[Vol. 15]

## SUMMARY OF NEWS.

**Aid to the Scottish Railways by the Bank of England.**—In relation to this subject, which, at the present time, is of such paramount importance, the *Globe* of Tuesday evening says:—"We hear general complaints still of the dullness of trade in town, and at Liverpool, cotton is quiet, and shares have been considerably lower. As a means of employing the people, the Bank of England having such large reserves at command, it is in contemplation by Government, we understand, to support the application of one or more of the Scotch lines for an advance from the Bank, repayable in two or three years. If the affair can be conveniently arranged, it will be desirable in many respects, and the main lines of communication should be first cared for."

**Crossing the Clyde.**—We understand that the Caledonian Railway Company have now agreed to pay L.15,000 instead of ten as formerly arranged, in compensation to the river trustees for the privilege of crossing the Clyde.—*Glasgow Constitutional.*

**New South Wales.**—The following extract of a private letter from a leading colonist in Sydney is encouraging. The hint about the destination of emigrant ships is important, and worthy of the attention of those charged with this important public duty:—

"Sydney, Feb. 25, 1848.  
"With respect to the price of labor, taking the relative price of provisions as a basis, we pay a shepherd equal to L.200 a-year in England; that is, a poor man, by coming here, lives as well on the wages we pay, and rations given, as a person can do with you on L.200 a-year. There is a great disadvantage in sending emigrants direct to Sydney, where they get obstinately located, and will not accept the highest rate of wages and abundant rations to go into the country districts. They ought to be landed at the ports adjacent to the pastoral territories, such as Moreton Bay, Two-fol Bay, Portland Bay, &c. &c., where they would at once get most advantageous employment. Steam navigation is most remunerative here, and it brings us within a few days' communication of Adelaide. Mr. Boyd has got a steamer (the Juno) running constantly from this to Adelaide, calling at the intermediate ports. Only give us labour, and we can supply very shortly the whole world with fine wool, and at such prices that would defy all foreign competition."

**The Shear Water and John Mitchell.**—The assistant-surgeon of the Shearwater, who gave Mitchell his breakfast during his passage in the Shearwater to Spike Island, has received the option of resigning or standing a court martial.—*Sunday Times.*

**India Rubber Pavement.**—On Thursday the court yard of the Admiralty, Whitehall, was being covered with a paving of India rubber. It is laid down in pieces about 12 inches square and one in thickness. The quadrangle at Buckingham Palace, formed by the erection of the new wing, will also be covered with this material, which its projectors have named "Kamptulic." Its chief recommendation is, that it deadens all sound, rendering the passage of a vehicle or horses perfectly noiseless.

**Candelabra for her Majesty.**—Messrs. Osler, of 41, Oxford Street, and of Birmingham, have just completed two magnificent glass candelabra, ordered by his Royal Highness Prince Albert, as a present to her Majesty on her birth-day; and these handsome productions, by permission of his Royal Highness, will be on view, by cards, at the manufacturers' warehouse, as above, for some days to come. They are entirely made of glass, stand eight feet high, will hold fifteen candles each, and weigh together upwards of a ton and a half. They are, indeed, magnificent articles of furniture, and are intended, we understand, to occupy a recess in one of the apartments in Osborne House.

**Movement amongst the Italian Clergy in favour of Matrimony.**—The following short notice appears in *L'Eco de Savonarola* of last month:—"We have heard, by letters, that there are upwards of fifty priests in Italy who intend to leave the Church of Rome, if the Pope will not permit them to take lawful wives. God grant that this example may be followed by that portion of the ecclesiastics who have not been plunged into the darkest criminality by the law of celibacy!" Now, the Pope cannot possibly grant his priesthood this freedom. He cannot change the system of Romanism, and therefore we must understand that an appeal to him in this case would be merely a matter of form; but that this necessary refusal might be taken as a grievance, and made the fulcrum on which to rest a movement for ecclesiastic reform. Whatever be the issue of this proposal of the Italian priests, it may be hailed as another symptom of the disorganization of Popery on the Continent, and is at the same time a challenge and an encouragement to the friends of Italy to pour into that country a constant stream of evangelical instruction.—*Patriot.*

**NEW IRISH FISHERY COMPANY.**—The prospectus of a new Irish Fishery Company has been published. The Earl of Clarendon is patron, and a long line of noblemen form the committee. The following is an outline of the objects of the company and the measures proposed:—"To provide first-class boats from 41 to 70 tons for deep sea fishing, beginning with the most suitable localities on the western coast. These boats will be fully equipped, carrying apparatus for the take of sun fish. Each will be under the command of an experienced master and mate. Stations will be established at the most convenient points of the coast, to be supplied with all requisites for the company's boats, as well as curing-houses for the preparation and storage of fish. Regular markets will be held for the sale of fresh fish at the stations, and for the conveyance of supplies to the interior. The capital of the company is to be L.100,000, at L.25 per share.

