Had they been in proper trim the chances are that they would have been the victors Monday night. that they would have been the victors Monday night. As it was they held their opponents well in hand and at the close of the first half the score stood 2-2. Stapleford scored the first goal after about 15 minutes play. Preston was given the next by the referee although the goal-keeper claimed it had not been made. In about two minutes I. Dodds made another score for Watford, and shortly before half time was called Preston succeeded in making the tie. Up to ton succeeded in making the tie. Up to this time Watford had by far the best of the game and had shown some remarkably good playing. In the second half Preston scored three goals in succession in two, ten and fourteen minutes. Roche then put in a nice one for Watford, and shortly before time was called Preston. shortly before time was called Preston got another goal, making the final score 6-3. #### To Keep Boys at Home.

To Keep Boys at Home.

Principal Creelman, of the Ontario Agricultural College, is telling the farmers if they want to keep the boys at home they must set the example by remaining on the farm themselves, instead of moving into the towns and cities as soon as they think they have enough to live on. It would, perhaps, be as well if many farmers, for their own sakes heeded this advice. They often suffer disallusionment when they move into the city to spend the evening of their lives in comfort.

They find it difficult to accomodate themselves to their new conditions. They are like the proverbial fish out of water. The days of many good men are probably shortened by changes for which their natures and habits are not prepared. Yet the desire for change is constant and natural, and many a city man longs as

Yet the desire for change is constant and natural, and many a city man longs as anxiously for the quiet of a rural home as the farmer does for the supposed comforts and attractions of the city. Perhaps both are liable to disappointment, through no fault of either city or country, but because human nature, while it is always longing for change, is not always ready to accommodate itself to the change.

### BEARING DOWN PAINS.

What woman at some time or other does not experience these dreaded bearing down pains. Mrs. E. Griffith, of Main St., Hepworth, Ont., says: "A heavy bearing-down pain had settled across my back and sides. I was often unable to stoop or straighten myself up. Many times each night I would have to leave my bed with the irregular and frequent secretions of the kidneys and just as done out in the morning as on retiring. I was languid and would have to let my housework

But If He Had Been He Would Have Hair Now

Hair Now

You do not want a scientific treatise on the hair follicle—you are not particularly interested in the name of the German scientist who isolated the bug that is said to cause baidness. What you do want to know is how to save the hair you have and make it strong and lustrous.

Nyal's Hirsutone will do it better than anything else.

It is not claimed that Hirsutone is a wonverful scientific secret—but it is the concrete result of all that is proven in the scientific treatment of sick and diseased hair and scalp.

It is a happy combination and you will notice a prompt improvement in the feeling of the scalp and the look of the hair.

Hirsutone loosens and removes all scaly and matted deposit on the scalp—stimulates the hair bulbs and gives new life and vigor to the hair itself.

Nyal's Hirsutone gives back to the hair and scalp just what it has been robbed of by your neglect and abuse. It is time to start right. Use Hirsutone. sutone.

It is one of the Nyal remedies and no higher recommendation can be given it. They are all good. Ask your Nyal Druggist. He recommends it.

Barring Out the Wolves.

Every Siberian village is surround-by a big stockade some ten or fifed by a big stockade some ten or in-teen feet in height. This erection is to prevent the sheep and cattle from wandering into the forests and so falling a prey to the wild animals which swarm therein. In addition to which swarm therein. In addition to this, each village makes common property of an enormous number of dogs of the wolfhound breed, which are kept for protection from the wolves which in winter, desperate with hunger, descend upon the villages. Such dogs are rightly prized and, though they belong to nobody in particular, are kept well fed and cared for. They are huge beasts, almost as savage as the wolves themselves.—Argonaut.

### Rheumatism In Pigeons.

Until I kept a flock I never realized the thousand natural shocks a pigeon is heir to. Among the most insidious of these is rheumatism. If they sleep of these is rheumatism. If they steep near an open window or in a draft it is pretty sure to develop, frequently, in the form of wing disease. The elbow joint is the part most affected, probably on account of being the most exposed and liable to become chilled. exposed and hable to become childed.

The main symptom is a lump on the wing and feverishness. A bird so afflicted should be placed alone in a pen and fed plain food. Pluck the feathers around the affected joint and paint the swelling with tincture of idodine and it will gradually disappear.

In spite of the cold, her toothless mouth was half open, as she was santing, and her eyes had an expression of distressing anxiety as she tooked at the wide road she had to passing each other. Victor Hugo approached her, and after a short conversation he drew a piece of money from his pocket, handed it to her; then, taking off his hat, he confided to her and, with a quick movement and a laughing face, lifted the bundle to his shoulder and crossed the road, followed by the bewildered woman. Protection Spectacles.

