FIRE ON MONDAY NIGHT.

ALBION HOTEL STABLES BURNED.
About half-past six o'clock on Monday
evening fire was discovered bursting
through the roof of the large frame
stable attached to the Albion Hotel on
the corner of Macdonnell and Norfolk
Sts., and opposite the Catholic Hill. When
the fire was first discovered it was
spreading from a loose box in the north
or rear end of the stable, where it must
have originated. The alarm was given at
once, but the fire spread with extraordi-
nary rapidity, and in less than ten
minutes after it was first seen the
whole building was in one mass of flame.
The engine was quickly hauled to the
tanks at St. George's Square, but the
intense frost froze the water in some of
the small pipes, causing thereby consid-
erable delay before a stream could be
brought to bear on the fire. Such an oc-
currence at such a time when every mo-
ment is so valuable is a serious matter,
and if possible means should be taken to
prevent this in future, when there is
danger of the water freezing. There was
also some delay in getting the hose laid,
another important matter which ought
to be attended to in the future. Fortu-
nately the wind was blowing from the
north-west, and away from a lot of small
wooden buildings in the rear of the
stable, otherwise had they caught fire, it
is hard to say how much damage would
have been done. The fire was confined
to the stable, and in half-an-hour after
it commenced it was a mass of smoking
ruins. A few pigs—all the live stock in
the barn—were saved, but the hay and
straw were all consumed. The heat from
the fire, added to the intense cold of the
night, cracked all the windows of the
hotel on the side of the building next the
barn.
Mrs. Waite had the barn insured in the
Imperial for \$500, which will not nearly
cover her loss.

THIS MORNING'S DESPATCHES

Terrible Storm in England.
Great Destruction of Shipping.
Steamship Wrecked in the Pacific.
Affairs in France.
Trouble at the Cape of Good Hope.

Local and Other Items.

TYPHOID fever is prevalent in Toronto.
A large percentage of the cases result fat-
ally.

OSAWA has handed over the \$5,000
bonus to Mr. Geo. Barker, for starting a
bat factory.

A TOURIST'S HOTEL, costing \$100,000, is
to be built on the Canadian shore of the
St. Lawrence, opposite the Thousand
Islands.

The work at the deep cut on the Wel-
land Canal has progressed very rapidly.
The contractors have given up work for
the season.

The Leobias, from Sunderland for New
York, went ashore and was wrecked off
Lowland. The crew barely escaped with
their lives.

At Oxford, the chapel of Oriel College,
Oxford University, was badly damaged,
and the goods station of the Great West-
ern Railway entirely demolished.

BENEFIT BY-LAW GRANTED.—The Ben-
efit by-law granting a bonus to the
branch railway from Clifton to Durham
has been carried by a majority of 105.

The Hamilton papers record the death
of Mr. Hugh Smiley, youngest brother
of Mr. Robert Reid Smiley, the well-
known founder of the Hamilton Spectator.

It is rumored that the Dominion Gov-
ernment contemplates adding to the num-
ber of their emigration agents in Eng-
land by the appointment of Col. Mande,
C.B., to that office.

The Huron Signal still depreciates the
introduction of politics into municipal
matters. Our contemporary is glad to
see that the agitation receives but little
encouragement in Huron.

Snow in Quebec.—The heaviest snow-
storm of the season set in on Sunday
morning, lasting all day, and blocking
the streets and country roads with a
great accumulation of snow.

DEATH OF HENRY DUNBAR.—On Saturday,
the 7th inst., a Miss Isabella McClive, of
Chippawa vicinity, came to Clifton to get
a dress fitted, and died immediately on
entering the house, of heart disease.

VOLUNTEER MURDERER AT FORT GARRY.
—A discharged Volunteer named Dupont,
entered the barracks at Fort Garry on
Friday evening and deliberately shot a
"volunteer" named Vogt, killing him on
the spot.

By a telegram received from Marquette,
we learn that the steamer *Cumberland*
got caught in the ice on Bear Lake. It
does not say whether or has upward or
down trip, most probably the latter. The
steamer is perfectly safe, and within fif-
teen miles of Bruce Mines.

St. John, N. B., claims to have the
"meanest man in the Dominion of Can-
ada." During the late hurricanes there
he wanted to charge a dollar to a poor
wrecked mariner for swimming to and
effecting a landing on his property.

The Ottawa morning Herald demands
an Agricultural College and farm for the
Ottawa country, because the one already
authorized is so far away, and because
"the conditions of climate and soil" in
the two sections of the country are alto-
gether different.

