NATIONAL ALMANAC

FOR 1874.

WE appear before our friends and patrons for the coming year, 1874, at an early date with our "NATIONAL ALMANAC," superior if possible to all those that have preceded it. The reputation achieved by our valuable preparations has become very great; and the sales during the past year has largely increased. Our MEDICINES are becoming yearly more widely known, and the calls for larger supplies than ever greet us every month. Knowing their real worth and past claims on the public regard, we are desirous of extending their sphere of usefulness still further, and have considerably increased our edition of this FAMILY ALMANAC.

We would advise those who have not tried or examined these valuable Remedies, to give a careful perusal to the minute description of them found in this volume. All our preparations are compounded with special care under the immediate supervision of one of our firm, and we feel perfectly confident in asserting their reliability in all cases.

We are daily in receipt of certificates of cure, but prefer to leave our compounds to stand on their own intrinsic merits to giving needless space to their publication. Warranting our MEDICINES to be exactly as represented, and to effect cures at all times where any Medicines can be available, or money refunded. We consider this a sufficient guarantee to those using them that they will not be disappointed.

In conclusion we beg to call your attention to our Laboratory, and increased facilities for manufacturing and putting up our various Remedies and can furnish our numerous patrons with them fresh and genuine on short notice. Heartily thanking our friends for past favors, and soliciting both a continuance and increase of the liberal patronage which has hitherto been bestowed on us, we remain,

Very respectfully,

WOODRUFF, BENTLEY & CO.,

PULPIT eloquence in Quaker district in Philadelphia is considered to be "dead silence, aggravated by an occasional groan."

A TECHY husband told his wife they could not agree and must divide the house. "Very well," said she, "you take the outside."

A CISTERN 10 ft. in diameter, 9 ft. deep, will hold 168 barrels; one that is 5 ft. in diameter will hold 5½ barrels to each ft. in depth; one 6ft. in diameter, about 6¾ barrels per ft.; 8 ft., nearly 12 barrels; 9 ft. 15½ barrels; 10 ft. 18¾.

THE MELODIUS CAT —The cat hath been called a domestik animile but i never could tell whyfore. All thare iz domestix about a cat iz, yu kant loze one; they are as tuff to loze az a bad reputashun iz. Yu may send one out ov the state done up neatly in a meal-bag, and the next morning yu will find him along side of the kitchen stove redy tew be stepped on. They are az sollum az Moses, but az phull ov the devil az Judas Iskariott, Esq. Thare iz only one thing about a cat that i like, and that iz they are very reasonable; a little money well put, will go a grate way in cats. Cats are very plenty in this world just now. OUR MEDICINES.

OUR NATIONAL PILLS are purely vegetable ;
To the Sick and Afflicted are indispensable :
They will search out disease, cure a Cough or a Cold,
Will purify the blood, and do wonders untold.

OUR EXTRACT OF WILD STRAWBERRY will every time cure
All Summer Complaints, and leave no pain to endure.

OUR ORIENTAL HAIR GLOSS is first-class we've seen ;
Improves the Hair, and the scalp it will clean.

OUR DYSPEPSIA REMEDY will cure the worst case
Of Dyspepsia—that baneful foe of our race.

OUR EGYPTIAN SALVE will, a fearful cut heal ;
It will also cure Corns, and pains that are real.

OUR MAGNETIC OINTMENT has pressing demands :
It will cure Shortness of Breath, Scalds, Burns and Chapped Hands.

OUR GALVANIC FLUID is the best thing to cure
Rheumatism, Neuralgia, aches, and pains we are sure.

DR. FIFE'S WORM LOZENGES are sure death to worms ;
They will at once check them, and bring them to terms.

OUR NATIONAL PAIN REMOVER acts like a charm :
It will cure your Aches, Pains, and do you no harm.

OUR CONDITION POWDERS—for Horses, are splendid ;
Also for Cattle, Sheep and Pigs they're intended.

ORIENTAL BLACK OIL—for Horses, has no equal :
Use it for GALLS, CUTS, and you'll find out the sequel.

OUR MEDICINES are all of the very first-class,
And are eagerly sought after by the general mass ;
They are all compounded with much skill and great care,
Neatly put up—most of our engraving are rare.

The ingredients used are genuine and pure,
Each having a special office, an ill to cure :
And now all we ask, is to give them a trial,
Which is the best advertisement, without a denial.

NATIONAL PILLS,

(SUGAR COATED)

ARE A FIRST-CLASS MANDRAKE PILL.

THEY CONTAIN NO MINERALS OR DELETERIOUS DRUGS.

ARE MILD IN THE ACTION.

THEY DO NOT LEAVE THE BOWELS COSTIVE.

CAN BE TAKEN AT ALL TIMES WITHOUT INJURY TO BUSINESS.

