RELEASED BOERS

The Blaze Started at Six No. 3 section, Young street hall. Married men—Collard and Clark, leave three or four children. It was at first feared that seven men had met death, but after a roll call of the sections of the brigade who

were fighting the fire, Chief Thompson announced that the five named were all the dead. THE BURNED PREMISES. The premises destroyed were the huge storage and grain cleaning warehouse of D. McIntosh & Son on Front street. The building, which was formerly a street railway car barn, was over 444 feet long by 68 wide and the

walls were about 30 feet high with a flat roof. The fire broke out at 6:15, and as the materials stored in the building were inflammable, it burned with great rapidity. The various sections of the brigade were scattered around the walls and many men were on ladders

and on the roof when SIGNS OF COLLAPSE were seen. Chief Thompson ordered the men on the ground close under the walls to go back and two of those billed were caught by the falling walls because they did not at once respond to the chief's orders.

At 6:40 the walls of the big building, released from the support of the roof trusses, gave way in all directions. Dozens of firemen were on ladders all around the building and they FELL WITH THE WALLS, but the only men buried beneath the debris were firemen attending to hose

lines and hydrants on the ground who did not get warning in time to save When the walls collapsed the fire was in a measure smothered and a large part of the brigade at once turned

WORK OF RESCUE. Only one of the men buried beneath the walls was rescued alive, a fireman named Taggart. By 9:15 all the bodies were recovered and removed to the morgue.

that may result fatally, was due to Charles S. Soplis, of the Parkdale reel, was thrown from the wagon while galloping to the fire, and the wheels passed over him, breaking his

back. FINANCIAL LOSS. The financial loss will be very great, but so many interests are involved that no definite statement is yet available. The destroyed warehouse was one of the largest storage places in

Toronto. The buildings were owned by the Toronto Railway and leased to Mc-Intosh & Co. The building assessment was \$28,000, insurance \$27,000 in about 30 companies. The McIntosh & Co. loss on grain, hay, etc., is \$40,000. They also loss \$30,000 worth of machinery, which is a total wreck.

The Royal and Atlas are the chief insurers on the building and contents, carrying risks of \$55,000, some of which it is understood were reinsured. Gowans, Kent & Co., wholesale crockery, had \$20,000 worth of goods in the building, insured for \$17,500. There are some 50 smaller losses or

The Short Supply of Cotton the Main Trouble—Discovery of a New Element.

London, July 10.—The cotton crisis in Lancashire is growing more acute, and the trade regards a heavy reduction of the output as being its only salvation.
A meeting has been called for July 11 to consider the replies to circulars advocating joint action of the spinners in resorting to short time, as was done during the last two summers. The general opinion is that a curtailment of the production on even a more extensive scale than heretofore will be

necessary to avoid heavy losses.

President Charles W. Macara, of the Masters' Federation, says the short supply of cotton and the big discount in the price for future delivery are the main causes of the crisis. He declares that speculators have secured posses sion of the raw material and that the firms running ful ltime are playing into their hands. The only hope for the Lancashire cotton industry is for the trade to act unanimously.

The rays it emits are something like those of the metal radium, but differ in being almost completely absorbed by paper, as well as by glass. Prof. Mackwald has proved that a porcelain tube heavily charged with electricity by rubbing immediately lowers its charge when morsel of this metal, weighing hardly a milligramme, is brought within a distance of one decimeter. A chemical analysis of the new metal is rendered very difficult by the fact that

Colonial Premiers and Indian Princes Guests of the Regatta Officials.

Henley, Eng., July 10.-Unsettled weather somewhat marred the spec-tacular features of the closing day of the regatta, but it in no way diminished the attendance. In the final for the Diamonds, F. S. Kelley, Balliol College, Oxford, repeated his surprise of yesterday by gaining an unexpected victory over R. B. Etherington-Smith, Leander. The later had the favored station, and led for a while, but the Oxonian gradually wore him down. At Fawley Court, which was reached in 4 minutes 14 seconds, Smith was a quarter of a length to the good. But by the time the mile post was reached Kelley was level, and being able to keep up forcing tactics, gradually drew clear, and ultimately won easily.

The Irish crew lost the heat for the Thames Cup through a similar disadvantage of position, and Titus was equally unfortunate in having the worst water and in being beaten in the heat for the Diamond Sculls, although he was generally regarded as a superior oarsman to Kelley. Dr. Hutchinson presented B; supplied by Blaney. his semi-annual report of his inspection of herds and dairies, and the qualities of the milk supplied by them in the city of London, for the six months, ending May 31, 1902. As heretofore, the herds and daines are classed A, B and C, according to merit. The milk is divided into three classes, determined by the percentage of butter fat. That containing 4 per cent and over is placed in the first class, or No. 1; that containing 3.5 to 4 per cent is second-class, or No. 2; and that of 3 to 3.5 per cent is third-class, or No. 3. The average percentage of butter fat of all the samples collected by Inspector Lutman and given to Dr. Hutchin-son for examination was 3.99, a very good one for this season of the year. Twenty-nine herds and dairies are now in the first class, an increase of nine since last inspection. One hundred and thirty-two persons, exclusive of those employed by the Sanitary Dairy Company, are engaged in supplying milk to the city. Ten thousand quarts are sold in the city daily, compared with 9,000 a year ago. The list of dairies and their standing

