EQUALS RECORD OF BABE RUTH

Williams of Browns Pounds Out Another Homer.

Jacobson Backs Him Up with One and Detroit is Defeated—Halifax Wants Fifield and Chisholm; Hogan and Healey Bouts Next Week.

(Canadian Press) New York, April 25.—Kenneth Williams, left fielder of the St. Louis Browns, carved himself a niche in Babe Ruth's hitherto exclusive hall of fame yesterday when he cleared out his fifth homer in three days and tied the record made by the Babe last year. Williams hit three homers on Saturday and one each on Sunday and yesterday. This wallow, with another homer by Jacobson, aided the Browns in downing Detroit and maintaining a tie with the Indians for second place. Wally Pipp also was in a home run mood, his sock in the eleventh, with one on base, giving the Yankees a decision over the Athletics and their sixth straight victory. One big inning, in which Shinnery timely hit brought home the winning run, enabled the Giants to nose out the Phillies, 3 to 2, while the Reds, although hitting St. Louis, felled poorly and dropped its seventh straight. Arldridge fanned the fast-going Pittsburgh Pirates and drove in the Cubs' winning runs with a triple. The Boston Braves gave the Dodgers another setback in a free-hitting contest. Cleveland and Washington broke their losing streaks. The Indians tying the White Sox in the ninth and getting to Faber for three hits and victory in the tenth, while the Senators pounded four Boston batters for an 11 to 3 victory. A LARGE SOCIETY The International Order of Henpecked Husbands. London, April 25.—The place for holding the annual meeting of the "ancient and honorable international order of henpecked husbands," an organization having headquarters at Southey near Bradford, is being kept a strict secret. Last year's meeting, to ensure freedom from wifely interference, was held at an isolated spot on Blackstone Edge Moors. Much time will be required at this year's meeting for the consideration of a long list of applicants for membership, as each candidate must be cross-examined regarding his fitness to be dubbed "well and truly henpecked." The organization's stationery declares the order dates back to the year 8897 B. C.

Order Barthou To Insist on Terms of The Poincare Speech

Ultimatum to Russia or Break Up Conference is the Report.

French Premier's Address Cause of Consternation—No Plan for Pressure on Germany, but Desire to Let Nations Know of Attitude Before Action Taken at Genoa.

(Canadian Press Cable) London, April 25.—There is reliable information, declares a Central News despatch from Genoa today that M. Barthou, of the French delegation, received telegraphically today explicit instructions to insist at the conference on the terms contained in Premier Poincare's speech of Monday. The French delegation, says the message, has declared it would press a 48 hour ultimatum to Russia or else break from the conference altogether. It is added that Premier Poincare's speech created great consternation in conference circles.

Paris, April 25.—Premier Poincare has not adopted any plan for further military occupation of Germany in case of a default in the German reparation payments on May 31, so it was asserted in official circles today. The premier's speech yesterday, in which he declared France would, if necessary, undertake alone to see that the treaty of Versailles was executed in case of a default, is said to have been intended to make the governments policy clear and put an end to the rumors that France was persisting in an obscure attitude.

There is plenty of time to consider what should be done to oblige Germany to respect her engagements, it is pointed out, but M. Poincare desired to clear the ground right now, before action is taken. The French premier, it is explained, considered it necessary to let the Genoa conference know exactly the attitude of France before the conference took place. The French delegation found itself unable to approve. The sentiment expressed by Premier Poincare in his declarations of yesterday at Bar-Le-Duc, were echoed throughout France by prominent public men at the sessions of the General Council.

Charles Jonart declared there was no more time for parleying with anyone on the reparations question; but that the moment had come to act. SOME DEMAND A MARCH ON BERLIN The newspapers, with the exception of the socialist and communist organs, expressed unreserved approval of the premier's declarations. The monarchists are worked up to the highest pitch and have placarded the dead walls of Paris with posters demanding a march on Berlin. Officials close to the premier, however, deprecate the idea that he will take any drastic, precipitate action. They forecast an earnest effort to find some means of putting pressure upon Germany without employing the arm.

Their prediction is that M. Poincare will invite the allies to act together, and if Great Britain refuses he will then announce that France is obliged to lift herself out of a situation in which she is given no help, and execute the treaty of Versailles. If France is obliged to use her army, they declare, she will endeavor to make her action effective this time, which is taken to mean she will occupy more than the Ruhr Valley. Riga, April 25.—The Russo-German treaty which started the Genoa conference was agreed in Moscow after secret negotiations between Premier Lenin himself and Admiral Paul Von Hintze, one of the principal diplomats of former Emperor William's regime, so it was said here yesterday on good authority.

April 25.—Foreign Minister Tchitcherine, of Soviet Russia declared to the Associated Press today that it was allied resistance to the Russian principle of nationalization which was blocking the conference here. "It is obvious," he said, "that the only serious obstacles to peace with Russia and general reconstruction are the pretensions of a few former owners of property in Russia."

As Hiram Sees It

"Well," said Mr. Hiram Houtman as the Times reporter, "Somebody dropped yesterday." "It did," said the reporter. "I never seen the town so hot up," said Hiram. "It was a new fight," said the reporter. "Well," said Hiram, "it won't do no harm. You fellows has been going on grumbling about things an' sayin' 'Oh, what's the use?' about long enough. I hope you're awake for good. D'you know what you orto do? You orto hev meed'n's regular to talk over things an' see what's best for you. It's your town—It's your City Hall—It's your business. Hop to it—an' you'll be all right—By Hen!"

HIS INTENTIONS ALL RIGHT—BUT—

There was one elector yesterday who was very decided in his choice of the man whom he favored in a manner that left no room for doubt whatever. It was a "plumper" of the old-time variety, with some embellishments. It was evident that he attacked the ballot savagely. Only one name remained unscratched when it was withdrawn from the ballot box; the other five were subjected to a violent scoring which in some spots threatened to drive them clean through the paper. But the elector was not to be satisfied with his work so far, for he crowned his achievement by scribbling on the bottom of the ballot—"The others no dam good." It was evident that his last action caused his paper to be disqualified, but in the language of the prophets, "I should have said, 'I had my opinion and I gave it to 'em good and plenty.'"

U. S. RUSHES WAR VESSEL TO CHINA

Flagship of Asiatic Squadron Given Orders. Peking Isolated from South So Far as Train Service is Concerned—Arms for China Found on Vessel at San Francisco.

