#### SMUTS SEES NEED OF REAL EUROPEAN PEACE

London, May 23.-Canadian Press.-Speaking before the South African Assembly on Friday, Premier Smuts made four outstanding points, namely: The necessity of a real peace in Europe, the assumption by the British Empire of the role of world peacemaker, full co-operation between the British Empire and the United States, and the clearing up of the doubts which appear to exist regarding the new status of the dominions. To speak of the coming conference of Empire premiers as an imperial cabinet was a complete misnomer, Gen. Smuts declared. The conference of premiers would discuss large questions of policy which required an interchange of views for an adequate settlement, but any decisions reached would require ratification by the govern-

### FEMALE LABOR HAS INCREASED IN VALUE AS RESULT OF WAR

Interesting Paper Read Before University Women's Club On Saturday.

VALUE OF THE HOME

War Has Directed Special Attention to Its Im-

portance.

"The Economic Effect of the War or Women" was the subject of a vastly interesting paper given on Saturday even ing by Miss Hazel Tanner at the last meeting of the University Women's Club for this season, held at the home of Mrs. Shanks, Talbot street. The speaker pointed out how the war had opened up all the important fields of ndustry to women, and as a result government legislation re proper sani-tation, working hours, safety and health, etc., had followed. Before the war woman labor was plentiful and unity. The war had brought organiza tion, with admittance into many tradunions which had before not admitted women to their membership.

There were five general departments nto which labor might be classifiedmanagement, supervision, scientification work, process work and laboring. Dur ing the war there had been less substi tution of women labor in positions o management than in any other division due to lack of training on the part of women for this line of work. The same drawback was found in connecti with women as supervisors. They had not been trained. However, in cases where it was necessary to make use of them and they were given time for a certain amount of training, it was found that woman labor worked better under women supervisors, and they will un icubtedly be kept in such positions now that the war is over. For scientific work, such as the mak

ing of delicate instruments, etc., it was found that women were particularly adapted, and will continue to hold such positions. In process work in factories, positions were more or less open to women, and laboring indoors and out offered a big field to women labor. The two lines of work for which women were in the most demand at the present time were demestic service and work in laundries, both of which lines of work women hesitated to enter on account of the poor conditions offered.

The speaker thought that the war had developed women's personality. They have come to value themselves as individuals and are more critical of the conditions under which they must work. They have taken a broader view of things, have a more corporate feeling, are less personal in their attitude. The physical effect of the war on women could not be judged for several years, but undoubtedly it was bad. The war, however, brought into the public eye the importance of home life. The fact that women left their homes and children to enter factories during war time showed up how much the home could suffer from lack of proper care. result was a national feeling that the home should be preserved, if possible, and most probably the passing of the mothers pension act was an indirect result of the war.

At the close of the meeting refresh ments were served. Next year the club will study "Contemporary Novelists."

### **VARYING VIEWS** ON SALES TAXES

Members Discuss Budget From Various Angles in the House.

OTTAWA, May 21.-Taxation pro posals in the budget again held the floor in the House of Commons today The sales tax was particularly in review, and in this regard some important changes were made. The original resolutions provided for an excise duty of 3 per cent on lumber. Under a Government amendment adopted today the tax is now 2 per cent on lumber sold and delivered by the Canadian manu-facturers and 3 per cent on imported lumber. The list of exemptions from the tax was also increased. It now includes bran, shorts, oil cake, meal and grain for cattle and poultry food. Another change in the resolutions makes clear that the new taxation on spirits applies to sales to the prov

Garages.

LONDON, May 22. — Another arson campaign, supposedly of Sinn Fein origin, occurred Saturday night between 10 o'clock and midnight, when about thirty fires were started, mostly in farm buildings and hay stacks, but in some instances motor garages and timber yards in the neighborhood of Jarrow, Wallsend, Stockton and Middlesboro. Gas mains over the bridge between Jar row and South Shields exploded, temporarily depriving the towns of light.

