GREAT SPLIT IN THE LIBERAL PARTY OF CANADA; VOTE ON CONSCRIPTION MEASURE THIS MORNING; FRENCH DEFEAT GERMANS WHO LOSE HEAVILY

GERMANS THROWN BACK ON ELEVEN-MILE FRONT AFTER LOSING HEAVILY

Ground Thickly Strewn with Their Dead on the Chemin des Dames—British Inactive—Austrians Claim to Be Holding Ground at Brzezany.

French Front in France, Wednesday, July 4.—(By Associated Press.)—After their strongest offensive effort since Verdun the Germans found themselves today thrown back everywhere along an eleven-mile front on the Chemin des Dames, leaving the ground thickly strewn with their dead and having failed to take even one French soldier prisoner. The French lines remained intact and the French commanding general who watched the operations throughout from the front trenches, was able to declare tonight that not a single yard of territory had been lost. "The Germans came forward everywhere in the closest formation and in successive waves, preceded by the famous "shock" troops, who were mown down by the French fire. At the first onslaught in the vicinity of Cerny, and on the Calonne plateau the French yielding was only momentary and a counter-attack remedied the slight delay immediately and in addition gave them possession of some German trenches in the vicinity of Cerny, which they held.

The German infantry appeared to have all the dash taken out of them by the French defense and made no attempt to regain the ground lost by the French reaction. Their artillery throughout the day, however, maintained a sweeping fire, but its effects were minimized by the enemy's lack of observation posts.

British Statement.
London, July 5.—"Beyond artillery

CAPTAIN HAS DUEL WITH SUBMARINE

Luke Holmes of Sydney Was on Scottish Hero When She Was Torpedoed.

Halifax, July 5.—A man who fought an exciting duel with a U-boat arrived here today on his way home to Sydney. This was Captain Luke Holmes, who has twice been torpedoed, returning now from his second sinking, but is as game as ever for war zone voyages. The Scottish Hero sailed from Sydney on May 31 with a cargo of steel products for Havre and Manchester. She carried a crew of thirty-one men

activity by both sides at a number of places along the front, there is nothing to report," says the official statement from British headquarters in France, issued tonight.

Austrian Statement.
Vienna, July 5, via London.—The recapture of some positions at Brzezany from the Russians is announced in the official communication today from Austro-Hungarian headquarters. The statement reads: "At Brzezany the last portion of the positions still in the possession of the enemy were recaptured and maintained against heavy attacks. Otherwise the fighting activity was slight in all theatres."

French Statement.
Paris, July 5.—The official communication issued by the war office tonight reads: "There was artillery activity north of the Aisne, in the region of the Hurtise monument and the northern part of the Bois de Beau Marais, in Champagne, in the region of Mont Carnelle and on the left bank of the Meuse in the region of Hill 304. "Four hundred shells were fired against Rheims.

"Belgian communication: Last night and today the usual artillery actions took place along the whole front. "Eastern theatre, July 4: The enemy after violent bombardment sent two strong columns against the right wing of the Italian front, but these were repulsed.

"There was moderate artillery activity on both sides along the whole front."

and sailed under the command of Captain Holmes. This is Captain Holmes' second experience with U-boats. He was on the steamer Morwenna when, in 1915, she was torpedoed on her way out from England in ballast.

CHINESE ARMY MOVES ON COUNTRY'S CAPITAL

London, July 5.—The peking correspondent of the Exchange Telegraph Co., says that the advance of the northern and southern republican army, under Tuan Chi-Jui, the former premier, and general Feng Kwo Chang, the former vice-president, respectively has commenced. They are moving towards Peking. The situation, the despatch adds, is considered grave.

CONSCRIPTION DEBATE HOUSE OF COMMONS WAS ENDED EARLY THIS A. M.

Chamber Was in Session All Night with Hon. Mr. Doherty, Minister of Justice, and Eight or Nine Other Members Speakers.

Since Historic Debate Began on May 18, Great Majority of Speakers Declared for Selective Draft.

Special to The Standard.
Ottawa, July 6, two a.m.—The debate on the second reading of the conscription bill was finished at early hour this morning after a strenuous all-night session. The indications at this hour were that the amendment to the amendment for a six months' hiatus would be overwhelmingly defeated, that Laurier's referendum amendment would be voted down by a margin of about forty and that the bill would be ordered read a second time by about sixty majority.

The speech of the night was delivered by Hon. C. J. Doherty, Minister of Justice, one of the few Quebec men supporting the bill. John Mr. Doherty deplored the raising of racial issues in the debate and defended himself of a charge that he had misrepresented the national enrollment issue when it was adopted. He said conscription was absolutely necessary and that it would be fairer to the

country than voluntary enlistments, which included many married men and men who were needed at home.

Racial Arguments.

D. A. Lafontaine of Montreal, Liberal, used racial arguments and said that the bill was a drive at Quebec. D. Proulx of Prescott and half a dozen others also spoke.

There are 221 seats in the house, there are twenty-two vacancies and about twenty members are absent. West of the Ottawa River ten members favored the referendum amendment of Sir Wilfrid as against eighty-eight opposed. Few west of the Ottawa were against conscription.

Only four French members favored conscription in the entire house. They were Messrs. Blondin and Sevigny, cabinet ministers, Dr. Chabot of Ottawa and F. J. Robidoux of Kent, N. B. "The majority of the members from all the provinces except Quebec, were against the referendum amendment. The debate began on May 18.

TO IMPROVE THE TRADE OF CANADA FOR BETTER COAL SUPPLY

Government Fuel Controller Arranges to Remedy Shortage in Dominion.

Ottawa, July 5.—(Canadian Press.)—The Dominion Fuel Controller, Mr. C. A. MacGrath, who has spent the past fortnight in securing all available preliminary data with regard to present and prospective fuel supplies in Canada, announced today that one of the leading fuel and transportation experts in the United States has been secured to look after Canadian fuel interests at the United States sources of supply. Efforts are being made to speed up imports of coal which are now considerably behind the normal for the district from Montreal to Winnipeg.

Mr. MacGrath states that he is now in a position to deal with deliveries and complaints and urges importers of coal who desire to make use of the fuel controller's organization to furnish immediate information regarding the quantity received so far and the amount which must still be contracted for. Mr. MacGrath is arranging to get in touch with all the mines so as to enable him to accelerate deliveries in all cases where there is now delay. He expects that importers communicate their requirements to him promptly at Ottawa.

MEXICO MAY FIGHT HUNS

HUN DEAD MORE THAN 1,500,000

El Paso, Texas, July 5.—Since the pro-Ally campaign in Mexico was first started by "El Universal" in Mexico City, the sentiment of favoring the Allies has reached northern Mexico and, during the past thirty days, a well defined movement favoring an open break with Germany has developed. A reflection of this sentiment was seen recently in the statement of Gen. Francisco Gonzales, acting commander-in-chief of the northeastern military zone. He was over-charged by a German firm for some padlocks. The manager was arrested and placed in the penitentiary. The German consul made a demand for his release. "Tell the German consul he, the im-

EX-PRESIDENT GREET'S PARTY FROM ST. JOHN

William H. Taft Praises Veterans—Boys from this City Agree to Remain Until Next Week.

Special to The Standard.
Boston, July 5.—Former President Taft greeted the Canadian War Veterans at the Boston City Club today, where they attended a luncheon given in their honor by the City of Boston. Mr. Taft, who is now a professor at Yale University, expressed the keenest pleasure for the opportunity afforded him to shake hands with the boys who have fought in the trenches, and praised Canada for the gallant part she has taken in the struggle. "Pretty soon you will be fighting side by side with the soldiers of 'Uncle Sam,'" he said, "and then history will be made for in my opinion there are no soldiers in the world the equal of those who have been furnished on this side of the Atlantic."

Mayor Curley Presides.

Mayor Curley presided at the luncheon and sitting by him at the head of the table were Lieut. McKinney, Lieut. Brooks, Councilor Italiano and President Johnson of the Intercolonial Club of Boston.

Lieut. McKinney and Lieut. Brooks responded for the veterans after speeches by the Mayor, President Johnson and several of the prominent men present.

Lieut. Col. LeGrand Reed, of the 17th Battalion, Canadian expeditionary force, who is now in charge of the British mission's recruiting depot in Boston, was also among the guests of the city and made a brief address. After the luncheon the veterans were taken in touring cars to Lexington and Concord, over the famous route of Paul Revere.

The veterans were the guests of the City of Boston at a theatre party tonight and tomorrow they will participate in a recruiting rally at the depot of the British recruiting mission on Boston Common.

On Saturday night they are to attend a big recruiting rally to be held under the auspices of the Intercolonial Club in their hall in Dudley street, Roxbury. At this meeting some of the speakers will be Mayor Curley, the heads of the various Canadian, Scotch and British societies in Boston, and Lieut. Col. Reed of the 17th Battalion.

The veterans intended to leave Boston tomorrow but Mayor Curley and the Intercolonial Club persuaded them to remain over until Monday morning. The veterans are delighted with the hospitality they have received in Boston. In every street they have been cheered and so elaborate have been schedules arranged for them that they have had to decline hundreds of invitations.

COLORS OF WOMEN'S REGIMENT BLESSED

Petrograd, July 5.—The colors of the first detachment of the Petrograd women's regiment were blessed in the square of St. Isaac's Cathedral today. More than two hundred women, with their hair closely cropped and in full uniform, were present, armed with rifles. Don Cosacks and sailors furnished a guard of honor.

Subsequently the women paraded through the Nevsky prospect and other streets carrying banners with the inscriptions: "Death is better than shame," and "Women do not give your hands to the traitors."

The object of the convention is to consider the whole political situation, particularly as it affects western

DEFINITE BREAK OF MANITOBA, SASKATCHEWAN, ALBERTA AND BRITISH COLUMBIA LIBERALS FROM LAURIERITES NOT WHOLLY UNEX- PECTED—SIR WILFRID WILL NOW BE LEADER OF MERELY A RUMP PARTY.

Ottawa, July 5.—(Special to The Standard.)—Western Liberalism has repudiated the leadership of Sir Wilfrid Laurier. Following a meeting of Manitoba, Saskatchewan, Alberta and British Columbia Liberals in Ottawa today, an official statement was given out outlining the formation of a new parliamentary group independent of Sir Wilfrid Laurier's leadership and standing for policies which the present opposition leader does not represent. It is announced that the new party will convene at Winnipeg on August 7 and 8.

While the announcement of this definite break up of the Liberal party as led by Sir Wilfrid Laurier was not wholly unexpected by those familiar with recent political undercurrents, it has come somewhat sooner than expected. Doubtless the stand taken by Sir Wilfrid Laurier on compulsory service, a stand wholly antagonistic to the views and aspirations of western Liberals, hastened the cleavage, and it is now a certainty that if an election comes within the next few months Sir Wilfrid Laurier will go to the country simply as the leader of a rump political party, made up chiefly of French Canadians from Quebec and a few reactionaries in Ontario and the Maritime Provinces.

Split Long Brewing.

During the past year or two Western Liberals have chafed under the spurious Liberalism of Sir Wilfrid Laurier. Low tariff supporters to a man, they were restive because of his well known alliance with high protectionists in the east. They distrust the professions of radicalism and remembering his betrayal of free trade pledges after he got into power in 1896, they never quite believed his frequent anti-protection declarations since 1911.

