary compass, which is unreliable in the region of the pole.

ODDFELLOWS HALL IS REPURCHASED

Transfer Back to Marcus Family, Who Sold Property to S. Kerr.

The sale of the building at the corner of Union street and Hazen avenue, known as Oddfellows' Hall, to Mrs. Ethel Marcus was announced today.

OTHER SALES

The following real estate transfers have been recorded: G. H. V. Belyea to Hazel Sharpe, property in Lancaster.

CONDUCTS HIS OWN CASE AND WINS Judgment Given for Defendant in Suit Over Automobile Collision.

Judgment for the defendant was given by Judge J. A. Barry in the County Court yesterday afternoon in the case of Miss Priscilla Knight Hanson against W. L. McFarlane of Naahwawanki.

ICE IS REPORTED. The Signal Station at the Customs House has received the following reports on ice conditions on March 5, from Cape Race.

NOTICES OF BIRTHS, MARRIAGES AND DEATHS, 50 CENTS.

BIRTHS. BEWICK—At the Evangelical Maternity Home on March 6th, 1924, to Mr. and Mrs. L. W. Bewick (nee Eleanor Cline), a daughter, Margaret Eleanor Evans.

MARRIAGES. MCGOVERN - DONOVAN - At the Blessed Sacrament church, Cambridge, Mass., on March 2, 1924, by the Rev. J. A. Butler, Mary L. Donovan to Francis E. McGovern.

DEATHS. PERAN—Suddenly in this city, on March 6, 1924, Edgar T. Peran, leaving a wife and four children to mourn.

CARD OF THANKS. Mrs. Wm. H. Logan and family wish to thank their many friends for sympathy shown them in their recent bereavement.

GREEN'S DINING HALL. BREAKFAST 60c. DINNER 60c. SUPPER 60c. Noon, 12-2:30 P. M., 5-8 12-27-1924

MURDERS IN CITY SINCE 1917

Murders from 1917 until 1923 in St. John and the disposition of the same are as follows: MRS. CLARA WHITESIDE, found dead in her home, East St. John, Dec. 25, 1923. Stewart Godwin charged with crime and found not guilty.

LOCAL NEWS

POTATOES HIGHER. Potatoes \$2.25 is interesting news for farmers and business men alike, says the Harland Observer.

REGRET DEPARTURE. The W. M. S. of St. Matthew's Presbyterian Church met last evening at the home of the president, Mrs. W. H. Spencer.

MANY ATTENDED. The funeral of Mrs. Joyce Thomson MacLean was held this afternoon from the residence of T. E. G. Armstrong.

MEETS WITH ACCIDENT. Mrs. John Down, who resides at 44 Peacock street, met with a painful accident this morning.

WILL BE BURIED ON SUNDAY. Edgar Fegan, the unfortunate victim of the drowning accident yesterday in St. John harbor, was a son of the late Mr. and Mrs. James Fegan.

PRESENTATION. A very pleasant social time was held last night at the home of Mr. and Mrs. C. Fanjoy, Princess street.

DIVISION LODGE. Dominion Lodge, L. O. B. A., met in their hall, Simonds street, on Wednesday evening.

HAD TOBAGAN PARTY. Miss Mary Kierstead of Manawagonish Road entertained a few friends last evening at a tobagan party on Hatheway's hill.

DEATHS. PERAN—Suddenly in this city, on March 6, 1924, Edgar T. Peran, leaving a wife and four children to mourn.

GREEN'S DINING HALL. BREAKFAST 60c. DINNER 60c. SUPPER 60c. Noon, 12-2:30 P. M., 5-8 12-27-1924

HOUSE SESSION AT CAPITAL IS QUIET

Only Committee is That Appointed to Nominate Standing Committees.

(Special to The Times.) Fredericton, N. B., March 7.—The House is unusually quiet this morning, the only committee meeting being that appointed yesterday to nominate the standing committees for the session.

(Special to The Times.) Fredericton, N. B., March 7.—The House is unusually quiet this morning, the only committee meeting being that appointed yesterday to nominate the standing committees for the session.

John S. Martin of Northumberland was added to the Contingent Committee, John Young of York to the Contingent Committee, and A. F. Bentley to the Committee on Agriculture.

Debate on Address. Debate on the address in reply to the speech from the throne in the Province of New Brunswick has been postponed until next week.

Is St. John being discriminated against was a question put up to The Times today by a prominent business man. He said that the C. N. R. has made a change in connection with the handling of freight, which will cause merchants inconvenience.

Last Monday, he said, an order went into effect putting a stop to all handling of freight at night and instructions were given that only freight received up to 8 o'clock in the afternoon would be handled the following day and sent forward to its destinations.

MEETS WITH ACCIDENT. Mrs. John Down, who resides at 44 Peacock street, met with a painful accident this morning.

P. E. I. GAINS AS POTATO COUNTRY. Shipments of 1923 to U. S. Worth Some \$300,000—May Be Greater This Year.

Charlotte, P. E. I., March 7.—The rapid development of the seed potato business in P. E. I. and the great possibilities of the industry were stressed at a meeting of the Potato Growers' Association here yesterday when it was brought out that more than 250,000 bushels were shipped in 1923 to the U. S., which will yield the farmers at least \$300,000, while the prospects for 1924 business are still better.

Moran Remembered Well in Fredericton. Fredericton, March 7.—Pat Moran, manager of the Cincinnati Reds, who is reported seriously ill, played in Fredericton and elsewhere in New Brunswick when the Montreal team which had won the championship of the then Eastern League under the management of Charlie Dooley, was making a post-season tour.

TO BE REPRESENTED AT EMPIRE SHOW? Fredericton, March 6.—The provincial Government has under consideration a proposal to have at the Empire Exhibition being held in London this year one or two representatives who will be in a position to give all possible information touching the possibilities of the province along agricultural and industrial lines.

NEW BRUNSWICK GIRLS GRADUATED. Montreal, Mch 6.—Miss Constance Brewster, of Brantford, Ont., was awarded the Alexina Dussault annual prize presented by the Alumnae Association of the Royal Victoria Hospital to the nurse taking the highest rank in her final examinations, at the graduating exercises of the Royal Victoria Hospital training school for nurses held at the hospital this afternoon.

INQUIRY AS TO FOUR OFFICIALS

Ottawa, March 6.—The question whether the Deputy Receiver-General office at Toronto had ceased to function as an office for the receipt of deposits, was raised in the House of Commons this afternoon by W. F. MacLean (Conservative, South York).

FORBES WILL BE TRIED MARCH 17

Washington, March 6.—Charles R. Forbes, former director of the U. S. Veterans Bureau, pleaded not guilty today before a United States commissioner to charges of fraud, conspiracy and bribery, handed down by a Chicago grand jury. Bond was fixed at \$10,000, which Forbes immediately furnished. He will appear in the Federal court at Chicago for trial on March 17.

EFFORT TO ADJUST RATES OF EXPRESS

Ottawa, March 6.—Hearings of the application of the Express Traffic Association of Canada for increased rates were opened before the railway commission here today.

SAVE THE TROUBLE OF COFFEE MAKING—USE

It is made just dissolve and drink it. A great convenience and oh, so good!

As You Want It—When You Want It

Without money you may walk into Marcus' and own what strikes your fancy. Your good reference gets quick delivery. Not a penny down, not a penny interest, not "club plan fees."

If Marcus' Furniture were a "two-by-four affair" this offer would not carry the meaning it does. But with the leading concern, you have free run of the finest values, the largest choice, small prices that come from big buying, reliability and taste.

Acquire your furniture this swift and certain way.

J. Marcus Furniture, Rugs 30-36 Dock St.

First Word of Spring Oxfords

Onyx sets the style for ladies with a new squarish taper of toe, square perforations at seams and needle hole scroll on the cap. And then, for early Spring wear, a modish low heel.

Selected Patent with kid lining or selected Brown or Gunmetal Calf with English kip lining, spring walking soles. Widths A, B, C, D. \$9.50

Also combination fittings and styles, with military heels, the latter. \$9.85

The same styles duplicated with low heels, variously from \$6.75 down to. \$5.25

Francis & Vaughan Nineteen King

### WALTER J. FRANCIS DIES IN MONTREAL

Head of Engineering Institute of Canada was Also Prominent Rotarian.

Walter J. Francis, M. E. I. C., president of The Engineering Institute of Canada, died yesterday in Montreal.