SKULL-POX.—This noxious disease is
again making its appearance in different
parts of the Province. A case of it is
said to have occurred in the Westmin-
ster suburb of London, and another in
the neighborhood of Dresden. A man
and two children died of it a few days
ago in Oneida township, near Cayuga.

On Saturday last while a young man,
eighteen years of age, was driving a load
of stone for a bridge or culvert for the
Hamilton & Lake Erie Railway, about
four miles this side of Caletonia, his
wagon swung round and upset, the whole
load of stone falling upon him, from the
effects of which he died in a few minutes.

THE ST. CATHARINES NEWS says that se-
veral men in the employ of the Great
Western have arrived in Welland, with
the intention of remaining during the
winter. Their purpose is to lay the
third rail on the Welland Railway, build
new switches and thoroughly renovate
the permanent way of the road on the
part leased by the G. W. R. Company.

ANOTHER little job is impudently to the
M. P. for Kent, Ont. A letter recently ap-
peared in the *Free Press* from Sergeant
Blain, of Barrie, asserting that the new
patent tent-pole adopted by the Govern-
ment was two years ago laid before the
military authorities at Toronto and ig-
nored. Yet it is said that Mr. Rufus
Stephenson has recently succeeded in
getting the Government to pay \$5,000
for the right to use the improvement, and
to give a good contract to a friend of his
for the manufacture of the article.

**THE ARBITRATION BETWEEN ENGLAND
AND PORTUGAL.**—The question submitted
by England and Portugal to the arbitra-
tion of the President of the French Re-
public concerns territories situated on
the eastern coast of Africa, towards the
twenty-sixth degree of longitude. At
that point the Bay of Lagoa or San Lor-
enzo, which offers valuable advantages
for the outlet of the produce, divides, as
it were, the English possessions of the
Transvaal from the Portuguese of Moz-
ambique. This bay contains, besides two
important islands—that of Invak and the
Elephant.

The Rev. Dr. Lang, who founded the
Presbyterian church in Australia, has re-
tired from the pastorate of the Scotch
church at Sydney, after fifty years of
labor and service.

"I think," says Henry Ward Beecher,
"half the troubles for which men go
sneaking in prayer to God, are caused by
their intolerable pride. Many of our
sins are but a morbid way of looking at
our privileges. We let our blessings get
mouldy and then call them curses."

A new fashioned square dance is called
the pyramid, and being similar to the
quadrille, is likely to become quite as
popular.

Wesleyan Methodist Anniversary.

The Annual Tea Meeting
will be held in the Lecture Room of the
Church on WEDNESDAY EVENING,
the 11th inst. Tea served from 6 o'clock, after
which AN ADDRESS will be delivered by
the Rev. W. S. GRIFFIN, of Toronto.
Admission, 25 cents.
Guelph, Dec. 6, 1872. (dw)

Chalmers' Church

The Anniversary services in connection
with the Opening of Chalmers' Church, will
take place on
Sabbath First, the 15th inst.
When special sermons will be preached on
the occasion, by the Rev. Wm. Inglis, of Tor-
onto, and Rev. J. Muir, of Galt.
A Collection will be taken up on each oc-
casion in aid of the Building Fund.

A Soiree

Will be held in the Church on MONDAY
EVENING, following the 15th inst.
Addresses will be given by the Rev. Wal-
ter Inglis, of Ayr, and Rev. Mr. Grant, of
Ingersoll. Rev. Mr. McMullen, of Woodstock,
and others.
The Choir, under the able leadership of
Mr. W. H. K. Mathison, of Galt, will sing
some choice pieces throughout the evening.
Tea will commence to be served at six
o'clock, precisely. Tickets, 50 cents. Seating
to be had of Messrs. G. & A. Hadden, J. Bink,
W. Stewart, W. J. Little, and at the Drug and
Book Store.

Town and County News.

Continuing Brown.—Mr. John Anderson
is getting on a consignment of curling
stones, Alisa Craigs and others. Those
wishing to procure a pair should leave
their order with him at once.

Lecture.—Miss Anna Watson, a col-
oured young lady, from the United
States, will deliver a lecture this (Tues-
day) evening in the British Methodist
Church, Essex Street. Subject:—"Are
We United." Admission 25 cents.

Shown Up.—The down train on the
W. G. & B. R. which should have reach-
ed Guelph at one p. m. on Monday, did
not arrive till about nine o'clock the
same night. The train was delayed at
and above Paisley by the heavy fall of
snow the previous day.