All who have tried these PILLS, recommend them as the safest, mildest and at the same time most effectual family physic pill now in use. It has long been very much desired by medical men to discover a harmless substitute for Calomel, or Blue Pill—something to act thoroughly upon the liver, and produce a free flow of bile—to have the good effect of mercurials without their injurious action on the system. These NATIONAL PILLS, by a peculiar combination of the *May-Apple* or *Mandrake*, with other valuable extracts, have this effect, and are admitted by many eminent physicians to be the most thorough substitute for mercurials yet discovered. They are entirely vegetable; and being prepared from the juices of plants and roots, which grow in our own forests, and on the banks of sedgy rivulets. are especially adapted to the system of our people.

For purifying the blood, removing bilious obstructions, and difficulties, and cleansing the entire system, abundant experience proves that they have no superior.

No expense or trouble has been spared in their improvement and manufacture, to make them in every respect, a better cathartic and purgative pill than has ever before been available to mankind. Long experience has determined and perfected the exact proportions, and best mode of preparation and combination, of the vegetable juices of the plants and roots of which they are composed. They produce no nausea or griping, and do not injure delicate persons or even children, yet are sufficiently active and searching to purge out obstructions in vigorous and robust constitutions. The highest chemical skill, and improvements of the last few years have been applied to the condensation and extraction of the medicinal virtues of the roots, plants, and herbs which compose them, by which they are rendered easily dissolvable in the stomach and more penetrating and effectual in purging out disease.

None who know the value of these Pills are willing to exchange them for any others, or neglect their use when suffering from the complaints which they cure, such as Costiveness, Bilious and Liver Complaints, Jaundice, Dyspepsia, Foul Stomach, Diarrhoea, Erysipelas, Diseases of the Skin, Dropsy, and Worms.

A PAINTER being asked to estimate the cost of painting a certain house, drew forth a pencil and paper, and made the following calculation. "A naught is a naught, three into five, twice; you can't. I'll paint your house for fifty dollars."

DR. BOYER'S GALVANIC FLUID,

GOOD FOR MAN AND BEAST.

THE WORLD CHALLENGED!

This valuable Liniment has been introduced to the Canadian public several years, and is a discovery of rare and unparalleled value. The Inventor had long felt the need of a Liniment different and more certain in effect than the many Liniments in use. A Liniment, by being rapidly absorbed into the system, gives almost instantaneous relief, even in cases of acute pain. We do not offer it as an Internal Remedy, but unhesitatingly affirm that any Liniment which can safely be taken into the stomach can in no way compare as an external application with the GALVANIC FLUID, compounded entirely from ingredients of great value, having a specific aim in subduing pain caused by

RHEUMATISM, NEURALGIA, GOUT,

Sciatica, Lumbago, Sprains, Bruises, Chilblains, Headache,

PAINFUL NERVOUS AFFECTIONS,

Or from any cause where a Liniment can do good. It does not merely allay pain and soreness to return again as most Liniments do, but the efficacy of the Oils and ingredients from which it is made are so wonderfully penetrating that a proper use of it will most certainly remove all Stiffness of Joints, Lameness of Muscles, and pain arising from Inflammation or other causes. Even in SPINAL DISEASES, a chronic form of which baffles all treatment, a frequent use of the GALVANIC FLUID, with rubbing, will give strength and freedom from pain, derived from no other source.

WE INVITE ALL TO TRY IT,

Feeling sure you will find it to be what it is recommended, and yourselves pronounce it the best Liniment in use. Finally, for pain in any part of the system where an Embrocation can be applied, use the GALVANIC FLUID freely, with warmth and rubbing, and relief will surely follow. Read the following, one of the many Certificates we have:

KINGSTON, February 20th, 1864.

WOODRUFF, BENTLEY & CO.

GENTLEMEN:—Being persuaded by your agent to try a bottle of DR. BOYER'S GALVANIC FLUID on one of my cows, which was very dangerously swollen, the effect was almost instant relief of pain, and the swelling entirely disappeared.

But this is not the only case of its marvellous cures. My brother was afflicted with Neuralgia, causing nearly TOTAL DEAFNESS, and was treated by some of the most skillful practitioners in the city, without having obtained the least relief. As a last resort he was induced by me to try some of the GALVANIC FLUID, the result of which far exceeded my expectations. My brother can hear as well as ever. I believe, from experience, the GALVANIC FLUID is without a parallel in the list of Patent Medicines, for the Removal of Swellings and the Relief of Pain. I cheerfully recommend it to the afflicted

A SHORT HISTORY

OF

MRS. CHURCHILL'S YEAST.