Sir Wilfrid has not been without warning of this new movement in the west. Realizing the growing power of the constituencies of the west he has tried hard during the past few years to devise some sort of a sectional policy which might reconcile free traders from the west with protectionists in the east. The result was a policy of longitude and latitude, varying according to the temper and clamor of the constituencies or sections of the country involved, but lacking always an outstanding principle.

Blew Hot and Cold.

In the west he preached free trade, in the east he preached protection. "Free food" was declared protectionist in the west, but the will of the protectionist in the party prevailed and the policy had to be abandoned. This balancing and tampering intensified the unrest among the western Liberals, and when there was added to it evidence of Sir Wilfrid's adhesion to the view of Quebec against the rest of the country the decision to repudiate his leadership was hastened.

The decision to form a new Liberal party, a party that will be Liberal in its policies as well as in name, is bound to result in a general loosening of political relationships. In the next parliament the west will have twenty additional seats, and with the grain growers, powerfully organized into a separate and distinctive party, it will mean that they will be a powerful factor in shaping legislation. So far as the old Liberal party is concerned, this desertion of Western radicals will probably reduce it to a feeble remnant made up, as has already been said, of Ontario and Maritime Province Laurierites and French Canadian rouges and Nationalists.

Statement of Bolters.

The text of the statement given out by the new party leaders after their meeting today is as follows: "The parliamentary contingent of western Liberals met here today and decided to call a convention of the Liberals of Western Canada to be held in Winnipeg on August 7 and 8 next. There was a full attendance of members and senators from the prairie provinces, while British Columbia was represented by Senator Bostock, leader of the Liberal party in the Senate.

"The object of the convention is to consider the whole political situation, particularly as it affects western

Canadian interests. It was felt at the meeting that the time had arrived when it was very necessary that a convention should be held at which western Liberals could consider what their attitude should be toward a number of serious economic and political problems arising out of conditions created by the war. The time of the convention was fixed for the latest date before harvest.

"The unit of representation decided upon is the provincial constituency. Each constituency in the western provinces will be empowered to send four representatives. It is expected that many of the delegates will be women. In addition the convention of the convention will include all Dominion members and Senators, Dominion Liberal candidates and all Liberal candidates in the last provincial election in the western provinces. Arrangements will be made whereby Liberal delegates to attend will be seated at visiting delegates. While plans have not been worked out it is understood that facilities will be afforded to every progressive element in western Canada to participate in the convention."

ST. ANDREWS MAN'S FATHER IS KILLED

Special to The Standard.
St. Andrews, July 5.—Fred A. Tarbox has received word that his father, George N. Tarbox, a travelling salesman was struck and killed by an automobile near Hampden, Me. Mr. Tarbox was 64 years of age and formerly lived in Eastport and Calais. Mrs. Alexander Reed, of Montreal, is a daughter.

C. G. R. BRAKEMAN KILLED.

Special to The Standard.
Moncton, July 5.—Mrs. James S. Battis today received official notice that her husband had been killed in action in France. Pre Battis, who was a C. G. R. brakeman, enlisted in Amherst, going overseas last fall.

ONE HUNDRED DOLLARS REWARD

The St. John Standard will pay One Hundred Dollars to any person or persons producing evidence which will lead to the conviction of those responsible for the murder of Robert Harris.

QUEBEC MEN TAKE VOLUNTARY CONSCRIPTION

LIBERAL M. P. FOR MONTREAL USES RACIAL ARGUMENT

Claims His Race Discriminated Against, Charge Which Dr. Paquet of L'Islet Denies—Hon. Mr. Doherty Supports Conscription.

(Canadian Press.) Ottawa, July 5.—Two members from the government side of their ranks and took seats behind Sir Wilfrid Laurier when the house resumed this afternoon. These were Messrs. Achim and Mondon, both of whom had previously announced their intention of joining the Liberal party as a protest against the military service bill.

They were received in the Liberal cheer, which were renewed when Mr. Mondon rose, and spoke to a point of privilege with regard to the report of his speech which appeared in today's Gazette and also in the Ottawa Citizen. His objection was that in these reports at the conclusion of his speech where in the translation of his eulogy of Sir Wilfrid Laurier he had also spoken of the work of the Liberal party, the latter had been omitted. To correct this he read the report and then the French Hansard report of his speech.

Mr. Lafortune, Liberal, Montcalm, then resumed the debate on the military service bill and kept the French members of the house shaking with laughter at his sallies.

He declared that during this long debate he had received requests from every parish in his riding urging him to oppose the bill. He had also visited the county and met many of his constituents, finding them to a man opposed to the bill, while many of the leading citizens of neighboring counties had also met him and declared their opposition to conscription.

Mr. Lafortune referred to the French-Canadian representative of the government side who had opposed the measure declaring they deserved the country's thanks, and humorously invited them to cross the floor one after the other as Mr. Mondon had done. "And," added he, "Mr. Achim has also joined us, that is not so bad for a matinee as he says there will be more before I finish."

Montreal Happenings. The Montcalm member then referred to recent events in Montreal, where he said the better thinking Irish-Canadians had joined with the French-Canadians to oppose conscription, as was shown at the recent meeting to nominate Dr. Paquet as a candidate to oppose the minister of justice. The nomination was made by the Protestants and Catholics alike of St. Anne's, he said, "although I do not think the minister of justice is the father of that child."

Mr. Lafortune read a long list of cities and towns where meetings of protest against conscription had been held. He opposed the bill as illegal, unjust and oppressive, introduced without a mandate from the people. More than that, it had been introduced after positive pledges had been made that there would be no conscription.

Mentions Archbishop. The letter of Archbishop Bruchesi assuring the people that the national service cards did not mean conscription had hardly been signed when the Prime Minister's announcement was made.

Mr. Lafortune considered that Canada had done her duty nobly. "We have given according to our power—more would be suicide," he said. "There were some who were ready to leave the Empire but for himself he would save his own wife and family before he would save his neighbor's family. 'I like the English,' he added, 'but I like the French-Canadians better.' 'I have worked all my life to have a little for a rainy day—an I going to give that to the Empire? I may give what you like, I'll give no more.' 'Do you think Canada will get part of the indemnity,' he asked at another stage. 'No, England will get her part and Belgium and France and Russia will get theirs, but there will be none for Canada, absolutely none, nothing but taxes for a hundred years to come.'

Says Food is Needed. Proceeding Hon. Mr. Doherty said that while he insisted that we should all be Canadians he did not wish anyone to forget the land of his ancestry. "We live in that province," he said, "he believed that there was no stronger or better influence over men than their race feeling, and no stronger influence than pride of blood."

But there was a time and place for invoking such memories. "And here, where we are dealing with a question whose right or wrong will carry with it consequences some of us can foresee, consequences that will have to be borne not by ourselves alone but by our children and children's children for coming generations—an I not right in saying it is for all men to concentrate their minds on the one fact that we are all Canadians and that this is a question of what is the duty of Canadians today?"

Mr. Lafortune had taken upon himself to inform the house not what Hon. Mr. Doherty's constituency of St. Anne thought about this question, but he had undertaken to express the settled conviction of every Canadian of Irish descent within this country and that they were all convinced the same way.

Irish Speak For Themselves. "Perhaps," said Hon. Mr. Doherty, "he will allow me to tell him that he has not quite the right to do that. Men of my blood speak for themselves. And men of my blood who have the greatest privilege of being also Canadians are as thorough Canadians as lives within the territory of this country. They do not need the direction of my speech, and esteemed friend about this subject, and has the mandate to do so. He was eloquent about his

STIRRUP CHARGE OF THE EAST AND WEST

lack of mandate to do other things and I wondered whence came his mandate to speak for all Canadians of the Irish race. And then he bewailed the fact that I was standing alone. I thank him for his sympathy, but do not feel the need of it.

"The Irish people are capable of judging the question for themselves and will judge it as Canadians doing their duty. No doubt there will be differences of opinion, but they will not mass themselves together as Mr. Lafortune says they will meet me with a pronouncement absolutely on one side of this question."

Lafortune Entirely Wrong. Mr. Lafortune said Hon. Mr. Doherty was entirely wrong in assuming such a responsibility, he was not in saying it was not my duty to support this measure.

Supports Bill. "If after all the intellectual power these gentlemen possessed, after the research and zeal that inspired them to find sufficient reason they would have welcomed it. But I have listened and read, and I have not heard that reason yet. It seems to me that this measure should be proposed that it was the duty of the government to propose it, and that it is still the duty of the government to support it, and of this house to support it."

Racial Issue Mistake. Hon. Mr. Doherty deprecated the tendency of members on either side to raise racial questions, and the attempts of some of the French-Canadian representatives to make it appear that the conscription was simply a cover for coercing the people of Quebec.

"I want to dissociate myself absolutely and to dissociate this government from any suggestion that there is anything in this measure directed against any one province, against any one race, and particularly that it is directed against the French-Canadian race," he declared amid applause.

Mr. Doherty declared that the voluntary system gave to each individual the right to do as he thought best, and before the house and before parliament.

Question of Withdrawal. The question was whether Canada was to withdraw from the war or not. The present bill did not propose to increase Canada's force at the front. It was introduced solely for the purpose of maintaining the forces that were already there. Canada had to do that or withdraw from the war and leave her battalions at the front to dwindle away.

The minister referred to the arguments of those who claimed that Canada had done enough, that she should let her battalions dwindle. Those men, he considered, were absolutely logical, but the man who said that we ought to go on with this war but that we ought not to take the step that this measure proposed was absolutely illogical.

"I do not know, and I do not care who is at fault. I do not care what causes brought it about, but I do know that persistence in the voluntary system is not giving us the men as fast as they are needed," he said. "That was one reason why he was prepared to stand by the bill."

Can Speak Men. The minister then turned his attention to the argument that conscription should be opposed because Canada needed all her men at home. If the facts on which that argument was based were established then he questioned whether he could continue to support conscription. He was satisfied, however, that those facts could not be established. But the argument that Canada should keep her men for agriculture and other essential industries had in itself supplied a reason for selective conscription.

Proceeding Mr. Doherty declared that the members had evidence before their eyes every day that those

GOVERNMENT CAUSES SURPRISE IN LONDON

Raises Fixed Rate for Treasury Bills to 4 3/4 per cent.—Russian Bonds Recovering.

London, July 5.—The government's decision to raise the fixed rate for the treasury bills to 4 3/4 per cent. was a complete surprise.

The need for this form of accommodation is growing owing to large blocks of bills sold by tender in the spring that are now maturing. It is evident that the government intends to continue financing itself on short term security while endeavouring to stimulate sales of exchange bonds.

Hence it is clear that no early new long term issue is contemplated. The interest granted by the Bank of England on the special deposits of other banks remains at 4 per cent. Financial sentiment is strong but business is quiet.

Russian bonds are recovering somewhat and rouble exchange is somewhat better at 13 1/2 for £10. Money was in increased supply and easier today, and the banks have reduced their charges for loans. Discounts rates were quiet.

The present parity in business on the stock exchange is attributed to investors in industrial centres dealing on provincial exchanges were increased activity is reported.

The tone was good here today on war news. Gilt edged securities, home rails and rubber stocks recovered the most support and Russian and Mexican issues had a good tone.

The feature in the Miscellaneous section was Cuban Ports. Argentine rails were weak and American securities idle. Consols for money 6 1/2.

