NASAL CATARRH CURED

Per-na Cures a Case of Five Years' Standing.

Mr. Rudolph M. Patterson, Chicago, Ill., writes the following letter to The Peruna Medicine Co., at Columbus, Ohio: "Gentlemen--I have been a sufferer from nasal catarrh for the past five years, and at the earnest solicitation of a friend I tried Peruna and am glad to say it has afforded a complete cure. It is with pleasure I recommend it to others."--RUDOLPH M. PATTERSON.

highest praise, for it is reliable and will never disappoint you."--Mrs. J. C. Garrett.

There are two things that the whole medical profession agree about concerning catarrh. The first is that catarrh is the most prevalent and omnipresent disease to which the people in the United States are subject. All classes of people have it. Those who stay indoors much and those who go outdoors much. Working classes have it and sedentary classes have it. The doctor finds catarrh to be his constant and ever-present foe. It complicates nearly every disease he is called upon to treat.

Peruna can be obtained for \$1.00 a bottle at all first-class drug stores in Canada. "The Pills of Life," which can be secured at all up-to-date drug stores and upon request sent free to all, gives a short description of all catarrhal diseases.

which all doctors agree, is that it defies all local remedies may give relief but it fails to cure permanently. Sprays or snuffs amount to little or nothing except to give temporary relief.

Catarrh is frequently located in internal organs which cannot be reached by any sort of local treatment. All this is known by every physician.

To devise some systemic internal remedy which would reach catarrh at its source, to eradicate it permanently from the system--this has been the desire of the medical profession for a long time.

It was at first a private prescription, afterwards manufactured expressly for him in large quantities. This remedy, Peruna, is now to be found in every drug store and nearly every home in the land. It is the only reliable internal remedy ever devised to cure any case of catarrh, however long the case may have been standing.

Mr. Camillus Senne, 257 West 129th street, New York, writes: "I have fully recovered from my catarrhal troubles. I suffered for three years with catarrh of the head, nose and throat. I tried all kinds of medicine without relief, but at last I have been cured by the wonderful remedy called Peruna."

Peruna is an entirely natural and safe remedy. It is recommended to anyone as the best and surest remedy for any catarrhal troubles.--Camillus Senne.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

OFFICIAL RESIDENCE AT FREDERICTON.

Our New Governor Believes in Restoring the Old Order of Things.

Ottawa, Jan. 29--(Special)--At today's meeting of the cabinet, an order-in-council was passed appointing Mr. Snowball, who resigned his senatorship, to be lieutenant-governor of the province of New Brunswick, in the place of Mr. McLean, whose term recently expired.

Mr. Snowball, although appointed to the senate by Sir John Macdonald, and has always been a Liberal. The reason was because he wanted to re-appoint Mr. Mitchell in Northumberland, N. B., and the only way he could do it was to get Mr. Snowball out of the way.

It developed today that Senator Snowball has expressed his intention of co-operating with the local government in restoring a government house at Fredericton. He has already stated his determination of making his official residence there.

Explaining Catastrophes. New York Officials Busy With the Explosion and Tunnel Disaster.

New York, Jan. 29--District Attorney Jerome tonight announced that the matter of the collision in the Park avenue tunnel of the New York Central railroad was being prepared for presentation to the Federal grand jury. The authorities are energetically trying to learn why the terrific explosion of dynamite occurred which killed six persons and did so much damage in the vicinity of the Grand Central station.

Two months ago, Mr. Archibald was married to his second wife, and the blow is a great shock. He leaves two grown-up sons. He was a brother of H. McLeod, a member of the House of Commons, and a member of the House of Commons.

SOLDIERS ARE SEASICK NOW

Talk of Two Thousand More Candidates for South Africa.

Halifax, N. S., Jan. 28--(Special)--The second section of the second C. M. R. are now on their way to South Africa, having left here at 2 p. m. on the troopship Victoria. The morning was a very rough one, but a strong north wind blew cold, in fact it was one of the coldest days of the season.