Spectacles to aid imperfect sight have, it appears, been in use for more than 600 years, but spectacles merely as a "protection" to the eyes are of much more ancient date. Snow spectacles are worn by the Eskimos, who could not tell you who invented them, and in all Arctic countries not only men and women wear spectacles but men and women wear spectacles, but also animals. Farmers who are care-ful about their cattle will provide both cows and horses with spectacles to protect the eyes from the glare of the glittering snow. The spectacles worn by Laps and Eskimos are not made of glass, but of very thin bone or whalebone, through which it is possible to one dealers are the same than the sa sable to see clearly enough for purposes of travel or sport.

Music as defined by the authorities is the art which employs sound as a medium of artistic expression for what is not in the province of literature, of sculpture, of painting, of acting or of architecture. It has been said, again, that music is the embodiment of the inward feelings of which all other arts can but exhibit the effect. In other words, music is an attempt at the expression of the thighest aspirations and the deepest fears of the human soul. After we have spoken and written all that is possible and chiseled our finest forms and painted our most beautiful pictures there remains a feeling that is not satisfied, and music is the effort to satisfy that feeling.

The Warning of Mr. Geo. C. Fox Is One That Should Be Heeded by All.

Few men on the road are better mown than genial George Fox. whose friends throughout the West are legion. In the following letter he expresses gratitude for signal services rendered by Dr. Hamilton's Pills. He goes on to say: "Until I used Dr. Hamilton's Pills and experienced their wonderful mildness and curative power, I estimated the value of every pill by its activity. Talking about this to a well-known physician I met on the train the other day, he explained there are different kinds of drugs that act upon the bowels, the most active being known as drastic. Except in extreme cases where the life of the patient depends upon speedy evacuation of the bowels and inflammation; their dose must be increased, causing even more harm. With such a clear explanation I could see why Dr. Hamilton's Pills are curative and not irritating, why they are mild, yet most searching. "From my experience I recommend everyone that takes pills to give up the old-fashloned harsh, purging pill, and, instead, to use Dr. Hamilton's. They cure headache, billousness, constipation, bad stomach, and keep the system in perfect condition."

"Stock Food" will not do this. Because "Stock Food" is nothing more or less than a mixture of the very things which you, yourself, grow on your own farm. It is not more food your Animals need. They must have something to help their bodies get all the nourishment from the food they are getting. So that they will fatten, and stay fat, all the year 'round. They need something to prevent disease, to cure disease, and to keep them in the best of health, all the time.

Centralia, Ont., Feb. 7, '10.
The W. A. Jenkins Mfg. Co., London, Ont. Gentlemen,—We have been using Royal Purple Poultry and Stock Specific for the last three weeks, and must say that results are remarkable. Am feeding the Stock Specific to two milking cows, and they have increased 30 per cent. in their milk. The Poultry results are even more marked than this. We have about 60 hens, laying age. When we commenced feeding, we were getting five and six eggs a day, and in the last five days the same. Stock Specific to two milking cows, a day, and in the last five days the same flock of hens laid 150 eggs, almost an average of 31 each day, and those five days have been the coldest this winter.

You can see results plainly in two of three days after the use of "Royal Purple," and the poultry have the same hustle and appearance now as in the sum-mer time. With cows and poultry, am using exactly the same feed and care ad-before starting to feed "Royal Purple." When farmers and stockmen get acquainted with Royal Purple, it will have a greater demand than all other tonics

These thousands of tons are not made These thousands of tons are not made out of the earth, but out of the air, and are intended to be turned over into soil. If you plant a tree in a tub of dirt and leave it there until it weighs a hundred pounds you will find by weighing the dirt that the tree was not made up of what was in the tub, but almost altogether of what it could get from the air—carbon and nitrogen for the most part, with hydrogen composing a good share of the liquid part of sap.

The elements of the soil that are not in the air are deep down under the surface of the soil or incorporated in the rocks. The most important are potash and phosphorus. You get some potash from ashes, weed waste, soapsuds, and there are a few soils the soil of the soil of the soils.

Agriculture should be renamed Agriculture should be renamed aericulture, because we are really taking from the air the larger part of our annual crops. What we must know is how to do this most readily. Our fathers knew that they must use manure, and they knew that they must rotate crops. They knew also that living plants fed on decaying plants, this having first served as food for animals. animals.

Alfred Sandham.

Toronto recently lost one of her most valuable literary workers in the person of Alfred Sandham.