"I expected to become a mother, and a threatened mischance greatly weakened me," writes Mrs. E. A. Nations, of Witts Springs, Sezrcy Co., Ark., "and my old disease returned. My husband got another doctor for me but I seemed to just drag along and get no better. At last I told the doctor that if his medicine did not help me I would go back to Dr. Pierce's medicines. I did so, and by the time I had taken them one month I could do my own housework, except washing, and tended my garden too. I was stonter than I had ever been while waiting baby's coming since my first baby came (this one was the sixth child). Dr. Hutchinson presented a wellprepared report of the tuberculosis convention held at Ottawa on April 17 and 18. After reviewing the work of the convention, Dr. Hutchinson summed up the results of its deliberations as follows: That tuberculosis is contracted and

not inherited, that it is curable in from forty to sixty per cent. of the cases when cared for in properly conducted sanatoria, and that sanatoria for the treatment of tuberculosis are not a danger to the community in which they may be situated. The well-founded belief now of medical men that consumption is not inherited, except through milk from an infected mother, must have an important bearing upon life insurance. The old idea of hereand incurability should abandoned, as it is now recognized to be a communicable and curable disease. That an open air life, sufficient exercise, nourishment, rest, sleep, and the avoidance of excesses made the human body resistant to the disease germs, and that according to Pasteur it is in the power of man to cause all parasitic diseases to disappear from

THE YEARLY CLEAN-UP. Inspector J. W. McCallum reported hat the house and yard inspection for the current year had been completed, with the following results: Premises visited, 9,074; closets reported unclean, 1,384; yards reported unclean, 288. The orders for cleaning have all been acted upon with a few exceptions. The number of days occupied in inspecting was 143½, which at \$1 50 per day made the cost \$215 25. The report was adopted.
Mr. McBride brought up the question of inspecting the different store premises. He said that in many of the business places in the center of the city the socalled sanitary conveniences were in anything but a sanitary state. He instanced several business places and said many more would be discovered on inspection. On motion it was ordered that Inspector Lutman make a systematic inspection of all stores, and order the

cleaning of all places not in good sanitary condition.

OTHER BUSINESS.

A letter from Mrs. E. R. Yarker, A letter from Mrs. E. R. Yarker, corresponding secretary of the local council of women, forwarded to the board from the city council, asked for the passage of a bylaw to prevent the contamination of fruits, fish, veget-ables and other articles of food exposed for sale in front of stores. The matter was referred to Chairman Taylor and M. H. O. Hutchinson, who will consult the city solicitor and as-certain the city's power to enact such A motion was passed asking the city

council to pass a bylaw regulating the use of cheeks or coupons for the sale of milk and bread. Dr. Hutchinson reported that the hitherto filthy lane, running north from King street, east of Richmond, was being graveled and put in pro-

AGED FARMER SWINDLED

York County Man Confidenced Out of \$5,000-An Old Game.

Toronto, July 9. — One of the most heartless of recent "confidence" swindles has just come to light, involving the loss of the savings of a lifetime. Silas Toole, the victim, is an electron of Whiteold and respected farmer of White-church township, York county. A week eral, and M. P. for North York. They were looking around for farms for investment, and Toole's farm had so favorably impressed them that they were willing to pay \$10,000 for it. A bargain was struck, and the young men said they would return in a few days to make the transfer. They asked that in the meantime Toole keep careful watch over a satchel they would leave with him containing the purchase money. Toole said he would, and after showing him what looked like a large roll of bills they locked the bag and handed it over to him. Late the same day they called again, and said they had made a bargain to buy the farm of Joshua Wilson near by for \$5,000. They had not the price with them, however, and asked Toole to advance the money till they got back to the city.

The poor old man, thinking

had \$10,000 of their money in his keeping, actually went to Newmar-ket, drew out \$5,000, and handed the money over to the rogues. Three days ago, hearing nothing from them, he opened the satchel left in his care, and found that he had been swindled out of a lifetime's savings. He came to the city today and gave Inspector description of the men. It has afforded no clue to their identity.

WRECKED JAIL WALL

Prisoners Used Dynamite and Made a Futile Dash for Liberty.

St. Joseph, Mo., July 10. - James Spettigue Bros., Westminster—C, 1; Blade, Leck Allen and James Murray, this herd and dairy barely got into prisoners in the Buchanan county jail, wrecked the rear wall of the jail building yesterday with a powerful charge of dynamite. Then they made a flerce fight for liberty, but the guards beat them back with Winchesters. Seventy-five prisoners are confined in the jail, most of whom mad no effort to escape. Those who did were clubbed into submission. No one was injured, although the explosion was felt

several blocks away.

