STEEL HORSE SHOES.

The subscriber wishes to call the attention of all

owners of horses to an improved quality of horse

shoes. He has recently imported a lot of

Steel Horse Shoes

which are a great improvement on iron ones. These

steel shoes will cut less iron into one. They

are specially adapted for harness and

farmers' heavy working horses as well as for

roadsters. They are made of the best iron and

steel and are made to order by the subscriber.

Newcastle Societies.

MEET AS FOLLOWS—
NORTH-BRITAIN LODGE NO. 17 A. F. & A. M., in the Lodge room on the evening of the second Tuesday of each month at 8 o'clock.

NEWCASTLE DIVISION NO. 45 S. O. T., in the Temperance Hall every Friday evening at 8 o'clock.

COCK HARRY RETREAT NO. 150 I. O. F., in Foresters' Hall, Derby, on the 3rd Thursday of each month at 7:30 o'clock.

Notes.

We are this week sending out a large number of accounts to our subscribers which we hope will be promptly responded to by them. These accounts are nearly all for very small amounts, but as there are several hundred of them, they make up quite a large amount which we need at the present time to carry on the business. All accounts not settled before Dec. 1st will be handed to a lawyer for collection.

Editorial Notes.

Sir Wilfred Laurier and Sir Louis Davies have arrived at Ottawa from Washington.

The Governor-General on Thursday last assented to the order in Council appointing Senator McInnes Lieutenant-Governor of British Columbia and Mr. William Templeman Senator.

Sir Wilfred Laurier has entered upon his fifty-fifth birthday being born on Nov. 20th, 1841. Men of all shades of political opinion, have not the least doubt, will extend to him their congratulations and good wishes.

Such American Statesmen as Clay, Calhoun, Webster and Lincoln were all self-made men, but the great majority of American politicians at the present time are machine-made. This will account for the great gulf that lies between and separates the past from the present rulers of the United States.

There is a rumor current, that the Dominion government is about to make an offer for the purchase of the Canadian Eastern Railway and then test the feeling of their followers. It is also rumored that Sir William Van Horne, of the C. P. R., will bid a little higher than the government.

The office of Minister of Justice in the Liberal Cabinet lately vacated by Sir Oliver Mowat has been filled by the Hon. David Mills. In addition to being credited with considerable ability and independence of mind, Mr. Mills has a high reputation as a public man who has always endeavored to do what is right. His presence in the Cabinet will not only strengthen the better element in it but please many on both sides of politics.

Cecil Rhodes is a remarkably able and energetic man, and when he sets his heart and mind upon the attainment of an object he never rests until he carries his point. He is the bitter and determined enemy of President Kruger whom he considers the enemy of the British colonies in the Transvaal. He has a well organized plan and is exerting all the power and influence he possesses to defeat Kruger at the coming election for the Presidency of the Transvaal, which occurs in about a couple of months, and electing a Boer who will be in sympathy with and not hostile to the mining interests.

Thursday next is Thanksgiving. No matter how much the people of Canada differ in their religious beliefs or their political sentiments, they can all heartily join and be of one mind in returning their heartfelt thanks to the great dispenser for the many blessings he has bestowed upon the Dominion during the year. While some countries have been devastated by wars and others have been visited by earthquakes, floods and famines, Canada has escaped all these terrible evils and her people are contented, happy and prosperous. Surely all these are messages that they should be thankful for.

The Toronto World does not like the term Intercolonial Railway and makes the following suggestion.

We do not think much of the name Intercolonial for the Government railway. We beg to propose that Parliament and the press change the name to the Canadian National Railway.

One of the greatest moves on the continent in the way of railway regulation by the state will be accomplished when Parliament declares that it intends to maintain, extend and officially run its railways so as both to give the public cheaper freight and travel and be a check on the roads not owned by the state.

And with the creation of a strong Railway Commission the work will be fairly begun.