**THE BISHOPRIC OF CORK AND CLOYNE.**—The Rev. James Wilson, D.D. Preceptor of the Cathedral of St. Patrick, Dublin, has been appointed Bishop of Cloyne and Cork, vacant by the death of the late Right Rev. Dr. Kyle. The income of the new bishop will not amount to L.2500 per annum, the compensation of L.1500 granted by act of Parliament, to the late bishop, on the annexation of the diocese of Cork and Ross to Cloyne, having lapsed to the ecclesiastical commissioners on his diocese.

**A MAD ELEPHANT.**—On Saturday a painful feeling was excited in Liverpool, by a report that the stupendous elephant Rajah, at the Zoological Gardens, had become outrageously mad, and destroyed two men, and was in the act of demolishing the house in which he was located. On learning the rumour we immediately proceeded to the gardens, where Mr J. Atkins, with this usual courtesy, expressed his willingness, to give every information respecting the unfortunate accident which had that morning taken place, but which had been, as usual, greatly exaggerated. The facts of the occurrence were these:—"On Saturday morning about 10 o'clock, Richard Howard, the keeper of the elephant, was in the den with Rajah. One of the holiday visitors from some of the neighbouring towns was in; the animal having displeased his keeper, was struck by him. Rajah resisted the blow, struck the man to the ground, and, crushing him with one of his feet, broke almost every rib in his body. The stranger immediately gave the alarm, but it was too late—poor Howard had ceased to live. Our readers have already been informed that Mr Atkins, the proprietor of the gardens, died but a few days ago, and that the management had devolved upon his son, Mr J. and Mr E. Atkins. The melancholy circumstance was immediately communicated to them. It was instantly determined that the animal

should be destroyed. Mr J. Atkins waited upon the mayor, and received from him an introduction to the commanding officer of the district, who at the request of Mr Atkins, immediately despatched a company of rifles from the barracks for the purpose of destroying the elephant. In the mean time several medical men had been consulted, including Dr O' Donnell, and Messrs Own and Cooper, surgeons, with the view of administering poison to the animal. Two ounces of prussic acid and 25 grains of aconite (monk's hood) were administered in buns and treacle. For a few minutes Rajah betrayed symptoms of sickness, but no other effect was visible, and he appeared soon after to recover his usual health and activity. After the lapse of three-quarters of an hour, it was deemed advisable to despatch him by shooting him. The house was ordered to be cleared of all save the soldiers, 12 of whom presented their arms. Rajah turned round when he saw the rifles presented at him, but on again presenting a fair view for a shot the pieces were discharged, and he reeled, uttering at the same time a loud growl. Twelve other soldiers immediately took the places of those who had fired, and, presenting their pieces, fired at the first fair opportunity. This brought the animal to the ground. Another body of soldiers entered the house, but it was found a vital place had been touched, and one of the most magnificent elephants in Europe, whose docility and intelligence had been the theme of admiration, was dead. After the melancholy accident, the elephant betrayed no symptoms of restlessness. He was tractable and quiet as usual, and the rumour that he had gone mad was, without the slightest foundation. He had been for about a dozen years in the possession of Mr Atkins, who paid L.800 for him when but very young, and his value at the time he was shot must have considerably exceeded L.1000.

**One of the Surgeons of the Army,** (who has since been dangerously wounded,) writing to a friend after the battle of Conterros and Churubusco, says:—"After operating, with my assistants, till three o'clock in the morning, I left the building of which I had made a temporary hospital, to take an hour's rest in the open air. Turned round to look at my amputating table; under it was a PERFECT HEAP OF ARMS AND LEGS; and, looking at myself, I found I was covered with blood from head to foot."

We learn with much pleasure, that Lord Blantyre has again allowed his tenantry a deduction of 10 per cent. from their rents, on account of the potatoe crop of 1847. His Lordship has twice done this act of seasonable and considerate generosity without being solicited; and we are assured his kindness is warmly appreciated by a body of men who have always had cause to regard his Lordship's house with affection and respect.—*Greenock Advertiser.*

**MEANS GRASS.**—Prof. Russell, of Hingham, Mass., has been experimenting with a new species of grass, which came originally from Syria, and is of the same genus as the broom-corn. Planted on moist rich land, it grew coarse, and reached the height of seven feet. It was recommended by Dr. Ward, of Georgia, as being suitable for soiling, as it might be cut several times in a season. Prof. R. left the roots exposed to the last winter, and we should be happy to hear how they stood the freezing.

