

"HONEST INJUN"

We don't believe there is a store in Toronto that can supply your Pant needs to the same extent that we can. We have a size for every shape and the correct shape for every size, and if we do have to make an alteration it's done by experts and properly. We cater to all needs—right from 1.50 up to 6.50. For correct Pant—

BOOM IN MARRIAGE LICENSES

Double the Number of Licenses and Affidavits Received by Dept.

The department of the registrar-general of Ontario received from issuers of marriage licenses 672 affidavits made by applicants from officiating clergy-men during the two days following Christmas Day. This is fully double the number of affidavits and licenses received during the same period since the new regulations came into force, which require issuers and clergymen to forward these forms forthwith to the department of the registrar-general.

Charcoal Kills Bad Breath

Disagreeable Odor Arising From Indigestion or From Any Habit or Indulgence, Can Be Instantly Stopped.

Sample Package Mailed Free.

Other people notice your bad breath where you would not notice it at all. It is nauseating to other people to stand before them and while you are talking give them a whiff or two of your bad breath. It is usually caused from food fermenting on your stomach. Sometimes you have it in the morning that awful sour, bilious, bad breath. You can stop that at once by swallowing one or two Stuart's Charcoal Lozenges. The most powerful gas and odor absorbers ever prepared.

The Situation is Changed

Time was, when it was impossible to get a real tailored overcoat at \$12.50. We have changed all that through our New York System of Tailoring. We are making to your measure at above price the finest overcoats you ever saw for the money. Nothing wanting in cut, fabric, or tailoring. For a moderate price and stylish overcoat this is your tailor shop.

Toronto Rod and Gun Club

The Toronto Rod and Gun Club holds its weekly shoot on Saturday afternoon at Tomdorens. A number of interesting competitors are on hand, at the birds and artificial, tending to keep up the standard aims and objects of this sportsman's organization. The officers and executive are as follows: President, G. W. Meyer; vice-president, H. M. Asling; captain, Dr. W. B. Patton; secretary, J. H. Teifer; secretary-treasurer, Sydney H. Jones; committee, P. J. Thomas, R. Tennant, W. R. Skeg, H. J. Hope, W. J. Kivell, H. A. Shaw, F. B. Poucher, F. W. Matthews.

Indoor Baseball

All members of G. Co., Q.O.R., and G. Co. ball teams are requested to be on hand to night at 7:30 for their game with G. Co., 4th. Games last night in the Garrison League resulted: G. Co., Q.O.R., 32; G. Co., Greens, 23. F. Co., Highlanders, 14; H. Co., Q.O.R., 13. Great interest is centred in tonight's game between G. Co., Q.O.R., and G. Co., Highlanders.

Where Good Work Tells

The greatest factor in building up this big tailoring business has been the standard of excellence we have set, and the rigid manner in which we hold to it. We insist on workmanship that never skips or skimps, and on the production of garments that have every line falling in just the right place. Crown Tailoring Garments are not the kind that sag down in front and look limp in a few days. You are still in time to take advantage of our 20 per cent. reduction on overcoats and our special December prices on trousers.

THE TORONTO WORLD

A Morning Newspaper Published Every Day in the Year.

A MOST BRAZEN PUBLIC OUTRAGE.

Let us continue our remarks of yesterday in regard to what is a public enemy; and we wish to discuss it more especially in the light of the conduct of the two power companies (for one) doing business in this city and enjoying a great public franchise. The company is now organized as follows:

- The Toronto Electric Light Company, Limited; Directors: Lieut.-Col. Sir Henry M. Pellatt, president; W. D. Matthews, vice-president; H. P. Dwight, W. R. Brock, Hon. George A. Cox, S. F. McKinnon, Thomas Walmsley, Frederic Nicholls, Robert Jaffray, Samuel Trees, Hugh Blair.

Our contention is that the law should declare and make it a crime for any officer, director or shareholder of a corporation enjoying a public franchise to seek to thwart the freedom and right of the municipality in improving its service in connection with such public utility or to seek to thwart the municipality in making a new arrangement for some other improved utility in the same line, or to thwart a movement for public ownership.

First of all let us seize fairly what the relation is. These men are capitalists, it is true, but they come to the city and they say we will serve you and become servants of the municipality and its citizens on certain terms. The municipality in no way abandons its position of master, its position of employer, while the status of the private corporation getting the franchise is that of servant, is that of employed. And we know of no other instance in business where the servant or the employed dictates to the employer or master how he shall conduct his business, or where such servant or public franchise holder openly goes out and antagonizes the master in the pursuit of his happiness, his comfort and his business. These men that we have named think that because they have a contract for a certain number of years therefore they are justified in keeping the citizens (who ought to be their masters) forever tied up to them; and the more we think of it the more we are convinced that for sheer, bold presumption, for an absolute misconception of the relation between the parties, for scandalous effrontery there is nothing to equal, the conduct of these men. They not only attempt to bulldoze the citizens of Toronto thru the press and thru the mails, but they paste all the boardings with bills threatening financial disaster to the citizens simply because they choose to exercise their liberty to improve their enjoyment or use of one of the great utilities of life!

In other words the moment the municipality creates a private monopoly within its bounds it creates a monopoly that from that very moment of its creation turns into an enemy of the people, that seeks to debauch the public officials, to demoralize the aldermen and the public press and asserts a claim that they have in some way a right to antagonize at every point and to injure at every point the public who have given them a valuable concession. In other words they treat the public as their bondslaves, as people who have passed into their slavery, and that they are the masters and not the people whom they undertook to serve. This is one of the shameful conditions surrounding municipal affairs that has caused the great and growing support now commanded by public ownership.

Again we ask our readers to conceive if they can of a more rank case of impudence than that these men whom we have named should undertake to tell all their fellow citizens that they do not know their own business, that they are not to decide for themselves as to what they think best for the citizens, but that they are to continue in the slavery and in the bondage of this power and light merger now in existence in this city. And yet the two very companies that make up the merger make a solemn undertaking with the City of Toronto that they would never combine or work together. They had signed this solemn document more than a few months before they at once began to scheme for consolidation, and The World knows of one of these men whose name appears in the above list who declared on one occasion that the clearest thing he had ever seen done in a legal way in this country was the fact that the two companies had employed Mr. Zeb Lash, K.C., and Zebulon is a great corporation lawyer, to devise a scheme whereby they could beat the city in this matter in which they had given the most solemn undertaking that they would play fair and not consolidate! They had no intention of giving the city a fair deal, and the men whose names we have published above are the men who did this thing and who to-day have the hardihood to say that the people must remain their bondslaves as long as they care to have them as such.

If Mr. Whitney wants a good subject for legislation at the approaching session he ought to make it the law of the province that any corporation enjoying a public franchise which seeks in any way to influence the freedom of the municipality in dealing with that franchise, therefore will of necessity entail the cancellation of that franchise. And he ought also to make it the law at the same time, that any municipality tied up to any corporation in the matter of public franchises is free to free itself the day it chooses to pay the price that arbitration will award for the cancellation of the contract. And speaking in this way we believe there is a law in the States that makes it a crime for insurance companies or railways to thereafter make political contributions or to interfere in politics in any way. There also ought to be a law that every citizen who is a stockholder in such companies and exercises the rights of a stockholder, one of which rights is to restrain directors from spending the money of the company for political interference of any kind.

Again: Mr. Timothy Eaton is doing business in Toronto as a merchant. He is incorporated as a company. He has more capital in his business than this light company. But would Mr. Eaton ever think of abusing those of his fellow-citizens, who were his customers if they decided to buy elsewhere, or not to buy at all? Because we let Mr. Eaton come here and do business we do not give him any reason to pretend that we are his forever, nor does he pretend to own us as his forever-bonded customers or slaves. Nor does he assail us with unsigned threats. Nor does he hire political organizations to handle the votes so as to keep his customers in his service! But this light company and Senator Robert Jaffray are busy at it!

If we had our way we would put these unworthy citizens, these citizens so disloyal as they are to their fellow-citizens and to the city, under the town pump, and especially Senator Robert Jaffray, who is a director of the Toronto Electric Light Company, which is inspiring all these attacks, and who, tho he is a senator of the plebs and the managing-editor of The Globe newspaper, that professes to favor public ownership, has never yet said one word in that paper against this infamous conduct—and that is the mildest word we can use—of these directors of a public franchise-holding company that interferes with the political rights of the citizens from whom they get that franchise to do business.

We gave this light company a franchise and out of its extortionate profits it is spending thousands and thousands of dollars to thwart the people! How much longer will the people stand this thing?

PUBLIC OWNERSHIP AND NEWS-PAPER CROOKS.

The Mail tumbled down yesterday as soon as the supply of high-priced reading matter advertising was exhausted, and after taking all the good money it could get from the power ring it went the length of saying that the people ought to vote for this power bylaw, but on the understanding that when the real bylaw comes on later, and when the matter of

spending the ratepayers' money is in question, then that's another question—very much another question; and by implication the electric ring are further informed that The Mail's editorial and news columns can be had again to stab public ownership in the back—at the usual price. Public ownership has made this great headway and it puts it over the hill — no newspaper will now stab public ownership except for pay, and

then only in a casual and round-about way, or in the veiled manner of professed friendship. And this also applies in nearly every case to those who write the articles.

The newspapers now doing corporation work, fighting for the railways against the people, opposing public ownership, newspapers that support a law which makes the sale of an unused railway ticket a crime, that do not want to see the law of the land enforced against corporations, are either owned by corporation men or in the pay of corporations. The Hamilton Spectator and The Hamilton Times are samples of papers owned by men who are in the Gibbonized companies of Hamilton, papers that are on the regular pay sheet of the big railways for job printing—job printing that goes on the express understanding that if you take our money you must defend our public grafts. For many years the only god in the office of these two papers (and their annexes) has been, What is the monthly bill for job work against the railways? and the main caution to the staff, never say anything against Gibson or the railways. And the Hamilton people know it and they like to see it in print.