ONE of our exchanges remarks that
one of the saddest sights in this season
of the year is a young man who has
waited outside the church of an evening
until he is chilled through, only to see
his girl walk off with some young rascal
who has been inside all the time toasting
his sinful self at the stove.

GREAT AUCTION SALE.—We would draw
attention to Mr. P. C. Allan's great auc-
tion sale as announced in the advertise-
ment. He is to clear out his whole
stock. The sale begins on Wednesday,
the 11th. His stock comprises an im-
mense assortment of plain and fancy
goods, from a needle to an anchor. See
adv.

CENTRAL EXHIBITION.—Our attention
has been drawn to the fact that in the
printed Prize List Mrs. John Johnston,
Eramosa, is credited as being the second
prize taker for Crook Butter, when it
should have been Mrs. John Johnston,
Troyville, Pilkington. The ladies are
naturally proud of a Central Exhibition
prize, and we gladly give the necessary
publicity to the correction required in
this case.

THE AGRICULTURAL FARM.—The Com-
missioners appointed to examine into
and report upon the suitability of the
Mimico and other sites for an Agricul-
tural college and model farm, visited
Guelph to-day (Tuesday). They are Mr.
John Dunlop, of Woodstock; Mr. Robert
N. Ball, of Niagara; Mr. John Miller, of
Paris; Mr. John A. Dryden, President
of the South Ontario Agricultural So-
ciety. They were accompanied by the
Hon. Mr. McKellar, Commissioner of
Agriculture, Hon. Daniel Christie and
others. These gentlemen on their arrival
went to lunch by the Town
Council at the Queen's Hotel, after
which they visited and examined the
farm of Mr. Wm. Hood and Mr. F. W.
Stoner.

ANNIVERSARY SERVICES.—As will be
seen by advertisement, anniversary ser-
mons in connection with the opening of
Chalmers' Church, will be preached on
Sunday, the 15th, when special sermons
will be given by Rev. Wm. Inglis, of Tor-
onto, and Rev. J. Muir, of Galt. Collec-
tions in aid of the Building Fund will
be made at both services. On the follow-
ing evening, the 16th, a soiree will be held,
when addresses will be given by Rev.
Messrs. W. Inglis, of Ayr; McMullen, of
Woodstock; and Grant, of Ingersoll.
The choir of the congregation, led by the
new precentor, Mr. Mathison, of Galt,
will sing several beautiful anthems and
selections of music. Tickets 25 cents, to
be had at the stores of Messrs. William
Stewart, Geo. & Alex. Hadden, John
Risk, W. J. Little and at the book and
drug stores.

THE RAILWAY TO DURHAM.—The Dur-
ham Chronicle, speaking of the projected
railway to that village, says:—"The view
which we would with all seriousness pre-
sent to the ratepayer:—not bounded
merely by the advantages which will in-
cidentally accrue to Clifford, Aylton and
Durham. There is a reasonable certainty
that it will be a link—and an exceed-
ingly important one too—of the chain
which will connect some port on the
Georgian Bay and thereby develop the
Clifford branch into a main link of a con-
tinued chain. To the citizens of Hamil-
ton we may be allowed to say that if we
wish to reach the grain growing, as well
as the timbering regions of the north, we
cannot more speedily and cheaply do it
than by the necessity of the extension of
the W. G. & B. to Clifford, Durham and
Menford, and by so doing would tap the
famous Narrow Gauge at its most val-
uable point, and then by exclusive con-
tract of water privileges would compete suc-
cessfully with Toronto and the Northern
Railway for the lucrative trade of the
north and north-west. Let the railway
men of Hamilton take this into consid-
eration."

The Chicago Tribune commends the
Immigration policy of the Ontario
Government, and says the Govern-
ment deserve credit for the earnest-
ness and energy with which they
have taken up the subject.

Board of School Trustees.

The Board met on Monday night.
Present, Mr. Harvey, chairman, *pro tem*,
Messrs Knowles, Kennedy, Newton, In-
gins, McKenzie, Stevenson, and Dr. Mc-
Guire.

The Secretary read a communication
from Miss Addison, assistant teacher of
the Senior Girls' School for an increase
of salary. Referred to the Finance Com-
mittee.

Also one from Miss Rowe, asking the
Board to raise her salary to \$500 per an-
num, and to put the school room in bet-
ter condition. Referred to Finance
Committee.