Col. Evans and adjutant were on hand early and after taking a look over the camp and finishing up matters at the barracks, the men were called on parade. Orders were to parade at 8.45 and at 8.45 exactly the corps was called on parade. The men wore their great coats and service hats, their handbags strapped and rifles slung, and had their ration bags over their shoulders.

Among the officials at the pier were Col. Biscoe, Maj. Semel, Col. Cotton, and Lieut. Col. Irving. Lieut. Col. Humphrey and many other officers of the militia and staff were also present.

Before the troops reached the dockyard this morning two royal garrison artillery men, anxious to see their friends, were met at the dock by a number of their friends and family members.

There was a report current about the city this morning that more Canadians were to be sent on service in South Africa. It seemed impossible to trace the rumor to any official likely to know of such matters.

AMERICAN SOLDIERS EAT DOG MEAT RAW.

Rather Desperate Conditions Among Troops in the Philippines.

Manila, Jan. 28--The condition of Captain David D. Porter's marines who took part in the expedition into the interior of Samar is much worse than previously described. They suffered fearful hardships and were without food for several days.

Williams, of the first infantry, headed the relief expedition, in the face of a torrential rain storm, which flooded the rivers. He succeeded in reaching the remaining ten men who would otherwise have certainly perished.

The expedition led by Captain Porter numbered 38 men. It had been absent two weeks. The marines had been provided with rations for only five days. On Jan. 21 Captain Porter and 25 members of his party reached the coast of the island of Samar. The other ten men were missing and little hope of their safety was entertained.

A party of insurgents led by two Filipino Americans, recently entered Angangang, in Leyte province, pretending to be constabulary but not yet informed. The impostors were taken to the police headquarters and were royally entertained by the native-sergeant in charge.

Among the officials at the pier were Col. Biscoe, Maj. Semel, Col. Cotton, and Lieut. Col. Irving. Lieut. Col. Humphrey and many other officers of the militia and staff were also present.

Before the troops reached the dockyard this morning two royal garrison artillery men, anxious to see their friends, were met at the dock by a number of their friends and family members.

BRITISH DINNER TABLE.

ENORMOUS QUANTITIES OF MEAT CONSUMED LAST YEAR.

England is the Canadian farmer's most profitable market. Cater for it and not New York, Chicago and other points in the United States. Of the 5,776,000,000 pounds of meat consumed in Great Britain last year no less than 2,128,000,000 pounds were imported in one form or another.

Value of imports into Great Britain in 1901:

Live and dead meat	£225,000,000
Wheat and wheat flour	170,000,000
Barley and malt	110,000,000
Butter	31,000,000
Beef	28,000,000
Condensed milk	20,000,000
The value of the imports of live stock and the produce thereof	680,000,000
Wheat, wheat flour, corn, grain and feeding stuffs only	265,000,000

The trade in condensed milk, which could be conducted better from Canada than any other country, is increasing both in volume and value. Nearly one-half of the total world's production is still made in England and Ireland notwithstanding that milk is dear and taxes are very high.

A large trade in poultry is conducted from the continent, principally in turkey and geese at Christmas. Russia has, however, made a bid for the London market, more especially for chickens, of which 500,000 are annually used in the metropolis.

The Canadian trade with poultry was started so long ago as 1874 and is now sure to assume large proportions. There was a splendid supply of Canadian turkeys in the London markets at Christmas. Prices being 12 to 14 cents per pound for the best, and 8 to 10 cents for the inferior. French are very good, 12 to 14 cents per pound, and 8 to 10 cents for the inferior.

IMPORTANT MATTERS BEFORE THE GOVERNMENT AT FREDERICTON.

Marine Hospital at St. John--Gloucester Smallpox Bills--Writ for Kings Election--Can a Branch Railway Cease Operations in Winter?--Lumber Lease Matter.

Fredericton, Jan. 29--(Special)--An important question affecting the power of branch lines of railway in the province came before the government tonight on report of the attorney general that the Elgin & Havelock Railway Company had given notice of intention to close January 31st for the balance of the winter.