WELCOME REV. MR. BARRACLOUGH

Moncton, July 5.—Rev. W. H. Barraclough, the new pastor of the Central Methodist church, and Mrs. Barraclough were given a warm welcome upon their arrival here this afternoon from St. John. Delegates representing the official boards of the church met the new pastor and wife upon the arrival of the train and escorted them to the parsonage where a committee of ladies welcomed them.

Beaconsfield School. The annual meeting of the Beaconsfield School District No. 1, will be held on Monday night, July 9th, at 7:30. Election of school trustees will take place at this time and other business transacted.

Need For Conscription.

Hon. Mr. Doherty then proceeded to discuss the need for conscription quoting a letter from the front, which graphically depicted the exhausted state of France and the need for reinforcements, which had also led to Marshal Joffre's cry at Montreal: "Send us men, more men"—and he ironically suggested that Mr. Lafortune understood the conditions better than Marshal Joffre.

As to the United States Hon. Mr. Doherty said it would be long before they could supply the needs of the Canadian troops in France would continue to look to Canada for reinforcements.

"When these reinforcements are lacking, do you realize that you are putting double and treble stress upon the men there now?" he asked, turning directly to the anti-conscriptionists, "do you realize that you are exposing that man to double and treble danger, that you are sending him again and again into the trenches to meet death, and all that, when he has already done double or triple duty and had but one half or one third the rest he needs?"

"Are we going to stand back and let the Americans receive the credit for the men that we have sent, and let the Englishmen do that, or the French, in the exhausted condition France is in now? Are we going to say now, that we have no interest in our boys any more than other soldiers fighting there?"

The Referendum Idea. Mr. Doherty then turned to the referendum and the argument that passing conscription without a mandate was an invasion of the people's rights.

"There is to me but one thing more sacred than the people's rights," he said, "and that is the people's future. A man's duty ought to be more sacred than his rights. A public man ought to be more anxious about whether he is doing his duty as to whether he is doing absolutely what he has a right to do. I am anxious that the people's rights should be respected but I am anxious also for the honor of my country that the people's duty should be done."

It is all very well to talk about the voice of the people but there comes a time when it is the duty of the people's representatives who have entrusted to them the government of the people to see to it that the people do their duty. And that is the position that confronts this parliament tonight.

HOW SECURELY HIDING AT FREDERICTON WHERE HE HAS PICKED UP ACQUAINTANCES

Attends Two Services on a Sunday and Band Concert in the Park and Lives Like a "Decent, Respectable Citizen," Fearful, However, of Some of the Clever People There.

Gets Thrown Out of a Restaurant to Make Room for Officers; But Stands for it and Placidly Eats Elsewhere.

Fredericton—Thursday. Written exclusively for The Standard by Fox the Fugitive.

G. Fred Edgcomb is one of the "good scouts," the most recent term popularly used for a man who is an all-around good fellow.

I was aware that it would be hazardous to venture into Edgcomb's big store where one is the target for all sorts of sharp eyes.

As a tourist I got away with it. I could not have fallen into better hands. Dismayed with the handsome souvenir which Fredericton sends out, I pleased it unthinkingly. And sent several to the States where they would do the most good.

Another "good scout" I "learned to love" is my newly found friend Mr. Lee, of the Boston store.

There would be a company, ready for service, of good scouts into whose hands I have fallen if mobilized. And the most delightful hiding place!

Sweet sixteen—three of them; lovely matrons. All so friendly. Surely no hotel ever gave me more attractions to hold me.

The real sleuth in Fredericton today is stout, pink-cheeked Jack the High Priest at Murphy's bakery. This is not a pretentious place. But finer food one could never get no matter how gorgeous the fixtures. Murphy's is on Regent street near Queen, the same side of the street as Grace the barber, another of Fredericton's sleuths.

And if you cross over from Grace's shop you will no doubt come in contact with Johnny Johnson. You can't miss him if he is within seeing distance. Six foot (by four and a half across the chest), but a "good scout," a landlord that caters to the boys who come into town from outlying country.

So you see in Regent street I got into quite a nest of sleuths, a trifling carpet slippers—Grace guarding one end, "Jack" at Murphy's the other end and Johnny Johnson the middle of the block.

Peek-a-boo at the Queen Hotel also wears the tin badge under his coat. He is not very large—doesn't loom up big as you see him sitting on the "Hops" bench—and his seventeen years do not burden him very heavily. My description is at fault, I'll admit, but you'll know him. He won't let you get away without knowing him for like a real Yankee he goes after business. He don't wait for foot shiners to come to him.

Great comfort I get always when I come to Fredericton. I have to watch the troops on the Queen street barracks ground. And I enjoy the talk of the officers, when I meet them, as I often do.

In fact I was eating at the same table with them until the landlord suggested that I eat in the back room. "How is that?" I asked. "I've been eating in this other room."

"The officers wanted to eat alone," he said. And why should I change my quarters—I had become familiar with? Why not change them to the Kitchenette apartment? So the military caste idea has germinated in a food joint at Fredericton. Prussian militarism drives people off the sidewalk. At Fredericton it drives civilian patrons—of this one place—into the back room. I told him I didn't think he was wise in a business way, but he said nobody could tell him his business, so I am eating where I lodge.

The girls at Griffith's variety store on York street, are watching keenly for the man they think is Fox. They call in Julian's "Mercury" that peddles The Standard and each one arms herself with a warrant. They wouldn't be without it. But just the same I call daily and purchase a trifle. Then I wonder what they would say if they "Only Knew."

There are four live wires I am positive are "business first and pleasure afterwards." They are R. T. Mack opposite the police headquarters, Drugist-Dibblee at York street, Fred Chestnut further down and Drugist Burchill at Regent street.

In fact Mack had something to do in lodging the though he may not recall the incident. It only goes to show how easy it is to overlook a good chance, with empty of excuse. Mr. Mack gave me information concerning the different hotels, and I used his phone. Of course I knew the commercial hotels but there are others.

Three times I had occasion to make purchases at Dibblee's. Now his staff are some clerks. No matter what you call for you can buy it there. You can't break away without leaving your money or a part of it. They've got what you want or something just as good.

You should spend a Sunday at Fredericton and attend the band concert in the park at the head of King street, as I did. Then take in an evening service at the Baptist church—on York street, I think it is. Why they are just like a little family in that church; and there seems to be quite an attraction for the uniformed men there. They line up on the last bench, next to the door—a dozen the night I was there. And after service how "at attention" they are buy it up outside the doors. I took it for granted as a complimentary military movement, a part of the manual of tactics. After all what would this world be if we always had to go through the same old routine and never see anything new.

I am so well pleased with Fredericton that I hope to be permitted to enjoy a prolonged stay.

It is so easy to get by the sleuths in this town that it is like playing marbles with kids. Yet I don't pass unnoticed. I am looking for a citizen of the town named Tracey. I picked up an acquaintance with him. I think I saw him at service in the big church near the parliament buildings where I was present on Sunday

SLEUTH "JACK" OF MURPHY'S On the Trail of the Fugitive in Fredericton

Johnny Johnson and "Pop" Grace, the Barber, are now "hot on his tracks."

There are other "Good Scouts."

IMPORTANT SARDINE MEETING AT EASTPORT

High Cost of New Brunswick Herring May Make It Impossible to Comply with Wilson's Request.

Eastport, Me., July 5.—The advisory board of the National Cannery Association, sardine section, met here today to consider the action to be taken by the Eastern Maine sardine canners on the request of President Wilson, that every possible effort be made to increase the pack of canned goods and to reserve supplies for the government.

As herring is scarce at the present time and unusually high prices are asked for fish by the New Brunswick packers, the sardine packers are not anxious to handle more fish than they have to. It is doubtful if the pack will be much larger unless fish are more plentiful, but it is understood stocks will be reserved for the government.

BRITISH HAVE OVER 117,000 PRISONERS

Since War Began They Have Lost to Enemy as Captives 51,088 Men.

London, July 5.—Since the beginning of the war the British have captured 117,776 prisoners, exclusive of madras taken prisoner in the African campaigns, many of whom have been released, said Major-General F. B. Maurice, director of military operations at the war office today.

The British have lost to the enemy 51,088 men, including India and native troops. These figures take in all theatres of war. The British have captured 739 guns during the war and lost 133. Of the guns lost 37 were recaptured, and of the 96 remaining in enemy hands 54 were lost by the British on the west front early in the war.

"The British have not lost a single gun on the west front since April, 1915," said the general.

PROF. PERKINS GOES TO MT. ALLISON

Special to The Standard.

Sackville, July 6.—Prof. P. B. Perkins, Ph. D., has been appointed Professor of Physics at Mount Allison University to succeed Prof. Wheelock.

Prof. Perkins is a native of this province, a graduate of the University of New Brunswick, a B. A. of Harvard University, and Ph. D. of Yale University.

INVESTIGATING DEATH OF YOUTHFUL BRIDE

Grand Jury Begins Probe of Mystery—Anonymous Letter Received—Husband Married St. John Girl.

Boston, July 5.—The Norfolk county grand jury today began an investigation of the mysterious death of Mrs. George Keyes, a young Brookline bride, and wife of a well known Boston real estate dealer.

Mrs. Pauline Keyes, formerly a stenographer, was shot and killed by herself or some other person on June 19 at her home.

A nurse, Miss Harriet Varney, who claimed to be the wife of Keyes, is held charged with being implicated in the tragedy. The police are looking for the author of an anonymous

SERIOUS SHORTAGE OF MAINE LABOR

Aroostook County Farmers Call Mass Meeting at Houlton Next Sunday.

Houlton, Me., July 5.—The very serious labor shortage and the greatly increased crop acreage in Aroostook county have led the farmers to call a mass meeting in Houlton next Sunday afternoon. The meeting will be addressed by Gov. Milliken, the Aroostook committee on food products and conservation and others.

The Bangor and Aroostook railroad will run free special trains from Fort Kent and Van Buren to accommodate the crowds.

All Druggists and Stores—50c.

LT.-COL. McAVITY IS INSTRUCTOR

Boston, July 5.—A training school for officers of the Massachusetts National Guard. The chief instructor in marksmanship and trench building will be Lieut.-Col. James H. McAvity, of St. John, N. B. It is expected that other Canadians who have been at the front will assist him.

Save the Food and Serve the Empire!

The Average Canadian Family Wastes Enough to Feed a Soldier

INTELLIGENT economy in the kitchen can do much to prevent the threatened world famine—can counteract the effect of high prices—and can replace growing debt with systematic saving.

Careful investigations show that before the war the average British family wasted 25% of their food—and we Canadians were even more extravagant.

This waste is not in a few big things, but in many little ones, each, we used to think, too small to bother about—such as careless peeling of vegetables and fruit—failure to make good use of dripping and "left-overs"—and such others as will occur to every thrifty housekeeper.

For the Empire's sake as well as your own, hunt up and cut out these leaks! You'll be helping to relieve the food shortage—saving your own money—and putting yourself in a position to buy Canadian War Savings Certificates and help win the war.

War Savings Certificates are issued in denominations of \$25, \$50 and \$100, to be repaid in three years at full face value. They cost \$21.50, \$43 and \$86 respectively, at all Money Order Post-Offices and Banks, thus yielding over 5% interest. Should you need it, you can get your money back at any time.

The National Service Board of Canada.

R. B. BENNETT, Director General. C. W. PETERSON, Secretary.

ST. JOHN, N. B., FRIDAY, JULY 6, 1917.

"We are fighting for a worthy purpose, and we shall not lay down our arms until that purpose has been fully achieved."—H. M. The King.
TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

UNNECESSARY PARTISANSHIP.