WILL HISTORY REPEAT ITSELF?

Conservative Conservatives who lay the flattering unction to their souls that only two great political parties can exist at one time in English-speaking countries, and that by more flux of time they will be returned to power, might find food for reflection in the sudden disappearance of the great Whig party, some years ago, from the political map of the United States.

The Whig party, in many respects, corresponded with the present Conservative party in Canada. It favored a high tariff; it constructed the great national road that, in stage-coach days, did for Ohio and the middle west what indeed the C.P.R. has done, on a larger scale, for Western Canada. It included among its leaders Daniel Webster and Henry Clay. It swept the country at the presidential election of 1840 and placed Zachary Taylor in the White House at the election of 1848. A Whig president was in power as late as March 4, 1849—yet, by Jan. 1, 1855, the Whig party had ceased to exist and the very name had disappeared from American politics.

It is sometimes loosely said that the Whig party was "merged" into the new Republican party, but this is inaccurate. Many old-line Whigs did merge at all in the campaign of 1856; others supported Fillmore, the last of the Whig presidents, who led some passing fad of the hour called the "American" party and closely corresponding to the P.P.A.

Why did the Whig party disappear? It disappeared because it ceased to stand for anything. On the burning question of slavery it took forth uncertain sounds and meaningless declarations. The Democratic party was frankly committed to placing the slave power. Right or wrong, it stood for something. It was wrong, but the Whigs were neither right nor wrong. The Republican party, hastily organized, and from discordant elements, had a platform and stood on it. Once defeated, they reaffirmed their principles. From 1850, to this hour, they have been almost impregnable, because they have, time after time, declared for something. Good fortune has given them, even now, Theodore Roosevelt. Were they to shrink from his drastic measures to enforce popular rights and to repel corporate usurpation and aggression, it is not impossible that a new party—the Roosevelt-Bryan merger—might obliterate the Republican party even as the Whig party was buried in oblivion.

It may be said that our people are less mercular than are our neighbors to the south. But these differences between the two nations are largely imaginary. The Canadians who locate in the United States, the people from the United States who locate here, do not find the conditions in their new homes peculiar. What happens in one country may happen in the other. The present movement towards public ownership, towards control of the great corporations, towards nationalization of public utilities, is no less pronounced in Canada than it is in the United States. These ideas are popular; they seek expression at the ballot box; they frame up the burning issue in Canada no less vividly than did the anti-slavery ideas frame up the burning issue in the United States fifty years ago.

The fate of the Whig party is not without its lesson for the Conservative party in Canada.

THE SALE OF PUBLIC FRANCHISES IN THE HEAT OF AN ELECTION.

The one thing which blazes forever the proposed doubling of the water power privilege of the Cox-Pellatt-Mackenzie-Rose-Nicholls syndicate in 1906, as engineered by Robert Jaffray, is the fact of the secrecy of it, and that it was done in the very heat of an election campaign. The lease was made by the park commissioners (Robt. Jaffray one) on Jan. 9, after the dissolution of the house had been announced; on the 16th it was confirmed by order-in-council two days before Monday day; the making of the lease and the confirming of it by order-in-

THE RAILWAYS AND THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA.

Twenty-fourth Article.

One of the prominent officials of a leading railroad yesterday made the remark that people who were continually making trouble for others should not be allowed to clutter the earth, and intimated that his opinion we should be placed in the list of mischief-makers. The whole trouble with the present day railroad official is the fact that he has not yet got beyond the narrow gauge system of railroad and appears to be utterly incapable of taking a broad gauge view of the situation. There are two sides to every question, and if our object was simply to make trouble for the railways there might be some ground for his statement, but this paper is not responsible for the agitation thruout the country for improved facilities and an equalization of conditions. The neglect of the carrying companies to provide necessary accommodation and their contempt for public opinion has caused a wave of protest to sweep over the country, and we are simply voicing the sentiments of the people of Canada in giving public expression to the demand for reform.

The progress and development of the country, has been retarded and restricted by the neglect of the carrying companies to meet changing conditions. They have so long been accustomed to treat the complaints of the people with arrogance and contempt that they utterly fail to realize the fact that a long-suffering public has at last awakened to the necessity of taking steps to protect themselves against the intolerable and unreasonable conditions which govern the carrying trade of the country.

If the railways had the slightest desire to meet the demands of the people for improved conditions, if they had given any indication that they were alive to the situation and were willing to treat the public fairly, the present agitation would not have arisen. They have been so long asleep that they dislike the very idea of having their rest disturbed, but they are destined to have a rude awakening.

The bill submitted to parliament making two cents per mile the legal rate for passenger traffic thruout the country is in the interests of the people. The railways oppose it on the ground that it would mean financial disaster to them, but they fail to furnish substantial proof that such is the case. When the railways find that their arguments are weak and that they are losing ground, they have recourse to flattery, and when that fails they have resort to threats. They have evidently come to the conclusion that their arguments on this question are not effective, and, following their usual custom, they have dropped argument and are resorting to their usual tactics of bullying and threatening the people. Their latest threat is to the effect that if the two-cent rate is made legal they will withdraw all special rates for excursion and convention business and will make all parties pay the full rate. The public can afford to laugh at this bluff. If it is necessary to make a special rate in order to secure convention meetings that special rate will be made, and the railways are not likely to make an arbitrary rule that would have the effect of decreasing travel and reducing their revenue. On the other hand, the adoption of a two-cent rate would have a material effect in increasing the general passenger traffic of the country, and would give all parties fair treatment.

It is not fair that a man living on the Grand Trunk Railway east of Toronto should be compelled to pay three and one-third-cents per mile while his competitor living west of Toronto can travel at a rate of three cents per mile, more particularly when the fact is taken into consideration that the main line east of Toronto, on which the higher fare is charged, is one of the best portions of the Grand Trunk system.

The railways have no hesitation in making a two-cent rate, or even a lower figure, when it is necessary for them to do so in order to meet competition, and they do not usually figure that they are losing money in carrying traffic of that kind. In fact, they are right glad to get the trade and go to considerable expense to secure it.

The railways should appreciate the fact that the longer reform is delayed the more radical will be the remedy when it is applied.

council were kept a profound secret thruout that election as far as the public were concerned. If, as The Globe now pretends, that lease was in the public interest it would have been published the fact broadcast to the people, especially in view of the fact that one of the men who made the lease was its own president and managing editor. But this very day, when Robert Jaffray now declares for the public interest, was, as a matter of fact, kept a dark secret, known only to the syndicate, who got the lease; the park commissioners, who made the lease, and the members of the Ross administration, who passed the order-in-council of confirmation. Perhaps Senator James Kirkpatrick Kerr knew something about it. The people cannot help imagining that some kind of corrupt transaction is associated with the sale of the public franchise in the heat of an election, especially when the transaction is kept a profound secret from the people, who are concerned more than anybody else.

The Liberals of Ontario are finding out The Globe to be the servant of the electrical ring just as two years ago they found out Mr. Ross.

Down in Florida they're wearing summer clothes and playing summer games. Shooting alligators in among the sports that some northerners indulge in, and a striking picture was taken of a twelve-foot gator that was taken by an expert rifle-shot. By way of contrast, are illustrations of Cobalt, one of which depicts the cold weather where the mercury freezes and the frost records this month have already reached 45 degrees below zero. The Edison Mine is also the subject of illustration.

A portrait of Mr. James Osborne, whose promotion from the post of general eastern superintendent of the C.P.R. to that of general superintendent of the Ontario division, brings the gentleman to Toronto, is presented. Mr. Osborne will be very welcome. There is a picture also of the C.P.R. Overseas Limited, which made the run from St. John to Vancouver in 86 hours and 56 minutes.

It is a splendid number, rich in the variety of its subjects, and illustrated with The Sunday World kind of engravings. There's something in it to-morrow for everybody.

THEY WON'T STAY BOUGHT.

Mr. E. R. Wood, who is said to be the white brain matter of the electric ring in Ontario, complained that by a power franchise not get a fair hearing in the press. The World will give Mr. Wood a hearing at any time without cost and gladly; but the meg of the electric ring must have more than a grievance against those newspapers that took their good money to fight the power bylaw and then turned on them at the last. They won't stay bought.

THE SUNDAY WORLD.

In the wonderful files of the Bay of Fundy, Canada possesses one of the most marvellous natural spectacles in the world. The famous Fundy "bore," and the waterfall which the tide turns so that it "falls" uphill, illustrate a highly entertaining article on the land of Evangeline, which appears in to-morrow's Sunday World. This article proves that Longfellow founded his famous poem on historical fact. As a literary production it would grace the pages of the best magazines, while the pictures would be a fitting accompaniment. This is the character of the contents of Canada's handsomest and best illustrated newspaper. There's nothing too good for Sunday World readers.

Recent researches in the Holy Land, principally in Babylonia, have turned a white light upon Biblical history. Tablets and inscriptions found in the ruins of cities buried thousands of years before the Bible was written, verify some portions of the Old Testament teachings and correct errors into which the inspired historians undoubtedly fell. An article in to-morrow's issue, by a celebrated archaeologist, who has explored many ruins and reads ancient tablets as we do English, describes many differences between the inscriptions of the time and the Bible tales. It will be particularly interesting to Bible students.

The appointment of James Bryce to the British ambassadorship at Wash-

ington puts a plain, scholarly gentleman in the place of men who have hitherto glorified the embassy with gold lace and gorgeous uniforms. But Mr. Bryce will be welcomed to the United States as a long-time student and a fair critic of American conditions. An excellent portrait of Sir Mortimer Durand, the British ambassador in Toronto, will be given in to-morrow's "World."