The Montreal Harbor Commissioners have reluctantly accepted the plan of harbor improvements proposed by Mr. Tarte with the distinct understanding and condition that it shall be executed at the sole cost of the government without entailing any additional charges on the shipping and commerce of the port of Montreal. In its comments upon the plan the Montreal Witness says:

"If the commission was free to choose, without forfeiting the financial assistance of the government, it would most properly and decidedly choose the four-year plan." It also says: "There is also one very important matter in connection with the execution of the work. It is pretty certain that if the government is to find the money, that it will take into its own hands the spending of it, and the execution of the work will be under the direct management and control of the department of the Minister of Public Works."

As the work will cost something in the vicinity of \$5,000,000 and as Mr. Tarte will have the spending of it, it will give him increased power and influence in the country. This is what he wished and

desires and is bound to have no matter what it costs the country, Montreal or the Liberal party.

In order to carry out his plans of harbor improvement Mr. Tarte will have to bring the matter before parliament as he cannot get the \$3,000,000 until it is voted by that body. When he does, it is not at all unlikely that his scheme will be severely criticized by the members of that body who may have as peculiar ideas on harbor plans as the Minister of Public Works.

Good Patriotic Advice.

At the opening of a Canadian Lyceum and Athletic Club at St. Catharines, the young men of the Lyceum congregation as well as any others wishing to attend, Archbishop Walsh was present and delivered an address. During the course of his remarks he said:

"I am glad also that 'Deus Patria' intention and yours is not that the benefits of this institution should be confined to the Catholics alone, but that young men of every other denomination are made heartily welcome here. Influences that are good for one are good for all, and all can unite together here without distinction, race or otherwise. We should put our hands to every undertaking that is calculated to promote the life of our young people, as it is by the union of all that we can make a great and mighty power. Canada, with her grand rivers rolling to the sea, her far-reaching fertile soil, her lofty mountains, is surely destined by nature to be the home of many millions of happy and prosperous people. In all we do we must keep the greatness of our country's future in view, for the true Canadian ideal is that which tends to the up-building of the national life of this great country. Hence everyone is free to choose before the altar of his choice, but all are citizens and bound by the obligations of their free citizenship to be good Canadians. All are equal in Canada, and we must bear in mind that it is upon such equality our country has been built, and also upon such equality must our liberty and our national life be maintained."

This is the style of address that is calculated to bring forth good fruit. In addition to being patriotic, it is full of brotherly love, kindness and charity which the better it will be for themselves as well as the country of which they are all so proud and claim to be natives.

It is eight hundred years since the Normans invaded and conquered England. It is also well known that for a number of generations after that event, its inhabitants had the same difficulties to contend with that the Canadian people now have. The Normans tried to prove a failure when they made up their mind to accept the inevitable. When they did that the problem was easily solved and after that England commenced to prosper and improve. The Canadian people are the descendants of the Normans and they are as well able to grapple with and successfully solve their own race problem as their French and Anglo-Saxon ancestors.

To do this work such men as Archbishop Walsh are well known to be a number of nations to perform which is not only to preach brotherly love and charity but to contrast the views and opinions of narrow minded men who are for ever endeavoring to erect barriers to the peace and unity that they were created to live together in peace and unity. That he may long live to disseminate such views and opinions as he gave utterance to at St. Catharines should be the heartfelt prayer of every Canadian who loves the country of his birth and wishes to see it prosper.

The Manitoba School Question.

The Pope's decision on the Manitoba School Question has been given. His Holiness asserts the right of Manitoba Catholics to separate schools, and declares that that right has been infringed by the action of the Manitoba Legislature. He forbids Roman Catholics to attend the public schools and orders them to support the Catholic school system. His Holiness declares that no effort must be spared to assert the claims of the Roman Catholics to the full enjoyment of their constitutional rights, but cautions them against being grasping and aggressive in asserting their rights.

