## BOY SCOUT WORK IN WOLFVILLE

Scoutmaster Brown Tenders Resignation to Regret of All

An important meeting of the Boy Scout Council was held in the school-room of St. Andrew's church on Wednesday evening. The president, Dr. W. L. Archibald, presided, and in the absence of the secretary, Mr. H. A. Peck, the records were kept by Mr. C. A. Patrinquin.

The financial statement for the year was presented and the treasurer was asked to submit a more complete report suitable for publication at an adjourned meeting to be held later.

An interesting report of Scout activities, which included the trip to Chester, was presented by the Scoutmaster, who also gave valuable suggestions concerning the work. A regrettable feature of the report was the intimation that he found it necessary for him to tender his resignation and give up the direction of the Boy Scout work here which he has carried on with such splendid results for many years back.

A number of those present spoke appreciatively of Mr. Brown's efforts in behalf of the youth of this section and the fine results that had been secured. Hope was expressed that he might be induced to reconsider his decision and a strong committee was appointed to canvass the matter thoroughly and endeavor to provide some solution, as it was deemed impossible to effectively "carry on" without Mr. Brown's assistance.

When this committee is ready to report another meeting will be held at which it is to be hoped it may be arranged to continue the work without interruption.

Fitting reference was made to the death of the late Capt. John Pratt, who during his residence in Wolfville was a valued member of the Boy Scout Council and untiring in his efforts to promote the welfare of the young life of the community. It was resolved that a suitable reference be made in the records to the loss sustained by the Council in his death and that a letter of sympathy be forwarded by the secretary to the widow and family of Capt. Pratt.

## WOLFVILLE FIRE AND PROTECTION COMPANY

There were a number of the members of the fire company present at the meeting on Monday evening and these were unanimous in approving of the proposal to re-organize and recruit the membership and put the company on a more efficient standing. A number of the citizens most of whom were former firemen were also present, including Councillors Peck and Whidden, the former being chairman of the Fire Committee in the Town Council.

Mr. E. W. Eagles was elected chairman and Councillor Peck acted as secretary on the request of the meeting.

A committee composed of Messrs. Aubrey Dakin, Councillor A. M. Wheaton and Fire Chief H. E. Fraser was appointed to ascertain the names of those who are willing to become members of the company from a list hastily prepared at the meeting and report later with the object of revising the membership.

On motion it was decided that the annual meeting of the company be held this (Friday) evening at the Town Hall at 8 o'clock and that all the members on the present list be duly notified. At this meeting the officers for the coming year will be elected and arrangements made for the establishment of a strong fire-fighting organization that will effectively guard the town against fire at all times.

## APPLE PRICES DOWN ON BRITISH MARKET

There has been no improvement in the English apple market, in fact, if anything prices are somewhat lower. The "Manchester Regiment" sold in Manchester, Oct. 3rd, No. 1 Gravensteins bringing 15/15/9, No. 2's 13/15; Dom. 12/14; Wealthies and Wolf Rivers 16/18 for No. 1's, No. 2's, 15/16, Domestics 13/14; Blenheim 15/16 for No. 1's, No. 2's 12/15, Domestics 12/13. The Sachem sold in Liverpool on October 3rd No. 1 Gravensteins bringing 12/15, No. 2's 12/14, Domestics 10/12, No. 3's 8/9/3; Blenheim No. 1's, 14/15. These prices would net back to the shippers around 85c. per bbl. for No. 1's and No. 2's, Domestics and No. 3's would hardly pay their freight and expenses.

The prospect for winter fruit at the present time does not look good. The majority of firms in England do not expect to see anything much over a 20c. market for No. 1's and No. 2's. 20c. would just about return \$2.00 a bbl. for No. 1's and No. 2's. It seems too bad that with the excellent quality of our fruit this season the prospects for good prices are not more encouraging.

## DEATH OF LATE MINISTER

Hon. J. A. Stewart, former Minister of Railways, died at the Royal Victoria Hospital, Montreal, on Saturday afternoon, after a prolonged illness.

## SUCCESSFUL EXHIBITION AT ANNAPOLIS

The Annapolis, Kings and Hants Counties Exhibition held at Annapolis Royal last week was one of the best agricultural shows ever held in this province. The display of fruit was especially fine and it is doubtful if a better exhibition of fruit was ever shown outside the Imperial Fruit Show at London and the New York State apple show. The displays and prize winners were evenly divided between the three counties.

George H. Vroom, judge of the fruit, found it hard to make the decisions. In addition to the fruit there were splendid displays of vegetables, flowers, poultry and cattle. There was a good attendance each day, over three thousand persons being present on Thursday.

J. W. Williams had seven entries of White Wyandots and took seven prizes,—1st cock, 1st hen, 1st cockerel, 1st and 2nd pullet, 1st pen and 1st pen of fat chickens.

Mrs. J. Elliot Smith took a number of prizes with her flowers. She got first prizes for basket of petunias, basket of roses and basket of mixed flowers. She got first and second prizes for twelve varieties of apples, and 2nd prize for butter.

Miss Susie Chase, of Church Street, took first prize for the best collection of ten varieties and also for the best collection of five varieties. Miss Chase also won prizes with vegetables and flowers.

Mr. and Mrs. H. D. Johnson were also among the successful prize winners. Mrs. Johnson won a number of prizes with her flowers including first prizes for collections of annuals, cultivated flowers, asters and pansies. Mr. Johnson won first prizes for seedling apples and collection of pears, and a number of other prizes for apples and plums.

Other prize winners in this vicinity were Percy Beanson and J. A. Dunn, of Port Williams, who took prizes in vegetables.

## ST. GEORGE'S LODGE VISITED

St. George's Lodge, A. F. & A. M., was officially visited by Mr. J. H. Winfield, of Halifax, Master of the Grand Lodge of Nova Scotia, on Oct. 6th. He was accompanied by J. C. Jones, Grand Secretary, and D. D. G. M. Watson.

The party stayed at the Acadia Villa Hotel and spent the day in town. Prof. W. A. Coit, Master of St. George's Lodge, and other officers did everything to make the visit of these officials a pleasant and profitable one.

A large number of the craft gathered in the Lodge room in the evening to welcome and do honour to the officers of Grand Lodge. In this pleasant duty they were ably assisted by brethren from Kentville and other places. Addresses were given by the officers of Grand Lodge and the craft was reminded of the high ideals of Masonry. Fitting replies were given by W. M. Coit and others, after which bountiful refreshments were served and a social hour enjoyed.

## CLINIC ITEMS

Dental Clinic at Kentville Academy, Friday, October 20.

Dirt begets dirt, and if you would have for your children, sound healthy bodies, rosy cheeks sparkling eyes, abundant animal spirits and alert minds, you must begin with their mouths and keep them in a sweet, clean, wholesome condition. Disease is a dread thing, and we are well afraid of it. The diseases which afflict children come mostly through the mouth; and one of the best reasons why the mouth should be kept absolutely clean. Among these diseases I might mention Tuberculosis, Pneumonia, Influenza, Grippe, Diphtheria, Measles, Scarlet Fever, Mumps and many others.—Katherine F. Hollis, Columbia University, New York.

## GOLF TOURNAMENT

By Members of Ken-Wo Country Club Great Success

The first annual golf tournament at the Ken-Wo Country Club, held Sept. 27 to 29, proved to be a great success. There were a good number of contestants and the different events were witnessed by a large number of members and friends. The last evening a dance was held at the Club house, which was well attended, and all appreciated the new hard wood floor which was recently laid. The following were the winners in the different events of the tournament:

## WOLFVILLE'S MEMORIAL

Notice has been received that the bronze figure to be placed on Wolfville's Memorial has been shipped. Steps to secure forward shipment must be taken by the Bill of Lading. It is very necessary therefore that the full amount pledged shall have been contributed upon its arrival. All those who have not forwarded such amounts are requested to do so at the earliest possible date. A further amount of \$50 is required to cover expenses of erection. Those wishing to contribute towards this fund kindly forward donations to the undersigned.