Mr. Sandham's efforts were along historical lines. He dealt with the past, in press clippings, biographical sketch, and pictures. While he could write with grace and expression, he devoted most of his time to the art of

compilation.

For his own family he was preparing at his death an illustrated history of Montreal in five volumes. He was an ardent and indefatigable of engravings, and during

his life-time must have gathered together hundreds of thousands. When failed to do, the effect was to embellish something already interesting from an historical and literary standpoint.

On Sunday evening, Feb. 21st, the Young People's Guild entertained the young people of Chalmers' Church, Brooke, at a social gathering in the town hall. The evening was spent in games and so ial intercourse. A short but excellent program was given consisting of recitations by Misses Elya McIntyre, Ila Hunter, Annie McLean and Reta Field, and mouth organ medleys by Robt. Mackie and Will Smith. The serving of Inach ended a pleasant evening.

On Friday evening the Literary Society

On Friday evening the Literary Society in connection with the Young People's Guild held an interesting debate in St. Andrews' Church. Topic was:—Resolved, "That Reciprocity is more beneficial to Canada than the United States." The meeting was opened by prayer by Rev. Mr. Stewart, pastor, who also gave a concise account of the object of the Literary cise account of the object of the Literary and Social Committees of which Miss Kadey is chairman. Prior to the debate the following officers were appointed:—Stanley Graham, president; Arthur Merrick, Ist vice president; W. Dundle, second vice president; Mrs. (Dr.) Sawer, sec.-treasurer. The leaders on the affirmative side were Mr. Stanley Graham and Miss Reta Field, both fluent speakers who set forth excellent points in favor of Reciprocity between Canada and the United States. The leaders on the negative side were Miss Lulu McLean and the United States. The leaders on the negative side were Miss Lulu McLean and Mr. Albert Clothier, both of whom spoke ably giving reasons for Reciprocity being detrimental to Canada. Supporters on affirmative side were Miss Irene Gough and Mr. Arthur Field; on the negative, Mr. Fred McPhail and Miss Christie McLean. Mr. Graham concluded in a masterly summing up. The sides were closely contested, the judges Mr. McIntyre, Mrs. (Dr.) Sawers and Miss L. Kadey deciding in favor of the affirmative. The next meeting will be held in three weeks in the town hall.

### RHEUMATISM CURED TO STAY CURED

Liniments of no Avail - The Trouble Must be Treated Through the Blood.

This article is intended as a talk to the man or woman with rheumatism who wants to be cured. Not merely relieved, not half cured, but actually cured. The mants to be cured. Not merely relieved, not half cured, but actually cured. The most a rheumatic sufferer can hope for in rubbing something on the swollen aching joints is a little relief. And all the while the trouble is becoming more firmly seated. Medical authorities now know that rheumatism is rooted in the blood, and that while rubbing on liniments or hot fomentations may give temporary relief, they cannot possibly cure—you must go to the root of the trouble in the blood. That is why Dr. Williams' Pink Pills cure rheumatism. They make new, rich blood, which expels the poisonous acid, and the rheumatism disappears. There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills that they are now free from the aches and pains and tortures of this dreaded trouble. Mr. Joseph Luddington, New Harbor, N. S., says: "Some three years ago my wife Joseph Luddington, New Harbor, N. S., says: "Some three years ago my wife was stricken with rheumatism, and suffered so much that we despaired of her eyer getting well again. At first she was able to go about, but in spite of all we did for her she grew so bad that we had to lift her in and out of bed, and finally the pairs grew so exercising. we had to lift her in and out of bed, and finally the pains grew so excruciating that we could only move her little by little, with the sheet under her. Finally we were induced to get Dr. Williams' Pink Pills for her. I do not remember just how many boxes she took, but I do know that they were the first medicine that reached the disease, and that she continued to improve until she was again as well as ever, and could do her household work. To us it is simply marvellous what Dr. Williams' Pink Pills did for her, and we are glad to give this testimonial in the hope that it will benefit some other poor sufferer."

Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont,

#### BOWEL TROUBLE MAKES SICKLY BABIES.

Bowel trouble is the cause of most of the ailments from which little ones suffer. When baby's bowels are not work-ing regularly illness is sure to appear, but when the bowels are regular the little one is usually bright, active and happy. No other medicine for babies happy. No other medicine for babies has such good effect on the bowels as has Baby's Own Tablets. They make their action regular, sweeten the stomach and promote good health. Concerning them Mrs. Freeman Feener, of Barry's Corner, N.S., writes: "I can heartily recommend Baby's Own Tablets for all the troubles from which little ones suffer. My baby girl was so small and puny I thought we would lose her. I saw Baby's Own Tablets advertised and began giving them to her and now she is a big, healthy, happy baby. For this I thank the Tablets, and I always keep them in the house," The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Dumas and a Dog.