(Canadian Press Cable) Manila, April 25.—The U. S. flagship Huron, of the Asiatic Squadron, has received rush orders today to sail to China because of disturbed conditions there. Peking, April 25.—Peking is now isolated from the south as far as trains are concerned. The Peking-Hankow railroad had interrupted its services on account of the troop movements of Gen. Wu Pei-fu, the central Chinese military leader and the Peking-Shanghai line had previously been cut by the forces of Gen. Chang Tso-Lin, governor of Manchuria. Except for the rapid concentration of troops by both generals, the military situation remains unchanged. The commanders of the British, U. SESSIONS OF THE W. A. ARE BEGUN

Annual Diocesan Meeting Begun in Trinity Church.

Several Hundred Members Present—Address of Welcome and Reply—Report of Mrs. Knowlton, Recording Secretary, Shows Growth During the Year.

The nineteenth annual meeting of the Frederick Diocesan branch of the Woman's Auxiliary of the Church of England of New Brunswick was commenced this morning in Trinity church with holy communion at 9:30 o'clock. There were more than 400 at the communion service, of whom more than 200 were communicants. The ritual was celebrated by Venerable Archdeacon Crowfoot, assisted by Venerable Rural Dean Sampson and Canon Armstrong and Daniel, Rev. A. L. Fleming preached on the text, "That ye might walk worthy of the Lord," and emphasized the communion as the work of the women's auxiliaries. A special collection netted \$711.6.

Following the church service, the delegates repaired to the school room for commencement of the business meeting. Mrs. L. R. Harrison, president of the Trinity branch and second vice-president of the diocesan branch, spoke a few words of welcome to the church. The names of the new life members were called, and they were asked to rise. Those admitted to life membership at this meeting were: Miss Ina Mowry, Mrs. Parlee, Mrs. G. A. Kuhring, Mrs. Waterton, Mrs. T. H. Brooks, Mrs. E. A. Reid, Mrs. Walter Gimmer, Miss Emma Johnson, Mrs. H. H. Seely, Mrs. G. E. S. Keator, Miss Violet Gregory, Miss Elsie Millidge, Miss Grace Estey, Miss M. Dole, Mrs. E. W. Mair, Miss Frances R. Cadwallader, Mrs. Herman P. Belyea, Mrs. H. P. Buckland, and Mrs. W. P. Jones. Mrs. G. F. Smith, the president, called for the reading of the minutes of the last annual meeting and they were passed. Address of Welcome. An address of welcome was given by Mrs. W. D. Foster as follows:—It is my privilege, today, on behalf of the president, the members of the executive, and the members of our church's Auxiliary in St. John, to bid you welcome to this, our nineteenth annual meeting.

We are solicitous that this shall be the most helpful, as well as the very best annual that has been held in our diocese. It is no easy matter to come as a delegate, for you represent your own branch, and we are looking forward, with pleasure, to hearing the reports that you have brought us. What I especially wish to urge upon you, at this present time—(when great and important responsibilities have been given, or thrust upon women)—when the voice of women is to be heard in matters affecting both church and state—is that it is of the utmost moment that their voice should ring true. We, the Women's Auxiliary of the Church of England—gathered here from all parts of our diocese—are together to deal with matters deeply affecting the welfare of our church and our country, (for when we are working for our church we are, at the same time helping our country). We need to remember that new privileges and opportunities mean new duties and increased responsibilities. "To whom much is given, of them shall much be required."

We members of the auxiliary who have already attained some experience in public matters (through the work of our organization) should be willing, as far as we are able, when asked, to assist other members (less experienced) in coming to a wise decision either in the chosen word or by the silent vote. In our deliberations let us commence by showing ourselves conservative and yet progressive, cautious and yet courageous. Let us banish all that makes for prejudice and intolerance. Let us cultivate respect for the opinions of others, showing a willingness to consider all points of view, consistent with faithfulness to the great church to which we are all so proud to belong, and in whose interest we are holding these meetings. Now for the final word, and it is friendship; the friendship of the members of the women's auxiliary. What a poor place this world would be if we were bereft of friends! You remember what a very wise man said, many years ago: "Let us cherish our friends, tenderly, because we know not whether they are to abide with us a long time or no." We are here today not merely as acquaintances, but as friends. And as friends, we are looking forward to three happy days together.

Now listen to the words of the dear Lord: "Ye are My friends if ye do whatsoever I command you." This address was received with much handclapping and many expressions of approval from the delegates. Mrs. Alexander of Campbellton, in replying, said that it gave her great pleasure to speak a few words in response to Mrs. Foster's kind greeting. She enthusiastically endorsed Mrs. Foster's words as to the friendship among the members of the women's auxiliary, and said that there was a need of more women of the right kind to join in this friendship and carry on the work being done by the association. Mrs. Smith thanked the hospitality committee under the sponsorship of Mrs. M. Desbrow for the excellent work they had done in getting the delegates placed in homes. She said it had given her a great deal of pleasure to find the meeting getting such a good start with so many of the women present at the service in the church and was glad that they had had a chance to listen to Mr. (Continued on page 3, 4th column.)

OFFICIALS OF THE MINERS GROW IMPATIENT

Reported Differences Among Owners as to Amount of Wages to be Demanded.

New York, April 25.—Anthracite miners' officials, returning to New York today to resume conference with operators, in an effort to end the strike, declared that they would add another demand to the 19 already submitted, a demand for more speed in the negotiations of the sub-committee on wage contracts.

The 122,000 idle men in the anthracite region are tired of their vacation, and are becoming impatient over the delay in settlement.

Delays in submitting an operators programme were reported by some officials today to be caused by their failure to agree upon what reductions shall be demanded. So-called radical operators would cut wages to approximately a pre-war basis, it was said, while there would revert to the 1917 scale.

A nation wide check up of bituminous resources will be begun today by both miners and operators, to determine to what extent the strike has depleted stocks on hand.

The eastern market has weakened, instead of growing stronger, it was said. In New England where transportation costs are a greater factor than in any other eastern market, non-union mined coal was reported yesterday to be quoted at less than the cost of production, with few buyers.