PAUL W. DAVIDSON,  
Secretary G. W. V. A. Memorial Committee

## "MAN TO MAN"

A tremendous drama of adventure and romance in the Far West. The story of an outcast who fell heir to the broad ranges of his father's ranch, and who came back from the Land of the Forgotten to wrest it from its enemies—and who fell in love with the sweetest girl you ever saw. A drama of stirring events from beginning to end—whirlwind action, engrossing suspense, appealing romance and dramatic situations. In short, a fitting picturization of Jack Gregory's world-famous novel. Shown in Opera House, October 23-24.

## SCHOOL BOARD

Principal Silver Reported Attendance Improved

The regular meeting of the School Board which did not take place this month at the appointed time on account of the absence from town of some of the members was held on Monday evening with all present except Commissioner Bars. The matter of the seating of the new apartment for Grade 7 was considered and a sample desk and chair combined was examined by the members of the Board. While not deemed satisfactory for the purpose for which it is required it was decided to keep the sample for use elsewhere and secure thirty-five adjustable desks and chairs similar to those in use in the High School and fifteen tables and chairs. These latter are intended to be used in any of the rooms as required. The purchase was left in the hands of the chairman and secretary.

The selection of the new teacher for Grade 6 was left to a committee composed of the chairman and secretary and Principal Silver.

The following bills were read and ordered paid:

The Acadian	\$4.00
C. H. Wright	1.33
Electric Commission	6.00
Chronicle Publishing Co.	8.00
Herald Publishing Co.	6.00
J. D. Fraser	1.00

It was decided to make a payment of \$200 on the account of H. E. Fraser amounting to \$246.59 pending an adjustment of the amount due.

The application of the band for the use of the west room in the old school building as a place to hold their practices was received and freely granted.

Principal Silver reported the attendance at the school considerably improved, fifteen of the twenty-four absentees reported at the first of the term now attending regularly.

A hearty vote of thanks was tendered Mrs. R. E. Burgess and family for the donation of 160 volumes to the school library.

The Board authorized the procuring of a number of records of suitable marches for use on the gramophone in Mrs. Davison's department.

## CASPEREAU NEWS

We are very sorry to report Mr. John Gertridge being sick with blood-poison in his hand. His many friends wish him a speedy recovery.

## ACADIA ACADEMY LOSES TO KINGS

In Second Game of Series—Score 11 to 3

The first football game of the season in Wolfville was played on the Campus last Saturday afternoon when the Kings Collegiate team played their return game with the Acadia Academy juniors, in the Herald and Mail High School League. The Acadia boys made a better showing than in their previous game but were no match for their more experienced opponents. The score was 11 to 3 in favor of Kings.

Immediately the ball was kicked off, the King's team got under way and before long they had scored a try, which they failed to convert. On a free kick, Porter, of A. C. A., sent a beautiful drop over the bars, giving his team its only score. Soon afterward another try was scored by King's leaving the score at 6-3 at the end of the first period.

In the second period the play was fast, and after several futile attempts King's broke through and scored a third try, which was immediately converted. After

fast play in which neither side scored, the game ended, giving Kings Collegiate School her second victory over Acadia Academy.

The line up was as follows:  
Kings—Barker, fullback; Pamenter, Preston, Fraser, Jones, halves; Wickwire, Moulton, quarters; Herman, Oylar, Paterson, D. Jakeman, K. Jakeman, Hope, Deering, Locke, forwards.

Acadia—Porter, fullback; McCallum, Retty, VanBuskirk, Copeland, halves; Himmelman, Starratt, Chipman, quarters; O. Harrison, Pratt, Theall, Irving, Kee, forwards.

## NORTH GRAND PRE NOTES

Mr. Kenneth Palmeter has returned to New York for the winter.

Mrs. deYoung, of Halifax, is visiting Mrs. Maurice Dimock.

Mr. D. N. Stevens of Halifax, spent a day here recently, a guest of Mr. Harry Palmeter.

Mr. and Mrs. Robert Haines, of Miller Creek, spent last week-end visiting Mr. Fred Sanford.

## WOLFVILLE WILL HAVE BAND

Undertaking Successfully Launched at Meeting Held Last Friday Evening

A goodly number of citizens interested in the organization of a town band assembled at the office of Woodman & Co. last Friday evening. Mr. H. W. Phinney was elected chairman and Mr. O. H. Fosha secretary of the meeting and a thorough discussion of the situation ensued. It was finally decided that immediate steps be taken to organize a band and those present pledged themselves for the necessary financial assistance. Dr. J. T. Roach was elected president, Mr. Percy Porter, vice president, and Mr. O. H. Fosha secretary-treasurer. Various committees were appointed to look after the necessary details of the organization.

A considerable number of instruments are already available and others necessary to constitute a well equipped band will be at once provided.

Mr. Phinney, who has rendered splendid service during the past two years in training the boys of the town in band music, will be the leader of the new organization and about a dozen of his pupils will form the nucleus around which the new band will be constructed. To these will be added eighteen or twenty men of the town many of whom have had experience in band work.

The new instruments will be secured through N. H. Phinney Limited who have very kindly offered to supply them at the wholesale price and this will be of great advantage and saving to the band.

All the available instruments, thirty in number, including those now ordered, have been assigned, but if there are other players who would like to start with the new band and purchase their own instruments they will be able to secure them at the same prices.

The School Board has granted the free use of a room in the old school for the use of the band and we feel confident that the citizens generally will gladly do all in their power to promote the interests of the new undertaking the existence of which means so much to the community.

## REMARKABLE ATTITUDE OF FRANCE

(From the Halifax Herald)

The part which French leaders have played in the problems of the Near East are mystifying to persons who watched Britain and France go hand in hand through the deluge of blood of 1914-1918 and who had come to the conclusion that there would be a permanent alliance between the two nations. The secrets, the uncertainties, and the surprises of European ambitions, motives and diplomacy to the uninitiated appear at times to be past finding out. And a great many are no doubt wondering why France—the ally of Britain in the fight for freedom and civilization against Germany, Austria and Turkey—should now be found taking the Turk to her bosom and turning her back upon the nation that saved her from annihilation.

Having joined with Britain and Italy in the policy of neutral water between the Mediterranean and the Black Sea, insisting that the Turk should not again fortify or dominate that important avenue of commerce, France broke faith by entering into a secret agreement with Mustapha Kemal Pasha, and later has been supporting that enemy of world peace in his arrogant demands for restoration of Thrace and Constantinople and incidentally control of the Dardanelles and Sea of Marmora.

A notable contribution to the complex situation is the communication of Bonar Law through the British press which is said to express the views of at least some of the members of the British Government. In effect it serves notice on France that if she intends to desert Britain on this occasion Britain may consider it advisable to withdraw her forces from the German frontier and leave France alone to fight out her quarrels with Germany. The Entente would come to an end. France cannot expect to have Britain both coming and going. And if she prefers the friendship of Kemal Pasha to that of Britain, she cannot complain if the latter looks elsewhere for allies.

Evidently she is jealous of the strength which Britain has displayed at the Dardanelles. She is unwilling to join in the demonstration—having made secret engagements with the Turkish leader—and she is opposed to Britain becoming the sole dominating power at so important a strategic position. Of one thing we may be sure—Britain is forbearing and generous—but she will not be played for a pawn by France.