Toronto and its people and institutions invariably have a large place in The Sunday World pictures. The features of local interest in the paper to-morrow will be large portrait groups (such as The Sunday World only knows how to print) of four football teams from Wellesley and Lansdowne schools, who won championships in the Public School Athletic Association in the recent season. The executive of the freshmen's arts class of "Onety-Naught" is the subject of another splendid group picture, and the fine choir of St. Stephen's Church furnishes an illustration of uncommon interest. Small's pond in the east end of the city is a famous resort for skaters. A capital picture shows the crowd that enjoyed the keen ice there on Christmas morning.

IF WE HAD CHEAP POWER FOR THE LADIES.

Editor World: Electric cookery is in its infancy. Yet the time is approaching when the kitchens of all well-managed households will be run by the mysterious fluid. Electricity will take the place of fuel in the range, the department of the cuisine will be lighted by the same energy, and it is entirely conceivable that a small electric motor would be made to serve for such purposes as beating eggs and mixing dough. Already a number of electric ovens are on the market. You can even buy an electric chafing dish, which may be attached to a masonry stove or to an ordinary electric wire in any house.

All you have to do is to make the attachment, turn on the current, and immediately your oysters are beginning to stew, or your eggs to fry.

Brampton's Public Library.

The attorney-general for Ontario has joined in an action with John Henry Boulter on behalf of the ratepayers of the Town of Brampton to set aside a lease made by the corporation of the Town of Brampton to the Brampton public library board, and to restrain the library board from taking possession of part of the market property and to quash and restrain the corporation and the library board from proceeding or taking any action under certain resolutions of the corporation affecting to accept a gift of \$10,000 for a public library on condition of paying to the public library annually a fixed sum equal to ten per cent. thereof and from accepting such gift on any terms.

Obtained Judgment.

Miss Maud Hick issued a writ against the Deseronto Iron Co. of Deseronto, claiming damages for the death of her husband. Before Chief Justice Falconbridge yesterday judgment was obtained in consent for \$1000 and costs. The widow is to receive \$250, and \$750 is to be paid into court to the credit of the infants, and \$60 a year is to be paid out to Mrs. Hick for maintenance so long as she shall maintain the infants.

Keeps the Rooms.

Justice Mabee has confirmed the right of James Iredale to occupy the upper room at 136 Bay-street. The building belongs to relatives. He has paid no rent since 1880, and the judge finds that the possession of the plaintiff is sufficient to extinguish the title of the defendants to the upper floor of this building, as well as the entrance, three feet on Bay-street by a depth of five feet.

Local Option Bylaw Sustained.

The court of appeal has given judgment dismissing the appeal in the local option case of Sinclair against Owen Sound. The bylaw is upheld. The court decides that owners of property in more than one ward are not thereby entitled to more than one vote on a matter of this kind.

IF WE HAD CHEAP POWER FOR THE LADIES.

Editor World: Electric cookery is in its infancy. Yet the time is approaching when the kitchens of all well-managed households will be run by the mysterious fluid. Electricity will take the place of fuel in the range, the department of the cuisine will be lighted by the same energy, and it is entirely conceivable that a small electric motor would be made to serve for such purposes as beating eggs and mixing dough. Already a number of electric ovens are on the market. You can even buy an electric chafing dish, which may be attached to a masonry stove or to an ordinary electric wire in any house.

WOMAN'S WORLD.

AN EXCELLENT STYLE FOR SLENDER FIGURES.

The whole aim of the French designer would seem to be for the perfection of soft effects, and everywhere are these seen in the development of the Empire and Princess gowns, as well as in suits of tailored persuasion. A suit showing the tenderness of newest designs is sketched and one cannot fail to appreciate its effect upon a wearer of graceful lines. The jacket is of the new semi-fitted order, having its seams finished in soft seam effect. The result is a becoming which few jackets of this kind realize. The sleeves are of three-quarter length, or in full-length if preferred. The dressier one, with tuck-plaits at the front and side seams, handling in graceful fullness and with a pretty flare. The suit may be developed on any of the materials. For the medium size 8-12 yards of 44-inch material are needed.

Two Patterns—6762—size, 32 to 42 inches bust measure; 6763—size, 20 to 32 inches waist measure. The price of these patterns is 20c, but either will be sent on receipt of 10c.

Child Fairyland.

I heard a distressed mother say, not very long ago: "I don't know what in the world to do with Harry. He tells the most unbecoming stories and solemly swears they are the truth. We simply cannot get him, apparently, to see the difference between the truth and a lie, and what I am to do about it, I do not know."

"I abominate a liar above all things, and if I thought he would grow up in this idea of untruthfulness I should go in every other way, and be so tiny that I can't bear to punish him for it. I can only imagine a woman so lost to the beautiful, delicate imagination of childhood, the fancy which causes them to see a fairy lurking behind every tree and an angel in every cloud."

"The other night I was sitting opposite a charming child and his mother on a railroad train. Suddenly he exclaimed: 'Look, mother, I see a lady with a lamp out there.' We were whizzing thru a quiet deserted stretch of forest country, not a house in sight, and his mother said: 'Where, dear?'"

"There in the sky," he said, as he pointed to the blaze of sunset light. "I think she must have spilled the lamp and set the clouds on fire, and, oh, look, mother, she must have tipped over the sky too. See, it's right down to the earth, 'way out there," and he pointed to the horizon line.

"And the wise little mother smiled and said: 'So it is, dear.' A child with such a vivid imagination is bound to dream things which he is sure are true. When he tells you of the big black bear he met on the street, or the ugly yellow Chinaman that was in his room last night, or the beautiful angel he met on the stairs, who talked to him for a long, long time, don't tell the child he is lying and punish him for it. Perhaps his imagination will make him a great poet some day, or an artist, or an author."

How can you tell? Any way, try to trouble his childish mind and make him afraid of the dark, which he peoples with such beautiful fancies, by telling him that he will find a place in that lakeland where the fire which is popularly supposed to be reserved for liars."

Let the children have their dreams. Soon enough they will have to face the stern realities of life. Let them dream while they can.

Work.

"The Chinese have a proverb like this: 'We cannot prevent the birds flying in the air, but we can prevent them from building nests in our hair.'"

Which means that we cannot secure ourselves against the fleeting visitation of certain thoughts, but we can forbid them to dwell with us. Brooding over past sorrows or dis-appointments, worrying over what the

future may have in store for us, or in any way permitting the mind to dwell on thoughts that weaken or sadden us, is utterly folly and most unnecessary. Such thoughts can only be thrust out of your mind by persistent will-power and the ability for hard work. It is the idle mind which originates the low gossip, the ignoble thoughts. Work is the panacea for every ill of mind or body.

"Get busy." It may be hard to work under the ill-health of mind or body, but do you think Stevenson's "Child's Garden of Verse"?

Those beautiful, sunny, cheerful rhymes of childhood were written while the poet lay in bed, weak from hemorrhages, suffering with scurvy, blind from ophthalmia, his right arm bound tightly to his side. Calling for a board with sheets of paper tacked to it, he scrawled blindly with his left hand nearly all those delightful songs of little-boy-and-girl-land. You would think they were thought out and written in robust health under the trees, in the sunshine, with the music of birds, the perfume of flowers and the glad laughter of children about.

But that's the spirit that wins the strong, determining spirit that does not work under difficulties and can't be crushed or defeated. It is the spirit that can live good in the world. You can't give down to the crush-out the sense of defeat, get over narrow or loss and banish "emul" for ever with the aid of this great sovereign good work.

Chapman-Gibson.

Spruce Hall Farm, Kinsale, Ont., was the scene of a pleasing event on Thursday, Dec. 27, when Miss Lena B. Gibson, daughter of Mr. Judson Gibson, was married to Mr. F. M. Chapman, B. A., of The Toronto World. The ceremony was performed by Rev. Frank C. Harber, B. A., B. D., of Pickering, assisted by Rev. Mr. Robinson of Greenwood. In the presence of the immediate relatives of the bride and groom. Owing to the recent bereavement in the family, the wedding was very quiet. After the ceremony and the Wedding March, played by the bride's sister, Miss Gertrude, under arches of holly and cedar, toasts were proposed, and happily responded to. The bride has been a life-long resident of the vicinity, and she leaves behind her many friends who will remember her as the willing worker in Sunday school and social matters, as well as for her musical attainments. She is a niece of the late ex-Warden Gibson of Whitby. The happy couple left on the evening train for Toronto and Windsor, where they will spend a few days prior to beginning life in Toronto.

The ball poudre, in aid of the Ladies' Work Depository, will be held at the King Edward on Friday evening, Jan. 1,

Public Amusements

We are again glad to hear England's greatest and most sumptuous musical comedies, "A Country Girl" and "The Clingings." They will be presented by the Augustin Daly Musical Company at the Princess Theatre all next week. These two musical plays were written by James T. Tanner, with lyrics by Adrian Ross, Paul Rubens and Percy Greenback; music by Lionel Monckton. They were originally produced in London at Daly's Theatre, after which they were brought to Daly's New York Theatre, where they enjoyed long and prosperous runs. The present productions are complete in every detail, and will be produced here on a magnificent scale. A grand chorus and fifteen principal, and augmented orchestra are features of the performances. The engagement of this organization in these two plays will be the most pretentious that has occurred here this season. They will be given in the following order: "A Country Girl," Monday, Tuesday matinee, Tuesday, Wednesday matinee and Saturday night. "The Clingings," Wednesday, Thursday, Friday nights and Saturday matinee.

Miss Ethel Barrymore, who created the title role of the dramatic success, "Sunday," admitted that the part was more to her liking than any she had ever appeared in, and, truth to tell, proved her greatest success, packed

Scene from "Sunday"—Grand. The Hudson Theatre, New York City, for a continuous run of 200 nights. The entire production was served Miss Barrymore and a superb cast of noted metropolitan actors, to be presented at the Grand Opera House, New York City, on Tuesday, Wednesday, Thursday, Friday, Saturday, and Sunday, as to stamp it a masterpiece, so lovable, so tender, so true, that she immediately wins the love of the women and the admiration of the men.

Wherever "Mrs. Wings of the Cabbage Patch" has been presented, the names of the heroine, of Miss Hazy Lovely, and Mr. Stubbins, have become a part of the evening's sport of the community. They and those around them represent types that live and breathe and have their being in all parts of America. Next to being the mother of the superlatively gifted Eleanor Robson, the one thing that makes Mrs. Wings of the Cabbage Patch, in which she will be seen at the Princess Theatre the week after next.

For New Year's week Mr. Shea has secured as a headliner Thomas J. Keogh, a comedian of the first rate. His early experience, waddy in stock companies qualified him for the more important position of "star" that has since marked his career. After a long run with Mabelle Gilman in "The Mocking Bird," Mr. Keogh was secured by the Gay Mr. Goldstein, "Baron Rudolph," "The Silver Slipper," and "The Girl From Dixie."

tempting offer has again induced Mr. Keogh to return to the stage, and his latest sketch, "The Way He Won Her," is voted to be his greatest success. The great Eversard, who calls himself "the time selector," comes to Shea's after a long and successful tour of Europe. Everard is a hoop roller, but he rolls hoops of all sizes, and more of them than the audience can count. Will Lester and Joe Manning will be seen here for the first time in Lester's clever little sketch, called "The Little Immigrant." One of the pleasing features will be Harry Tigh's well-known and clever comedy, and his singing and dancing girls and boys skit, an act that is in every way novel and pleasing. Billy Van, "The Minstrel Man," is a smoking, a wonderful comedian, and still letting his voice run away from him, but he has many new and original parodies. Kelly and O'Brien are clever comedians, and their singing and dancing always of high class selections, and they are headed by a former well-known Buffalo musician, Signor Fornal. Herr Graetz has a troupe of wonderfully trained baboons, and the cinematograph will show the big bill with a full line of new pictures.

The Toronto University Glee Club have been fortunate in securing as director for the season's concert, Mr. H. M. Fletcher, conductor of the Schubert Choir and People's Choral Union. This organization of thirty-two voices will sing during January in Hamilton, St. Catharines, Brantford, Orangeville, Guelph, Georgetown and College-street Baptist Church, Toronto.

At her concert on Monday evening next, Miss Jessie Macleod, the famous Scottish soprano, will be heard in five numbers. Two numbers are from Burns, embodying the New Year sentiment, one being "Auld New Year (Ae Ane an' A)," and "Auld Lang Syne," and, by request, "The Auld Scots Songs," "Ae Fond Kiss," "Caledonia," "The Merry Widow," "The Cameron Men," "Hunting Tower" and "Blue Bonnets O'er the Border."

The "Scarlet Mystery," who have been on tour thru Ontario, and are returning for two very entertaining evenings, are receiving the highest praises from all the critics. The members of the company are: Fernal Price, first tenor; Ben Calvert, second tenor; Harry Luscombe, baritone; Gavin Woodhouse, Thomas Walsh, Joseph Roland Henry, joker; Percival Macenzie, lightning cartoon artist, and D.

A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general weakness. It is because a disordered stomach does not perform its duty properly, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not in good red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not hard work, nor over physical exertion that does it, but poor stomach. With poor, this blood the body is not protected against the attacks of germs of grip, bronchitis and consumption. For the body as once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.

A little book of extracts, from prominent medical authorities extolling every ingredient contained in this Golden Medical Discovery will be mailed free on any address on request by postal card or letter. Address Dr. J. C. Pierce, Buffalo, N. Y.

Dr. Pierce of active practice convinced that many of the ailments of many nations as medicinal agents and he went to work to perfect his own peculiar process, rendering them both efficient and safe for the ailments and rebuilding agents.

The enormous quantity of Golden Medical Discovery is due both to its medicinal value of its ingredients, and to the publication of the names of the ingredients of its every bottle sold, giving full assurance of its medicinal character and removes all objection to its use as a patent medicine. It is not a patent medicine, but a secret one either. This fact puts it in a class all by itself, and it is sold upon every bottle wrapper The Badge of Honesty, in the full list of its ingredients.

The "Golden Medical Discovery" cures, weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and all catarrhal affections, no matter what part of the system may be affected with it. Dr. Pierce's (Pink) Pills, first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels, and are unexcelled but never equalled. Sugar-coated and easy to take.

W. Norton, pianist and musical conductor, two diverting programs will be presented. The works are now on sale.

Dr. Albert Ham, conductor of the National Chorus, has returned from Europe, where he has been on a factory rehearsal with the New York Symphony Orchestra, who are united with the National Chorus in two concerts, Jan. 14 and 15. Walter Kallrosch was very pleased with the "Ode to the North Wind" by Frederic Cliffe, which he conducted for the first time in America. Dr. Ham also rehearsed the Saint-Saëns "Serenade" for quartet of organ, piano, violin and viola. The subscription closes in a few days.

Barney Gilmore, the natural-singing Irish actor, has a new Irish play, which is said to surpass any theatrical work he has ever seen in this country. It is entitled "A Rocky Road to Dublin," and was written for the young Irish actor by Dan O'Connell, author of the "Parish Priest" and other successes. It will be presented at the

Majestic Theatre New Year's week, concert to be given by Mrs. Le Grand Lester and Joe Manning. The first subscription will be Harry Tigh's well-known and clever comedy, and his singing and dancing girls and boys skit, an act that is in every way novel and pleasing.

Great interest is being taken in the concert to be given by Mrs. Le Grand Lester and Joe Manning. The occasion will attract a large and representative audience. Madame Lester is a well-known professional pianist, and Mrs. Kelly Cole, alto, baritone, and Mrs. Kelly Cole, soprano, are of great note. Saturday evening has been selected for the concert as being a free night, from a society viewpoint.

With the exception of two numbers, the entire program to be given by the Schubert Choir, under the direction of H. M. Fletcher, on March 12, will consist of many beautiful novelties, which will be heard for the first time in Toronto. The principal works are an extended form "Missa" (Schubert), written for soprano soloist and orchestra. The story of the number is of the flight of the Children of Israel from Egypt, and the final destruction of Pharaoh's hosts in the Red Sea. A dramatic scene by Eaton Fanning, "Liberty," a song of ancient Rome, for bass and soprano soloists, chorus and orchestra, by Madam Marie Zimmerman, Philadelphia, and Arthur Bevesford, New York, will sing the solos in these works. The orchestra parts will be played by the Chicago Symphony Orchestra of fifty members, conducted by the composer, who is by Schubert, Dimech, Johnson, Nevin, Kermer, Haydn and Bell. The program of orchestra works will be announced later. The first subscription lists will be called in on Feb. 12.

The New Year's concert in Association Hall on Tuesday evening next will

no doubt, prove an exceptionally fine entertainment. Very seldom indeed have three such artists as Iona Robertson, Janet Duff and Harold Jarvis appeared together on a concert platform in Toronto, and the program is one that will suit all tastes. By special request, Miss Robertson will recite "Ben Hur's Chariot Race," and her opening song will be "Here to the Year That's Awa." Miss Duff will render several popular favorites, and, in response to a number of urgent requests, she will sing "Aldo, with Me," her rendering of which is very impressive. Mr. Jarvis is down for four of his best numbers, and he will also sing a duet with Miss Duff, "Oh, Wert Thou in the 'Cauld Blast,'" which shows a strong measure of the concert. The plan is to start at Heintzman's 97 Yonge-street.

BROOK NO INTERFERENCE.

Governments Say Old Fort Must Be Preserved.

Correspondence between the Dominion and Ontario governments and Mayor Coatsworth was brought to light yesterday, which appears to throw a different aspect on the Bathurst-street-bridge bly, which, if carried, could not be carried out by the city except by a breach of faith on the part of the city with the Dominion and Ontario governments, both of which have notified the mayor that there must be no interference with the old fort.

The correspondence is apparently the result of a memorial sent to the governor-general and to the lieutenant-governor of Ontario by the Patriotic Historical Societies protesting against the desecration of the graves of the soldiers who fell in the war of 1812, and pointing out that the honor of the province is pledged to the preservation of the old fort as a mark and as a monument of Canadian history.

Mayor Coatsworth handed the letters from Premier Whitney and the minister of militia and defence to Major Collins, president of the Army and Navy Veterans' Association, and made pointed enquiries on behalf of the Patriotic and Patriotic Societies yesterday.

KAISER'S SON COMING.

Prince Augustus Wilhelm to Study Yankee Commercial Methods.

New York, Dec. 28.—A cable despatch from Berlin to The American says: It is reported that the kaiser's fourth son, Prince Augustus Wilhelm, whose engagement to Princess Alexandra Schleswig-Holstein was announced yesterday, will visit the United States after his honeymoon next year, and that the kaiser has already planned an itinerary for him. The kaiser's desire is to have the prince make an extensive tour for the purpose of studying American commercial and industrial methods. The prince is to travel incognito, accepting no official hospitality or entertainment.

The prince is in delicate health and unable to occupy in the future any important military or military position. He pleaded with the kaiser to permit him to devote his life to civil affairs, and the kaiser is said to have acceded, wherefore Augustus will be the first Prussian prince to remain a civilian. The prince's military career will terminate after another six months' service in the guards regiment.

TO PREACH HOLY WAR.

Bandit Chief in Mountains Preparing to Resist Invaders.

