DEMONSTRATIONS SHOW HIGH FEELING IN ULSTER

Sentiment in Many Rural Sections Vies With That in Large Centres in Opposition to Home Rule, But Nationalists Are Also Strong—Former Liberal Explains Stand.

CHURCHILL WOULD AVOID FRICTION

LONDON, Jan. 28.—(Can. Press).—Ulster is now the political storm-centre of the United Kingdom. Home rule has been discussed in England and Scotland by Nationalists and Unionists, but no great enthusiasm has been aroused either for or against.

Several big demonstrations have been held in various parts of Ulster to protest against any change in the form of government of the country. One of the demonstrations in Belfast was of the industrial workers; another in Omagh was largely made up of farmers, small holders and farm laborers, who showed just as strong opposition to home rule as did their city brothers.

Every voter in Ulster, however, is not a Unionist. There is, in fact, a fairly large sprinkling of Nationalists. In many cases the Unionist members were only returned in the last election by narrow majorities.

Elaborate police precautions will be taken for the protection of Mr. Churchill. He should be joined by Mr. Redmond, on the drive from the residence of Lord Pirrie, where he is to be the guest, to the place of meeting with Mr. Redmond's usual custom of Nationalists, there is almost certain to be rioting.

Andrew Bonar Law, the Unionist leader, will go to Belfast on Tuesday, April 9, to Mr. Churchill and there will be another demonstration so that Belfast has a lively time ahead of it.

The objections of Ulster have been set forth by the Right Hon. Thomas Sinclair, one of the leading members of Belfast, a former Liberal, who left that party on the introduction of Mr. Gladstone's first home rule bill in 1886 and has since been leader of the anti-home rule party.

Home rule would undoubtedly set prosperity back, if it did not entirely ruin the industries which Ireland had to thank for her present increasingly happy position, says Sinclair.

Mr. Churchill, first lord of the admiralty, and Lord Londonderry, regarding the home rule meeting which is to be held in Belfast on Feb. 8, has not yet ended. Mr. Churchill sending a second letter to the ex-viceroy, in which he explains that he had nothing to do with the local arrangements for the Belfast meeting, and reminds him that home rule meetings had been held in Ulster Hall recently.

Opposed to Sliding.

After the regular service last night the congregation of Perth-avenue Methodist Church formed itself into a public meeting and passed the following resolution: Moved by F. Bowie, seconded by James Hemphill, that this congregation regrets that the city council, without any request from the people, began granting the means for Sunday tobogganing.

That we are of the opinion that this is but the beginning of an open Sunday in Toronto. That we are of the opinion that a great majority of the ratepayers and parents are opposed to the city providing a Sunday sport.

We believe that the city should not lead in anything tending to a sporting or open Sunday.

BOMB OUTRAGES ARE INCREASING

In Peking, Tientsin and Mukden There Were 32 in Five Days—Imperial Family Arrange to Abdicate.

LONDON, Monday, Jan. 29.—(Can. Press).—A despatch from Tientsin to the Exchange Telegraph Co. says that the imperial family met at the palace in Peking Sunday to consider the question of abdication.

According to the Daily Telegraph's Peking correspondent, President Sun Yat Sen has sent a circular note to the powers then in the Peking legations, signifying Yuan Shi Kai as the champion of the Manchus, and accusing him of repudiation of his pledges and agreements and of intriguing to secure the dictatorship for himself.

Bomb and revolver outrages are increasing in Peking, Tientsin and Mukden. There has been 32 of these outrages in Mukden in the last five days.

Champ Clark Out For Nomination

Breezy Missourian Makes No Secret of His Loyal Presidential Aspirations.

WASHINGTON, Jan. 27.—(Can. Press).—Speaker Champ Clark in a public statement today declared that he was a candidate for the Democratic presidential nomination standing on his own feet "without leaning on any other candidate."

The speaker appeals for the support of a representative delegation of "loyal Missouri Democrats," who will stand by him as long as he has a chance for the nomination. Mr. Clark is emphatic that he is in the presidential race on his own record and standing, and seeks no alliance with any other candidate.

DR. SUNDER SINGH DENIES STORY OF SIKHS

Proposes to Find Out if Loyal British Subjects Can Be Charged With Sedition With Impunity—Statement Is Absolutely False and Charges Are Contradicted.

In answer to an article which appeared in one of the evening papers on Saturday in connection with Sikhs in British Columbia, Dr. Sunder Singh of Victoria, B.C., who has been in Toronto for several weeks, made the following statement to the World last evening: "I was surprised to see in a Toronto evening paper last Saturday startling accusations against the Sikhs, and inasmuch as I was described as one of the most prominent of Vancouver Sikhs, I presume that I am involved in the charges."

"The article claims to be an exhaustive study of the conditions in question, but bears on the face of it the author's ignorance of the subject. Let me illustrate: It is stated that there are three thousand Hindus in British Columbia and of these one thousand are Sikhs, fifteen hundred are Jats, and the rest are Mohammedans, Brahmans and other castes. Now, Mohammedans are not a caste. Sikhs are not a caste, and

URGENT KAISER TO GO TO WAR

Militant Newspaper Demands Remedy for "Enervating Era of Peace."

NEW YORK, Jan. 29.—(Can. Press).—In a special cable from Berlin, the New York American today quotes Die Post, the organ of the German war party, as urging the emperor to end the Fatherland's enervating era of peace and lead it forward to new deeds and new glories.

"The German nation never yet refused loyalty to follow the king's and emperor's especially along paths that lead to heights. Even the four million misguided citizens voted for the party which would de throne the Kaiser and destroy the monarchy, the kernel of the nation remains true to the sovereign."

HOME RULE STIRS CONSERVATIVES OF CARLETON

Resolution Passed, With Clergyman as Mover, Bitterly Denounces Irish Roman Priesthood and Ancient Order of Hibernians—No Temere Manifests Intolerant Spirit.

STITTSVILLE, Ont., Jan. 28.—(Can. Press).—At the annual business meeting of the members of the County of Carleton Liberal-Conservative Association, held here Saturday, a resolution of more than ordinary interest was adopted.

"This association view with deep concern and misgiving the attempt now being made by the present British government at the dictation of the Irish Roman priesthood and the Roman Catholic Society, called the Ancient Order of Hibernians, to disrupt the United Kingdom of Great Britain and Ireland and to place the Protestant minority in Ireland under the yoke of Rome."

"The resolution, which was adopted unanimously, said in part: "We, the members of the Liberal-Conservative Association of Ontario, in conference assembled, do declare:

"This association view with deep concern and misgiving the attempt now being made by the present British government at the dictation of the Irish Roman priesthood and the Roman Catholic Society, called the Ancient Order of Hibernians, to disrupt the United Kingdom of Great Britain and Ireland and to place the Protestant minority in Ireland under the yoke of Rome."

"Realising as we do the autocratic, ambitious and intolerant spirit of the Roman hierarchy in Canada as instanced in the infamous ne temere decree now causing such trouble here, the late assumption of the Eucharistic Congress, with its gratuitous insult to Protestants as a soulless religion, and the general aggressions and demands of the papacy in defiance to our British liberties, we feel that if the Protestant people of England, Scotland and Wales, at the dictation of the papist-nationalist agitators betray their fellow Protestants in Ulster by passing home rule, they will be committing a grave crime, not only against Protestant and papist Ireland, but against the welfare of the United Kingdom and the whole of the British Empire."