In last week's issue we stated that E.C. Griffin, of Port Williams, came in tenth place in the Nova Scotia Egg Laying Contest. We have since found that his pen took ninth place.

## AGAIN WINNER OF THE N. S. FISHERMEN'S RACE

Capt. Angus Walters' big, handsome "Bluenose" is again Queen of the Nova Scotia Fishing Fleet, having been conceded the winner of the elimination races held off Halifax on Saturday and Monday. Four vessels competed, the Bluenose, Malaska and Margaret K. Smith, and they finished in that order in Saturday's race. On account of lack of wind the second race on Monday was unable to be finished in the time allowed. The same thing occurred on Tuesday, so the committee in charge conceded the championship to the "Bluenose", and their decision was agreed to by the captains of the other vessels. The "Bluenose" left on Wednesday for Gloucester where she will sail in the International Race on Oct. 21st, and try to regain the trophy won from her last year by the schooner "Elsie".

## USING THE NEWSPAPERS

C. H. Sawle, editor of the Omicron Herald, says that a newspaper, whether weekly or a daily, is regarded as the one institution in the world which continues to draw manna from Heaven, and thus exists purely for philanthropic purposes.

Owners of newspapers discovered some years ago that the crop of manna was a failure and that there was no seed for further sowing. In other words the press was so put in the brow-sweating class. In recent years the press has endeavored to impress upon the public the difference between advertising and news. Some success has been achieved, but nothing like general success.

Every person, every business and every institution loves publicity favorable, but there are countless thousands who still ask for free publicity. The general public cannot conceive the number of requests for free advertising that the weekly press receives each week, not only from local sources, but from governments, political parties, manufacturers, corporations of all kinds, most lawyers, and wild-catters.

The press asks only for fair consideration. When money is to be made through publicity that is advertising, then the press is entitled to be paid for its services.

There are two classes of free advertising seekers, viz., the possessors or representatives of wealth who figure that their own estimate of their own importance will overawe the press; the next big class is the timid who have no faith in themselves, ideas, wares or products but hope to ride in at the expense of somebody else. Both classes are finding the press is no longer conducted without a cost system.

The fair, square, open and above board advertisers find the news columns of the press always open to them, in fact, the press goes out of its way to advance their interests.

One of the greatest pleasures the press has is advancing the interests of individuals, corporations or institutions. But the press is a business and there are certain things money is needed for, such as wages, overhead, living expenses, and then of course there are taxes—strange isn't it? Yet many had an idea the press lived by good deeds alone. The Herald tells you that running a paper is no Garden of Eden existence.

And so does THE ACADIAN.

Minard's Liniment: Lumberman's Friend.

## WHY NOT PAY THE FIRE-MEN

While the question of fire protection and fire brigades is still uppermost in the minds of the citizens of Wolfville, the present is an opportune time to put forward the suggestion that some method of remuneration be inaugurated in regard to the men who form that necessary adjunct in every community, the volunteer fire brigade.

These men who are in every sense of the word public-spirited citizens, have to make considerable sacrifices in that capacity, practices in the evening taking up a certain amount of their time, added to which is the liability to be called to a fire at any hour of the day or night and having to undergo hot, hard, dangerous work. In addition to possibly losing some good working hours, they have to take the chance of having clothes and boots ruined, the expense of which they have to stand themselves.

As a general rule these men receive little or no recognition for what they do, certainly nothing of a tangible nature, and it would be a good thing to pay them a certain small sum for each practice they attend and a further sum for each fire they are called upon to fight. This would undoubtedly lead to greater efficiency in the brigade and consequently a reduction of the fire hazard, as the members would have some incentive to belong to the force, beyond a sense of civic duty which as a rule, is only possessed by a few willing workers in a town.

Some payment is certainly due to these men, and believing that it will benefit every person in the community, THE ACADIAN thinks that the matter should be seriously considered by the authorities.

## BAD BLOW TO NOVA SCOTIA

The Nova Scotia fishermen, particularly those in mackereling, are hard hit by the new United States tariff, which went into effect recently and which includes heavy duties on fish imported into American ports from Canada. As a result of this tariff the fishermen will receive five cents a piece less for each mackerel, and this is a big drop.

The new duties on fish are very high, and as usual it hits right at the Nova Scotia fishermen, who depend on the American markets for good prices for their mackerel are shipped into Boston from Nova Scotia ports every year and when the price on each one declines five cents it is a serious matter for the fishermen.

## ROBERT STEAD'S GREATEST BOOK

"Neighbours" is Nearer the Heart of Canada than Any Other of Famous Canadian Author's Books

You will never have to ask that question, "What is Canadian literature?" again when you have read Robert Stead's latest and, so far, his greatest novel, "Neighbours".

There are few Canadians who are not familiar with this author's former novels, "The Homesteaders", "The Cowpuncher" and "Dennison Grant". This new book runs true to the Stead tradition of a good story, real humour, pure love and a real idea—even some real mystery, and it has more of the real atmosphere of life in it, than any other which has come to us in a long while. It is true writing, and will add fresh laurels to the fame of this already well-beloved author.

"Neighbours" relates how two families of young people, brother and sister, neighbours, in a little Ontario town; neighbours, fifteen years later on adjoining homesteads in the Saskatchewan country, find life and love. Their stories run smoothly until a young Englishman settles in the community and upsets all expectations, including the reader's.

But the best part of "Neighbours" in my mind, and what makes it a great book, is the picture of the people who make up that far-scattered "Neighbourhood" of homesteads, Jake is the old villain who finds "locations" for the gullible newcomer; the "Sneezits" are a gaunt big-eyed Polak family, who live in a cave that the precious live-stock may have built shelter—and the widow, and the Scotch family—and the wedding! All of that is writing of the finest type, and places this Canadian book in high order among the best literature of to-day.

"NEIGHBOURS," a happy novel of the Northwest, by Robert Stead, Hodder & Stoughton, Toronto, \$1.75.

It's the car everybody wants because it is the best.

The unusual popularity of STUDEBAKER CARS is attended by the fact that the corporation enjoyed the biggest business in its history in 1921.

Notwithstanding the fact that the total number of all automobiles sold (except Ford) was 40 per cent. less than in 1920, the total aggregate of sales for the Studebaker cars was 20 per cent. greater than in 1920—and in Canada 64 per cent. greater than in 1920.

**PROVINCIAL W. C. T. U. CONVENTION**

The annual convention of the Nova Scotia Women's Christian Temperance Union was held at Halifax last week, on Tuesday, Wednesday and Thursday. Interesting public meetings were held each evening in St. Matthews church.

On Tuesday evening Mrs. Rogers conducted the devotional services preliminary to the program, and Rev. L. J. Donaldson gave the address of welcome.

Mrs. E. M. Murray, speaking on behalf of the branches of the Women's Christian Temperance Union in Halifax, of which there are three, reviewed her long associations with the work. She spoke specially of the Roberts Union, which was almost entirely wiped out in the Explosion, but which has arisen from the ashes and was again an effective force in the temperance work of the city. In urging for a clearer perspective of the work, Mrs. Murray took as her theme the refrain of Mr. Gilbert Hart's solo, "Take the dimness of my soul away."

Rev. Dr. Clark, of St. Matthew's, in that quiet sincerity which characterizes him as a speaker, welcomed the delegates to the church, and laid emphasis upon the results achieved by the temperance forces.