Mr. Francis was born in Toronto, Ont., in 1872; was a graduate of the Toronto Collegiate Institute, and in 1893 was a graduate of the University of Toronto with the degree of C. E. After graduation he entered engineering work, and in 1898 entered the Department of Railways and Canals on Trent Canal construction work. Later he was with the West Kootenay Power Company on hydro-electric construction. In 1907 he was made chief engineer of the Dominion Engineering and Construction Company of Montreal. He served as engineer for the Royal Commission of Inquiry into the Quebec bridge disaster, and since 1910 had been in private practice as a consulting engineer as head of the firm Walter J. Francis & Company. In 1923 he served as consulting engineer on a royal commission appointed by the Ontario Government to report on the Hydro-Electric Power Commission of Ontario.

In March, 1923, he assumed office as president of The Engineering Institute

### Engineering Head

WALTER J. FRANCIS, M. E. I. C., of Canada for the unexpired term of A. St. Laurent, then president, who died in office, and in January last was re-appointed president for the present year.

Mr. Francis was a member of the American Society of Civil Engineers, of the Institute of Civil Engineers of Great Britain, and charter member of the American Institute of Consulting Engineers, and a prominent officer in International Rotary circles.

An ingenious Wisconsin farmer uses tractor exhaust gas to kill gophers and other burrowing pests.

## THE FACTS REGARDING FARM IMPLEMENTS

No. 1 of a Series  
Relative and Comparative Values

**THE** price of any commodity is high or low only by comparison with that of other articles of similar make. The price of farm produce is admittedly low, but is this justification for saying that the price of other articles is excessive? As much is being heard these days about implement prices, let us consider briefly the factors that control these prices.

**Implements—Small Part of Outlay**  
According to the Dominion Government's Census only 11% of the total value of farm property is represented by "implements and machinery," which includes automobiles, tractors, threshers, etc. Moreover, out of every dollar received by the farmer for his produce only 3 1/2 to 8 cents, according to the type of farming, is spent on implements and repairs. Therefore, although agricultural implements are the base of modern agriculture, they represent, in capital expenditure and annual maintenance, a very modest proportion of the farmer's outlay.

**Operating at a Loss**  
To operate at a loss tries men's morale, but it has been done and is being done to-day. The farmer and his co-partner the implement maker have been forced to sustain heavy losses during recent years, in both cases due to the increased cost of production, and the low prices obtained for their products. The leading implement companies have suffered in the last three years very substantial losses. Moreover their production of machines has decreased by over 50%.

### Some Uncontrollable Factors

It is generally known what little influence the manufacturer has over the price of his finished article. Four important factors determine price—materials, labor, transportation and volume of production, and over all four the implement maker has no control. Since 1913 the first three have greatly increased, while the fourth has substantially decreased.

**Raw Materials cost on an average 138% more than before the war—**

Steel - 128% Malleable - 100%  
Maple - 248% Cotton Duck 169%  
Oak - 145% Southern Pine 112%

**Labor costs 113% more than before the war.**  
Transportation costs 44% to 100% more than before the war—on materials to the factory and on finished machines.

**Volume of Production is less than half of what it was before the war.**  
Yet, notwithstanding these adverse changes, implements have advanced only 80.4%.

**Cost on per Pound Basis**  
A reasonable method to determine if the price of an article is high or low, is to compare it on a per pound basis with other commodities made of similar materials and employing a similar class of labor. Such a comparison is similar class of the following results: A kitchen stove sold at 15 cts. per pound, a wash boiler at 42 cts., a pitch fork at 36 cts., a sewing machine at 45 cts., and the cheapest automobile at 36 cts.; yet a disc harrow was only 15 cts. a pound, a spreader 10 cts. and a binder 15 cts. Does this not prove that

Implement Prices Offer the Best Value for the Farmer's Dollar

The Evening Times-Star

ST. JOHN, N. B., MARCH 7, 1924

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by New Brunswick Publishing Co. Ltd., 2, Beckwith, President.

MEN OF VISION

Has our educational system kept pace with the progress in other departments of life? Does it maintain as close a relation as it should with the social, industrial, civic and political life of the community?

In measured words, Chief Justice McKeown, chairman of the St. John Board of School Trustees, who presided last evening at the banquet to Dr. Trueman, President of Mount Allison, raised this question and expressed the conviction that there is great room for improvement in the interests of the vast majority of those young people who are not headed for the professions and who leave school at an early age.

The views of the Chief Justice were shared by Dr. Trueman, who, however, made his remarks applicable rather to the university than the public school. He declared the University is not doing what it should, either for those who have gone out from its walls or for those who for sufficient reason are not able to enter within its walls.

He would have extension classes and summer schools, and in other ways make the university a source of knowledge, of inspiration and training among the people who cannot afford the expense of a resident course at the institution. He announced that Mount Allison has decided to establish a course in education and he is most anxious to have extension work undertaken, as it is in Queens and Alberta Universities.

He was the message of a man of vision, who realizes that when an educational institution ceases to go forward it begins to slip back, and that in a changing world there is always the forward look, the new opportunity and the new task.

Incidentally Dr. Trueman congratulated St. John upon the attitude of its School Board toward vocational education, so necessary in the interests of the great mass of pupils in the public schools.

Dr. Trueman made one observation which provokes thought, and it is that the Board of Education should be divorced from politics. He held that the Provincial Board should not be political, as it is in New Brunswick and Nova Scotia, but composed of educationists, who would have a far greater knowledge of needs and requirements than a body some of whose members were immersed in politics and gave only casual attention to educational matters.

Press Comment

ent session. As our reason for such action it says:— "In order to put the completion of the road beyond peradventure, there was provided the means from which a special fund could be obtained to pay for the cost of construction of the railway. This was done in 1909 by setting aside a vast area of unsettled lands in Saskatchewan and Alberta, to be disposed of as pre-emptions and purchased homesteads, proceeds realized therefrom to be the fund mentioned. Over \$18,000,000 has already been obtained in this way, while there is yet a considerable amount outstanding in deferred payments and much of the land has not yet been disposed of. A distinct breach of trust would result should this fund be diverted to any other purpose, and the intention of the government which introduced the bill in question and of the opposition which strongly supported not be carried out."

Taking up the feasibility of the route, The Pas Herald says there are no mountains, but an air line with minimum grades, and there are prospects of much local traffic. It claims that Hudson Bay is deep and free from rocks and shoals, and the Straits, 40 to 100 miles wide, are less affected by fog and ice in the open season than are the Straits of Bellisle. This aspect of the case is discussed at length.

As to the period of navigation, many authorities are quoted, with the result that three and a half to four and a half months is accepted. A Senate committee fixed it at four months, and said this might be lengthened by improvements and aids to navigation. An earlier committee, of the Manitoba Legislature, as far back as 1884 put it at four and a half to five months.

The Herald contends that cattle as well as grain could be shipped by this route and arrive in Great Britain in much better condition. As to the local development that would follow the operation of the railway we are told:—"Construction of the road and investigations in connection therewith have supplied a fund of information regarding the territory through which it passes, which has completely changed the popular idea in respect thereto. It is now known that this area contains natural resources, and is susceptible of production in many respects not hitherto even dreamed of. Instead of a vast expanse of lakes, rock and muskeg of no conceivable economic value, the country is now known to contain extensive tracts of good clay land. That, notwithstanding devastating fires, there are still vast stretches of pulpwood available. That the rocks in many places are mineral bearing. Gold, copper and other minerals have been found. Three million dollars have been taken out of one property, and another is known as one of the large copper-sulphide deposits of America. That the cataraacts and falls on the numerous rivers, some of them of first rank, furnish almost unlimited power possibilities, it being estimated that on the Nelson alone 3,000,000 horse-power is available, and the H. B. Ry. parallels and is in close proximity to that river for two-thirds of its length. The possibilities of this combination can readily be imagined. That the cold waters of the numerous lakes furnish the finest fish, of which there is an abundant supply, and the last important sturgeon fisheries on the continent are to be found in the enlargements of the Saskatchewan, Nelson and Churchill Rivers, and that the Bay itself, with its fisheries and other animals. Life, its mineralized islands and the fur production of its adjacent territory, must be reckoned with as an exceedingly important source of trade and traffic."

In view of the certainty that the Hudson Bay Railway will be made the subject of keen debate in Parliament at this session, the foregoing statement of the case from the western standpoint will be of interest to all readers of this paper.

Referring to the change in public sentiment in England in recent years the Ottawa Citizen says:—"It is not through the hearty co-operation of Premier MacDonald who has changed. It is his present supporters and the public generally who have abandoned the position they held so violently a few years ago. It is a moral revolution without equal in any other country. And it is perhaps a tribute to British commonsense, which seems to have been the first in any land to regain its equipoise. There are still lurking clouds of war opinion in this country and in the United States. Their complete dispersion will be a first step towards a more enlightened and humane international relationship."