MARRIED IN CLOUDS. "Flying Parson" Officiates Five Thousand Feet Above New York. New York, April 25.—A nuptial kiss, planted 5,000 feet in the clouds above Times Square, was broadcast from the cockpit of a speeding airplane to the ears of thousands of radio fans late yesterday, when Miss Sarah Colfax and Albert F. Schaeke became bride and groom. Lieut. B. W. Maynard, the "flying parson," performed the ceremony. Lieut. Bert Acosta piloted the party in a Zeke biplane that landed at the appropriate moment affixed his signature to the marriage document, and turned his back on the bride.

MAGIC BAKING POWDER. PRODUCT OF CANADA. The reputation of Magic Baking Powder was not made in a day. Each succeeding year has entrenched it more securely in the homes of Canada's discriminating housewives. There is more Magic Baking Powder used in New Brunswick at the present time than ever before. It has been demonstrated that it is more economical and more satisfactory in every way than cream of tartar and soda. Magic Baking Powder is scientifically made and has never failed to give the maximum leavening efficiency. Because of this and the uniformly satisfactory results obtained by its use, we recommend it as Canada's perfect baking powder.

New York, April 25.—(10:30)—Reactionary tendencies dominated the early dealings in today's stock market, declines outnumbering gains for the first time in several weeks. Among the few exceptions were U. S. Steel and General Electric, both scoring fractional advances. New Haven, leader of the preceding session, opened unchanged, but soon lost half a point. Columbia Gas made the one noteworthy gain, rising 1-8 points. Automobile specialties, notably the rubber tire division, added to yesterday's gains, federal mining and smelting preferred also displaying pronounced strength.

NOON REPORT. New York, April 25.—Opening losses were soon cancelled on the demand for local traction, motors and rails. Manhattan Elevated was the chief gainer, gaining five points. Third avenue rose 2 1/4 and other strong local issues included Brooklyn Rapid Transit and Consolidated Gas. Studebaker's advance of almost 2 points brought it within a fraction of its recent record. Motor accessories made further gains and Pittsburgh Coal, Studebaker's advance of almost 2 points brought it within a fraction of its recent record. Vienna, April 25.—Leopold Woolfing, formerly Austria's Archduke Leopold, did not obtain it, is living in a Vienna suburb, earning what he can by his skill as a translator. He humorously explains that his income of 8,000 crowns a month, or less than two shillings, would "hardly support a woman."

MONTEAL STOCK MARKET. Montreal, April 25.—(10:30)—The downward trend in prices that dominated yesterday's trading was very apparent during the first half hour this morning, and practically all the issues traded in registered from fractional to substantial declines. The paper group was particularly weak, Abitibi being down a half a quarter at 43 3/4. Consolidated Smelting was weak, selling a half-lower at 23. When you buy Blouses at a "Specialty Shop" You expect "better" styles, "better" materials and "better" finish! We merely ask you to compare the "style," "materials" and finish of our Blouses. Scrutinize carefully the beautifully fine, strong, even stitching—the perfect "finish" of each seam. Never a raw edge—never an inadvertent rip—each seam a work of art—in its own way. Indeed we are as fastidious about the stitching and "finish" of our Blouses as we are about choosing Parisian or New York styles—and best quality materials. IRISH GENERAL IS SHOT DEAD

Adamson of I. R. A. Killed in Street of Athlone—Garrison at Four Courts in Dublin Departs.

Dublin, April 25.—(Canadian Press Cable)—Brigadier General Adamson, commanding the Athlone brigade of the regular Irish Republican army, was shot dead today near the headquarters of the independent republican forces in Athlone. An official communication by headquarters of the regular army in Beggars Bush Barracks says: "Brig-Gen Adamson, of the Athlone brigade, was shot dead in the streets of Athlone. He was returning to the barracks near the hotel where the mutinous troops have their headquarters. He was suddenly confronted by a group of armed men who ordered him to throw up his hands. "The general being alone, complied, and while his arms were raised they deliberately fired into him." London, April 25.—A despatch to the London Times from Dublin says that forty-two men who had been garrisoned in the Four Courts Building which was held some time ago by members of the irregular army, left the building yesterday and did not return. The significance of this, the message adds, is not known. Former Sergt. Gunn, of the Royal Irish Constabulary, was shot and killed at Ennis yesterday, according to the Times.

SESSIONS OF THE W. A. ARE BEGUN

(Continued from page 1) Fleming's powerful sermon. Mrs. Smith read a letter she had received from Mrs. C. M. Hall, of Ottawa, president of the Dominion Branch of the W. A., extending the greetings of the dominion branch and the hope that the Fredericton process branch could carry on the work they had been doing in such a commendable way. At this point a delegate from Welford rose to present a fine bunch of May-flowers to decorate the official table at the meeting. Mrs. Smith thanked the Welford branch for their thoughtful-ness. Miss Clara Schofield, corresponding secretary, read letters of greetings and good wishes from branches in Ottawa, Halifax, Hamilton, Montreal, Niagara Falls, Algoma, Kingston, Qu'Appelle, Kewatin, Kootenay, Winnipeg, Edmonton and New Westminster. The president read a letter from Miss E. R. Scovill, secretary-treasurer of the Pickett Memorial, in Eldorado, Texas, expressing her regret at being unable to be present and asking that her report be included with the others. This was put to a vote of the delegates and the motion passed. Mrs. Smith also extended the hospitality of the Church of England Institute to the visitors on behalf of those in charge. An explanation of the use of the balloons was given and the members were told that Mrs. F. A. Foster, the secretary-treasurer of the Little Helpers' branch, would be unable to serve for the coming term so that her name would not be available for nomination. Branch reports were read from An-dover, Apohaqui, Bay du Vin, Blissville, Burton and Campbellton. In the Campbellton report it was mentioned that the W. A. there had finished one of the rooms in the memorial hospital at Campbellton. The meeting closed with the Lord's prayer. The members then went to the luncheon room, where a bounteous repast had been prepared by the ladies of Trinity, St. James and St. Mary's churches, under the leadership of Mrs. Sherwood Skinner, the convener of the refreshment committee. Balloting for the nomination of officers was held during the luncheon hour. The afternoon session opened with the address of the president, Mrs. G. F. Smith, and a report of the year's work by the recording secretary, Mrs. F. J. G. Howton. This report showed a considerable growth in the number of branches and the membership of the diocesan branch. There are now in this diocese eighty-five senior, twenty-nine girls', thirty-three junior and thirty-nine Little Helpers' branches of the W. A., with a total membership of 4848, including eight Dominion life members and 220 diocesan life members.