Mrs. CHURCHILL took her first lessons from her mother, fifty years ago when housewives risked their reputation on the LEAVEN of that time, and were almost certain of having SOUR bread. She saw the popularity of the SALT RISING speedily wane on the introduction of the Fluid Hop Yeast. For sixteen years past she has supplied herself and a constantly increasing number of customers with her yeast cakes. At first she had no idea beyond making it for her own use, but so many of her neighbours assured her of its superiority over anything sold, that she decided to make it for the accommodation of every cook and housekeeper who desired a hop yeast on which they could depend in WINTER as well as in summer. Mrs. Churchill makes the yeast herself in the same way that she has done for years. Every package is warranted that bears her name and trade mark. A package of twelve cakes will cost ten cents. Ask grocers and dealers for Mrs. Churchill's Yeast and take no other. It is the best in use. If not obtained the first time of asking, ASK AGAIN. Full directions on every package.

GENERAL REMARKS ON MAKING BREAD.

In order to secure good bread it is economy to purchase the BEST flour. Newly ground flour, which has never been packed, is much superior to barrel flour. Rye flour is very apt to be musty or grown. No one thing is of greater importance in making bread than thoroughly kneading it. When first taken out of the oven it should be removed from the tins and set up endwise, leaning against something; never lay it flat on a table, as it sweats, and acquires a bad taste. If it has a too thick and hard crust, wrap it in a clean cloth wrung out of cold water. Bread made of wheat flour, when taken out of the oven, is not fit for the stomach; it should ripen before being eaten. Bread will always taste of the air that surrounds it while ripening.—hence it should ripen where the air is pure. In summer, bread should be mixed with cold water; in damp weather use tepid, and in cold weather let it be quite warm.

GOOD YEAST IS ABSOLUTELY ESSENTIAL.

For the Sick Room.

THE following recipe makes a deliciously refreshing wash in the sick room, and cools the aching head.

Take of rosemary, wormwood, lavender, rue, sage, and mint, a large handful of each. Place in a stone jar, and turn over it one gallon of strong cider vinegar, cover closely, and keep near the fire four days, then strain, and add one ounce of powdered camphor gum. Bottle and keep tightly corked.

There is a French legend connected with this preparation. During the plague at Marseilles, a band of robbers plundered the dying and the dead without injury to themselves. They were imprisoned, tried, and condemned to die, but were pardoned on condition of disclosing the secret whereby they could ransack houses infected with the terrible scourge. They gave the above recipe.

Another mode of using it is to wash the face and hands with it before exposing one's self to any infection. It is very aromatic and refreshing in the sick room; so, if it can accomplish nothing more, it is of great value to housekeepers.—*Hearth and Home.*

A friend in Brougham declares "It's the work between meals that's killing him."

They Purify the Blood and Cleanse the Stomach.

DR. FOWLER'S

EXTRACT OF

WILD STRAWBERRY.

A certain and effectual cure for *Diarrhœa* and *Dysentery*. A reliable remedy for every variety of Summer Complaints. A popular specific in *Flux* through its stages. A soothing and relieving agent in children *Teething*. An infallible and instantaneous check to *Cholera Morbus*, and when administered at an early period a cure for *Asiatic Cholera*.

This medicine has been prepared by us during the past twenty-five years, and most remarkable success has attended its administration in the various affections of the bowels enumerated above, more particularly in 1865 when it was brought to the favourable notice of the public, owing to its wonderful influence in curing and saving many valuable lives of those who were scourged with the dreadful plague. Since then it has been growing in public favor, and now is sought after by all classes both rich and poor, and has become a leading and standard remedy, its sales having more than doubled during the past two years.

Castleton, Oct. 11th, 1871.

MESSRS. WOODRUFF, BENTLEY & Co.—Sirs—This is to certify that I have used *Dr. Fowler's Extract of Wild Strawberry*, as prepared by you, and can honestly say that I consider it the best medicine sold for what it is recommended. I have used it in *Diarrhœa* and *Dysentery* of children during the last eighteen years, and have known it to give relief when other medicines failed to do so. I would advise every one suffering with these complaints to give it a fair trial.

Yours respectfully,

(Signed),

CARMEN M. GOULD, M.D.

Dunbar, June 27th, 1873.

MESSRS. WOODRUFF, BENTLEY & Co.—Gentlemen—I have been selling your *Extract of Wild Strawberry* for the past fifteen years, and would say it is giving universal satisfaction, and the sale is constantly increasing. I could furnish you certificates from almost every family in this neighbourhood giving it a high recommendation.

A little Danbury girl, when asked by her mother about suspicious bites in the sides of a dozen choice apples, answered, "perhaps ma, they may have been frost-bitten, it was so cold last night." The mother retreated.

"HUSBAND, if an honest man is God's noblest work, what is an honest woman?" "His rarest, dear," was the uncivil reply.

A widow being cautioned by her minister about flirting, said she knew it was wrong for unmarried ladies to flirt, but the Bible said "widow's mite."

"Now, papa, what is humbug?" "It is," replied papa, "when ma pretends to be very fond of me, and puts no buttons on my shirt."

NEVER SAY FAIL.

Keep pushing—'tis wiser
 Than setting aside,
 And dreaming and sighing
 And waiting the tide.
 In life's earnest battle,
 They only prevail
 Who daily march onward,
 And never say fail.

WHY is a pastry-cook's shop like a druggist's? Because they both sell p'ison things (pies and things.)

Cures Dyspepsia and Indigestion.

DR. BOYER'S GALVANIC FLUID.

The best External Remedy that can be used for Bruises, Sprains, Gout, Rheumatism, Cramps, Numbness, Weakness or Stiffness of the Neck or Joints, Chilblains, Stings of Insects, Vegetable Poisons, &c., &c., &c.

It can be used for both Man and Beast.

The virtues of *Dr. Boyer's Galvanic Fluid* are too well known to require description. No matter in what form it may be used it always produces the happiest results, but we think that this liniment, combined as it is with valuable essential oils, camphor, opium, ammonia, &c., cannot be surpassed for what it is intended, and for the complaints above enumerated it will seldom fail to give immediate relief. It is of the greatest service to horses that are strained in their back, sinews, in the withers, or have their backs galled, for swelled or cracked heels, wind-galls, old strains, &c. Also for

DISTEMPER

It has no equal. By diluting it half with water and putting a spoonful down the animal's throat and applying it externally, which will at once give relief and check its progress, and prevent others from catching the disease if administered to them in time.

NATIONAL PILLS.

Ye suffering victims of disease,
By day or night who know no peace,
Would you be freed from all your ills?
Cease paying heavy Doctor bills,
And try a few of NATIONAL PILLS.

They'll give your blood a lively flow,
And rectify your liver too,
And softly as the dew distills,
Will flee before them all your ills.
These celebrated NATIONAL PILLS.

They now enjoy a wide spread fame,
And legions, if they hear the name,
With such ecstatic joy it fills,
Whom they've relieved of direst ills,
They point the sick to NATIONAL PILLS.

If you are sick your aches will fly,
If you these FAMOUS PILLS apply,
Then keep your money in your tills,
Instead of paying Doctors' bills,
And for your ills use NATIONAL PILLS.

HAGYARD'S Royal Pectoral Balsam

Is worthy of a trial for Coughs, Colds, Influenza, Croup,
Whooping Cough, Asthma, Bronchitis, &c.

We have given the above name to it because we think it deserves it, on account of the valuable properties it possesses for the accomplishment of its various purposes. It has been used so extensively by us in private practice, and for so long a period, with such extraordinary and satisfactory results, that we could no longer refrain from giving it a wider range of operation, and a more extended means of usefulness. We might write a volume, if we had the time and opportunity, on the various kinds of disorder and disease of the lungs. There are thousands of persons who know from painful experience what they are. As regards their danger and duration, now, we would ask, ought it not to be considered a great blessing to be able to have a remedy at hand which by its prompt and powerful efficacy may effect a cure? We consider it not at all out of place to say a few words as to the cause of disease of the lungs. We solemnly declare as our opinion that one of the principal causes is the extreme heat kept in people's apartments, through the whole extent of the Dominion. Perhaps our readers are not aware that the temperature of any room should never be above 65 or 68 degrees of the thermometer. How often have we been told of 80 degrees being the ordinary practice; you not only have a hot, dry atmosphere, but an impure one, disposing the strongest constitution to disease. Another very important point is the absence of ventilation—a means for letting off the impure air and letting in the fresh. How often you have inflammation of the gums and palate—of the top of the windpipe, producing irritation, hoarseness, coughing, and bronchitis. We mention all these affections because our ROYAL PECTORAL BALSAM is intended, in all respects, to meet them. There are innumerable cases of consumption which might have been prevented if a useful and timely remedy had been applied. Where irritation exists, it soothes; where cough occurs, it mitigates the symptoms, and establishes a healthy action; where there is a large collection of phlegm or mucus to remove, it will be found invaluable. In asthma, whether spasmodic or otherwise, you should never be without it. Those who have witnessed any of these affections of the lungs, and the intense distress produced by them, will, we are sure, be only too happy to employ the *Royal Pectoral Balsam* as a means of relief; and not only so, but feel it their duty to recommend it when and wherever they can. As regards inflammation of the lungs, the treatment of which is very different to what it was thirty or forty years ago, and as the bleeding, cupping, and blistering have been found not only not to be of service, but destructive of human life, we would earnestly recommend our PECTORAL BALSAM for its working properties in suspending the violent action of the pulse, relieving the difficulty of breathing, and to husbanding the powers of life, so that nature may have an increased opportunity of restoring the organ affected to its healthy condition. There are not many remedies that can accomplish such important results, and therefore we think that when we propose one which will be calculated to perform all that we have stated, the public owe it as a duty to themselves to give it a fair trial.