The Toronto Globe gives the following quotation from a reference by Premier Ferguson to the vote to be taken on the Ontario Temperance Act:—"The Government believes in responsibility. We will submit the plebiscite and take full responsibility for changing the act in accordance with the result of the vote. Ordinarily I do not believe in either referendums or plebiscites. But in this case there are special circumstances."

Publicity Bureau

(Victoria Colonist)

The election of J. C. Pendray as president of the Victoria and Island Publicity Bureau for the present year is a tribute to his past services in that office. His heart has been bound up for a number of years in tourist publicity work. Mr. Pendray is of opinion that there should be industrial development to supplement tourist propaganda. We have always maintained that the Bureau should work towards both ends; namely, the building up of a permanent pay roll and the attraction here of a growing number of tourists. The harmonizing of these objects in the efforts of the Bureau will satisfy two schools of thought in the community, and lead to permanent and constructive development.

The Maritime Ports.

(Moncton Transcript)

It has been shown clearly that freight can be transported over the Canadian National System from Port Arthur to St. John as cheaply as it can be carried from Port Arthur to Portland. No railway executive has denied this statement. Therefore the Maritime Provinces must continue to protest against the enormous shipments of Canadian grain to Portland while our own ports are idle. If that is good business for the Canadian National Railway—and no amount of mere talk will convince us that it certainly is to be doubted that it is good business for the country.

Sir Henry Thornton is placing the Canadian National System on its feet financially, and for that the taxpayers are quick to praise him, but would it not be even more profitable for the railway in the long run if full use were made of the Maritime ports? This is a question which can never be settled until it is settled right.

Winter Sunshine.

(Lindsay Watchman-Warder)

Even the keenest breezes from out of the north cannot now prevent the sun from disintegrating the winter's snow on the southern roof slopes and the lawn that faces the sunbeams at mid-day. The battle of winter and spring has begun, and while, at intervals, the sun is obscured by clouds, the ground he has won, the result is never in doubt. The sun climbs higher each day, radiates his warmth with increasing strength, and men and women pause to tell their neighbors that the evenings are "getting lighter."

The winter sun has its peculiar beauties. The shadows he makes are longer and sharper and form more fantastic designs than ever summer shadows do. There is a grace and beauty about the three shadows of winter which are never present when the fiercer rays of summer beat down from above. The lace-like traceries of winter shadows are themselves one of the charms of winter suns, and their delicacy of design is never recaptured later in the year.

Enforcement of a State Duty

(New York Herald)

Every argument which Governor Miller adduced in 1921 for a State prohibition enforcement law is still pertinent and may be used by Speaker Machold for his proposed measure. Miller declared that existing conditions were intolerable because the Volstead act was not only flagrantly violated but was the cause of scandalous corruption. Conditions today are perhaps worse. Last Sunday The New York Herald published a prohibition map of the United States, which showed that New York is by far the wettest commonwealth, the law being only 5 per cent. effective. The data for this map were furnished by the United States Department of Justice. If New York is to have any observance of the prohibition amendment worthy the name it will be only through the hearty co-operation of the State, county and city authorities. The Federal Government hasn't the needed mechanism of law enforcement. It cannot afford to create a huge corps of officers in all parts of the United States, and such a corps would be a needless duplication of our city police, county constables and State mounted police. The Federal Government also lacks the intimate contact with local senti-

Tickling Throat

Always an annoyance, worse when it afflicts you at night. You can stop it quickly with Chamberlain's Cough Remedy. Every user is a friend.

ment needed. The Mullan-Gage law of 1921 made this co-operation mandatory for local authorities to follow. Governor Smith declared in signing its repeal that he would still hold all peace officers to a strict enforcement of the Volstead act. This was the proper attitude, and the repeal inevitably weakened the work of enforcement.

Everybody Chewing.

(Wall Street Journal)

Chewing gum to England and France by the A. E. F. has taken such firm hold that this peculiarly American habit is now spread all over the world. While the American consumption of gum is approximately a million dollars' worth a week, England whose imports before the war was almost negligible, now receives the largest exports from this country of that product. Philippine Island is our principal market in the Orient with Japan a close second. The habit has also spread to a number of African countries as well as in South America. The chewing gum business was started in 1860 by an American inventor on an outlay of \$55. The invention was made by him when attempting to vulcanize the sap of the sapota tree for use as a rubber substitute. While the attempt was unsuccessfully in the discovery of the base for a chewing gum.

Dr. Box's Discovery.

(Toronto Globe)

The Ontario Minister of Health has put the stamp of official endorsement on the discovery of a young Toronto dentist, Dr. Harold K. Box, who has made a special study of the disease known as pyorrhea. Pyorrhea is a very widespread malady, and the majority of those afflicted with it, unless they are regular visitants of good dentists, are unaware of its existence until the gums shrink and teeth begin to loosen. The principal exciting cause has been known to members of the dental profession who have been attacking the problem, but Dr. Box's great service is that he has found the nature of the disease and familiarized himself with its pathology, so that it can be recognized and diagnosed earlier and treated successfully in time. Teeth hitherto consigned to the forceps, will be saved.

It is in accordance with the highest traditions of the healing science that Dr. Box's discovery, which is a method of treatment, will be made known freely to the dental world. He might, if he chose, turn it exclusively to his own profit, but, like Dr. Banting, he takes the view that the result of his labors belongs to humanity. Following the gift of insulin to the victims of diabetes, the work of Dr. Box will add again to the reputation of the University of Toronto, whose research facilities were at his disposal.

The Dream of Yesterday

(Elizabeth Scollard in New York Herald)

Where has it gone, the dream of yesterday? The hope, the aspiration and the prayer? The happiness that turned each month to May? The dream, the hope—these were not things of clay. I cannot think them dead, the very air still holds a hint of them, though pain and care cloud all our sky with clinging mists of gray. That which has truly lived cannot be dust, and since the dream is of a day gone by it also is a part of the To Be; Though now we see it not, yet should we trust That like a rainbow it still spans life's sky— A promised joy, a lighter memory.

THE EVENING TIMES-STAR, ST. JOHN, N. B., FRIDAY, MARCH 7, 1924

**DEATHS**

**William Woogy.**  
After an illness of only a few weeks the death of William Woogy occurred at his residence 42 1/2 Erin street yesterday. He was employed in the cotton mill, and was a native of Norway. Sincere sympathy is extended to the bereaved widow and the three small children. The funeral will take place on Saturday morning from his late residence to the Cathedral.

**Mrs. Allan Ronald Macdonell.**  
Word has been received in Montreal of the death on Sunday at Cannes, France, of Helen Margaret Ryan, widow of Allan Ronald Macdonell, formerly of Brockville, Ont., and following her marriage, resided in Montreal. With her husband, who was a member of the firm of Macdonell & O'Brien, railroad contractors, she went to England in 1908 to take up permanent residence. Her husband died in England in 1911. Allan Ronald Macdonell was a brother of Mrs. S. R. Thomson, Montreal, formerly of St. John, widow of the eminent lawyer who long held a distinguished position in the bar of New Brunswick.

**EXTENSION COURSE AT MT. A. FAVORED**

**Dr. Geo. J. Trueman is Banquet Guest at Portland Methodist Church.**

Dr. George J. Trueman, recently appointed president of Mount Allison University, was the guest of honor at a banquet in the Portland Methodist church schoolroom last evening. Nearly 100 were present at the dinner, over which His Honor, Chief Justice H. A. McKeown, presided. Dr. Trueman, after acknowledging the introduction by the chairman, who referred to him as one of Canada's most distinguished educationalists, and thanking the company for the banquet tendered him, delivered an address in which he suggested that Mount Allison undertake limited work in extension courses and summer schools.

**Other Speakers.**  
President Trueman's address was received with great enthusiasm. At its conclusion two solos were sung by Mrs. L. M. Curren. Short speeches were then given by several, among them Dr. L. M. Curren, M.L.A. Rev. E. E. Styles, president of N. B. and P. E. I. conference; Commissioner J. H. Frink, J. King Kelley, K. C. county secretary; Miss Helen Smith and S. A. Worell, assistant superintendent of city schools.

A vote of thanks was tendered to the ladies of the church for providing of the banquet. Among those present were Magistrate G. A. Henderson, A. M. Belding, J. W. Smith, A. M. Peters, J. Hunter White, P. J. Steel, James Myles, F. S. Thomas, R. Duncan Smith, Grant Smith, S. Kirk, R. A. Corbett, Y. T. Barbour, Harry Hopkins, Fred Henderson, Rev. Messrs. Nell MacLaughlan, J. M. Rice, R. G. Fulton, F. T. Bertram, H. E. Thomas, G. Orman, H. A. Goodwin.