BETTER THAN HARD COAL

Soft coal so free from soot that it does not make whiskers on stove covers or pipe and does not mat or clog when burning, is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and can also be used for open fires and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to insist on getting the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.

Illustration of a man shaving and laboratory equipment. 1000 Practical Opinions and 130 Laboratory Experiments before we perfected this ideal shaving cream. Now we ask you to try it—at our expense.

130 formulae actually made up and tested

A few years ago we decided to make a shaving cream. We had already achieved the ideal toilet soap by blending palm and olive oils. So we embodied this blend in a shaving cream. And our first step was to ask a thousand men the virtues they wanted in it. These were their requirements: First, a quick shave. These men wanted quick shaves, above all. Did not like long brushing, finger rubbing, hot towels, delay. So a cream was made which acts in one minute. Within that time the average beard absorbs 15% of water. This result is due to almost instant removal of the oil that coats the beard. Next, liberal lather. Next, they wanted liberal lather. They wanted a little of the soap to go far. So we developed a cream which multiplies itself 250 times in lather. A bit on the brush—only one-half inch—suffices for a shave. A single tube of Palmolive Shaving Cream serves for many weeks of shaving comfort.

The Evening Times and Star

ST. JOHN, N. B., APRIL 25, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

HYDRO WINS AGAIN.

There is no mistaking the significance of yesterday's verdict in the civic elections. Mayor Schofield, whose policy was distribution of hydro through the New Brunswick Power Company's system, was next to the lowest man at the polls.

What may be termed the corporation interests were never so well organized or so active in a civic election, and they have their answer from the people. Despite the unfounded assertion that civic distribution would increase taxes, which, as this journal pointed out, was used without scruple in canvassing voters, especially women who were property owners, Mr. McLellan increased his majority.

The way is now clear to proceed with the policy which the old city council should have had already well advanced. It is settled that the benefits of hydro are not to be handed over to a private corporation but are to be reserved for the people. It may be hoped that the majority of those who opposed the popular will, when they have scanned the election returns, will decide to lend their aid in carrying out the policy as significantly endorsed.

It was taken for granted that Mr. Wigmore would increase his majority yesterday, and he did it to the extent that he led the poll. He returns to City Hall pledged to civic distribution of hydro, and to that pledge he owes his large vote.

THE NEW MAYOR.

In extending his thanks to the people last evening for the splendid support he had received, Mr. H. R. McLellan must have disappointed a number of his critics. He said nothing harsh concerning his opponents, gave the people the full credit for the victory gained, said frankly that City Hall belonged to the people and not to their representatives, and intimated that there would be no autocratic methods so far as he was concerned.

No mayor has been elected to office in recent years with such an opportunity to render the city a great service. The people have indicated the policy they desire to have carried out, and as the candidate of the United Organizations such as is seldom given to a mayor in this city. He is able to look back upon a campaign fairly conducted, and forward to a field of usefulness such as must appeal to any man who has at heart the interests and the welfare of his native city.

It was not Mr. A. E. Schofield the citizen who suffered so severe a defeat yesterday, but Mayor Schofield who stood for handing over the distribution of hydro to the power company.

The Ross report may now be consigned to the limbo of past curiosities, or filed away as one of the curiosities of engineering literature.

THE NEW FORCE.

A new force in civic politics in St. John has come into being. To the Hardware Clerks' Association goes the credit for this very important new development. That organization, looking beyond the mere matter of the welfare of its members, saw the opportunity to serve the community, and began a study of the result of the introduction of hydro in Ontario cities and towns.

Other organizations became interested, and as a result we have the body known as the United Organizations, which declared for civic distribution of hydro and carried on so effective a campaign that a great triumph for its policy has been won. Older organizations looked askance at this newcomer, and members of some of them protested that it was prematurely forcing an issue and it was even suggested that these young men were not competent to decide so important a question.

A resolution moved by A. B. McMaster, (Liberal, Brome) that in the public interest it is desirable that all ministers of the crown on their appointment as such, should resign all directorships held by them was defeated until 1 a. m., when it was lost by 59, nays 142, majority against, 83.

The Conservatives voted with the government as did also the Progressives, and an Independent, A. W. Neill, (Comox-Alberle). The Labor members voted with the Progressives. Mr. McCallum, the only Liberal voting for the resolution.

THE "SOLID" MEN.

The Standard says:—"A noticeable feature of the voting yesterday was that Mayor Schofield led in Kings, Queens and Dukes wards, the wards wherein the solid business men of the city vote. One man, one vote is a rotten principle; for it places as much power in the hands of a \$10 a week stenographer as in the man who is assessed on \$50,000."

The "solid business men" have made St. John about the most expensive place in Canada in which to live. They put it in the clutches of the New Brunswick Power Company, and would have kept it there. However, this is not a time for recriminations. In the words of some of these same solid business men let everybody get together. It is now up to them to show their sincerity in regard to co-operative effort for the public good.

Apart from the winning candidates the man who has most reason for satisfaction in the result of the civic elections is Mr. Herbert Phillips. His vindication is complete. He accepted the invitation to campaign for a principle in which he ardently believes, and the people were with him yesterday when the issue was to be decided. He has rendered the city good service.

FOR PRESERVING MILK.

An unusual method of preserving milk for long-distance shipment is recommended by French scientists as the result of a series of experiments conducted at Paris recently. The directions read: "Press one-third of the volume of the milk to be transported into blocks large enough to go into the can. Place one of these blocks in each can, and fill with pasteurized milk, cooled almost to the freezing point."

IN LIGHTER VEIN.

Agreeable. "If I lend you ten dollars, what security will you be able to give me?" "Don't get excited, madam, replied the latter. "I've been waiting for a husband for the last twenty years."—Spare Moments.

Years of Discretion. "I asked to send me young lettuce." "Yes, ma'am. Wasn't it young you got?" "Young—It's almost old enough to wash and dress itself."—Boston Transcript.

So Silly. Mother—I do wish, Constance, you would dress more sensibly. What must people think? "But, mother, dear, I should look so silly if I dressed sensibly."

Waiting. "I've been looking for my husband for the last two hours," said an agitated woman to a calm one. "First of all, madam," replied the latter. "I've been waiting for a husband for the last twenty years."—Spare Moments.

CORRESPONDENCE**

Ottawa, April 24.—Production of all correspondence between the Canadian and British governments in preparation for the conference of the premiers of the empire last summer was ordered in the House of Commons this afternoon.

The motion was made by Rt. Hon. Arthur Meighen.

Hon. W. L. Mackenzie King called attention to the fact that part of this correspondence was marked "secret." Did Mr. Meighen, he asked, desire the government to ask permission of the imperial authorities to make public the secret despatches?

"I am not asking for myself that anything be secret or confidential," replied the leader of the opposition. "I leave the government to decide whether there is anything that the public interest requires to be kept secret."

**Only One in Five
Is Safe**

Can you afford to risk your teeth and your health when the odds are four to one against you?

That is what you are doing unless you take proper precautions against Pylorrhea.

Dental statistics show that four people out of every five contract Pylorrhea after they pass the age of forty. Thousands younger also suffer.

Neglect Pylorrhea and it attacks the teeth below the gums—loosening them in their sockets until they fall out or must be pulled; forming pus pockets at the roots. In these pus pockets disease germs breed and multiply, poisoning the entire system.

Pylorrhea starts with tender gums which bleed easily when brushed. That is the first stage.

Do not neglect this warning. See your dentist at once, and start using Forhan's For the Gums.

Forhan's is the formula of R. J. Forhan, D.D.S. Used consistently, and used in time, it will prevent Pylorrhea or check its course.

Use Forhan's twice a day when you brush your teeth. It is the only dentifrice you need. It wards off Pylorrhea and keeps the teeth and mouth clean and healthy.

Remember, four out of five contract Pylorrhea because they wait too long. Insure your teeth. Buy a tube of Forhan's For the Gums at your druggist's today. 35c and 60c.

A Strong Mandate For Hydro Power at Cost

H. R. McLellan Elected Mayor by Large Majority—R. W. Wigmore, Who Led Poll, and T. H. Bullock, Succeed as Commissioners—A Big Vote Polled.

Power at cost is what the majority of tax payers in the city want judging from the sweeping majority rolled up at the polls yesterday by H. R. McLellan over Mayor Schofield. It was one of the most keenly contested elections in the city's history, both candidates putting forth every effort. When the vote was counted the figures showed McLellan 4832 and Schofield 2964, a majority of 1,868 in favor of the former. In the north and west ends Mr. McLellan had a majority of more than 1,000, while in Queens, Dukes and Kings wards Mayor Schofield had a majority of 141.

vote in the civic elections and out of that number 7,496 exercised their franchise yesterday, showing that over seventy per cent cast accepted ballots. There are 18,304 voters on the list, but 8,808 were stricken off the roll.

R. W. Wigmore remained a favorite for commissioner and totaled 4,872 votes, speakers were unanimous in predicting that St. John had launched out into a new era. Great things were ahead of the city. Mr. McLellan declared that a community spirit had been born and he urged that it be cared for and promoted. It was a people's victory, he declared, that had at last awakened the city to their own power and had begun to use that power in their own behalf.

The Mayor-elect. When the final figures had been chucked up on the big blackboard showing Mr. McLellan's election by a majority of 1,868, inconsistent cries of "McLellan," "McLellan" went up from the crowd in the headquarters room. Mr. McLellan finally worked his way from the back of the hall, where the results were received over the telephone, forward to the improvised platform made of two very elementary tables.

Three rousing cheers and the opening verse of "He's a Jolly Good Fellow" were given by the enthusiastically crowded floor. Mr. McLellan could begin his remarks.

"I want to say," began Mr. McLellan as soon as the cheering had sufficiently subsided to allow him to be heard, "I want to say that I think you are entitled to the maximum amount of congratulations for your efforts today, and I want to thank you for permitting me to participate in that victory, for it is your victory."

He congratulated the city upon having in it such an organization as the Hardware Clerks' Association. He congratulated the people for the manhood they had displayed in going to the polls in such large numbers and, finally, he congratulated them on having attained the realization that out of this campaign had come a great civic awakening. A community spirit had been brought into being and he urged keeping together the organization which had been behind the victory of yesterday, increasing its numbers and its strength, and making of it a real citizens' organization. If that were done something never before effected would be accomplished, he declared. The geographical situation of St. John was unsurpassed by any in Canada, Mr. McLellan declared. He would not cla-

borate the Confederation promises, he said, but he would declare that yesterday a new era had been ushered in in the history of St. John. It would henceforth go forward and upward; it would not remain stagnant and stagnant.

For the People.

"You now have an opportunity to begin an era of government of the people, for the people, and by the people," declared Mr. McLellan in assuring his audience that he was sincere in his desire for the establishment of the advisory council of sixty-five representatives of the several wards in the city.

In the past the council had not realized that it possessed only such powers as the people conferred upon it. As a result they had neglected the people and

neglected the city. He referred deprecatingly to "the best people" and declared that from now on the common people were going to get a chance. Again he urged the continuance of the work of the organization and the devotion of its efforts to a campaign of education to win over those electors who had voted against the project yesterday, in all generosity and charity, he said, let

the past be forgotten and an effort made to educate the opposition. Hydro-electric. "We're going to have hydro-electric," declared Mr. McLellan, amid applause; "we're going to have hydro-electric at the least possible cost," he continued, "and we're going to have no truck or trade with the Power Company," he concluded amidst tremendous applause.

The fight, he declared, was only beginning. The mayor and council and the mayor in particular, would be attacked by every financial interest in Canada in an effort to save the New Brunswick Power Company. But he declared that he had no fear of those who would undertake such a campaign. "Let them come forward in all their armor and we'll make junk of it," he declared amidst applause.

If the Power Company had acted agreeably in the past the city might now be negotiating with the company, he said.

"If I live to be sworn in as mayor we shall have democratic government irrespective of who my colleagues are," declared Mr. McLellan. Pointing to the total of 7496 votes cast, he said that if he could help it there would never be such a small total cast at any future election. In view of the abnormal times he declared it was not right to deprive people who had paid many previous years' taxes of the right to vote just because they were unable to pay their taxes this year.

The citizens had been told time and again that the city had a great future. He was inclined to be tired of listening to that story; he wanted to see some of the promised future greatness. His first effort would be to provide work for the unemployed, he declared, amid great applause. The playgrounds and parks could wait until work was found for the men.

He said that the west side mill pond should be filled in after a trunk sewer and laterals were laid in it. It was one of the finest industrial sites in the city and it was lying idle.