Will our remedy cure consumption? No; nor will any other do it. We have known many cases that have been taken for that disease that were not so. A person will cough, have purulent expectoration, wasting fever and night sweats—all the outward signs of that disease—and yet it was not consumption, but acute bronchitis of both lungs, entirely cured by appropriate treatment. The only cases where cure is substantially effected is where the disease is very limited—where the matter in the abscess in the lung is expelled—where the parts heal up like any external abscess, and the patient recovers.

But though our remedy does not profess to cure, it can do a great deal towards preventing those symptoms which are not only troublesome, but dangerous. Everybody knows, whether professional or not, how often a cough, in a delicate person, produced by an ordinary cold, when allowed to proceed without any medical treatment, ends in the worst consequences—the constant irritation and annoyance of it, loss of appetite, restless nights, pains in the chest, and sometimes fever, exhausting the powers of life, etc. etc. We think we have said enough to convince the most careless reader that a remedy that can be used for such important objects ought to be welcomed with gratitude. Whenever persons are attacked with a serious affection of the lungs, it leaves behind it consequences that in many instances are never entirely removed. We hope we have said enough of the diseases of the chest to which our PECTORAL BALSAM applies, and also of the importance of them in reference to the use and application of it. In conclusion, we will only add—Never neglect a hoarseness that continues for weeks, and whenever a cough occurs without any apparent causes, let the throat be examined, to ascertain whether it is relaxation or enlargement of it, or elongation of what is called the *wvula*, a little fleshy body, which hangs attached to the anterior or front arch of it.

ONE of the most important rules of the science of manners, is an almost absolute silence in regard to yourself.

We all within our graves shall sleep,
A hundred years to come;
No living soul for us shall weep,
A hundred years to come;
But other men our land will till,
And other men our streets will fill,
And other birds shall sing as gay,
As bright the sunshine as to-day,
A hundred years to come.

"Boy how did you manage to get such a big string of fish." "I hooked them sir."

FOR SUMMER COMPLAINTS.—Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY stands at the head of the list of Remedies. It never fails.

"Oh Parson! I wish I could take my gold with me," said rich old Deacon Swipes. "It might melt if you did," quietly replied the parson.

BOTS IN HORSES.—For bots drench the animal with half-a-pint of thin tar, which kills them instantly.

One half-pint of whiskey, one half-pint gunpowder, one half-pint molasses, and one half-pint soft-soap will cure the worst case of bots.

FANNY Fern says that "the men of the present day are fast." Prentice says, "they have to be, to catch the women."

No Family should be without them.

DR. A. E. FIFE'S
VEGETABLE
WORM LOZENGES.

THIS PREPARATION should be used in preference to all others, since they are PURELY VEGETABLE—so mild in their action that

The most Delicate Child may Take them,
WITH BENEFIT.

The unexampled success that has attended the use of these Lozenges in every case where the patient is really affected with Worms, renders them worthy the attention of all. The Inventor made it a point to ascertain the result of their use in such cases as came under his observation, and has invariably found that

THEY PRODUCE THE MOST SALUTARY EFFECT.

Certificates might be produced from persons using them, if necessary; but we believe that since they are prepared after the most approved plan of compounding medicines, and are so highly esteemed by the profession, no intelligent person WILL FAIL TO TRY THEM where any symptoms of Worms appear.

ALL WE DESIRE IS A TRIAL,

Feeling confident that once used their superiority will be at once acknowledged. Much sickness, undoubtedly with Children, attributed to other causes, is occasioned by Worms.

PARENTS, GUARDIANS AND OTHERS,

Having the care of Children, cannot attend too closely to symptoms, as neglect often causes prolonged sickness.

Some of the symptoms are General Languor, Peevishness, Irregular Appetite, Sallow Complexion, Pale about the Eyes and Mouth, Itching of the Nose, Foul Breath, Gnawing Pains at the Stomach, Crying Out in Sleep, Sudden Starting, Grinding the Teeth, &c., &c.

Sore Nipples, Cuts, Bruises, Burns,
Scalds, and all Cutaneous
Diseases.

IT IS USED INTERNALLY FOR

Croup, Shortness of Breath, Hoarseness, Sore Throat, &c

Dr. Wilson's Magnetic Ointment is composed of *Valuable Gums, Resins, and Extracts*, all being pure and having a special reference to their virtues and peculiar powers in *subduing pain and inflammation*. It stands pre-eminently at the head of all the Ointments, as it never drives the disease to take effect on the internal organs. Its properties when applied go directly to the diseased parts, and as it passes into the circulation it separates all the poisonous and corrupt humours and attracts them through the perspiring vessels to the surface, and in that way entirely eradicates the disease from the system. In curing

SCROFULA SORES

it has no parallel, having perfectly eradicated this horrible yet common disease after every other remedy had been used in vain. It is simply asked that the afflicted will try one bottle, which will do more to introduce it than volumes written in its favour. Read the following certificate.

