BEEF SHORTAGE

Exists in the Prairie Provinces of Canada---It is Likely to Continue for a Period of Two Years.

(Courier Leased Wire).
CALGARY, Alta., Jan. 21.—A shortage of beef in the Prairie provinces of Canada for a couple of years is predicted by J. C. Hargrave, V. S. Dominion inspector of live stock at Alberta, who is in this city. He explains that the Western provinces are now in the transition stage between the days of plenty of beef and the days when the day when the country will be full of farmers each owning a few head of cattle and that a necessary scarcity will be the normal result.

Though the shortage will be serious Mr. Hargrave does not anticipate that it will become much more acute than at present and existing high prices may be expected to continue for a year or two. In time he thinks the production of cattle in the provinces will reach the old standard and probably surpass it, as farmers are pouring into the west and gradually going in for mixed farming. Mr. Hargrave says that Alberta stock is free from disease now, so far as epidemics are concerned.

IN TEN DAYS

It is Said That a Peace Compact Will be Signed---The Powers Will Attend to the Terms.

(Courier Leased Wire).
NEW YORK, Jan. 21.—A cable to "The Herald" from London this morning says: "In diplomatic circles little doubt is left that a solution of the problems between Turkey and the Balkan states will soon be arrived at and will be in accordance with the desires of the powers." The next meeting of the ambassadors and Sir Edward Grey takes place here tomorrow, when the French and Russian ambassadors, who are stopping with King George

at Windsor Castle, will have returned. "The Daily Telegraph's Constantinople correspondent states that we are marching rapidly toward peace which will be signed in ten days." The correspondent adds: "I am informed that the Porte has proposed to Sir Edward Grey for communication to the ambassadors here that Adrianople's holy places and the tombs of the Califs shall enjoy extra territoriality and be administered by an Ottoman prince."

A Deplorable Spectacle is Witnessed in Montreal

(Courier Leased Wire).
MONTREAL, Jan. 21.—The spectacle of a man's body lying out on the sidewalk on St. Peter Street for ten minutes before it was removed by the morgue authorities was witnessed yesterday afternoon by thousands of people and at the same time a band of men threatened to march upon themselves the care of the police as a protest against the slowness of the authorities. The body was that of Geo. Grizley 50 years of age, Cloverdale avenue, who had died. An ambulance was called when it was found that the man was dead those in charge of the ambulance took the body. The ambulance was once notified but was delayed an hour. An enormous crowd collected and the police were ordered to guard the body finally removed it to a building to prevent sympathizers taking charge of it.

COUNCIL RELENTING.

(Courier Leased Wire).
MONTREAL, Jan. 21.—The militia authorities have succeeded in getting the city council of Montreal, which has manifested a spirit of animosity towards the local regiments, into a better frame of mind. One of the militia was found in a by-law passed preventing the construction of an armory on Esplanade avenue. Notice of motion was given at yesterday's council meeting to amend this by-law so that the armory can be built. A delegation of Montreal aldermen will wait on Hon. Sam. Hughes, Minister of Militia, with a view to establishing a better understanding between his department and the city.

This Clergyman Says the Work of the Missionaries Caused the Revolution in China

(Courier Leased Wire).
TORONTO, Jan. 21.—Dr. Arthur J. Cameron, secretary of the Presbyterian Foreign Missions, speaking at a meeting of the Presbyterian Board here yesterday said that foreign missionaries were responsible for the revolution in China which led to the founding of a republic. Dr. Brown said that Dr. Sun Yat Sen had confessed to him that he figured in bringing about the revolution because he had had the benefit of missionary training from his youth. "The real truth is," said Dr. Brown, "that the revolution was caused by the missionaries spreading the doctrines of the rights of men. The whole human race is in an era of upheaval. A new spirit is abroad in the world. That is what is now appearing in China. They have been slow because they have been isolated." "The leaders of the revolution were all Christians and had learned from missionaries or had studied in Christian lands."

CUT TO PIECES.

(Courier Leased Wire).

MEXICO CITY, Jan. 21.—A hundred Federals were cut to pieces by rebels near Atencingo in the state of Puebla, yesterday. Survivors who have straggled into the city of Puebla give brief details of the attack. They said the federals were greatly outnumbered.

COMMITTED SUICIDE.

(Courier Leased Wire).

NEW YORK, Jan. 21.—Harry H. Sutro, a young man employed by a water filtering company, but who also had literary aspirations, cut that short by jumping from a seventh story window of an apartment house, where he lived with his mother, Mrs. Matilda Sutro, early to-day. His mother said she had left him late last evening at work over a manuscript, and she knew nothing more of his actions until the police awakened her with notification that he had been found dead in the court yard. The coroner's verdict was suicide.

AN ADVANCE.

(Courier Leased Wire).

BOSTON, Jan. 21.—An advance of ten cents a bag on potatoes was made to-day by wholesalers as a result of a threatened shortage by reason of the strike on the Bangor and Aroostook Railroad. No potato cars are reported on the way. It is expected that receipts will decline materially later in the week unless the strike is settled.

TO SOLVE FUEL PROBLEM.

(Courier Leased Wire).

NEW YORK, Jan. 21.—A London cable to The Tribune says: Alcohol is to solve the fuel problem of the future, and Prof. Lewis

lecturing on "liquid fuel" at the Royal Society of Arts last night. There was only one way, he averred to regenerate the sun's energy to make available for power and that was by alcohol. In vegetation, he remarked, we could find energy absorbed by a plant from the sun. That energy could never be regenerated as coal or oil, but it could be as alcohol. At present, however, this was practically out of the question.

\$100,000 FIRE.

(Courier Leased Wire).

WOONSOCKET, R. I., Jan. 21.—A loss of \$100,000 was caused by a fire of unexplained origin, which started in the machine room of a moving picture theatre in the Exchange Building spread to adjoining stores in the block to-day. The heaviest losses were sustained by the Woonsocket Realty Company, owners of the building, the lessees of the theatre and Falke Bros. clothing dealers.

VERY MUCH OVERDRAWN.

(Courier Leased Wire).

CALGARY, ALB., Jan. 21.—Calgary citizens who are in a position to be acquainted with the facts, do not at all agree with the statement made by Alderman T. A. P. Frost to the effect that there are two hundred girls in this city under 18 years approaching illegitimate "motherhood." Ald. Frost's statement has created a good deal of comment and the general opinion is that he exaggerated conditions to a large extent.

(Courier Leased Wire).

ST. CATHARINES, Ont., Jan. 21.—Lewis McPherson, a lifelong resident of Thorold, committed suicide in his bedroom at 10.30 last night by taking carbolic acid. At the instance of his wife he was summoned yesterday to appear in court charged with a breach of the liquor act. At 9.30 he walked down stairs, kissed his children and then retired to his room where he ended his life. His wife and three children survive.

NOTHING PROVED.

(Courier Leased Wire).

ST. CATHARINES, Ont., Jan. 21.—The investigation into the record of County Crown Attorney Brennan of Lincoln was continued to-day. Evidence was taken on but one of the charges, that of having accepted \$50 to drop a case, Albert Jamieson, Port Colborne; Nellis Heaslip and J. H. Harrison of Gainsborough township testified. The charge grew out of a quasi case in which Nellis Heaslip was charged by Charles Bradley with closing a road and obstructing a highway in Gainsborough township. Mr Brennan appeared for plaintiff. The charge was dismissed by Magistrate Comfort because the by-law appeared to be faulty. No evidence was offered to show that Mr Brennan had received or offered to accept \$50 or any sum.

THE CANAL QUESTION.

WASHINGTON, Jan. 21.—The United States should either sue the Panama free tolls question to impartial arbitration, or retire from the position we have taken," was the declaration of Senator Root in the Senate to-day in a speech favoring repeal of the free toll provision of the new Panama canal act. Senator Root took the position that Congress should not have passed a law against shipping that discriminated against shipping and granted free tolls to American coastwise shipping. That action he declared, had been a source of great regret to multitudes of our fellow citizens, and had created a painful impression throughout the world.

On the other hand, the matron of a girls' home here, said that she did not doubt the correctness of the statement.

SOME FIGHT THIS.

(Courier Leased Wire).