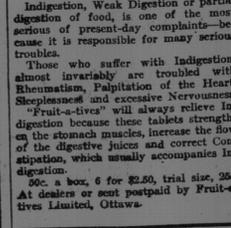

All Rights Respected. He would reassure everybody that people who came to City Hall would be rightly treated. Some eagerness regarding what treatment would be given its representatives had been expressed by the Globe. The Globe had his rights. The city had not belonged to him but to the people; the mayor's office was not his, but the people's, and all would get their rights.

Mr. McLellan said he never had seen a better lot of workers than those supporting his cause yesterday. The opposition, he ventured to say, had spent \$15,000 in yesterday's campaign, but so far as he knew, not a nickel had been given any man or spent for any automobile which had worked for him. For that reason he was happier than ever he had been before, and prouder. He again thanked the people for having made him a participant in their victory.

"We're going to have a civic system of distribution of hydro-electric energy," declared Mr. McLellan amidst applause. "And we're going to have it at the least possible cost," he continued. The people need have no fear of the Power Company. They would eat up

any lawsuits or litigations the company undertook. He was prouder than if he had been elected Premier of Canada, he said, for it was the first time he had ever seen the people of St. John ready and willing to go out and protect themselves from such a corporation as the New Brunswick Power Company. So far as the city making the company an offer was concerned, he intimated that so such offer would be made.

The people would not be fooled with the recent act relating to the Power Company passed by the legislature; the people must have their say in the matter and the decision must rest with them. The council had no authority pointing his cause yesterday. He had spent \$15,000 in yesterday's campaign, but so far as he knew, not a nickel had been given any man or spent for any automobile which had worked for him. For that reason he was happier than ever he had been before, and prouder. He again thanked the people for having made him a participant in their victory.

Alexander Corbet. Alexander Corbet, in response to the cries for "Sandy Corbet" that arose in great volume from the audience, stepped to the platform and, pointing to the number of votes polled by him, declared he was proud of his first venture into public life. He had fought a clean fight and was happy though beaten. He had first and had not waited until the last minute to declare himself, he said.

An original poem commenting upon the results of the elections both primary and final was contributed by P. C. Johnson. One of the most pointed stanzas ran as follows:

"The returns, when slated,
Showed facts beyond a doubt
That hydro was the people's choice;
And Schofield found it out."

Mr. Johnson's composition met with an enthusiastic appreciation.

R. W. Wigmore. Repeated cries for "Wigmore" brought R. W. Wigmore to the platform. He declared that it was the proudest moment of his life when he realized that such a tremendous vote of confidence had been given him by the citizens. He referred to his previous administration of the water and sewage department and said that he would prefer to have that department again. The city was confronted now by problems greater than even those that faced it in war time. The sympathy, support and co-operation of the citizens were needed by the commissioners to enable them to solve those problems. He urged all, if they had any suggestions to offer or complaints to make, to come directly to him.

"I realize," said Mr. Wigmore in conclusion, "that I have been elected in

support of civic distribution of hydro and I will carry out the wishes of the people as expressed in their votes."

The applause that succeeded Hon. Mr. Wigmore's remarks merged with that which preceded the address of Herbert Phillips.

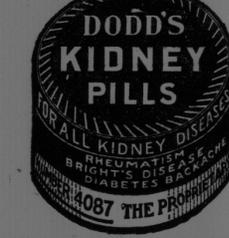

Mr. Phillips said he was glad to have had a part in pointing out to the people how they could secure the results for themselves. He was impressed with the courage of the new mayor. He believed with Mr. McLellan that a new era was about to be inaugurated.

Roy Willet. Three cheers were given for Mr. Phillips and then Mr. McLellan came forward and introduced Roy Willet, chairman of the United Organizations, and H. D. Sullivan, president of the Hardware Clerks' Association. Yesterday's victory was not a dollars and cents victory but a victory that showed an increase in the morale of the citizens who had determined to shake themselves free from the New Brunswick Power Company, Mr. Willet said. Mr. Sullivan briefly described the interest and activities of the Hardware Clerks in the subject of hydro-electric power, and said that the goodwill and influence of the organization would be behind any movement for the good of the city.

Long after the lights had gone out in the Schofield headquarters across the street the McLellan headquarters continued to be illuminated. The vast crowd that thronged the building largely dispersed after the addresses were over, but many ward workers and supporters remained to talk over the experiences of the day and the victory for civic distribution.

"Saved My Little Girl!"
Mother tells how her little Ethel's life was saved.

That is what one woman wrote us recently, and then she goes on to say: "Ethel, who is just past eight, caught a bad cold last August. The child is of a highly strung, nervous temperament and could not be kept quiet in bed. We tried everything we could think of to cure her cough. But, the cough became worse and from a rosy, healthy, sturdy girl she became pale and thin. Nothing we did seemed to stop the cough and by this time regular spasms of coughing had developed. These coughing spells left the child weak and completely tired out. I believe that in a short time the cough would have reached the child's lungs. After trying everything I could think of, I saw an advertisement for Carnol, saying that this preparation would build one up. I got a bottle from the druggist and before it was half finished my little girl had almost completely shaken off her old colour. Her cheeks began to get back their old colour. She started to pat on flesh again and would run and play all day without being tired. Today, after having taken two bottles of Carnol, she is looking and feeling better than she has ever felt in her life."

Carnol is sold by your druggist and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle and we will refund your money. -122

**THROGGED TO SEE
LORD FAUNTLEROY**

With Mary Pickford in Title-Role—A Charling Version of Famous Story With Operatic Musical Treatment at the Imperial.

You will laugh uproariously, and you will cry when you see Mary Pickford in "Little Lord Fauntleroy" at the Imperial again today. And you will probably say that it is one of the greatest, if not the greatest, of photoplays ever shown in the Keith house—certainly the greatest cinema Mary Pickford has ever made. In transcribing Frances Hodgson Burnett's famous story to the silver-sheet, Miss Pickford has established her claim to the title, "Queen of the Screen," for the essence of the book-version has been retained and the charm of Little Mary's interpretations pleases beyond measure. In the lexicon of praise there are few words comprehensive enough to set forth the sweetness of this wonder-play. Never in her career of superb work has Mary Pickford done anything quite approaching her artistry in this production. The closest she ever came to it was in that masterpiece, "Sheila Maria" in which, as in "Fauntleroy," she played a dual role. Miss Pickford's presentation of the two characters, Dearest, the mother, and Cedric Errol who later becomes Lord Fauntleroy, sets a new mark for her. Unquestionably this picture pushes the film industry ahead many leagues. The story of "Little Lord Fauntleroy" is too well known to be repeated. Suffice it to say that the Pickford adaptation adheres very closely to the Burnett plot, with the result that none who has read the book will take offense at the play. What is more, Mary Pickford is a de-

Those who remember the lovable characters, the apple-woman, the grocer and the bootblack, will be pleased beyond measure with the portrayal of these parts by Kate Price, James A. This will be the final schedule as the Rotary ministers occupy the big theatre the mid-week.