"We realize that too much false statement and one-sided opinion in favor of home rule has been spread broadcast over this country by some secret organization, and thru Protestant and papist agitators, who, in difference, has remained unanswered. On one instance, we may refer to the uncalculated attack on that distinguished statesman and patriot, Sir Edward Carson, leader of the Ulster Unionists, in a late issue of the Ottawa Journal.

"We would it called its order by the holiest of names. It was a well entrenched evil in the Church of Rome. It was defended, he believed, because of the loyalty of those associated with it. He was opposed to Jesuitism because of its constitution and history, and its influence in public affairs. On these grounds Jesuitism should be opposed by all true lovers of their country. It was necessary also to take this

"Further, we felt that the present British Government in its form is the best and strongest in the world and that the attempt to supersede the strongest British central government with its great empire and world rulers by crude collections of localisms would be a step towards the disintegration and ultimate destruction of the United Kingdom and of the British Empire."

"We also take the occasion to deny that the Canadian people, as a whole, or even as a representative minority, desire or ever desired home rule for Ireland, or were ever seriously impressed by the reality of her so-called wrongs. That the very opposite is true we strongly affirm.

"We desire that a copy of this resolution be forwarded to Sir Edward Carson, Mr. Stacey, R. T. Richardson, J. J. Hodgins, Dr. Groves and others.

MONDAY MORNING, JAN. 29, 1912

PARALLEL STREET EXTENSION.

In deciding upon the extension of Teraulay-street the city council has, in connection with the parallel extension of Victoria-street, adopted a course alternative to the widening of Yonge-street. It is doubtful whether the result will be as satisfactory in the long run as a width of 100 or 120 feet on Yonge-street from King to College would have been, but with two parallel streets so close at hand, and proper traffic regulations the congestion on Yonge-street need not be intolerable.

It goes without saying that the construction of the tube or underground railway on Teraulay-street should be carried on at the same time as the extension. Millions would have been saved to the citizens had this improvement been commenced now, and the citizens would have commenced it had the newspapers which opposed it fairly explained the whole situation. However, the citizens will have to pay the millions eventually and they will know whom to thank for the extra expense.

WATERWAYS AND WATER POWERS.

Whatever may have been deemed expedient before cheap hydro-electric power became the vital necessity it now is, no hesitation should be shown now in accepting the plain duty of observing public rights in the water resources of the Dominion. Nor is it worth less important to lay down the principle that the internal waterways of the country shall be constructed and operated by the state in the national interest. The time has passed for the entrustment of public enterprises to private companies, and it is becoming always more clearly apparent that government control provides no true alternative to straight public ownership. Application has just been made for renewal of the charter granted in 1884 to the Montreal, Ottawa and Georgian Bay Canal Company, conferring what is virtually exclusive control of all undeveloped water powers on the area it covers. This opportunity should be taken to reconsider this important matter and reclaim for the Dominion its full freedom of action in the development and disposal of hydro-electric power in the district affected, and in the construction and operation of the ship canal if and when that provision is deemed to be expedient in the public interest.

IRELAND'S REAL DIFFICULTY.

Says The Telegram: "The anti-home rule city and province may not know their own business as well as The Toronto World knows it." Which is a fair sample of the way in which The Telegram misrepresents or misreads a plain statement. The World has not been concerned to tell Belfast what it should do. But it has tried to explain to numerous enquirers why Belfast acts as it does, and not as other parts of the British Empire in a like case have done. Why can Protestants and Catholics in Toronto live peacefully together and co-operate in politics, and not in Belfast? Why can Protestants and Catholics live peacefully together in Montreal and co-operate in politics and not in Dublin? It may be said that that is small extent they do. Why they do not to a greater extent is the point to be explained.

We believe the misunderstandings fostered by English politicians, and the efforts of partisan newspapers to maintain prejudices, are largely the cause. The Telegram itself in the article we have quoted adds its weight on the side of separation. English people seem to enjoy egging on the two Paddies to a fight. If one quarter the effort had been made to bring about peace that has been expended in setting Ulster and Munster by the ears, Ireland to-day would have been as united as Scotland. But Scotland isn't united, someone will object. No country is entirely united internally, but Scotland is united against England, just as Canada is united against the United States. Ireland is not a unity to outsiders, and the outsiders, since the time of Henry II, have kept stirring up strife in Ireland.

The Telegram misrepresents the whole situation in Ireland by suggesting that taking Montreal out of the Province of Quebec, or taking Toronto out of the Province of Ontario, represents the case in which Belfast finds itself. Nothing could be more misleading.

If it were proposed for the first time to erect Quebec into a province and give it a local legislature, which means home rule, and Montreal rebelled and

said she would fight first, that would be a parallel. Or if Ontario were getting a legislature for the first time and Ottawa declared she would never consent to be ruled by Protestant Toronto, it would more nearly represent the situation. There are far more Catholics proportionately in Belfast than there are Protestants in Montreal, and Toronto is much more of a Protestant town than Belfast. Nor is the proportion in numbers merely. There are wealthy and influential Catholics in Belfast, and the greatest Protestant employer of labor and one of the wealthiest men, Lord Pirrie, head of the Harland & Wolff shipyards, is a home ruler. As far as that goes, all the greatest home rule leaders have been Protestants, and it was the Protestant north that protested most against the union in the first place. Irishmen will never settle the matter with their coats off and their fists up, but as this is the characteristic attitude of The Telegram, not much sympathy can be expected from it for other methods.

The World believes that the Irish people would get along very well if their leaders would endeavor to lead them away from ignorance and prejudice, and teach them something of the facts. They have nothing to fear of each other. Indeed any North of Ireland Orangeman will undertake at any moment to fight six Papists. Ulster Protestants cannot therefore fear the actual four-to-one odds. But lest The Telegram take this seriously, let us say we are addressing Irishmen who appreciate a joke.

But for The Telegram itself we might point out that very little has been done to make the two Irish hosts acquainted with the grounds of their separation. How often do we hear, for example, that William III. fought the Battle of the Boyne as the ally of the Pope and with the Pope's benediction, and that William fought for the freedom of the Catholics as well as Protestants? If that were made clear to both parties would it not lead to a better understanding?

And how many Protestants are aware that the Bible, so treasured by Orangemen, published in 1611, is in the New Testament simply a version of the Douai Testament published in 1582, 29 years previously; and that the Douai version of the Old Testament was published in 1609, two years before the authorized version?

An immense amount of misunderstanding exists over the whole Irish question. It is not altogether a religious difficulty. The chief bitterness has been economic. In Munster and Leinster, with occasional exceptions, Catholics and Protestants dwell together on the best of terms. In Ulster there is an armed neutrality largely the result of the temperament of the people. Their leaders tell them not to listen to the other side. When they find themselves in danger of hearing the other side they resort to violence. What else could be expected? The Telegram well understands the bitterness of having to listen to the other side of an argument. It is much easier to howl down the arguments. But when North of Ireland people come to Canada and see home rule in operation they marvel at what that staunch Protestant, Standish O'Grady, calls the "fatal enchantment" that keeps Ireland at war with herself.

GOVERNOR WILSON AND THE INTERESTS.

In the current issue of Mr. W. J. Bryan's weekly, The Commoner, a front page article deals with the break between Governor Wilson and Colonel Harvey, editor of Harper's Weekly. It justifies the governor's action in frankly stating that Colonel Harvey's support was a liability instead of an asset and calls on the latter to recognize the situation and face it like a man. Whenever, says The Commoner, it became apparent that Governor Wilson was a progressive Democrat, the predatory interests were shocked and their anger has grown hotter and hotter every day. "The masses on the other hand were attracted and his political strength today is in exact proportion to the confidence that they have in the completeness of the change he has undergone." In publishing his former utterances in the hope of allaying his new-found friends, The Commoner holds that his opponents "forget that former utterances only prove the extent of the change, while the venom of his adversaries removes all doubt as to the reality of the change." Unless the situation in the Democratic party is cleared and as a two-thirds vote of the convention is necessary for a nomination it is quite in the cards that some dark horse will carry the Democratic colors in the presidential race.

All who agree with The Telegram are authorities. The rest are barbarians or wops.

The Telegram is always laboring under the delusion that what it takes for a smart answer is an argument. It seems to think that the result of a political election can affect the standards of art. Under the circumstances The Telegram must not be surprised if its opinion is regarded as no better than that of anybody else. Its painful deference to precedents when it can find any in support of its own views is hardly consistent with its superciliousness when the authorities are against it.

O'Keefe's SPECIAL EXTRA MILD ALE

CANADA PERMANENT MORTGAGE CORPORATION.

From the report and annual statement presented to the shareholders of the Canada Permanent Mortgage Corporation, appearing elsewhere in this issue of The World, it will be seen that the net profits for the year ending Dec. 31 last, after all deductions, amounted to \$747,453.87. This sum with \$41,758.73 brought forward from previous account made a total of \$789,212.60, available for distribution. Of this amount the dividend of 8 per cent, absorbed \$489,000, there was transferred to reserve fund \$250,000 and the balance of \$389,212.60 was carried forward at credit of profit and loss account.

In moving the adoption of the report, the president, Mr. W. G. Gooderham, referred to the fact that the reserve fund for the year ending Dec. 31 last, after all deductions, amounted to \$5,669,512.61 or \$663,000.00 above for 1910, also the returns from the western crops were later than usual. The demand for money was so great that no properties remained on hand at any of the company's offices at the close of the year.

In other respects Mr. Gooderham's interesting address bore testimony to the general prosperity of the country. The demand for money was so great that the company had not been able to accept all the good business offered and that demand, so far as can be seen, will continue for many years to come. Mr. Gooderham was enabled to declare that the operations of the company have continued to be satisfactory and the apparent outlook is so assured that if conditions remain as promising as at present the directors will be warranted in declaring the next quarterly dividend at the rate of nine per cent per annum. The shareholders have every reason to be gratified with the progress of the company and the ability of the management.

HUNDRED PER CENT. INCREASE.

One Montreal Industrial Modestly Reports a Large Increase. Dr. R. E. Guy Smith, president of the Holland Varnish Company, says that their secretary-treasurer's annual report shows a splendid increase in business for the past year. As compared with the previous year, before the merger with the Thorp Varnish Company, the increase in the sale of "DYKE" Varnishes and the other products of the company, developed an increase of over 100 per cent. "Our sales for the first year after the amalgamation have exceeded the highest anticipations of our directors," said Dr. Smith, "and we have not yet completed our organization. This coming year we hope to introduce our varnishes into the western and eastern provinces. Thus far we have confined our work to Ontario and Quebec."

SAIL FOR ENGLAND.

MALTA, Jan. 27.—After a three days stay here, the British steamer yacht Medina, with King George and Queen Mary on board, left to-day for England. Their majesties are en route home from the Durban. The battleships and shore batteries fired a royal salute in farewell as the Medina steamed out of the harbor.

TO REPEAL NAVAL BILL?

MONTREAL, Jan. 27.—(Special.)—Le Desautels' sensational article saying that a Nationalist member of the house of commons will move at an early date that the naval bill adopted by the Laurier government, be repealed. Le Desautels does not give the member's name, who is alleged to have stated that as the government moves too slowly he will move for the repeal himself and will not consent to have his resolution stand till next session.

VIADUCT COMMITTEE VISITS DON VALLEY.

No Division of Opinion on Construction of Main Portion From Danforth to Castle Frank. The special committee appointed by the mayor met at the residence of J. Strachan Johnston Saturday afternoon and went over the ground covered by the different plans submitted for the Blue-road viaduct. Some of the property which would have to be expropriated if the present plans go through, was first visited. Upon the arrival of W. F. Maclean, M.P., the party adjourned to the Glen-road bridge, where the different routes were viewed, and the different plans discussed. Mr. Lyle then took the party to the Blue-road viaduct, where he explained the location of his proposed terrace scheme. After talking over the situation for a few minutes, the members adjourned, to meet next Saturday afternoon at Mr. Johnston's residence, 1 Dale-ave.

Chronic Throat Trouble Permanently Cured.

Seven Days' Use of Catarrhoxone Performed Regular Miracle. Miss Counter's Case Proves the Wonderful Efficacy of Catarrhoxone. In All Throat and Nose Diseases.

WINDSOR, Ont., Jan. 28.—Miss Counter's case has created great interest to everyone troubled with sore throat, bronchitis or weak lungs. When asked for a statement Miss Counter said: "I contracted a heavy cold that settled on my lungs and resisted all treatment. After I had tried several doctors here and specialists in Detroit without benefit, I went to my druggist and asked him for the best remedy he had for colds on the lungs. He recommended Catarrhoxone, which cured my cold in one week. It brought back my voice, and I have been ever since free from my old trouble. For coughs, colds and lung trouble I am sure that Catarrhoxone is the best remedy. It goes right to the sore spot, gives quick relief and makes a lasting cure." Catarrhoxone cures because its healing vapor is inhaled to the very places that are sore and inflamed. To permanently cure your winter illness, your coughs, sneezing and Catarrh, by daily use of Catarrhoxone. Beware of the substitute and imitator. Look for Catarrhoxone only. 50c and \$1.00 at all dealers, or by mail from the Catarrhoxone Company, Buffalo, N. Y., and Kingston, Ont.

Pastor Russell's Sermon

SINGAPORE, Jan. 23.—Pastor Russell's text for to-day was, "Of a truth I perceived that God is no respecter of persons, but in every nation he that feareth Him and worketh righteousness is accepted of Him." (Acts x, 34, 35.) A report of his address follows:

Never before have we seen so cosmopolitan a city as Singapore. The swarms of Chinese, Malays, Hindoos, Javaneses, Singaleses, Burmese, Afghans, Madrasses, Tamils and many other nationalities are here intermingled by representatives of practically every nation in the world. Henceforth New York City must in my mind take second place as respects cosmopolitan population. The sight of these combined peoples, only a few of whom know of, worship, or in any wise acknowledge "the Only True God, and Jesus Christ whom He hath sent," stirs my heart and my head as well. My head enquires respecting God's provision for the three-fourths of humanity who have never heard of Him and the salvation which He has provided in Christ.