**BOARD PASSES BILLS.**  
Chiefly routine business in the passing of bills was carried out at the meeting of the board of directors of the Home for Incurables yesterday afternoon with J. S. Gregory, the president, in the chair. There had been some unusual illness amongst the patients and the directors were pleased to note that this had been cleared up.

**Guard the throat and most epidemics will pass you by**

Most infections start in the throat. In germ-spreading crowds, in dust-blown streets, during epidemics, or when your own bodily resistances are low, Formamin will protect you from infection, because it destroys germs at their port of entry—the throat. All druggists.

**Formamin**  
GERM-KILLING THROAT TABLETS  
To avoid infection, dissolve a Formamin tablet in the mouth every one or two hours

**Good Health in Happy Old Age**

**A dose at bedtime of DR. CALDWELL'S LAXATIVE SYRUP PEPSIN Made them feel jolly again**  
THE chief concern of elderly people is their health, and that is best assured by regular daily bowel movement. There is no truth, however, in the notion that because you are old you need a "strong physic." In fact, just because you are old a mild laxative is better for you. The trouble with purges and cathartics and physics is that they shock the system and weaken it and make the muscles of digestion flabby. Mr. John Muse, 128 Prince Edward St., St. John, N. B., says Dr. Caldwell's Laxative Syrup Pepsin is the best medicine on earth and Mrs. George Luth, Pope, Man., who is in her 79th year, has found it easy to take, gentle in action and entirely satisfactory.

**Does Not Grip**  
You can be sure of satisfactory evacuations every day if you will take a spoonful of Laxative Syrup Pepsin at night when you retire. You will not need to take it very long as a few doses will soon encourage the bowels to act for themselves. The popularity of this wonderful family remedy has become so great that it is now the largest selling liquid laxative in the world. Because of its mildness and freedom from griping it is especially ideal for the extremes of ages, for children and for elderly people.

**Effective at Small Cost**  
Get a bottle of Dr. Caldwell's Laxative Syrup Pepsin at any drug store. The formula is on the package, and the cost less than a cent a dose. Take it when you feel heavy, sleep poorly, have headache or night cramps, for these are also symptoms of constipation. Give it to the children when they are restless, feverish or have a cold. Laxative Syrup Pepsin will keep you and your family free from constipation, a condition that lowers the vitality 25 per cent and raises the blood pressure 25 per cent. Freedom from constipation lessens the pain of kidney trouble, neuritis and rheumatism.

**Special Exhibit, Ladies' Suits at Amdur's**  
ADVANCE SHOWING OF 1924 MODELS  
100 LADIES' SUITS, 1924 STYLES, \$25 EACH

**98 Out of Every 100 Women Benefited**  
**An Absolutely Reliable Statement Important to Every Woman**  
**Remarkable Results Shown by a Nation Wide Canvass of Women Purchasers of Lydia E. Pinkham's Vegetable Compound. 50,000 Women Answer**

For some time a circular has been enclosed with each bottle of our medicine bearing this question: "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"  
Replies, to date, have been received from over 50,000 women answering that question. 98 per cent of which say YES. That means that 98 out of every 100 women who take the medicine for the ailments for which it is recommended are benefited by it.  
This is a most remarkable record of efficiency. We doubt if any other medicine in the world equals it.  
Think of it—only two women out of 100 received no benefit—98 successes out of a possible 100. Did you ever hear of anything like it? We must admit that we, ourselves, are astonished.  
Such evidence should induce every woman suffering from any ailment peculiar to her sex to try Lydia E. Pinkham's Vegetable Compound and see if she can't be one of the 98

Of course we know that our medicine does benefit the large majority of women who take it. But that only two out of 100 received no benefit is most astonishing. It only goes to prove, however, that a medicine specialized for certain definite ailments—not a cure-all—one that is made by the most scientific process; not from drugs, but from a combination of nature's roots and herbs, can and does do more good than hastily prepared prescriptions.  
You see, we have been making, improving and refining this medicine for over 50 years until it is so perfect and so well adapted to women's needs that it actually has the virtue to benefit 98 out of every 100 women who take it. Its reliability and recognized efficiency has gained for it a sale in almost every country in the world—leading all others.

Cobourg, Ont. and Lynn, Mass.

**SUNLIGHT SOAP**  
A WASHING machine is made to wash your clothes without rubbing or boiling—and it succeeds just in proportion to the value of the soap you use.  
Sunlight Soap dissolves quickly and completely in hot water and works up into an abundant suds. This is very necessary so that its rich cleansing ingredients may search through and through the meshes of the clothes and dissolve the dirt and soil spots. Then, when rinsing comes, all dirt and soapy matter runs entirely away, leaving your clothes sweet, fresh and snowy clean.  
The pure lather of Sunlight Soap cleanses the clothes naturally, not chemically. The \$5,000 Guarantee of Purity is stamped on every tablet of Sunlight Soap.  
Pare half a cake of Sunlight into hot water in your machine and stir into generous suds. Put in the clothes and operate the machine—your clothes will be clean.

ADVENTURES OF THE TWINS

By Olive Roberts Barton

SEVERAL RIDDLES.

"What's this thing?" said Nancy curiously. "Instead of a long riddle today, I am going to ask several short ones. Now see who can be first to guess this one: "Sometimes they're silver, sometimes gold, And like those things, are hard to hold, The gold ones off are kept in cases, Made out of glass like precious vases. "They keep no stores, and yet they've scales, They have no feet, but all have tails, They come in schools but have no books, This is their motto, 'Beware of hooks!'"

Lame muscles?

Try this simple treatment You can keep your muscles from stiffening up, and you can take out soreness and ache with Sloan's Liniment. Every night stroke it on gently—you don't have to rub it in. Tense muscles relax—aching stops. Get a bottle from your druggist today—35 cents. Sloan's Liniment—kills pain!

They knew for many reasons. First, because they had worked in the Fair-land Postoffice helping Mister Slamps. But anyway—did you ever, ever, ever hear of anyone in Mother Goose Land writing a letter? Yes, that's what it was, a letter, and Nancy guessed it and got a nice box of writing paper of her own with pictures on it. The Mother Goose people thought it very curious. "Now then, for the third riddle," said the Riddle Lady. "Listen carefully: "It lives in a cellar, But never leaves the kitchen, It's one of the seasons, Yet never sees the sky, Cap is full of holes, But never puts a stitch in, Must have its reasons! Can you tell me why?" Well, sir! Everybody nearly guessed his head off. But not a person could

HEALTH OF THE MIND.

Health of the mind and health of the body are bound together in a strong union. The healthy mind can do wonders for the physical body. It determines what intellectual feats can be entered into without undue exertion or serious strain upon our physical constitutions. Mental hygiene is responsible for certain bodily conditions, which are the outgrowth of anger, grouching, lack of ability to apply one's self to industrious habits and loss of respect for life's success. If mental hygiene can determine one's emotional and intellectual capacities, we have a most interesting problem in the health of the physical body. If you allow certain occurrences to influence or upset your mental peace, producing worry, poor digestion, lack of proper sleep, irritability and false ideas in sinking up or judging others, you are starting your physical body down hill at a rapid pace. Loss of weight through these emotional tendencies will cause a great letup in your strength and working power and you are dangerously near the rocks of physical breakdown. In adjusting the individual through mental hygiene, to a better environment and happier state of affairs, one is without doubt increasing his usefulness and physical fitness to a marked degree. The human race is slowly learning that a poor mind will cause the body to go wrong and that health of the mind is the true factor of success in producing a healthy body.

STYLE EXTREME IS NOT FAVORED

New York, March 7.—Exhibitors at the annual spring style show of men's clothing at the Commodore Hotel, sounded the doom of everything extreme, both in color and cut, and decreed that the wide, bell-bottomed trousers, which had gained some recent favor, must go. The style show was held under the auspices of the New York Custom Cutters' Club. The sessions were devoted entirely to practical demonstrations, which included the manipulation of patterns. Tonight there was a dinner dance, during which male models paraded about the ballroom. "This is not an exhibition of extreme stuff," said one of the exhibitors. "We exhibit no fads, no 'lax' clothes, which are worn only by school boys. Men of affairs don't wear such clothes. With the modern tailor it is the art of getting the right color and right style into a garment for individual forms—something to fit a man's line of beauty, if he has any." Exhibitors emphasized the assertion that the luxedo is only for informal evening wear. They also pointed out tactfully that an opera hat was not proper with this garment and that it should never be worn with a white waistcoat. Models with shawl collars are preferred to those with peaked lapels.

from Mrs. E. A. Young, general convener of the committee. It is hoped to have the survey completed by March 14.

