## Montreal Stock Market.

**MARKET STEADY, BUT QUIET—BOARD ADJOURNS UNTIL TOMORROW ON ACCOUNT OF DEATH OF LIEUT. COL. OSWALD.**

The market this morning was fairly broad but inactive, with the exception of Pacific. Fourteen issues were dealt in at prices from steady to strong. The leader of the market was Pacific which sold under parity, the quotations from London being  $102\frac{1}{2}$  and the highest figure at which it sold here being  $99\frac{1}{4}$ . The increase in earnings for this road for the last ten days in May amounted to \$61,000. Consols declined in London on account of the trouble in Paris and this would doubtless have an indirect effect upon quotations in London and New York. At 12.30 p.m. the Board adjourned until to-morrow out of respect to the memory of Col. Oswald.

**Canadian Pacific**—This security opened this morning with sales at  $99\frac{1}{4}$  at which price 100 shares were disposed of, it then sold at  $99\frac{1}{2}$  for a lot of 75 shares, advanced again to  $99\frac{1}{4}$  for a lot of 100 shares, and finally closed at  $99\frac{1}{4}$  at which price sales of 450 shares were made; the closing quotation being  $99\frac{1}{2}$  to  $99\frac{1}{4}$ .

**Toronto Rails** was dealt in lightly, but at advanced prices. It opened at  $117\frac{1}{2}$ , advanced to 118, and sold at the close at  $117\frac{1}{2}$  with  $117\frac{1}{2}$  bid for more and  $118\frac{1}{2}$  asked.

**Montreal Street** also scored an advance, although the trading was light. All sales of the old were made at at 316 and of the new at  $314\frac{1}{2}$ . These figures were a distinct advance over Friday's, the highest price at

which sales were made on that day being  $314\frac{1}{2}$  for the old. Saturday's increase in earnings amounted to  $\$716.12$ .

**Twin City** was dealt in to the extent of 75 shares, 25 of which at the opening brought 68, and 50 later at  $67\frac{1}{4}$ . The closing quotations were  $67\frac{1}{4}$  to  $68\frac{1}{4}$ .

**Dominion Cotton** was inclined to strength settling up to 109. The trading was light, only 125 shares being disposed of, and it closed  $109\frac{1}{2}$  to 110.

In the mining issues small sales were made of War Eagle, Montreal-London, and Republic, at practically Friday's figures.

The balance of the trading consisted of 100 shares Com.-Cable at  $184\frac{1}{2}$  to 185, 130 shares Twin City pfd at 138, 33 shares Can. Bank of Commerce at  $153\frac{1}{2}$  to  $154\frac{1}{4}$ , 31 Bank of Montreal at  $250\frac{1}{2}$ , and \$5500 Col. Cotton Bonds at  $101\frac{1}{2}$ .

### STRAWS.

The Bank of Montreal had a meeting of shareholders.

Mr. Crawford wanted information regarding gross profits. He wont get it.

Mr. Morrison was eloquent and to the point. His remarks will be quoted tomorrow in full. Reporters were there.

The usual motions were made and passed.

### LIEUT.-COL. W. R. OSWALD.

In the death of Col. Oswald the Board loses one of its oldest members. For over thirty years he has been a regular attendant on 'change, even when business was most brisk, Col. Oswald has been accused of devoting his time and energies to the military exigencies of his country. During the Fenian Raids, Lieut. Oswald accompanied his brigade to the front. He subsequently joined the Montreal Field Battery, but was later on induced to take command of his former regiment. His deep interest in military matters was retained till business interests finally necessitated his resignation from the Militia, with full honors. The Colonel accompanied the Canadian Artillery to the great English Meet of 1881, where they gained great credit. He was President of the Dominion Artillery Association and accompanied his regiment to the North West in 1885, during the Riel rising. The immediate cause of his death was an attack of pneumonia contracted on shipboard on his way to visit his mother, whose health was failing. Mr. W. R. Oswald was born in 1848, and was in the prime of life. He will be buried in the family lot in Seabanks, Aberdeenshire.