North Gower, June 20th, 1864.

MESSES. WOODRUFF, BENTLEY & Co.—Gentlemen—It has fallen to my lot to record one of the most successful and complete cures of *Scrofula* by using only one bottle of your valuable *Magnetic Ointment*. I did think my boy incurable by any medicine, in fact some of the medical faculty stated it would take some years to work it out of the system. I have known instances of similar descriptions entirely cured by the use of your valuable ointment. I cheerfully and cordially recommend it to the afflicted.

I am, yours respectfully,

GEO. KEATING.

STOCK'S EXTRA MACHINE OIL

Is now being used in all the largest Manufactories in the Dominion, with general satisfaction. Its being a pure oil, free from offensive smell, and never congealing in cold weather, we guarantee our EXTRA OIL to give satisfaction, or have it returned at our expense. Parties ordering should state what kind of machinery they wish to use it on, as we adapt it for different kinds of machinery.

THE NOXON MANUFACTURING CO., INGERSOLL.

MESSRS. STOCK & WEBSTER.

We have thoroughly tested your Oil with Olive Oil on our loose pulleys, and give your oil a decided preference. We have used it on our Wood Planers and other Wood-working and Iron Machinery, as well as on our Engine, and consider it the best oil we know of. You will please send us another barrel at your earliest convenience.

Yours truly, JAMES NOXON, *President*.

JOSEPH HALL AGRICULTURAL & MACHINE WORKS, OSHAWA.

MESSRS. STOCK & WEBSTER, TORONTO.

GENTS.—We have tested your Oil on our large Iron Planer and other machinery, and consider it the best oil now in the market; it has taken the place of Olive with us, and we prefer it, even at the same price.

F. W. GLEN, *President*.

As Foreman of the above works, I beg to say I would rather have STOCK'S EXTRA OIL than Lard, Olive or any other oil I have ever used.

NATIONAL PILLS.

FOR THE CURE OF

Liver Complaints, Jaundice, Dyspepsia, Pain in head, side, back, and limbs, all Bilious Affections, &c., and much preferable to any other Pills whenever an Alterative, Purgative, or Aperient Medicine is desired.

The ingredients of which these Pills are composed are selected with scrupulous regard to their purity and applicability in the treatment of the above diseases, forming one of the best, safest, and most reliable family medicines now in use. They are equally as effectual in all *Nervous Affections, Inflammations, Costiveness, and Impurity of the Blood.*

These Pills are peculiarly adapted to the climate of our country and the bilious complaints to which the people are subject, and from our long experience in supplying the remedies required by them we assure them that an occasional dose of the NATIONAL PILLS will often prevent disease and correct any derangement of the liver.

EXCELLENT INTEREST RULES.

For finding the interest on any principal for any number of days, the answer in each case being in cents, separate the two right hand figures to express it in dollars and cents.

Four Per Cent.—Multiply the principal by the number of days to run, separate the right hand figure from product, and divide by 9.

Five Per Cent.—Multiply by number of days, and divide by 72.

Six Per Cent.—Multiply by number of days, separate right hand figure, and divide by 6.

Eight Per Cent.—Multiply by number of days, and divide by 45.

Nine Per Cent.—Multiply by number of days, separate right hand figure, and divide by 4.

Ten Per Cent.—Multiply by number of days, and divide by 36.

Twelve Per Cent.—Multiply by number of days, separate right hand figure, and divide by 3.

Fifteen Per Cent.—Multiply by number of days, and divide by 24.

Eighteen Per Cent.—Multiply by number of days, separate right hand figure, and divide by 2.

Twenty Per Cent.—Multiply by number of days, and divide by 18.

RECIPES FOR COLOURING.

GREEN.—For every pound of cloth or yarn add three and a half ounces of alum and one pound of fustic. Steep, (not boil) until the strength is out, and then soak the cloth until it acquires a good yellow; throw out the chips and add the indigo compound slowly until you have the desired shade.

BLACK.—For each pound of goods take two ounces of the extract of logwood and one ounce of blue vitrol; dissolve them separately in hot soft water; saturate the goods first in the vitrol water, then turn the vitrol water into the other, and keep the dye at a scalding (not boiling) heat for twenty minutes; if cotton goods, *boil* for ten minutes, stirring constantly to prevent spotting. To set the color, immerse the goods with scalding hot water, containing a teacupful of salt to three gallons of water; let the goods remain in until cold, then hang them to dry without wringing; boiling suds will set this colour of black dyed silks.