Great Commercial Service will be One of Results of the Rapallo Pact.

Washington, April 25—One of the first practical results of the Russo-German treaty will be the establishment next month of a great commercial air service between the two countries. Behind the project is the German General Electric Company, the controlling genius of which is Foreign Minister Rathenau, who concluded the treaty at

GOVERNMENT TO AID UNEMPLOYED

Conference Will be Held by Federal Authorities and Certain of the Provincial Administrations.

Ottawa, April 24—A conference between the federal government and certain of the provincial governments is to be held on unemployment. So much, in the course of a two hours' debate, the prime minister indicated in the house today. Negotiations to that end were already under way. It was James S. Woodworth, (Labor, Winnipeg Centre), who brought up the unemployment questions on a motion that "the federal government should devise some means of dealing effectively with the situation." The prime minister laid stress on the position that unemployment was primarily the obligation of the individual, then of the municipality, the province and finally of the federal government; but did not oppose the passing of the resolution. Eventually, the resolution passed without a division, although Rt. Hon. Arthur Meighen, leader of the opposition, and several Conservatives expressed their dissent. Mr. Meighen's viewpoint was that the resolution placed the house on a false basis.

SHOT AT WHEEL OF STOLEN AUTO

Michigan Man Killed in a Running Fight with Three Detectives.

Detroit, Mich., April 25 — Yates N. Lieberens, 28, living in the Saginaw Y. M. C. A., and whose widowed mother resides in Detroit, was shot and killed in a running fight with three detectives near Clariston. He was shot at the wheel of an auto, which police assert he had stolen and was driving away. Before opening fire on Lieberens the officers had warned him what was coming, but no attention was paid and the stolen auto plunged ahead at breakneck speed. Five times the detectives' guns barked, then the car was seen to swerve wildly and crashing into a telegraph pole where it was wrecked. Lieberens was found with bullet hole through the back of his neck.

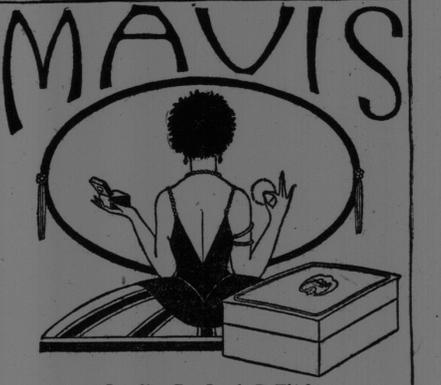

PUT BULLET INTO THE BODY OF HER FORMER SWEETHEART

Detroit, Mich., April 24—Avenge, the police believe, a real or fancied wrong on the part of a former sweetheart, Marie Jensen, twenty-two years old, leaped from a taxicab in front of 557 Monroe avenue, and sent a bullet from a revolver into the body of Steve Bagos, aged thirty-four, who was standing with a group of other men on the sidewalk. Scores of passersby saw the shooting. The young woman stepped back into

the cab, which sped up Brush street, pursued by four policemen in an auto. She left the taxi at Madison avenue, and was captured while trying to escape through the hallway of an apartment house at 1028 Brush street. Bagos was hurried to receiving hospital, where it is said he will recover.

MORE TROUBLE

London, April 24—A Central News despatch from Genoa today says: "It is learned unofficially that the Reds (Soviet Russian representatives) are negotiating a secret treaty with Hungary, giving mutual support against Rumania and the Little Entente."

IRON, STEEL, METAL AND MACHINERY

In its summary of the iron, steel, metal and machinery markets, Canadian Machinery and Manufacturing News, Toronto, makes the following comment in its April 20 issue:
Practically no change has taken place on Canadian markets during the week. The iron and steel section remains strongest of all, and there is quite a lot of talk to the effect that a slight advance will take place within the next ten days. At present, bars are selling at \$27.75, but \$29.00 may be the new figure. Some time ago, an increase was made in the United States, but so far Canadian dealers have not moved up in sympathy, competition being so keen that they were afraid, and preferred to work on a closer margin.
Non-ferrous metals are weak, but scrap metals show signs of strength, although prices remain unchanged in both lines. Pig iron is decidedly stronger, and several users are coming into the market, asking for speedy delivery. It is known that the material ordered is not for immediate use, but fear is expressed by some that non-union miners may go out, thus tying up the pig iron business. Prices are firm, and shading is practically non-existent. Montreal reports that

SIMPLE TO OPERATE Safe and roomy. The ideal family boat for your summer home. Fishermen can troll at any desired speed and increase to 9 miles per hour by simply lowering the propeller. Equipped with the Silent "Dis-P" Marine Motor, which cannot be heard thirty yards away.
DIS-PRO SELF-STARTER Among the added advantages for this year are the improved Dis-Pro Starter, with Instrument Board, also Aquascope, whereby you can see propeller at all times. All present Disappearing Propeller Boat owners will appreciate the "Dis-Pro" Self-Starters, as it can be readily adjusted to your own boat. Ask for particulars.

FINAL SHOWING TODAY Changed by the Kiss of an Innocent Child the Stern Old Earl Fights Like a Lion For His Heir "LITTLE LORD FAUNTLEROY"

Ten-Reel Animation of Frances Hodgson Burnett's Story WITH MARY PICKFORD AND STAR CAST

HERE FOR THE DELIGHT OF EVEN MORE THOUSANDS than the enraptured multitudes who read "Little Lord Fauntleroy" as a book and saw it as a play, is an elaborate super-picture produced with the lavishness, tastefulness and exceptional skill to be expected of the film. Mary Pickford herself has always wanted to make, heart and soul. Miss Pickford's art and brilliance, her superb talent, her exquisite beauty, all extraordinarily blended into the most human and profoundly moving story of her wonderful career.