Blade and Allen are under sentence for highway robbery, and Murray is a government prisoner. They are now chained to the floors of their cells. Other prisoners were told what was to happen about five minutes before the fuse was lighted, and on the advice of the leaders they sought safety in their The jailer was at dinner in ancells. other part of the building. Until the damage to the jail and the court house can be repaired a large armed guard will be necessary to restrain the prisoners.

WILL EXPEND \$100,000,000!

Pennsylvania Railroad Making Costly Improvements.

DEPOT TO COST \$8,000,000

Four Tracks, Magnificent Roadbed, Sans Grade Crossings, Mile-a-

Minute Speed.

Philadelphia, July 10. - President Cassatt, of the Pennsylvania Railand his associates expect development in the transrapid portation business in the near future, and are accordingly preparing the Pennsylvania system with improvements which will cost not less than \$100,000,000 in the next three or four years. The entire road between New York, Philadelphia, Baltimore, and Washington, Cleveland, St. Louis and Cincinnati is being practically rebuilt, with four tracks from New York to Pittsburg, double tracks on the western system and between Philadelphia and Washington. Grades are being reduced everywhere, curves straightened, new rails, weighing 100 and even 120 pounds to the foot are being stone ballasting is being put in and other improvements made for the promotion of economy and speed.

The distance from New York to Washington is now made in five hours. As soon as the improvements are completed it will be made in four hours. The ordinary running time between New York and Chicago is now 24 hours, and a new train was recently put on to make it in 20 hours. Within a year or two this will be reduced to 18 and perhaps to 16 hours. The latter will require a steady gait of a mile a minute - that is, 986 miles in 986 minutes, which at present is beyond the speed of any

long-distance train in the world. ENORMOUS EARNINGS. Last year \$10,529,735 was expended on the lines east of Pittsburg. About \$7,000,000 was spent for new equipment also. The total gross earnings of the Pennsylvania system of 10,485 miles for the calendar year 1901 were \$198,626,878 14, an increase from 1900 of \$23,390,524 44. The net earnings over and above all expenses were \$64,913, 491 89, an increase of \$10,175,414 38. During the year 243,408,035 tons of freight were carried, an increase of 24,331,658 over 1900, and 104,471 301 passengers, an increase of \$20,794,800 over the previous

year. NO GRADE CROSSINGS. When the scheme is complete there will be no grade crossings in any of the cities or towns of importance, between New York and Washington. tracks are elevated upon solid mbankments of earth, sustained by heavy stone walls, and the track will be laid in ballast of broken stone, probably the most expensive roadbed in the world. The elevation of the racks make new stations necessary in nearly all the towns south of Jersey City, which will be of the highest order of architecture, of substanial materials and up to date. Newark, New Brunswick, including bridge across the Raritan, \$5,000,000 has already been spent. The New Brunswick bridge has 21 arches of

stone, with four tracks, 1,500 feet long, 7 feet wide. FOUR-TRACK BRIDGE. At Trenton the track is being elevated and a new four-track bridge of stone across the Delaware has been built, which has 18 arches, 1,270 feet long and 54 feet wide. The improvements at Trenton cost \$3,000,000. At Philadelphia almost the entire system of terminals is being reconstructed, including two new over the Schuylkill, several tunnels and a new double-decked station at the corner of Market and Thirtyfourth streets, so that through trains Broad street station, as at present. Every possible curve and grade within the limits of Philadelphia has been eliminated, and there are no more grade crossings. The improvements in Philadelphia will cost not less than

\$3,500,000. At Camden similar improvements are going on, and at Wilmington and Chester the road is being entirely rebuilt. The cost at Wilmington will exceed \$5,000,000.

FINEST IN THE WORLD.

The company proposes to spend \$8,000,000 in Washington erecting the finest railway station in the world, of white marble and of architecture cor-responding to that of the capitol. It is intended to be an appropriate gateway to the seat of the nation. Daniel H. Burnham, the famous Chicago architect, is now drawing the plans. It is to be a union station, and will stand on Massachusetts avenue, about half way between the capitol and the government printing office. It will be

reached through tunnels, all grade crossings being eliminated.

The new stone arch bridge at Harrisburg is the largest in the world, 3,970 feet long and 52 feet wide, with 48 arches. It cost about \$1,006,000 and consumed 200,000 tons of stone. The company has already spent \$5,000,000 in Pittsburg and will spend as much

more before the new freight ter-minals are completed.

Corresponding improvements are contemplated at Chicago, but the plans have not been announced. It is known, however, that a new union station will be erected on Canal street, more than three times as large as the present one.