We recognize the clear statements of the apostle that "without faith it is impossible to please God." (Heb. xi, 6); and "How shall they believe in Him of whom they have not heard?" (Rom. x, 14) and also the commission "This gospel of the kingdom shall be preached in all the world for a witness, and then shall the end come." (Matt. xxiv, 14.) Properly enough we ask, "What kind of an end is coming, and what will it mean to the twelve hundred millions who know not God and to the thousands of millions of their ancestors similarly ignorant of Him?"

A considerable class of very good people by their creeds tell us that if God had foreordained the heathen to salvation He would have seen to it that the gospel would be preached to them; and that their not hearing the gospel signifies that God "passed them by" as "non-elect"; that the "elect" are to be found only amongst those who have been favored of God and who accept that favor and are "sanctified by the Truth" and "made meet for the inheritance of the saints in light." (Col. 1, 12.)

Another class of people by their creeds, which no longer truly represents them, tell us that they believe as above, only that they add another condition, namely, that "the elect," in order to be of the "elect," must be brought to a knowledge of water baptism—complete immersion, and must obey this teaching.

Another theory held denies that there is any "election" in respect to the matter, and denies that any particular amount of water is necessary, altho it does recommend a little. This theory declares God's love for the heathen, but says that He made faith in Jesus' sacrificial death a condition of salvation and that the responsibility for the heathen's not knowing, and consequently their going to eternal torment, rests with Christians themselves. They say that God did His part in providing the Saviour and that the carrying of this knowledge is wholly dependent upon Christians. One would think that with this view few Christians would be able to sleep a single night after once assenting to such a responsibility and realizing how little they have done or have been able to do to meet the responsibility.

Some dear people, holding the views last mentioned, have started a "Men and Religion Forward Movement." They propose to use about two million dollars to carry out the movement, and thereby to collect a fund of thirty million dollars (six million pounds). Dear people! How I love them for their zeal, even if it be as the apostle said—"not according to knowledge." (Rom. x, 2.) If they could stand in Singapore's streets and journey with us a little the light of their understanding would be opened. They would begin to figure out that the sum they expect to spend in converting the world is little over half a penny per soul! They must indeed think the heathen cheap when they reflect that the estimates on the work of the Rev. Billy Sunday a year after his meetings, show a cost of about six hundred dollars per soul, with doubts entertained respecting the saintship of even the most famous of them. Government statistics show that a century ago the heathens numbered six hundred millions and that to-day the number is double that, namely, twelve hundred millions.

Some, repudiating the creeds of the past as no longer tenable, fault the Bible with being the basis for those creeds and throw it away with the creeds. These are becoming apostates, higher critics, evolutionists, spiritualists, etc. And because of their worldly wisdom and social standing these higher critics are rapidly undermining all faith in the Bible as an inspired message from God to His people. They are selfish, some sailing in one direction and some in another—they have lost their chart of the ages and the great compass of divine truth in the depths of the sea of human wisdom, which, from the divine standpoint, is declared to be foolishness. Let us not take their course. Let us, on the contrary, declare that the difficulty with the creeds of the past has been that they divided up the word of God amongst them, and that each creed has a certain amount of gold as well as a large accumulation of dross. It would be too serious an undertaking for finites to put all the creeds into a crucible and separate the gold from the dross. Let us take the creeds and the Bible as they are, the simpler method to which all Christian people should be willing to accede, namely, to wholly cast aside our creeds and so back to the word of God—to the Bible—to the utterances of Jesus and His apostles and prophets. Thus doing, many will find to their surprise that while the creeds have gathered precious jewels of truth from the Bible, they have given these false settings, which they profess to illuminate. St. Paul's declaration is that the word of God is sufficient that the man of God may be fully furnished. (II Tim. iii, 17.) His further suggestion is that we "rightly divide the word of truth" and that it is able to make us wise unto salvation. Let us follow this course and allow God's word to be its own interpreter—allow one passage to explain another; and let us not reject none of the divine testimony.

Toronto's Big Auto Show.

R. M. Jaffray, the organizer of the Canadian National Automobile Exhibition, which is to be held in St. Lawrence Arena on Feb. 23, has just returned from Montreal, where he has been organizing a motor boat show to be held in that city, March 22. Mr. Jaffray says that practically all the space in the arena has been let to the biggest Canadian and American manufacturers, and business records are expected to be broken.

NO MORE LEVEL CROSSINGS

Must Be Banned Around Busy Cities, Says Chairman Mabce.

HAMILTON, Jan. 27.—The Dominion Railway Commission to-day refused to approve of the C.N.R. plans thru East Flamboro until the company files its plans showing the entrance into Hamilton. This followed protests by the city and the Hamilton Waterloo and Guelph Railway because the C.N.R. apparently proposes coming in over the latter's route. The farmers are kicking about level crossings. "The railways may as well start to get rid of the level crossings around busy cities," said Chairman Mabce. "They don't parliament will, and complete every railway in Canada to abolish level crossings." Waiters Protest. At the regular meeting of the Waiters' Union, Local No. 209, a resolution was unanimously passed protesting against the prohibition of Sunday logging.

OUR LADY OF LOURDES CHURCH IS DEDICATED

Bishop O'Connor of Peterboro and Prominent Clergy Took Part in Ceremony.

With Our Lady of Lourdes Church packed to the doors yesterday morning, the handsome new edifice was solemnly dedicated to its patron saint by Right Reverend Bishop Richard O'Connor of Peterboro.

At high mass yesterday, the opening of a three weeks' mission at Our Lady of Lourdes Church to be conducted by Rev. Frs. Kenney and Moran of the Paulist order, took place.

Over 1200 women attended the opening service last evening, when Rev. Fr. Moran preached on "The Purpose of Life." To-night Rev. Fr. Kenney will take for his theme "The One Evil," and Tuesday evening Rev. Fr. Kennedy will speak on "The Lesson of Death."

The lectures during the week of the mission devoted to non-Catholics will not be of a controversial nature, nor attacks on other religions, but explanatory of the Catholic faith. A question box will be conducted in connection with the lectures from which each following evening all questions will be answered from the pulpit.

TRAGIC FAMILY REUNION

Four Burned to Death and Five Others in Serious Condition.

BUTLER, Pa., Jan. 28.—(Can. Press.)—Four persons were burned to death or suffocated and five others are in a serious condition as a result of a fire early today at the home of Curtis Hale, at Clayton, a mining town ten miles from here.

A family reunion was held at the home of Curtis Hale, Saturday night. The fire was discovered at 3 o'clock this morning. An overheated stove or the explosion of a lamp is thought to have been the cause.

The dead are: Earl Mills, aged 35, son-in-law of Curtis Hale; Mrs. Polite Mills, aged 35, wife of Curtis Hale; Curtis Hale, aged 25, son of Curtis Hale; Curtis Hale, his wife and children, David James and Sadie, sustained burns about the head and body.

Men from a nearby coal mine, assisted by neighbors, extinguished the fire, and the bodies of the victims, the damage to the house was less than \$1000.

MAY RETAIN CHAIRMAN

Proposed Compromise on Montreal Harbor Board Difficult.

OTTAWA, Jan. 27.—(Special.)—Rather a tense feeling prevails among the Conservative members for Montreal district over the demand for the dismissal of G. W. Stephens, C. C. Hallock, and E. G. Gordon, harbor commissioners for the port of Montreal.