The Montreal Star, one of the leading Conservative journals of that city, in its comments upon the Pope's decision says: "It is not to be expected that the Pope's decision will have any great effect upon the political situation in Canada. Those Protestants who were disposed to recognize the right or to concede the privilege of separate schools, will not be influenced by the Pope's decision. The majority will not feel like forcing separate schools upon that minority simply because the Pope refuses to accept of any settlement. The Conservative party sacrificed office and in perilized its existence to give the Roman Catholics a right to privilege which was rejected by Catholic votes. The school question then, of course, became a dead issue for the Conservative party. The Catholics who have political interests, however, are not so easily satisfied, knowing it to be a fraud and a sham, will not feel like sacrificing their political interests because of the Pope's decision. Those who are in Parliament have stronger reasons than ever for accepting the settlement. That there is any probability whatever of Roman Catholic schools being re-established in Manitoba at the public expense may be regarded as hopeless. The great majority of the Canadian electorate is Protestant, and while many Canadian Protestants have shown themselves disposed to recognize the rights of the Roman Catholic fellow-countrymen we doubt if they will be disposed to recognize the right of any foreign potentate, however exalted, and however much they may respect him personally, to dictate the settlement of Canadian constitutional questions."

The Toronto Globe, which is the leading Liberal paper in the Dominion, after expressing its regret that his Holiness did not advise its acceptance with such modifications as the local government could be induced to make in the interests of harmony, further says:

"The effect of the decision nevertheless is to compel the government to give consideration to the question of separate schools, namely, the Province of Manitoba. To the Legislatures of that Province the subject unquestionably belongs, and the attempt to remove it from that jurisdiction would be of no benefit to the minority in Manitoba, and would be provocative of the most serious and dangerous constitutional crisis in the Dominion, which, to say the least, would be disturbing and prejudicial to the peaceful relations of the Province of Manitoba. The decision of the Pope is decided, to conform in line somewhat to that which prevails in New Brunswick and Nova Scotia, where, without any impairment of the direct management and control of the department of the Minister of Public Works."

As the work will cost something in the vicinity of \$5,000,000 and as Mr. Tarte will have the spending of it, it will give him increased power and influence in the country. This is what he wished and

Conductor Dunn Killed.

(From the World.)

The Frederick Glaeser of Thursday had the full particulars of the death of Conductor Wm. Dunn, son of Mr. James Dunn of Chatham, on Wednesday, the 17th inst. The deceased was a fine young man, and very much liked. He was building a house, and was to have soon been married to a Chatham young lady. The funeral was held Saturday morning, the sad ceremony having been delayed to enable the sisters of the deceased to come from Boston. The Glaesers say:

The remains of the late conductor William Dunn arrived here on the Canada Eastern train at 4:30 o'clock last evening. Conductor Dunn was at the train and took charge of the body, and had undertaker John G. Adams remove it to the Lorne Hotel, his late boarding house.

A coroner's jury was empanelled, and at half past eight o'clock an inquest was held at Dr. Condit's office. The jury consisted of Messrs. Benj. Everett, G. F. Coy, Jas. McGrath, H. E. Dwyer, C. W. Currie, Geo. P. Barrett and W. S. Hooper. Before assembling for the inquest the jurors viewed the remains at the Lorne Hotel.

Dr. Condit described the wounds noticed upon the body. The right leg was broken and crushed at the thigh, while the left leg was similarly injured, only higher up, indicating that the car wheels had gone across the body while it lay diagonally up on the track. Dr. Condit gives it as his opinion that a close examination will reveal that the skull is also fractured at the base, and the injuries indicated would not be sufficient to cause instant death.

The first witness called was Edward Johnstone. His testimony was as follows: "I am a track master on the Canada Eastern Railway, and have been for 8 or 9 years. I was on the freight train to-day, coming from Chatham. The train was in charge of the train. Dunn, was in charge of the train. He was not more than ten cars at any time. The conductor was out at every station along the line, looking after the train and its work. At Cowperworth's tank we worked. At Cowperworth's tank we worked. At Cowperworth's tank we worked."

On Wednesday morning Mr. Dunn's train was in charge of the train. He was not more than ten cars at any time. The conductor was out at every station along the line, looking after the train and its work. At Cowperworth's tank we worked. At Cowperworth's tank we worked. At Cowperworth's tank we worked."