Mr. Newton presented the report of
the Finance Committee recommending
the payment of several accounts. Report
adopted.

Mr. Knowles presented the report of
the School Property Committee. In re-
ference to the matter of paying for the
fence dividing the property on Cam-
bridge st., and the lots owned by Mrs. V.
Patterson, the Committee are of opinion
that the Board should pay one-half of
the cost of its erection at the rate per
rod of that of the High School fence, it
being of a similar character. With re-
gard to the communication of Miss
Rhemmie for a better instrument for
teaching music, the committee recom-
mend that a new and strong piano, seven
octave, with a plain but substantial case,
be purchased for the use of the Senior
Girls' School. The one in use is not suf-
ficient and otherwise unfit. The report
was adopted.

Mr. Stevenson stated that he had
failed to get a meeting of the School
Management Committee, and wished the
Board to take up the matter with regard
to the admission of pupils to schools out-
side the ward in which they live, after
having left the school in their own ward.
Mr. Stevenson moved, seconded by Dr.
McGuire, that the teachers be instructed
to adhere to the printed instructions is-
sued by the Board of Public Instruction,
for the guidance of teachers with regard
to the discipline of the Public Schools.
After some conversation the resolution
was not passed, as one or two of the
members thought it would be discon-
tinued to pass it, as it was he
who had sent letters to the teachers ask-
ing them to admit those pupils from
other wards.

Dr. McGuire said that Miss Howe
came to him to-day and complained that
there was no interest in the school
room to make a fire, that she sent word
to Mr. Fisher, that he said it was not his
work, and he (Dr. McGuire) wished to
know whose work it was; she also com-
plained that the school was kept in a very
dirty state, seldom swept, and when
swept not dusted.

Mr. Stevenson thought Mr. Fisher had
too many schools to attend to, and if he
had fewer he would keep them in better
order. Some of them he kept in a good
state, but he could not get over them all.

After a desultory discussion the matter
dropped.

The Inspector presented his monthly
report as to the attendance at the dif-
ferent schools. He also reported that he
was aware of the fact that three teachers
intended to retire at the end of the year,
viz. Miss Heather, Miss Hodgson and
Miss Goodhue. He was instructed to ad-
vertise for teachers to fill the places of
these young ladies.

The Board then adjourned.

THE CREDIT VALLEY RAILWAY BY-LAW

Carried in Fee.
The County of Peel voted on Monday
a bonus of \$70,000 in aid of the Credit
Valley Railway. All the polling places
have been heard from except Mono Mills
giving a majority of 106 for the bonus.
Mono Mills will probably reduce this by
about twenty. Chingacousy gave 23
majority against the bonus; Toronto
Township 73 majority for the bonus;
Caledon 91 majority for the bonus. Mono
Mills and Silver Creek are yet to be heard
from.

There was great excitement at Streets-
ville on the success of the vote on the
by-law. The village was crowded, the
band was out, bouffes were lighted and
there were general rejoicings.

Guelph Evening Mercury

TUESDAY EVENING, DEC. 10, 1873

A Yankee Doing Canada.

The New York Herald is an enterprising journal, and often takes out-of-the-way and unthought-of means of keeping up its character, and at the same time sustaining the excitement and sensational pabulum with which it is in the habit of regaling its readers. It may well be doubted whether a journalist like that of the proprietor of the Herald, who sent a special commissioner into the wilds of Africa to find Dr. Livingstone, would stick at anything. He has instructed his associates to do some queer things in their time, and to their credit be it said they have generally done what they were told, and in some things even exceeded their license.

Some few weeks ago a half-dozen discontented n'er-do-wells in New York held a dark lantern meeting in some out-of-the-way place, and forthwith sent paragraphs to all the papers that they were an annexation Committee—self formed, of course—who had undertaken the—to them—easy task of bringing over Canada to the States, and informing these papers also that they had organizations and ramifications of a similar character all through the Dominion, which was ripe for the change. Our cousins, though they inserted this astounding news, were quite enough to discredit it, and in order to make sure on the subject, the Herald sent a special Commissioner to travel through Canada, and find out the nature and extent of this annexation movement.