NEW YORK, Jan. 21.—A lone policeman fighting a losing battle to-day with two burglars on the slanting roof of an electrical supply house, four stories above the sidewalk, fired at his assailants and thereby saved himself from being dashed to death below. The thieves fled with the shot after hurling a scuffle at the policeman, and sending him to the coping only to rush into the arms of the reserves from a nearby police station. The policeman said they were Jas. Butler and Randolph Waggonhoefer, driver and longshoreman. Their loot was found on the roof.

THREE MILLIONS

And a Little Over is What Edmonton Plans for a Natural Gas Supply---The Rates to be Thirty Cents Per Thousand.

(Courier Leased Wire).

EDMONTON, Alb., Jan. 21.—Calculating for an expenditure of over three million dollars, outlining a plan whereby the city of Edmonton would control the delivery of gas from the well to the consumer and demonstrating how the gas so secured could be sold at thirty cents per thousand cubic feet for domestic use and fifteen cents for manufacturing, James Brodie, superintendent of the city's gas department, has presented

his long expected report to the council.

The proposal is that the city should get its gas from the Pelican Rapids wells and construct its own pipe line to Edmonton, 175 miles distant. Mr. Brodie estimates that the line would cost between two million and three million dollars complete. He also recommends the laying-in of the beginning of twenty eight miles of distribution pipe, entailing an extra cost of \$300,000.

Big Contrasts in the Weather---Extremes of Cold and Heat are Recorded

(Courier Leased Wire).

NEW YORK, Jan. 21.—"Cattle freeze to death in the West". First straw hat out in New Jersey, "Traffic blocked by snow in Chicago, "Tulips budding up-state." These were headline contracts to-day, coincident with an official forecast of "Much colder" here. With the mercury at near 70 yesterday, it could be much colder without altogether upsetting the phenomenal mildness of the past few days, but early this

forenoon there was hardly any sign of an immediate freeze-up.

For the last three days the January records of 43 years standing have been repeatedly broken. It was just 103 years ago to-day that Fulton established a Hudson River record by navigating one of his steamers on this date as far as Albany—a record equalled to-day for the first time. There is not a particle of ice in the river. The ice men are reported "glum" and their patrons in the same mood.

Multi Millionaire Secures a Divorce From His Wife

(Courier Leased Wire).

WHEELING, W. Va., Jan. 21.—John O. Schenk, multi-millionaire pork packer, was granted an absolute divorce from his wife, Laura Farnsworth Schenk and given custody of his children to-day in a decision handed down by Judge Kery, Mrs. Schenk was arrested, November 9th,

1910, on a charge of attempting to poison her husband by administering arsenic. After a sensational trial the jury disagreed and the woman was released on \$10,000 bonds. The case was not brought up again during three terms of court, and was dismissed according to law. Both Schenk and his wife had filed suits for divorce.

Significant Order is Issued to Women in Turkey

(Courier Leased Wire).

LONDON, Jan. 21.—"The Daily Chronicle's Constantinople" correspondent sends this despatch: "The military commandant at Constantinople has just issued a significant order forbidding Turkish women to appear in the streets in attire which is contrary to the religious law and to the national custom. "This winter is marking a great advance over previous years in the extreme street garb worn by the younger generation of Moslems.

Deft dressmaking has converted the old fashioned black outer garment into a most attractive costume, which accentuates rather than hides the natural lines of a good figure. "This order does not represent a hope that the Turkish women will go back to shapeless clothes. The military commandant knows women's nature too well for that. It is interpreted as a caution against arousing fanaticism in these critical times, which might be harmful to the more advanced members of the Turkish fairer sex."

Widow After a Nine Months Search Locates Her Son

(Courier Leased Wire).

EDMONTON, Alta., Jan. 21.—After a nine months' search for her only son, Mrs. Martha Foster, a widow has found him at last on a homestead in the far north and is now on her way back to her little farm at Blackwater Foot, in Northern Argyleshire, Scotland.

Greatly alarmed the mother at length set out for Canada in the hope of finding her son alive.

Though herself 66 years of age, she spent months in following him from place to place, her travels including a three days' tramp alone in the Peace River district. Eventually she located Robert ten miles west of Fort John.

Sir James Whitney as Usual Makes a Plain Answer to a Deputation

(Courier Leased Wire).

TORONTO, Jan. 21.—A deputation from the National Council of Women, headed by the President, Mrs. Torrington and representing in person or by proxy, the councils of all the important towns in Ontario, waited upon the Ontario Government to-day and presented a long list of requests. Among other things which they called upon the government to do, were the requirement of a physician's certificate of physical and mental health from all persons entering upon the married state; the custody of children by the mother

wherever there is not good reason against it; wifebeaters to be put to work on prison farms and the profit of their labor to be handed over to their families, and equal civic and electoral rights for women with men.

To the first of these Sir James replied at length in saying among other things: "I think it is my duty to tell you on this and it is my very strong opinion, after a great deal of consideration, that a remedy cannot be applied in the way you suggest, and I hope you will not press any such crude idea."

ONE DOSE RELIEVES A COLD—NO QUININE

PAPE'S COLD COMPOUND CURES COLDS AND GRIPPE IN A FEW HOURS.

You can surely end Grippe and break up the most severe cold either in head, chest, back, stomach or limbs, by taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken. It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, soreness, stiffness and rheumatic twinges.

Take this wonderful Compound as directed, without interference with your usual duties and with the knowledge that there is nothing else in the world, which will cure your cold or end Grippe, misery as promptly and without any other assistance or aid after-effects as a 25-cent package of Pape's Cold Compound, which any druggist can supply—accept no substitute—contains no quinine—belongs in every home. Tastes like.

WINDICTIVE AND UNTRUE

The Brantford Courier, some of whose directors are, or have been, very closely connected with this enterprise (Lake Erie and Northern Railway) is disposed to regard very favorably the route now asked for in fact, has rather warmly endorsed it.—Expositor.

There are just two comments to make with reference to the above contemptible intendment.

1.—The Courier last year expressed the view that if no other route was available except Jubilee Terrace, and if investigation showed such to be the case that then, under proper conditions the same should be granted. That was before any one had a cent of company stock in this paper.

2.—Not one member of the board of directors of the Courier has a solitary son, either directly or indirectly, in the Lake Erie and Northern Road.

Our cotem is altogether too prone to judge other people from its own standard.

TO PROBE THE DREDGING GRANT.

A thorough investigation into the dredging contracts of the old government has been decided upon by Hon. Robert Rogers, Minister of Public Works, and Hugh Stewart, M.P., of Brockville, has been retained as counsel to conduct the probe before the public accounts committee. Some sensational evidence it is expected will be forthcoming as it is well known that the dredging contracts of the old government were a fruitful source of graft. Evidence from time to time came to the surface before the public accounts committee in recent years, but with the famous Liberal blocking brigade sitting tight on the lid it was difficult to carry the inquiry far.

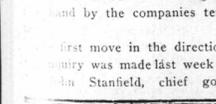

The report of the Public Service Commission submitted to parliament recently called attention to the fact that some thirty million dollars had been paid out for dredging in the last ten years. It had been stated in the report that there had been a series of frame-ups between contractors who arranged between themselves for the securing of particular contracts, and the enhancing of prices for each contract, but some really no competition as the names named were arranged behind by the companies tendering.

The first move in the direction of inquiry was made last week when John Stanfield, chief government

A TRIUMPH FOR HAZEN

The Hon. J. D. Hazen, Minister of Marine and Fisheries, by his quick action and grasp of what was best for the interests of Canada, has great reason to be pleased with the refusal of United States Secretary of War Stimson to grant the application of the Sanitary District of Chicago for permission to divert from Lake Michigan 10,000 cubic feet of water per second instead of 4,167 feet as at present, thus lowering the water levels of the Great Lakes. Mr. Hazen when informed of the application which was made last year to the United States Department of War, quickly saw how significant such a question was to the best interests of the Dominion. Engineers of the Department were at once ordered to Washington to watch developments while the case was being heard there, and Mr. Daniel Mulh, K.C., of St. John, N.B., one of the leaders of the New Brunswick bar, was appointed to argue the case for Canada.

Mr. Mulh, assisted by the officers of the Marine Department, made out a strong case from the Dominion standpoint, while the Shipping Federation, the Montreal Harbour Commission, and the Marine Association, were also ably represented.