SALMON COLOR.—This color is made by boiling annatto in strong soap suds.

MADDER RED.—Take one pound of madder for every two pounds of yarn or cloth, soak the madder in a brass kettle one night, in warm water enough to cover the yarn. Next morning put in two ounces of madder compound for every pound of madder you have soaked. Then wet your yarn or cloth, and wring it out in clean water. Put it in the dye and place it over the fire, and bring slowly to a scalding heat; keep it at this heat for half an hour. The color will grow deeper the longer it is kept in the dye. When the color suits, rinse the article immediately in cold water, and it is finished.

CHEAP SCARLET RED.—To one pound of cloth 2 oz. Cudbear, 3 oz. madder compound; mix the two last in an earthen bowl; then take soft water enough to cover the yarn or cloth you intend to color, put it in a brass or copper kettle, and bring it nearly to a boiling heat, and just before boiling add $\frac{1}{2}$ oz. cream tartar, boil a minute or two, then add the cudbear and compound, boil four or five minutes, then wet the yarn or cloth in warm water, wring it out and put it in the dye; boil $\frac{3}{4}$ of an hour, then rinse in clear, cold water, and dry in the shade.

FOR DYEING COTTON GOODS GREEN.—For every pound of goods take 1 lb. fustic, 1 oz. logwood chips, add a little blue vitrol, according to the depth of shade required, dissolve them all separate, then mix together and put in the goods, let remain until the desired shade is required.

PERMANENT BLUE FOR COTTON.—For 5 lbs. cloth, dissolve 5 oz. copperas in sufficient water to cover the cloth; soak 30 minutes, add 3 oz. prussiate potash to clean water, put the cloth in this and let stand 30 minutes; then air the cloth and add 3 oz. more prussiate potash, dip again and air it, then add 2 oz. oil vitrol; strain and dip again, then rinse well.

CHROME YELLOW ON COTTON.—For 2 pounds cloth, take 4 oz. sugar lead, dissolve in sufficient water, and run the goods through for 20 minutes at a moderate heat; wring out and make a separate dye with 2 oz. bi-chromate potash; into this enter the goods for ten minutes at a gentle heat. Repeat the operation a second time, and a fine yellow will be the result. This yellow may be raised to an orange by running through lime water.

Oriental Black Oil.

FOR MAN AND BEAST.

This justly celebrated Remedy for external injuries and all diseases affecting the joints, tendons, and exterior nerves, has been introduced to the world over ten years, and during that period many truly wonderful cures have been performed by its use, and in the estimation of those who have tried it it ranks as an indispensable and unequalled specific in the class of preparations to which it belongs. For Bruises and Cuts it is invaluable.

It is also efficacious for the human family for the cure of Frost-bites, Chilblains, Rheumatism, Contractions of the Muscles, and for many outward applications. By its peculiar chemical combination it is made to possess the most extraordinary properties of any compound ever invented. A single trial is all we ask. Sold at 25c. per bottle.

Diarrhæa, both recent and chronic, is speedily cured by *Dr. Fowler's Extract of Wild Strawberry*. *Summer Complaints* of all kinds, *Dysentery*, *Cholera Morbus*, &c., at once are checked by its use.

THE STARTLING DRAWBACK

On nearly all Medicinal agents has ever been that in the process of PURGATION and PURIFICATION, they have also debilitated the system. To obviate this difficulty, Physicians have long sought for an agent that would

PURGE, PURIFY AND STRENGTHEN, AT ONE AND THE SAME TIME.

Their research has at last been rewarded by a discovery which fully realizes the fondest desires of the Medical Faculty, and which is justly regarded as the most important triumph that Pharmacy has ever achieved.

The important desideratum is in the

NATIONAL PILLS,

Which Purify the Blood, and remove all Corrupt Humors and Unhealthy Accumulations from the body, and yet produce no weakness or lassitude whatever, but on the contrary

Clean the Stomach, and Invigorate the Body,

During the process of their operation. They unite the heretofore irreconcilable qualities of a

Strengthening Purgative and a Purifying Tonic.

THE NATIONAL PILLS are the most ACTIVE AND SEARCHING Medicine in existence. They at once attack the very root of Disease.

THEY MAY BE TAKEN AT ANY TIME,

Without restraint of Diet or Occupation. They produce neither Nausea, Griping nor Debility, and as a Family Medicine they have no rival.

How doth the little crocodile
Improve his shining tail,
And pour the waters of the Nile
On every golden scale.
How cheerfully he seems to grin,
How neatly spreads his claws,
And welcomes little fishes in
With gently smiling jaws.

HERSCHELL'S WEATHER TABLE,

FOR FORETELLING THE WEATHER THROUGHOUT ALL THE LUNATIONS OF EACH YEAR, FOREVER.

