Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Douglas Library
Queen's University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Douglas Library
Queen's University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

INTEREST TABLES

AT

SIX, SEVEN, EIGHT, NINE, TEN AND TWELVE
PER CENT. PER ANNUM

SHOWING THE

INTEREST ON ANY SUM FROM \$1.00 TO \$10.00

FROM ONE DAY TO FIVE YEARS

— ALSO —

EXCHANGE ON LONDON

From 7 to 11½ per Cent. Premium

MONTREAL

BEAUCHEMIN & VALOIS, BOOKSELLERS AND PRINTERS

256 and 258, St. Paul Street

—
1878

HG 1638. C2 I5

INTRODUCTION.

The percentage Tables in this volume have been prepared in the belief that they will be found very useful to business men everywhere.

TABLE I.—This Table shows the Interest upon One Dollar for one hundred days at the several rates per cent.; the interest being calculated to *five* places of decimals. By means of this Table, interest may be computed very easily, the rule being to take from the Table the interest upon One Dollar for the given time and multiply it by the number of dollars upon which you wish to know the interest.

Example.—What is the interest upon \$200 for 91 days at 8 per cent. ? Take from the Table the interest upon One Dollar for the time, which is..... 02022
 Multiply the interest by 200
 Answer..... \$4.04400

TABLE II.—This is the general Interest Table from which interest upon any sum is directly taken. At the top of each page is the number of Dollars upon which the interest is computed, as shown upon the page. The time column, showing the years, months and days, in their natural order, is in the centre of each page, and the various rates of interest are arranged on either side of it, in parallel vertical columns.

Example.—What is the interest upon \$500, for one year, four months and seventeen days, at 8 per cent. ?

Turn to page 111, which gives the interest for one year, as..... \$40.00
 Add for four months, as..... 13.33
 Add for seventeen days, as..... 1.89
 Answer..... \$55.22

INTRODUCTION.

To get the interest for cents, take from the table as for dollars, simply pointing off two more places of decimals in the result, the interest for a given number of cents being just one hundredth part of the interest for a like number of dollars.

TABLE III.—The use of the Compound Interest Table, on page 7 is as follows : The first left hand column shows the years from 1 to 20, and the horizontal lines to the right show the *amount* of \$1, or £1, at compound interest, at the rates shown in the top line. These amounts are carried to six places of decimals. The rule is to take from the Table the amount of one dollar for the time and rate, and multiply it by the number of dollars.

Example.—What is the amount of \$500, at compound interest, for thirteen years, at $4\frac{1}{2}$ per cent. ?

The amount of one dollar for the time as shown in the table, is..... \$1.772196

Multiply by the number of dollars 500

Which gives as the amount required . \$886.098000

1 Dollar.