The chief contention of the Canadian Government and interests was that the withdrawal of 10,000 cubic feet per second from Lake Michigan would interfere to a serious extent with navigation on the Great Lakes and connecting rivers. Also it was contended that such a drain would reduce the lake levels from at least four to six inches on the St. Lawrence River, and that this would probably result in the reconstruction of a number of Canadian canals and harbours, thus involving an expenditure of millions.

BANK OF HAMILTON CONTINUES TO GROW.

Unlike certain other of our Canadian chartered banks which show a tremendous accretion of deposits and paid-up capital as the result of the combining of one bank with another the Bank of Hamilton continues, as the result of its annual business, to exhibit only natural, if somewhat noteworthy, gains all along the line. The total assets of this institution now stand at \$48,907,883.32, showing an increase of assets over the year before when the figure stood at \$44,732,137.81. Net profits realized from the business of 1912 show an increase over those of the year before of over \$50,000. Net earnings for the year just closed were \$495,860.50 compared with \$443,506.46 for 1911. The total available for distribution at the end of 1912 amounted to \$816,820.59, which compared with the difference in amount received as premium on the sale of capital stock, shows also a healthy gain over 1911. The reserve fund of the bank stands at \$3,500,000 as compared with paid-up capital amounting to \$3,000,000.

IN ONE MINUTE! CLOGGED NOSTRILS OPEN HEAD-COLDS AND CATARRH GO—TRY THIS!

Breathe Freely! Clears Stuffed-up, Inflamed Nose and Head and Stops Catarrhal Discharge. Cures Dull Headache.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of Ely's Cream Balm at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed, nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucus dropping into the throat and raw dryness is distressing but truly needless.

Put your faith—just once—in Ely's Cream Balm, and your cold or catarrh will surely disappear.

WE WILL SHOW YOU HOW!

If you have ideas—if you can THINK—We will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100, and more, for single scenarios or written ideas.

Nearly all the big film companies, the buyers of photoplays, are located in or near NEW YORK CITY. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers, our SALES DEPARTMENT has a tremendous advantage over agencies situated in distant cities.

We have received many letters from the big film manufacturers, such as VITAGRAPH, EDISON, ESSANAY, LUBIN, SOLAX, IMP, REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for Publication."

HUMAN HAIR ROOT

Showing Dandruff Germs At Work

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Kills the Dandruff Germ and Makes the Hair Grow Restores Gray Hair to Natural Color

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelops the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR ARE A SURE SIGN OF DESTRUCTIVE GERMS.

Wyeth's Sage and Sulphur Hair Remedy not only kills the dandruff germs and prevents baldness, but it also restores faded and gray hair to natural color.

Don't Experiment With Old Fashioned Hair Dyes but save your hair and restore it to natural color and luxuriance by using Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell Sage and Sulphur under guarantee that the money will be refunded if it fails to do exactly as represented.

CITY COUNCIL

(Continued from page one.)

Moved by Ald Hollinrake, seconded by Ald Spence. That the communications of A. Edward and the Penman Company be referred to the Railway Committee. Carried.

Accounts
 Amounting to a considerable sum were passed on a motion by Ald Spence and Charlton. In moving the passage of the account, Ald Spence stated that he could not swallow the Dufferin file item for over \$400. The account called for the payment of 67 officers and non-coms to handle 72 rank and file.

Ald Ward wanted to know where Ald Spence got all his information. Ald Spence in reply stated that the bill called for the payment of \$7.25 for the Lieut.-Col. for the evening and on down to the men of the rank and file, who are to receive \$1.50 a piece.

Ald Ward, a Dufferin officer stated that the call was made and the men were compelled to respond. The officers were more available than the men, stated the Alderman of the fifth ward. The report was adopted.

Hydro Electric.
 Ald McFarland read the report of the Fire and Light Committee which took the form of a letter from Mr. Ireland, the Hydro Engineer, which gave a synopsis of the progress made so far on the local Hydro Electric plant.

In support of his letter, Mr. Ireland spoke briefly, stating that the installation would be pushed ahead rapidly. The report carried.

Railway Committee
 Ald Hollinrake read the report of the Railway Committee, which explained the history of the case, involving the Wilkes case in the Holmedale in regard to the G. T. R. award. Mr. Hollinrake explained the report clause by clause, stating that under the original agreement with the G. T. R., the city did not have to pay the sum of \$2,760 which the arbitration award now calls for, and payable to the G. T. R. Going a little farther, Mr. Hollinrake voiced the opinion that Mr. Wilkes and the G. T. R. had entered into an arbitration agreement without the city being notified. City Solicitor Henderson in a letter to the Chairman of the Railway Board is of the opinion that the city should appeal the award. I understand that Mr. Wilkes did not want the arbitration proceedings and in consequence I think an investigation is necessary.

Ald Ward—"I heartily endorse everything that Ald Hollinrake has said and I am also of the opinion that the city should get its rights."

Ald Charlton—"Has the time allotted for appeal not expired?"

Ald Spence—"The way things are going, we will not have much money left for paving. This Wilkes case is the most outrageous ever perpetrated on any municipality in Ontario. The Mayor who let the original agreement with the G. T. R. go through undoubtedly showed lack of duty towards the city."

The report was adopted.

Finance Report.
 Ald Spence presented the following report on Finance:
 Your committee on finance begs leave to report as follows:
 That the letter of Brewster and Heyd re theatre licenses be filed, as same was taken up by last year's committee and council, and it was decided to take no action in the matter of reducing the amount of moving pictures theatre licenses, and your committee sees no reason why the question should again be re-opened.

The request of the Greater Brantford Committee for \$200 was granted. An interim grant of \$100 was given the Victorian Order of Nurses. The committee is favorably disposed to such work as they are doing and will give further assistance if an investigation which they will make is favorable. The account of the Dufferin rifles was referred to the solicitor for his advice as to the legal liability of the city as the committee considered it out of all proportion that it should require 62 officers and non-commissioned officers to look after 76 rank and file.

The letter of Harley and Sweet re Y.M.C.A. exemption on new building be referred to the solicitor to see whether it was legal to have exemption on both old and new buildings.

Tax Collector Benedict's request for an increase in salary was filed. The committee regretted it cannot meet the request in full. Owing to the fact that the taxes will in future be collected in three instalments and the additional work entailed his salary was advanced to \$1,000. City Clerk Leonard's salary was increased by \$50.

The report was concurred in.

Motions.
 Ald Hollinrake made a motion to give the Railway committee power to take steps to obtain lower passenger rates between Brantford and Harley on the G. T. R. The motion was adopted.

Moved by Ald Hollinrake, seconded by Ald Spence: That the property of A. J. Wilkes in the Holmedale be valued by A. G. Ludlow and H. Oldham, and that Mr. A. J. Wilkes be asked to meet the railway committee in reference to the award and the reason why the city was not notified as to the arbitration proceeding. The motion carried.

Ald Hollinrake made a third motion to the effect that the city take steps to appeal the award given in the arbitration proceedings between A. J. Wilkes and the G. T. R. Carried.

Council then adjourned.

SERIOUS DISORDERS.
 (Courier Leased Wire).
 WASHINGTON, Jan. 21.—Serious disorders and widespread rebel activities in Southern Mexico, in which official despatches to-day say "small towns and ranches have been attacked and pillaged, women have been carried off and bandits have demoralized the populace, have aroused apprehension for the safety of Americans in the disturbed zone.

TOWN PLANNING CONGRESS.
 (Courier Leased Wire).
 OTTAWA, Jan. 21.—To stimulate better housing and town planning, Dr. C. A. Hodzette, medical officer for the conservation commission, advised at the fourth annual meeting of that body which opened here this morning that a national housing and town planning congress be held in Ottawa as soon as possible. He suggested that it should be a good thing to secure the attendance of one or more of the officers of the local government boards of Great Britain.

MAJOR SHARPE

Has Aroused the Ire of the U. S. Navy Men by Some Rash Remarks He Made in the Ottawa House.

MONTREAL, Jan. 21.—A Washington despatch to "The Gazette" says: Great indignation has been created in Washington by the speech of Major "Sam" Sharpe in the House of Commons at Ottawa, to the effect that "few native Americans sign for the navy" and that those who do, are "desperate, no good socially, morally or otherwise" and finally that the navy becomes a home "for deserters and moral degenerates, deserters from foreign ships."