"The Least Noise or Excitement Made Me Tremble," says Mrs. Beaulieu

Never before in the world's history have there been so many cases of nervous collapse, with "jumpy" nerves, accompanied by fits of depression, as since the Great War. This condition applies not only to men and women but to children. These run-down conditions affect every part of the human system, bringing indigestion, headaches, weakness, insomnia, anemia and finally, if not checked, that most insidious and dreaded disease, consumption. To protect the system, there is only one thing to do, tone and build up the body with Carnot. Carnot helped Mrs. Beaulieu. She says: "I don't know how to express my gratitude to you for all that Carnot has done for me. I was terribly depressed. I had no appetite. The least exertion tired me. I couldn't sleep. The slightest noise or excitement made me tremble. My nerves were 'jumpy.' I was losing weight. Finally I consulted my doctor and he told me that I was completely run down and I needed a tonic. 'The best tonic for your case,' said he, 'is Carnot.' I took Carnot for a month and I feel so well today that it is hard to realize that six weeks ago I was in such poor health."—Mrs. E. A. Young, Riviere du Loup, Quebec, Canada. Carnot is sold by all good druggists everywhere.

STOP at your Druggists for DOMINION C.B.Q. TABLETS GET RID OF THE COLD THAT HANGS ON

get it. Not even Nancy and Nick, and usually they could guess anything. "Perhaps the kitchen is in the cellar. Some are," said the Crooked Man, whose front door went in the back way. "No!" the Riddle Lady shook her head. "Not this cellar." "And a season just cannot be in the house!" declared the Old-Woman-Who-Lived-Under-the-Hill. "This one can," smiled the Riddle Lady. "There are other seasons besides summer and winter and spring and fall. Perhaps I should have said 'The four seasons' instead." "That let the cat out of the bag!" "Salt!" shouted everybody at once. "That's right," laughed the Riddle Lady. "But there is no prize. You were all too slow!" (To be continued.) K—Insert Cut years o'n 'th Sometimes they're silver, sometimes gold.

GRIPPE WEAKNESS It is a fact that those who are careful to keep well-nourished and the resistance normal, are best able to avoid or prevent the prostrating effects of grippe or similar infection. SCOTT'S EMULSION a name familiar on the lips of tens of thousands, is used today and every day to help nourish and strengthen. If Scott's Emulsion is now helping tens of thousands realize freedom from grippe, coughs, colds—why not let it do as much for you?

Social Notes Of Interest

Last evening there were many in attendance at the Armory for the badminton games. The courts were full from early evening until the close, all eager to keep up their skill for the coming games of next week. Many of them from early evening until the close, all cricton.

Mrs. Arnold Gibbon entertained very informally at a small tea at her residence, Wright street, Wednesday afternoon, her guest of honor being Mrs. Harold James, of Kansas City.

Mrs. Elizabeth Foster is visiting her friend, Miss Roma Chateaufort, in the city of Quebec.

Mrs. M. A. Pooler, who was on a pleasant trip to New York and Pittsburg has returned to her apartment at 154 Sydney street.

Miss Mary Short, of St. Stephen, is welcomed to the city while a guest of her uncle, Hon. Robert J. Ritchie, 29 Elliott row.

Mr. and Mrs. Harold James, who were here on their honeymoon trip, visiting Mrs. James' parents, Mr. and Mrs. C. H. James, Wright street, left last evening for their home in Kansas City.

Mr. and Mrs. John MacKinnon, Duke street, are enjoying a visit from Mrs. MacKinnon's sister, Mrs. R. Fash, of Halifax, who is accompanied by her little daughter, Isabel. Mrs. Fash will remain for about a month.

Mrs. J. Busby is ill at the home of her sister, Mrs. George K. McLeod, 29 Wellington row. Her many friends wish for her a speedy recovery.

Mrs. Alonso Craig entertained for her daughter, Miss Bessie Craig, Wednesday evening at her residence in Mil-

The Battle is to the Strong

And the spoils to the victors. Only the strong ever "get there" - the strong in nerve, strong in muscle, strong in brain-power - strong with the kind of strength that Bovril gives.

If you don't want to stick where you are you need added vitality to meet the extra calls on your strength. Bovril builds up your nervous and physical energy and prevents "that sinking feeling."

Don't get tired - drink

Lent Bread - Whole Wheat

Fast and yet have your fill. A few ounces of Robinson's Whole Wheat Bread turns into torrents of energy. And why? Because all of the wheat, all its food elements and vitamins, are saved in Robinson's Whole Wheat Bread. A little goes a longer way.

It goes farther for flavor. Bee honey and granulated sugar, and all the rest of it baked to a golden fluff with nut-brown crust.

Goes farther for health a second time for the stomach's sake. Dyspeptics have to have it. Lenten fasters get more out of it and it costs never a cent more. But to know the genuine, demand

TOOTH-BRUSH FRINGE IS NEW HAIR FASHION

London, March 7—A new coiffure novelty, known as the tooth-brush fringe, is rapidly gaining favor among women in London.

It is the smallest fringe ever worn. A patch about two inches wide in the middle of the forehead is cut to a shortness of about two inches, and is brushed neatly down over the brow. The rest of the hair is swept right back, but not stiffly.

One of the principal advantages of this style is its adaptability. Women with bobbed hair can employ it with as much effect as women who wear their hair full length. The simpler the general coiffure the more piquant is the effect of the tooth-brush arrangement.

"So far the fashion is in its infancy," a West End hairdresser says. "It really originated in the United States, where a curled shall fringe has been worn for some time. Women with black hair can wear it to the best advantage, because the contrast of the dark patch against a white brow is most vivid. A very subtle charm can be added by it, however, to the face of a fair-haired woman."

The tooth-brush fringe is really an exaggeration of the natural "widow's peak"—the descending point in the centre of the forehead to which some women's hair grows.

MANY TRIBUTES TO YOUNG HERO

The funeral of Harry Finlay was held yesterday afternoon from the residence of his parents, 2 Lorne avenue.

Service was conducted by Rev. A. L. Tedford and Rev. Mr. Lawson. During the service Mr. Henderson sang "Face to Face." Interment was in Fernhill. There was a large attendance. Numerous floral offerings were received, including the following:—Pillow, Family; cross, Mrs. Carr and Mr. Gordon Carr; crescents, Mr. and Mrs. Geo. MacDonald and family, Mr. and Mrs. Andrew Ellis and family, Mrs. Hodgson, Sussex, N. B.; wreaths, The Boys Around the Corner, Miss Florence Wall, F. W. Woolworth Co. and Mr. and Mrs. D. Marshall and Miss Annie Marshall; star, Mr. and Mrs. Dayment and family; sprays, Mr. and Mrs. Robt. F. Finlay, Mr. and Mrs. Wm. MacDonald, Mrs. Guy Wright and Sunday school class, St. Mary's church, Mr. and Mrs. Wm. Beattay Tower and Muriel Tower, Mr. and Mrs. Newton McKay and family, Miss B. D. Whipple, A. Unoskey and Miss

MADE IN CANADA

Royal Yeast Cakes reach the user in sealed air-tight waxed paper wrappers, each cake being wrapped by machinery—not by hand so that even after package has been opened, the cakes are protected from dust and other harmful contamination.

ROYAL YEAST CAKES RICH IN VITAMINES

Madeline Campbell, Calais, Me., Lloyd Dobson and Muriel Goodwin, Mr. and Mrs. E. H. Sterling, Harold Crozier, Miss Phyllis H. Layden, Misses Ethel and Gladys Urquhart, Mr. and Mrs. Roy Henderson and Sutton Craft, Mr. and Mrs. Jas. Beville, Miss Veina Bushey, Mrs. Giggey and Mrs. Lettler, Mrs. L. W. Beyer, Mr. and Mrs. John Bridges, Mrs. MacKenzie, Mrs. A. May Emberley, Mr. and Mrs. B. O. Smith, Miss Queenie Dayment.

Rev. Dr. David Hutchinson, pastor of the Main street Baptist church, returned to the city yesterday from Ottawa, where he has been visiting at the home of Mrs. Hutchinson's sister, Mrs. Cameron and Mr. Cameron. Dr. Hutchinson was warmly greeted by his many friends and appeared greatly improved in health after his recent severe illness. He will take up his pastoral duties Sunday.

The directors of the St. John subdivision of the Catholic Women's League met last night in Rosary Hall with Mrs. John E. Owens, president, in the chair, and heard reports from the social girls' work and executive committees and from the matron of Rosary Hall. The membership committee reported 14 new members. Arrangements were made for a bridge to be held in Easter week.

Moir's Chocolates Take Your Welcome With You!

Guard Your Mouth

Let WRIGLEY'S be the guardian of your mouth and throat.

It will combat trouble of various kinds. It helps to keep the teeth free from food particles that ferment and cause decay.

It has an antiseptic effect. It relieves acid mouth and thus not only prevents harm to the teeth, but serves to sweeten the stomach.

It stimulates digestion and helps to prevent the forming of gas that causes dyspepsia.

Read from a widely known medical work:

"Chewing gum aids tooth nutrition and the cleansing action is a definite benefit—it prevents dyspepsia. Good chewing gum is excellent for bad digestion.

So we say, after every meal

FOR SALE TO LET

OWN YOUR HOME IN A Garden Home District  
The enjoyment of a Home is doubled if it is set in proper surroundings. A lawn, flower borders, hedges, shrubbery, a kitchen garden with vegetables and small fruits help to make a home.  
The value and enjoyment of such a Home is again enhanced if surrounding homes are similarly adorned. Add to these the advantages of a convenient central location, paved streets with wide grass plots and shade streets, residential restrictions which ensure a constantly improving district and you see why our quality built homes on Dufferin Avenue, Portland Place, appeal so strongly to home owners.  
Terms of sale to suit people who pay \$30 and upwards in rent.  
Houses open for inspection anytime by appointment and always on Wednesday and Saturday afternoons.  
ARMSTRONG & BRUCE, LTD.  
103 Prince William Street.

IN OTTAWA. Bank of Montreal. Third of the series dealing with the establishment of the Bank of Montreal representative points in Canada elsewhere.

BANK OF MONTREAL. Established over 100 years. Total Assets in excess of \$650,000,000. OTTAWA, the political centre of Canada, and prophetically designated by the late Earl Grey as the possible centre of the British Empire of the future.

SHIPPING. PORT OF ST. JOHN. Sailed Yesterday. Str Canadian Mariner, 3811, Faulkner, Cardiff and Swansea. CALL EXTENDED. A call for the rectorship of St. Anne's church, Calais, has been extended to Rev. Percy G. Cotton, recently of Trinity church, St. Stephen, and now of Old Town, Me. Word was received this week, says the Courier, intimating that Rev. Mr. Cotton would very likely accept the call.

RIGHT NOW IS TIME TO PROVE YOU CAN SAVE ON NEXT WINTER'S COAL. Buying in the summer for winter's use you cannot compare values unless you actually know results, and as you cannot test heating coal in summer, right now in the few weeks of coal burning weather ahead is the time to prove results.

There must be some waste in burning any fuel. A certain amount of heat escapes up the chimney and there is heat lost in other ways but the most apparent waste—the big waste—the loss that you can actually see—is the amount of black stuff you receive and pay for as coal, that turns gray or brownish in the fire and is carted away in the form of ashes.

ARE YOU PAYING \$3.30 FOR ASHES OR 82cts. THREE ASH PANS TELL THE STORY. This ash waste in coal is well demonstrated in our Prince William Street office window at the present time. There you can see three pans of ashes on three Toledo Scales.

A TON NOW WILL PROVE IT. You may not need coal now but an extra ton more or less, of good coal is a small matter, if that ton burned now before the weather gets too warm to test coal will show the way to coal economy and coal satisfaction for next winter.

## NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

### ACTUALITY OF CAMERA EYE MAKES REAL ART IN THE MOVIES DIFFICULT

Sees Everything and Reveals Nothing, Says Professor-Scenarist.

(By Jack Jungmeyer.)  
Hollywood, March 7.—Art in the movies, as in other forms—what is it essentially? Would you recognize it if you saw it?

There is a lot of loose palaver about art and the screen. Much of what is blantly heralded as art will not pass muster. Patron and practitioner flounder because they cannot project a definite goal for serious cinematic effort. And half-baked criticism only further confounds the fretted strivings of producers.

Mark then to Albert Lewin, former college professor and now scenarist for Metro, discussing the subject with academic and practical equipment.

"It is," says Lewin, "a paradox of art that only by elimination of the ACTUAL can the REAL be discovered. The essential quality of the object is elucidated when it is purified, distilled, idealized, conventionalized."

"Modern art concerns itself primarily with the actual at the expense of the essential. It is called realism. Its true name is actualism. And for this reason the modern school of realism falls short of being great at its greatest."

Literature and other arts have been seduced into a devotion to the actual. What then shall we expect from the motion picture, designed in its very nature for the photography of surfaces?

"The motion picture is the very definition of the realistic school. It sees everything and reveals nothing. What the realistic novel seeks ineffectually to attain, the camera does by nature."

"This is why in motion pictures there have been only the faintest glimmers of artistic achievement. 'Not until it shears away its natural proclivity to see to much and express too little, will the movie do anything vital or creative.'"

"The stupid eye of the camera merely reproduces. We must select and eliminate for it. We must conventionalize our movements for it as austere as the dance does. We must wear masks and move in determined patterns."

"We must never photograph scenery or real houses, and we must stop imitating the actual appearance of things, clothes and furniture in our costumes and sets. We must make costume and set express exclusively the real mood and idea."

"The Cabinet of Doctor Caligari is one of the rare pictures which are in any authentic sense works of art, because it succeeds in expressing its fundamental and vital mood by keeping the camera away from a single actual appearance."

"Similarly the significance of Charles Chaplin lies in his creation of an ideal character whose expressive pantomime combines with his inventive clowning to express his intuitive divination of a vital humanity, which could not for a moment be considered actual but which is deeply real."

**New Method of Reducing Fat**  
A news item from abroad informs us that the American method of producing a slim, trim figure is meeting with astonishing success. This system, which has made such a wonderful impression over here, must be the Marmola Prescription Tablet method of reducing fat. It is safe to say that the most effective method for this purpose in this country. Anything that will reduce the excess flesh steadily and easily without injury to the stomach, the causing of wrinkles, the help of exercise, the use of dieting, or the use of one's meals is a mighty important and useful addition to civilization's necessities. Just such a catalogue of good results follow the use of these pleasant, harmless and economical little fat reducers. We say economical, because Marmola Prescription Tablets (made in accordance with the famous Marmola Prescription) can be obtained from the Marmola Company, 4612 Woodward Ave., Detroit, Mich., for one dollar a box which is a decidedly economical price, considering the number of tablets each box contains. They are harmless.

Joseph H. Hazleton, who is said to have seen President Lincoln assassinated, and Calvert Carter, another actor who was an associate of Hazleton's in the days of the Ford stock companies, the other day worked in the same film studio. Hazleton is playing in "San Francisco," and Carter with R. William Nell's production, "Rose of the Ghetto." Hazleton was in Washington when Booth shot the great Emancipator.

David Higgins, a stage player, has been signed for a role in Thomas Meigs' current vehicle, "The Confidence Man." Tom Moore has been engaged to play opposite Gloria Swanson in her next picture, "Manhandled," which will be directed by Allan Dwan.

### Floating Specks Before the Eyes Means Liver Trouble

When specks start to float before the eyes, when everything seems to turn black for a few seconds and you feel as if you were going to faint, you can rest assured that your liver is not working properly.

The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of Milburn's Laxa-Liver Pills and clear away the accumulated mass of waste and poisonous matter from the system.

Mr. Chas. Ayland, Frankville, Ont., writes: "I used to be awfully bothered with floating specks before my eyes, headaches and sickness to my stomach. I took just half a vial of your Milburn's Laxa-Liver Pills and ever since I have felt as well as I ever did. Now I always keep them on hand."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### FORMER CHORUS GIRL LOSES SUIT

Mrs. Van Bruck Fails to Prove Charges of Infidelity.

New York, March 7.—Justice O'Malley in the Supreme Court has dismissed the complaint in the suit for divorce brought by Mrs. Ella Graver Van Bruck, a former member of the Winter Garden chorus, against Louis Van Bruck, a Fifth Avenue art auctioneer. Justice O'Malley ruled that Mrs. Van

Bruck had failed to prove her charges of infidelity. The dismissal of the complaint followed a day of sensational testimony, which reached a climax when the hitherto unidentified co-respondent, Mrs. Catherine Clay of the Hotel Chelsea, denied on the stand that she and Van Bruck had been guilty of misconduct in the apartment in which they were trapped by the defendant's wife December 9 last.

"That (the apartment in Lafayette street) is our home, my husband's and mine," Mrs. Clay testified. "My husband knew that Mr. Van Bruck was to be there and had asked me to receive and entertain him pending Mr. Clay's return home."

Albert E. Clay, husband of the alleged co-respondent, corroborated his wife's testimony. He said he had been married 14 years and had never had occasion to doubt his wife's fidelity.

### MAKE MOTORISTS SKILLED TO AID

Ambulance Assoc. Official Recommends—Col. M. MacLaren President.