Rev. A. L. Huddleston, of the First Baptist Church; Dr. George J. Bond, of the Grafton Street Methodist Church; Dr. Clarence MacKinnon, of Pine Hill College, all paid eloquent tributes to the work of the Union in the past and sounded a clear call to duty for the future. Rev. Mr. Tandberg, of the Universalist Church, gave a number of intensely interesting personal reminiscences of Frances Willard.

Mrs. Stead, representing the Local Council of Women, gave an exceedingly interesting account of the work of that organization.

Mrs. Edgar Coffin, for a number of years a very active worker in the Floral Y's, gave a brief but most comprehensive account of the work of that branch of the organization.

The programme concluded with the President's address. Mrs. Powers gave a very illuminating account of what the Women's Christian Union was doing throughout the Province of Nova Scotia, the very many activities of life it touched upon, and the wide ramifications of its work.

Wednesday evening's meeting opened with devotional services conducted by Mrs. Strothard, of Pictou, and Mrs. Morton, of Berwick. The speakers were Mr. and Mrs. H. P. Newcombe, of Canning.

Mr. Newcombe urged that steps be taken to procure Dominion wide prohibition. He reviewed step by step the progress which had been made throughout the Dominion in the Provincial arenas. The next fight, he said, would be in Manitoba, where the wet forces were endeavoring to secure a light wine and beer measure.

Mrs. Newcombe, on the theme of national building, described the great sacrifices of the late war as the first great permanent block in the national structure.

Yet despite all that had been done Canadians had not a national outlook—they were still provincial. To develop Canadian life Mrs. Newcombe looked to the school children. Therein lay the hope of the country. The future of Canada was as a nation of the British Commonwealth of nations. As a link of that great chain, could Canada best assert herself in the world.

The two features of Thursday evening's meeting were the brilliant organ recital by Professor Hollis Lindsay, and the graphic description of conditions in India by Miss Archibald, a Nova Scotia missionary in that part of the empire. Mrs. T. L. Covey, of Halifax, assisted Professor Lindsay with a delightfully rendered solo.

Mrs. Powers was the recipient of a beautiful bouquet of carnations in honor of the long service she had rendered the organization in Nova Scotia, Mrs. Powers having completed eleven years as President. In her reply she expressed the wish to hand over the reins of office to some one younger, in order, as she said, that the work might be more effectually carried on. In introducing Miss Archibald, Mrs. Powers referred to the far extended work of the Women's Christian Temperance Union. It was the largest, and in many respects the most powerful women's organization in the world. It was active in fifty countries and they included India where work was very active.

Miss Archibald, who was dressed in Indian costume, touched upon the vastness of the Indian Empire, as for instance if the message of temperance was to be preached in one village a day, it would take two thousand years before every place in India had heard the message.

She briefly described the political conditions, the unrest evidenced in some places against British rule, the union of political interests between Moslem and Hindoo, and the danger which at times threatened the British residents of the country. The problem was, which of the great religions, Hindoo, Moslem or Christian was to dominate India. With ninety per cent. of the men illiterate, and 98 per cent. of the women unable to read or write, the conditions in India were not yet fulfilled for an independent republic.

**SOCIAL SERVICE COUNCIL**

To the editor of THE ACADIAN.

Dear Mr. Editor:—Will you permit me through THE ACADIAN to call the attention of your readers to the existence in Kings County of a Social Service Council; a branch of the larger Social Service Council of Nova Scotia; which in its turn is part of the greater Social Service Council of Canada. Local Councils have been organized in Brwick, Canard, Canning, Kentville and Wolfville. These Councils are an approach to being a League of Churches, in that each Church is invited and entitled to representation by five delegates in its nearest Council. Other Organized Societies which have the roots of their being in the unselfish spirit of our common Christianity may send delegates in the same proportion as the churches.

The principles of the Social Service Councils are belief in Universal Righteousness; Social Justice; the highest good of all the People as the Ideal and test of Social Legislation; the Christianizing of all life. The programme they seek to accomplish at present is—

1. The promotion of Temperance Reform, Educative, Moral, Legislative.
2. Obedience to Law, special emphasis being placed upon Legislation affecting Social and Moral welfare.
3. The Reformation of the idle and vicious with provision for the care of inebriates, dependents, defectives and delinquents.
4. The welfare of the child and the home.
5. Wholesome amusement and recreation.
6. The application of Christian Principles to Industrial Relations.
7. Purity in Public Life.

The writer of this note is Secretary of one Local Council and Missionary Agent of the Council of Kings Co., and hereby makes an appeal to all members of Churches and Temperance Societies, to rally in support of our Probationary Law, morally and financially, and to set an example of Purity in the coming Municipal Elections. Our Law-makers have said that bribery is a wrong against our Country. A wrong which demands a penalty of \$40.00 or thirty days imprisonment for him who takes the bribe, and a fine of \$400.00 for the man who gives the bribe. Let then this county of Kings with its thousands of Church members, and its fine Temperance Record and strong Temperance Championship show ourselves worthy of our place in the national life of Canada and in the greater British Commonwealth.

ARTHUR HOCKIN

Five Hundred Million Letters and Postcards Carried During a Year

Ottawa, Oct. 3.—More than five hundred million letters and postcards and some 350,000,000 newspapers are carried through the Canadian mails in the course of a year's business, according to figures presented by the Post Office Department to the conference of postal officials. In addition, 50,000,000 parcels and 250,000,000 circulars, etc., are handled. The statement giving approximate figures for a year's business showed, in the course of twelve months, 10,000,000 money orders and 6,000,000 postal notes are issued. There are 12,200 post offices operated and 12,400 mail routes.

The summary of a year's business was given to the local postal officials as indicative of the place of the post office in the business life of the Dominion. Translated into dollars, the mail service expenditure for a year was stated to be \$15,000,000 and the annual cost of rural delivery service \$2,750,000.

Postage stamp sales in the course of a year, it was pointed out, reached the enormous total of \$28,350,000 while money order transactions entailed the changing hands of \$270,000,000. Postal note transactions totalled \$25,000,000 and there was on deposit in post office savings banks approximately \$2,000,000.

**It's Better to Enjoy a Chat Than Read a Letter**

You may not be a gifted letter writer, in which case writing letters is a weariness of the flesh to you.

On the other hand, you may have the gift of writing letters. Even in that case, however, you don't enjoy writing them by routine and under compulsion, do you?

But with your boy or girl off again to college or to business in the distant town "wanting to hear" from you on a given day each week, you seem to be under a pretty insistent routine and a fairly effective compulsion to write letters.

Why shouldn't you, gifted or not, evade that routine and that compulsion?

Instead of writing, go to your Telephone and call up your boy or girl once a week over the Long Distance Lines.

You'll give and take more in a few minutes telephone chat than could be covered by half a dozen letters.

You'll find the rates very moderate, too especially after 8.30 in the evening.

Mr. Harvey Crowell, of Milwaukee, recently visited his brother Mr. Seth Crowell.

Mr. Harris Forsythe returned home the first of last week, after a few days trip to Boston and other places.

Mr. Charlie Fenwick is again in the Canadian West for a time, having gone on the Harvest excursion.

Mr. Charles Merry visited a few days last week with old time friends in Kentville.

Laura and Betty Marshall, little daughters of Mr. and Mrs. H. H. Marshall, who have been spending the summer here with their aunt, recently left in company with a friend, to join their parents at Colorado Springs. Mr. Marshall has improved in health during the past year spent there.

Mrs. John Fenwick is visiting Mr. and Mrs. Andrew Fenwick.

Mrs. Maurice Williams, of Halifax, spent one day last week with her mother, Mrs. Emma Harvey.

A "sing" was enjoyed last Sunday evening by a good number at the home of Mr. and Mrs. George L. Bishop.