The speech of Major Sharpe was the topic of conversation in the military and navy club, where the members were vigorous in characterizing

Major Sharpe as uninformed or else malicious. Admiral Dewey, hero of Manila Bay, took occasion to say that the men of the United States Navy were of the highest character, morally and physically, and that they were a credit to the United States.

He said that he never met a finer body of men.

Rear Admiral Andrews, chief of the bureau of navigation, said that the charge that few native Americans enter the navy, except those who are desperate and morally unfit, and that the navy welcomes deserters from foreign fleets is "highly injudiciously untrue."

25 CENT "DANDERINE" FOR FALLING HAIR AND DANDRUFF—GROWS HAIR

Don't pay 50 cents for worthless hair tonics—Use old, reliable, harmless "Danderine"—Get results.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp; which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine to-night—now—anytime—will surely save your hair. Get a 25 cent bottle of Knowlton's

Danderine from any drug store or toilet counter, and after the first application you will say it was the best investment you ever made. Your hair will immediately take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair growing all over the scalp.

AUSTRALIANS WON.

(Courier Leased Wire). SYDNEY, N. S. W., Jan. 2.—In the concluding series of test tennis matches to-day Australia defeated the British players, holders of the Davis Cup, winning every event. Heath and Jones defeated both Parke and Lowe and Beamish and Dixon.

Brookes and Dunlop also defeated the British pairs, Australia winning the series by two rubbers.

(Courier Leased Wire). TORONTO, Jan. 21.—If the Toronto City Council agree to the recommendation of Park Commissioner Chambers to sell the lots on Sylvan Avenue, got some five years ago through failure to pay taxes the city will net a profit of \$17,731. The lots were being held for park purposes, but the commissioner recommends a sale.

WANTS NEW TRIAL.

(Courier Leased Wire). TORONTO, Jan. 21.—In the application on behalf of W. H. Haines for a new trial of his action against Hon. A. G. MacKay for alienation of his wife's affections, the appellate division of the High Court did not feel it necessary to call upon counsel for the defence. Chief Justice Mulock announced that the court had arrived at a conclusion and would deliver a written judgment later.

The "Express" says: "Miss Ada Delany's Alladin is a performance of great merit, and she has an able partner in Miss Ada Thomas, the Princess."

"As principal 'boy' and girl, Miss Nora Delany and Miss Ada Thomas charmed everybody by their daintiness and grace." "Daily Mail. No more capable and pleasing Alladin could be asked for than Miss Nora Delany, no sweeter or more beautiful Princess than Miss Ada Thomas. Both actresses sang remarkably well, and they have been provided with many pleasing songs."

Daily Telegraph. "Miss Ada Thomas fills the part of the Princess with charm and vivacity which at once endear her to the audience."

News of the world. Miss Ada Thomas, A.R.C.M., was

born in Truro, and made her first appearance in her native city at the age of four in "The Sleeping Beauty." A member of a very musical family she successfully passed in all the singing and musical examinations, being prepared by her brother, Mr. Frederick C. Thomas, L.R.A.M., A.R.C.O., F.C.G.O., who now holds the position of Organist and choir-master of Grace church, Brantford, Canada. She studied four years at the Royal College of Music, London, winning several valuable exhibitions, and finally took the leading part in the grand opera "Shamus O'Brien." Then she was secured by Mr. Geo. Edwards, and played in "The Dandies" as Illyrine in "The Merry Widow" as Natalie and the Widow; as Sombra in the "Arcadians" and O Hana San in the "Mousme" (Mr. Robert Courtneidge). Now as the Princess in "Alladin" at Kensington Theatre, London, she is still winning laurels as a prima donna. Her photographs have appeared in "The Era," "Sketch," "Lloyds," and other journals.

The wedding takes place in Toronto on Saturday, the 25th.

Helen Gould and Her Wedding Trousseau.

NEW YORK, Jan. 20.—Although she is one of the richest women in America, Helen Miller Gould will confine her wedding trousseau expenses to within \$1,000. The later figure was that set by Madeline Force, now the widow of Colonel John Jacob Astor, when she was married, and it was a shock to Fifth Avenue modistes. Many wealthy brides have spent ten or twenty times this.

When Miss Gould marries Finley J. Shepherd at her Tarrytown home next Wednesday she will be gowned in ivory white, with satin and rose point lace trimmings, with a court train and a rose point veil. Miss Gould's favorite colors are purple and grey, and most of her trousseau is made up of these colors.

LAUGHTER LINES.

Exactly. "Is an elopement ever prudent?" "It may be sometimes, but generally it is a miss-taken affair." —Baltimore American.

Q.E.D. "Se' ere, Mr. Johnsing, that thief wore rubbers and walked backwards." "Then we must look out for a man with recedin' gums." —Life.

For whom He Prayed.

Exchange. A very nice and gentle minister accepted a call to a new church in a town where many members bred horses, and sometimes raced them. A few weeks later he was asked to invite the prayers of the congregation for Lucy Gray. Willingly and gladly he did so for three Sundays. On the fourth, one of the deacons told the minister he need not do it any more.

"Why," asked the good minister, "is she dead?" "Oh, no," said the deacon, "she has won the steeplechase."

Woman's Will. Men, dying, make their wills, but wives Escape a fate so sad: Why should they make what all their lives The gentle dames have had? —John Godfrey Saxe.

Sandwichman and Princess. John Inshaw, a sandwichman, seconded a vote of thanks to Princess Louise of Battenburg for opening a Bazaar at Liverpool, the object of which was to raise \$30,000 for the League of Well-doers. During its 10 years' existence the League has provided nearly 5,000,000 meals for children, 200,000 dinners and dainties for invalids, 43,000 garments for the poor, 182,000 beds for the homeless, and 123,000 midnight meals for the unemployed.

Royalty's Game. Cards have always been a royal game. Queen Elizabeth played cards and lost her temper over them fre-

quently. She was no Anne of Austria, to play "like a queen," without passion of greed or gain." In her reign was commanded to be played at Wyndore a Comedie or Moral devised on the game of cards," which resulted in the performance by the children of her majesty's chapel of "Alexander and Campaspe," in which the pretty lines occur: Cupid and my Campaspe played At cards for kisses. Cupid paid. —London Chronicle.

Almost any woman is apt to feel badly run down after her neighbors get through discussing her.

Fashion Hints. The maid of 1913 will surely be curvaceous. She will not resemble in outline an hourglass or a question mark, and she will not appear to be walking in front of herself. What she will appear to be is a sort of moving figure 1, with an oblique line being due to the tilt of her hat.

This is the advance tip from a convention of dressmakers held recently to decide what will be what in fashiondom.

To Furnish Wives by Carload for West on Demand.

BOSTON, Jan. 21.—Wives in car-load lots, short or tall, wavy blond or brunette or thin, coquettish or demure, will be furnished on request by Mrs. Charlotte Smith, Massachusetts' nemesis of bachelors, who for several years has urged imposition of a bachelor tax in the Bay state.

Having read of Mrs. Smith's fight against bachelors, and believing it was a result of a superfluity of wife material in Massachusetts, three Swedish farmers from Minnesota called on Mrs. Smith and asked her to supply them with wives. They said more Minnesota bachelors would be along presently with similar demands.

As a result Mrs. Smith has announced that she will take on herself the responsibility of furnishing Westerners wives, with special attention to Minnesota.

FIRST TIME. A London Policeman on Traffic Duty Has Been Killed—Event Created Sensation.

LONDON, Jan. 21.—For the first time in the history of London a policeman was killed on point duty. Londoners so thoroughly appreciate the services of the constable directing the traffic of the metropolis that the news created a sensation. G. John Smith was the victim, and the scene was Ludgate Circus. Smith was run over by a motor bus, the front wheel passing over his head. An eye witness said the vehicle skidded with the wheels locked as though on ice runners. The streets were very greasy. Twelve metropolitan police were injured by horse-drawn vehicles while directing traffic in 1912.

Easier to Carry. A man moving from one house to another was carrying a grandfather's clock. Another man met him and said, "Say, stranger, why don't you buy a watch." White Swan Yeast cakes are like the watch. They are not so large, but they do more and do it better than the clock-sized ones. Send for free sample. White Swan Spices and Cereal Co., Ltd., Toronto.