Ottawa, March 7.—Recommendation that motorists should be qualified in first aid work, was one of the striking features in a report made by the retiring president, Col. T. D. Irwin, at the general meeting of the St. John Ambulance Association. Canadian branch held here yesterday.

"Drivers of motor vehicles seem to have run riot in respect to driving," said Colonel Irwin, and "the danger of life has been increased. The Association would urge that every motorist should carry in his car a first aid kit and what is of still greater importance, he should qualify in first aid. In this manner only can the suffering and dangers of motor accidents be minimized."

Officers elected were—  
President, Col. Murray MacLaren, M. P., of St. John; vice-presidents, Hon. Dr. Beland, M. P., Hon. H. Bostock, Monte Creek, B. C., Judge Chisholm, Halifax and Col. J. A. Hutchison, Montreal; joint honorary treasurer, G. C. Cowan, Ottawa; honorary solicitor, Hon. Senator Belcourt; auditor, J. B. Watson, Ottawa.

**WINS SIXTY MILE RACE ON SKIS**  
Sweden's Historic Event was Witnessed by More Than 20,000.

Stockholm, March 7.—Sweden's most spectacular sporting event of the winter, the historic Vasa ski run, has just been held, with 119 competitors and 20,000 spectators. The course is 60 miles long through difficult terrain, but the winner, J. Lindgren of Umea, covered the entire distance in less than 18 hours.

This annual event commemorates the dramatic episode of the ski run made over the same course, from the heart of Dalecarlia to the Norwegian frontier, more than 400 years ago, by Gustavus Vasa, founder of modern Sweden, and her greatest monarchs.

**Get Permission To Use "Dumbbells" Name**  
Fourteen of the principal members of the new Rosley boy show, which is scheduled to make its appearance around Easter, were guests of "Red" Newman in one of the boxes at the matinee performance of the Original's production, "Rapid Fire," at the Imperial yesterday.

After the show the lads made a request to the management of the soldier players for permission to call themselves the Dumbbells, Junior, and this was heartily granted, so far as this branch of the original Third Division aggregation was concerned.

The boys have been working steadily for the last three weeks under the skilful direction of Mrs. Rosley and have shown good progress. Their first appearance will naturally be watched with interest as the record made by the Rosley girls is one which the boys will have to go a long way to beat. There is a spirit of rivalry in evidence and the lads are bent on showing the girls that they have not things all their own way.

**RESTRICTIONS ON MONTREAL SHOW**  
Quebec, March 6.—The Montreal Industrial Exhibition Association bill passed the private bills committee of the legislative council today with an amendment, which provides that the

association may not commence its operations until it has a cash capital of at least \$25,000, and it may not commence the construction of buildings and hold an exhibition without a guaranteed fund of \$2,000,000.

**DOMINION LODGE CIRCLE**  
The Sewing Circle of Dominion Lodge, No. 18, met at the home of Mrs. W. A. Atcheson on Tuesday evening and a very enjoyable time was spent. Those present were Mrs. Brown, Mrs. Everett, Mrs. Atkinson, Mrs. McKinnon, Mrs. Lodge, Mrs. Lamb, Mrs. Wain, Mrs. Bird, Mrs. Patriquin, Mrs. Rogers, Mrs. Atcheson.

### MAY CUT PLAYS IF ACTORS STRIKE

Managers Brady and Harris Treat Threat Lightly, However.

New York, March 7.—David Belasco's announcement that he intended to close all his plays soon and to keep away from production this spring and summer in view of the threat of Equity shop has brought considerable stirring among the other theatrical managers. Hardly any, however, were so downright in their attitude as the veteran producer, preferring rather to indicate that they would let circumstances be their guide in case a strike is declared and the Actors Equity Association seeks to enforce Equity shop.

The closest to adopting Belasco's stand was Sam H. Harris of the Producing Managers' Association, and even he was measured in his terms. He said that in case of Equity shop, he did not feel he could afford to produce on the same scale that he is doing now. Asked if this meant that he would cease production altogether, he replied, "I can't say. I should have to be governed by the circumstances."

**Hopkins Would Fight**  
Arthur Hopkins has no production at present in New York and is represented on the road by Ethel Barrymore in "The Laughing Lady," which was expected to close during the summer in any event, and by interest in two road companies of "The Old Soak." As he has indicated in prior statements, Mr. Hopkins is in sympathy with just such a viewpoint as that of Mr. Belasco, being one of the leaders of the element in the P. M. A. which would fight Equity shop to the bitter end. In view of his anticipation of trouble he has curtailed his productions this season and has decided to plan for no more until the problem is settled one way or the other. In case of the establishment of Equity shop, those close to this producer are of the opinion that he might try his hand at producing in England.

George M. Cohan is another manager who has been outspoken in his objection to Equity shop, and he has not changed his mind. Several months ago he began quietly laying plans to dispose of his theatrical holdings in case the storm of a strike broke over them. Mr. Belasco said that he had nothing to add to his statement of the preceding day beyond affirming that he "would not stand for closed shop."

William Harris, Jr., on the other hand, was inclined to treat the whole matter lightly and to indicate that he had no intention of closing down this summer.

"I think it is an exercise of common sense on the part of both actors and managers," he said, "would avert anything like a calamity. The whole thing is rapidly bordering on burlesque. I am one of those men who are once bitten, twice shy. I went through the whole affair during the strike five years ago. I think if both sides would stop and think a moment they would avoid a repetition of that strike."

"I was the only manager, I think, to keep my show going during the walk-out and I think I could do it again. I have a lot of talent in my family. Besides my wife, Grace George, and my daughter, Alice, my son is anxious to try acting—just as I did—and we could even throw in the family dog if necessary, thus presenting an all-Brady cast."

**RED PEPPERS END RHEUMATIC PAIN IN FEW MINUTES**  
When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub such a relief known. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion—and the old rheumatism torture is gone.  
Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

**Denies Memory of Shooting in Syrian Hall—Had Some Drinks.**

On the stand in his own defence this morning, Charles Simon, a Syrian charged with shooting Louis Corey and Thomas Stephen with intent to do grievous bodily harm, denied having any recollection of the shooting, which took place in the Syrian Hall in Prince Edward street, on New Year's Day. He said that he had been drinking and remembered when some trouble started amongst the men gathered in the hall, but from the time he was struck on the side of the face by Louis Corey he said that his memory was a blank until he found himself in the custody of the police. He claimed no remembrance of having threatened to shoot. The trial was commenced yesterday and was continued this morning before Chief Justice H. A. McKeown in the circuit court. The Crown completed its case this morning, evidence being given by Louis Simon, Abraham Joseph, Sergeant-Detective Power, City Policemen McNeill and Leard, C. N. R. Officer Barton and John Shalala.

Evidence for the defence was given by Thomas Simon, Charles Mitchell, Thomas French, Mrs. Simon, wife of the prisoner, and George Moses. Simon Statement

The prisoner, sworn, said that he was sometimes a contractor, sometimes a peddler, and had lived in St. John for about 22 years.

On New Year's day he planned going to the country to collect some money and he put his revolver in his pocket. He took four or five drinks of whiskey at noon and his wife persuaded him not to go to the country.

He told about going to the Syrian Hall where he said he and others were drinking ale from a keg. About 8.30, he said, somebody picked up a stick and started to strike somebody else and he stepped in to stop him. Louis Corey, he said, struck him in the face and he did not remember anything that happened after that.

He said that he had a permit to carry a revolver, from the sheriff about two years ago, after he had been held up on the road.

He denied threatening to shoot anybody. His next recollection was when he was brought to the police station. Cross-examination by Mr. Ryan was commenced after the noon recess. Lawyers Clash.

Daniel Mullin, K. C., and E. J. Henneberry were present in the interests of the accused, while W. M. Ryan represented the crown. There were several clashes between Messrs. Mullin and Ryan during the proceedings.

Thomas French in his testimony said that on Feb. 2 he and Mrs. Simon met Louis Corey in the street and Corey told him that the shooting was only an accident. This was corroborated by Mrs. Simon who declared that Corey said, "Don't worry, Mrs. Simon. It was only an accident." Mrs. Simon said that her husband had had several drinks of whiskey in his home at noon before he went to the Syrian Hall.

The jury on the case are Nelson H. Gunn, J. C. Berrie, H. J. Keyes, J. B. Hanson, J. W. Cameron, C. W. Chase, C. E. Farrand, Thomas Kingsmill, R. A. E. Mitchell, P. Pumble, Frederick Kelly and Percy Gibbons.