Well, this gentleman has come and gone, and has found nothing of the kind, and the only result of his journey has been a few pleasant gossip letters to his journal, in which he says many nice things about "these outer barbarians," but nowhere can he find a clink on which to hang the annexation predictions. Instead of this he finds that we Canadians make fun of him when he speaks about it. He also finds that we are a fine, healthy, robust race, with teeth and sinews which put the average American corporation to shame, and that it may be in a century "these terrible Canadians, observing frugal living, sound sleep and healthful labor, will start out some fine morning and enter New York by the St. Nicholas boulevard, driving our gouty and rheumatic garde nationale in their carriages through the Central Park and capturing them in a body on Fifth avenue." And summing up he gives the following sensible conclusion:—"There is a nationality maturing on this territory that is not to be despised, and one far more calculated to strengthen the United States by being independent than by being annexed to it under any pretence."

The correspondent in the course of his journey interviewed Lord Dufferin, found our popular Governor a pleasant, chatty gentleman, cautious withal in expressing his sentiments, and not to be caught by any chaff which the Herald's representative could lay before him. However let us be thankful that he formed a very good impression of our Dominion, that he even gets enthusiastic when speaking of our future, and wisely came to the conclusion that the so-called annexation feeling is a humbug and a delusion, from the belief of which the sooner the Americans are undeceived the better.

Editorial Items.
Active steps have been taken for the prosecution of the elevator men concerned in the recent frauds in the Chicago grain trade.

Hon. Joseph Cauchon has at last broken silence. He is out once more in his paper in favour of the Local Government, brutally attacking the Opposition leaders.

Considerable uneasiness is manifested among the Conservatives in Ontario regarding their future prospects. There are those whose only fault with the Ontario Government is that they got into power by a trick, but they point to no objectionable legislation. The fact is, that the Hon. Mr. Mowat's selection as Premier has taken the wind out of their sails, while the boast that Hon. Mr. Scott wished to break up the Reform party in the interest of Sir John has proved groundless, from the fact that he remains in the present Government, pledged to Reform measures.

Before His Honor Judge Macdonald.
The Court met to-day (Tuesday) at noon. The following are the Grand Jury on the occasion:—

Messrs. John Mickle (foreman), David Brown, John Black, James Cleghorn, Charles Farley, Alex. Forbes, E. A. Harland, Robt. Marks, George Robinson, Arch. Thompson, John Wood, Thomas Walker, William Elliott. The first case was

SEWARD vs. SYMONS.—An action on

agreement. Undisputed. Verdict for plaintiff, \$202. Mr. Matthewson for plaintiff.

The Saltiness of the Sea.

The sea depends on the disintegration of rocks on land for its saltiness. It does not originate in oceans and seas. Rains wash it and hold it in solution as particles are liberated by violence, decomposition and gradual action of many natural forces. All streamlets and rivers, therefore, are constantly transporting salt to the sea. If there is more than can be held in solution, then it accumulates in masses at very deep points, which, in the revolutions to which matter is subjected, may again be a stratum of salt some-where remote from where the mass was formed. Thus the salt mines of Poland and the vast horizontal bed of pure salt in Texas, as well as that mountain of rock salt in St. Domingo, were collected at the bottom of ancient seas, which are now dry land remote from water. There are places in Africa where the process of disintegration of salt from rocks is regularly going on, but there is not water-power enough to force it onwardly to the sea. Hence the particles are spread abroad and mixed up with soil. The negroes of Kallial, in Northern Africa, having discovered its distribution where there is no water to dissolve it in the ground, leach it. In that way they separate the salt. By evaporation the water holding it in solution, an excellent article for domestic purposes is produced. Salt pervades the earth. It exists in the grasses and most vegetable products on which animals feed. In that way they derive enough in most countries to meet the demands of their nature. They require as much as civilized humanity. With them salt is necessary, as with ourselves, for keeping the organs of vision in good condition. Stop the supply and blindness would be universal.