Tangier, Dec. 28.—According to the best information obtainable, Ratsull has refused to resign his government, and has sent his harem to the mountains, and is preparing to meet the forces of War Minister Gabras at Zinat.

The war minister entered the city in state to-day, accompanied by his staff, and went to the Grand Mosque, where he read a letter from the sultan dismissing Ratsull from his position for causing injury to the country, and appointing Ghazi Pasha to succeed him.

Heart, Throat, Liver and Skin

DR. AGNEW'S FOUR FAMOUS SPECIFICS CURE COMPLETELY THE WORST DISEASES OF THESE PARTS—DREADFUL HEART DISEASE RELIEVED IN THIRTY MINUTES.

Heart disease will affect people differently, but in all cases it must be viewed with great alarm. Dr. Agnew's Cure for the Heart is the one remedy that can be safely depended upon in times of trouble. It will give relief in thirty minutes.

Mr. Thomas Petry, of Aymer, Que., was troubled with severe heart complaint for five years, the pain at times, being so severe that he could not attend to business. Every other remedy failed, and his words are these: "I have now taken four bottles of the remedy and am entirely free from every symptom of heart disease."

A cold in the head need not be trifled with, for it is catarrh in an incipient condition, and catarrh is not to be trifled with. Dr. Agnew's Catarrhal Powder, as scores of testimonies, drives away a cold in the head like magic, and where this has assumed the shape of aggravated catarrh, producing deafness and throat trouble, it effects a permanent cure.

It is not always safe to take pills for liver trouble. They not only frequently create other troubles that are serious, Dr. Agnew's Liver Pills, whilst thoroughly certain of removing all liver trouble, give no difficulty either at the time or afterwards. They are pleasant to take and cost only 10 cents.

The faculty that Dr. Agnew has displayed in getting at the seat of trouble is manifest in his Ointment, as in the other three remedies. This contains the elements that give speedy and permanent relief in all skin diseases and is peculiarly effective in curing piles, 35 cents.

POWER OF TRUSTS FOR EVIL ENLARGED BY THE TARIFF

Prof. Flux of McGill University Addresses American Economic Association at Providence.

Providence, R.I., Dec. 28.—Prof. A. W. Flux of McGill University, Montreal, spoke on "Trusts and the Tariff" before the American Economic Association.

"It should not be claimed that all trusts are creatures of the tariff. But it may be claimed that the extent to which trusts can fix prices for their own gain and to the essential disadvantage of the communities in which they operate is dependent on the existence of, and the level of, the tariff under which they operate.

"The influence of powerful trusts in securing the maintenance of import duties, when the industry concerned has attained sufficient strength to compete on even advantageous terms with foreign producers, finds much illustration in the actual facts of the iron and steel industries in the United States.

"In the case of the iron and steel industries, in which a gigantic trust dominates the situation, the special efficiency of American industrial methods finds its most conspicuous illustration."

SHORTAGE OF FREIGHT CARS SHOWN IN STAPLE SHIPMENT

Great Decline Recorded by U.S. Department in Live Stock and Grain Movements.

Washington, Dec. 28.—The car shortage problem has had its influence upon the movement of internal commerce during the past month, according to a statement issued to-day by the bureau of statistics of the department of commerce and labor.

A marked decline is shown in movements of certain important staples when compared with November of last year. The live stock receipts at seven interior primary markets during November show a falling off of about 300,000 head.

Shipments of packing-house products from Chicago during November declined 77,849,860 pounds, compared with the same period in 1905. The most noticeable decline is shown in receipts of grain, the figures for fifteen interior markets during November showing a falling off of over 17,500,000 bushels from November, 1905.

Orders for Rolling Stock. New York, Dec. 28.—Large contracts are now being placed here for cars for some of the leading eastern railroads. The Pennsylvania has ordered 2000 box cars, to cost about \$2,000,000, and the Erie is about to close orders for 7000 cars, 4000 of the steel hopper type, and 3000 box cars.

PRUSSIAN AND FRENCH LAWS

Comparison by Vatican—Briand Measure Ignores Hierarchy. Rome, Dec. 28.—An official note issued by the Vatican to-day says: "The comparison between the Prussian cultural law of 1875 and that of the Clemenceau cabinet as made in the French senate was entirely wrong."

"The Prussian law, although hard and unjust towards the church, explicitly recognizes the Catholic hierarchy as the foundation of the church, while the fundamental principle of the church is the separation of church and state. Briand's bill is to ignore the hierarchy and to impede in an unjustified manner the ordinary practice of religion."

Took Lynching Quietly. Las Animas, Colo., Dec. 28.—Lawrence Leberg was lynched last night by masked men for the murder of Henry Laffmeyer. About 40 men entered the jail and easily overpowered the officers and locked them in a room.

Woman Goes Over Falls. Niagara Falls, N.Y., Dec. 28.—A woman, believed to be Mary Hogan of Buffalo, committed suicide this morning by going over the American falls. She entered the river 500 feet above the falls, carrying a large umbrella, and was seen by a crowd of on-lookers.

Action Dismissed. Montreal, Dec. 28.—Judge Taschereau has dismissed the action of S. A. Stephens against the American Locomotive Company for \$20,000 commission to satisfy which two new locomotives in transit were seized in this city.

To Discuss the Tariff. A special meeting of the executive council, Canadian Manufacturers' Association, is announced to be held Jan. 2, to discuss the tariff and to establish a definite policy with regard to future attitude and action in the matter.

New Year Excursion Rates. Single fare for the round trip via Grand Trunk Railway, tickets good going Dec. 31st and Jan. 1st, returning until Jan. 2nd, and at fare and one-third good going from to-day until these rates apply to all stations in Canada; also to Detroit and Port Huron, Mich., Buffalo, Niagara Falls and Suspension Bridge, N.Y.

Lacked Pilot; Lost Steamer. New York, Dec. 28.—The inability of Captain Braunwig of the Hamburg American steamer yacht Prinzessin Victoria Luise to obtain the services of a pilot was largely responsible for the wreck of the steamer, and the subsequent suicide of the captain near the harbor of Kingston, Jamaica, about ten days ago, according to stories brought here to-day by passengers and members of the crew of the wrecked steamer.

Trouble Averted. Constantinople, Dec. 28.—The energetic representations of the Persian ambassador against the Turkish occupation of Mesogoyar and Bend, two points on Persian territory, have resulted in orders being issued for the withdrawal of the Ottoman troops, thus averting a threatened conflict with Persia.

14 Killed in a Stampede. Manila, Dec. 28.—The governor of the Province of Negros has reported that 14 natives were killed and 13 wounded in a panic at a midnight Christmas mass at Tanjay.

Death's Awful Suddenness. Findlay, Ohio, Dec. 28.—James Kelly, aged 39 years, a wealthy oil well contractor, was killed last night in his car, while putting coal in the furnace. He came in contact with an electric light wire.

LIFE MAGNATES INDICTED FALSE RETURNS CHARGED

Grand Jury Finds Defendants Were Influenced by Desire to Benefit Policyholders.

New York, Dec. 28.—George W. Perkins, former vice-president of the New York Life Insurance Company, and now a member of the firm of J. P. Morgan & Co., and Charles S. Fairchild, former secretary of the treasury and a trustee of the New York Life Insurance Company, were indicted to-day by the grand jury, charged with forgery in the third degree.

The indictments were based on what is known as the Prussian bond transaction, in which it is charged that a false statement was made by the New York Life Insurance Company in order to satisfy the government of Prussia as to the securities held by the company.

Mr. Perkins appeared in court and gave bail in the sum of \$10,000. Mr. Fairchild is in Europe. One of the transactions investigated by the grand jury in this connection, and the one on which the indictments were based, was what was alleged to be a dummy sale of 10,000 shares of Chicago & Northwestern preferred stock, and 5000 shares of St. Paul stock to the New York Security & Trust Co., which appeared on the books of the New York Life Company. This transaction was a complete sale of the securities. The New York Security & Trust Co., however, received the proceeds of the New York Life Company, by way of a loan. Later these shares were sold by the New York Security & Trust Co. with a profit to the life insurance company of \$185,000.

This alleged false statement of sale had for its object compliance with the rules of the Prussian government, which a life insurance company doing business in that country shall not include bonds in such assets.

Mr. Perkins was arraigned in the court of general sessions and entered a plea of not guilty to the indictments, reserving the right to withdraw the plea at a later date. He was given until Jan. 21 to file demurrers. Bail was furnished by J. P. Morgan Jr., and Cleveland H. Lodge.

The jury reported six indictments against each of the accused men. According to the indictment, the companying the indictments was the following statement: "The grand jury respectfully presents that in filing a bill of indictment against two persons for offences committed in connection with the affairs of the New York Life Insurance Company, that accepting the law of these cases as advised by the district attorney, they feel constrained to find the indictment this day filed. The grand jury, however, desire to record their conviction that in doing the acts charged by the indictment were influenced by a desire to benefit the policyholders of the New York Life Insurance Company; that the defendants themselves neither did nor could in any way personally profit from the acts done, and that the evidence conclusively showed that a large pecuniary benefit was derived by policyholders as a consequence of those acts."

DEAR ELOPEMENT. Former Crown Princess of Saxony Abandoned by Lover. Brussels, Dec. 28.—André Giron, who achieved considerable notoriety three years ago by eloping with the then crown princess of Saxony, was married here yesterday to Mile. Jeanine Brien, who is 12 years his senior.

Mr. Giron had entered into a compromise with the family of the crown princess and then abandoned her. The cost of the crown princess's loss of her children and expulsion from the imperial house of Hapsburg.