JULIA ARTHUR ILL

The Noted Actress Must Undergo Operation for Appendicitis.

Boston, Mass., July 8. - Mrs. B. P. Boston, Mass., July 8. — Mrs. B. F. Cheney, formerly well known on the stage as Miss Julia Arthur, who has been ill for some time, will be operated upon today for appendicitis. The operation will be performed at the Cheney residence, the Capstani, on Great Brewster Island, in Moston Harbor, by Dr. Maurice Richardson,

of this city. Mrs. Cheney had refused heretofore to have the operation performed, but was recently informed that it was imperative that she should do so.

Womanly Troubles

SHOULD NOT BE ALLOWED TO UNDERMINE HEALTH AND BEAUTY, BUT SHOULD BE TREATED AT ONCE BY FERROZONE.

It is impossible to go into details on this subject, but the experience of many a poor woman who is crippled for life, just because she didn't use a good remedy in time, should be a warn-

ing to others. When the first stages of womanhood appear in a young girl, a great deal depends upon getting her over this critical stage, so that in years to come she will not develop green sickness or

consumption. As soon as she complains of flushed face, headache, bearing down feelings, give her at once a course of Ferrozone treatment, which will carry her past

Maggie Finn was 15 years old last September. She is one of seven children of Mrs. Mary Finn, a widow. The family lives at No. 855 Green street. Maggie is next to the oldest child, and takes care of the other children while the mother does housework outside to support the large fatherless family. Maggie looks like a mere child, being

no larger and not appearing older than the average girl of 15 years. The mother, a large woman, of neat appearance, took the stand. She said that about 1 o'clock in the morning of the 16th, alarmed at the absence of her daughter, she started out to look for her. She took their dog. The dog ran to the vacant lot near by and barked. She went back to the 'ot. There she found her daughter lying on the ground, with a handkerchief across her mouth and around her head. She tried in vain to arouse the little one. She was unconscious. The mother half-carried, half-dragged the girl home. The girl came to herself at 5 o'clock in the morning and told

AN ITALIAN CAPTAIN

Cured by Pe-ru-na of Catarrh of the Stomach After Doctors Failed.

Hon. J. D. Botkin, Congressman From Kansas, Writes an Interesting Letter.

Capt. O. Bertoletto, of the Italian parque Lincelles, in a recent letter from the chief office of the Italian barque Lincelles, Pensacola, Fla., writes:

"I have suffered for several years with chronic catarrh of the stomach. The doctors prescribed for me without my receiving the least benefit. Through one of your pamphiets I began the use of Peruna, and two bottles have entirely cured me. I recommend Peruna to all my friends."--0. Bertoletto.

In catarrh of the stomach, as well as catarrh of any part of the body, Peruna is the remdy. As has been often said, if Peruna will cure catarrh of one part, it will cure catarrh of any other part of the body. Catarrh is catarrh wherever locat-

ed, and the remedy that will cure it anywhere will cure it everywhere.

The following letter from Congress-man Botkin speaks for itself: House of Representatives,

Washington, D. C. Dr. S. B. Hartman, Columbus, Ohio:

My Dear Doctor,—It gives me pleasure to certify to the excellent curative qualities of your nedicines runa and Mana-I have been afflicted more for quarter century with catarrh of the and constipation. A residence in ton has increase these troubles

D. Botkin. This is a case of catarrh of the stomach which had run for 25 years, according to his statement, and Peruna has at once come to his relief, promptly accomplishing for him more benefit than he had been able to find in all other remedies during a quarter of &

It stands to reason that a man o. wealth and influence, like a congress. man of the great United States, has left no ordinary means untried and no stone unturned to find a cure.

If such cures as these do not verify the claim not only that dyspepsia is due to catarrh of the stomach, but also that Peruna will cure catarrh of the stomach, it is impossible to imagine how any evidence could do so.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case.

London, Thursday, July 10.

The L. and P. S. R.

In the past two years the city has suffered a clear loss of at least \$8,000 by the rejection of the proposed new arrangement with the Walkers. Not only that, but the municipality is now involved in a dispute with the L. E. and D. R. R., requiring special audits, expert accounting, and a resort to arbitration, which will run up a pretty bill of costs. The argument for rejecting the new agreement was that the city's percentage of the L. and P. S. the extra fixed rental which the Walk- ments. ers agreed to pay in return for an extension of the lease. If this were a certainty it would be highly gratifying, but is there any assurance of Buch a remarkable expansion of traffic on the road? With the spread of radial railways, which are now being projected in all parts of the Province, It is probable the L. and P. S. R. will be exposed in the near future to serious competition. Against this the city with the prospect of the road changing hands twelve or thirteen years from now. Under a 30-year lease, also, they would have a stronger inducement to make considerable expenditures at Port Stanley, and in other directions, superintend and finance the constructhey cannot get the desired extension they prefer to spend their money in building up Rondeau and other por-

tions of their system. Our local contemporary, the Free Press, was a strenuous advocate of the new agreement before the municipal elections, but crawled away from the subject when the mayor so peremptorily threw it overboard. The Free member, Mr. W. J. O'Brien, of Ren-Press now comes back to it after frew, is a contractor. Aside from the many days, and argues that after all a fixed rental would be better than the percentage system. Does this foreshadow a change of policy at the City Hall?