CHAPTER XXIX.
FRIENDS IN COUNCIL—EVIL NEWS FROM ARD-
GOWAN—THE SUDEN JOURNEY.
"Do you mean not to claim your rights?"
he asked. "Do you not mean to force
them on our inheritance, and call them
to a heavy reckoning for the fraud by
which you have been kept out of it?"
"My inheritance I must claim," replied
George. "Duty to my dead father, as
well as to myself, demands that; but be-
yond that—when you speak of exposure
and punishment—a recoil. Not for your
father's sake, I am free to say, and still
less, as you may understand, for the
sake of that scoundrel Garret, whom I
confess I have a desire to come down
heavily upon—no, not on their account,
but for the sake of my friend and brother
Harry Markham, and for her sake who is
dear to me as my own soul."
"Bravo, George—just what I expected,"
cried Manby, with hearty satisfaction.
"Generosity, pure and simple, would in a
case like this be an abuse of that noble
quality. Captain Gibson and Garret de-
serve nothing at your hands, and should
receive no forbearance. Only you cannot
inflict the stroke of justice without wound-
ing the innocent—the innocent whom
you would make every sacrifice to shield
from grief and harm. They may thank
their stars, therefore, that there is some-
thing to interpose as a shield between
them and their deserts."
"You, I am certain, approve of my in-
tention, Manby," exclaimed George.
"Entirely. I would not have you fore-
go your rights. Ardgowan must be yours,
and there, by the way, you cut out Harry,
who has till now considered himself the
heir."
"Never was a man out out with more
infinite satisfaction," said Harry, empha-
tically.
"More than that," added Manby. "I
would use the power you have gained to
obtain the dearest object of your heart.
The Captain would not give Lillias to the
poor tutor, but I suspect he will not re-
fuse her to the owner of Ardgowan."
"She would have been his in any case,"
observed Harry. "I had fully determined
that."
"Ah, well, but it is an advantage to
have the way smoothed in this fashion,"
laughed the doctor. "And now," he ad-
ded, "I will leave you to digest the wonder-
ful revelation while I before supper dis-
pose of my correspondence. My letters are
still unopened, and some of them no
doubt require reply. But don't restrain
your conversation under the idea that
you will disturb me. I have the faculty
of abstracting myself from much greater
noise than you will make. So use your
liberty, I beg, and speak as if I were not
in the room at all."
"All right, Lister; we shall suit our-
selves," said Harry, as the doctor withdrew
to a side table, where lay a pile of unopened
letters which had come by that day's post
but which, in the excited occupation of
that memorable day, had remained un-
attended to till now. From his position
as medical superintendent of a large dis-
trict asylum, Doctor Manby had necessarily
to conduct a large correspondence. Also,
though a young man, his professional skill
was considered of a high order, and many
cases of consultation came to him. He
was therefore, at all times a busy, much
occupied man; and being enthusiastically
devoted to the noble—their vine occupation
of his life, he bade fair to come to a high
position in the medical world.
Left on the sofa by themselves, George
and Harry were soon deep in conversation
on the thrilling discovery that had been
made by the instrumentality of Walloy.

The Missouri Disaster.
ANOTHER MARVELOUS ESCAPE.
Richard Smith, another survivor from
the burned steamer Missouri, has arrived
at Nassau. Smith was the man who aban-
doned Conway's boat and swam to the
capsized boat for the purpose of righting
her. Conway cut the painter connecting
the two boats and they drifted out of
sight of each other. Smith and Alfred
Steward, drifted with the boat bottom up-
ward for three days at the mercy of the
waves. On the fourth day they managed
to right the boat, and making a sail from
life-preservers they finally landed on the
most western key of Abaco on the sev-
enth day. After landing Steward died
from a fever produced by exhaustion.
Smith caught a little rain water on the
ninth day and that with prickly pears and
soft-shell crabs sustained him until the
seventeenth day when he was taken off
the island and brought to Nassau. He
goes to New York on the steamer Colum-
bia.

"Do you call this a trunk?" growled a
dejected porter. "It only needs a
lightning rod to be mistaken for a board-
ing-house."

THIS ORIGINAL DOCUMENT IS IN VERY POOR CONDITION

What is a "Corner?"

A "corner" we must explain for the benefit of our less astute readers, is an operation of this kind—A deal in which the buyer of the stock of a road, having in this means secured the price to a high point, goes on buying, or rather making contracts to buy, more and more stock at the market rates, which gradually rise until they reach some extraordinary figure, and then A and his friends, buyers, and B and his friends, sellers, draw off. Those who contracted to deliver cannot do it because they are short, twice as much perhaps as there is in existence. If they could deliver, the other side could not pay. The party therefore says to the B party—"You see you are in a corner; you cannot deliver this stock; we cannot pay for it if you could; pay us so much for each share you have agreed to let us have, and we will cancel the contracts." The contracts are then settled at some rate agreed upon, and the A party remains in control of the stock, which it has paid for with the proceeds of the cancellation of the contracts. This is a successful corner. The corner "breaks" and is unsuccessful when the contracting party has not enough money or pluck to go on to the end, but begins to settle or sell stock. Then the price falls, the "short" party are able to fulfill their contracts, and the operators are themselves cornered.