"SOVEREIGN"

Hot Water Boilers

There are five separate and complete boiler sections in the "Sovereign," each bolted separately to the water post. This arrangement saves in the cost of erection, and it divides the boiler into a number of complete units. One boiler section may be used for heating water for the bath without interfering with the satisfactory working of the boiler as a house-heating apparatus. And if the matter of replacing a section is to be considered, the defective part may be removed without dismantling the whole apparatus. Or one section may be disconnected from the water circulation without affecting the circulation through the other sections. Accidents, which necessitate the removal of a section of the "Sovereign," are few, but such a thing might occur in a vacant house as allowing the water to freeze in the boiler. This would crack the metal. Apart from this the probability of accident is remote. However, the removable sections provide for economical and handy replacements when required.

TORONTO GUELPH MONTREAL

THE MUNICIPAL ELECTIONS

Ald. Adams is again asking the people of Toronto to elect him to represent Ward Six. Mr. Adams has been in the council, and while he has made no particular stir, still has kept his eyes open, and has made for himself a reputation for good judgment on matters pertaining to the interests of the city. He is one of the heaviest taxpayers in the city, and has the Adams Saddlery Company, has the progress of the city very much at heart. He is a man of the kind who needs to assist in the conduct of his business.

Harry Lovelock has lived 40 years in the City of Toronto, and in all that time has been a resident of the council in that ward, and is looked upon as a strong runner in the fight. Perhaps no man in Toronto is better known to the average man on the street than Harry Lovelock. His business ability is indisputable. Should he be elected, he would bring a capacity for work and judgment to the council that would mean much to the city.

Ald. Robert Fleming of the first ward has been a member of the city council, and is now a candidate for the board of control. Everybody in the city knows Robert Fleming, and as a man of exceptional business ability. While in the council he was chairman of the fire and light committee, and made much excellent work for his party. He is a man of independent means, and his giving of his services to the people is in pursuance of the laudable ambition to do something for his native city.

S. Alfred Jones is again in the field for control, and he has done much to the credit of the council in that position. He is a man of the highest consideration of the ratepayers. For one thing, he was right in his position on the Clarke matter, and stood out against a strong opposition on a line fitting in with his belief. He had the satisfaction of having the board of control come to his point of view, and his action in this matter is a criterion of what he is prepared to do in the interests of the broad scheme for making Toronto a manufacturing centre. He certainly merits the support of the board of control. Then his position as the matter of the industrial commission was altogether in the interests of the City of Toronto. If any man is the father of this position, it is S. Alfred Jones. Mr. Jones is meeting with great success in his canvass, and there is not the slightest doubt that the people will be with him when the poll is taken.

Ex-Ald. E. Strachan Cox is a candidate for municipal honors in Ward Two. When Mr. Cox was a member of the council some years ago he made an excellent member. Mr. Cox is in favor of the power bylaw, also the Bloor-street viaduct, and promises, if returned, to give his best support in the direction of those exceedingly necessary civic improvements.

R. R. Davis is a candidate for reelection to the board of education. During his term as trustee, Mr. Davis has made an excellent member of the board of education, evincing great interest in school matters. F. H. Gooch, an old resident of Toronto, and a very large property owner, is a candidate for the board of education. Mr. Gooch has always taken a great interest in school matters, and promises, if elected, to give his best attention to the simplification of the curriculum in the public schools of the city.

There is a keen campaign on in Ward Two this year. The electors should see to it that Ald. Church is again returned. He is a progressive, and in the council, and voted against the Yonge-street bridge settlement and the course in council. He is progressive, and has served the interests of Ward Two in a capable way, and is one of the best upholders of public ownership in council. On his motion, the city carried a resolution asking the rail-

VOTE FOR WHAT IS RIGHT THAT'S LINDALA'S MAXIM

Doesn't Go Asking for Support, But Believes He's Entitled to Support.

In the rear of 159 York-street is a one-story brick building. To the south runs a broad, well paved lane from which the visitor enters a long bright, well-lighted work room owned and directed by James Lindala, by occupation a tailor, and at present a candidate for mayor of Toronto.

York-street is cosmopolitan. Signs in Yiddish appear on the shop windows, and strange names, at every turn, proclaim immigration from Italy, Russia, Poland and other countries of continental Europe. At No. 159 is a retail grocery, rather fresher and more attractive in appearance than some of its neighbors. It is in a two-story brick building immediately adjoining, but not connected with the work room. Mr. Lindala owns this property, and he has other possessions. He is well-to-do and takes an honest pride in this visible proof of his industry.

It was a merry group that the reporter found assembled in the work room, fair-haired and smiling, gathered about a table where the candidate for the mayor was sitting. The artist sketched him for an evening paper. It was a good likeness, and the group was pleased and excited as the artist sketched him for an evening paper. It was a good likeness, and the group was pleased and excited as the artist sketched him for an evening paper.

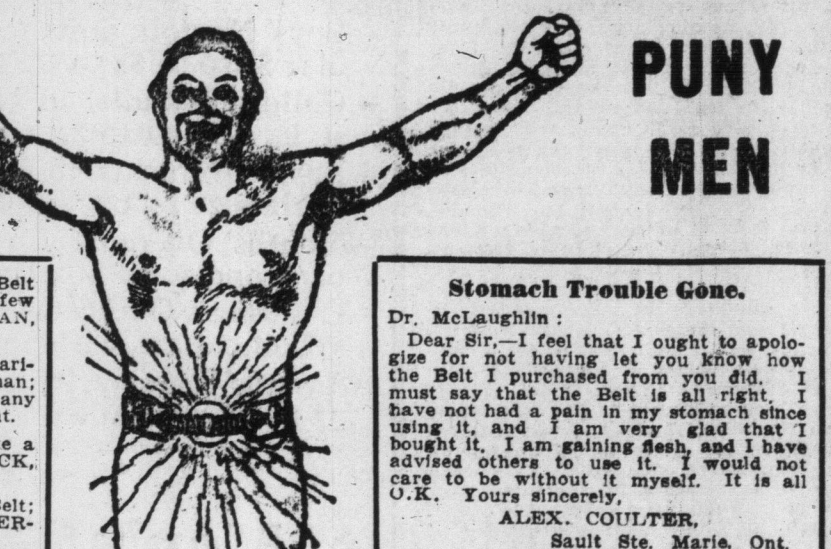

Expect Election. He is a native of Finland, and came to Toronto in 1887. He was then twenty-seven years of age, and except for a brief sojourn in the United States he has lived here ever since. His wife is also a native of Finland, but their three children are all Canadian born. Nearly all of his workmen are Finns, also are represented including Hebrews, and other nationalities. He seems of a German rather than of a Scandinavian type, with brown hair, blue eyes, and his thoughtful face seemed rather hard and stern, did it not so easily ripple to laughter. Here is a man of force, of strong will, and of marked executive ability. He is no idle dreamer, and yet he dreams of the world growing firm and new to the citizens of Toronto, and he is of the stamp of one who will do it.

Ald. John Dunn is a candidate this year for board of control, and he deserves the support of the citizens of Toronto. He has spent twelve years in the city council, and has been noted for his independence of action. He has firm views regarding the rights of the people, and has not been backward in proclaiming them in the council chamber and outside. Mr. Dunn is one of the most successful business men of Toronto, and has the honor of being the first Canadian to form a company for the export of cattle to Great Britain. He has been in the export cattle business since 1878, and has been the means of bringing into Canada from the old land eighteen millions in gold. His position as a business man is unassailable, and he is of the stamp of one who will do it.

Do you mean Liberal or Conservative? No, there is no difference between the parties. When I was young and new to the country I bothered my head trying to find out which was right. But I can't see any difference between them. They are like two black cats in a dark night. "What is your platform?" "I have issued my manifesto, but it hardly says enough about municipal matters. I am in favor of municipal ownership of street cars, street lighting and all public utilities should be owned and operated by the government, not for profit, but for the good of the service at the lowest price, with all my heart."

His Views on Socialism. Speaking of socialism Mr. Lindala said: "I am not an anarchist or a nihilist or in favor of anything but obedience to law. I am a taxpayer and a citizen, and I will do my duty to the best of my ability. I am going to do everything I can for the power bylaw," he says, where in he voices the expressed attitude of every other candidate.

Vigorous Strength FOR WEAK MEN

Stomach Trouble Gone. Dear Sir, I feel that I ought to apologize for not having let you know how good your medicine is. I must say that the Belt is all right. I have not had a pain in my stomach since I used it, and I am very glad that I bought it. I am gaining flesh, and I have advised others to use it. I would not care to be without it myself. It is all O.K. Yours sincerely, ALEX. COULTER, Sault Ste. Marie, Ont.

people. I want to see conditions better. I want my children and all children to have it less hard than we have it. I want the old people to find life so hard as many of them do. The first step in this direction is to save the great profits now going to franchise-holding corporations and to diffuse them in the best and better service for the people. Mr. Lindala has a slight German accent. He speaks quietly and his words are carefully chosen. There is about him nothing of the agitator. He is an honest, sincere, intelligent gentleman respected by all who know him. His candor has attracted unexpected attention, and his success at the polls by no means impossible. Here, there, everywhere, in offices, shops and factories, on street cars, and wherever else men and women most do congregate, one finds an unexpected ground swell toward Lindala. It is not only the labor element, also that element is practically solid for him. A casual conversation will disclose that persons who might be thought most unlikely to support him intend to vote for Lindala. The "ward" seems almost unanimous. Wherever the candidate is known, one hears nothing but good of him.

And beyond his personality is the spirit for which he stands. The men thought most unlikely to support him intend to vote for Lindala. The "ward" seems almost unanimous. Wherever the candidate is known, one hears nothing but good of him.

The surprising feature of the campaign for the mayoralty is that, despite the apparent lack of interest in the contest, there seems to be a strong undercurrent in favor of Lindala. In casual conversation, one finds an unexpected ground swell toward Lindala. It is not only the labor element, also that element is practically solid for him.