Mr. B. Ames, who represents the St. Ant. division, and who has always taken a close and practical interest in all that refers to shipping and commerce, led off in his insistence that the commissioners be allowed to retain their positions. On the other side, Mr. Dolph Forger (Charlevoix) and Louis Coderre (Stochel) head a vigorous demand for the heads of the commissioners.

The names which are put forward as active aspirants for the position are: F. L. Wanklyn, H. A. Ekers and Col. A. E. Labelle. The opinion seems to prevail here that G. W. Stephens, the present chairman, will be allowed to retain his post, his colleagues being succeeded by Messrs. Ekers and Labelle. Mr. Ekers is a brewer, and has twice contested the St. Lawrence division of Montreal. Colonel Labelle is the former officer commanding the 6th Rifles, and has large milling interests.

To Settle Manitoba Boundry

WINNIPEG, Jan. 28.—(Can. Press.)—Premier Roblin and Hon. Collin H. Campbell, minister of public works, left last night for Ottawa in connection with the extension of boundaries of this province. It is expected that the bill dealing with the same will shortly be presented to the house at Ottawa, and it is for the purpose of working out the final details of the bill that the ministers are going to Ottawa.

Mr. G. R. Colford is also to have gone east with the other ministers, but owing to illness, he has been forced to cancel arrangements in this connection.

Stand Firm on Metal Tariff

Democratic Bill Will Go Through Today, Despite Sincere Opposition of Republicans.

WASHINGTON, Jan. 27.—(Can. Press.)—In order not to pass the metal tariff revision bill on Sunday morning, the Democratic leaders of the house, after finishing the measure almost to a last paragraph, adjourned that body a few minutes before midnight to-night. They will pass it early Monday.

All attempts of the Republicans to amend the measure failed. The session was marked by sharp divisions between the Democrats and insurgent Republicans and the open declaration of many of the insurgents that they would vote against the bill.

The bill as it will go to the senate Monday will carry an average reduction of tariff duties on all metal articles of about 25 per cent. from the rates of the Payne-Aldrich law now in force. It is expected it becomes law in the next few days.

The measure will reduce duties on iron and steel imports by \$2,000,000 and reduce revenues about \$900,000.

The debate was marked by charges from regular and insurgent Republicans that the Democrats were applying "gag rule." Many amendments were voted down. Underwood's machine ruled all of them.

ARRANGED OVER, BUT PEACE RULES CHINA

Opposition to Republic Seems to Have Petered Out—Abdication Coming Soon.

NANKING, Jan. 28.—(Can. Press.)—The armistice, which has been in operation for several weeks past, expired to-day, but no definite steps have been taken for its renewal.

Neither Tang Shao Yi, the representative of Yuan Shi Kai, nor Wu Ting Fang, the republican minister of justice, expects serious fighting. Dr. Wu said in this connection that he believed the American countries would believe the oath he recently read to be the true basis of his performance.

Men can be trained up and down. Men can be trained up and down. Men can be trained up and down. Men can be trained up and down.

Chang Hsun, commander of the imperial troops, has his central base at Suchow, in the northern part of Kiangsu province. Under his direct command are 8000 of all sorts of good fighters, issued to the winter.

The revolutionaries, who numbered 100,000 men, in Anhwei Province, about 100 miles from Nanking. The revolutionaries, numbered 150,000 men, eager for fighting, but not acclimated.

Chang is Wily. Gen. Chang now occupies a special car, from which point of vantage he directs his troops, but a significant fact is that an engine is attached to both ends of the car. His retreat, however, is cut off 100 miles to the north by the old railway line, which turned over a few days ago to the revolutionary cause.

Confidently believed here that the abdication will come when Yuan Shi Kai is satisfied that the Chinese troops in Pekin are sufficient in numbers to control Manchuria.

Senators Cheer Republic. The new senate was inaugurated here yesterday. It is made up of 43 senators, of whom 15 are foreigners. President Sun Yat Sen, in his speech, urged unity. He said that it was proposed by the new regime to bring the hands on the clock of the president's address there was an impressive scene, the members rising in a body and giving three cheers for the republic. The hall was handsomely decorated and a military band played popular airs familiar to the foreigners.

CAN'T OUST GOULIN IF HARBOR BOARD IS KEPT

French Canadian Supporters of Borden Are in Earnest, But Not Defiant.

MONTRÉAL, Jan. 28.—(Special.)—There is a good deal of feeling amongst the French-Canadian voters over the lack of political sagacity on the part of the government in keeping the Montreal harbor in charge of the Montreal Harbor Board.

The very first reports were sent out that twenty-one had left the seat of government at least four hundred members had been assured by Premier Borden that the whole matter will be threshed out in caucus about Tuesday.

As long as it lasts the Quebec government is a menace to the security of the Dominion, and the sooner it is asserted, makes it out of the question to dislodge Sir Lomer Goulin. If the government is not ready to do this, the Quebec Government.

AUSTRALIA IS WILLING

MELBOURNE, Jan. 28.—(Can. Press.)—The Australian prime minister, Andrew Fisher, in an interview to-day said that he had received to official intimation of the proposals for a reciprocal trade agreement between Australia and Canada.

Both the prime minister and the minister of commerce, George Reid, are in favor of the agreement. The visit of the Canadian minister to Australia would be heartily welcomed, as such a visit would greatly facilitate negotiations.

MODERN WOODMEN RATES INCREASE

CHICAGO, Jan. 27.—The proposition for the revision upwards of the insurance rates on the Modern Woodmen of America was adopted at the convention by a vote of 460 for high grades against 307 opposing the proposition.

The plan increases the rate of insurance from 50 to 100 per cent. and provides for 12 assessments each year. Members have heretofore contributed from 9 to 11 assessments yearly.

WORKING ON CENSUS

The collection of the census cards was completed on Saturday, and the work of checking and tabulating, which is now in progress, will occupy the greater part of this week.

Notwithstanding the care taken to guard against mistakes it is possible that some may have occurred. Those who have reason to believe they have their names omitted to the chief constable's office promptly, so that any necessary correction may be made before the final returns are made up.

Opera Director Hurt

MONTRÉAL, Jan. 28.—Albert Clark-Jean, artistic director of the Montreal Opera Co., was severely injured in a collision between a taxi-cab and a street car on Saturday and will probably be laid up for two or three weeks.

Valuable Horse Shot

Breaking loose from its stall in Townsend's Livery Stable in Yorkville avenue, Sunday afternoon, a carriage horse valued at \$200 ran at top speed along Yorkville avenue and into an Avenue road, injuring one of its front legs so badly that it had to be shot.

STILL OPPOSED TO JESUITISM

stand publicly because of the challenge of Father Vaughan that his was the only true religion. It was not to be overlooked that the Roman Catholic Church possesses many great men who had accomplished much, especially for the promotion of architecture, music and art, and that its members are included thousands who worshipped in a vaulted light and would be saved thru their sincerity. He has no unkind word to say of any Roman Catholic, but when the old church learn to love as well as she now knows how to hate, she will be more Christian.

Jesuitism had shown what it could do when given the opportunity by the Vatican. Italy, Spain, and the South American countries. He believed the oath he recently read to be the true basis of his performance.