Those who have followed the reports of the debates in the House of Commons cannot but have been impressed with the manner in which prominent Liberals have come out from their party to support the conscription measure of the Government. Such men as Hugh Guthrie, F. F. Pardee, Dr. Michael Clark, W. A. Buchanan, E. W. Nesbitt, Hon. George P. Graham, F. B. Carvell, A. K. Maclean, W. S. Loggie, Dr. Neely and half a score of others have not hesitated to declare that in their opinion the chief duty of the hour is to support the Government in its war measures and endeavor to bring together the two great political parties in a common effort toward the winning of the war.

The defection of those, the most prominent of the English Liberals, does not yet seem to have smothered the spirit of petty partisanship with which the party organization is conducted. Pamphlets, maliciously false in character and reflecting upon the integrity of the Government, are still being circulated throughout Canada by the Liberal party organization, and at the public expense, several copies of such pamphlets being received in the city yesterday and all bearing the official "frank" of Liberal members of Parliament.

The courtesy of the postal "frank" has long been recognized as one of the legitimate perquisites of a member of Parliament. He is supposed to use it to send information to his constituents, in his personal correspondence, and in such other ways as may assist him in the transaction of his duties as one of the country's legislators. Possibly the privilege has been abused in the past by members of both parties, but for the present, and while the country continues at war, the practice of circulating political literature of an untrue and insulting character cannot be too strongly condemned.

Liberals and Conservatives alike are fighting and dying in France. Liberals and Conservatives at home, whose relatives are numbered with those on the firing lines, have their hearts and minds centered overseas. The country is facing big vital problems which demand the best thought of the best people of Canada for their successful solution. Under such a condition, and as long as that condition continues, there should be no time for petty politics or partisan practices. That the Liberal organization should continue such practices is bad enough, but that they should do it at the expense of the public, when there is an insistent demand for economy and service, is immeasurably worse. It is high time to relegate political partisanship to the discard until the national duty has been performed. We have enemies enough to fight in France and Flanders without devoting our energies and our resources to fighting amongst ourselves.

MR. F. J. ROBIDOUX.

Mr. F. J. Robidoux, M. P. for Kent county, N. B., whose splendid speech on conscription in the Standard publishes in full this morning, is to be congratulated upon his contribution to the debate on this important question. Mr. Robidoux made one of the worth while speeches heard in Ottawa during the past fortnight. His address is commendable not alone because it bears testimony to the courage of the speaker but because it is sane, moderate and high tempered, admirably presenting the attitude of the Acadians of New Brunswick.

It may be of interest to learn that when the conscription question reaches the Senate it will receive the hearty support of such other well known Acadians as Senator Bourque, Senator Girroir and Senator Foirier. They, with Mr. Robidoux, make a strong quartette from the Maritime Provinces who will speak and vote for the bill. During the debate which closed early today it was shown that there is an unfortunate and unhappy cleavage between the English Canadians of Ontario and the west and the French Canadians of Quebec, but in delightful contrast to this is the fact that in this province leaders of both races have united to forward the cause of the Empire in all matters pertaining to the war.

Not the least effective work in this direction has been done by the brilliant young member for Kent, whose voice has been raised often and eloquently in behalf of our participation in the war.

If the Acadians of New Brunswick have played no discreditable part in this struggle—a fact to which the Standard gladly testifies—it is perhaps in no small degree due to the example of those who like Mr. Robidoux have

not permitted minor, subsidiary matters to blind them to the greater issues at stake. In his fine stand in the conscription debate Mr. Robidoux has brought credit to himself and his constituency, a tribute that cannot truthfully be paid to another gentleman in this province who occupies his seat in the House of Commons as the supposed representative of the Liberals in the City of the Loyalists. The member for Kent has shown patriotism and loyalty of a class that puts Dr. Pugsley completely and everlastingly to shame.

ONE THING TO REMEMBER.

In considering the case of the unfortunate young soldier who was fatally shot by a military colleague on Fort Howe on Wednesday evening it is natural that there should be much sympathy for the family of the victim of the tragedy as well as for the boy who did the shooting. It is well to remember however that the lad responsible for the death of his friend is in his unfortunate plight today as the result of doing nothing more than his simple duty. As a soldier he was on guard over government property. His instructions, similar to those given to every soldier in the same position, were to challenge any person who approached him and if the second challenge was ignored, to shoot. In the darkness and fog he could not recognize his friend when he came up, who, in a spirit of fun, replied to the sentry's challenge with the invitation to shoot. The sentry did his duty and an innocent life was the toll.

It was a sad and tragic accident, but it serves to bring closely home to all of us the fact that this country is at war, and that the laws of military service will completely consume the man who did as this sentry, regrettable though the consequences may be.

An Ottawa despatch states that western Liberals have definitely broken with Sir Wilfrid Laurier and that a convention will be held in Winnipeg in August to form a new party. While this is the first definite announcement that the cleavage between Sir Wilfrid and his English supporters had reached the stage of an absolute parting of the ways, yet it is not surprising to those who have watched the trend of events at Ottawa during the past three weeks. Sir Wilfrid had the greatest opportunity of his long career and he neglected it. As a result he will end his public life where he commenced—as a leader of reactionists, representing but one province and one school of thought. It is to be regretted that this school is not in tune with the big Canadianism required to solve the troublesome problems of the present and future.

As the Standard goes to press it is expected that a vote on the conscription measure will be reached during the early morning. The prediction is that the amendment to the amendment calling for the six months hold will receive but scant support, the Laurier amendment for a referendum will be beaten by some forty votes and the Government measure will be adopted by a majority that may reach sixty. The bill will then pass to the committee stage, where whatever changes are necessary will be made. On its return to the House for third and final reading it will pass, probably without debate, and by the time it goes to the Senate there will be sufficient majority to place it upon the statute books.

Clarence Jameson, who represents Digby county in the House of Commons, has the distinction of delivering the shortest speech in the conscription debate, but it bristled with telling points in favor of the measure. Mr. Jameson was first elected to the House of Commons in 1908 and was re-elected in 1911. He has already proven one of the most useful members of the House, and his friends predict for him a long and successful career in public life.

The summer flowers made their first appearance on King Square yesterday. So did the summer dogs and today the flower beds will bear testimony to the activity of the canine visitors. In this matter of public flower beds St. John has a method all its own. We put the plants in the beds, presumably to delight and edify the people. Then we permit the dogs to promenade all over them. This thoughtfulness is most pleasing to the dogs even though it may move a flower loving citizen to profanity.

Alphonse Yerville, M. P. of Maisonneuve, misrepresents labor when he talks of a general strike as a protest against conscription. The 30,000 trades unionists in the trenches have

a different view and their comrades at home will support them, irrespective of what the disappointed applicant for Senatorial honors may say, think or do.

Restrainted Russia has again gotten into her stride. If the march of the Muscovite forces continues we shall soon have a return to the six and seven syllable jaw-breakers of which we had a taste earlier in the war. This is the only unsatisfactory feature of the situation in the East.

ST. JOHN RETURNED OFFICERS TO TRAIN U. S. TROOPS IN MASS.

General Sweetser Asks for Several 26th Officers—Can Render Valuable Services in Instructing Troops—Recruiting Dead in City.

HONOR ROLL.

William Croukhank, Collins, N. B.
William C. Jordan, Ben Lomond, N. B.
Forestry Unit.

Recruiting in St. John is practically dead. Yesterday but two men made application for enlistment and they were both for a non-combatant unit.

The United States and especially the State of Massachusetts, are to have the advantage of having trained and experienced officers of the Canadian army, who have made for themselves and country a name immortal, to assist them in the training of their manhood. It will be recalled that Lieut. Col. McAvity recently visited Boston on military business, and while there acted in an advisory capacity to Brigadier General Sweetser of Massachusetts. Impressed, no doubt by the officer's keenness and military knowledge, application has been made by the state authorities for several officers of the 26th Battalion who will be used in the instruction and training of state troops.

The officers who have the advantage of this offer to make their reply to General Sweetser before July 10th. It is understood that with the exception of one of the officers, the remainder will accept the invitation. The following officers have been asked to go across the border for instruction purposes: Lieut. Col. McAvity, Capt. F. H. Elliott, Capt. G. M. Johnston and Lieut. C. D. Knowlton and W. H. Brooks.

Board of Inquiry.

The military authorities have appointed a military board to investigate into the death of Corporal W. S. Hamm, who was shot at Fort Howe on Wednesday night at 10 o'clock by Pte. H. Arsenault. The board will consist of Major P. D. Tilton, Captain Bennett and Lieut. McKendrick. The board will commence their investigation after the finding of the coroner's inquest, which opens tonight.

LESS CASUALTIES ON JULY FOURTH

Chicago, July 5.—Reports of fourth of July casualties from all parts of the country are as far below last year as to indicate that Independence Day established a remarkable record along the safe and sane lines.

Six deaths have been reported compared with seven for the first night last year, and while that number may be increased it is the decrease in the number of injured which stands out as notable. Only 135 persons hurt was the wonderful result of the celebration. Last year the injured list numbered 653.

TRAIN KILLS ONE AND HURTS SEVEN

Winnipeg, N. H., July 5.—Mrs. Frank Woodward of South Alexandria was killed and seven others injured, one fatally, in an automobile accident here. The car, in which they were riding was struck on a crossing by a Boston and Maine southbound express.

CHOICE OF TWO-PIECE SUITS FOR \$10. All broken lines of Two-piece Summer Suits being cleared at \$10. Former prices, \$12.50 to \$30. Gilmour's, 68 King Street.

For "common ills that flesh is heir to," old Mother Nature gives us the cure in her simple, healing herbs. When the liver gets sluggish—when the blood becomes laden with impurities—and that miserable dragged-out feeling comes over one—then it's time to go back to Nature for the remedy and take

Little Benny's Note Book.

We fellows was setting on my front steps, and we all started to see which one could make up the best poem about July, with wena we all got thro' I recited mine, being this

July
July is a month in summer
Wena birds raise their voices in song.
And your pants sticks to the back of your legs.
If you set down very long.
Pants ain't got nothing to do with birds, sed Puds Simkins.
I didn't say they had, I sed. And Puds recited his, being this

O July, O July
Wen school is done and over,
Us fellows set on Bennys steps
Wena we aint home or playing Red Rover.
We dont set on them wen we are away in the kuntry, either, sed Sam Cross.

We'll you dont half to put in everything in poetry, thats wat makes it poetry, sed Puds. And Sam Cross recited his, being this:

We wear lots of clothes, in January
And in April not so many,
We wear 2 or 3 less in May and June
And in the kuntry we dont wear hardly any.
Well wena does July come in? I sed.
In the kuntry, sed Sam Cross.
Well lets have a vote to see which is the best poem, sed Puds Simkins.

Wich we did, all writing down whose wena thart was the best and putting the 3 ballots in Puds's cap, wich wena we opened them everybody had one vote in their own writing.

WANT GENERAL ELECTION IN NFLD.

Opposition in Ancient Colony Against Extension of Life of Legislature.

St. John's, Nfld., July 5.—The opposition party in the Newfoundland legislature is using every possible means to block the expected proposition by the government that the parliamentary term be extended for another year because of the war. The opposition desires a general election next fall.

A deadlock in the business of the legislature has resulted, as the government has been unable to bring to pass a necessary revenue for the continuance of government work. The opposition is engaged in an extended filibuster on all such bills.