Some of the suspected incendiaries were fired at by farmers, and three arrests were made. The valley water board's main outside of Stockton was blown up, causing serious floods. In most cases, the fire damage was comparatively small, but an engineering plant and sawmill at Stockton were destroyed.

OTTAWA, May 22.—(By Canadian Press.—The advantage to the differen nations within the Britsh Empire of continued interchange of views between the statesmen of those nations, and the importance of developing the best with-in the empire for the good of the world, was stressed in the address of Rt. Hon. J. W. Lowther, former speaker of the English House of Commons, to nembers of the Commons and Senate o Canada, at a dinner given in his honor by the Canadian branch of the Empire Parliamentary Association. A clearing house, whereby members of the various parliaments within the empire could secure an interchange of views and ldeas for the betterment of empire conditions was also commended by Hon. Mr

Lowther and the Canadian parliamentarians who spoke.

Brought Many Changes.

The war, said Hon. Mr. Lowther, had brought about changes within the empire. It had brought to various dominions the status of nations, signing the treaty of Versailles and the League of Nations separately, and giving separate ratification to these.

The empire now had six votes in the League of Nations. This in itself was an evidence of its importance in world affairs. The question was whether these six votes were all to be cast the same way on questions which arose, or whether the world would be treated to the spectacle of the nations forming the British Empire being unable to agree among themselves on questions coming

The bill to ratify the treaty with the United States for extradition of wifedeserters was dropped.

There had been much talk, but no action. Then the war had brought about the calling in of the Dominion premiers and the formation of an imperial war cabinet. The deliberations of that body had resulted in unified action toward the calling in of the Dominion premiers and the formation of an imperial war cabinet. The deliberations of that body had resulted in unified by all parts of the empire. Hon. But the ordinance, it is realized now, is weak at its strategic points. In their concern over shoulders and arms, the city fathers appear to have neglected the legs. No prevision has been made for skirt lengths. Zion's women, with the perversity of their sex, ave taken advantage of this loophole in the law to appear on the street in cos-tumes that from the knees down sug-gest the follies. shaving device ever produced.

The invention of the original Gillette Safety Razor marked the first great advance in the art of shaving in 5000 years.

Up to the present time, by the World's verdict, it has remained the most efficient shaving device known to men.

It is now superseded, under world-wide patents, by the New Improved Gillette Safety Razor—an advance so positive as to increase shaving efficiency more than 75%, and add to the daily comfort of men in every part of the globe.

The above diagram shows the epochmaking improvement in the New Gillette Safety Razor.

You see the Fulcrum Shoulder and Overhanging Cap.

You see how the blade is biflexed between Overhanging Cap and Fulcrum Shoulder.

It is flexed once into the inside curve of the cap; then again - more sharply and on a shorter radiusby the grip of the Overhanging Cap the whole length of the Fulcrum Shoulder.

This is the "adjustable short flexure" -a mighty advance, make no mistake about that.

It holds the blade rigid and flat the whole length of the shaving blade.

It gives exactness to 1/1000th incha micrometric precision impossible with the old type Gillette, and never even dreamed of with any other Gillette Channeled Guard

Follow the New Gillette over the face, and see the results of the Channeled The skin lies flat against the tangent

of cap and guard. The beard springs upright against the shaving edge.

The edge comes automatically against the beard at the very surface of the skin. It cuts square across the hair—each hair slipped clean through. Cut hairs and lather go into the channel.

They cannot jam between blade and guard and cap. They cannot clog the shaving action. Your razor edge is free every inch of every stroke of your shave.

75% More Efficiency and Comfort-More Shaves from Your Blades

Shave once over with the New Gillette and you'll find your face smoother, cooler, fresher than after going twice with any other razor, even the old-type Gillette. Adjustment is automaticprecise to 1/1000 inch.

Your wonderful Gillette Blades can now give you all the luxury of the finest shaving edge in the world. Better shave - longer service - more shaves from your blades.

NOTE - The Gillette Company assumes full responsibility for the service of Gillette Blades when used in any genuine Gillette Razor—either old-type or New Improved Gillette. But with imitations of the genuine Gillette it cannot

take responsibility for service of blades.