Senators Cheer Republic. The new senate was inaugurated here yesterday. It is made up of 43 senators, of whom 15 are foreigners. President Sun Yat Sen, in his speech, urged unity. He said that it was proposed by the new regime to bring the hands on the clock of the president's address there was an impressive scene, the members rising in a body and giving three cheers for the republic. The hall was handsomely decorated and a military band played popular airs familiar to the foreigners.

General Liang Pi Fatally Injured

High Manchou Official and ex-Commander of Imperial Guards, Victim of Unidentified Bomb Throwers.

PEKIN, Jan. 27.—General Liang Pi, a high Manchou official and former commander of the Imperial Guards, was injured perhaps fatally to-day by a bomb thrown by an unidentified Chinaman in military uniform.

The man hurled the bomb from the side of the road as Liang Pi was alighting from his carriage at the entrance to his home. Both of the general's legs were broken and torn by fragments of the missile, and surgeons who were hurriedly called, insist that the amputation of one limb was immediately necessary. The operation was performed at once. The patient's condition was later pronounced critical.

The assailant was himself instantly killed by the explosion. General Liang Pi was a strong reactionary and prominent supporter of the old regime. He had been suspected of implication in the recent assassination of General Mu Lu Cheng.

FUNERAL OF THOMAS SWANSON

The funeral of the late Thomas Swanson, the well-known ex-amateur sculler, took place Saturday afternoon at 2:30 p.m. at the residence of Rev. Baynes Reid officiated.

Mr. Swanson was one of the organizers of the Don Rowing Club, and from 1880 to 1890 was looked upon as one of the Canada's foremost rowers. With Eddie Adamson he won many prizes both in Canada and the United States.

The pall-bearers were: Captain R. Hogarth and Messrs. Fred Howarth, Caperton, Smith, Johnston, Edward Adamson, all old friends and prominent figures around the different rowing clubs of the city.

Wounding Her Servant

MONTRÉAL, Jan. 27.—Mrs. James Griffin, convicted by Recorder Dupuis yesterday of throwing scissors and a knife at her domestic servant, wounded, and of pulling her hair out, and who was also accused by the magistrate of urging her children to persecute themselves, was this morning fined \$20, or an alternative, two months in jail.

PRO-GERMANS STRONG IN OPPOSITION TO GREY

His Policy Blamed For Competition in Armaments—Shuster Centre of Attention.

[By Cable to N.Y. Tribune] LONDON, Jan. 27.—The strongest section of Sir Edward Grey's opponents is a pro-German group. It has criticized and disliked "entente" diplomacy, because a prejudice has been created thereby against Germany and a costly rivalry in armaments encouraged. It may be conciliated if not disarmed by political tending to rearrange the spheres of interest in Africa.

The German emperor was anxious to have it become operative after the close of the war, because it contained practical evidence that he had obtained large compensations for refusing German neutrality. The Portuguese government was unwilling at that time to propose the sale of her colonies, because so unattractive a course would almost certainly have been followed by a revolution and the overthrow of the monarchy. There is a partition of this valuable territory is likely, therefore, to be deferred until Portugal is compelled by failing resources and increased expenses to sell the best portions of her colonial empire.

BRITISH WARSHIP IN HOEDEIA

PERIM, Arabia, Jan. 28.—(Can. Press.)—The British consul at Hodeida has sent a request to his government for the despatch of a warship to that port. His action was due to the threats by Italian vessels to bombard the town.

Had a Good Time; Must Now Make Good

Sidney Jones, 173 River-street, and Roy Beck, 25 River-street, were having a good time at the corner of Richmond and Yonge-streets on Sunday evening. The big front plate glass of the Rogers fur store suddenly cracked, and the two men were standing on the opposite side of the street, and now Jones and Beck are preparing to make things good, as they say, the glass is worth about \$150.

R. S. HUDSON, JOHN MASSEY, Joint General Managers

We beg to report that we have made an audit of the Accounts, and examined the Vouchers and Securities of the Canada Permanent Mortgage Corporation for the year 1911. We certify the accompanying Statement is a true exhibit of the Corporation's affairs, as shown by the Books as at 31st December, 1911.

HENRY BARBER, F.S.A.A. (Edr.) Auditors

Toronto, January 16th, 1912.

The President then addressed the meeting as follows:

In moving the adoption of the Directors' Report to the Shareholders for the year 1911, it is hardly necessary for me to rehearse what can readily be seen by everyone in the figures supplied in the statement in your hands, further than to say that we have again paid a dividend of Eight Per Cent. Per Annum, and added to our Reserve Fund the sum of \$250,000. That fund now stands at \$2,750,000. In addition, the unappropriated profits have increased by the sum of \$11,768.72.

The usual inspection of the individual accounts at the different Branches has shown quite as satisfactory a condition as heretofore, with no properties on hand at any of our Offices at the end of the year. I do not wish you to infer that properties were left in our hands for sale as in various causes early as 1911, but it has always been our policy to dispose of them as early as possible, and so, consistent with the least possible loss. Last year we were unusually successful in this respect, and all properties which came on hand were sold.

Our collections during the year have been exceedingly good, as is evidenced by the fact that our receipts from mortgages alone for the past year amounted to \$5,697,670.36, or \$68,900.00 more than the collections during 1910, although the returns from mortgages are later than usual.

The fact that mortgages are a security of readily realizable character, municipal, or other bonds, with their low rates of interest, was a useful feature in such times of stringency as were the monthly, quarterly, half-yearly, and yearly instalments of principal money on carefully selected mortgages. The experience of years has confirmed that opinion, and the amount of our annual collections demonstrates that fact.

Recently our Scottish representatives, Mr. John Campbell, S.S.C., and his son, Mr. Archibald Campbell, W.S., visited Canada, and made a very complete tour of the west. They were deeply impressed with the progress and prosperity of the country. They also had an opportunity of looking into the character of our securities and the condition of our owners' accounts. They spent some time at each of our Western Branches, and expressed their satisfaction in the classes of our investments, and also with the policy of the Corporation in not lending on what appears to be a demand for money has been so great, that we have not been able to accept all the good business that was offered us, and so far as we can see, that demand will continue for some time. As evidence of this, I mention the fact that in Ontario there are still in the hands of the Crown over one hundred million acres of land, of which there are south of the 60th parallel in Northern Ontario, which before very long will be settled, either by operation in Manitoba, or by settlement of the land, and this will be able for cultivation to the extent of over one million acres, and this will be increased when the area of the province is enlarged. In Saskatchewan, there are about fifty million acres of still unbroken prairie, and this will be able for cultivation to the extent of over one million acres, and this will be increased when the area of the province is enlarged. In Alberta, there are about fifty million acres of still unbroken prairie, and this will be able for cultivation to the extent of over one million acres, and this will be increased when the area of the province is enlarged. In the Peace River, there are about fifty million acres of still unbroken prairie, and this will be able for cultivation to the extent of over one million acres, and this will be increased when the area of the province is enlarged. In the Peace River, there are about fifty million acres of still unbroken prairie, and this will be able for cultivation to the extent of over one million acres, and this will be increased when the area of the province is enlarged.

It must be patent to everyone that, so long as the anything like the present rate, there will be a heavy demand upon us for funds, and it would seem important that our governments should afford every encouragement to immigration, which contributes so materially to the prosperity of the country, but also that our financial institutions should make such arrangements as will place them in possession of a more adequate supply of money during the coming year.

