The announcement says:

"The commander-in-chief in the East Indies reports that Tuesday morning His Majesty's ships under his command, captured the fort at Saliff, after a resistance of three hours.

"The fort is situated on the eastern shore of the Red Sea in the Kamaran anchorage, 180 miles north of Perim, between Loheiya and

"Ninety-four prisoners, three machine guns and two mountain guns and military stores, camels and the harbor plant were captured.

"One Britisher was killed."

Fort Saliff is on Kamaran Bay, in Yemen Province, southwestern

Arabia. Large rock salt works are located there.

The captured fort lies about 175 miles north of the Gulf of Adgs. A force of Turks to the north of Aden has been long in the way of the British in attempts they have made to advance from that city. The purpose of the seizure of Fort Saliff may be in facilitation of a movement to work in behind this force and capture or disperse it.

Guelph. June 14.—The convention of delegates from the Ontario Poultry Associations, meeting with the confederation of local poultry associations, after a session of two days' duration, completed their business this afternoon. Several very important resolutions were passed with a view to encouraging the ruising of more and better poultry, and also respecting increased production.

One resolution urged upon the Domition Government the necessary, purchasing for redistribution, such reasonable-priced foods as are available in this and other provices for the adequate feeding of poultry, and without clay. In view of the splendid success of this convention a resolution was passed making it an annual fixture.

Perhaps the most important resolution was the one expressive of the opinion fhat the time is opportune for a Candian poultry association, widespread in its operations.

Washington. June 14.—The Liberty oan campaign entered the home tretch today with every indication hat the tremendous thirty-day drive hruout the nation would result in oing well beyond the two billion nark aimed at.

mark aimed at.

From coast to coast the story that poured into the treasury all day was the same story of whiriwind finish. Telegrams told of tolling belis and shrieking whistles across the continent, marking the last day of the campaign; of redoubled efforts by the many agencies at work for the loan's success, of enthsulasm at its highest pitch, of long waiting lines of subscribers in thousands of banks in every state of the union.

'The last twenty-four hours' work is going to show big in the final account, according to these reports.

Before noon tomorrow, officials hope, every man in the country who can subscribe, will have done so. At the closing hour toucht.

Apparent Shortage.

Late campaign figures, made public today, by Secretary McAdoo, as of the close of business last night, showed an apparent shortage of \$157,900,000, the total reported being \$1.843,000,000, the total reported being \$1.843,000,000, the total reported being \$1.843,000,000,000, These reports were received after noon at the treasury. They showed an increase of nearly \$200,000,000 in subscriptions over the previous day's report.

The loan, according to reports received by treasury officials, is in every sense a popular one. By far the greatest issues which the bureau of engraving and printing will be called upon, to turn out will be of the \$50 and \$100 bonds. For them there has been an extremely heavy demand in every industrial section of the country and in many rural communition. ## SEEING THE WAR IN PERSPECTIVE

Fall of Bapaume Picture Gives Comprehensive View of Operations.

CAMERAS EVERYWHERE

Record More Than Any One Soldier Can Hope to

Soldiers who have returned from the front in many cases find it very difficult to tell much about their exes except in the cases of small periences except in the cases of details. The reason is simple, The operations in this war are so vast no one man sees them in perspective unless it be officers of the higher commands and the commander-in-chief himself.

And a soldier's view of the war is /eiy apt to be the things he saw going into the trenches and then a barren strip No Man's Land, featureless except for some barbed wire and shell holes. He takes part in an attack, sees mer fall, gets hit himself and comes home by stages marked by hospitals and

convalescent stations. His adventures are of interest to his friends, but they do not give a very comprehensive idea of the war.

Not so with the moving picture cameras employed under the auspices of the British army to take moving picture records of the war for the British Government. The camera machines see everything, record it all imperishably and truth-fully on film. There is nothing more real than moving pictures of war but the war itself.

WILL ASK GOVERNMENT tells more in an hour and a half than tells more in an hour and a half than could be told by all the returned soldiers who have come back from the front. The film is not confined in its story to one place in the line or one short period in battle. It is a comprehensive review of the British advance resulting in the capture of Bapaume and Peronne. While soldiers could not describe what they saw in the way that this moving picture does, they are quick to recognize and appreciate the truthfulness of the film when it is shown to them, and are among the most enthusiastic of the visitors to the Right Theatre this week. The hope was expressed that never again would race track gambling be permitted to gain a legal foothold in any part of Canada. The race track was regarded as the avenue for the moral ruin of its patrons.