PARIS. (From our own correspondent) PARIS, Jan. 21.—Miss A. Tennant is confined to her bed as a result of a fall on the icy pavement near the new station.

Mrs. Olive Adcock has returned to Paris after spending a pleasant visit to her home in Ilkerton, Derbyshire, England.

The Mill Race Co. have a squad of six men breaking the ice on the Raceway.

Mr. and Mr. R. L. Murray spent Wednesday with friends in Ayr.

Willie Merrydew, a young lad, while sleighriding down one of Paris' steep hills leading to the Upper Town Bridge, broke his leg. The break is a very bad one. While trying to keep from running into a horse and rig, he ran into the bridge.

MISS GOULD

While Busy With Her Wedding Preparations Does Not Forget Her Usual Generosities

(Courier Leased Wire). NEW YORK, Jan. 21.—While being showered with gifts herself and busy with preparations for her wedding, Miss Helen Gould has made the army of homeless men in New York happy with the announcement that they will receive a treat-to-morrow at her expense.

Tomorrow is the day of her marriage to Finley J. Shepard of St. Louis at Lyndhurst, her country home near Tarrytown.

The feast for the poor will be served for many thousands of men in the basement of the Bowery Mission, whose work Miss Gould has been interested in. A musical entertainment will be provided also.

Miss Gould decided upon this plan yesterday afternoon while messen-

MODEST HERO

At Last Meets With Suitable Recognition--The Notable Sacrifices of Sir George Turner

LONDON, Jan. 21.—What had been regarded as a mystery in connection with the New Year's honors is now explained. The career of Dr. George Turner, who received a Knighthood, reveals another Father Damien.

During twelve years in the Cape Colony as Medical Officer he rendered services to the cause of humanity which had never been adequately recognized except by a very few. He completed the system of inoculation against the rinderpest begun by Dr. Koch, and produced a curative preventive serum. Within a year after his appointment to succeed Dr. Koch rinderpest in the Cape Colony was absolutely stamped out. He saved the country millions of pounds.

During the Boer war, when the ravages of typhoid were appallingly severe, Dr. Turner, at Lord Roberts' request, undertook the supervision of the military hospitals and concentration camps and carried out valuable work at the constant risk of his life.

Work for the Lepers. It was in the midst of these activities that Dr. Turner devoted himself first to the noblest work of his life. There were then at the leper asylum at Pretoria about fifty Dutch and 400 native patients. He gave up all his spare time to work among the lepers doing all he could to alleviate their lot and making tireless researches into the nature of the disease.

For three years he labored without extra pay of any sort. He saw the lepers early in the morning, again when he came home in the evening. Saturday and Sunday he gave to them.

In addition he made as many post-mortem examinations as possible. He was in his laboratory at dawn in order to have time for work. A visitor who watched Dr. Turner moving among the patients in the asylum bears witness to the passionate devotion with which he was regarded by all the inmates.

The saddest feature of these institutions was afforded by the leper children born of leper parents, for, in many cases, several members of a leper family were admitted together.

As the Medical Superintendent moved about the asylum, which was in the nature of a village, he was usually followed by a crowd of these unfortunate children, by whom he was adored.

A Victim to the Disease. On reaching the age limit Dr. Turner retired to pursue his studies into the bacteriological side of leprosy in the laboratories of this country. It has always been the ambition of his life to find some remedy for the disease. Suddenly, after several years' work in England, his eye was attracted by certain marks on his hand while shaving. He recognized them at once as the stamp of the disease, which he set himself to fight.

His diagnosis was independently confirmed by two specialists, and from that time on he worked unswervingly amid pain and beneath the shadow of the leper's lot.

For the last two years he has been living in seclusion, and says The London Times, it is curious that his heroic story escaped the notice of the public.

Anarchists Said to be Plotting Against Life of Mexican President

(Courier Leased Wire). WASHINGTON, Jan. 21.—Anarchists in the United States are said to be plotting against the life of President Madero, and both United States and secret service operatives are trying to ferret out the plotters.

Mexican agents who unearthed the alleged plot reported it to the state department and the latter in turn gave it to the department of justice. The state department was informed of the arrest of two alleged anarchists in Florida last night. Officials admit they may be conspirators.

This "Poor" Man Left Nearly Half a Million Dollars

(Courier Leased Wire). BROCKTON, Mass., Jan. 21.—Known as a "poor man," Horace William Howard, a recluse, had a fortune of nearly half a million dollars. His will filed for probate in court here yesterday leaves \$400,000 to charity, including \$185,000 for the establishment of a home for aged in Brockton

and large sums to the Brockton hospital and other institutions here. Howard, who had recently lived in Providence in a room for which he paid \$1.25 rent, always dressed poorly and never paid more than fifteen cents for a meal. His only living relation, Mrs. Mary P. Howard, a sister, was not mentioned in the will. She has announced she will contest it.

WINTER IN ALGONQUIN PARK

With Switzerland as the Winter playground of Europe, Ontario is taking its rightful place as the Winter playground of America, and one of the most popular districts where sport and where an invigorating atmosphere may be enjoyed, is the Algonquin National Park of Ontario, 200 miles north of the City of Toronto, and 175 miles west of the City of

Ottawa. The "Highland Inn," with accommodation for about 100 guests, is being operated as a winter hotel, and its popularity has been demonstrated by the fact that they have been running to capacity up to the present time. The rates at the hotel are \$14 to \$16 per week. A handsome booklet telling you all about it, will be sent on application to the manager, Highland Inn, Algonquin Park Station, Ontario.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed by a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but

an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh), that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

TORTURED FOR NEARLY TWO YEARS

Mrs. Poulin Found Relief in Dodd's Kidney Pills.

Rheumatism, Backache, and Headaches Were Her Portion But Now She is a New Woman.

McCREARY, Man, Jan. 20. (Special)—"Four boxes of Dodd's Kidney Pills made a new person of me." The speaker is Mrs. Oliver Poulin, of this place, and her numerous friends here fully verify her statement.

"For nearly two years," Mrs. Poulin continues, "rheumatism tortured me. My back and head also ached. My eyes were puffed and swollen. I am sixty-three years of age, and you can see I was a pretty sick woman. But Dodd's Kidney Pills cured me. Mrs. Poulin is only one of many who have had a similar experience. They were weak and run down, and sick all over. Dodd's Kidney Pills cured them. How? Simply by curing the kidneys. The diseased kidneys were the cause of all the trouble. They were failing to strain the impurities out of the blood, and the result was disease all over the body. Dodd's Kidney Pills cured the kidneys, the impurities were strained out of the blood. The result was pure blood and good health all over the body. The cause of the disease had been removed.

ORIGIN OF CARDS LOST

HISTORY OF THE "PACK" IS LOST IN MISTS OF ANTIQUITY.

Idea That They Were Invented To Amuse a Mad French King Is Discarded Because Playing Cards Are Found In Ancient Times Among Eastern Peoples—They Originally Had a Religious Import.

The origin of playing cards is lost in a dim and obscure past, and their authentic history can only be traced as far back as the fifteenth century. Various theories have been brought forward as to the source from which European countries obtained them. Some contended that they came from the East Indies, that they had an independent origin like that of the Swastika, the Egyptian charm, which though discovered in China centuries ago, was known at the same time in Mexico. An idea once prevailed that they were invented to amuse a mad French king, but the only foundation for this hypothesis is the fact that a French document, dated 1382, shows an entry of a payment made for painting cards for Charles VI.

The earliest cards were the Tarots, and even now they are still used to some considerable extent for that purpose. It is also an established fact that in vast ages many Eastern people, especially those of India and China, possessed cards that differed materially both in uses and in design from those to the Western world at a later date. It is impossible for one to trace the beginning of card lore, but there is little doubt that the people of the East have been playing cards in high esteem as mediums for the partial revelation of the unknown and included them as a part of their mystic lore. The earliest cards were the Tarots, and they are supposed to have been the invention of Jacques Gringonneur, an astrologer and cabalist, who was probably of Jewish extraction. The Tarots pacts extant in Europe being of an Israelitic character. Occultists trace the Tarots back into a distant past. According to them, hieroglyphs were based upon an alphabet in which the gods were letters, the letters were ideas, the ideas numbers, and the numbers perfect signs. This alphabet is supposed to date back to the days of Abraham, and is known as the "Book of Thoth." Moses, who was learned in Egyptian lore, took the secret to his people, and it is supposed to have come down to us in the Tarots.