Light Literature.

The agitation for a high postal rate on United States periodicals coming into Canada is being renewed. It might inure to the profit of a few Canadian publications to check the flood of cheap American literature, but how can this be done without inviting retaliation by the United States postal authorities? Many of the American magazines are light and frothy, but some of them are of the highest excellence and if postal rates are to be raised all must be treated alike. The superior magazine cannot be put in one class of mailing matter and the inferior magazine in another. They must pay according to quantity not quality. In the estimation of the postoffice literature is "light" according to its weight in ounces. The cheap American magazine may not be the best mental pabulum, but it is not necessarily harmful. Fault of taste is all that can be charged against its votaries, and we do not know that literary tastes can be elevated by postoffice regulations. It is complained that some of the American periodicals are offensively anti-British and have "a weakening effect on national and imperial sentiment," as one journal puts it. Is Canadian patriotism so flabby as all that? We think it would he hard to name an anti-British publication which has any constituency in Canada worth talking about. However, we should like to see high-class British magazines show more interprise, instead of leaving the Canadian field almost entirely to American contemporaries. The former are handicapped by heavy postal rates, but this is largely the fault of the British postoffice, which has refused to meet the Canadian department half way.

Agriculture in the Northwest. The report of the agricultural de-

partment of the Northwest Territories or 1901 has just been issued and is a theering publication. The marvelous Increase in production in 1901, as compared with the previous year, will probably be surpassed by this year's record, owing to the swelling tide of immigration. The yield in the three great cereal staples in four successive Above the violets that kiss the stone. years was:

The crop of 1901 was a magnificent one, the average yield per acre in wheat being 25.37 bushels, in eats 42.88, and in barley 32.18, as compared with 9.75, 24.08 and 32.18 respectively in great practical benefit by promoting

The refusal of the British Government to suspend the constitution of Cape Colony shows that the Imperial authorities are wiser and more tolerant than some of the loyalists in South Africa. It is an earnest of the spirit in which the Government intends to

work out the policy of reconstruction.

The suggestion of a coalition in Ontario cannot be taken seriously. Ta: crisis at Confederation induced an arrangement of this kind at Ottawa, and the same influences also led to a combination of Liberals and Conservatives in John Sandfield Macdonald's Government in Ontario, of which our fellow-citizen, Sir John Carling, was a member. Both of these coalitions disappeared with the emergency which would be protected by the proposed called them into existence. The party extension of the lease at a fixed system is too strongly rooted among rental. At the same time the Walkers British peoples to allow of coalitions, would have a greater stake in the suc- except under extraordinary circumcess of the L. and P. S. R., and would stances. The Ontario Government has appointed four out of the five members who will compose the commission to so as to develop business, but since tion of the new Temiscaming Railway. The appointments disarm all criticism. The chairman, Mr. A. E. Ames, is a prominent Conservative, the president of the Toronto Board, of Trade, and one of the leading financiers of Canada. A second member is Mr. E. Gurney, the stove manufacturer, also a Conservative. Mr. B. J. Folger, of Kingston, is a man of great experience in the forwarding business. The fourth undoubted qualifications of these gentlemen for such a work, it is gratifying to note that the Government has made the commission strictly non-partisan. This is a favorable omen for the success of the new undertaking, and shows that the Government has no desire to make this large expenditure of money serve party ends. The road is to be a business, not a political, proposition. Other Government railroads have not always been the same.

Profaning the Language.

the above should be given six months in jail. Is there to be nothing sacred in our language? We can see nothing humorous in twisting some of the noblest lines that have ever been written and that are among the most priceless possessions of the race into twaddle of this sort. Mr. Kiser is in a class with the man who thinks it a great joke to steal into an art gallery and put red paint on the nose of the most beautiful and the most highly prized statue in the place.

The Old Oaken Bucket. [Samuel Woodworth.]

Samuel Woodworth was born at Scituate, Mass., in 1785, and was the son of a farmer and revolutionary soldier. He had no educational advantages until taken by a clergyman, who had read some of his poetical writings, and who gave him instruction in the classics. His "Old Oaken Bucket" will always hold its place among the choicest songs of America. Woodworth died in New York in 1842.

LONDON RINK MET DEFEAT

In Dominion Lawn Bowling Tour ney at Toronto.

Granites Won the Third Round of the Cup Series.