PATRONS CHARMED YESTERDAY It has been a long while since the Imperial held so many matinee patrons as it did yesterday. The night attendance was also capacity. Nobody seemed disappointed with Miss Pickford's perfectly sweet portrayal of the mother as well as the child, in fact it was a new triumph for little Mary who undoubtedly remains the darling of the silver-sheet.

VERITABLE OPERATIC MUSIC Not the least pleasing feature of the "Fauntleroy" programme yesterday was the special music played by the Imperial's concert orchestra. The whole ten reels of film were cued and fitted in exactly with the varying moods of the story—now an old New York street ditty, then a sweet plaint breathing the tender phrases of the action.

Hospital After Bout. New York, April 25.—(Canadian Press) Lew Brody, a Brooklyn lightweight, was removed to the hospital suffering from what was diagnosed as concussion of the brain, last night, following a bout with Frankie Pitcher, another Brooklyn bower. Brody was floored twice in the ninth round and rendered practically helpless from the heavy

blows of his rival. When he gamely regained his feet after the second knock-down, Pitcher leaped to the attack again and with a rain of rights and lefts to the face and jaw, floored Brody again. This time the referee waved Pitcher to his corner, the victor by a knockout, and signalled Brody's seconds to come to the aid of their man.

DAVEY ROBERTSON, RELEASED BY PIRATES, GOES BACK TO GIANTS

Norfolk, Va., April 24.—Dave Robertson is to go once more to the New York Giants. Robertson received his unconditional release recently from Pittsburgh and was ordered by John McGraw, manager of the New York Giants, to report to him at once. Robertson broke into the big leagues with the Giants in 1914.

Robertson's first term of service with the Giants ended in 1919, when he was traded after the season had started to Chicago for Phil Douglas. After two years with the Cubs, Davey was sent to Pittsburgh for Pitcher Ponder last summer. During last winter Robertson had

a salary dispute with Barney Dreyfuss, refused to sign, and finally was unconditionally released. McGraw probably wants him in case Ralph Shinnery falls down in centre field.

APRIL BRIDES

Buck-MacNeill.

A very pretty wedding was solemnized in the Cathedral this morning when Rev. Hector Belliveau of Moncton, who was celebrant at nuptial mass, united in marriage Miss Jean MacNeill of this city and Frederick M. Buck of Woodstock, N. B. The bride, who was given away by her brother, wore a becoming grey traveling suit with hat to match and carried a white prayer book. She was attended by her sister, Mrs. Ernest J. Lake as matron of honor. Following the ceremony a dainty wedding breakfast was served at the home of the bride's mother, 28 Cliff street, after which the bride and groom left on a honeymoon trip to Bangor and Boston. In the former city Mrs. Buck will see her sister, Sister Dechantel. On their return they will reside in Woodstock, where the groom is in the employ of the C. P. R. Among the numerous gifts received were an electric percolator from the officials of the local branch of the Dominion immigration department, in which office the bride was employed, and a set of china from the staff of the marine and fisheries department of which the groom is a member.

After the ceremony Mr. and Mrs. Slocum left on the Montreal train for Toronto and other Upper Canadian cities. On their return they will reside at 81 Alexandra street.

FROM STREET TO
FILL PARIS JURY

Only Eleven Jurors Obtained from Panel, G. H. Mayes is Brought in on Way to Lunch—Start Evidence This Afternoon.

Out of a panel of fifty-two, summoned for jury service in connection with the third trial of John Paris on a charge of murdering little Sadie McAuley here last August, only eleven jurors were obtained when the case came to trial this morning. There were about a dozen absentees, two were excused on account of health and three on account of over-age. One was challenged by the crown and the panel exhausted, Sheriff Wilson rest by the prisoner's counsel. When the panel was exhausted, Sheriff Wilson was called upon to summon tallmen to complete the jury. Nobody in the body of the court being available for service, other than those already disposed of, the sheriff sent two of his constables into the street to obtain the necessary man. G. Herbert Mayes of West St. John, was on his way home to lunch when he was met at the corner of King and Germain streets by the two officers of the law and was requested to accompany them to the court. No objection was raised to his sitting on the jury and he was accordingly sworn in as the twelfth juror. About ten minutes before the case was called on, the presiding judge, Mr. Justice Barry, to notify his wife where he was.

The whole morning was taken up with the selection of the jury and the court adjourned soon before one o'clock to reconvene at 2.30 this afternoon.

Hon. J. P. Byrne, attorney general, and Dr. W. B. Wallace appeared for the crown, and Paris was again represented by Hon. J. P. Byrne, attorney general, who conducted the case for the defence in the first two trials.

Paris was neatly dressed in a new brown suit and wore a light purple shirt with a hard collar of the same shade and a bright necktie of red and yellow. He took a keen interest in the selection of the jury, at times shaking his head emphatically as a prospective juror's name was called, which was usually followed by his counsel objecting to the man as a juror. Paris wore his hair somewhat shorter than at any of the other trials but retained the mustache, about which considerable evidence had been given. His face did not appear to show any effects from his long sojourn in the county jail.

The jury chosen was as follows:—William Sterling, Herbert C. Rowley, William A. Stepler, J. E. Cogswell, Odell E. Hanspucker, Harry K. Olmstead, Holly M. Lingley, B. Campbell Johnston, E. J. Sargent, Harry P. Dunn, W. S. Titus and G. Herbert Mayes.

MONEY PROBLEMS OF THE DOMINION

President of Canadian Bank of Commerce Discusses Them in London.

London, April 25.—(Canadian Press.)—Sir Edmund Walker, president of the Canadian Bank of Commerce, addressing the Canadian Club in London yesterday, said that, whether the Dominion of Canada believed in public ownership or not, she was forced to try the experiment, but he was not sure that in the long run the country might not benefit by its past mistakes, large as their scale might seem now.

Public ownership, he said, was not so much on trial in Canada as democracy. The test would be whether the people and their representatives would allow capable directors to manage the railways like a business enterprise.

Concerning the international war debt, Sir Edmund declared that the super taxes as now levied in Canada, England and the U. S. were unfair taxation and were calculated to destroy enterprise. This with same taxation would be able quite readily to bear her war burden so far as portion due to other countries, provincial and other debts owed abroad and for over building railways, she must look to enlarged production, immigration and farm settlement. He paid high tribute to the soldier settlement work, which had proved how successful could be even a government commission with devoted public servants.