Dumas and a Dog.

Dumas pere, designing to be in the fashion during the sporting season, purchased a fine dog at an equally fine price. The next day he set out shooting in the environs of Marly. A partridge rose, and Dumas fired, wounding it. It fell about 100 feet away. Away went the dog, but simply gave the bird the coup de grace. Dumas, enraged, took the ramrod of his gun to whip the dog. The dog took the ramrod between his teeth, rose on his hind legs and began to dance a polka. The famous author then perceived that the dog had not been trained to retrieve. His fame had been made in a circus. Disappointed, Dumas retraced his steps and gave Fido to the first peasant he met.

### How Old People May Prolong Their Lives

At advanced age the organs act more slowly than in youth. Circu-lation becomes poor, blood thin and watery, appetite fitful, and digestion weak. This condition leaves the system open to disease such as Coughs, Colds, Grippe, Pneumonia, Rheumatism, etc.

VINOL is the greatest health creator and body builder we know of for old people, as it supplies the very elements needed to rebuild wasting tissue and replace

weakness with strength. HERE IS THE PROOF A case is recorded in Albany, N. Y., of a woman who felt she was breaking down by age and was doomed to the weak and feeble condition of old people. She had no strength and the slightest ex-ertion tired her, but VINOL made her well and strong, and she states that she feels ten years younger than she did be-fore taking VINOL.

We ask every aged person in this neighborhood to try a bottle of VINOL with the understanding that we will return their money if it does not prove beneficial.

### What Has Dandruff Got To Do With Baldness?

You see the statement every day that the one cause of baldness is dandruff. But is it?

True, dandruff often precedes the departure of the hair.

It is equally true that you know men with a shock of hair you can hardly pull a comb through, who have carried around a dandruff laden collar as long as you have known them.

You have also seen men whose scalp was kept as clean as a baby's whose hair was surely departing.

That dandruff talk sounds well and convinces a good many of us, but let us not fool ourselves.

### The One Girl

Case of Love at First Sight

AGNES G. BROGAN Copyright, 1910, by American Press Association.

Jack Townsend leaned back in his at on the train and looked long and admiringly at the girl across the aisle. For some time he had been casting surreptitious glances in her direction as she read on, absorbed in a maga-

zine, unconscious of his presence. Townsend waited for her to raise her long lashed eyes. She did so presently, and her careless glance around included Jack, but just in that fleeting moment it came to him positively, indisputably, that this was the one woman. He fretted uneasily as the train flew on and the miles slipped Was there no way under the sun that he might speak a word to her, no way that he might learn her name, before she reached her destination and passed, perhaps, from his life forever, carrying with her his hope of happiness? It was strange, he reflected, that he should feel so convinced of this fact. The girl closed her magazine, and as she leaned forward to place it in her valise her golden chain caught about the arm of the seat. There was a little click, and the locket came rolling across, to stop directly beneath the toe of Townsend's boot. He reached for it quickly and then sat staring at it in amazement, for the cover lay open in his hand, revealing the fat, smiling face of his old time chum Tom Dan

vers.
"If you please," said a voice. And he turned to find the "one girl" regarding him curiously, her hand outstretched to receive the trinket. Townsend was at her side in an in-

"Pardon me," he began eagerly. "You see, I was rather taken aback, for your locket contains a picture of my old college chum Tom Danvers. If you are a friend of his you may have heard him speak of Jack Townsend"-he produced a card smilingly-'at your service."

Her face flushed rosily as she aceepted both the locket and card. "Yes, indeed. I have heard of you often-

"AM I PARDONED THE DECEPTION?"

the fishing trips up in Canada that you enjoyed together, various college escapades"—she flushed again—"and lately I have heard that you are to be

best man at the wedding."

"The wedding!" Jack had forgotten that old Tom was to be married next month. Something seemed to whirl around in his head as his glance fell upon the girl's left hand, where a large

diamond sparkled in the light. With an effort he remembered what would be expected of him. "Allow me to wish you happiness," he said stiffly.