Ald. Dunn is in blithesome mood concerning his prospects in the controllership campaign. "I am meeting with warm encouragement from my friends all over the city, and have every reason to believe I will be elected," he declared yesterday.

LIGHT LIQUIDATION IS STILL PROCEEDING In the Mining Markets, and Prices Are Being Gradually Forced Lower.

pany paid a dividend of \$400,000 cash to Messrs. McCall, Delaman, Converse, Earle, Watson and Robert M. Thompson. There were a few other stockholders, but it was \$400,000 was understood to be a reimbursement of every dollar the mining property...

World Office, Friday Evening, Dec. 28. Weakness marked practically all the Cobalt shares again today at the Toronto and outside markets. The sales are dwindling away to the smallest kind of trading, and the outside buying is of the most ultra-conservative kind.

Hasson Mine Ships. Port Arthur, Dec. 28.—A carload of silver, valued at \$15,000, was shipped from the Hasson Consolidated Mine to Omaha yesterday.

Can Produce Enormous Returns. H. N. Harding, a specialist employed by the Nipissing directors, is said to have made these remarks in his report on the property: "My former examination of three of your fifty or sixty veins justifies my statement that if the property were developed as it should be, it would produce enormous returns, and even then these veins would only have commenced their production, when systematic mining is undertaken."

Rumor Still Circulated. Heavy transactions occurred again yesterday in Silver Leaf stock, the rumor of a new deal on this property being accentuated by those supposed to be in the know. One who has recently returned from Cobalt alleges that the knowledge of 50,000 shares in the claim is being kept a secret to admit of accumulation of the stock, and that he is aware of one purchase of 50,000 shares. He also says that the uncovering of the vein has locked out the workers engaged at the mine, and not from any commission by the company's officials or officers.

New Tenders for Kerr Lake. The government has decided to again ask for bids for the Kerr Lake mining rights, having refused the former bid of \$31,500. The feeling among local miners is that they are acting for syndicates bidding for this property is that it is doubtful whether the result will be much better than the one already in. The claim is that the property is inaccessible, except over a difficult way of one purchase of 50,000 shares. He also says that the uncovering of the vein has locked out the workers engaged at the mine, and not from any commission by the company's officials or officers.

Ling in Snow Hats. The Cincinnati Enquirer appears to be working in conjunction with the Guggenheim and the Hearst party on Nipissing. It declares that work has been shut down in the Nipissing Mines on account of the extreme weather, which, they declare, is at least 40 below zero, and the ice is frozen to a depth of eight feet. That there is as much snow that the natives and miners are living in snow houses, like Esquimaux. This is a wretched tale, and a proof that the rumor factory has increased its staff and is working overtime to supply a fresh lot of lies for 1937.

Not Anxious to Work on Nipissing. I notice that I notice the superintendent of the Nipissing silver mine, situated at Cobalt, and while not dearing the valuable deposits waiting to be taken out, I should like to add a few facts, after working on the property for just six months, which are: That the shares would be much more advanced in price if officials, as a workmen who worked there, and who are silent, I want to deal with other affairs. First, the management will not pay decent wages, consequently only get a poor class of laborers. The management of its work and, therefore, to know how to make up a gang of men. The food as supplied is a splendid, not only among the best in the world, and sure case of dyspepsia in a very short while, and any of those who have had the "tick" to have silent in what is known as the big sleeping camp will readily hear out my statement about being alternately either frozen to death, or very opposite.

These few simple facts are the chief reasons for the lack of development of the famous property. There are also other things which are: That the shares would be much more advanced in price if officials, as a workmen who worked there, and who are silent, I want to deal with other affairs. First, the management will not pay decent wages, consequently only get a poor class of laborers. The management of its work and, therefore, to know how to make up a gang of men. Cobalt a Sure Winner. Mr. Hiram Exstein, manager of the Buffalo Mining Exchange, was seen at the King Edward Hotel this afternoon, and in a short interview said: "Cobalt is a great winner, and here to stay. I went into the district last August and was there but a short time before I became highly impressed at the prospects for the Cobalt mining district. It is a sure winner, and I have, and so have all my associates, the faith and confidence that will take more than an ordinary Louisiana cyclone to shake. The capitalists of Buffalo and New York are highly impressed with Cobalt, and are are highly impressed that the Cobalt area will grow. Later on, I think, the Larder Lake district will be big thing, too, but for the moment the storm-centre is in and about Cobalt property."

Regarding the Nipissing Company, Mr. Exstein said that it was his candid opinion that a reasonably short time the promoters of this stock would be sorely disappointed. "Nipissing is a grand proposition, and one that will stand the mining world next February and March."

More Detailed Statement Wanted. New York American: Wall-street has discovered a new mystery in Nipissing, and scores of curb traders were lined up today to figure out \$400,000, which is supposed to lie in the treasury of the Nipissing Mines Company or in the treasury of its subsidiary concern, the Nipissing Mining Company, but which does not appear in the published statement recently made by B. P. Earle, president of the company. According to President Earle's statement of Monday the company has earned all told, over \$2,000,000 net. To be exact, the net is placed at about \$2,100,000 by Mr. Earle. Before the Nipissing Mines Company was incorporated, the Nipissing Mining Com-

pany paid a dividend of \$400,000 cash to Messrs. McCall, Delaman, Converse, Earle, Watson and Robert M. Thompson. There were a few other stockholders, but it was \$400,000 was understood to be a reimbursement of every dollar the mining property...

Rumor Still Circulated. Heavy transactions occurred again yesterday in Silver Leaf stock, the rumor of a new deal on this property being accentuated by those supposed to be in the know. One who has recently returned from Cobalt alleges that the knowledge of 50,000 shares in the claim is being kept a secret to admit of accumulation of the stock, and that he is aware of one purchase of 50,000 shares. He also says that the uncovering of the vein has locked out the workers engaged at the mine, and not from any commission by the company's officials or officers.

New Tenders for Kerr Lake. The government has decided to again ask for bids for the Kerr Lake mining rights, having refused the former bid of \$31,500. The feeling among local miners is that they are acting for syndicates bidding for this property is that it is doubtful whether the result will be much better than the one already in. The claim is that the property is inaccessible, except over a difficult way of one purchase of 50,000 shares. He also says that the uncovering of the vein has locked out the workers engaged at the mine, and not from any commission by the company's officials or officers.

Ling in Snow Hats. The Cincinnati Enquirer appears to be working in conjunction with the Guggenheim and the Hearst party on Nipissing. It declares that work has been shut down in the Nipissing Mines on account of the extreme weather, which, they declare, is at least 40 below zero, and the ice is frozen to a depth of eight feet. That there is as much snow that the natives and miners are living in snow houses, like Esquimaux. This is a wretched tale, and a proof that the rumor factory has increased its staff and is working overtime to supply a fresh lot of lies for 1937.

Not Anxious to Work on Nipissing. I notice that I notice the superintendent of the Nipissing silver mine, situated at Cobalt, and while not dearing the valuable deposits waiting to be taken out, I should like to add a few facts, after working on the property for just six months, which are: That the shares would be much more advanced in price if officials, as a workmen who worked there, and who are silent, I want to deal with other affairs. First, the management will not pay decent wages, consequently only get a poor class of laborers. The management of its work and, therefore, to know how to make up a gang of men. The food as supplied is a splendid, not only among the best in the world, and sure case of dyspepsia in a very short while, and any of those who have had the "tick" to have silent in what is known as the big sleeping camp will readily hear out my statement about being alternately either frozen to death, or very opposite.

These few simple facts are the chief reasons for the lack of development of the famous property. There are also other things which are: That the shares would be much more advanced in price if officials, as a workmen who worked there, and who are silent, I want to deal with other affairs. First, the management will not pay decent wages, consequently only get a poor class of laborers. The management of its work and, therefore, to know how to make up a gang of men. The food as supplied is a splendid, not only among the best in the world, and sure case of dyspepsia in a very short while, and any of those who have had the "tick" to have silent in what is known as the big sleeping camp will readily hear out my statement about being alternately either frozen to death, or very opposite.

Cobalt a Sure Winner. Mr. Hiram Exstein, manager of the Buffalo Mining Exchange, was seen at the King Edward Hotel this afternoon, and in a short interview said: "Cobalt is a great winner, and here to stay. I went into the district last August and was there but a short time before I became highly impressed at the prospects for the Cobalt mining district. It is a sure winner, and I have, and so have all my associates, the faith and confidence that will take more than an ordinary Louisiana cyclone to shake. The capitalists of Buffalo and New York are highly impressed with Cobalt, and are are highly impressed that the Cobalt area will grow. Later on, I think, the Larder Lake district will be big thing, too, but for the moment the storm-centre is in and about Cobalt property."

Regarding the Nipissing Company, Mr. Exstein said that it was his candid opinion that a reasonably short time the promoters of this stock would be sorely disappointed. "Nipissing is a grand proposition, and one that will stand the mining world next February and March."

More Detailed Statement Wanted. New York American: Wall-street has discovered a new mystery in Nipissing, and scores of curb traders were lined up today to figure out \$400,000, which is supposed to lie in the treasury of the Nipissing Mines Company or in the treasury of its subsidiary concern, the Nipissing Mining Company, but which does not appear in the published statement recently made by B. P. Earle, president of the company. According to President Earle's statement of Monday the company has earned all told, over \$2,000,000 net. To be exact, the net is placed at about \$2,100,000 by Mr. Earle. Before the Nipissing Mines Company was incorporated, the Nipissing Mining Com-

OTTAWA'S SUBSCRIPTION LIST WAS SUBMITTED TO GOVT.

May Have Helped to Win Tender, But Amalgamation With Toronto, End Was a Necessity.