Strength in Summer comes to the man or woman whose daily diet consists of cereals and fruits.

Meat and potatoes are a heavy load on the digestive organs. The ideal Summer diet is Shredded Wheat Biscuit, a food that is 100 per cent. whole wheat and prepared in a digestible form. For breakfast with sliced bananas or berries, with milk or cream.

Made in Canada.

SERIOUS MINING TROUBLE IN WEST

United States Troops Ordered Out in Arizona Copper District.

Phoenix, Ariz., July 5.—A telephone message received today by Attorney General Jona, from County Attorney Foster at Globe, stated that the mine strike situation was entirely beyond control and that the United States troops from Douglas, numbering 400, have been ordered out.

In his message the Attorney-General said there are at least 3,000 strikers with arms and the entire armed force of citizen deputies is about 300.

NO TORIST WOUNDS OF NON-SUBMARINES

DRUDGE OF MANSLAUGHTER

Washington, July 6.—Secretary Daniels announced today that the navy department had received information that German submarines were operating in the vicinity of the Azores Islands. For military reasons, he said, no further information would be given out for publication.

Press despatches from Ponta Delgada, yesterday, told of the bombardment of that city at dawn by a German submarine. A little girl was killed and several persons injured. The forts replied to the submarine.

Another despatch from Lisbon said the minister of marine had made an official announcement that an American transport joined in the firing on the German submarine, which bombarded Ponta Delgada. The transport, he said, was discharging coal and aided the batteries in forcing the submarine to withdraw out of range. The submarine was still off the port, the announcement said.

SEVERE STORM IN TOWN OF WINDSOR

Windsor, N. S., July 6.—A severe electrical storm passed over Windsor tonight. The residence of J. W. Dimock, which is roofed with steel, was struck and badly damaged. Glass in the residence of Captain Doyle, and in a tenement house forty feet away was shattered by flying bricks. No person was injured.

YOUNG ACADIAS BEAT CARLETON

The Young Acadias donned their batting togs on the Shamrock grounds last evening and trimmed the Carleton Wonders in a six inning game to the tune of 18 to 8. Carrigan and Fryar were the battery for the Young Acadias and Maxwell and Mosher for the Carletonians.

The Young Acadias dispute the claim of the Beavers that the latter had the better of Wednesday night's game. The score was tied 7 to 7, and the Young Acadias challenge the Beavers to another game next Thursday night and request an answer through The Standard.

TERRIFIC HAVOC.

It costs some thousands of dollars to discharge a modern howitzer. The latest type of machine gun costs more per minute than a day's ammunition did for riflemen in old times. The modern soldier needs a new rifle every few months. A solitary shell may wreck a costly aeroplane or destroy an ammunition train loaded with freight valued at anything from \$10,000 to \$25,000. Canada is meeting huge war expenditures every day. It cannot continue to foot the bill unless every man and woman in the Dominion helps to meet the account. It is to secure such individual assistance that the National Service Board is making its appeal for thrift. Millions are wasted every day in the Dominion through extravagant expenditures. Such extravagance is a crime against the men at the front. There should be no luxuries at home. There are none in the front lines. Waste is an offense against the nation. Anything but the exercise of true economy is opposed to the best interests of the Canadian divisions and is a direct handicap in the prosecution of the war. If you are not serving by saving, you are neglecting your duty to the country. Save your dollars and invest in War Service Certificates.

GERMAN KILLS SELF.

New York, July 6.—Richard Adam Timmerscheidt, representative of Germany's commercial interests in China, and apparently a man of considerable wealth, committed suicide here today by jumping from his rooms on the tenth floor of a bachelor apartment house. He had first slashed his wrist with a razor blade. No motive for the suicide has been ascertained.

DIED.

GREEN—At Woodstock Hospital, July 3. Ada Maud, beloved wife of G. Herbert Green, leaving her husband and two daughters to mourn.

Funeral on Friday at 2.30 o'clock from her late residence, 200 Wentworth street. Please omit flowers. Service at St. James' church at 2.45.

HENRY—In this city on the 4th inst. Elizabeth, widow of Robert Henry. Aged 83 years, leaving one son and one daughter to mourn their loss.

Funeral Friday, July 6 from the residence of her son, Edward W. Henry, 142 Leinster Street. Service at 2.30 P. M.

"TIZ" FOR ACHING, SORE, TIRED FEET

Use "Tiz" for tender, puffed-up, burning, Calloused feet and corns.

"How 'Tiz' does help sore feet."

People who are forced to stand on their feet all day know what sore, tender, sweaty, burning feet mean. They use "Tiz," and "Tiz" cures their feet right up. It keeps feet in perfect condition. "Tiz" is the only remedy in the world that draws out all the poisonous excretions, which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "Tiz." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet.

Get a 25-cent box of "Tiz" now from any druggist. Just think! A whole year's foot comfort for only 25 cents.

SMITH FORM-A-TRUCK IN MILITARY USE.

It is the belief of experts that the one-ton Smith Form-a-Truck attachment in combination with a Ford, Chevrolet, Maxwell, or the one-and-a-half ton truck on a Dodge Brothers chassis or other cars of similar size, will prove a big factor in the rapid transportation of men and supplies on the European battlefields.

The use of the trucks constructed in this way is not new. When General Pershing's column went into Mexico, a big number of trucks were used. Experience showed how vitally important it is that a truck first of all must be simple. Complicated construction increases the chances of the truck getting out of order; and, of course, makes repairs difficult and time-consuming.

The Smith Form-a-Truck's sturdiness and durability was demonstrated on the Mexican Border as it will be in the European battlefield in the present war.

In the truck made by combining any one of the mentioned cars with the Smith Form-a-Truck attachment, simplicity reaches its height. The truck will comfortably carry fifteen men, or a ton and a half of supplies, at a speed of 15 to 20 miles an hour on city streets, and from 12 to 15 miles an hour on country roads is easily attained.

AND COMMENT FROM THE FINANCIAL WORLD

MEANWHILE IN THE WALL ST. MARKET

Summer Apathy, Professional Trading, Slump in Motors and Metals Main Features.

New York, July 5.—Summer apathy and heaviness accompanied the movement of today's stock market operations, dealings being more than ordinarily circumscribed. Commission houses reported extreme indifference on the part of out-of-town traders and local speculative interests were plainly disposed to let the market drift, pending adjustment of important details bearing upon the financial situation.

A significant industrial development was the first decline in many weeks in prices of certain finished iron and steel products.

These ran from \$2 to \$6 per ton, but were offset by additional advance in pig iron, bars and sheets.

Leading industrials were under constant pressure, United States Steel recovering a net loss of 2 1/2 points at 126 1/2. Affiliated stocks, notably Bethlehem Steel, Republic Iron, Midvale and Harvester yielded one to over four points. Baldwin Locomotive and Crucible Steel also reacted sharply from early advances.

Motors Weakest.

Motors and subsidiaries were the weakest features, Studebaker at one time added 7 1/2 points to its recent steady fall and Chandler 10, the latter, however, making substantial recovery. Local tractors were depressed by reason of familiar operating conditions and New York Air Brake was conspicuous among the less active equipments at a loss of seven points.

Forenoon gains of one to two points in shipping, oils, copper and tobacco were swept away in the more general selling of the last hour. Rails were also much impaired at that period. St. Paul common and preferred making new low records for many years at 6 1/2 and 10 1/2 respectively. New York Central lost two points on its adverse statement of earnings and other transactions of the investment class were at the new low levels for the current movement. Little support was seen at the active close. Sales amounted to 625,000 shares.

More Gold.

Weakness of Paris bills at an extreme decline of 3 1/2 points was the feature of the exchange market. Another large consignment of British gold served to stabilize sterling rates. International bonds were firm, domestic issues irregular and liberty 2 1/2% steady at 100 to 100 2/5.

Total sales, par value, aggregated \$2,240,000.

U. S. coupon and registered 2's and 4's lost 1/2 per cent. on call.

LABOR SHORTAGE HOLDS DOWN GOLD PRODUCTION.

Special to The Standard.
Porcupine, Ont., July 5.—There are twelve mills in operation in the gold district of northern Ontario at the present time, but owing to the shortage of labor production is not going forward at maximum. According to estimates the total monthly production is \$1,277,400, which amounts to \$17,228,800 annually. Of that amount \$1,262,400 is from Porcupine Camp and \$15,000 from Kirkland Lakes. Hollinger heads the list with a total of \$272,000, Dome and McIntyre following with \$225,000 each.

NEWS SUMMARY.

(McDOUGALL & COWANS.)
New York, July 5.—Secretary of War Baker seizes Associated Press despatches from France, claiming war department has the right to censor them, stating wish of Congress.
Chairman Stevens of American Railroad Commission to Russia, cables state department requesting construction of locomotives and cars be begun at once, cost to Russia \$75,000,000.
Third Ave. Railway confronted with threatened strike owing to demands of employees for higher wages and shorter hours.
Reports to federal reserve board from the reserve districts show industries continue active.

\$12,000,000 MORE GOLD FROM CANADA

Total Imports by United States Banking Interests from Dominion \$119,531,000.

New York, July 5.—An additional \$12,000,000 worth of gold from Canada has been received by J. P. Morgan and Co. and sold to the Federal Reserve Bank, it was announced here today. This makes the total imports from Canada received in the present movement \$119,531,000.

A gold reserve of \$62,600,000 to the credit of the New York Reserve Bank is now held by the Bank of England acting as London agent of the American Reserve Bank.

The Federal Reserve Board says officially: One feature of the past month's changes in reserve requirements and reserves has grown not out of legislation but of conditions of war. Obligations amounting to \$45,000,000 in favor of American holders which matured at London joint stock banks were paid at the Bank of England. The resulting obligation to holders of gold subject to orders of the reserve system.

CHANDLER MOTOR SAGS NINE FULL POINTS

Studebaker, United States Steel and Other Stocks Also Weak in a Declining Market.

(McDOUGALL & COWANS.)
New York, July 5.—The market was generally soft in the afternoon, becoming even reactionary toward the close. U. S. Steel got down 2 1/2 points under the high price of the morning and the other steel stock declined similarly. The rails were generally soft with St. Paul two points below the previous close. Market sentiment was evidently affected by persistent weakness in the motor stocks.

Chandler suffered a quick break of nine points which part was recovered before the close. It had evidently been confused with another company of somewhat similar name which is undergoing a financial readjustment, but Studebaker also continued to decline and General Motors went off a couple of points.

The weekly government weather report indicated that cotton had improved. Spring wheat had made good progress and corn had had another favorable week although it is still backward. Expectation is that the condition report may be at least encouraging, but the market is discouraged over the seemingly interminable deadlock at Washington over price regulations while in some industries, notably copper mining, there are misgivings over the probable effect of the attitude of the men on the output. Call money ruled at 3 1/2 per cent.

BANK CLEARINGS

St. John.
For week ending Thursday, July 5, \$1,625,284; corresponding period last year, \$1,653,533.

Montreal.
Montreal, July 5.—Montreal clearing house returns for week ended today show a decrease for the first time since the second week of April, and is the second decrease this year. The figures are: \$71,688,963; corresponding week in 1916, \$74,542,948; corresponding week 1915, \$65,494,476.

MONTEAL MARKET IS VERY QUIET AND DULL

Sharp Reaction in Wall Street Has Little Influence on Canadian Securities.

(McDOUGALL & COWANS.)
Montreal, July 5.—The sharp reaction in Wall Street this afternoon exerted but little influence on Canadian securities.