The first witness called was Edward Johnstone. His testimony was as follows: "I am a track master on the Canada Eastern Railway, and have been for 8 or 9 years. I was on the freight train to-day, coming from Chatham. The train was in charge of the train. Dunn, was in charge of the train. He was not more than ten cars at any time. The conductor was out at every station along the line, looking after the train and its work. At Cowperworth's tank we worked. At Cowperworth's tank we worked. At Cowperworth's tank we worked."

On Wednesday morning Mr. Dunn's train was in charge of the train. He was not more than ten cars at any time. The conductor was out at every station along the line, looking after the train and its work. At Cowperworth's tank we worked. At Cowperworth's tank we worked. At Cowperworth's tank we worked."

The conductor was out at every station along the line, looking after the train and its work. At Cowperworth's tank we worked. At Cowperworth's tank we worked. At Cowperworth's tank we worked."

The deceased conductor is a member of the C. M. B. A., and brethren Mr. W. H. Carter and Mr. H. J. McCall accompanied the remains home. Mr. Dunn has been in the employ of the Canada Eastern railway company for five years. He entered the service of the company as a brakeman, and worked his way up to the position occupied at his death. He was considered a capable and efficient conductor, and was highly respected by his employers and fellow employees.

The officials and employees at this end of the road sent a beautiful wreath to Chatham with the remains as a token of their sympathy. The C. M. B. A. organization also sent a very beautiful wreath.

Mr. Dunn had recently recovered from an attack of typhoid fever, for which he was treated at Victoria Hospital. He has been on the road since his recovery, about one week. It would seem, however, from the evidence given at the inquest, that he had sufficiently recovered his strength to be able to discharge his duties.

The December number of the Delicater is called the Christmas number. Its richly illustrated color plates illustrate the possibilities of fashion's latest designs, the Russian Jacket and Blouse and the Flare Skirt, as well as current fancies in Dress Gowns, Trimmings, Millinery, etc. The recognition given the season of good cheer includes Agnes Heller's suggestive paper on "Christmas Literature," Lucia M. Robinson's story of a lonely St. Nicholas Christmas was changed into a very happy one. Mr. Visk's illustrated directions for the Holiday Decorations, Churches, and two essays pages devoted to the Christmas dinner. "Social Life in America" is brought to an entertaining conclusion by Blanche L. "Letters." Introduction. Frances novelist, Mary Hartwell Catherwood, tells, with exquisite feeling for its local color, a story of Indian character in which promises of tragedy melt into a situation of happy ending. article motto. The good priest soon passed away after this. The bed on which Father Bradley was lying was on fire but not in flames—the lamp having turned over upon the bed.

Fr. Bradley probably fell asleep while reading and during his sleep he must have ignited the lamp, setting the bed on fire. It is supposed he was suffocated and could not get out and fell unconscious on the other bed. Such are the most probable explanations of the sad event. Father Martineau burned his outchouche in trying to remove Father Bradley from the burning bed. A few moments later the flames would have set the house on fire.—Transcript.

MOSCOW, Nov. 20.—The funeral of Rev. P. Bradley took place at St. Basil's yesterday morning at ten o'clock, and the vast concourse of people from far and near, Catholics and Protestants, fittingly testified to the very high esteem in which the deceased was held. Monsignor Conolly, V. G., of St. John, sang Requiem High Mass, assisted by Father Legere, of Fox Creek, a native of Cape Breton, and Father Savage, of Sussex. Rev. Father Larchevêque, of Cocagne, was master of ceremonies. Father Labbe preached the funeral sermon in French, and Father Mahan, of Moscow, in English. Among the priests present in addition to those already mentioned were Fathers Cormier, Leroy, O'Neil, Michaud, Bellevue, Ryan, Martineau, Dufour, Lapointe and Frank Bradley, brother of deceased.—Globe.

D-O-D-D'S

The Peculiarities of this Word.
No Name on Earth So Famous—No Name More Widely Limited.

No name on earth perhaps, is so well known, as a peculiarly constructed word, more widely limited than the word DODD. It possesses a peculiarity that makes it stand out prominently and fastens it in the memory. It contains four letters, but only two letters of the alphabet. Everyone knows that the first kidney remedy ever patented or sold in pill form was named DODD'S. Their discovery startled the medical profession of the world, and revolutionized the treatment of kidney diseases.