The injunction against the Cobalt Lake Mining Company, granted on Thursday by Frank Scott Malouin, was yesterday dissolved by Justice Mabee, James Bicknell, K.C., who said that the Cobalt Lake Mining Company had returned the list of subscriptions offered by S. J. Martin, while accepting two marked cheques after the books were closed. Justice Mabee said that the action should be against Martin for default in issuing or against the Cobalt Lake Mining Company, not against the defendants, who never heard of Malouin, and were in no way contractually connected with him. Justice Mabee said that the \$1,000,000 worth of shares to be put up by the company, and that a writ of this kind on the eve of holding a large affair might very easily stampede the subscribers and spoil the whole project.

G. F. Henderson of Ottawa declared that the Cobalt Lake Mining Company was unable to make a satisfactory tender, and had merged with the Toronto syndicate. He had been asked by a member of the cabinet to furnish a list of those on whose behalf he was acting. That list, he thought, had been furnished to the government in their acceptance of the tender. When the Ottawa Mining Company was formed, the Cobalt Lake Mining Company had already disposed of the promotion. The Cobalt Lake Mining Company had been formed by the Cobalt Lake Mining Company, and the Cobalt Lake Mining Company had been formed by the Cobalt Lake Mining Company.

IN FULL BLAST AGAIN THE IMMENSE PLANT OF FROST & WOOD

Complete New Electrical Apparatus From the Canadian Westinghouse Company.

Smith's Falls, Ont., Dec. 28.—(Special)—There is no trace left of the disastrous fire which recently visited the plant of Messrs. Frost & Wood, Smith's Falls, Ont., and did such extensive damage. The rebuilding has been pushed ahead so rapidly that only a short interruption resulted in the large business done by this firm. Now the plows, reapers and other farm implements which they manufacture are being turned out in increased perfection of workmanship, on account of the new machinery and appliances necessitated by the destruction of the machinery formerly used.

It is an interesting fact that the Frost & Wood implements are mainly used in harvesting the immense crops of Manitoba and the Northwest. In the new machinery now installed, electrically plays a more prominent part than ever. The apparatus purchased from the Canadian Westinghouse Company consists of one 230 K. W. 440 volts, revolving field engine, type A. C. generator complete; one 140 K. W. 440 volts revolving field engine, type A. C. generator complete; one 6 K. CIVIC CASES FIZZLE.

Magistrate is Tired of Delay in Prosecuting the Metal Men.

When Judge Winchester, after a thorough enquiry, made his report on civic affairs, it looked as though somebody would have to pay a penalty.

By yesterday's case in which Joseph Wright, Ass. Matthews, Alexander Wheeler and John O. Thorne were accused of conspiracy to defraud the city in connection with civic contracts, were allowed to fizzle.

Crown Attorney Corley stated that as Mr. Drayton, county crown attorney, was not present, the crown could not proceed.

"Well, this thing has been going on for weeks," said Mr. Corley. "Here is Mr. Wright, who is prepared to go into the box and prove that there is not a word of truth in the whole thing."

CONSPIRACY NOT SHOWN.

Magistrate Says Garment Workers Case Against Employers is Weak.

Magistrate Deacon yesterday opined that the charges of conspiracy to prevent Israel Mintz, a garment worker, getting a job, preferred against several firms, were not established, but the case was adjourned till Monday.

C. D. Poole of the Eaton Co. said a list of Lowndes' strikers had been received. One applicant for work had been refused for "other reasons" and E. W. Eaton said Mintz had not told the truth in making his application for employment. The Eaton Company were not members of the Employers' Association.

YORK COUNTY AND SUBURBS FREE MAIL DELIVERY SOON FOR SUBURBAN DISTRICTS

Welcome Announcement From Ottawa-Junction to Have a Carrier System.

Fifteen years ago or more The World advocated the creation of a metropolitan postal district of Toronto, which would give the postmaster of this city supervision of the contiguous and outlying postoffices in the Township of York, south of, say, a line that would run thru York Mills, and to have in connection therewith a free delivery, the same as in the city. HOLLEY DISCHARGED.

Charge of Conspiracy Against Real Estate Agent Falls.

The charge of conspiracy to defraud the University of Toronto, preferred against T. W. Holley, real estate agent, has failed, but Judge Winchester, in discharging the accused, declared that the evidence showed that he had intended, and had succeeded in defrauding the university.

"The charge is conspiracy. The crown has been unable to prove that those who acted for you knew nothing about the matters," said the judge. "The deceit by which the university was defrauded, and there is everything to show that you took advantage of your clients. I find you not guilty on this charge. It depends on the crown whether or not you will be prosecuted on the charge I have mentioned."

Holley was defended by C. H. Ritchie, K. C., and was attended by his solicitor, H. L. Drayton, who prosecuted for the crown. John A. Paterson, K. C., appeared with the pursuer of the university, Anthony F. Moore took no part in the proceedings. Evidence was given by Mr. Moore that Holley's instructions to sell were accompanied by a scale of maximum and minimum prices.

L. Fouldes said he had signed the "offers" for the property at Holley's request. He had received no commission. R. K. Barber of Georgetown related that Holley asked him to enter into an agreement that Holley might purchase a block of land in the name of Barber. Witness did not know who the owner was or what it was for. He signed the agreement, and he did not know what the deal was till it came out in the papers. He did not read the agreement, and didn't know what it was about.

MONTREAL BOARD OF TRADE.

Montreal, Dec. 28.—(Special).—It is generally conceded that George G. Merrill will be the next president of the Montreal Board of Trade, and that T. J. Drummond will be advanced from the position of second vice-president to first vice-president. For the position of second vice-president there are likely to be many candidates, but the opinion was freely expressed among several members on exchange today, that as promotions seemed to be the order of the day, Charles B. Ebdale, who is at present treasurer of the board of trade, should follow in the position which will be vacated by Mr. Drummond.

McNEES RESIGNS.

Vancouver, B. C., Dec. 28.—William Wallace Bruce McNeess has resigned the Yukon governorship to lead the provincial Liberals, Macdonald stepping aside as a mere candidate. If the Liberals win, the rumor here has it that McNeess will be taken into the federal cabinet, with Vancouver as a seat. MacPherson getting the local postmastership.

Peace-maker Killed.

Saved by Student.

Madison, Wis., Dec. 28.—It was learned today that President Van Hise of the University of Wisconsin, while skating on Lake Mendota on Christmas Day, broke thru the ice at a point where the water is 4 1/2 feet deep, and for some time remained in the water until he was rescued by a student.

Furs You Need

It is friendly of us to urge you to buy furs. They give you both a good investment and the keen enjoyment of knowing you have a handsome garment—and the comfort besides. This applies to men as well as women and many would be the happier for the purchase of one of the following articles. Saturday and Monday are two good buying days. REEVE SYME EXPLAINS.

Why He is in the Contest for the Reeve Ship Again.

In answer to the charge that he signified his intention to retire this year from the York Township council at last year's nomination, George Reeve Syme states that his remarks at the time were perfectly sincere, but that he made no absolute promise in that respect. He says that he has gone into the township to run again for the reeve ship, and thus endeavor to get the just claims of York Township recognized by that body. Reeve Syme says he intends to run again for the reeve ship, and thus endeavor to get the just claims of York Township recognized by that body.

ANNUAL POULTRY SHOW.

Exhibition Opened at St. Andrew's Hall Yesterday.

The thirteenth annual exhibition of the Toronto Poultry and Pet Stock Association, which opened in St. Andrew's Hall at noon yesterday, promises to eclipse in point of exhibits any show previously held in this city. Beginning yesterday, the show will continue until New Year's Day. In some of the classes the quality of the birds is said by competent judges to be of exceptional merit. In the Banded Rocks and White Wyandottes, notably, the case. Other classes represented are the Andalusians, Hamburgs, Mediterranean, Dorkings, Orpingtons, Polish, Bantams and Game. The judges were busily employed yesterday in awarding the prizes, but they were not concluded their labors, which will be resumed this morning.

Feature of this year's show is the number and value of cups presented by friends of the association, and which are now on exhibition. Some regret will be felt at the fact that there are no pigeons shown this year, but the class for rabbits and guinea pigs is well filled. Altogether, the show is a representative one, fanciers from all parts of Canada being among the exhibitors.

ANOTHER ASSASSINATION.

LOOKED LIKE MYSTERY.

Murder Theory Upset by Autopsy of Medical Examiner.

Boston, Dec. 28.—The body of Mrs. Nellie Murray of Charlestown, which was found to-day partly clad and lying in the snow in the yard of the Massachusetts General Hospital, furnished for a time a mystery such as the police have not had in hand in months.

The first theory of the police was that Mrs. Murray had been murdered and dragged to the place where the body was found, from a house adjoining the hospital enclosure.

However, satisfied Medical Examiner Harris that the woman had been suffocated, apparently while leaning from a window to relieve nausea, and had fallen. There were no marks of violence about the body, but a leg was broken.

STRONG FOR BECK POWER.

Preston Generally Favors Proposition of Government.

Preston, Dec. 28.—(Special).—While no public meetings have been held here so far to discuss the Beck power proposition, the sentiment of both the local manufacturers and citizens generally seems to be favorable towards the by-law, which will shortly be submitted to the ratepayers.

The Dunlop Creed

WE believe that the trade mark, the two hands, is the most valuable asset in our business, and we shall aim to keep it always in good repute by fair and square dealing.

We believe it is in the fullest sense injurious to our prospects to allow the Dunlop trade mark to be placed on any goods not made of a superior quality of rubber.

We believe in quality. We know that the satisfaction quality gives is lasting, while the satisfaction a purchaser has in buying cheaply is short lived. When he does not find quality he forgets the price paid and begins to think he has been fooled.

As we hope to last in this business we affirm it is our unalterable determination never to compromise the Dunlop standard of quality in rubber.