It is difficult to exaggerate the miseries of the city poor in winter. The New York papers record the case of three little children who during the recent severe nights slept in a barrel in a yard, while their father and mother lodged in an outhouse—the family having been ejected from their hardly more comfortable quarters for non-payment of rent. Is not this a "voice from the depths" that should move the heart to deeds of charity?

The Boston Times says—Night after night, with almost unbroken regularity, since the Saturday night that ushered in the great conflagration, the fire-bells tap their dolorous alarms for the ears of an excited population. The streets choke with the masses through in a few minutes. The impression seems to have stamped itself on all minds that this fire-devil has come among us to stay through the season.

BREAKFAST—EPPS'S COCOA—(GRATEFUL AND COMFORTING).—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills.—Chief Service Gettys, made simply with boiling water or milk. Each packet is labeled "James Epps & Co., Homoeopathic Chemists, London." Also, makers of Epps's Milky Cocoa (Cocoa and Condensed Milk).

If a man wants a Bottle of Whiskey, let him buy it and take it home like a man, and not sneak home with a bottle of "Bitters," or "Cordial," and pretend that it is medicine. If he wants a tonic that is something better than a temporary stimulant, he should get a bottle of Peruvian Syrup (an Iron Tonic), that will vitalize the blood and give durable strength to the system.

M. Pouchet, in his great work, "The Universe," says that "Anatomically and physically speaking, the human mechanism is very rude and coarse compared to the exquisite delicacy revealed in the organization of certain animals. But in the intellect, the real essence of the universe predominates over the apparent imperfection of matter. Through it man alone approaches the chosen creatures who shine near the throne of the Eternal, and form a bond union between heaven and earth, a grand and philosophic truth. Were man to conform more to the laws of health and nature, and be less addicted to the gratification of his passions, it would not be necessary to advertise Fallows' Compound Syrup of Hypophosphites as a restorative for the powers of the brain and nervous system, while the world's progress in enlightenment would indeed be marvellous."

POSITIVELY A FACT.

Mustard's Catarrh Specific

Cures Catarrh, Cold in the Head, Neuralgia, Toothache, Nervous and Sick Headache, Weak and Sore Eyes. The Specific is a new remedy, prepared from Medicinal Bark, Sassafras, Gum, and Flowers. Free from poisonous Drugs, it is harmless, novel, and philosophic in its operation. Try it if you are afflicted with the above diseases. It is also one of the best Cough and Croup Remedies extant.

Mustard's Vegetable Pills should also be used in connection with the Specific for Sick Headache and Catarrh, and those who are afflicted with Rheumatism should try Mustard's King of Oils.

Sold in Guelph by McCullough & Moore, Druggists. Manufactured at Inglescott by J. Mustard, Proprietor.

IF YOU HAVE BEEN AN INVALID FOR YEARS with some Chronic Wasting Diseases of the Lungs, Heart, Liver, or Kidneys, you need not despair, provided that medicine is going to cure you immediately. Benger's Food goes on slowly, and time is necessary to build up a broken down constitution. Do not take any more medicine, read about, and follow the advice of every friend who has a specific to offer you. Prepare a remedy scientifically prepared, that is the result of experience, that has a large amount of evidence of sensible people in favor of its reliability, and persevere in its use until the whole system undergoes a radical improvement, and health is restored. Dr. WHELEHAN'S COMPOUND MILK OF PHOSPHATE AND CALSIVA, a Chemical Food and Nutritive Tonic, will meet your most sanguine expectations, as it combines everything necessary to perfect Digestion, Nutrition, and the Formation of Healthy Blood, and to vitalize all the organs and tissues of the body. Sold at 91 90 per bottle.

NEW YORK TRIBUNE.

Now, as heretofore, THE TRIBUNE strives to be first of all and preeminently a newspaper.

France Republic—England and Germany gradually permeated with Republican ideas—Spain permeated in the nervous grasp of a liber too good for a monarch and too weak for a republicanism, who is unable to govern the country and is unable to give it a constitution of Rome on the Dogma of Infallibility, and assuming to recognize the "Old Catholicism"—the whole continent is thus brought into intellectual ferment that comes of the conflict between old ideas, philosophical, theological, and political, and the advances of political science—Russia and Great Britain ready to abandon her advances and recede to her half open eyes—Spain abandoning her old ideas and inviting Western civilization to invade Western Europe to enrich her long-suffering people with the fruits of the news from abroad which the mails over all continents and the wires under all seas are daily bearing to us.