This table and the accompanying remarks are the result of many years' actual observation, the whole being constructed on a due consideration of the attraction of the Sun and Moon, in their several positions respecting the Earth, and will, by simple inspection, shew the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom or never found to fail.

<i>If the New Moon, First Quarter, Full Moon or Last Quarter, happens</i>	IN SUMMER.	IN WINTER.
Between midnight and 2 o'clock	Fair	Frost unless wind Southwest.
" 2 and 4 morning....	Cold and Showers	Snow and stormy.
" 4 " 6 "	Rain	Rain.
" 6 " 8 "	Wind and rain.....	Stormy.
" 8 " 10 "	Changeable.....	Cold rain if wind West, Snow if E
" 10 " 12 "	Frequent showers	Cold and high wind.
" 12 " 2 afternoon ..	Very rainy	Snow or rain.
" 2 " 4 "	Changeable.....	Fair and mild.
" 4 " 6 "	Fair	Fair.
" 6 " 8 "	Fair if wind Northwest ..	Fair & frosty if wind N. or N.E
" 8 " 10 "	Rainy if South, or Southw's't	Rain or snow if South or S.W.
" 10 " midnight	Fair	Fair and frosty.

OBSERVATIONS.—1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.

2. The space for this calculation occupies from ten at night till two next morning.

3. The nearer to *mid-day* or *noon* the phases of the Moon happens, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.

5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.* from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of Autumn, the whole of Winter, and the beginning of Spring, yet in the main the above observations will apply to those periods also.

7. To prognosticate correctly, especially in those cases where the *wind* is concerned, the observer should be within sight of a good *vane*, where the four cardinal points of the heavens are correctly placed.

NATIONAL PILLS.

What NATIONAL PILLS alone can do
 Man testifies, and women too;
 For thousands cry, with eager breath,
 "They saved me from disease and death."
 When your bowels will not act,
 Then you need them, "that's a fact."
 When your breath is foul, impure,
 They will cleanse it, "sartin, sure."
 When your head begins to ache,
 They will stop it, "no mistake."

"No appetite!"—is this your care?
 They'll make you hungry as a bear.
 Jaundice's horrors, do you know,
 They will bleach you white as snow.
 When the bile no longer runs,
 They will start it, "sure as guns."
 All ye ailing, give me heed,
 'Tis NATIONAL PILLS your system need.
 Immense the rush for these Pills,
 Which cure so many woeful ill.

THE FREQUENT FLY.—The fly is not only a domestik critter, but a friendly one. How they git born I don't kno, but I hav thought they didn't wait tew be born, but come just az they am. Menny of them are cut off in the flower ov their youth and usefulness. Sum loze their lives by lighting too near the rim ov a toad's mouth, and fall in when the toad gaps. Thousands find a watery grave, bi gittin drowned—in milk-cans. Flies morally considered are lyke other human beings, they wont light on a good healthy spot in a man, not if they can find a place that iz a little raw. I beleave they are ov temperate habits, and altho they hang around grocerys a great deal I never see a fly the wuss for liquor, but I have seen liquor that waz a good deal the wuss for flies.—*Josh Billing's Allminax.*

DR. FOWLER'S

Extract of Wild Strawberry.

For the Speedy and Permanent cure of DIARRHŒA,
DYSENTERY, CHOLIC, CHOLERA MORBUS, and the
Summer Complaint of Children Teething.

PURELY Vegetable in its composition, and carefully prepared in our own Laboratory under our own immediate supervision, we can heartily recommend it for its speedy and decided effects in even the worst cases curing without reaction, and soothing and healing as it cures.

IT NEVER FAILS.

We feel confident in affirming that no one has produced a remedy which can equal the EXTRACT OF WILD STRAWBERRY in the number and excellence of its points. It is so palatable and pleasant to the taste, that it subdues instead of producing nausea, rendering it very effective with children.

DR. M. CALDWELL'S

DYSPEPSIA REMEDY

IS WARRANTED TO CURE THE WORST CASES OF

DYSPEPSIA OR INDIGESTION,

And what is remarkable, a single dose dispels like a charm every bad symptom following *occasional* excesses in eating or drinking.

☞ Don't forget this fact—in City or Country. ☞

No person whose digestive organs are *weak* or *deranged* from any cause, can take it without being benefitted. Mark this: if digestion is right all is right and *vice-versa*. It is decidedly the best Quieting Medicine for children, and *positively indispensable* to such as are feeble and delicate, causing them to grow healthy and robust.

IT IS GOOD FOR EVERYBODY.

It insures pure blood and secretions, fresh countenances, and healthy and vigorous bodies and minds.

☞ Always observe the directions. ☞

Only 20 to 30 Drops. No Change or Restriction of Diet.