JOLT FOR GUTHRIE FROM LIBERALS OF WELLINGTON

Hon. Hugh Guthrie, who was elected by Liberals in South Wellington, but who is now in the Meighen cabinet, has made himself anything but popular in the riding, and the prediction is freely made that just as soon as the electors get a chance to express themselves Mr. Guthrie, Mr. Meighen and a number of others will find out just what the people think of them.

At the big convention held in Guelph on Saturday afternoon the following resolution was passed for the particular benefit of Mr. Guthrie:

"That this meeting of the electors of the south riding of the county of Wellington deplores the growing nimbleness and insincerity manifested by many public men in the pursuit of office and emoluments, and insists that honesty of purpose must be the first requisite of any candidate seeking the votes of his fellow-citizens."

## **PROCLAMATION** IS CHALLENGED

Important Decision Affecting Prohibition To Be Given Shortly.

OTTAWA, May 21 .-- It is anticipated that a judgment may be given within a fortnight or so in the Alberta appeal case challenging the validity of the proclamation issued for the prohibition involving the legality of the plebiscites in all three western provinces, in Nova Scotia and in Ontario. By the Alberta of a co-operative dairy for Thorndale received a considerable impetus when a large number of farmers from the large number of farmers from the district work of the received a considerable impetus when the large number of farmers from the district work of the received two houses in town and made off with a quantity of eatables. It is believed the court has heard the case,

While the main question in issue is whether the proclamation conformed with the terms of the amended Scott act, which declares that the date on which the result of the plebiscite shall come into effect, in the event of its carrying, shall be stated in the proclamation, another and wider question may be involved. That is as to whether the British North America act, which provides that goods which are the product, province, shall have free entry into any other, has been violated by the putting into effect of the plebiscites in uestion.

If the proclamation is declared valid the larger question may have to be lassed upon, in which case the whole question may go to the privy council for final adjudication.

Should the proclamation be declared invalid by the supreme court there is varied legal opinion as to what will happen. It is held by some that another plebiscite could not be held for three years, in which case the provinces in question would have to go back for that period to conditions whereby importation is permitted. The issue is a highly important one.

#### PORTFOLIO PEDDLERS.

It might be well if Premier Meighen should bring down a return of the House containing the names and addresses of those persons, within and without the Gov ernment, who are authorized, officially or unofficially, to peddle fortfolios, the names of those to whom portfolios have been proffered, and the result of the various negotiations. The business of securing French-Canadian representation in the cabinet, to which the Government has set itself with remarkable assiduity, and from which apparently it cannot be discouraged, has been marked by some ridiculous situations, in which the dignity of the prime minister has been called in question. It is a matter of general knowledge that French-Canadian members to a considerable number have been approached by Government members, both from the Senate and the Commons and offered positions in the cabinet; in some cases they have been given their choice of several portfolios, and have been offered conditions of an alluring nature. Among these conditions, it is stated, have been the repeal by the Government of the conscription act, and a pledge that there would be no federal divorce legislation.

Whether the intermediaries have in all cases been the accredited agents of the premier and his cabinet is not of course known. They speak, it is said, with an assumption of authority, at any rate, and it is difficult for the premier and his Government to entirely renounce responsibility for the negotiations. In fact, what has been designated by Hon. T. A. Crerar as "endeavoring to steal the players from the opposing team." is being done so openly as to indicate that from the Government viewpoint it is a perfectly moral proceed-

Governments of the past were not compelled to peddle portfolios; there were always plenty of people ready and willing to accept. Today a portfolio, together with the indemnity, is worth \$14,000 a year; and yet there are no takers. It is an unprecedented situation, and that fact probably accounts for the Government's point of view in the matter.