The famous cartomancer Etteilla, who was a seer, a clairvoyant, and an exponent of the mysteries of the Tarots, in France, gives another theory of the Tarots, when he says: "On a table or altar, the ancient Egyptians, a priest, in the presence of his disciples, would have come down to us in the Tarots. ETIQUETTE IN WAR.
Some Rules Written Down, Some Tacitly Agreed To.

War—that is, warfare between civilized nations—has its code of etiquette, known as the customs of war, some of which are written, others tacitly agreed to.

Obvious examples of fighting etiquette are the rules which protect the Red Cross flag of the ambulance and forbid the use of explosive or within limits, expanding bullets.

Nominally, a general may use any means in his power to bring his foe to subjection, says answers, but there is a well-defined boundary line. A leader may cut off his enemy's food and water supplies. He may subject him to all the horrors of famine and thirst, but he must not poison his food or water.

Suppose a place is besieged and that outside the walls are wells which the besiegers cannot effectively hold and which the besieged can reach under cover of night. The besieger would be justified in sending parties to fill up the wells with earth or stones or to destroy them with dynamite. On the other hand, to pollute the wells with poison or to throw dead animals into them would be an infamy.

A "prisoner of war" has his rights. He may be asked to give his parole to promise not to escape, but he must not be forced to give his parole and not to be punished for refusing to do so. A prisoner on parole who attempts to escape is liable to be shot, either when escaping or if retaken alive.

An unparoled prisoner may also be shot while in the act of escaping; but if recaptured, it would be murder to shoot him, and he should not be punished for his attempt, though he may be placed in more rigorous confinement.

A prisoner may be compelled to earn his "keep" by working at his trade, if he has one, or by doing work for his captors not of purely military nature. Thus, he may be ordered to assist in draining the swampy lands which he is a prisoner; but it would not be fair to put him to building fortifications.

The customs of war justify the employment of spies, but under certain rules. If a soldier voluntarily turns traitor, the other side is entitled to make use of him, but it is "outlet" to tempt a soldier to betray his own side.

If thus tempted, a man may pretend to turn traitor and deceive the enemy with false information. On the other hand, tending to be a traitor or deserter would be dishonorable conduct, that is, if the pretended traitor is an officer or soldier.

A spy, of course, has no rights, and is at all times liable to be shot or hanged at sight. An officer, or soldier, however, caught in the enemy's camp, must not be treated as a spy, but as a prisoner of war, provided he is not disguised.

If a commander takes part in a charge, or persistently exposes himself to fire, he must take his chances of being shot; but in his affairs it is not the "game" to detail marksmen to try to "pick off" your opponent's general, though every effort may be made to capture him or to bombard him.

Public buildings, unless used for defensive purposes, should be spared so far as possible. When a place is captured, the victor has the right to seize art treasures and so on, and to hold them to ransom. To injure or destroy them would be the act of a vandal.

Powerful New Magnifying Glass.
A new method of seeing things which is 1,000,000 times more powerful than the most powerful magnifying glass to-day is being tested in England by Sir J. Thomson. Up until a short time ago the spectroscope was the finest instrument of analysis available for chemical and scientific research. And now comes this instrument, millions upon millions of times more exact than the spectroscope. With his new magnifying apparatus, a combination of spectroscope and photographic camera, Sir J. Thomson is said to have been able to detect chemical combinations which exist only in that part of a second which compares to a second as a second compares to a year.

Lord Hawke's Youthful Sprouts.
In view of the fact that a campaign is now being waged on behalf of whiskers it is amusing to recall that Lord Hawke, the famous Yorkshire cricketer, established a claim to fame in his school days. An Old Etonian in his reminiscences of the famous school asserts that Lord Hawke was personally distinguished in a unique manner. "He is the only boy that I ever heard of who could grow quite respectable side whiskers and moustache. Certainly, when he played in the eleven, Hawke looked older than any other Eton player. For a boy to grow an incipient moustache in his last year or so was not uncommon, but a beard and side whiskers were very rare.

The Dozen.
In all the civilized countries of the world thirteen is referred to as being somebody's "dozen." In Canada, Australia, Great Britain (present day) and several other lands this number is said to be a "baker's dozen." In Italy it is referred to as the "cobbler's dozen," there being a tradition that there was formerly a law which compelled cobblers to put twelve nails or nails around the edge of a boot heel. Finally, when the nails became cheap, a centre nail was driven for luck.

Why He Was Cool.
Average Man—There's a run on another bank. Just look at those deposits crowding in! The fools! That's what makes money tight. The whole crowd should be carried off to a lunatic asylum.
Friend—For the allowing your deposits to remain, I presume.
Average Man—Um—er—I haven't any funds in that bank.
He Will See Them.
A pessimist would say, "I never saw a pair of perfect eyes," said the woman who reads the newspapers.
That, replied Miss Cayenne, merely proves that the prominent oculist was never in love.
Hardly a Compliment.
Maid—A gentleman to see you, madam.
Miss—If it, by chance, my cousin the professor. Maid—No, he doesn't look as clever as that. He looks more as though he might propose to you.

By Some Person or Persons Unknown

'One minute, Mr. Gregory.' Mr. Harvey Wilberforce looked at his notes. 'Can you identify the man you saw putting the pistol in the dead girl's hand?'

Gregory looked around the court. 'There he is,' he said, pointing to Lord Warchester, 'though he wore a beard in those days.'

Mr. Wilberforce nodded. 'How long had you known that Mrs. Perks and the woman you knew as Cecile de Lavelle were sisters?'

Gregory considered. 'It would be a matter of six weeks. I met Cecile coming out one day and she told me.'

'Did Miss Evelyn Spencer know of the relationship?'

'I should say not,' Gregory passed one hand over his face reflectively. 'She would never have let Mr. Wilton come there if she had known, for they were fearful jealous of one another—them two De Lavelle girls.'

'I see. That is all for to-day, Mr. Gregory.'

Mr. Harvey Wilberforce resumed his seat, and Mrs. Roy Denham rose. 'I do not propose to cross-question this witness, your worship; as by my advice, my client is reserving her defence. It is impossible for us to go into this evidence on such short notice, so utterly unprepared was my client for the nature of the charge the witness was about to make.'

'Call Maria Perks,' ordered Mr. Harvey Wilberforce; and once again every head in the court was turned to the witness box as Mrs. Perks, in her best Sunday bonnet, with curls and black bearse-like feathers, was marshalled into the box.

'The widow was shaking and trembling with fright.'

'Her evidence was in the main merely a recapitulation of Gregory's evidence, but she was a most unwilling witness; the answers to his questions seemed to be dragged out of her by Mr. Harvey Wilberforce. Nevertheless it was impossible to withhold a meed of sympathy from the woman when the spectators remembered that the poor creature in the dock against whom those same answers were telling so terribly was the sister of the weeping witness.'

Septimus Lockyer glanced at Warchester.

'This is very painful,' he whispered. 'Those two—with a jerk of his head towards Joan and Mrs. Trewhistle—ought not to stay.'

Warchester shrugged his shoulders. 'I should have said it was a most unsuitable place for them to come to at all, but I can do nothing.'

Septimus Lockyer made his way towards his neices.

'It will be over directly, adjourned till Friday. You had better come out with me now. There is such a crowd that it may be difficult later.'

They rose at once, and with some difficulty Mr. Lockyer made a way for them to the side door.

'Well,' said Mrs. Trewhistle, 'I did not expect it to be nice—I knew it would be horrid but I did not expect it would be as bad as this.' She turned on hearing footsteps in the stone corridor, Warchester had left the court behind them. She stopped.

'Oh, Paul.'

The other two went on; Joan did not heed her cousin's exclamation. She looked up at her uncle, her eyes piteously dilated.

'Did she murder my sister, uncle Septimus? Did she—that woman—murder my sister Evie?'

Septimus Lockyer looked down at the white face, from which the encircling veil was thrown back. As he marked the traces of strain and of tension his heart grew very pitiful; he guessed something of the ordeal through which the girl had passed.