Prices eased off here and there, but net changes among the more prominent speculative leaders were confined to small fractions. Having largely disregarded the recent strength of New York the market had reasonable grounds for not displaying uneasiness over the current set-back. Business continued extremely quiet in all directions although there was some expansion over the small volume of Wednesday's trading, about 1800 shares changing hands against less than 500 the day before. Canada Steamship Common was most active feature with dealings in about 500 shares on which the price rose small fraction to 44 but closed 1/4 down at 43 1/2.

The preferred stock concurrently sold off 1/4 to 80 1/2. Changes elsewhere on a light turnover included losses of 1/2 for Cement at 60 1/2, 1/2 for Dominion Iron at 60 1/2 for Nova Scotia Steel at 97 1/2. Steel of Canada was nominally unchanged at 58 but was quoted shade lower for day at 57 1/2.

A fair demand for Civic Power which remained steady at 75 1/2 was the chief feature in utilities. Detroit was on heavy side at 107 1/2. Brazilian relapsed into dullness and was quoted a shade lower at 39 1/2 bid at the close.

The Dominion war loans maintained recent improvement, the second being in good demand at 94 1/2 and the third at 94 1/2 to 94 1/2 with closing bid 94 1/2.

ONE OR TWO WEAK SPORTS IN MARKET—ABSENCE OF BUYING POWER—PROFESSIONALS IN CHARGE.

Market—Absence of Buying Power—Professionals in Charge.

(McDOUGALL & COWANS.)
New York, July 5.—Easier money and enlarged investment in stocks are two factors of bullish importance to which attention is being directed in banking circles in close touch with large financial readjustments. Plenty of funds will be available for conservative speculative investment according to these sources.

The short interest has very much enlarged, says a well known active market chameleon. "The market may rally a little, but we think those who sold will find it expedient to buy back at a higher price if they wait."

Persistent gossip is noted to the effect that other motor concerns beside the Saxon are improving their financial difficulties. In buying motor stock the utmost discrimination is recommended by conservative interests in touch with banking sources who have financed this group.

Important short covering is reported to have taken place in Studebaker. Certificates bearing Studebaker names are understood to have been delivered lately from which it is inferred that liquidation is approaching culmination. The stock will be sold on rallies by the room crowd. "Absence of buying power" has been a frequent reference among bearish operators in the last day or two, but investigation shows that there is likewise an absence of any volume of large stock except in spots where specific reasons exist for liquidation. The market tactics are entirely professional and holiday-like. "The common stock of the American Car and Foundry Co. is declared to be protected by assets better than any other industrial."

Special Offering of \$50,000 City of Halifax 5% Bonds

Due January 1st, 1950
Interest payable January 1st and July 1st.
PRICE 93 p. c. and interest.

EFFICIENT ADDRESS TO THE HOUSE OF COMMONS

FRENCH-ACADIAN REPRESENTATIVE ENDORSES CONSCRIPTION MEASURE TO FILL UP ARMIES OF CANADA

In One of Best Speeches of Debate at Ottawa He Appeals for a United Canada at this Time of Crisis.

Statement that French Citizens Would Stand Behind the Government in Any Action Necessary to Win War Made Deep Impression on Both Sides of the House.

F. J. Robidoux, M. P. for Kent County, N. B., one of the French-Canadian representatives in the Dominion Parliament, in an eloquent address on the conscription bill gave his reasons for supporting the measure introduced by the Prime Minister, and contended that the people he represented were in favor of doing everything in their power to bring to a successful conclusion the present struggle. He deplored the remarks of certain Quebec representatives who predicted civil war if the measure passed, and claimed that the majority of the French citizens of the country would loyally stand back of the law when it was passed. While the Acadians of the province of New Brunswick had done well under the voluntary system, it had failed to provide sufficient men for the upkeep of the armies in the field and the time had come for other measures.

The address of Mr. Robidoux was one of the best of the debate and was well received on both sides of the house.

The official report in Hansard follows:

Mr. Ferdinand Joseph Robidoux, Kent, N. B.: Mr. Speaker, I would take no part in this debate did I not feel bound to raise my voice in support of the measure introduced by the Prime Minister, and I take this position believing it to be in the best interests of the race to which I belong, as well as of the country generally. I have followed with close attention the debate which has taken place in this House during the last few days, and it seems to me that there are a few things which have been pretty conclusively established; the first of which is the fact that the principle of compulsory military service has been embodied in our statute law ever since Confederation. It is therefore quite clear that the proposed Military Service Act does not introduce into the legislation of this country any new principle as far as compulsion for the defence of Canada is concerned, except in so far as it provides that troops shall be raised by selective drafts and not by the methods laid down in the Militia Act, which require that the men be selected by ballot. The new Act does not trust to luck for the selection of the men; it provides that the selection shall be made in an intelligent manner, having regard to the requirements of the great industries of the country, and among which must necessarily rank agriculture and the fisheries, which are the most important agencies of food production.

Can Send Troops Overseas.

In the second place, it has been shown beyond question that the Government in Council already has the power under the terms of the Militia Act of 1904, to send Canadian troops beyond the limits of Canada for the defence of Canada in a case of emergency. The Hon. member for Kamouraska has cited old statutes in force before Confederation, in which it was specially stipulated that the militia could be called out and marched to any place without the province, but contentions there-with for the purpose of repelling or meeting an attack. My hon. friend cited those old statutes in an endeavor to prove that under the present Militia Act the same limitations applied. But in my judgment he has not succeeded in proving exactly the contrary proposition to that which he sought to establish. In the Militia Act of 1868, drafted by Sir George Etienne Cartier, as well as in the Act of 1904, the word "continental" has been eliminated, showing conclusively that the framers of the new law had in contemplation certain circumstances which might arise and might compel Canada to send her troops even beyond the seas to fight for the defence of Canada. Otherwise the word "continental" would have been left in the statute. Moreover the words uttered by the then Minister of Justice, Sir Charles Fitzpatrick, at the time the clause dealing with this matter was adopted, words which have already been quoted in this House, evidently show that this is the true and proper construction to put on that clause.

Canada Protecting Herself.

There is another fact which, clear and distinct, looms out of this debate and out of the events which transpired in this country at the outbreak of the war. Canada went into the war, not only because Great Britain and the Empire were threatened by a grave danger, not merely for the purpose of helping Great Britain and France in the tremendous struggle into which the unjust aggression of Germany had thrust them without cause or warning; but Canada entered the war for the stern and fixed purpose of protecting herself and her people against a grave and serious danger which would inevitably become a disaster should Germany win out. It was mainly this sentiment of self-preservation which prompted the people of this country at the outbreak of the war, and ever since, without distinction of race and creed, to unite in a common voluntary effort to resist the German menace and help crush it, and upon this sentiment chiefly rested the appeal which was made to the youth of Canada in order to urge them to enlist and fly to the defence of our country.

Acadians Have Done Well.

Finally it has been shown by the Prime Minister, and it has been generally admitted by those who have spoken in this debate, that the system

of human liberties are today fighting desperately against a powerful foe; they are engaged in a struggle the issue of which is still uncertain. "The British Empire is now fighting for its existence. I want every citizen to understand the cardinal fact," said Lord Kitchener the other day.

As Canadians our cause is bound up with the cause of Great Britain; her interests are ours if England falls, we are going to fall with her, and we are going to lose all the glorious privileges we enjoy as citizens of the British Empire. Canada, now so free and so happy, so blessed by God with such great resources, Canada that has such a brilliant future before her, will be reduced to a condition of vassalage and crushed under the iron heel of a foreign and unympathetic ruler.

Failure for England in this war will mean England's destruction and even success will have to be dearly paid for; but let us thank God, the age of savagery is not passed; there is still enough patriotism and honor in the young men of this province to make a supreme effort now for England's cause. Our hope is in our young men; to them we look to for the honor and the glory of the British Empire of that Empire which, rather than to break its pledged word to little Belgium, put these acres on the altar of the best and noblest of her sons.

I need not enter here at length into the causes that led to this terrible war; I need not dwell on the violation of the neutrality of Belgium. Let wonderful little kingdom which the Bishop of Salford called "the victim and the saviour of Europe." I need not recall the breaking of a treaty which the powers had solemnly promised to keep intact, or England's entente with France for the protection of the channel ports. Above all this, stands the one great fact that England did not want this war, but now that she has forced it on it, it is our duty as loyal subjects of His Majesty the King to uphold her cause and to rally to her defence.

Young men of New Brunswick, we appeal to you not to allow Britain, to whom we are indebted for our civil and religious beliefs, for our just laws, and for the protection and prosperity that we enjoy, to have her very existence imperiled without striking a blow in her defence. Tonight from over the seas is wanted to us the cry of the Motherland; more men, more men! Let every man, who is willing to heed that cry, enlist.

It will not do for Canadians to be behind; better things are expected of us; we want our best and bravest sons, whom we are indebted for our civil and religious beliefs, for our just laws, and for the protection and prosperity that we enjoy, to have her very existence imperiled without striking a blow in her defence.

Remember, young men, it is just possible that unless you strike a blow now in defence of the Mother Country, our duty of prosperity may soon be ended. The enemy is dangerously near our doors. The fall of Antwerp, the occupation of Ostend and the disastrous battle of the Yser, could a few days ago threaten them. Would it not be possible to have enacted here and in our quiet country homes tragic scenes similar to those which have taken place in Belgium—and in northern France—prosperous villages where once reigned peace and contentment and where the people lived in their cathedrals and public buildings in ruins, millions of innocent and suffering people seeking refuge in other lands.

Go forth to battle now, while the future of Canada is being fought for on the plains and river banks of France. Let the spirit of patriotism prompt you tonight to say "England never did, nor ever will, do at the proud foot of a conqueror."

At a late date in January 1917, Bishop LeBlanc in a pastoral letter to the young men to enlist and he wrote:

As long as the world will last, nations will have recourse to arms when

IF YOU ARE BILIOUS USE
"PRIGAL"
PURGATIVE WATER
The ideal family laxative which removes bile, cures constipation, purifies the blood and insures good health.
ON SALE EVERYWHERE: USE IT FOR HEALTH'S SAKE.

THE MOVIES THE PLAYERS

Here are Related Facts and Fancies Concerning the Activities of Individuals and Organizations, the Home, Fashions and Other Matters.

THE TODAY'S AND YESTERDAYS.

As tinted rosebuds, they unfold The silent days, so swiftly tolled And flash with beauty, 'neath His care Diffusing fragrance, here and there.

The rose is plucked, or droops and fades These days the ground are petals laid But deeds live on, they never grow old 'Tis what we are, not what we hold.

And days that glide to years in flight Enveloped by the dreamy night Continual sweetness will impart, When mellowed by a loving heart.

Kind acts, the scented roses bright We'll quickly change Earth's gloom to light, When wrought in union with One To whom we pray "Thy Kingdom come."

LECTURED ON CANNING. Miss Lila White of St. Martins addressed the members of the Home Efficiency clubs of the city in the High School building yesterday morning and afternoon. Miss White spoke of the value of canning and the best methods to employ.

LADIES OF ROCKVILLE, N. B. ORGANIZE "KNITTING CLUB." The ladies of Rockville, N. B., met at the home of Mrs. J. W. Patterson on Monday evening, June 25th, when Miss Florence Annette deMille, Sussex, organized a "Knitting Club."