Toronto, July 10 .- Rain yesterday delayed the continuation of the Dominion bowling tournament at the Yacht Club for a couple of hours. The programme for the day, however, was carried out with just this delay, that the last series of games scheduled for yeterday were postponed until 9:30 this morning. This will require the games today to be played promptly in order to complete the tournament as expected. Two rounds in the cup competition were completed, reducing the contestants to eight. The Granites and Guelph continued their success, and have still two representatives each in the contest. The eight rinks are: W. A. Cameron and W. J. McMurtry (Granite), R. H. Brydone and D. E. Macdonald (Guelph), J. N. Laird (Brampton), C. Boeckh (Canada), W. How oft he held the wrist to mark the R. Mosey (Toronto Thistles), and G. C. Biggar (Victoria). These play their next round at 11:30 this morning. Go Out on Strike-Welsh Colliers Resume.

Toronto, July 9.-With an increase of 75 per cent in membership dur-ing the triennial term, just closed, it was natural that a buoyancy of tone should characterize the address of President Martin Fox, of the Ironmolders' Union of North America, presented to the convention assempresented to the convention assembled in the city hall yesterday. Three years ago at the Indianapolis convention there were 279 delegates; this year that number is just about doubled, according to the report of the credential committee. The increase in membership, President Fox stated, approximated 20,-000, and during the three years 158 new charters were granted, of which 31 had lapsed.

Speaking of the results of organization, the president showed that molders' wages had advanced from 18 to 20 per cent during the triennial term, and said he believed that members of the Ironmolders' Union today were enjoying better wages and better condi-tions than they had done at any time during the past 25 years. He believed that wage agreements covering & specified time were desirable. They insured a period of peace for the proof the work of the union and introduced an element of certainty into the industry which was of positive value to both the molder and his employer.

TORONTO STREET CAR MEN. Toronto, July 10 .- Inquiries made at yesterday regarding alleged dissatisfaction among the men, as a result of some employes being laid off, elicited the information that certain employes interviewed President Mackenzie and General Manager Keating, and their claims were gone into carefully. Appeals were made against the decision of the roadmasters, and the result of the interview was that some men were confirmed in their complaints and others were sent back to their cars, pending judgment.

TROUBLE AT OTTAWA. Ottawa, July 9.-There is considerable discontent among the electric railway employes on account of a rumor that their committee appointed to ask for an increase in wages been refused their demand. meeting of the railway men has been called to discuss what action will be taken. Superintendent J. E. Hutcheson says the demand of the men has not yet been finally disposed of. said there was no ground for the prein hour to 18 cents an hour on week

The men want a raise from 15 cents days, and from 17 cents to 20 cents an hour on Sundays. Overtime is paid on the Sunday scale, and the men want an increase in this also. Unless ome compromise is made a strike is imminent. STRIKE THAT FAILED.

CHICAGO STRIKE SETTLED. Chicago, July 9. — The strike of the freight handlers is virtually settled. Meetings of the strikwill be held tomorrow, to catify the action taken today by President Curran, of the order, out, as he stated tonight after a conference with the general man-agers of the railroads that he had agreed to their terms because the majority of his men were "going back" on him, there is little doubt that the terms will be accepted by the mass eeting of the strikers tomorrow. By the terms of the settlement, the trikers accept the schedule of wages offered them by the railroads July 1. 12, Toronto, Ont. This schedule was emphatically refused by the strikers at the time it was made. It offered an average increase of 20 per cent for all classes of labor connected with the Freight Handlers' Union. The demands of the men would have made an average increase of about 30 per cent.

> London, July 10 .- Hearing of the charges brought against Prince Francis Joseph, of Braganza, who was a member of the Austro-Hungarian mission to the coronation of King Edward, and other men in the Southwark Police Court, attracted much attention. Sir Edward Clarke, the former solicitor-general, defended the prince. The prosecutor altered the charge from "felony" to "misconduct under the criminal law amendment." Sir Edward intimated that the defense would be conspiracy to rob and blackmail. POISONED PIE.

In a dispatch dated Shanghai, July 9, the correspondent there of the Daily Express says that 13 English and American boys, attending the international mission schools at Chee Foo, were seized with illness after partaking of chicken pie. Twelve of the boys died, says the correspondent, sup-posedly from poisoning.

EVACUATION OF TIEN TSIN. Secretary Hay's prompt action upon the appeal of the Chinese Govern-ment, through Yuan Shi Kai and Minister Wu, relative to the evacua-tion of Tien Tsin, has met with suc-The foreign generals who have stood in the way of the evacuation will receive instructions from their home governments. The powers are now agreed to instruct their generals at Tsin to abandon the condition which was to have been imposed as a precedent to evacuation, that, save e small police force of 300 men, the Chinese military forces must be kept at a distance of not less than thirty kilometres from Tien Tsin. Home-Premier Combes' Narrow Escape.