'I think there can be no possible doubt of that, Joan,' he answered gravely.

Joan put out her hand and caught at his arm; her limbs felt strangely dull and heavy. By contrast the solid stone walls of the passage seemed to be whirling round in the air.

'She—she murdered Evelyn,' she gasped. 'And you know, uncle Septimus—you know, I thought it was—Paul.'

CHAPTER XXX and Last. Lady Warchester's knees trembled as she got out of the motor and went into the house. She glanced up timidly at her husband, whose face was stern and melancholy. Septimus Lockyer had parted from them at the door of the police court, and Warchester had escorted his wife and her cousin, Mrs. Trewhistle home. Both husband and wife had been glad of Cynthia's presence; it was a relief not to be alone in the car.

When inside the house Joan allowed Mrs. Trewhistle to go upstairs alone. She herself lingered on the

great bearskin before the hall fire and waited for her husband.

'Paul,' she said, 'with a little catch in her throat—'Paul, can you ever forgive me?'

He made no motion to take the hand she held out to him.

'Certainly,' he returned with disconcerting promptness. 'There is nothing to forgive as a matter of fact. I have no doubt that with your beliefs the majority of wives would have acted precisely as you did.'

The arresting coldness of his tone seemed to freeze the blood in Joan's heart; for the moment she was incapable of speech. Only her eyes—her large haunting eyes—as they fastened on his sought vainly to express the anguish and the shame that were struggling to find voice within her.

But Warchester would not meet them, would not read their mute appeal.

'Will you excuse me?' he said politely. 'There are letters that must be answered.'

Joan bent her head silently as she turned towards the stairs. The burning words of love and sorrow that were in her heart remained unspoken. Frozen by Warchester's tone and look she made her way to her room, too worn and spent to do more than submit in silence to her maid's ministrations. When at last she had been arrayed in a comfortable tea gown of white cloth with just a touch of sable at throat and wrists, and her shining hair had been loosely brushed back and coiled low as in the old days Warchester had best loved to see it, she laid down on her couch before the fire, feeling too utterly stunned, too weary almost to think.

She had had no luncheon and Treherne brought her a tray of pale de fete sandwiches and a glass of champagne, but Joan turned from them almost with disgust.

She was staring into the fire with wide-open miserable eyes when Cynthia entered the room with her usual air of bustle. She glanced at the tray.

'Good gracious, my dear Joan, do you mean to say you have had no lunch? Those pate de foie sandwiches are excellent. Try one.' She picked one up and bit it with an air of relish. 'So Warchester is going off by the boat train to Dublin to-night?'

'The Only Cure for Piles'

'Writes Mr. Taylor in Telling His Experience With Dr. Chase's Ointment.'

Because Dr. Chase's Ointment brings almost immediate relief from the dreadful itching, burning, stinging and smarting of piles, it is well worth the attention of everyone suffering from this annoying disease.

'I was to a doctor, who gave me some ointment, which made me no better. A friend advised the use of Dr. Chase's Ointment, and by the use of two boxes I was entirely cured. You may publish this statement in order that other sufferers may profit by my experience.'

Dr. Chase's Ointment can better prove its value by the relief it affords than by all the words we could use in its praise. 60 cents a box, all dealers, or Edmandson, Bates & Co., Limited, Toronto.

WOMAN'S MOST SUCCESSFUL MEDICINE

Known All Over The World—Known Only For The Good It Has Done.

We know of no other medicine which has been so successful in relieving the suffering of women, or received so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In nearly every community you will find women who have been restored to health by this famous medicine. Almost every woman you meet knows of the great good it has been doing among suffering women for the past 30 years.

Fox Creek, N. B.—'I have always had pains in the abdomen and a weakness there and often after meals a soreness in my stomach. Lydia E. Pinkham's Vegetable Compound has done me much good. I am stronger, digestion is better and I can work with ambition. I have encouraged many mothers of families to take it as it is the best remedy in the world. You can publish this in the papers.'

'Mrs. WILLIAM S. BOURQUE, Fox Creek, N. B.'

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health, in which many openly state their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound, many of whom state that it has saved them from surgical operations.

SPORT

HOCKEY

Old Jack Frost has at last been good to the Brantford hockeyists, and to-night's intermediate fixture with London will be pulled off at the arena on schedule time. The ice is in good condition and everything points to a red hot contest, for a win for the locals will still keep them in the running, while a loss will put them out for keeps, and the locals are determined to be the team that will lower the hockey colors. The London Braves and their supporters will arrive at 8 o'clock on a special train, and the players will be conveyed to the rink in a bus, so that no delay will be caused in the commencement of the game. As to who will handle the bell has not yet been ascertained, as the clubs failed to agree on a referee and the O. H. A. secretary was called upon to appoint a man. The teams will line up as follows:

London—Goal, Wardrop; point, Borland; cover point, Granary; rover, McAvoy; centre, Reid; left wing, Gilles; right wing, Walden.

Brantford—Goal, Meyers; point, Plante or Woolams; cover, Tuck; rover, Watson; centre, Knight; Marlett; right, Jones or McMillan.

Puckering.

The gate receipts at the Tecumseh-Quebec game on Saturday night were nearly \$2500, which is the second largest of the season.

Quebec pros. re-remaining over in the Queen City for their game with the Torontos at the Arena tomorrow night. They are working out at the Arena and taking advantage of the hard ice.

The junior O. H. A. game between London and Watford, which was to have been played at London last night, was postponed, there having been no ice there for several days.

Queens University Intercollegiate team may be without the services of Bov, their clever centre man, for the next few games. In the game against McGill last Friday night he broke a thumb.

"Bad Joe" Hall of Quebec team who was suspended by President Junn of the N. H. A., for two weeks for unruly tactics, will be in the game against Torontos at the Toronto Arena to-morrow night.

The Guelph Victorias wired the O. H. A. headquarters yesterday that they were dropping out of the intermediate series. Last week at Paris the Vics, who aspired to senior company early in the season were beaten 30 goals to 1.

"We tried to get Fryer of Collingwood for the Torontos," said Bruce Ridpath last night. After watching his own goal three or four times "Riddy" was satisfied that the Torontos did not sign him.

Six-man hockey has been an utter failure in Toronto. The fans who have been clamoring for seven men and real hockey will have their wishes gratified in about ten days, the N.H.A. has seen its mistake and will revert to seven-man teams as demanded by the people who "pay the fiddler."

Boston Journal—I will give the Toronto University hockey players all the credit due them without any excuses. They outplayed our best local team in a manner that was amazing to the local fans, and accomplished this stunt by superior hockey playing and clean work. May they come here again.

BASEBALL

The London Baseball club will hold its annual meeting on Friday night of this week.

Joe Joe Keenan, the new manager of the Berlin club, will make an effort to gather together a team of young players for this year.

Carl Lundgren, former Toronto pitcher, may manage the Keokuk, Iowa, club this season.

Jake Gettman's injured knee is as good as ever, according to a letter received by Manager Dunn of the Baltimore club from the veteran outfielder.

Ward and Spencer of the Rochester club will probably be sold before the 1913 season opens. The former may go to Montreal and the latter to Sacramento.

"Baron" Fischer, a member of the Leafs' catching staff early last season, and who was drafted by the Brooklyn club of the National League, has signed his 1913 contract with the Dodgers.

Manager Mike Kelly of the Indianapolis club was in hopes of securing Beals Becker from the Giants when George Stallings of Boston put in a claim for the player. The Toronto club also had an eye on Becker.

The unique office of inspector of salaries was created in the Three-L league, when J. M. Boyle of the Danville club was appointed to that position. The object is to have the salary limit enforced. Boyle will also be assistant to President Tierney of the league.

Five New York American veterans are already in line for the coming season. In addition to the veterans whose contract was renewed about ten days ago, Frank Farrell, has signed Russell Ford, Harry Wolter, Jack Lelivelt and Bert Daniels.

THE TURF

London Purchased New Course.

LONDON, Ont., Jan. 20.—It was rumored here to-day that a mile racetrack would be built in the east end, by the London Jockey Club, which obtained a charter a few years ago. The site said to have been chosen is the Harris farm of 75 acres, near the asylum, for which the price was \$15,000.

New Track for Toronto.