No imitator has ever succeeded in constructing a name possessing the peculiarity of DODD, though they have adopted names as similar as possible in sound and construction to this. Their foolishness prevents them realizing that attempts to imitate increase the fame of Dodd's Kidney Pills.

Why is the name "Dodd's Kidney Pills" limited? As well ask why are diamonds and gold limited. Because diamonds and gold are the most precious gems, gold the most precious metal. Dodd's Kidney Pills are limited because they are the most valuable medicine the world has ever known.

No medicine has ever named kidney pills till years of medical research gave Dodd's Kidney Pills to the world. No medicine ever cured Bright's disease except Dodd's Kidney Pills. No other medicine has cured as many cases of Rheumatism, Diabetes, Heart Disease, Lumbago, Dropsy, Female Weakness, and other kidney diseases as Dodd's Kidney Pills have. It is universally known that they have never failed to cure these diseases, hence they are so widely and shamelessly imitated.

BIG FIRE IN LONDON

LONDON, Nov. 19.—The most serious fire in recent years is now raging here. In several streets adjacent to the General Post Office huge blocks of buildings are blazing fiercely. Many houses have collapsed and fifteen warehouses have already been destroyed. Buildings are preventing the firemen from reaching the burning buildings.

The fire broke out on Pall Mall street and worked through the house to Wellington street, a narrow thoroughfare. There the flames leaped and seized the opposite houses. From that time the conflagration extended rapidly, both up and down the street. Wellington street is now involved from end to end, and the flames are rapidly nearing Nicholas Square, which is surrounded by tall warehouses. The fire brigade have given up hope of subduing the fire and is devoting its energies to preventing its spread. The occupants of threatened buildings are busily removing their books and business documents. No casualties have thus far been reported.

The damage done by the fire is enormous. Most of the buildings destroyed were six stories high and filled with merchandise. At half-past three this afternoon thirty fire engines were engaged in fighting the flames and others were arriving momentarily from all parts of London. Many thousands of people have gathered to see the fire. One end of Jewin Street is now attacked by the flames. It presents the appearance of a huge furnace. Several large buildings have already fallen, and the debris completely blocks the roadway.

The area of the fire is 100,000 square yards; in a half hour, so far, \$10,000,000.

DR. WOOD'S NORWAY PINE SYRUP
Is Sure To Cure COUGHS AND COLDS.
Price 25 Cents.

Cures Talk

"Cures talk" in favor of Hood's Sarsaparilla, as for no other medicine. Its great cures recorded in truthful, convincing language of grateful men and women, constitute its most effective advertising. Many of these cures are marvelous. They have won the confidence of the people; have given Hood's Sarsaparilla the largest sales in the world, and have made necessary for its manufacture the greatest laboratory on earth. Hood's Sarsaparilla is known by the cures it has made—cures of scrofula, salt rheum and eczema, cures of rheumatism, neuritis and weak nerves, cures of dyspepsia, liver troubles, catarrh—cures which prove

Hood's Sarsaparilla

is the best—in fact the One True Blood Purifier. Hood's Pills cure liver bile; easy to take, easy to operate.

BOTH WERE KILLED.

PAWBUCKET, R. I., Nov. 18.—While trying to save the life of her six-year-old son, Henry, this morning, Mrs. Arthur F. Farn, 35 years of age, was struck by a train near the village of St. Jean Baptiste, a mile from Valley Falls. Both mother and son were instantly killed.

The East Providence branch of the consolidated road, passed by the village, and as the passenger train from Fall River to Blackstone, due to Valley Falls at 9.45, reached that vicinity this morning, the engineer saw the little boy run out on the track. He reversed his engine and blew the whistle.

The lady's mother heard the whistle and looked from her doorway, beside the track. She saw her boy on the track and the rapidly approaching train and with a scream tried to save the boy. The child was bewildered and did not move. The mother reached his side and seized him and at that moment the locomotive struck them, throwing them to one side. Both were instantly killed.

DEVoured BY DOGS.