Evidence was given yesterday by Thomas Stephen, George Corey, Michael Mitchell, Raymond Tobias, Fred Isaac, Dr. J. A. McCourt, Dr. F. P. Fleming and Louis Corey. The last named denied that he had ever said it was an accident or that he would take \$1,000 to settle it.

**LOCAL NEWS**

**TWO ARE FINED.**

Whittaker G. Hatheway was fined \$200 in the police court this morning on a charge of having liquor in his beer shop in King Square. Harold Colwell was also fined \$200 for having liquor in his beer shop in King Square.

**HYDRO REPORT.**

With today's installations the number of meters would be more than 8,000, it was said this morning at the office of the City Power Commission. There had been placed in service, up to last night, 2,995 meters.

**FOUR WERE DEALT WITH.**

Four men were arrested last night on charges of drunkenness and this morning three appeared in the police court and were ordered to pay fines of \$8 or spend two months in jail. One man had put up a deposit of \$8, and this was forfeited.

**ELECTION RUMOR.**

The name of W. L. Harding has been mentioned as a possible candidate for commissioner at the coming civic election to complete the slate with Messrs. McAvity and McInerney. When asked this morning by a Times reporter, Mr. Harding said he knew nothing about the matter.

**CHINESE ARE REMANDED.**

Charles Lung and Wee Get, two Chinese, appeared in the docket in the police court this morning, having been arrested on a warrant charging them with unlawfully having in their possession a quantity of opium on April 28, 1923. As there was no interpreter present, Magistrate Henderson ordered the men remanded for three clear days. Their case will be heard next Tuesday morning at 10.30 o'clock. This is an old case revived.

**C. P. R. WORK HERE.**

J. M. Woodman, general superintendent of the C. P. R. New Brunswick district, who arrived home yesterday afternoon after an inspection trip over the Shore Line from St. Stephen to West St. John, said this morning that work on the shore line by the C. P. R. the cold storage of Main street would be started as soon as the frost is out of the ground. He said that \$14,000 had been appropriated for this work. The programme so far authorized for the year in the New Brunswick district will be confined to re-laying, relasting and maintenance of culverts and bridges.

**MADE MONEY FOR MISSIONS.**

A very successful sale of home cooking fancy wares and fudge was held under the auspices of the Beacon Light class of the Pleasant Point Sunday school in their hall last evening. A creditable sum was realized for missionary work. Part of it will be sent to West Africa for a little boy whom the Beacon Light class of the Pleasant Point Sunday school is supporting. The booths were attractively arranged. The home cooking was in charge of Mrs. Richard Gould, Mrs. Samuel Naveau, Mrs. Margaret Henderson. The fancy work table was presided over by Mrs. W. E. Hamm, Mrs. William King and Miss Edith Kelstead. The candy table was in charge of Mrs. James Spill and Miss Mae Kelstead.

**NICELY ENTERTAINED.**

Members of the Sewing Circle of the Lodge L. O. B. A. were delightfully entertained at the home of Mrs. J. Cheesman, Prospect street, Fairville, last evening. Miss Edrys Cheesman and Mrs. Harper Henderson gave piano selections, while the others engaged in sewing. The hostess served delicious refreshments, assisted by Mrs. Marie Scott and Mrs. Arthur Henderson. The Circle proposes holding an apron and fancy work sale soon. Those present were Mrs. Edward Duff, Mrs. Samuel Wilson, Mrs. J. Cochran, Mrs. A. Sweet, Mrs. W. Lester, Mrs. G. C. Laurence, Mrs. H. McLaughlin, Mrs. O. Stinson, Mrs. H. Blagden, Mrs. M. Scott, Mrs. William Purcell, Mrs. H. Henderson, Mrs. C. Hill, Miss Margaret Lester and Miss Gladys Scott.

**TORONTO WEDDING OF INTEREST HERE**

Dunn avenue Presbyterian church, Toronto, was the scene of a very pretty wedding on Saturday evening, when Phyllis Gilmore Weir, only daughter of Mr. and Mrs. George Weir, was married to Gordon Anderson Theford, son of Mr. and Mrs. William Theford of Tyndal avenue. The ceremony was performed by Dr. J. C. Robertson, cousin of the bride.

The church was beautifully decorated with palms, ferns and cut flowers. The bride, who was given away by her brother, Claude V. Weir, looked charming in a lovely gown of ivory crepe and silver cloth, heavily beaded in rhinestones and pearls. Her tulle veil was arranged in a cap-effect with coronet of orange blossoms, and she carried a shower bouquet of Ophelia roses and lilies of the valley. Miss Lella Cameron made a very pretty bridesmaid in a dainty frock of pale greenorgette, trimmed with silver, and a small French hat of silver lace. She carried Columbia roses. Clarence Theford, brother of the groom, acted as best man. The ushers were Clarence Hewitt of Toronto, and Eric Paterson of Paris.

**ST. JOHN FIRMS WILL HAVE CHANGE**

**Tenders for Admiral Beatty Hotel will be Asked in Few Days.**

A representative of the Ross & MacDonald architect firm, Montreal, will arrive in the city in a few days to call for tenders for the new Admiral Beatty Hotel. The tenders will be asked in the name of the local directorate and all contractors in St. John will be eligible. The idea that the work is to be given out without local tender is erroneous.

Already several local firms have made approximate estimates of the excavation work, that is the removal of the rock and dirt to a certain depth, as the exact specifications for any part of the job have not yet been issued. Some firms have taken considerable trouble to probe the matter of rock depths and water troubles, if any, in this section.

At present Contractor John Flood, after having entirely removed the old Dufferin Hotel buildings, is cleaning up the site of chimney bases, the bottoms of walls, etc. also heavy timbers piled for storage. The flat appearance of this big corner lot has quite transformed the locality. At night the lights of Charlotte street, buildings shine onto the south side of King square and the long stretch of sidewalk of Imperial Theatre gives a new view of this big building.

**IS SENTENCED TO DORCHESTER**

**Wm. John James Goes Up Line Because of Watch Theft.**

Two years in Dorchester Penitentiary was a sentence passed on William John James, alias Adams, alias Barnes, by Magistrate Henderson in the police court this morning. He confessed to stealing a watch, the property of Weir Mann. An enquiry was sent to Ottawa, and word was received that the defendant had a record. He is also out on suspended sentence for stealing in other centres. When he was recently brought before Magistrate Henderson he was remanded to the jurisdiction of the court.

**WILL CALL FOR TENDERS IN MARCH**

The monthly meeting of the board of directors of the Protestant Orphan Home was held yesterday afternoon, Dr. James Manning in the chair. The health of the children was reported good and the three buildings filled to capacity. Progress on the new wing was reported. It was decided to call for tenders for the second wing before the end of this month.

Most of the time was taken up in discussion of a bill to be presented to the legislature consolidating and amending the acts of incorporation, the chief feature of which is to provide for the appointment of a representative from each county in the province on the board of directors.

It was reported that about \$180,000 had been paid in on the pledges for the new home.

**METAGAMA AWAY; MONTROSE COMING**

The Canadian Pacific steamship Metagama will sail this afternoon for Glasgow with passengers and general cargo. Among the cabin passengers will be W. R. Bowler and Gordon W. Cameron of Ottawa, who are attached to the Department of Immigration and Colonization; E. R. Gregory of Toronto, Major Hodgson O. B. E. of Ottawa, and W. L. Van Dyke of Montreal.

According to latest advices received from the S. S. Montrose she will reach port on Saturday at midnight and the passengers will be landed on Sunday morning. They will be sent forward to their destinations in three special trains.

**As Hiram Sees It**

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "I have just been reading the speeches delivered in Ottawa last week on the occasion of the unveiling of the monument to Lieut.-Col. George Harold Baker, M. P., who was killed in the war. The Speaker of the House, the Prime Minister, the leaders of the Conservative and Progressive parties were the orators, and I want to tell you that the gift of noble expression has not departed from us." "You can't get no words in any language," said Hiram, "to tell as it ought to be told what our boys done in that war." "Their example was held up," said the reporter, "to inspire us who survive." "So it orto be," said Hiram. "What I'm wonderin' is if them there politicians'll take it to themselves. They never was a finer chance—away from war—fer men in high office to serve the country—er we don't want no lip-service—nuther. I hope no feller in Parliament'll hev to hang his head when he walks under the shadder of Col. Baker's monument. That's the place fer it—right there where every member'll be reminded of what one member done fer Canada at Sanctuary Wood—yes, sir."

**Beautiful Walls**

Every room in the house can be artistically tinted to harmonize with the furnishings and at a substantial saving over the usual decorative costs with

**Decotint**

The Sanitary and Durable Paint for Walls and Ceilings

This beautiful wall finish is ready for use with the addition of either hot or cold water.