#### STRAIGHT FOR THE PRECIPICE.

In its contempt for the interests of the people, in to cling to power at the expense of the prosperity of the country, the Meighen Government is heading budget has been cast aside, and Mr. of the opportunity of exercising their franchise by the barnacles at Ottawa, they would soon make short work by anyone. of the whole aggregation.

down of the workingmen's petition for a cheaper cigar. ing places would be. Owing to the heavy duties on raw tobacco the price of this modest luxury, if it can be called a luxury, has soared so high that it is now beyond the reach of the average citizen. The prices of all tobacco products generally are out of all proportion to those which are received by the Western Ontario growers, and so acute has this situation become that the farmers who have been encouraged to plant tobacco by the Government promises of good markets, are realizing that their expectations are altogether illusory.

In its attitude on this matter the Government at least displays that consistency for which Premier Meighen was searching the other day. It has consistently turned a deaf ear to all proposals for legislation designed to make the people of the country happier and more contented, and to give a square deal to agriculture, an industry on which, according to an official state ment, 50 per cent of the population of Canada is dependent. Why then should this industry be penalized and hampered by burdens which are bound in time to break it down?

It will be a bad day for Canada when the sturdy blood of the pioneer is driven from the land, and the highways and the byways of the world have to be searched for material to put in its place.

#### THE CENSUS.

The census of the Dominion will be taken on June 1. The success of the census largely depends upon the co-operation of the people. Without general appreciation of the ends in view, and without the cordial assistance of the individual citizens towards those ends, a good census will be impossible.

The census of June 1 is the sixth comprehensive decennial census to be taken since Confederation. In arrived. Canada the fundamental reason for the taking of the census is to determine the representation in the Federal Parliament, or, in other words, to enable a redistribution bill to be passed. But the census has far wider uses than to fix electoral representation. It constitutes a great periodical stock-taking of the Canadian people, washbuckler." Presumably he fills neither role. In any designed to show from the widest angle the point that

has been reached in the general progress of the nation. Approximately 50 per cent of the population of Canada is dependent upon agriculture, and the most expensive part of the census organization is that of the rural districts. Moreover, for agriculture the ordinary population enumerator proves a satisfactory field agent,

most of the processes of agriculture being familiar, and such as an enumerator who lives in an gricultural district can well cover. Hence, the decennial census of the Canadian people is a census of population and agriculture, that is, a comprehensive survey of the Canadian people themselves and of their primary industry.

The schedules used in the census are five in num ber, dealing respectively with population and agriculture and live stock, fruit growing, etc., in towns; also industrial and trading concerns and blindness and deaf

The schedule relating to agriculture was drawn up in consultation with the Dominion and Provincial Agricultural Departments and other authorities, and will elicit a wealth of information on such features as farm acreages, and values, buildings, implements, crops, fertilizers, farm labor, orchards, small fruits, farm gardens, live stock, poultry, animal products, forest products, land tenure, 'irrigation, drainage, co-operative market-

Altogether the census of 1921 will employ 247 commissioners and probably 13,000 enumerators, but for a census that covers half a continent, embracing the most varied conditions of nature and settlement, uniformity of plan is clearly impossible. For the remote and seldom penetrated regions of Ungava, Northern Ontario and the West the organization of the fur-trading companies and of the various church missions have been engaged. In other similar regions the Royal Canadian Mounted Police will take the census, whilst the agents of the Indian department will perform a like service for the Indian population on reserves and elsewhere. An officer of the department of the interior will descend the Mackenzie River for the purpose of the census, but even in districts that are nearer at hand there remains a large number of cases where pack train must be organized, steamers chartered and similar special means employed to insure that no section of the country escapes enumeration.

It is expected that from two to five weeks from June 1 will suffice in normal localities for the completion of the field work, and after the third or fourth month it should be possible to give out the first results for many cities, towns and counties, but it is expected that five or six months will be required to reach a close approximation of the Dominion total.

The total cost of the census will be about \$2,000,000 The amount set aside this year is about \$1,750,000, but there was a vote of \$50,000 last year for equipment and preparatory work, and another quarter of a million will probably be required in 1922 and 1923 to finish.