During the past year the reasonable, and in some parts of Canada, the fully realized owing to an exceedingly wet season, especially in some parts of the west, and a comparatively late and unseasonable spring, some serious frosts. These occurrences have from some quarters been very unwisely regarded as disastrous, but those who have given expression to these views have overlooked the fact that there was an enormous yield, that only a portion of this large yield was so affected, and that wheat, which only a few years ago was selling at about 100 cents per bushel, has been sold at an exceedingly good price. As the President of one of our leading banks has stated in his address to the shareholders, "The net cash return will be the largest ever obtained from our investments."

The result of the operations of the Company during the past year have continued to be so satisfactory, and the apparent outlook for the future seem so assured, that your Directors have with their present unquestionably stable conviction, and the report of the Directors has been received and adopted, and the Board met after the adjournment of the Annual Meeting and re-elected the following officers: President, Mr. W. THE WORLD'S LEAP YEAR BABY MUG

INDIANS HAVE LITERATURE AND HUMANITY AS OTHERS

Prof. Sapir Told of His Extensive Study of the American Races.

Prof. Sapir's lecture at the university on Saturday was more general in its treatment of American Indian life than his address to the Folk Lore Society, which was specialized on one tribe, but it was fully as interesting, and while it had not the photographic records of aboriginal chants and songs and ritual music which made the address on the Nootka tribes so memorable, his larva selection of lantern views were equally fascinating in another direction.

Prof. Sapir has recently come from Columbia University to take charge of the division of anthropology in the geological survey department, established in September, 1910.

The study of origins was associated with the present condition of primitive races by such men as Fraser, Tyler and Spencer, said Prof. Sapir, but this view was losing force among present-day anthropologists. He had no sympathy with the point of view that the Indians of Canada were to be looked upon merely as a curious people. By a study of their life and thought, it would be found that they had an art, a literature and a humanity like others. It was not the whole story, but the conditions depended on environmental influences. The historical development had also to be regarded.

The tribes might be grouped according to language, according to culture or according to race. The American negro was an example of the conditions of grouping not giving the same results.

There were seven linguistic stocks among the Canadian Indians and they represented a great differentiation. The Blackfeet, Cree, Ojibwe, Micmac and others were all related, but were not mutually intelligible. The Troquois were not even related.

There were five culture areas. The Algonquins extended west almost to the Rockies and east to the coast. The Athabascans had affinities with the Apaches in New Mexico.

Dr. Sapir's interesting address was heard by a large audience.

DR. SUNDER SINGH DENIES STORY OF SIKHS

Continued From Page 1.

Sikhs are not a religion. To show the absurdity of the statement and the lack of knowledge of the writer, he might as well have stated that a thousand are presbyterians, fifteen hundred are farmers, and the remainder are Methodists, Anglicans and other castes. I mention this simply to show that the writer knows little about Hindu conditions.

"The true facts of the case are that there are about four thousand Hindus in British Columbia, the great majority of whom profess the Sikh religion and before they came to this country were Jats or farmers.

"You will remember that the year 1907, in which the Hindus came to Canada, was not prosperous and it is true there was much poverty among my people. They did not come to the point of starvation, as is stated, because they refused to break their castes, but because they found it difficult at that time to get employment. If the writer who made the so-called exhaustive study of conditions had taken the trouble to read any standard encyclopedia he would have found that the Sikh religion abolished caste, superstition and idolatry among its followers. In the fifteenth century. For this reason the Sikhs were brought into conflict with the great mass of Hindus, and altho their religion taught peace, they were compelled to resort to the sword when the English came to India, and their religion was understood by the Sikhs, my people found in them natural allies and history will show that they have been loyal to the British since 16 years ago.

"The charges made are so numerous that I cannot answer them all in this statement. Some of them would be absurd if they were not calculated to injure the reputation of a law-abiding people. It is stated that the Hindus are so addicted to perjury in the police court that the magistrate finally decided to hear no more Hindu cases. If Dr. Sapir's interesting address was heard by a large audience.

Sharp Advance in Wheat Prices Week-end News More Bullish Chicago Exchange Makes Sharp Turn in Price Tread—Corn and Oats Hold Comparatively Steady.

CHICAGO, Jan. 27.—(Relief that the winter crop of France had been over-estimated resulted to-day in a material advance in prices. The close was firm at 3/16 to 1/2 cent over last night. Corn finished 1/4 to 1/2 cent down, a shade off to 1/2 cent up, and hog products more expensive by 1/16 to 1/8 cent.

Rumors that French millers were making enquiries for No. 2 red winter wheat from the United States caused something approaching enthusiasm in the pit here. There was much talk that important duties would be reduced. In this connection it was a subject of comment that flour at Paris had risen an amount equal to 2 1/2 cents a bushel for wheat. Statements were current that France would require 20,000,000 bushels before the new crop in that country was available, and that only grain of good quality would fill the need. According to the fruits, Australia and the United States were to be looked upon in that case as practically the sole sources of supply.

Light World Shipments.
Other factors against the bears were the lightness of world shipments and the alleged poor condition of Missouri, Indiana and Ohio wheat. Increased primary receipts, especially northwest, were responsible for much early selling, but the dealers who let go were competing afterward for offerings at a much higher level.

Extensive realizing by longs caused heaviness in corn at Anxiety. Security profits was increased by reports of a big movement of country shipments. Oats took color alternately from wheat and corn. The outcome was virtually to bring the market to a standstill. Outside limits touched for May moved to be 50 1/2 and 51 1/2, with last sales 1/4 up at 50 1/2.

Northwest Receipts.
Receipts of wheat in pairs at primary centres were as follows:

City	To-day	Wk. ago	Yr. ago
Chicago	100,000	100,000	200,000
Duluth	100,000	100,000	200,000
Minneapolis	100,000	100,000	200,000
Winnipeg	100,000	100,000	200,000

European Markets.
The Liverpool market closed to-day on wheat 1/4 to 1/2 cent higher, and on corn 1/4 cent higher.

Winnipeg Inspection.
Winnipeg receipts of wheat to-day graded as follows: No. 1 northern, 42; No. 2 northern, 47; No. 3 northern, 42; No. 4 northern, 47; No. 5 northern, 42; no grade, 78; winter wheat, 18; receipts, 58 cars; barley, 14; diax, 14.

Primaries.
Wheat—To-day, Wk. ago, Yr. ago.
Receipts 100,000 100,000 200,000
Shipments 100,000 100,000 200,000

Oil Prices Advanced Again.
NEW YORK, Jan. 27.—The Standard Oil Co. has advanced the price of domestic oil delivered by tank from 7 1/2 to 8 1/2 cents per gallon. This makes a 2-cent advance in local oil since the first of the year.

ST. LAWRENCE MARKET.
Receipts of farm produce were light—10 loads of hay, 200 bushels of grain, about 15 loads of milk produce in the north and a moderately large supply of butter, eggs and poultry on the market.

There was a fair trade, but not as brisk as we have seen it, as the market was not visited by as many buyers as usual. Prices as a rule were 1/2 cent higher in nearly every department, and in some they advanced.

Wheat—Two hundred bushels at 94 to 96.
Barley—Three hundred bushels at 84 to 86.
Hay—Ten loads sold at 10 to 12 1/2 per ton.
Potatoes—Potatoes by the single bag, delivered, sold at 1 1/2 to 1 3/4, and some were asking 2 for New Brunswick Delawares.