Miss Isabelle Hawley returned on Monday from a weeks visit with her friend, Miss M. Haley, Wolfville.

Grace Pudsey entertained her teacher and a number of her school mates very pleasantly on Monday evening at her home, in honor of her birthday.

We are pleased to know Miss Lillian Bishop, who kindly took the so called "task" of collecting for the Blind School a few weeks ago in our community, did so well, and our community also did well.

Our plumber, Mr. Byron L. Cox, and assistants, recently installed in the home of Mr. and Mrs. George L. Bishop, a new pipeless furnace.

No service in Methodist Church here last Sunday, but it is expected Rev. Mr. Hemmeon will resume his usual appointments next Sunday. A new furnace is being installed in the church.

We notice in the list of prize winners for our school exhibition in last weeks ACADIAN, one of our little girls who won a first prize was given as Loren, instead of Lorna Bishop, as it should read. Our school carried off many of the second and third prizes also a share of the special prizes, the names of which were not published but a credit to each child. We have been pleased to note the success of Exhibitions held at two other places nearby for schools, the last two or three years but we are proud to know ours was the first for two or three years in the county and we trust our committees can continue this grand work in our schools.

Plans for Hallowe'en are already being made by the children of the place who enjoy the evening each year.

**HYMENEAL**

**CLEVELAND-COLDWELL.**

An interesting wedding took place last week in St. Johns Church, when Miss Evelyn Coldwell, daughter of Mr. and Mrs. Ernest Coldwell, was united in the bonds of matrimony to Mr. C. C. Cleveland, of Campbellton, N. B., by the rector, Rev. R. F. Dixon, who christened the bride as an infant shortly after his appointment to the parish. The bride, who looked charming in her travelling suit, was attended by Miss Genesta Coolen, of Hubbards, as bridesmaid, the groom by Mr. Clarence Coldwell, brother of the bride, who was given away by her father. The choir sang the well known wedding hymn, "The voice that breathed o'er Eden", and Mr. Maneely, the organist, rendered several selections.

The young couple left the following morning for Campbellton where they will reside. Mrs. Cleveland will be greatly missed by her many young friends in Wolfville and many good wishes follow her to her new home.

**AN ACCOMPLISHED GIRL**

"This is a nice canoe, isn't it, Maude?" said the tall, dark young man.

"Very nice, indeed, Charlie," replied the pretty girl sitting in the stern.

"There's just one objection to it," said the young man.

"Indeed! And what is that?" asked the girl.

"Oh, well, you see, if you try to kiss a girl in this canoe there's great danger of upsetting it, and then both the fellow and the girl would be thrown into the river."

"Oh, indeed," said the girl reflectively. And she sat silent for a while.

At length she remarked softly: "Charlie, I can swim."

The Fall term of the Supreme Court has been in session at Kentville this week with Mr. Justice Ritchie presiding. The docket was a lengthy one including three criminal cases which were thrown out by the Grand Jury, no bill being found. One of these was that of The King vs. Fred Russell and Fred Eagles in connection with the robbery at Acadia Seminary last spring, sent up for trial from the Wolfville court. The legal talent in attendance included Messrs. Withrow, Blauvelt and Nowlan, all of whom had cases on the docket.

This portion of Nova Scotia was visited by a very heavy rainfall on Tuesday night and considerable damage was done to the avenues leading up the hill. There was such a flood in the Gaspereau River that a new concrete pier recently built at the Power Plant was moved from its foundation. Two washouts occurred on the Dominion Atlantic Railway, one near Annapolis and the other at Paradise. Each washout was over twenty feet in length and some hours were occupied in making repairs. The express from Yarmouth on Wednesday did not arrive until about 1.30 the next morning.

Advertising

The Fall Season is now here, and with it comes an earnest desire of every tradesman to do a bigger and better business than heretofore.

Do you want a bigger trade? Do you want the public of your neighborhood to respond eagerly to your appeal? Do you want an increased volume of business readily absorbed by a people you can call your own?

You do; then you must ADVERTISE.

This is the fundamental step to be taken in business, and wisely used, leads by a shorter and more economical way to a better trade.

Advertising cannot fail to stimulate the trade in any article or commodity which is sold at a fair price and gives satisfaction to the public. Call 217 and have us discuss a bigger business campaign with you.

Now is the time to learn to make "time exposures". It is not as difficult as some imagine.

We develop hundreds of "snaps" at this season that are N. G. on account of poor light. This discourages the user and away goes the Kodak to the shelf. Let us show you about "Time" exposure,—or try it yourself. A smaller opening on the lens, shutter on "T" or "B", some rigid support and as short an exposure as possible. Try it.

WHY DIAMONDS ARE CUT

A diamond is the hardest substance in nature, and cannot even be scratched except by another diamond, while some stones can be cut only with their own powder.

Yet the hardest of all can be cleft by a heavy blow delivered in the right direction; that is, parallel to the faces of the eight sides which its crystal shows. It is this property that permits the very large stones, such as the "Cullinan" diamond, to be worked.

In spite of this diamond has the simplest composition of all precious stones, for it is only crystallised carbon, and a near relation to ordinary graphite, usually called "blacklead".

But it has been formed by enormous pressure in the remotest depths of the earth's crust, and probably forced towards the surface by steam.

The principal forms into which a diamond is cut are:

Brilliant, with an octagonal face surrounded by many smaller facets.

Rose diamonds, with a flat base, above which are two rows of triangular facets the uppermost terminating in a point.

Table diamonds, which are thin stones cut with triangular facets.

What makes the diamond so precious is the presence of inward "fire"—the mysterious gleams of blue and red that change with every movement, and which make such an appeal to our sense of beauty.

The charm of precious stones lies in their brilliancy and lustre, the intensity of the latter depending upon the polish of the surface; for if the stone is dull or uneven the light is scattered and not reflected.

There are three different kinds of lustre, and the adamantite of the diamond is unequalled.

The only stones at all approaching it are zircon and the green garnet called "olivine". The lustre of all other stones is vitreous, such as is seen on the surface of broken glass. And the third type is that shown by resins.

In order to bring out the full beauty of a stone it must be cut in such a way that the facets reveal its splendor, and art of the lapidary rests upon his knowledge of what becomes of the light when it falls upon the stone; so he must understand the laws of reflection and refraction.

When the white light is refracted into a colorless stone it changes and is split up into a spectrum. Since the refractive index increases progressively as the wave length of the light decreases, a normal spectrum is violet at one end and passes through green and yellow to red at the other end; for instance, in the familiar rainbow. The width of the spectrum also varies, and it is this "dispersion" that determines the "fire".

It would be difficult to name any substance around which has been woven such a web of romance.

A CATCHY THING

I run across a puzzle in the paper, 't'other day, and though I never try 'em, I read 'em anyway. They get 'em up so artfully, to ketch a feller's eye,—with a premium fer the answer, if you want to make a try. . . . They put a string of letters, with a third of them left out, which all would spell a Statesman that we all had heard about. . . . By fillin' in the vacancies which they had hid away, I could earn a hundred dollars, which they'd be glad to pay.

I found it mighty easy to complete the statesman's name,—in fact, it was so easy I considered it a shame to take them fellers' money in an underhanded way—but I sent 'em in the answer, to see what they would say. . . . Well, they fired me back a circular, which said I guessed it right, but a hundred other fellers had beat me out of sight. . . . They said sech wondrous talent ort to make a feller rich,—an' offered me the agency of salve to cure the itch!