The census merits the support of every citizen as patriotic duty, as it is taken for the benefit of the community as a whole. Never before has there been the like need for census information. Since the last cen sus the war has left scarcely a branch of the national life untouched. It has violently upset some of our most stable measurements, and at the same time it has set up new strains and stresses, and generally created conditions of the utmost consequence to our national that there is such a man working, dig-

#### OUR FEATHERED FRIENDS.

The habits of birds forms one of the most interest ing studies conceivable, and one of the most fascinating phases of this subject is that relating to their nestingplaces. Some birds, through fear of their natural ene mies, build their nests in the most inaccessible places, while others, with more confidence in human kind, select homes in the most public situations. For example there lately appeared an item relating to the nestingplace a pair of robins, who reared their family on a beam inside a schoolroom. It is not clear whether the robins referred to were of the Canadian or British variety, but the choosing of such a position is quite consistent with the habits of the bold little Robin Redbreast of the old land.

#### **BOILS SO BAD** HAD TO GIVE UP WORK

From the days of Job, up to the present time, boils have been one of the afflictions of the human race. All the poulticing and lancing you may

do will not prevent them from breaking out again. Boils are simply caused by the bac blood bursting out; and the bad blood must be made pure before the boils will

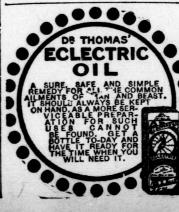

disappear. Burdock Blood Bitters, which has been on the market for over forty years, is well known as the greatest blood medi-

cine procurable.

It purifies the blood by removing every particle of foul matter from the system, and when this is done the boils vanish, and you should never be roubled again.

Mr. James Fahey, Newport Island, Que., writes: "I was troubled with boils on my back and neck, so bad that I was oh my back and neck, so bad that I was obliged to give up work. I tried several remedies, but got no relief. Finally I went to a doctor, and he treated me for several weeks, and all without benefit. At last a friend told me of Burdock At last a triend told me of Burdock Blood Bitters, so I decided to give it a trial. I got three bottles, but before I had taken two the boils were all gone. It is eight months now, and I have had no return of the old trouble, and have never felt so well."

plicated motives, had seen fit to post her at the eleventh hour.

It was such a simple letter-but sin-

cerity was in every line of it. Tears sprang to Betty's eyes, so that the words seemed blurred and misty, Whatever happens, remember you're the only girl I ever cared for, sweet-Ah, but so much had happened since

Dear Miss Grey,-I saw in the issue of April 30, where someone suggested that send back to the Mail-Box the annual poppy seed they had sent me. I can't very well return what I never had, can where someone, I think she signed herself K., had sent in some poppy seed for me, and you headed the letter, "Attention, Matilda Jane," and said you had sent the seed out. As I didn't have at that time, or any other time, a stamped envelope in the Mail-Box, waiting for seeds or anything else, I don't believe I need to tell the readers of your paper that I didn't receive anything. However, as my poppies are growing all right, I will send in a few seeds for the

Speaking of books and stories, I wonder if the Woman's Page could not print a worth-while, true-to-life story, instead of the harum-scarum kind? I like reading, but time is too precoius to waste on a great deal of what we pay out good money for. I thought perhaps the Boxites might start a petition, and get a good story printed. Halifax Only Got Near Visitors' Goal Once First

HALIFAX, N. S., May 21 .- The Scot tish soccer team, which is about to tour Canada, won its first game this .618 afternoon from a team representing the Nova Scotia Football Association, 7 to 0.

> The visitors had things very much their own way all through the match The game attracted a large crowd, among whom was the lieutenant-gov-nor of the province, Macallum Grant, who kicked off.

Rankin scored, following some won-derful combination play by the Scots, Wilson repeated five minutes later on a pass from Low. Three minutes of followed and Wilson scored again. Play was mostly in Halifax territory for the first half, and the Scotsmer controlled the ball. Thirty-nine minutes after the game opened Rankin scored Scotland's fourth goal, In the .655 first half the Haligonians only got near enough the Scottish goal once .548 shoot, and it went wide. Wilson, in the Halifax nets, made some magnifi-.483 cent saves. Then minutes after the second period opened Macandrew, Scotland's left half.