"This war is a great struggle for righteousness, and thank God we are on the right side," said Dr. J. H. Farmer, who addressed the conference on missionary work. "But I do not think it is the most serious thing in which the people are engaged. It is not so serious as the great war of Christ, of which He is leader. The action of the federal government in prohibiting race track gambling during the war and the introduction of conscription for Canada by Premier Borden received hearty enders at the closing of the forty-second annual conference of the Toronto Baptist Church last night. Another resolution called upon the Borden Government to introduce legislation for Deminion-wide prohibition and to stop the manufacture and sale of liquor. It was the belief of the conference that in the serious situation confronting Great Britain and her alikes Canadian army at the front, and felt the best method of reinforcing the Canadian army at the front, and felt that there should also be conscription of the material resources of the Dominion.

Discussing prohibition, the conference declared that in the manufacture of, liquor food products, which were essential to the life of the country, were thrown to waste, and that the traffic in liquor ruined the manhood in civil and military life. The members expressed regret that the federal government permitted the continuance of the canteen in the Canadian military camps overseas, and declared that in so doing the Borden cabinet had broken faith with the people. A request that the canteen be closed was embodied in the resolution.

OSSINGTON-OAKWOOD RATEPAYERS' MEETING

Officers Were Elected and Trustee W. O. McTaggart Spoke on Educational Affairs.

Officers were elected at the annual meeting of the Ossington-Oakwood Ratepayers' Association in McMurrich School last evening, as follows:

President, L. L. Jarvis (re-elected); 1st vice-president, C. E. Blackburn; secretary, A. E. Cheeseman.

The following resolution was adopted:

"That the Ossington-Oakwood Ratepayers' Association deplore the action of Chief of Police Grasett in allowing the seventy-four Austrians recently arrested to be at large, and are of the opinion that they should be interned."

School Trustee W. O. McTaggert spoke on the work of the board of education. He asserted that there had been no extravagance; that the upkeep of the schools has been much reduced during the past three or four years, and the utmost care exercised in all branches.

J. R. McNicol expressed the opinion that more competent men could be placed over every department in the city hall, with the exception of the finance, medical health and parks departments.

C. E. Blackburn urged action in the matter of paying Davenport road, and claimed that there was no justification for the delay.

There was universal agreemen among all practical people last winter on the cause of the coal famine. The railways were responsible for it. This fact is writ large in the Acworth Drayton railway commission report No one, outside the railways themselves, has any hope of an improvement in the coal situation without the adoption of the Acworth-Drayton re-

If this is not done, the people of Toronto are fairly certain of freezing in their houses next winter. There will be some people going around in twopiece suits and Panama hats this week and declaring this view is all nonsense, but prudent people will remember that last winter they were on the verge of freezing all winter, and that next winter conditions are to be

The quantity of coal under contract by the dealers should be ascertained, and the amount of this deliverable verified by the coal mine owners. If there is not enough, steps should be taken to supplement the supply. Substitutes for coal, whether wood, or lignite, or other material, should be investigated and supplies up to the quantities required put into storage. We do not know where the railways will be next winter, nor how inefficient. Now is the time to obviate this possible failure. We cannot af ford to wait till November, or for new

aldermen to get busy in January. The coal question is the biggest question in sight.

### Socialism With a Difference.

Henry M. Hyndman has characterized some of the so-called "socialists" who are denouncing the war and everything connected with it. As Henry is chairman of the Socialist party, he may be regarded as some socialist. He describes one set of alleged socialists as "a minimum and negligible body of British opinion." and "a small minority of a minority." He also adds that there is no real hope for real democracy and socialism Europe until all that present day

Talentee College of the control of the entente allies in the war is the only possible means of ing and obstructing and obfusticating socialists in Toronto and elsewhere the war is the only possible means of the triumph of any real socialism. And this is why men like Henry Hyndman are heart and soul in the war. They see that if Germany wins here is an end of socialism and democracy and everything else on the platform of liberty. Those who obstructionscription or who oppose the proseution of the war in any other way are striking blows for Germany and the enslavement of humanity. There are no other sides in this war than important as the question where we for Germany and against Germany, are to get our coal next winter. ### CONSTANTINE DID NOT NOMINATE SUCCESSOR

tional Government Representing the Whole People.