The municipality of Gloucester having refused to entertain bills of the local board of health, presented at the January session of the municipal council, application was made by the chairman for an order calling upon the warden and council to show cause why an order should not be issued by the lieutenant-governor in council requiring the secretary-treasurer to pay the amount from any funds in his possession.

Fredericton, N. B., Jan. 29--(Special)--The government had under consideration the invitation from Hon. Joseph Chamberlain, extending an invitation to Premier Tweedie to be present at the coronation of King Edward, as representative of New Brunswick, and it was decided to accept the same.

PROFITS IN POLES AND TIES.

When one speaks of raising trees for profit one's ideas are most naturally associated with the orchard business and the fruit of trees. The advice has often been given people who spoke of planting shade trees that they might as well have something useful as merely ornamental, for a fruit tree may be a shade tree as well as profitable for its fruit.

Deputy Sheriff Foster arrived from Richmond, Carleton county, Thursday in charge of an insane person named Wm. McIntyre.

Mr. and Mrs. Geo. McAfee and family, Red Head, wish to thank their many friends for the kind expressions of sympathy in connection with their recent bereavement.

W. Frank Hatheway is in receipt of a letter from Hon. J. Tweedie in which the latter promises government consideration of the workmen's compensation act. The result will be made known to the Fabian League as soon as possible.

The new steel river steamer Majestic, purchased for river navigation by Capt. Watson and others of the North End, largely resembles the Grand Manan boat Aurora.

Wm. McIntyre is very ill at the residence of his sister, Mrs. Macneil, 81 Portland street. Mr. McIntyre is an old resident of the city, and will be remembered as one of the survivors of the suspension bridge disaster, which occurred about 30 years ago.

There will be built this year at North Sydney, N. E., for Messrs. Voight, Ross, the finest and largest departmental store in the maritime provinces. David R. Brown, of Montreal, will be the architect of the building, which is to be of brick and stone and four stories high.

Bear trucks in considerable number have been reported in the woods between Howe's lake and Ashburne lake. A shooting party which was in that vicinity on Saturday saw many tracks that they concluded all the bears in the country were in convention in some adjacent spot. Bears are also reported near Drury Cove.

The McAfee wood purchase has been practically completed—all the necessary papers including deeds, etc., have been affixed to them the signatures of the vendor and the delivery of the \$40,000 in city debentures is now all that remains to be done. The city will start improving its newly acquired property as soon as possible.

The question of salaries paid city employees will be fully considered by a special committee in the near future. Applications for increased remuneration have been received from many employed in civic departments and, while it is not probable that any general advance will be ordered, the whole question will be discussed in all its phases.

D. E. B. Fisher, secretary of the Provincial Board of Health, reports that at the present time New Brunswick is practically free from smallpox. Outside of the city the only case was a boy reported at Lynnfield near St. Stephen. The sections of the province are free from the disease.

The steamer Marquette sailed at 3 p. m. Thursday for Cape Town, South Africa, with 700 horses for the British army. The horses were placed on board in one hour and forty minutes. This loading has been accomplished by the Marquette.

The three days there has been no word of the steamer Stanley, which performs a winter service across the Straits of Fundy between Summerside and the Comberton. It is but a two hour run across but the "icing" is made difficult by the ice and former years has kept the steamer out for days. The Stanley has last Summerside to cross to this point.

Mayor Daniel Thursday telegraphed to the C. P. R., asking if the company would consider an offer from this city for the establishment here of the company's big locomotive and car works. Montreal has been after this plum, but has not got it as yet and as railway men say that St. John is peculiarly well adapted for the industry this city has at least a fighting chance.

A complete medical inspection of all trains coming into the province will be made at McAdam under authority of the Dominion government. Dr. Wythe, of Fredericton, was some time ago appointed to superintend this work. But he declined, and Dr. Ryan, who has had charge of the work of combating smallpox in York county, has been appointed in his stead. He will enter upon his new duties at once.