Some Song.

If Saturday's meet was a swan song as far as its originator, Professor Mel Brock, is concerned, then it goes down on the books as some composition. Unfortunately the crowd did not come up to any-thing like expectations, although the experience with the first mee last year, would naturally have led the officials to believe that this year attendance records would smashed. It may mean the holding of the meet at another point next year, a move that London would

e in the way of deserving.

However, the attendance did not bother the athletes. The records that looked good last year were mostly shot to pieces. In the upper school events, records were broken in the mile, pole vault, shot put, running broad, hurdles, 220-yard, 440-yard, and high jump. The lower school competitors shot at the marks in the running high, running broad and half-mile run and turned them upside down.

Both the individual champions

nung up splendid performances Adams was at last year's meet and did well at that time.

Rectory street public school relay team won the relay race, and the Canadian Club cup. They took the lead right from the start, and their smaller competitors barely caught sight of them the rest of the way. The 220, 440 and the longer distance races, perhaps furnished the most spectacular turns of the after-

In the upper school mile the hove who hung up a world's record at Boston were in the field, and this gave that race added interest. Fuller, an Aylmer boy, set out to do the pace-making and kept the lead until near the quarter pole. buffeting of the largest crowd ever assembled on a Canadian race course. It was necessary to get through the turning one hour, fully 75 per cent of

was considerable. In the first race, in which there were thirteen starters, Jadda swerved into the fence, throwing his rider and suffering a broken leg. Jockey Morris escaped with a severe shaking up, but had to cancel his engagements for the balance of the day. The horse was destroyed.

The afternoon's racing afforded several incidental interesting features. One was the long price the mutuels paid on Uncle John, winner of the first race. Another was the superb work in the steeplechase, and the closeness of the result. Bencher won this event by the smallest margin. It was a race all the way through and not a horse fell.

Canuck Stables Win.
Four of the seven races went to Canadian stables, and a Canadian-bred record for the half-mile sprint, although under a strong pull at the finish. Keogn, who had the mount on Diadema, allowed her to run the first part of the route, but when he saw his only com-petition was from her stable mate he took her well under wraps for the re-mainder of the trip. The old record, :48 3-5, was held jointly by Beehive and It was Cooper's seventh May Bloom, Diadema knocked three-victory.

In the King's Plate the winner Herendesy, was much the best. Starter Morrisey got the nine horses off to a perfect start after a lot of bad behavior in which the Dyment colt was con-spicuous, and for which he was ordered BROOKLYN, May 22.-Chicago wan to the outside fence. New York, May 23—Wall Street, 10:30 a.m.—The strength of Mexican Petroleum, which opened at a gain of 1½ and immediately extended its rise to 3 points, was the only noteworthy incident in the preliminary dealings on the stock exchange today. General Asphalt, Sumatra Tobacco, Central Leather, Virginia-Carolina Chemical and some of the rails also showed moderate improvement. Motors and specialities, embracing food, leather and equipment shares, were fractionally lower. A substantial reaction in British remittances from last week's final quotations was the feature of the foreign exchange market.

1:30 p.m.—The market made further upward progress at midday, rails becoming more active with shippings and coppers. Motors were the only backward issues, losing 1 to 2½ points on selling, which concentrated in Pierce-Arrow, common and preferred, and Studebaker.

Put the Whole Family

Rever known in summer—and enjoy the

economy of having several pairs of attrac-

tive FLEET FOOT shoes for the price of a single pair of leather ones. Put the whole family in these sensible, serviceable shoes. Wear them right through the summer; at home as well as on picnics and motor trips; in the office during the day as well as for porch parties in the evenings; on your vacation as well

as for bowling, tennis and golf. There are styles for men, women and children, for every-day wear, sport and recreation.

Genuine FLEET FOOT shoes have the name stamped on them. Look for it.