London, June 14.—The announcement of King Constantine's abdication, made in the house of commons by Andrew Bonar Law, chancellor of the exchequer, yesterday, was received with cheers, but a less favorable reception was given his statement that Prince Alexander had succeeded his father. The chancellor said that Alexander had taken the oath as King of Greece. "We hope." added the chancellor, "that this change may make for the restoration of constitutional government of that country."

Bonar Law was asked by Arthur Lynch, member for West Clare: "What does the government expect to gain by the abdication of the king, when it is perpetuating the same abuses under another name?"

perpetuating the same abuses under another name?"

Mr. Bonar Law replied: "What we hope to gain is a constitutional government representing the whole of Greece."

John Gordon Swift MacNeill, member for South Donegal, asked if in fact Constantine had been given permission to abdicate, and if, in regard to the fact that he had practically been expelled from the throne, he should be allowed to nominate his successor.

The chancellor replied that it would not be in the public interest to give any more information at present, but that Mr. MacNeill was "wrong in saying that his successor had been nominated by Constantine."

Washington, June 14 .- Japanese reentment over the American note to China is ascribed by officials here holly to the publication of a garbled ersion in Japan. Later despatches from Tokio, indicating that the Japanese resented the sending of any note at all, were not commented upon, and the incident was referred to as an in-stance of how efforts for a better working understanding between Japan and the United States have gone awry.

In connection with this latest incident, Secretary Lansing to-day authorized this statement:

"Whatever comment has arisen has been due entirely to the publication of a bogus note, purporting to have been cabled from New York to Tokio. Since our attention has been published from a Chinese paper. Whatever suspicion was aroused by the bogus note was removed when the accurate text was given."

Petroleum Bounty.

When the bounty upon petroleum was under discussion, Hon. Frank Oliver complained that the Ontario producers received a bounty and the Alberta producers did not. Yet it cost

ent discrimination was due to the phraseology of the statute and turned upon the question of specific gravity. The object of the bounty, as he understood it, was not to encourage explorations for oil but to compensate the oil producer for the absence of protective duty by giving him a bounty. It, in fact, the Ontario producer was receiving a bounty for producer was followed by the conduction of the option of the evening session, Judge Doherty, minister of justice, as acting postmaster-general, was proceeding to put thru the estimates of the opposition objected on the ground that the estimates of this department had not heretofore been considered in supply and therefore could not be taken up on Thursday. The point was sustained, and Hon. Charles Marcil asked what was the statue of Postmaster-General Blondin.

# Ottawa, June 14.—J. H. Burnham, M.P., for West Peterboro, who had broken with the government because its conscription policy did not embrace conscription of wealth, announced this morning that he will now support his party on the issue. The reason for his latest decision, he explains, is "the new forward development of government policy," as indicated by the announcement that there will be measures toward conscription of wealth, probably in the form of an income tax. "No government could stand higher than the Borden government," Capt. Burnham stated, "but there had been one or two little sore spots which a humble backbencher could see perhaps better than a man in the front seats. I shall, of course, support the conscription bill and do all I can to make it a success." **INDIAN FORESTRY** DRAFT AUTHORIZED

Entirely Gone

After Twenty-Seven Years of Suffering—Swelling and Puffiness Has Disappeared—Not a Pain or an Ache Left.

Kincardine, Ont., June 13.—A most astonishing cure of rheumatism and eczema has been reported here, and Mrs. Ray is enthusiastic in telling her many friends how cure was effected.

Rheumatism and eczema frequentity go together, and in, this case caused the most keen distress imaginable. All the swelling and puffiness resulting from many years of rheumatism have disappeared, and there is not a limit to which also has been attached to the depot regiment. Canadian Mounted Rifles, at Hamilton as instructor in first aid. Pte. A. K. McKendrick, 127th Battalion, and Pte. P. Levinsky. 170th Battalion, having given themselves up as deserters have been pardoned and placed in the C.E.F. Company of the lott Battalion, C.D.F.