At the general passenger agents' meeting in Buffalo, N. Y., last week, in connection with summer tourist fares for the coming season, the general passenger agent of the People's railway, J. M. Lyons, was unanimously elected to the office of general passenger agent for the territory of the People's railway, Detroit, Port Huron and east to Newfoundland inclusive—Moncton Trans-Canada, Tuesday.

A company for the manufacture of army uniforms generally is making for incorporation and completion of the following: P. J. Jones and Thos. H. Bullock, St. John; John Palmer, Jas. S. Nell, A. J. Greig, Edward Moore, E. S. R. Murray, W. W. McMillan, W. G. Clark, A. B. Ryan, John Kilburn, A. B. Atherton, W. F. Whitehead, M. P. P., R. F. Randall, E. S. Peters, Gastegnon, and Geo. Armstrong, Lower St. Mary's. The capital stock is \$25,000 in \$50 shares.

The store of W. H. Fairall, 17 Charlotte street, is just now the centre of activity in St. John. Mr. Fairall has been in business in this city since before the war and has always carried a very large stock of excellent quality. He has a good position with a New York wholesale house and must leave at once. Hence the sale which has been crowding here for some weeks. This week he has had on his counters 3,000 yards of Turkey red quilting at ten cents per yard. It formerly sold at ten cents. His

PURSE OF FIFTY DOLLARS.

Recognition by St. Stephen's Church of Good Work of Rev. Mr. Roach.

Rev. Howard H. Roach, who during the smallpox epidemic, labored so faithfully among the afflicted families, Thursday received a purse of five \$10 gold pieces and the following letter, which is self-explanatory:

St. Stephen's Church, Jan. 30. Dear Sir—The trustees and board of trustees of St. Stephen's church have requested you to wait upon you and so convey to you on behalf of the congregation their sincere thanks for the attention you paid to two families of the church, recently afflicted with smallpox, and for the way in which you kindly assisted the committee of the church in ministering to the comfort of the sufferers. We have also been asked to give you the accompanying purse, not as remuneration for your services, for the value of such self-sacrifice and heroic service cannot be estimated in dollars and cents, but as an emblem of our appreciation and gratitude. Wishing you every success in your ministerial life in our city, and all personal happiness, we are, Sir, yours faithfully,

DANIEL J. FRASER, Moderator of Session. STRUAN ROBERTSON, Chairman of Trustees.

Brophy Arrested Here.

After searching all day, Deputy Chief Jenkins and Detective Killeen Thursday arrested Wm. F. Brophy, who is wanted by the Woodstock police, having been charged by Mayor W. B. Belyea, of Woodstock, with forgery and stealing.

Marine Engineers.

When the police arrested Brophy they found him in possession of Mayor Belyea's coat fur coat and a gold watch and chain owned by Donald Campbell, of Woodstock. The Woodstock police are expected to arrive today for him.

Feeling miserable. This is the condition of thousands of growing girls and women. Can't eat enough to be truly alive. Digest so little of what they do eat as to scarcely know what life really means. Miserable? Of course. Eat more. Digest more, then feel streaming through life's renewed current, the buoyancy, strength, the hopefulness of youth. Simply done if you'll just try Ferruzone, the wonderful blood maker, nerve, strength and brain vigor. Mr. Ferruzone, you know all about it. Call and ask him about it. Sold by A. Chipman Smith & Co., Price 50 cents.

The oldest twins in Pennsylvania are the Mespurna brothers, who a few days celebrated their 87th birthday at West Bangor, a suburb of the town of Delta, where William lives in the brothers' lives. The other brother, Thomas, lives in Sachetville, York county, Nov. 20, 1820, and was of Irish extraction. Both the brothers are well mounted and prominent in their communities.