## MONTREAL MINING EXCHANGE.

There were evidently two opinions and two sides to the market to-day, and whereas some stocks continue to advance others halt and waver.

Among the latter might be mentioned Big Three, which was bid down to 19, at which figure 2000 shares changed hands, and at the close buyers were offering to give 18.

Virtue was also going a little cheap round 49, although the later sales were made at an advance of  $3\frac{1}{2}$  points; 400 shares being sold for 52 $\frac{1}{2}$ .

Republic continues to keep strong round 133, and Montreal-London slow at 57.

Golden Star, however, engaged most of the attention, 4000 shares being sold. It still enjoys pre-eminence, and has been heavily dealt in during the past week, with transactions almost bordering on the sensational. Both in Toronto, Vancouver, Rossland and Montreal it leads in activity.

Of all the lower Seine country mines, Golden Star leads, with Oliver a close second.

Just a little more than three years ago a bond on the property for \$30,000 was thrown up by the holders, and now to-day it is selling at 73, representing a value of \$700,000 for the mine, leaving out of account an additional \$200,000 of stock lately issued by the company.

The shaft is now down 40 feet, and a 10-stamp mill is situated on J.O.41., an adjoining location under lease to the Golden Star Co.

The production of Gold in Ontario in 1898 was 16,075 ounces, valued at \$271,906

# NEW YORK EXCHANGE.

EARLY PRICES AFFECTED BY PARIS NEWS—SUGAR BREAKS—INDUSTRIALS ACTIVE.

New York, June 5.

The London market is said to be rather unfavorably affected by the Royalistic demonstrations in Paris. At the opening, prices generally were below their close on Friday, and Americans suffered correspondingly and were all fractionally below our close on Saturday.

Since then somewhat better feeling has sprung up, and the market has shown a steadier tendency.

Political disturbances in France can have very little effect on the security markets abroad, other than of a sentimental nature. There is very little news of a character bearing on prices has come out over Sunday and what there is is of rather a negative nature. Saturday's market was very dull and rather professional. It displayed considerable strength till shortly before the bank statement came out and then prices sagged the banks using the statement as announced with which to attack the market.

The statement was a disappointment, but it would appear that for the present at least the money market is not likely to cut any very important figure.

The Banks are in a very strong condition and a small decrease in their reserves can only have a sentimental effect. The way in which the statement was taken merely goes to show what a professional market the present one is. There is some speculation as to what the expected dividend on F. S. and Steel Wire will be.

There is nothing new as regards the condition of crops, and it seems quite likely that the local stock market will in the immediate future continue to be one of a professional nature.

New York Noon, June 5.

This morning's market was very much as might have been expected. The standard shares opened at slight concessions from Saturday's price, owing to the lower prices in London, said to be occasioned by the political disturbance in France. Shortly after the opening the market rallied fractionally, and since then, has been of a purely professional nature, displaying only a few special movements of interest.

Sugar opened about 1 p.c. below Saturday's close and rallied quiet sharply when one or two buying orders came into the market at same time. At the advance considerable stock came out which carried the price more than two points below the highest of

morning. There was no large or significant selling on way down, but on the other hand there appeared to be very little stock wanted.

The local traction shares have displayed their usual nervousness fluctuations in Metropolitan being over 3, and those of B.R.T. nearly as wide.

There is no news, except the announcement made in yesterday's paper that they will test the constitutionality of the Ford Bill. There seems to be some probability that they will prove its unconstitutionality, so this is a bull factor.

Crop news from the West is slightly more encouraging, but the market continues to be of a professional nature, Commission House business being at a very low ebb.

The directors meet to act on the dividend this week, and the Street is full of rumors that the dividend will be reduced, and the persistence with which these rumors are circulated looks very much as if they were part of the manipulation. Consequently conservative people are not inclined to think much of them.

It seems quite likely that the present nervousness in Sugar will continue till after the directors act on dividend, and that between now and then it will be subject to very violent fluctuations.

## MINING NEWS.

VANCOUVER, B.C., June 4.