Hon. Capt. Scholes, camp athletic director, is jubilant today despite the fact that the wind blew his tent down fast night and the rain soaked his bedding. The cause of his joy is the decision of the City of Toronto to place at his disposal for the period of the war the full equipment of a supervised playground to be used at Camp

the most keen distress imaginable. All the swelling and puffiness resulting from many years of rheumatism have disappeared, and there is not a pain or an ache left.

Mr. G. H. Ray, R.R. No. 1, Kincardine, Ont., writes: "Mrs. Ray has been using your Kidney-Liver Pills. She was very bad with rheumatism and eczema, and had had that fearful itch for twenty-seven years. It was simply terrible what she suffered. I persuaded her to try \$1.00 worth of Dr. Chase's Kidney-Liver Pills, she is now on the last box, and let me tell you she scarcely knows herself, she is so free from both these diseases. All the swelling and puffiness caused by the rheumatism has gone away, and she has gone down in weight 18½ pounds. She never had an ache nor pain, biliousness nor sick headache all these months. She often says herself 'How glad I am that I know what to do instead of paying doctors so much to make me werse."

There is only one way that the

# Retires From Baseball

Butte, Mont., June 14.—Iron Man Joe McGinnity has sold out his interests in the Butte Baseball Club of the Northwestern League to the board of directors, representing the stockholders, for a lump sum of \$3000 cash. He signed a release, and is now in no way connected with the team. The sale followed several days of conference between the directors and McGinnity.

It appears that the board wanted a T. Shaw, El.

as he has other interests that require his attention.

Probably one of the players will be given temporary charge at least on the field until matters readjust themselves. The team is now badly crippled. McCarl is sick in bed with the grippe: Roche has a bad knee, and can hardly stand: Grant is feeling badly, and is playing on his nerve, and the pitching staff is in a bad way. Hunt sustained a nasty injury to his fighting hand yesterday. Meikle has a sore arm, and, unless Hunt's hurt mends rapidly, it will leave Butte with but Leifer and Hydorn as dependables.

## Tested - PURE

Milk is carefully inspected and tested for its purity. No man would think of using adulterated milk. It is injurious to health. PURE tobacco is just as important to your health and enjoyment as pure milk. In fact purity is one quality you should insist on in the cigarette that you

are going to stick to for your steady smoke. This is probably one of the chief reasons why so many men are now smoking CRAVEN "A" Virginia Cigarettes. They are Pare Tobacco Cigareites—no other ingredients or substances whatever are added. Nothing but mild, high grade Virginia tobaccos, properly mellowed by age, and correctly combined in just the right proportions.

Pure tobacco like pure milk cannot be improved upon by adding anything to it.

You'll discover all the good it is possible to get out of a cigarette if you smoke CRAVEN "A." Why not put a package in your pocket to-day?

### RACING DATES

Compleint is heard in Hamilton because Dufferin and Hillcrest parks have scheduled their second meetings on days that will conflict with the Hamilton Jockey Cluls. As a matter of fact the local dates were merely selected out of the goodness of heart of Messrs. Sam McBride and Abe Orpen who, knowing of the illegality of running excursion trains, just could not see their beloved patrons go without racing on that account. Hence the conflict. Now, up in Hamilton they call our half-mile tracks merry-gorounds.

Captured Orders Show Germans Knew of Impending Assault.

London, June 14.—Discussing the British method of attack at Messines.

German suitaining every thing we set out to get in this battle is more striking because the German survey and tack was impending. I have just secured some German orders which were taken from prisoners, and these orders show that the Germans were cognizant of the fact that an attack was about to be made. "One order, dated May II, gives the probable time of the British attack, stating that it would take place between June 3 and 9. Another orders stated that the Messines-Woshoate ridge would be the objective, and pointed out to the German troops inding this section that this position was important and must not be given be method in the British practice of swooping down low me with their airplanes, over the German trenches, must be stopped by machine gunners. WINNIPEG GRAIN MARKET. Winnipeg, June 14.—The wheat market was generally weaker, mainly on good reports of conditions in spring wheat states. Winnipeg October opened %c higher and closed 3%c lower. July oats were down %c, and October ½c. July flax was 2c lower, and October 2%c down. The cash situation showed an increased demand on the part of the government agents, who evidently have large tonnage to fill during June. Stocks at Fort William are being rapidly depleted, and the forward movement is not so large as had been hoped for. Mills, both east and west, were after wheat. There was a big trade in oats, one export house taking over half a million bushels, and three were other buyers.