The following officers were elected: Mrs. Chas. Bower, president; Mrs. J. W. Patterson, vice-president; Miss Beatrice Doherty, secretary; Mrs. F. Gulliver, treasurer.

The club was given the name of "The Maple Leaf Knitting Club," and will meet once a week. The meeting was opened by singing "The Maple Leaf Forever." After the business had been transacted in a satisfactory manner, Miss deMille gave a brief but very interesting address on the "Food of Rocks by Our Soldier Boys," and related a number of pathetic instances also read some letters from boys in France, who had received socks from

members of the Sussex Soldiers' Comfords, and wrote letters of thanks for same. Yarn was distributed to members of the club, all anxious to do their bit, and to do all in their power to help along so worthy a cause.

Several piano solos rendered by Miss deMille were very much enjoyed, and the rest of the evening spent in a social way, after which Mrs. Patterson served dainty refreshments. Everyone expressed themselves as being well satisfied with the evening's proceedings. The singing of the National Anthem brought to a close a very enjoyable meeting.

CHANGE. Ruth is an alchemist I know, And so I'll have to drop her. For every time I'm out with her My silver turns to copper.

CHANCE HARBOR W. I. The Chance Harbor Branch of the Women's Institute held their annual meeting on June 28th. The following officers were elected: Mrs. R. L. Belding, president; Mrs. W. C. Wayne, vice-president; Mrs. R. C. Thompson, secretary-treasurer; Mrs. J. Hargrave, director; Miss Blanche Tiner, Mrs. R. Seward, auditors. Much work was accomplished during the year, the Institute assisting the Red Cross work, Y. M. C. A. work, and other patriotic societies. Over twelve dozen pajama suits were finished and a number of socks were knitted for the boys at the front.

Much credit is due to the retiring president, Mrs. James Thompson, for the work accomplished. "Isn't she a beauty?" "She has more beauty than sense, my boy."

"That's all right. When I want wisdom I can read the encyclopedia." -Louisville Courier-Journal.

DON'T WASTE A SLICE OF BREAD. "Any waste of bread is inexcusable when there are so many ways of using stale bread to cook delicious dishes," says the United States Department of Agriculture. "A single slice of bread seems an unimportant thing. In many households one or more slices of bread daily are thrown away and not used for human food. Sometimes stale quarters or half-loaves are thrown out. Yet one good sized slice of bread—such as a child likes to eat—weighs an ounce. It contains almost

three-quarters of an ounce of flour. "If every one of the country's 20,000,000 homes wastes on the average only one such slice of bread a day, the country is throwing away daily over 14,000,000 ounces of flour—over 875,000 pounds, or enough flour for over a million 1-pound loaves a day. For a full year at this rate there would be a waste of over 318,000,000 pounds of flour—1,500,000 barrels of flour—enough to make 368,990,000 loaves. As it takes 4 1/2 bushels of wheat to make a barrel of ordinary flour, this waste would represent the flour from over 7,000,000 bushels of wheat, fourteen and nine-tenths bushels of wheat on the average are raised per acre. It would take to provide a single slice of bread to be wasted daily in every home. To produce this much flour calls for an army of farmers, railway men, flour-mill people. To get the flour to the consumer calls for many freight cars and the use of many tons of coal.

"But, some one says, a full slice of bread is not wasted in every home. Very well—make it a daily slice for every four or every ten or every thirty slices—make a weekly or monthly slice in every home—or make the wasted slice thinner. The waste of flour involved is still appalling—although too great to be tolerated when wheat is scarce."

GOOD SUM FOR RED CROSS. The Red Cross recently held by the Bishop's Palace, realized \$350 for the Red Cross fund.

REDCROSS EXECUTIVE. At the executive meeting of the Local Red Cross, held in the Red Cross Depot, the chief subject for discussion was the celebration of France's Day. Many plans were talked of and it was decided to have an entertainment. Mayor Hayes has promised to do all in his power to make the day a success.

Reports come in from many of the summer resorts where they are beginning their work. At Duck Cove the usual weekly meetings will be held. Mrs. John A. McAvity presided at this meeting.

ELOQUENT ADDRESS BY F. J. ROBIDOUX OF KENT. (Continued from page 5) forces at the front, or we must gradually drop out of the war. In other words, the time has come when we must make up our minds either to remain in the war to a finish or practically get out of it.

Mr. Speaker, I think I voice the sentiment of this country when I say that the Canadian people English and French speaking, are determined to stand by Great Britain and her Allies until this war has been carried to a victorious conclusion. They are so determined because they know that so long as Great Britain shall be in danger, Canada will equally be in danger and that, in the words used by Bishop LeBlanc, "If England falls, we are going to fall with her."

Speaking for the people I have the honor to represent, I think I can say that they are in accord with the great majority of the people of Canada on this question; that while the idea of compulsion is repugnant to them, they will not hesitate, when they realize the seriousness of the situation, to assume cheerfully and bravely their full share of responsibility in the prosecution of the war. They have very bravely and magnificently in the past and they will so conduct themselves in the future however difficult may be the task before them.

I must register my protest against the unfortunate remarks which were made in this House by the hon. mem-

ber for St. Elizabeth (Mr. L. J. Gauthier) at the close of his speech. The words which he uttered were not worthy of himself and of this Canadian parliament; they were certainly not worthy of the great race to which we both belong, and I will venture to say that they do not voice the sober sense of the people of the province of Quebec.

Should Be No Cleavage. I see no reason why there should be a distinct line of cleavage over this question between the two great races which have inhabited Canada for a century and more and have made it what it is today. Their interests are identical; they have the same love for freedom and liberty and for those British institutions which are the best guaranty of liberty and freedom; they are facing a common foe in the trenches of Flanders and of France, and French and English men are fighting side by side, making the supreme sacrifice and laying down their lives for the common cause.

Mr. I believe that, fortunately for Canada, the deeds of bravery and of heroism which have been performed by the sons of French-Canadians at Courcellette, at Vimy Ridge and elsewhere, will play a far greater part and will wield a much broader influence in shaping the future destinies of this country than will the irresponsible speeches of demagogues and political agitators.

Under no other flag and under no other possible form of Government would we enjoy as large a measure of freedom and of protection as we now have under the British flag. For this reason, and for other reasons which I have given, convinced as I am that the destinies of Canada are closely linked with those of the Empire; feeling as I do that the French-Canadian race has more at stake in the present conflict than any other element of the population of Canada, for should Germany win this war we would lose many of the precious rights and privileges we now have; believing as I do that, not only is it necessary, but that it is fair as well to the men who have already gone into the trenches, that sufficient reinforcements be provided for our troops in France, I will support the Bill.

TOURISTS ONLY WAITING FOR SOME FINE WEATHER. It only needs a short spell of fine weather to have the tourists flocking to New Brunswick, according to Mr. C. B. Allen, secretary of the New Brunswick Tourist Association. Mr. Allen stated to The Standard yesterday that he had received a large number of inquiries from prospective tourists in Western Canada as well as from across the border as to the attractions that the province offered which indicated a large amount of tourist travel in Brunswick during the summer, providing the weather behaved itself. Though the New Brunswick Tourist Association has been in its new quarters for only a short time, they have received calls from quite a few travellers, especially during the past few days. Mr. Allen expects that there will be a heavy influx of tourists from Ontario and the surrounding regions because of the restrictions on the tourists at the border which will tend to keep Canadians at home.

Who's Who and What's What in the Picture World and on the Stage--Favorites and What They Say and Do.

OPERA HOUSE. The Voice on The Wire. This week's episode of this mystery story might well be entitled "Suspense" and I must say I have seldom, if ever seen more tense suspense. The Detective, Shrirey, Polly, and the scientific investigator are banded together to prevent the death of Cahm. Another participant in that affair in Paris seventeen years ago, whom the voice on the wire has on a list of victims. All are closely watching and it is here that the picture is so cleverly directed. The effect of watchful waiting in silence and fear is splendidly given by many subtle touches of acting. Suddenly the hand appears, poor old scared Cahm falls down and—

"Continued next week" shows on the curtain I'll be there to see what happens next if it is anyway possible. And I think all who see this picture will be there too.

MYSTERY OF THE DOUBLE CROSS. We deal in pictures, we who follow serials and in this picture Peter Hale spreads a most uncomfortable hour gazing into the mouth of a revolver. (do revolvers have mouths or is it only cannon?) The moments must fly pretty fast when one has only 60 to live. The Paths serials, however boast resourceful maidens and Hale is snatched from that pistol just at eleven exactly by The Masked Stranger who can't be Philippa as we see her doing peacefully at home. It is to be hoped Phil, and her dad find out the true character of her guest, Bridgely Bentley. He is a snake in the grass all right.

A Christie comedy, something about an ice man, who is Neal Burns, with Mutual Weekly completed the picture programme. Vaudeville was supplied by Claus and Radcliffe whose dancing was good.

UNIQUE. As the fifteen-foot would not wait for Lonesome Luke who was delayed in Halifax and did not reach here till last evening I can't describe the merry-mix-up which occurs on Tin Can Alley but given Henry Lloyd and such a setting it is liable to be some comedy.

I did see a Black Cat feature, a detective story with scenes in the Canadian West—a comedy and an excellent Travel picture. Elizabeth Dute Dam is getting almost as familiar to St. John audiences as our own Reversing Falls but these are grand pictures of it shown in the Pathé reel. Along the Rio Grande, the results of irrigation are displayed in these beautiful scenic photographs. An interesting place is El Paso about which so much was heard at one time. Its high school cost half a million dollars.

THE WEATHER.

Forecast: Maritime—light winds, fair and warm. Washington, July 5—Northern New England—Fair Friday; Saturday cloudy, probably showers in Vermont; south shifting winds.

Toronto, July 5—A few local thunder storms have occurred today in Manitoba, also in the St. Lawrence Valley, but the weather in Canada has been nearly everywhere fine and warm.

Table with columns: Temperature, Min., Max. Locations include Prince Rupert, Victoria, Vancouver, Kamloops, Edmonton, Calgary, Battleford, Prince Albert, Moose Jaw, Medicine Hat, Minnedosa, Winnipeg, Port Arthur, Terry Sound, London, Toronto, Ottawa, Montreal, Quebec, St. John, Halifax.

Around the City

Harris Inquest Monday Night. The session of the Harris inquest which was to have been held tonight has been postponed until Monday night when it will be held in the large room in the court house.

Hurt While at Play. About three o'clock yesterday afternoon a small boy named Wilcox was treated by Dr. F. L. Kenney, of the West Side, for a slight cut on the head that he had received while at play.

Protest Against Demurrage Rates. A meeting of the Board of Railway Commissioners was held yesterday in Ottawa to consider the proposed new demurrage rates. The St. John Board of Trade sent to the meeting a protest on behalf of St. John merchants against the granting of the request.

Last Part of Finger. A workman employed at the Lancaster Dairy, on Brussels street, while washing one of the machines at the dairy yesterday afternoon, caught one of the fingers of his right hand in the machine, cutting the tip of his finger off. He went later to Dr. McDonald's office on Waterloo street and had the finger treated.

Centenary's New Pastor. Rev. H. A. Goodwin, the new pastor of Centenary Methodist church, passed through the city yesterday afternoon on his way to Quebec for a month's vacation before taking up his duties in St. John. A large delegation of the members of Centenary church were down to the station to welcome him and his family and to make their short stay in the city a pleasant one. Mr. Goodwin will commence his duties at Centenary this first of August.