London, July 9 .- Mr. Chamberlain's illness is delaying the conference, and Sir Wilfrid Laurier and the other premiers are conferring among themselves with a view to adopting a united position in discussing the trade, defense and other

questions with the British ministers. In spite of Joseph Chamberlain's unpopularity in Belgium, says the Brussels correspondent of the Times, the accident to him has evoked a certain amount of papers. Le Journal de Bruxelles thinks Chamberlain will gain in the long run from his narrow escape, which will naturally tend to make him an object of popular sympathy and strengthen his

The Canadian ministers are delighted with the kindly, genial reception by the Prince and Prince of Wales at the royal dinner at St. James' Palace last night. The Prince and Princess recalled incidents during their Canadian tour with manifest delight.

THE CANADIAN ARCH.

The Canadian arch is being devastated of its grain today, to make way for the flags designed for Kitchener's reception Saturday. There were amusing scenes as the crowd begged and obtained souvenirs of Canadian wheat and corn. Two wagon loads were thus eagerly snatched away, the policemen watching smilingly. The crowd even appropriated shrubs intended for the Kitchener design. Illuminated portraits of the King, the Queen, Lord Roberts and Lord Kitchener form part of the new design, with a Canadian message of greeting to Kitchener and the troops upon a red background,

Actress and Victor Hugo.

Everyone knows the story of Mile. Mars' disagreement with Victor Hugo during the rehearsals of "Hernani," her protests against the length of time she had to stand doing and saying nothing in the portrait scene, and her particular objection to addressing Hernani as "my lion," in the line, "vous etes mon lion, superbe et genereaux" -a style which she frankly declared to be absurd and sure to evoke hisses from the audience. At Thearsals she always ended by giving way to the author, though matters went so far that Hugo once actually requested her to resign the part; but a woman "convinced against her will is," even more than a man, "of the same opinion still," and in a case like this she was bound to have the last word, And so, though Mars said "mon lion" at rehearsals, she took good care to say 'mon seigneur" on the eventful first night, with the result that the line, being perfectly commonplace, was neither applauded nor hissed. Otherwise Donna Sol was, of course, one of Mars' great triumphs.

Irish Bulls in England.

An Irish journal, by way of revenge no doubt, publishes some excellent English bulls. It begins with the Hyde Park orator who, in the middle of a tirade upon landlords and capitalists, suddenly electrified his audience by exclaiming: "If these men were landed on an uninhabited island they wouldn't be there half an hour before they would have their hands in the pockets of the naked savages." A second one is quoted, almost as good: "All along the untrodden footprints of an unseen hand." A third is said to be a preacher's peroration: "We pursue the shadow; the bubble bursts; it leaves the ashes in our hands." A fourth might be added to the list; it was a brilliant exordium on the part of an English politician: "We shall never rest until we see the British lion walking hand in hand with the floodgates of democracy."

Chairmanship Is Good.

Horrible Wrong Done Him by Liberals in the Past.

An interesting explanation is given January. It quotes a gentleman at the "who keeps in close touch city hall, with municipal affairs, as follows: during Mayor Rumwas

ball's first term as mayor," "that Ald. Pritchard was prosaid. mised the chair of No. 1 committee. There had been a joint caucus of the parties, the effort being to banish politics. Well, the committees were appointed and retired to elect their chairmen. When No. 1 committee returned, they, to everybody's surprise announced that Ald. Plant had been elected. The fact was, the Grits on the committee had turned tail on the caucus agreement."

Some kind friend ought to tell the municipal Munchausen who had that dream to come out of the clouds. The trouble with his explanation is that Ald. Pritchard was not on No. 1 committee that year at all. Ald. Plant was not chairman of No. 1 committee. It must have been No. 3 committee the veracious recorder thought of. And by the way it is a noteworthy fact that when Ald. Plant resigned and went to Ottawa, and Ald. Pritchard's friends on the committee were in the majority they would not have him as chairman. They chose Ald. Garratt. It does seem strange that Ald. Jenkins and Ald. Garratt did not then vote with him to repair the wrong that the Free Press historian speaks of.

Alleged Bomb Explosion at St. Vincent de Paul Explained.

Ottawa, July 9.—The mystery of the alleged bomb explosion at St. Vincent de Paul Penitentiary has been solved. Recently the construction of a duct through the court yard of the prison was begun, and this required a series of blashing operations. It was the explosion from the blasting which led a credulous public to infer that dynamitards had got possession of St. cent de Paul. This, at any rate, is the explanation offered by Warden Duchenois, head of the institution. Mr. S. J. Dawson, one of the inspectors, went to St. Vincent de Paul this afternoon, but it is denied that his visit has anything to do with the bomb

LORD KITCHENER IDOL OF THE HOUR

Pro-Boers and Radicals Join to Do Him Honor.

METHUEN'S RETURN WAS QUIET

Red Cross People Put Boer Losses at 3,700 Killed and 32,000 Prisoners of War.