London, June 14.—The stock market was generally quiet today, with most interest confined to the miscellaneous sections. Steel and oil shares were active and firm, and there was a good demand for shipping stocks. Industrials were well supported. Gilt-edge securities showed a tendency to droop owing to lack of support. Russians were neglected on the depreciation of the rubbs. Americans were marked a the ruble. Americans were marked a fraction higher on small business.

Money in better supply. Discount rates quiet. Petrograd exchange continues unfavorable.

## DOM. STEEL UNFILLED ORDERS AT RECORD

Tonnage Twice That of Year Ago, Reports President Mark Workman.

Montreal, June 14.—The annual meeting of the Dominion Steel Corporation was held today. President Workman reported last year's sales constituted a record. He warned the shareholders to be prepared for readjustment after peace was signed the the company's order books at this time showed unfilled tonnage greater than at any time in its history and almost twice greater than a year ago. The old board of directors was reelected.

The annual financial statement showed net carnings to be \$9,581,165. The sum of \$1,859,595 was placed to the depreciation account and \$8.571,165 to surplus account. All dividends, including arrears, were mets.

The balance on March 31, 1917, was \$11,937,577.

COTTON MARKET.

J. P. Bickell & Co. report:

New York, June 14.—The market today showed unmistakable signs of less demand for contracts. This no doubt is due to the fact that spinners have provided themselves with ample supplies on contracts to offset their future sales of goods. This is at the moment the main element in the market, as no attention has been paid during the past week to crop conditions. The weather has been satisfactory in most parts of the belt. Some complaints heard from a portion of Texas, but so far there are no serious developments.

The price is very high, the market one-sided and should there arise any elements that would warrant extensive liquidation the market will be found to be in a poor position to take it. The short interest is absent, and support from spinners will not be forthcoming, as they already have what they want. We can only repeat that advantage should be taken of the strong markets and the present high level to liquidate long holdings and await future developments.

POTATO ACREAGE **MORE EXTENSIVE** 

If Weather is Favorable There Will Be No Shortage in Fall.

MINISTER'S REPORT

Department of Agriculture Has Done Well in Seed Distribution.

A large increase in acreage under potatoes over last year, with prospects of an abundant harvest, was the en-

this is not the case. While a number of individual farmers are reported as having planted less than usual, others are reported as having planted increase than usual, and the consensus of the reports seem to indicate a slight increase rather than a decrease. Renfrew County, for instance, reports an increase of 25 per cent., and Wentworth County an increase of about ten per cent. An encouraging feature of a report from another county is to the effect that the larger potato growers are putting in as good a quality of seed as they ever put in, and even better than in most years. All reports agree that there has been a very large increase in the plantings in towns, cities and villages, due to the campaign carried on in urging backyard gardening. Under these circumstances it is evident that with reasonably favorable weather conditions from now on there will be no shortage in this staple food this fall.

Beautris from other provinces, par-

vorable weather conditions from the vorable conditions the vorable weather conditions from the vorable food this fall.

Reports from other provinces, particularly the maritime provinces, where potato growing is a very important branch of agriculture, all indicate increased plantings running from 10 per cent. to 25 per cent.

Should be Surplus.

Inasmuch as an average yield from an average acreage in Canada is more than sufficient for local needs, there should under favorable conditions be a surplus this year which will be most useful in augmenting the home supply and freeing more exportable commodities for shipment overseas for the aid of Great Britain or her allies. In this connection it may be mentioned that the acreage of beans, which are an admirable foodstuff for overseas shipment, will possibly show an increase of 100 per cent. in Ontario this year.

that the acreage of beans, which are an admirable foodstuff for overseas shipment, will possibly show an increase of 100 per cent. in Ontario this year.

The department of agriculture was able to render considerable assistance in the distribution of seed potatoes during the past few weeks, and upwards of 40 carloads were placed thru the instrumentality of the department placing prospective purchasers in touch with sources of supply; and no request on the part of local patriotic committees, boards of trade or other bodies thruout the province desiring seed potatoes was made but what was complied with at current wholesale prices, which I am informed compared favorably with similar prices in other sections. In a number of cases public-spirited citizens financed a carload and the district representative assisted in distributing it to the people of the district. The results of the efforts of the department, together with the co-operation of people in all sections, should be productive of very beneficial results.