At home the struggle for Freedom seems over. The last slave has long been a citizen; the last opposition to equal rights, equal citizenship, equal civil rights, has been formally abandoned. No party North or South longer disputes the result of the war for the Union; all declare that those results must be maintained, and all agree with the people thumped on the grand platform of All Rights for All, whosoever our bloody struggle, and our prolonged civil war, followed, have led us, the Republic closes the records of the bitter, hateful, Past, and turns resolutely, hopefully, to the less alarming, because less vital problems of the Future.

To whatever may elucidate the general discussion or action of the day, THE TRIBUNE gives amplest space and most impartial record. Whatever parties may propose, whatever political leaders may say, whatever officers may do, is fairly set down in its columns, whether they be in favor of their own views. Its readers have the right to an honest statement of the facts, and this they always get.

But as to its own political principle, THE TRIBUNE is of course, heretofore and hereafter, the champion of Equal Rights, irrespective of Race, Nativity, or Color. It stands inflexibly by the amendments for the permanent security of the Union, which have been solemnly incorporated by the people, in the Constitution of the United States, independent of all party considerations, and endeavors to treat them all with judicial fairness. It labors to purify the administration of Government, National, State and Municipal, and whenever those in authority, whether in National, State, or Municipal affairs, take the lead in this work, it will therein give them its cordial support. But it can never be the servant of any political party, nor will it surrender or even waive its right to criticize and condemn what is wrong, and commend what is right in the action of any parties or of any public men.

Now, as always, THE TRIBUNE labors with all its heart for the promotion of the great material interests of the country. The progress of Invention and of Labor-saving, the development of our resources, the preservation of our Land for the landless, and its rapid subjugation to human wants, the utilization of our vast underlying Ores, the extension of facilities for bringing Producer and Consumer nearer together, which tends to swell the ranks, increase the knowledge, and better the condition of those devoted to Productive Industry, find mention and encouragement in our columns.

The WEEKLY TRIBUNE, now more than thirty years old, has endeavored to keep up with the progress of the age in improvement and in enterprise. It does not neglect the share of its columns to Agriculture as the most essential and general of human pursuits. It employs able and most successful cultivators to set forth in brief, clear essays their practical views of the Farmer's work. It reports the success of the latest experiments and failures, and whatever may tend to advance Agriculture, and to commend it as the first and most important of progressive Arts, based on natural science.

There are hundreds of thousands engaged in diverse pursuits, who own or rent a "place," and give serious portion of their time to its culture and improvement. The WEEKLY TRIBUNE shows them how to make the most of their roots and their hours, both by direction and example. No information equal in quality or quantity can be elsewhere obtained for the price of this journal.

The WEEKLY TRIBUNE appeals to Teachers, Students, and persons of teaching minds, by the character of its Literary contents, which include reviews of all the books proceeding from the master minds of the Old or the New World, with liberal extracts from those of especial interest. Its Literature also claims attention, but in a subordinate degree. "Home Interests" are discussed by ladies specially qualified to instruct and interest their own sex, and the younger portion of the other. No article is so eagerly sought or perused with greater avidity than here. The News of the Day, elucidated by series comments, is so correct that no reader can deem it diffuse when given succinctly in detail to satisfy the wants of the average reader. Selections are regularly made from the extensive Correspondence of the DAILY TRIBUNE from every country, and its editorial notes are published in full to their intellectual wants more than to their pocket. It is a journal for the Country Trades, and other Markets, which themselves save the farmer who regularly notes them in his journal's price.

For the family circle of the educated farmer or artisan, THE WEEKLY TRIBUNE has no superior, as is proved by the hundreds of thousands who, having read it in childhood, still cherish and enjoy it in the prime and on the down hill of life. We respectfully urge those who know worth on continents and neighbors, and we prefer it to clubs at prices which barely pay the cost of paper and press-work.

IRON IN THE BLOOD

PERUVIAN SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protochloride of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated as the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, fortifying, and vitalizing the system. The enriched and vitalized blood permeates every part of the body, repairing damage, and waste, searching out and ridding secretions, and leaving nothing for disease to feed upon.

This is the secret of its wonderful success in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhoea, Bolls, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, the Peruvian Syrup is not followed by corresponding reaction, but are permanent, increasing strength, vigor, and new life into all parts of the system, and building up an Iron constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and thousands cannot reasonably hesitate to give it a trial.

See that each bottle has PERUVIAN SYRUP blown in the glass. Pamphlets Free.