"I shall renew my congratulations when I next see Tom." "Won't you sit down, Mr. Town

send?" she asked. For a very short time he hesitated. It seemed a mocking fate which caused the coveted opportunity to arrive just as he had discovered its futility; then suddenly he resolved that this one day or hour would be his to enjoy at least, Afterward-well, afterward there would be the memory. So he made himself entertaining, as he well knew how, and the girl flashed him bright glances or veiled her eyes provokingly, and the hours passed as moments un-til at twilight he arose to bid her goodby with a great regret tugging

at his heart. "You will not forget the date of the wedding," she reminded, and he answered savagely as he turned away, "It will be impossible for me to attend

### Which is Your Choice?

Sloppy, leaky wooden troughs, or clean, durable Concrete?

Wooden drinking troughs are about as reliable as the weather.

They are short-lived and require replacing every few years not to mention continual patching to keep them in repair.

The best of wood cannot withstand, for long, constant dampness and soaking. Its tendency to rapid decay soon shows itself in leaks and stagnant pools of water around trough.

Contrast with this the durability, cleanliness and well-ordered appearance of Concrete.

The dampness which destroys lumber only intensifies the strength and hardness

You can impair a wooden trough with comparatively little use; but it takes a powerful explosive to put a Concrete water tank out of business.

She waved to him from the car window, and he stood upon the station platform watching her smiling face until he could see it no more. He settled down to business after this with a determination to forget the haunting face of his friend's promised wife and purposely avoided the byways which Tom was known to frequent. A meeting between the two was inevitable, however, and his friend's bulky figure loomed up before him one day upon the street

"Great Scott, Jack," was his greetng, "where have you been?" "Busy," he answered shortly.

"Well, you'd better cut it out for while," Tom went on, "and run up

to Bedford with me to see Adella." Townsend intended to refuse the invitation curtly; then that taunting memory face flashed before him, "All

right," he agreed recklessly; "I'll go." His heart hammered away against his ribs in a very foolish manner as the two men awaited the appearance Tom's fiancee, and, when she came gliding gracefully into the room and he was duly presented by Tom, Jack stared incredulously from one to the other, for Miss Adella was tall and while the "one girl" had been small, with dark and curling locks. His thoughts were very misty and confused throughout that call, and as Tom led the way later to the suburban

train Jack accosted him sternly: "See here, Tom," he said, "Miss Adella is very nice, and you are a lucky man, but what do you mean by engaging yourself to another girl only to deceive her in the end?"

His friend turned with unexpected anger. "What do you mean by that?" he demanded.

"That you have been making love to a little dark haired girl." Jack persisted.

"I certainly have not," Tom pro-tested hotly; "don't even know any one answering that description. Maybe you know what you are talking about. I don't."

"You will have to excuse me from being best man at your wedding," Jack said presently. "I shall be too busy to act."

"All right," his friend responded,

and they parted coldly.

But Jack Townsend walked briskly up the avenue, and the frown which had formed between his brows van-ished, for it occurred to him suddenly, that wherever the "one girl" might be she was now free. He recollected with dismay that, though he had spoken freely of his past, present and future that memorial day upon the train, he had neither learned the name nor destination of the girl who had listened so attentively, but as he made occasional business trips to distant cities he watched continually with a patient hopefulness for a glimpse of her face, and it was when returning from one of these trips that the expected hap-

pened. He was leaning back wearily as the car door was thrust open to admit a laughing couple. The girl who came first wore a long white cloak, and the face peeping from beneath the drooping plumes of her hat was the piquant face of his little locket lady, and

the man who followed her down the aisle, visibly shaking white rice from his coat and hat as he came, was unmistakably—Tom!

They passed without recognition and took an opposite seat. Inwardly raging, Jack vainly tried to solve the

mystery. Could it be possible that his friend had fallen captive to the charms of this demure maid and while still betrothed to the fair Adella had married her the very night preceding that named for his long planned wed-ding? This, under the circumstances, seemed to be the only reasonable conclusion, and just as Jack reached it Tom leaned over and touched him on

"Jack Townsend." he exclaimed delightedly, all animosity forgotten, come over here. I want to introduce you to a young lady."

There seemed to be no way of escape,

so Townsend sulkily obeyed. "This is Adella's friend Miss Grenville," he heard Tom saying, and a bewildering smiling vision seemed float uncertainly before him for a moment.

"Tom," he asked deliberately. understand you to say Miss? "Certainly," his friend replied.

"Then I am going to ask a favor," Jack continued. "Go and lose yourself

DIED.

Centre Road, East Williams, Tuesday, Feb. 21st 2. John B. McMillan, aged 98 years.

In memory of our loving mother, Jane Saunders, who died one year ago March 7th:—
We often sit and think of you when we are all alone. arone,
For memory is the only friend that grief can call its own.
Like ivy on the withered oak when all things else decay else decay
Our love for you will still keep green and never
fade away.