Edward, Haley, Esq., who has been Cashier of the Frontier Bank, of this place, since its organization, has resigned his place, and has been elected Cashier of the Bank at Framingham, Mass., to which place he will soon remove.

Lorenzo Sabine, Esq. was elected as Mr. Haley's successor, but declined, and Charles H. Hayden, Esq., has been chosen to fill the vacancy.—*Eastport Sentinel July 12.*

SUMMARY OF NEWS.

The Mackerel Fishery - The Mackerel Fishery of New England has not for many years presented so gloomy a prospect as this season, as it does the present year. For a number of years the business has not been so good as formerly, and now that our fishermen have the British provinces to contend with in their own market, the business has looked despairing enough. The low rate of duty which the present tariff imposes, and the advantages which the people of Nova Scotia have over our fishermen to take the mackerel which flood their shores, enables them to bring to this country large quantities, at a great deal less expense than our fishermen can procure them—thus supplying the market and reducing the price to a very low standard. Last year they began to import mackerel from Nova Scotia about the first of September, and about fifty thousand barrels were imported—those that are imported now, we understand, are of this year's catch. Twenty-two hundred and seventeen barrels have arrived at Boston this week from the provinces, and should they continue to arrive through the season in such numbers, we do not see but that the business, so far as our fishermen are concerned, will be entirely prostrated. Under the tariff of 1842, the duty on mackerel was one dollar and fifty cents per barrel; now it is less than fifty cents per barrel!

Violation of the Passengers Act.—The Queen, on the complaint of M. H. Perley Esq., Emigration Officer, against Michael Hedigan, master of the schooner Hornet.

This case was heard on Friday and Saturday last, before B. L. Peters and Daniel Ansley, Esqs., when it appeared in evidence that the provisions put on board the Hornet, at Limerick, for use of the passengers (eighty-six in number) were bad and unwholesome—that the flour so called was not flour at all, but merely bran and refuse, quite musty—and that the oatmeal had been of passable quality, but was mixed with dirt and grit. At the close of the evidence for the prosecution, Capt. Hedigan threw himself upon the consideration of the magistrates, stating that Mr. Bannatyne, of Limerick, the owner of the Hornet, engaged the passengers, and put the provisions on board himself—that the provisions having been inspected and passed by the Emigration Officers at Limerick, he, the Captain, conceived that no responsibility could rest upon him, but now found otherwise, and hoped to be dealt with leniently.

It was proposed that compensation should be made to the passengers for the deficiency of provisions and Capt. Hedigan then settled in a satisfactory manner with every passenger on board. The Magistrates taken this into consideration, and that the conduct of the Captain during the voyage had been kind and considerate, with the assent of Mr. Perley mitigated the penalty to Five Pounds sterling and costs.

We have seldom heard of a more barefaced attempt than this to impose upon emigrants, and we trust that the Irish newspapers will give such publicity to this case, as will prevent Mr. Bannatyne of Limerick, from being again able to obtain passengers for his vessels.

We understand that such a representation has been made to the Government as will render it necessary for the Emigration Officer at Limerick to explain satisfactorily his part in the transaction.—New Brunswick.

RETIREMENTS.—H. Bowyer Smith, Esq., late Collector, is placed on the retired List; and Messrs. Stringer and Walker on the Redundant List. James Sayre, Esq., late Sub-Collector at Dorchester; goes on the Retired List. Henry Wright, Esq., late Sub-Collector at Miramichi, is placed on the Redundant List.—Ibid.

Marine Assurance Company.—On Monday last the annual meeting of the Stockholders in this Company was held at their Office in the Commercial Bank Building in this City, for the choice of Directors for the ensuing year, when Messrs. James Kirk, John Wishart, Thomas Leavitt, John Ward, John V. Thurgar, F. A. Wiggins, W. H. Scovil, D. J. McLaughlin, and Wm. Parks, were re-elected. At a subsequent meeting of the Directors, James Kirk, Esquire, was unanimously re-elected President.—Courier.

Fredericton, July 15.