LEARN ABOUT THE FARMERS

Back of all legislation must stand united public opinion which is always to be trusted when the people have intelligent understanding. Most of our troubles come from imperfect knowledge and consequent lack of interest in public questions. For years this has been the case with the farmer whose situation and importance until lately has not been even measurably sensed. As soon as people generally in the cities as well as in the smaller communities come to realize how much of the nation's prosperity depends on the farm then the wheels of reform will begin to turn with rapidity, and all the people will benefit.

What a sad commentary it is upon our legislative intelligence when we realize that the income of each farm factory or "arm mine", whichever way we choose to visualize it, averages only \$2,793.

The province of government is to create prosperity, the greatest good for the greatest number, to harmonize the laws under which we live so that reward shall come to the people in relation to their service. There are in our cities thousands of high binders in the world of speculation who have never done an honest day's work in their lives, but who make often in a day and quite frequently in a week, as much if not more than the average farmer makes in a year. It is getting time for the public not only to seek information regarding the farmer, but to insist upon having it. When this demand is felt the information will be forthcoming, and when it is, equitable legislation for the farmer will lead a business development the like of which this country, great as it is, has never known.

THE COUNTRY NEWSPAPER

By Anne Campbell

An hour a week I give to memory, That's when the old home paper comes to me—

The only link that binds that life to this And brings back days that I try not to miss.

I read the personals and learn they made until lately has not been even measurably A right smart showing at the Ladies' Aid.

And I can taste again the home-made cake And spicy cookies mother used to make. I read with sorrow of the passing on Of some dear friend I loved in days now gone,

And someone's babe I held upon my knee Is married now! How old I've grown to be! I read the ads. and stroll with eager feet Down that familiar, shady, wide Main Street;

I see the windows of the Town Bazaar And nod at folks and ask them how they are.

The paper that the newsboy sells each day Is lots more clever, I am bound to say. This town's too big for them to pause to tell

That Mrs. Andy Currie's getting well. But just such items I am glad to see When the home paper comes each week to me.

Across the miles my lonely spirit wends To chat awhile with older, dearer friends!

THE FOOD VALUE OF DAIRY PRODUCTS

Milk and dairy products generally are of inestimable food value to the human race, and their comparatively moderate cost makes them accessible to practically every one. Further than that, the products of the dairy add immensely to the wealth of the country. It is a question if the people of Canada sufficiently appreciate either the economic value of the dairy industry to the country at large, or the food value of milk and its products to the individual. In Britain the consumption of cheese per capita greatly exceeds ours. In butter we do better; but in milk our consumption individually has been shown to be one quarter of a pint compared with half a pint per head in the United States. Since the advent of prohibition, however, United States consumption per capita has increased to three quarters of a pint, and there is evidence to show that Canadians are also taking a great deal more to the la teal fluid than former y.

The importance of milk in the diet of both young and old is constantly being emphasized by the medical profession. Malnutrition or undernourishment, it should be understood, is not always the result of insufficient food. This is supported by the fact that investigation has shown that a large percentage of under-nourished children are the offspring of well-to-do parents. The thoughtful mother will see that her children get plenty of milk from which to build a strong framework, develop mental capacity, and good health. Future happiness depends largely on these factors.

### HOW WOULD THIS WORK IN WOLFVILLE?

It is not pleasant and profitable to, always speak the plain truth in the columns of the newspaper. Men who have tried this heretofore have always come to grief. Only a few days ago the editor of a paper in Indiana grew tired of being called a liar, and said that he would publish the truth in the future, and the next issue contained the following news notes:—

"John Banin, the laziest merchant in town, made a trip to Belleville yeste day."

"John Coyle, our grocery man, is doing a poor business. His store is dirty and dusty; how can he do much?"

"Rev. Styx preached last Sunday night on 'Charity.' The sermon was punk."

"Dave Sonkey died at his home in this place. The doctor gave it out as heart failure. Whiskey killed him."

"Married—Miss Sylvan Rhodes and James Colin, last Saturday, at the Baptist parsonage. The bride is a very ordinary town girl who doesn't know any more about cooking than a jack-rabbit does, and never helped her mother three days in her life. She is not a beauty by any means and has a gait like a duck. The groom is an up-to-date loafer. He's been living off the old folks all his life and is not worth shucks. It will be a hard life."

"The governor of our State, a very ordinary man, and who was elected by accident, was here yesterday. He has very few friends here now. He promised some of the voters of this precinct 'a piece of the pie' in even of his election but had forgotten all ab ut it when the time to hand over the litt'e office rolled around."

The paper had no sooner reached the public than a committee was sent to the editor bearing a petition asking him to continue in the good old way, and stating that they believed him to be a truthful, honest man.

### CLEAN UP THE ORCHARD IN THE FALL

When all fruit is off the tree all cull apples and wind falls should be collected and used as pig feed, and whilst we are in the cleaning up mood, go over the entire orchard and vegetable patch. All rotten fruit, papers, weeds and trash of all kind should be removed or ploughed under to prevent the harboring of such things as mice, bugs, fungi and bacteria. Fences and fence corners should be cleaned up and, if you have time, clean up the road as well. It looks well and puts you in the up-to-date class. The home vegetable garden is often situated in an odd corner; this should be given careful attention; late ploughing is to be advised as this has a tendency to turn up various insects that hibernate in the soil, and spoils their winter comfort to such an extent that they may cease to worry us next spring. Any mulches of manure or weeds that may have been put round the trees to conserve the moisture should be spread away from the trunk to avoid mice girdling them. If mice are known to be bad in an orchard with clover and alfalfa in it, place poisoned wheat under old pieces of board or in large necked bottles at each tree with sufficient room 1 ft under the board to allow a mouse to go under.

The mouse is a thing we can see and his work is very definite when we lose a splendid tree, but we have other enemies just as distinctive that do not show up so plainly as the mouse. Fire Blight, if present in our orchards in the form of hold-over cankers, has probably killed more trees than the mouse. These cankers, if otherwiser wintered over in the trees, should be cut out and the wound disinfected by using one part, to five hundred parts water, of mercury bichloride and mercuric cyanide, swabbing the wounds and disinfecting the tools. Burn all removed wood as soon as possible. Insects and bugs are harbored in rubbish in the orchard. Fungus is often wintered in dead leaves and decaying matter of various sorts and if this is cleaned up much trouble will be avoided.

In clean cultivated orchards we like to run the spring tooth cultivator over the ground to cover fallen leaves and prevent them from blowing away. We prefer to plough under any decaying vegetable matter which will make humus, which, in turn, is the greatest benefit to us from a water conservation point of view, and it helps to maintain bacteria in the soils, without which our soils become depleted in fertility.

### FOREST FIRES AND SPORTSMEN

Every forest fire destroys game and game cover. Less game means less sport. Any lighted match, lighted cigar or cigarette or hot pipe ashes thrown down can start fire.

Different laws require guides, permits, or special times, places and ways for making camp. "Sports" neither know nor observe these things. A sportsman does. Small fires are more comfortable and usable than big ones for cooking and warmth.

Fire is never out until it is dead. Smother out every spark with water or mineral soil before leaving it.

Act as though you were a forest fire warden in preventing and putting out fire and in demanding of others like care and like respect for forest fire laws.

It is to your interest and is a vital necessity to protect our forests from fire.

The melancholy days are come, the saddest of the year, Of wailing winds and naked woods and meadows brown and sear.

### MOTORED ACROSS THE CONTINENT

(From the Halifax Chronicle) A motor trip of over 4500 miles across the Continent, on her way to attend Dalhousie University, was the enjoyable experience of Miss Mary Crandall, who registered as a Senior in Arts yesterday afternoon.

Miss Crandall, whose home is in Vancouver, motored as far as Montreal with her parents, Mr. and Mrs. C. F. Crandall. The trip was a real camping tour through the very best scenery of Canada, although a detour into U. S. was necessary for a part of the way.

Crossing the Rockies on the American side, where an altitude of 9,000 feet was reached and entering Canada via the Gateway and the Crows Nest Pass, the party followed the trails across the great Canadian Prairies to Winnipeg. From there it was necessary to re-enter the States and take the route via Minneapolis, Chicago, and the south shore of Lakes Erie and Ontario. The final part of the journey was by the excellent King Edward Highway in Quebec.

A complete camping outfit was carried in the car, sleeping accommodation being arranged in the car and by means of a small lean-to tent. Miss Crandall took her first two years in Arts at Acadia University, and her third year at the University of British Columbia, and now comes to Dalhousie to complete her course.

### A MAN'S PRAYER

"Teach me that 60 minutes make an hour, 16 ounces one pound and 100 cents one dollar. Help me to live so that I can lie down at night with a clear conscience, without a gun under my pillow and unharmed by the faces of those to whom I have brought pain. Grant that I may earn my meal ticket on the square, and that in earning it I may do unto others as I would have them do unto me. Deafen me to the tingle of tainted money and to the rustle of unholy skirts. Blind me to the faults of the other fellow, but reveal to me my own. Guide me so that each night when I look across the dinner table at my wife, who has been a blessing to me, I will have nothing to conceal. Keep me young enough to laugh with little children and sympathetic enough to be considerate of old age. And when comes the day of darkened shades and the smell of flowers, the tread of soft footsteps and the scrunching of wheels in the yard, make the ceremony short and the epitaph simple—'Here Lies a Man'."—Exchange.

Don't forget when passing another car, and particularly when passing a horse and buggy, to use your dimmers. That's what they are for, and the non-glare lenses do not excuse you. Don't keep on your lights while the horse is jumping. Remember that the horse and buggy have rights. Be a gentleman! Thank goodness most car drivers are, but there are a few who need a little reminder.

## "A Terrible Experience"

### "I Recall My Experiences with the Burglar with Feelings of Horror!"

"How would you feel if you wakened in the middle of the night with a flashlight shining in your eyes and the gruff voice of a man threatening that, 'If you make the slightest noise, I'll shoot?' That was my experience the end of last March when my husband was away in the woods and I was alone with my three children. Everytime I think of this experience a shudder passes over me and as long as I live I shall remember it. At the time I really thought I would die. It's a wonder my heart did not stop beating. I was so weak that even if I had any desire to move, I could not. I was bathed in a cold, clammy perspiration. Even to recall the shocking details now makes me shudder. It was a result of this shock that I contracted a high fever and for hours at a time I was delirious. I got so bad that the doctor finally gave up hope of my ever recovering, but by careful nursing, I was finally pronounced out of danger. The shock had left me so weak, that, for no reason whatever, I would suddenly burst into tears. All the life seemed to have been taken out of me. I kept

getting weaker and weaker, so much so that my husband and children were constantly worrying about me. Doctors prescribed for me and while I willingly tried their medicines, only very few of them did me any good, but unfortunately the good was not lasting. My family asked me if I would try Carnol and I said, 'I was willing to try anything,' but felt that it would not do me any good. Four bottles of Carnol taken regularly, has completely restored my former health and strength and, while I occasionally recall my experience with the burglar with feelings of horror, I am otherwise as well and strong as I have ever been. Carnol is the most wonderful preparation I have ever used for building and restoring health and strength. It has done wonders for several of my friends to whom I have recommended it." Mrs. McC. of...

Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money.

### CANADA AND THE OLD WORLD

Hon. W. S. Fielding (upper left) and Hon. Ernest Lapointe (upper right) are representing Canada in a series of important conferences and negotiations in Britain and the European continent. These began with the League of Nations Assembly at Geneva, last month. Later the details of a prospective new trade agreement with France will be discussed with Premier Poincare of that country (lower right) and his cabinet. Matters relative to trade and financial affairs will be the subject of conference with Premier Lloyd George (centre) and the British Government, and negotiations for an economic agreement with Belgium will be opened with the Premier and Finance Minister of that country.

## PORT WILLIAMS HAPPENINGS

Mrs. R. S. Hockin was at home to a large number of her friends for the first time since moving into their new residence, on Monday last. She was assisted in receiving and entertaining by Mrs. D. S. Collins, Mrs. J. W. Harvey, Mrs. Zwicker, Mrs. Carl Starr, Mrs. Marriott and Miss Gates.

Mr. Robert MaWhinney and family with his brother Clarence, of Fairville, N.B., motored from St. John and spent the week end the guests of Mr. and Mrs. A. K. Gates. Mrs. MaWhinney and her two children are remaining for a longer visit with her parents.

Rev. O. N. Chipman and brothe returned on Saturday from their moose hunt—minus the game.

The Port Williams Institute enjoyed the hospitality of the Grand Pre society on Friday last, meeting at the home of their president, Mrs. Chas. Patriquin. Although the day was very unpleasant, a large representation from both societies were present and enjoyed the program consisting of two readings on the History of the Expulsion of the Acadians, introduced by selections from Longfellow's "Evangeline", read by Mrs. McLellan. Mrs. Johnson read a copy of the original speech of Chief Justice Belcher, addressed to the council at Halifax in 1755, setting forth the conduct of the Acadians, the patience, kindness and generosity of the English in their dealings with them, till safety for the country demanded that unless they would take the oath of allegiance and become loyal subjects of King George their removal was necessary. Another most interesting reading was given by Miss Magee showing the story from an American historian's (Parkman) viewpoint. It went into detail describing the treatment the Acadians received before and at the time of disembarkation and was an eye opener to any who had based their judgment on the sentimental reading of Longfellow's "Evangeline". At the close of programme a bountiful lunch of sandwiches, cake and tea provided by the sisters was enjoyed, and the visitors started for home in a down pour but with the satisfaction of having had an enjoyable as well as profitable afternoon.

Mrs. Capt. Faulkner returned on Thursday on a three weeks visit with her husband whose ship was loading at Three Rivers, Que.

Sunday, the 15th, is to be celebrated as Promotion and Rally Day, and everybody old and young are expected to attend.

The many friends of Miss Gladys Newcombe are glad to hear that she is convalescing as speedily as possible at Westwood Hospital from her serious operation following an attack of appendicitis.

The new telephones required by the automatic call system, recently inaugurated by the Maritime Telegraph and Telephone Company, are now being installed in our town. Improved service is hoped for, but we fear the second hand switch-board will not give the satisfaction expected by subscribers whose telephone rates should warrant the best.

G. A. Chase and bride returned from their motor trip on Friday last and were given a right royal reception by their friends who gathered to the number of about two hundred to greet them. It was not an old fashioned "charivari" of discordant music made by horse fiddles, tin pans, etc., but quite a military affair, the officer in charge being Sergeant-Major St. Johns, of Kentville. After having supper with his parents, Mr. and Mrs. B. Chase they motored to the Port in an auto truck decorated with flags and bunting. They were then saluted with fireworks, guns and lots of cheering to which Mr. Chase responded in a neat speech, inviting them all to the bakery where he had forestalled the needs of the "inner man" by ordering a sumptuous repast of coffee, cake and ice cream, which both the bride and groom helped serve to the crowd. It was not known till a few hours before their arrival that they were coming, or the celebration

would have been on a much larger scale. All the stores were brilliantly lighted and colored lights were on the streets, making everything bright and cheery. After it was over they went directly to their handsome new bungalow carrying with them the congratulations and best wishes of the crowd.

Mrs. Durell Sutton entertained on Friday evening a number of friends in honor of Miss Sutton, who is home on a visit. It was known as a "Poverty" party, the guests being in costume. Later on in the evening, they came in a body to the serenade, making quite an impression.

Miss Doris Jackson, milliner with Mrs. Clark, is detained at her home at Berwick on account of illness.

The representative of THE ACADIAN who visited Port Williams on two occasions recently was given a most cordial reception by the business men and citizens whom he had the pleasure to meet. All were enthusiastic over the advent of the "Port Williams Acadian" and a good sized subscription list was secured. It will be the endeavor of the publishers to make this department of the paper the best possible ad we solicit the co-operation of the people of the vicinity in this regard. We have under consideration a number of plans for the promotion of this highly favored section and its progressive citizens, which will be revealed in future issues. If you like the paper tell your neighbors about it and invite them to become readers and supporters of the movement.

## DISTINGUISHED RAILWAY EXECUTIVE

(From the Halifax Herald)

It is evident from the information now available that the Federal Government has been successful in procuring a man of outstanding railway experience and ability to take the position of president of the Canadian National Railway Board of Directors. Sir Henry Thornton comes to this important duty with a brilliant record of success in connection with the Pennsylvania railway system of the United States and the Great Eastern railway system of the United Kingdom. He grew up with the Pennsylvania railway—a system that handles more passenger traffic than any other in the United States; and in 1914 he went to the Great Eastern, which is said to handle a larger number of passengers than any other system in the world, and which has important hotel, steamship and restaurant auxiliaries. During the war he performed notable service in management of the railway business of the United Kingdom, in recognition of which he was decorated by the King and given his present rank as Sir Henry Thornton—having become a British subject by naturalization. It is gratifying that a man with such a brilliant record of success in railway management has agreed to undertake leadership in building up the fortunes of the Canadian National Railways; and credit is fairly due to the Government for obtaining him. It is the right of Sir Henry Thornton to receive from the people of Canada whole-hearted co-operation in the great and arduous work that lies before him.

Forest fires in Northern Ontario last week did eight million dollars worth of damage, rendered eight thousand people homeless and caused the death of 75 persons.

## TO NEGOTIATE WITH AUSTRALIA

Hon. J. A. Robb, Canadian Minister of Trade and Commerce, who leaves for Australia shortly, to continue the negotiations looking for a reciprocal trade agreement.

## THE FARMER AND THE RAILROAD WORKER

The railroads insist on a certain "standard of living". David Friday, president of the Michigan Agricultural College, states that the persons engaged in railroad transportation number less than 4 1/2 per cent. of the total working population of the United States and in 1921 received 7 per cent. of the nation's purchasing power, while farmers, numbering 26 per cent. of the working population, received less than 20 per cent. of that same buying power. The figures for Canada would no doubt point to a similarly significant conclusion.

What the farmer did with that 20 per cent. of the nation's buying power is admirably told in a letter by a farmer's wife to the Macon, Ga., Telegraph. Last year they sold \$772.06 worth of cantaloupes, paying \$611.20 to the railroads to get them to market and netting \$160.86. They sold \$1,029.50 worth of watermelons, paid the railroads \$865.90 and netted \$163.60. They sold \$2,222.77 worth of peaches, the railroads got \$2,109.62, the picking and packing cost \$671.25, and they netted \$141.90. Their total "profits" came apparently to \$466.36, but out of this came the cost of fertilizer, spraying material, etc., and the farmer's wife is begging her husband to give up the business—go on strike, as it were—declaring they were working only for the railroads.

She wants to know if the farmer as well as the railroad man is not entitled to some kind of "standard of living".—Financial Post.

## CANARD NOTES

Miss Pauline Eaton, who has been visiting her parents, Mr. and Mrs. C. C. H. Eaton, Canard, returned to Boston on Saturday.

Miss Beatrice Borden, of Canard, has entered the freshmen class at Acadia. Dr. and Mrs. H. S. Babcock, of Castine, Maine, have been visiting at Lower Canard, guests of Mrs. J. L. Eaton.

Mr. Clement Eaton, son of Mrs. Everett Eaton, Canard, was married on Sept. 5th at Haverhill, Mass., to Miss Florence Herd. They will reside at 126 Green street, Lynn, Mass.

The W. M. A. S. met at the Parsonage, Upper Canard, on Thursday.

Miss Majorie Eaton is visiting her aunt, Mrs. C. S. Bars, at Wolfville.

Mr. Gerald Eaton is home from the "West".

## "SHOWER" AT CANNING

More than fifty young people gathered at the residence of Mr. and Mrs. A. D. Payzant, Canning, on Thursday evening of last week, the guest of honor being Mrs. (Dr.) F. F. Chute (nee Minnie Miller). As the bride, who was taken entirely by surprise, entered the room, to the strains of the Wedding March, played by Mrs. Charles Cox, she was followed by a novel bride and groom accompanied by Charlie Chaplin, the cleverly taken parts adding much to the evenings entertainment, which took the form of a miscellaneous shower. The gifts were drawn in a miniature carriage, gaily decorated with flowers and "Kewpies", by Marie, the five year daughter of Mr. and Mrs. Payzant, who was fairy-like in a gown of white.

The gifts were lovely, including Limoges tea set, from the choir of the Methodist Church, of which Mrs. Chute is a valued member, a silver tea service, linen, china, etc. Supper was then enjoyed, those assisting being Miss Josephine Harris, Miss Alice Northup, Miss Blenus, Miss Ada Reynolds. The bride, in a pleasing manner, thanked her friends for their gifts of appreciation, after which instrumental duets by Miss Alice Northup and Miss Josephine Harris and an original poem by Mr. Authur Ward were followed by the singing of "Auld Lang Syne", bringing to a close an altogether delightful evening.

The first fatality since the opening of the hunting season in Nova Scotia occurred last Saturday when James H. Munroe, of Rosebury, Annapolis county, was accidentally shot and killed while hunting moose in the woods about three miles from Bridgetown.

## MARRIED

CLEVELAND—COLDWELL—At St. Johns church, Oct. 4th, 1922, by Rev. R. F. Dixon, rector, C. C. Cleveland, of Campbellton, N. B., to Evelyn M. Coldwell, second daughter of Mr. and Mrs. Ernest Coldwell, of Wolfville.

He who knows and knows not that he knows is asleep; awaken him. He who knows not and knows that he knows not is simple; teach him. He who knows not and knows not that he knows not is a fool; shun him. He who knows and knows that he knows is wise; follow him unto the end. This is an old proverb of the Arabs.

2. Beige Brown velour featuring the new long cape, reaching practically to bottom of the coat, also fur collar and cuffs. This is an exceptionally smart model at \$48.50
3. Brown Duvetyn fur trimmed, with full length panel falling from shoulders, edged with fur, satin lined at \$47.50
4. Reindeer Brown velour, a striking number with braided back and sleeve trimming in contrasting color, shawl collar of fur and satin lined at \$39.75
5. Taupe velour with cape and heavy fringe trimming, embroidered, satin lined and interlined, with fur collars and cuffs at \$45.00
6. Nigger Brown Bolivia cloth, self embroidered, with opossum fur collar. This is very smart looking and dressy at 49.50

## MEN'S SUITS

On Friday morning the 13th, we will take three of our new Fall suits from the racks—one each size 36, 38 and 42, and mark them "Half Price". This is going to give our customers who read our advertisements carefully an opportunity of getting a new Fall suit for considerably less than manufacturer's cost. These clothes are "not clearance lines" but represent our season's best sellers.