TORONTO, Jan. 21.—Toronto horsemen were tipped off yesterday that Davies charter for a running track at Thorncliffe was to be put into operation with two seven-day racing meetings this summer.

Mr. Davies is off to the West Indies with Chas. Miller, but it is stated that before he left, arrangements had been made for the present three-quarter mile track at Thorncliffe, to be extended to a mile one, and for a grand stand to be erected in time for a summer meeting.

Bookmaking of the old order will, it is understood, be the method of operation.

With the Woodbine, Hillcrest and Dufferin Park meetings, Thorncliffe will make a Toronto season of eight weeks jockey races.

The charter was granted to Robt. Davies and his associates shortly after the Hon. J. C. Doherty became minister of justice.

THE RIFLE.

The second Miniature Rifle Match of the Cadet Rifle Association, was fired at the B. C. I. ranges yesterday. The weather being almost impossible for shooting, consequently the first team dropped over 100 points below their score of last year. The points scored by the Cadets were as follows:

First Team—Lt. Burt 95; Capt. Genet 93, Cadet Neill, Cadet Pearce 90; Cadet Howard 90; Cadet Thomas 89; Cadet Bennett 87; Cadet Lake 84; Cadet Pattan 83; Cadet Sanderson 81. Total 884.

Second Team—Cadet McDonald 81; Cadet Chapman 80; Corp. Andrews 79; Cadet Matthews 79; Cadet J. Matthews 79; Cadet Weir 79; Cadet Kew 79; Cadet Luck 77; Cadet Ryerson 77; Cadet Rock 77. Total, 786.

Third Team—Cadet Simpson 76; Cadet Graham 76; Cadet Carling 76; Cadet Knowles 73; Cadet Ryan 72; Cadet McIntyre 71; Cadet Deagle 70; Sergt. Peckey 70; Cadet Waterous 70; Corp. Palmer 69. Total 712.

The special prizes offered by the association were won by the first man in each team, namely Lieut. Burt, Cadet Simpson, Cadet McDonald.

THE THIBETAN TEA.

It Forms an Almost Indispensable Part of His Daily Fare.

Father Hue, the missionary and explorer of the high mountains or more ago, depicts in his delightful book "Avalanches" of laden yaks pouring down the mountain sides. The early critic pronounced this very amusing, but to be taken merely as a picturesque relief to what the worthy priest feared would be a dull narrative. Nevertheless, it is now known to be quite true. Yaks still make the gissade on the icy passes when carrying tea over the mountains from China to the interior of Tibet. The Thibetan tea has been known to be his mainstay—his life. The nomads of these lofty plains have absolutely no crops. They have no pigs nor fowls, and their only source of food is their flocks of goats and sheep furnish them with meat, which they eat fairly often, and with milk, cream, and especially butter, which they consume in astonishing quantities. The national dish, indeed, is a sort of gruel made by boiling parched barley meal and mixing into it as it cooks a goodly proportion of buttered tea.

All the tea and most of the barley used in Thibet comes from China, and nearly all by a single road which leads across the rough mountains of Sze-Chuan. It is the best road in western China because most traveled and cared for; yet on the mountain passes—one ten thousand feet high—the tea-carriers in winter must wear climbing-irons, and pack horses descend mostly by falling on the glairy trail and rolling and gliding, load and all, until they bring up gently in loose snow at the bottom. The Thibetan yaks know better. They sit down on their haunches, as Hue tells us, and skillfully slide.

This practice of sitting down is traversed by an endless stream of porters carrying bales of tea west and bales of skins, etc., eastward—bales which frequently weigh three hundred pounds. They are not so much afraid of their caste, and will not allow any horse to be bred or used on the fertile plain of the Min River, near the border of Sze-Chuan, as far as the great lake Kokonor. All the nomads know of its coming, and at each halting place families assemble from far and near to buy a year's supply of tea in exchange for goatskins, yak hair, etc. These traveling merchants (Chinese) are in no danger from the tribes through which they regularly pass, to whose chiefs tribute is paid, but are as likely as any other caravan to be robbed by outsiders, so that military precautions must surround every movement, since nowhere on earth is society composed so wholly of Ishmaelites as that of eastern Thibet.

THE JAPANESE LANGUAGE.

The Japanese language has some features which are peculiar in its use. In English when one has learned the name for rice that ends it. Not so in Japan. Begin with cooked rice, and you will find it is called "mama." In speaking to another person of eating rice you call it "gozen." As a merchant sells it, uncooked, he says "mama," and in the field it is "mama." So a carpenter's tool, or shaku, is about twelve inches, but a tailor's is fifteen. A kin or pound of tea is fourteen ounces, and a flour twenty-one, of sugar over thirty. The ri, or mile, varies in different provinces, and on the Fusuyama ascent had a ri in twelve miles because it's so much harder work going uphill.

Pretty Cool.

"Was it cool where you spent your vacation?"

"Cool," I should say it was. I was obliged to go to town for a few days and returned unexpectedly. I met the old farmer coming down the road wearing one of my shirts and using my pants to drive home the cows. One of his sons had gone to the village with my best suit of clothes on, and the oldest daughter was straining jelly through my white muslin coat.

"When they saw me they seemed a bit surprised, but all they said was: 'We hadn't been expectin' yer hum so soon. It was certainly the coolest family I ever struck.'"

Mozart's Quick Work.

On one occasion Mozart was making merry with his friends at midnight when not a single note was written of the overture to "Don Giovanni," which was to be produced on the following morning. Awakening refreshed, he set to work on the overture, dashing off sheet after sheet with incredible rapidity and dispatching them to the copyists. The opera was to begin at 7 in the evening, and a few minutes after that hour Mozart was in his place as conductor, baton in hand, while the parts with the ink still wet on some of them were being handed to the orchestra.

A WOMAN'S WISDOM.

The worried mother wakes up to hear her baby's heavy breathing—a little cough—perhaps the trouble does not amount to much. Finally she thinks of the doctor when perhaps the trouble has become serious. She does not want to send for the doctor when perhaps the trouble has become serious. She does not want to send for the doctor when perhaps the trouble has become serious.

Before the doctor came to our house I was a very sick woman. I wrote you for advice which was kindly given and which made me a different woman in a short time. After taking the first bottle of Favorite Prescription I began improving so that I hardly knew I was in such a condition. I did my own housework—washing and ironing, cooking, sewing, and the work of all nursed three children who had whooping cough. I hardly knew of the advent ten minutes before—so easy was it. The baby is as fat as a butterball. Dr. Pierce's Favorite Prescription is the best medicine for any woman to take when in this condition. I recommend it to all my friends.

My desire is to write a few lines to let you know what your valuable medicine has done for me. writes Mrs. MARGARET ZIEBICH, of 328 S. Benton Street, Baltimore, Md. "Before the doctor came to our house I was a very sick woman. I wrote you for advice which was kindly given and which made me a different woman in a short time. Sealed tenders addressed to the undersigned, and endorsed "Tender for Public Buildings, Brantford, Ont.," will be received at this office until 4:00 p.m. on Monday, February 3, 1913, for the work mentioned.

Plans, specifications and form of contract can be seen at the office of Mr. Thomas Hastings, Clerk of Works, Post Office Station "E," Yonge St., Toronto, at the Post Office, Brantford, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms stipulated and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary,

TURKISH

Has Agreed to the Proposal of Peace—Hostilities Resumed as Practice

(Courier Leased Wire)

PARIS, Jan. 22.—Special despatches from both Constantinople and London agree that Turkey is on the eve of acceding to the advice of the powers as formulated in the note of Jan. 17. A despatch to The Matin from Constantinople says that Turkish Pasha, the Turkish ambassador at St. Petersburg, has communicated to the Porte declarations made to him by M. Sazonoff, the Russian Foreign Minister, who strongly urged that Turkey give way at once. If Turkey dragged out the pour parlars, he pointed out, she would endanger the political situation in Europe and Russia above all desirous of consolidating the situation would find herself obliged to compel Turkey to give in by occupying the vilayets of Van, Erzerum and Trebizond and entering the straits. The Russian Government, he added, could not resist public opinion and demanded an immediate answer.

The Russian ambassador, M. Degeers had made similar representation to Kiamil Pasha at Constantinople. M. Bompard, the French ambassador to Turkey has advised the Premier to comply with Russia's suggestion.