This disease can be treated by a remedy carried to the affected parts along with the air breathed, for nature intended these organs for the passage of air alone, and sprays, atomizers and internal medicines utterly fail. But Catarrhoxone doesn't fail, for it goes wherever the air breathed goes, and its healing antiseptic vapor is sure to reach every affected part. Catarrhoxone is inhaled at the mouth and passes through every air cell in the breathing organs, is slowly exhaled through the nostrils. Catarrhoxone protects and heals the inflamed surfaces, relieves congestion, allays inflammation, and perfectly cures all bronchial affections. Price \$1. Small size, 25c. A listener-detector for telephones is to be adopted in Sweden. The invention is a simple one, consisting of a battery of cells, a coil of wire, and a tapping key. The wire, or listening, can satisfy himself as to the truth of his suspicion by pressing the button, for the invention will infallibly reveal the fact, and he can stop the conversation.

Marine Engineers.

Have you failed to get permanent relief? Are you almost frantic with neuralgia pain? If so, why not use Polson's Nervine? It is the only neuralgia remedy that has never failed to cure even the worst cases, and it will surely cure you. Find the strength of other remedies, it penetrates the tissues, and drives out the pain instantly. Quick relief, sure cure, large bottles 25c.

The largest excavated dock on the continent, if not in all the world, will doubtless be the Masadock at Rotterdam, now approaching completion. The dock covers an area of some 150 acres, and will be brought to a preliminary depth of 14 feet, which will be deepened to a final depth of 23 feet, so that there will be sufficient water to admit the largest steamships.

Mr. Riggs has long been known about the city as a personage peculiarly gifted in skilled handiwork. This is evidenced by those who have been unfortunate enough to lose an arm or leg. He was born in the parish of Simonds, and as a boy exhibited unusual cleverness in carving out of wood models of animals and birds. Later he turned his attention to making artificial limbs, in which considerable success has been achieved.

WHAT IS THE SCHEME?

LARGE DEPOSITS OF ANTHRACITE ALLEGED AT NORTON, N. B.

The attention of The Telegraph has been called to the prospectus of the United States and Canada Coal and Iron Company. This concern has been incorporated under the laws of the state of Maine, and has a capital of \$500,000. The head office is at 179 1/2 Middle street, Portland, Maine.

The only name among the directors known to The Telegraph is that of the secretary, Adam T. McColligan, formerly of this city. The company's property is located at Norton, Kings county, N. B., and consists of vast deposits of free burning anthracite coal, one vein being five feet in thickness, while another is three feet thick. The company sets forth a number of claims which are utterly impossible for it to obtain in this province. The stock of the company is being placed on the market in Boston and Portland at from 40 to 50 cents, and there are still some suckers who are ready to bite. The Telegraph has been unable to find anyone who has any knowledge of this valuable mine of anthracite coal, although inquiry has been made of persons placed on the market in Boston and Portland at from 40 to 50 cents, and there are still some suckers who are ready to bite.

Marine Engineers.

It is very strange that such a valuable mine of coal, within one mile of the I. C. R., in the parish of Norton, upon which \$50,000 has been spent in development, should exist, while the fact being well known to the community. The company has had a puff in the Mercantile and Financial Times, which would make general notice of the company should be a sufficient warning to the credulous investors of the United States. It says: "Perhaps anyone who had seen gold, silver, copper and numerous other minerals, no part of the world is richer than is New Brunswick."

Marine Engineers.

Persons familiar with the mineral resources of this province expressed surprise on being informed of the wonderful deposits of anthracite on the banks of the Kumbocook, 21 miles from the city. They viewed it as a huge joke until shown the prospectus, when they thought it was a huge something else. The company is not being a prudent investor can be especially urged people to buy while they can get in on the ground floor, and propose to raise the price of the shares to 60 cents this week.

Marine Engineers.

Prospective buyers should keep off the ground floor of this wild scheme and before investing one dollar should give heed to what they are doing. A careful reading of the prospectus will satisfy them of the nature of the company and a little inquiry will satisfy them of the great gold, silver, copper and iron mines of the province. There is room for legitimate and proper utilization of foreign capital in New Brunswick, and that will be welcome.