Will Hold Inquest. Coroner F. L. Kenney will hold an inquest into the death of L. Corp. Hamm, who was shot on Wednesday night by the sentry on duty at Fort Howe. Last night he empaneled the following jury: James Sproul, foreman; Edward Robinson, William H. Sills, George Crews, Henry Miles, Charles Donald and Patrick Cosgrove. They viewed the remains at the hospital and adjourned until eight o'clock tonight when the inquest will be opened at the police court.

Fish Market. Mackerel and shad are getting scarce and it will not be long before these fish will have disappeared from the market, in fact in some of the stores during the past week these varieties were not obtainable. Gasperox are about the same price as a small supply still on the market at 35c. Harbor salmon are quite plentiful and cuts of this fish can be had for 15c, 25c, and 35c, according to the cut. The Newfoundland, a smaller salmon, is priced at 15c each. Prices on other varieties are about the same as last week, halibut being 35c, silver salmon, 45c, and 50c, and kipper haddock, 15c, a pound, and kipper 4c each.

Train Strikes Baggage Truck. Several baggage men had a narrow escape from serious injury yesterday afternoon at the depot when the truck they were unloading was struck by the Halifax express. The men were loading trunks from the truck onto the Halifax express, the truck being between tracks 1 and 3, when the vibration set up by the incoming train on track 2 caused the truck to swing and strike the engine of the Halifax train. The impact of the blow swung the truck out of the way but, swinging back, it became lodged in between the two trains, breaking the truck to pieces and smashing the steps on the right side of one of the cars on the Halifax. The men in charge of the truck saw the accident coming and ran for safety.

Canada and the Empire. This evening a public meeting will be held in the Board of Trade rooms at eight o'clock at which Chief Justice McKeown will deliver an address upon the relation of Canada to the Empire. The Premier, Hon. Mr. Porter, and the Hon. J. B. M. Baxter will also take part. The meeting is held under the auspices of the St. John group of the Round Table in Canada. Mr. H. A. Powell, R.C., will take the chair. At the present time, and in view of the situation developing in consequence of the war, the subject is most important. A similar meeting held in Toronto by the Toronto Round Table group, was very largely attended and it is to be hoped the thinking people of St. John will take a proper interest in the meeting and attend.

WATERS OF KENNEBECASIS CLAIM LANCASTER YOUTH

Cecil Kierstead, Twelve Year Old Son of J. V. Kierstead, Fell Off Wharf at Clifton Yesterday and Was Drowned—Body Recovered—Lad's Father Overseas in Travellers' Platoon of the 104th Battalion.

A sad accident which occurred yesterday afternoon at Clifton, when Cecil Kierstead, the twelve-year-old son of Colonel-Sergeant J. Vernon Kierstead was drowned in the Kennebecasis River at Clifton, has cast a deep gloom not only over the community at Clifton, but also in Lancaster where the little fellow lived with his parents. Mrs. Kierstead in company with her son left the city yesterday morning to visit friends at Clifton. While the mother was visiting a friend, the little chap in company with two other small boys went down to the wharf to fish. From the information gained from the little chaps who were on the wharf at the time, it appears that the deceased child was sitting on the edge of the pier fishing and lost his balance falling into the water, which is quite deep at this particular spot. Questioned by several of those who assembled after the alarm had been given, the little boys stated that he did not come to the surface after he fell in. From this it is inferred that the poor little fellow turned a

SHEIKHS WILL RUN DURING SUMMER

Miramichi Lumberman Says Tonnage There as Scarce as on Nipisiguit.

Small Quantities for Upper Canadian and American Markets.

Miramichi operators are also experiencing a great shortage in tonnage, said John O'Brien, high sheriff of Northumberland county, and a leading Miramichi lumberman to The Standard yesterday in commenting on the statements of Angus McLean relative to conditions in Bathurst and vicinity. "It is really impossible to get tonnage," said Sheriff O'Brien. Notwithstanding the fact that no lumber is being shipped to the British market, owing to the lack of ships, the mills on the Miramichi were saving as usual. As High Sheriff O'Brien put it: "We expect to saw all summer and then pile it up." When asked in regard to the shipments to the American and Upper Canadian markets, High Sheriff O'Brien stated that a comparatively small quantity was being shipped to these markets, but in these cases, too, the scarcity of cars was also operating to hold back shipments.

Haying Tools advertisement. Early preparation for haying time gives you the advantage of having, right on hand, what you want when you need it most. WOMEN FIGURED IN FATAL SHOOTING AT FORT HOWE WEDNESDAY

Evidence Yesterday Showed That Deceased Had Lady Friends on Night of Accident.

The only new facts brought out yesterday afternoon in the shooting at Fort Howe on Wednesday night were that the deceased had ordered Arsenault to shoot at another sentry, Joseph Pinette, to scare him, and that the deceased had been in company with two girls during the earlier part of the evening. Fort Howe, which was contrary to the orders of the commanding the 62nd Regiment, Major Frost.

From the evidence submitted at the preliminary hearing, which was commenced yesterday afternoon, there is reason to believe that the sad accident was the result of "sky-larking" and fooling. Pinette said that he was coming down the hill on Fort Howe and when within a distance of a few paces from Arsenault he was fired at by the sentry. He said that when he came up to Arsenault and asked him why he shot at him, Arsenault said that he had been told to do so by the corporal of the guard, meaning the deceased.

From his evidence it was evident that the shooting of Hamm was accidental. He said that when he, the deceased, came down from the hill he was in the corner of the building, and when the sentry passed him he jumped out at the prisoner. The prisoner raised his gun and fired. The deceased fell to the ground moaning, "I'm shot."

The other witness called yesterday was Pte. Harold Garland of the 62nd Regiment. He said that he had been on duty shortly before Arsenault. He had seen the deceased and two girls upon the hill. He also stated that Arsenault was up on the hill with the girls, but he only remained for a short while. He said that Hamm came down off the hill and after getting his rifle went back up again. He remained up there the first time about two hours. The second time he was only up about twenty minutes. The witness stated the deceased took aim at the sentry, but did not say anything. Hamm, after returning the second time from the top of the hill, dodged into the corner of the building and jumped out at the sentry, who fired in vain, which penetrated the lower abdomen.

Asked by the magistrate if the men were on good terms, the witness replied they were the best of friends. He said they were both quiet fellows and had always proved themselves good friends. The witness said he heard the deceased give the order to Arsenault to fire at Pinette to scare him.

Here the magistrate asked the prisoner if he wanted to ask the witness any question. The young man, who strove to keep back tears, evidently in sorrow he feels for his dead, asked a question in French, to which the witness replied.

FREE STAMP OF THE COMMONS USED TO SEND PARTISAN LITERATURE

Local Mails Flooded with Liberal Pamphlets Which Misrepresented the Borden Government's Record.

The free stamp of the House of Commons is being used to send out to New Brunswick very partisan literature of the Liberal party. Several pamphlets were received yesterday by a well known Conservative who has done much since the commencement of the war towards the commencement of petty politics, preferring to do things from the broader standpoint of country first. The gentleman remarked that the Standard did not take the use of the House of Commons stamp for free postage. The titles of some of the Liberal pamphlets include: "An Administration of Extravagance and Mismanagement," "Tariff Reduction by the Liberals," "Free Wheat," "Shall and Fuse Scandals," "War Scandals," and other titles of an equally strong partisan character.

PROGRAMME FOR BAND CONCERTS APPROVED

Request of Canadian Government Railways to Build Grain Conveyors Referred to City Solicitor.

At yesterday's meeting of the committee of the Common Council, the programme of band concerts prepared by Commissioner Fisher was approved. An application was read from the Canadian Government Railways for permission to erect grain conveyors across Prince William street, and Commissioner Fisher submitted some correspondence with the New Brunswick Power Company in reference to paving streets on which their tracks run.

Mayor Hayes presided and Commissioners Wigmore, Russell and Fisher were present. Commissioner Fisher presented his programme for band concerts, twelve in King Square, on Mondays and Thursdays, July 12, 18, 23, 28 and 30, August 2, 9, 15, 20 and 23, and four on Tilly Square, West End, on July 8 and 19, and August 4 and 18. The programme, the cost of which will come within the appropriation of \$700, was approved.

Commissioner Fisher reported that he had been trying to get the New Brunswick Power Co. to agree to pay the interest and sinking fund charges on permanent paving done between their tracks. Under the present agreement with the city which expires in 1923, the company pay the city a certain sum to keep the street between their tracks in repair, and in the event of permanent work being done he asked the company to pay the interest and sinking fund charges during the life of the bonds, but the company could not see their way clear to agree to his request. No action was taken but the matter will be brought up again.

The request of the Canadian Government Railways for permission to erect grain conveyors across Prince William street was referred to the mayor and city solicitor who will report back to the council.

REV. MR. DENNISON GETS LEAVE TO VISIT SOUTH

Pastor of Tabernacle Church Will Go to Texas and Louisiana for His Health.

The quarterly business meeting of the Tabernacle Baptist church was held last (Thursday) evening at 8 p.m. in the church vestry with the pastor, Rev. F. P. Dennison, in the chair. Reports were submitted by the various societies and the church treasurer, which showed in every department of the work that substantial progress had been made. The church attendance was found to be good, in fact, during the last nine months thousands have been turned away for want of room at the Sunday evening services. The report of the church treasurer showed that an increase of \$24.13 over the corresponding quarter of 1916 had been raised from the service collections since, including the special collection of \$308, which was taken up two weeks ago for the new church site, at the close of the meeting the church, by a unanimous standing vote, granted the pastor leave of absence to proceed to the oil fields of Louisiana and Texas. For some time Mr. Dennison has been suffering with his throat and his doctor considered that he needed this change. The meeting closed with the Missal benediction.

ANNUAL INSPECTION OF EQUIPMENT, ETC., OF THE LOCAL UNITS

Yesterday was an important day for the militia units of this city, inasmuch as it witnessed the annual inspection of the stores and equipment of the various local units. The inspecting officer was Major Cuthbert Morgan, who has been appointed to a high quarters staff of No. 6 division at Halifax. Major Morgan was kept busy in making the inspection at the quarters of St. Luke's church, Main street. The Ambulance, the 62nd Regiment and the Army Service Corps. Things generally, it is understood, were found in good condition.

St. Luke's Picnic. An all day picnic was held yesterday at South Park by the members of St. Luke's church, Main street. The picnic was under the direction of H. Usher Miller, and he saw to it that the time was well occupied with sports for the Sunday school children and plenty of other amusement for the older folks. The merry-makers started out at nine o'clock on five special cars, carrying with them enough lunch to last them all day. Arriving at the Park the young folks indulged in a sporting programme of races and baseball games while the others pleasantly passed the time with the amusement devices that the park afforded. An added attraction was enjoyed in the afternoon when the band concert started. The picnickers returned to the city in the early evening, a tired but happy lot.

Just picture yourself in one of these SILK OR BRUSHED WOOL SWEATER COATS. You will never know how style can be knit into a garment until you see yourself in one of these stunning new silk or brushed wool coats. The fetching designs, rich colorings, and swaggar lines all combine to irresistible effect, and our prices, they tell us, are most reasonable, and you can be always sure of satisfaction or money back at.

A Special Feature. Come early to the Opera House every afternoon and evening this week, an opportunity will be afforded lovers of real music. The new edition, Mr. Thomas A. Edison's latest invention will play before the performance and during the interval. The Re-Creations on the new Edison are indistinguishable from the original.