His Excellency the Lieutenant Governor has, we understand, within a few days, had a regular Bush excursion to the northward.—On the 21th, he left Fredericton, accompanied by Lieut. Col. Hayne, A. D. C., and his Private Secretary, Mr. Pennefather, and proceeded to the New Brunswick & Nova Scotia Company's principal settlement at Stanley. On the 26th, his Excellency passed through the woods in a direct line, to the head of the Miramichi Lake, a distance of about 23 miles. On the following morning, the party crossed the Lake in canoes, which had been placed in readiness for the occasion, and descending by the "Little Brook," entered the Southwest branch of the Miramichi River, forty five miles above Campbell and Boiestown, which latter place the party reached on the 29th and returned to Fredericton on the following day. In addition to the expense of travelling through woods as yet unnumbered with roads, which his Excellency has gained, he has also we learn, seen the route marked out by the recent survey, for the Halifax and Quebec Railway, and several other important stations in the northeast part of the Country, including the intended site for Bridging the Southwest Miramichi.

His Excellency camped out four nights, and is the first of our Governors—at least for many years, who has had such practical knowledge of the wilderness in its original grandeur, and with its great natural capabilities for the purposes of future civilization. He is also said to be an expert disciple of old Isaac Walton, but although he made the trial, the salmon showed no disposition to be caught even by the Representative of Majesty.

New Brunswick is justly proud of being an appendage of the British Empire, but her people often feel annoyed at their valuable and extensive Territory being set down in England as a mere stepping stone to the Province of Canada; and we believe that much of the ignorance which exists on this subject, may be traced to the sedentary habits of many of her former Rulers, who, if they only could find things comfortable in the vicinity of Government House, gave themselves little trouble to acquire more general—at least practicable—knowledge. The extreme ignorance which exists on the other side of the water, in relation to the extent of New Brunswick, cannot be better portrayed than in the story at present going the rounds of the English Papers, namely, that the Mail-carriers first take the letter portion of the Mails from Halifax to Quebec, and then return—of course stepping across New Brunswick—for the newspapers!—Reporter.

Fire.—On Monday evening last, a little before twelve o'clock the alarm of Fire was sounded in our streets, and the troops and many of the inhabitants proceeded in the direction of the light, which was found to come from a barn belonging to the estate of the late Attorney General, at Ethiopea, about a mile and a half below this City.—The barn was completely consumed, with its contents before any assistance could be rendered.—Head Quarters.

Lotus from Newfoundland.—The Steamer Unicorn arrived on Sunday afternoon, with dates to the 16th inst.

The most favorable accounts, says the Courier continue to be received of the success in the Cod-fishery. From the northward, in Trinity and Bonavata Bays as well as in the Green Bay and its vicinity, there has not been such a good fishery for many years. To the south and westward also the catch is much greater than for several years past; and the inhabitants of the colony have now every prospect, after several seasons of severe privation, of being again blessed by an all bountiful Providence with an ample supply of all the necessaries of life.

The papers complain of much existing destitution among the inhabitants of the outports.—Nova Scotian.

PROVINCIAL APPOINTMENT.—James Buchannan to be Commissioner to expend £25 for the Canoose Bridge, at Saint James, Charlotte.

GOVERNMENT NOTICE.—Her Majesty has been graciously pleased to direct that the Hon. Colonel Shore, Hon. Thomas Baillie, and the Hon. Hugh Johnston, shall retain the honorary distinction and precedence which they lately held as Members of Her

Majesty's Executive Council in this Province.

The Niagara arrived at Boston on Wednesday morning, in 19 3/4 days from Liverpool. The Captain left Boston the same day at one o'clock, with forty-one passengers for Liverpool and five for Halifax.

Provincial Board of Education, Fredericton, July 7, 1848.—It is determined that fresh applications from Females for Parish School Licences should be entertained; and that a Certificate of moral character from the Clergyman or Minister of the Communion to which the applicant belongs, nearest her residence, together with a Certificate of Competency from two or more members of the late Board of Education for the County in which she intends to commence Teaching, be the indispensable accompaniments of the Petition to His Excellency the Lieutenant Governor, but not necessarily sufficient to ensure a Licence. By order of the Board. J. GREGORY.

We understand, says the Prince Edward Island Royal Gazette, that His Excellency the Lieutenant Governor with the praiseworthy intention of ascertaining to what extent destitution exists among the settlers; has been engaged during the last week in visiting several Settlements within twenty miles of Charlottetown, accompanied by the Hon. T. H. Haviland.