Apples—The apple market is much easier. Good No. 2 apples can be bought at 25 to 30 cents per barrel, and No. 1 at 34, and other kinds in proportion.

Butter—There were two farmhouses that got 7 1/2 for their butter, and a large number sold at 7 1/2 to 8, and some sold at 8 to 8 1/2 per lb. The bulk, however, was a large delivery of new-laid eggs, which met a fairly firm market, ranging from 40 to 45, and some got 50 for few small lots to special customers. The bulk sold at 40.

Poultry—Liberal receipts caused prices to be a little easier, but not as much so as might have been expected. Turkeys, 20 to 25; geese, 14 to 16; ducks, 14 to 20; chickens, 14 to 16, and a few extra quality pullets at 18 to 20 per lb. hens, 11 to 12 per lb.

Montreal Grain and Produce.
MONTREAL, Jan. 27.—Cables came strong on Manitoba spring wheat, with prices 2 1/2 to 4 1/2 per quarter higher. The demand was heavy and sales of over 500,000 bushels were made for shipment from now up to August. The foreign demand for oats was good at higher prices, but the lower levels were not met. The market is excited and very strong, with prices 1c per bushel higher, making a net rise for the week of 2 1/2c. The demand for winter wheat flour in bulk and cotton bags was good, and sales of several thousand were made. The foreign demand was good and buyers say that buyers are steadily advancing prices. Bran and shorts firm, scarce and wanted. Corn quiet, but strong. Receipts for week, 25 boxes, against 20 a year ago. Demand for butter good and undertone to the market strong. Receipts for week, 1902

LONDON, Jan. 25.—(C.A.F.)—W. Morgan Shuster, the American ex-treasurer-general of Persia, arrived here to-night and was met by several members of the latter's committee, who warmly welcomed him. Shuster will stay in London for several days, and will deliver an address before the Persian committee, composed of members of the house of commons.

BAD FIRE AT PITTSFIELD.
Firemen Were Frozen Stiff and Damage Amounts to \$250,000.
PITTSFIELD, Mass., Jan. 28.—(C.A.F.)—Flames that raged for six hours during a frigid glare this morning, destroyed three buildings in the business section of this city at a loss estimated at \$250,000. The Academy of Music building, which contained the oldest playhouse in the city; the Miller building, the Outlet Clothing Factory, in the rear, and a storage building in the rear, were the structures burned. The fire started about midnight in the rear of the Outlet Clothing Factory, which was the first floor of the Academy building. The police regard the origin of the fire as suspicious, and State Officer Thomas H. Bligh began an investigation. The high wind with zero temperatures hindered the firemen, who worked for hours in coat and snow. One fireman who had stood over a hose for a long time was frozen so severely that he could not move and was carried to a nearby hotel to be thawed out.

COMMISSIONER HOWARD COMING.
NEW YORK, Jan. 28.—(Can. Press.)—Thomas H. Howard, commissioner of the Salvation Army, arrived to-day from Europe on the Celtic, to make a tour of inspection which will include New York, Chicago and Toronto. He was met at the pier by a delegation from the Salvation Army and taken to headquarters. He will return to Europe Feb. 13. He said that, notwithstanding the age of Gen. William Booth, the octogenarian head of the health and was now traveling on the continent.

Issuance of Hollinger Report Bear Card in the Stock Market

Big Porcupine Issue Undergoes Heavy Slump, But General List Holds Up Well—Rumors of the Exchanges.

World Office,
Saturday Evening, Jan. 27.
One of the frequently occurring vagaries of the stock market was exemplified when Hollinger stock responded to the issuance of the physical report on the property with a heavy decline instead of the anticipated advance. The share showed a decided undertone throughout the short session, and after opening over a dollar a share high at 134 1/2, sold off sharply to 131, a decline of 3 1/2 from the opening.

There were numerous reasons assigned on the street for the big decline. In certain quarters it was set down as due to the carrying out of the familiar stock market rule, to "sell on the receipt of good news." It was reported that a large holding of an estate in Montreal was being liquidated, and also that a Toronto bank was taking to itself the issuance of the report to sell out the holding.

It was currently reported on the street that a sale of 500 shares of Hollinger had been made by a certain party before the opening of the exchanges at 135.50 a share, the advanced price being paid in anticipation of a still greater appreciation as a result of the report. After settling down to its low figures for the day, the stock rallied a trifle on the closing of the buying demand, presumably representing short covering. The shares closed at 132.20 bid, with offerings held 30 points higher.

A few lots of the latter were taken by list, and outside of the general appreciation of firmness nothing of interest was evolved.

Sentiment was adversely influenced by reason of the big slump in Hollinger, but the general idea was that the depression would prove short-lived, and that a better undertone would be experienced, with the exception of the low week.

Third Announcement

Announcement

In view of the fact that we have been overwhelmed with enquiries from investors and brokers for an explanation of our announcements published in The Telegram, Star and World, stating we have an investment in an industrial enterprise that should pay larger profits than mining, without any of the risks attached to mining enterprises.

We announce that we will make public the nature of this investment in the financial columns of The Telegram, Star and World next Thursday, Friday and Saturday, and guarantee it will be interesting reading for the public, and especially for our competitors.

The corporation we represent will manufacture one of the important products of the world at fifty per cent, less than it is now or ever has been produced, and by its low production cost will control the world markets of this commodity.

Again we say to the investors and brokers that this enterprise will undoubtedly control the markets of the world in its products.

Brokers wishing to fill orders for their customers after we make our offering of stock will do well to call and see us at once.

Respectfully,

BLIND REFORMERS, SAYS TAFT
Conservative Element Must Get Together to Defend Courts.
NEW YORK, Jan. 27.—(Can. Press.)—On the eve of his three-day visit to Ohio, his home state, President Taft spoke to-night at the Waldorf-Astoria to the Ohio Society of New York, delivering probably the most impassioned speech he has made in many months, directed against the "nostrums of reform" and particularly aimed at the recall of judges.

In the efforts that have been made to reform legislation in this country, the president said, he saw much that was good. He saw the faults of government in the United States to-day and admitted that in trying to eradicate them much might be accomplished by reformers. But in the effort to make the judiciary responsive to every whim of the people, he saw destruction.

He declared that the conservative element of the nation must eventually "get together" to prevent a movement that would make the courts the creatures of popular will and might make the decision in every case not accord with the law, but accord with what a majority of the people thought the law should be.

Austrian Minister Dying.
VIENNA, Jan. 28.—(C.A.F.)—The physicians in attendance pronounce the condition of Count von Aehrenthal, the Austro-Hungarian minister of foreign affairs, as hopeless. Baron von Mueller, chief of the foreign office, is performing the duties of the foreign minister, for which office no successor will be appointed during the lifetime of Count von Aehrenthal.

More Anarchy in Brazil.
RIO JANEIRO, Jan. 27.—(Can. Press.)—Anarchy prevails at Bahia. The governor, Aurelio Viana, who recently withdrew from office, has taken refuge in the French consulate, which is guarded by federal troops. His successor has also withdrawn, and the town, deprived of control, has been abandoned to the soldiery and populace. Business is entirely suspended. The foreign consuls held a meeting here to-day and drew up a protest against the condition of affairs.
