The copy filmed here has been reproduced thanks to the generosity of:

Metropolitan Toronto Reference Library
Baldwin Room

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Metropolitan Toronto Reference Library
Baldwin Room

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PREFACE.

THIS Catalogue, being intended for the use of persons borrowing books from the Northern Branch of the Public Library only, has been prepared so as best to assist an inexperienced applicant in forming a correct idea of the book he asks for, its subject and class. Nearly every work not included in the department of Fiction may be traced in three distinct ways:—(1.) Under the author's name as alphabetically classified; (2.) Under the title of the volume; and (3) Under the subject with which it naturally arranges itself. For instance, "Macaulay's Life of Addison" will be found under "Macaulay," "Addison," and "Biography," and so in other cases. By this simple means, the triple objects of an Author's, a Title, and a Subject Catalogue, are embraced in a small compass.

The various classes of works in the Library are distinguished thus:—*A.* Natural Science and Mathematics. *B.* Political, Social and Medical Science. *C.* Theology. *D.* Arts. *E.* General Literature and Collected Works. *F.* Geography, Travel and Topography. *G.* History. *H.* Biography. *I.* Poetry and the Drama. *K.* Periodicals. *L.* Fiction. *M.* Juvenile. *R.* Reference.