Eight hour law comes into effect in British Columbia mines on June 12. Some sensational telegrams are being sent out as to trouble arising from fact that Nelson and Slocan mine owners have notified men that pay hereafter will be \$3 per day if eight hour instead of \$3.50 per day of ten hours. Some of mines said to have shut down because of trouble, have merely closed, as usual at this season of year because of too much water. James Wilkes, travelling organizer of Western Federation of Miners for British Columbia and State of Washington, has talked freely on matter. He well puts the situation when he says: "I am inclined to think that the public is possessed of exaggerated idea of seriousness of situation. My impression is, there will be no trouble in any part of Province, excepting possibly Nelson and Slocan districts and in latter many mines will be closed down for few weeks, as they usually do at this season of year, owing to difficulty encountered by reason of surface water flooding inner workings."

The proposition of mine owners of Nelson and Slocan to reduce wages to \$3 is in my opinion, most unreasonable, for it is admitted that men will accomplish more in proportion to hours worked in eight hour day than they will in ten hour day. I believe that considerable opposition to this reform comes from people who do more mining with pen, than with pick, and drill, and in some cases inspired by political bias and prejudice. It is surprising to think that so much opposition would be forthcoming to reform, which means so much to improvement of laborers of this Province without corresponding loss to employers. In my opinion \$3.50 is not too much pay for good miners in this country neither do I think many miners will work for less."

Rossland, B.C., June 3.

Shipments of ore from Rossland Camp for past week and for year to date: Leroi, 1,920 week; War Eagle, 1,739; Iron Mask, 774; Centro Star, 185; total for week, 3,918. Total tons for year, 51,677. The shipments of ore this week total 3,918 tons, as against 2,454 tons last week.

The Evening Star continues to report a good showing of ore in the working. A strike has been made in the No. 1 on the new 300 foot level; the ore is of high grade value and there is plenty of it.

Returns from Columbia and Kootenay, Great Western, Nickel Plate, Josie, and

No. 1, show that 3 to 8 miles of underground work has been accomplished during the twelve months ending May 1st. Le Roi returns from March 1st to 15th May, 75 days, shows 23,420 net tons shipped, yielding 14,000 ounces of gold, 26,000 ounces of silver, 880,000 pounds copper, total value \$412,000, average shipment per day 312 tons worth \$5500 per day. These figures will give an idea of the great deal of work that is quietly being done.

The B. A. C. are opening extensive machine shops this week, which will be used both for manufacturing supplies and repairing.

The New War Eagle plant will be in full force this coming week.

There is no trouble on the labor question in this camp nor is there likely to be.

## CHICAGO MARKET.

VISIBLE INCREASES — MARKET WEAK—CORN SAGS.

Chicago, June 5.

The strength of the early cables was the sustaining influence at work at the opening of the Chicago market. Prices during the early hours failed however to maintain their buoyance, the feeling in the room, among traders being that the rise for the present had been sufficient.

Statistically the market is not in satisfactory shape and the outlook indicates lower prices as compared with prices paid during former years.

The difficulty at present in the way of higher prices is the poor demand among exporters. Buyers are not able to purchase freely at current quotations, because of the difficulty of selling for shipments at a profit.

The demand for corn and oats continues fairly good. The improvement in supply in the case of oats, noted a few days ago, has not continued and deliveries are now very light. Corn also shows a substantial decrease again. The ready and improving cash demand with the slowly increasing deliveries should tell in the near future.

The following is the visible supply of grain in New York on the dates mentioned:

June 5,	May 29,	June 6,	
1899.	1899.	1898.	
Wheat...	26,185,000	24,192,000	22,587,000

Oats....	8,321,000	7,883,000	7,869,000
Barley...	1,342,000	1,455,000	583,000

The amount of wheat on passage to the United Kingdom shows an increase of 560,000 bushels compared with a week ago, and an increase of 4,560,000 with a year ago.

The amount of wheat on passage to the Continent shows an increase of 400,000 bushels compared with a week ago, and a decrease of 9,280,000 with a year ago.

The total amount of wheat in sight shows an increase of 2,953,000 bushels compared with a week ago, and a decrease of 1,122,000 with a year ago.

The wheat in sight, with comparisons, is as follows:
