Speculations like this might have been passed as idle and harmless had not error kept pace with truth. As Buddhism became known, it began to fill a peculiar purpose in the reasoning of atheists and agnostics. The tendency of this century has been to eliminate Gid, to deny the immortality of the soul, to subvert religion, and to bull the social structure on a basis of pure reason. There was one obstude which the non-believer could not overcome, Without religion, that i-, without the belief in a God and a future state, how could it be possible to maintain morality?