ELECTRIC TELEGRAPH.—The New Brunswick, says the Boston Post learns from J. R. Darrow, Esq., one of the agents of the enterprise, that the construction of the Telegraph from Pageland to the boundary of New-Brunswick, at Calais, to connect there with a line to Halifax, is to be commenced forthwith. The following intermediate towns have arranged for stations.—Bath, Damariscotta, Waldoboro', East Thomaston, Belfast and Bangor. The line will be completed the present fall, and before the opening of winter. The Provincial line to Halifax is to be constructed simultaneously with that in Maine. This will bring intercourse with Liverpool, on an average, two days and a half nearer Boston than at present.

The duties of the Grammar School will be resumed on Monday the 24th inst.

Mr. Kent, pilot, informs us that the Barque Britain, Pickins, from Boston bound to St. John ran ashore in a thick fog on Moose Pecca shooting place, on the morning of the 15th inst.—unshipped her rudder, parted her chain, and lost an anchor; she floated off next morning, her hold to the lower deck beams filled with water. The master endeavored to ground the Barque on a sand beach, but failed in doing so, and brought her to an anchor where she lay on Tuesday.

It is stated in the Montreal papers, that the brother of Mitchell would arrive in that city in a few days. A preliminary meeting had been called for the purpose of adopting measures to receive him.

**TRUSTEES**—(with a Seat at the Board)—Wm. Wright, R. F. Hazen, and H. Chubb, Esqs. **DIRECTORS**: Charles Dury, George Wheeler, Charles E. Raymond, James Poyntz, William C. Bonham, John C. Littlehale, John H. Gray, Samuel Haythorn, James Agnew.

**BANKERS**—Bank of New Brunswick. **SECRETARY & TREASURER**—Mr. C. L. STREET, George D. Street, Esq. Agent, St. Andrews, Alexander Campbell, Esq., Agent, St. Stephens.

THIS SOCIETY is established on a mutual simplified system—the most approved in England; and founded on a basis so sound as to give the most effectual security to its members.

- THE OBJECTS OF THIS SOCIETY IS—  
1st.—To enable persons to become their own Landlords, and purchase Freehold or Leasehold Property, by advances made by the Society (£200 positively advanced for £300 a year for eleven and a half years, which sum pays both principal and interest. Other sums in proportion.)  
2ndly.—To provide a safe and profitable Fund for SAVINGS, or Investments for small or large sums of money. (This Society offers opportunities in this respect which no other Institution in this Province can do.—Savings Banks only pay 5 per cent. whereas this Society pays 6 per cent. Compound Interest.)

**THE OTHER IMPORTANT ADVANTAGES ARE—**

- 1st.—No money is lent but on security of Real Property.  
2d.—New Members are admitted up to the time the Society will end, with equal proportionate advantages.  
3d.—Any Member may withdraw the amount of his Shares at any time after the first year, with the compound interest thereon. Shares may be transferred at any time.  
4th.—Members may have their MONEY IN PAID UP SHARES which will necessarily be doubled £200 at the commencement being worth £120 at the conclusion.  
5th.—Mortgages can be repaid at any time with proper notice.  
6th.—The Accounts and Book kept are open for the inspection of members at every monthly meeting.  
7th.—Securities given by all Officers of Trust.

The Board of Directors in St. John have the GENERAL MANAGEMENT of the Society—but for the purpose of accommodating persons resident in other parts of the Province, BRANCH OFFICES, or AGENCIES, are formed—where Shares can be obtained, and all the payments made, in the various districts; and Local Boards of Management will be established as soon as the number of Shares taken in any district render it advisable.

The FUNDS are procured from the Monthly Subscription of the Members, and also from Money invested in Paid up Shares, which will always ensure ample means for meeting the advances required.

The PROFITS are certain, because the amount paid by the borrower, for an advance, must necessarily form the fund for paying the lender.

The EXPENSES of the Society are small, as the Officers act gratuitously, with the exception of the Secretary and Treasurer.

The FEES and FINES form a Contingent Fund out of which the expenses are paid, and the balance, which will be very considerable, will go into the general Fund, which will lessen the duration of the Society.

Every information, with copies of Prospectus, Rules, &c. can be obtained on application at the Office of the Society or at the Offices of the Agents. By order of the Board, CHARLES L. STREET, Secretary & Treasurer Prince William street, St. John, N. B. December 25, 1847.

**NOTICE.**

A Meeting of the Stockholders of the Charlotte County Bank, will take place at their Banking House on Monday the 1st proximo at noon, to elect Directors and take into consideration such matters as may be laid before them. J. RODGER, Cashier. C. C. Bank, 3d. April, 1848.