Ask your Shoe Dealer for Fleet Foot and make sure you get Fleet Foot.

YOUTH IS DROWNED.

Ottawa, May 23 .- Albert Poulin, 19

years old, son of G. W. Poulin of this city, was drowned in Lake Deschene, a

few miles west of here yesterday, when the sloop in which he was sailing got out

f control. A very high wind was blow

ing at the time, and as a result the craft soon drifted into the current lead-

ing to the Deschene Rapids. The lad

attempted to swim ashore but became

exhausted and sank.

Decorate Graves in Border Cemeteries of Comrades in Great War.

WINDSOR May 22 -With the arrest of sixteen men during the last week, Windsor police believe that they have broken up the gang of robbers who have terrorized residents of the Border Cities. Over 40 homes were looted during three weeks' time. Thousands of dollars' worth of liquor was stolen by the robbers. Extra men have been placed on duty by the police department in the hope of coping with the situation. In sections of the city where liquor thefts have been most prevalent, residents are getting the services of watch dogs to help in the defensive campaign. War Veterans Parade.

Several hundred war veterans, Boy Scouts and girls carrying flowers, paraded this afternoon to Windsor Grove Cemetery, where graves of returned men were decorated. From Windsor Grove Cemetery detachments of returned men were sent to other ceme-teries in the Border Cities, where graves were also decorated. Preceding the parade services were held i nthe arm-

Woman Knocked Down and Her Escort Set Upon.

SARNIA. May 22.-According to telephone report made to the police, George Bishop of Campbell street and a young woman who accompanied him were victims of an attempted hold-up by seven young men on Russell street last night. The report states that one of the men hit the woman and knocked her down, and that when Bishop grappled with one of his assailants, the other six turned on him and forced him to let go. Then they made their getaway. The police investigated the report, but could find no trag of the would-be hold-up men. Mr. Bin op claims he car identify one of his assailants, and a further search is being made. This i further search is being made. the second hold-up reported here dur

### Would You Advise Meto Take Nuxated Iron?—I Am Weak

NERVOUS, and "ALL PLAYED OUT" after my day's work, but times are "hard" and money scarce and I do not want to spend a cent that is not absolutely necessary

In "hard times" it is more difficult to make MONEY and "GET AHEAD" than it is in good times, you, therefore, require MORE PHYSICAL AND MENTAL VIGOR, STRENGTH, and endurance in "hard times" to help you overcome the numerous difficulties, obstacles and stumbling blocks you are bound to meet

Now as to taking Nuxated Iron, what would YOU SAY a man should do if he had WEAK LEGS or no legs but had to get his food by running after it—would you advise him to get a pair of good strong legs if he could do so? The case is not exactly parallel but if YOU REQUIRE MORE BODILY AND MENTAL VIGOR to get ahead in "hard times" then isn't it good economy to purchase anything you get proper which helps make you stronger?

can which helps make you stronger?

can which helps make you stronger?

Many a man is struggling, trying hard to get ahead, but just as he gets a start something always seems to go wrong that sets him back, while another man with apparently less ability seems to get along famously with comparatively little effort—THIS GREAT DIFFERENCE in men may be due solely to the difference in their bodily and mental vigor and the AMOUNT of organic IRON IN TYIEIR BLOOD.

There are \$0.000.000.000.000 RED BLOOD CORPUSCLES in your blood and each one must have iron. Without IRON YOUR BLOOD LOSES ITS POWER TO CHANGE FOOD INTO living cells and tissue and nothing you cat does you the proper amount of good—you do not get the full strength out of it.

Indoor life, overeating, housenold drudgery, gripping, galling worry and nervous strain are sapping the iron and thereby the very life, from the blood of thousands of men and women.

We do not advise what to do in individual cases, as this is the province of 'Vour money will be refunded by the thereby the very life, from the blood of thousands of men and women.

We do not advise what to do in individual cases, as this is the province of the physician, but we do say that if you lack sufficient iron in your blood to give you the strength, energy and endurance druggists.