QUEBEC, Nov. 18.—A terrible piece of news comes from the Labrador coast. Some time ago the public were shocked by the report that a young girl on the coast had been devoured by dogs. A similar horror now seems to have occurred at a place called Battle Harbor, where a fisherman sent his little son to drive away the dogs that were eating the corpse of a porpoise which he had killed. The boy never returned and when the father, rendered anxious by his prolonged absence, set out to find him, his horror can be imagined when he discovered that all that remained of the poor lad were his boots and a few bloody fragments of his legs—the hungry dogs rendered furious by his efforts to drive them away from the porpoise, having turned on him and devoured him.

ANOTHER CHILD DEVoured. It is feared that an almost similar case has occurred at St. Pile, in the county of Chicomini, where a six-year-old child has been missing nearly a week. It appears that this poor little child, a little girl, followed her mother, who was carrying her dinner to her husband on a distant part of the farm, when in some way the child went astray in the bush and cannot since be found, although every effort has been made by the people of the locality to trace her. It is feared that she has either fallen a victim to bears or dogs, off which there are said to be a number running wild in the bush there.

Notice of Sale.

TO JONATHAN SOREY, OF THE PARISH OF North East, in the County of Northumberland and Province of New Brunswick, Farmer, and Catherine Sorey, his wife and all others whom it may concern:

Notice hereby that there will be sold at PUBLIC AUCTION in front of the Supreme Court in Newcastle, in the County of Northumberland, at noon on MONDAY, the THIRTIETH DAY OF DECEMBER NEXT, at TWELVE O'CLOCK NOON all that certain piece or parcel of land and premises situate, lying and being in the said Parish of North East, aforesaid, being part of lot number twelve block one Sugar Settlement on the North side of the Queen's Highway, and bounded as follows: Commencing at the North-East corner of George Haines upper line fronting the Highway, thence running along the said Highway, fourteen chains one rod and five links to a marked cedar post, thence following a fence at right angles to the said Highway until it meets the dividing line of the said lot thence on a line to the rear of the said lot thence along the rear of the said lot ten chains till it strikes the upper or northerly line of George Haines lot and thence along the said George Haines line South East to the Highway or place of beginning which said land and premises were conveyed to the said Jonathan Sorey, Senior, by Manford Sorey and wife by deed bearing date the seventh day of October A. D. 1891. Together with all the appurtenances thereto in anywise belonging.

The above sale will be made under and by virtue of a Power of Sale contained in a certain Indenture of Mortgage bearing date the thirteenth day of March A. D. 1892 and made between the said Jonathan Sorey, Senior, and his wife Catherine Sorey, late of Newcastle aforesaid, Merchants, and the said Jonathan Sorey, Junior, late of Newcastle aforesaid, Merchant, of the one part, and the said Manford Sorey and wife, late of Newcastle aforesaid, Merchants, of the other part, made in and to the said Jonathan Sorey, Junior, his heirs and assigns, in full payment of the sum of money secured by the said Indenture.

Dated this fifth day of November A. D. 1897.

WILLIAM A. PARK, Esq., of Newcastle, in the County of Northumberland, and Province of New Brunswick, Solicitor of the said Jonathan Sorey, Junior, and testament of the late WILLIAM PARK.

E. F. WILKINSON, Solicitor to the Executors.

THE EYES.

Mr. J. E. Brown, Optical Specialist of Toronto, will be at my store on Wednesday, December 8th.

and for two days following, for the purpose of consultation regarding defective eyesight, and the fitting of difficult cases of eye error.

Very often headaches and eyecatches are attributed to disorders of the stomach, when in reality they are due to defective sight, which can only be remedied by properly fitted spectacles.

Having carefully watched the result of this work, I feel sure that Mr. Brown is eminently capable of fitting even the most difficult cases. I would respectfully invite you to call and consult him if your glasses are not giving perfect satisfaction, or if you feel your eyesight defective or failing. Mr. Brown makes no charge, except for glasses, and only recommends them in case of necessity and then his charges are most moderate. Respectfully.

N. R. MACKENZIE,

Chemist and Druggist.

"The Pharmacy."

Newcastle, Nov. 22nd, 1897.