London, July 10.-Lord Methuen's return to England has been as quiet as Lord Kitchener's welcome will be demonstrative. Lord Methuen remained in South Africa for a longer period than any other of the generals of the original army corps of which so much was expected and by which so little was accomplished. He has risen in the public estimation in consequence of the English grit with which he persisted in seeing the thing through, and, notwithstanding his final defeat and capture, he has a better public reputation than General Buller or other generals, with the single exception of General French. Sir George White, who has been properly reticent since the relief of Lady-smith, has profited by the publication of the recent budget of war correspondence, and is now accounted one of the most gallant and faithful soldiers of the British army.

KITCHENER AND THE RADICALS Lord Kitchener has become the hero of the Radicals and the pro-Boers, because he is credited with having brought the war to a close by insisting upon magnanimous terms for a brave enemy. Both political camps will unite in welcoming him home this week. His next command will probably be in India, but he will likely remain until the end of the year in England, where he can be consulted the War and Colonial Offices re-Africa.

Since should receive an invitation to Lady Olivia's coming "at home" in Belgrave Square—a rash pledge, forsooth, and one not to be redeemed save by a great ex-penditure of management and diplomacy. To my reader of the workaday world-ay, our honest, business-like man of five-and-forty (if such should indeed con-descend to glance over these frivolous descend to glance over these frivolous pages)—it may seem unaccountable that the slightest interest should attach to a the slightest interest should attach to a piece of glazed carboard, entitling the recipient to stand in full dress on a crowded staircase for two or three hours of a summer's night? If he be a bachelor, I should despair of making clear to him these Eleusinian mysteries. He is innocent of the autopsia; he knows nothing of Hierophantes, who, as I take it, was the Athenian beadle; and the petroma is to him a scaled volume. Let him remain the higher approach and bless himself is to him a sealed volume. Let him re-main in his ignorance, and bless himself the while. But if he is a family man, rejoicing in a vine and olive branches, an expensive wife and blooming daugh-ters, they will explain to him, if they have not impressed it on him already, have not impressed it on him already, how such a cartel constitutes a veritable diploma, the full reward for many months of competitive energy and serious application. They will tell him how to be seen at Lady Olivia's is a recognition of that position which entitles them to call on Lady Barthedore, that Lady Barthedore's intimates have the entree to Ormolu House, and that from Correla House to the seventh heaven is Ormolu House to the seventh heaven is but one step. Alas! for John Gordon's rash engagement, and the negotiations

that must ensue.

He had so much real business to do that it was not till the very day of the fete that he found leisure to call in Belgrave Square. He had written a note, however, in the morning to Lady Gertrude, respecting some of that young lady's triffing commissions, and expressing a hope that he should find her at home during some part of the day, and had received, as he expected, a laconic answer in the well-known hand:

"My dear Mr. Gordon" (it used to be "Dear Mr. Gordon"), "Aunt Olivia wants to see you very much. Tea as usual at 4:30." And signed with a flourishing monogramatic "G," of which Gertrude was rather proud. that must ensue.

was rather proud. He felt he should be welcome; he had

not seen any of them since the concert. No one knew better than John Gordon the weight of the French maxim, "Il faut se faire valoir." Behold him, then, at 4:30, sitting in a corner of the drawing-room with a tea-cup in his hand, preparing to do battle with two ladies on a point which was calculated to call forth all the natural wiffullness of the species. Heavy odds, ever for Mr. Gordon. As in a ship clear-ed for action, everything seemed out of its place, and put in everybody's way. Like the same ship after the contest, it would take some days before the effects

of the bouleversement should disappear. John said as much. "People ought to be very grateful to you, Lady Olivia for putting yourself to all this inconvenience. How many cards have you sent out?"

Her ladyship named the number gracienough: she liked to think she was fulfilling the onerous duties of her rank. John proceded warily: "How right you are not to ask twice

"How right you are not to ask twice as many people as the house will hold. Now, at Mrs. Montpellier's, last night, I never got farther than the awning!" Lady Olivia's smile was stern. It is needless to say that she held staunchly by the Visigoth faction, and if poor Mrs. M. had been a suttee widow, and burned alive on the occasion in question, she would have listened with grim approval.

out, to go to a few good blaces, only a very few, and those very good ones," quoth John, as gravely as if he had studied nothing but the Social Humbug

all his life.

"You are quite right," asserted Lady Olivia; "if I take a young lady by the hand, I am most particular as to her engagements. Gertrude's first year, I only allowed her two outings in the week. A good introduction is everything. It is of

allowed her two outings in the week. A good introduction is everything. It is of vital importance. Without a good introduction a girl is inevitably lost!"

Lady Olivia expatiated on this point as one might who should keep the gates of Paradise and proclaim the easiest way therein. She had herself enjoyed this unspeakable advantage. Nobody's introduction could have been better. Had her lines indeed fallen to her in such pleasant places? had she been resting ever since by the margin of living waters, among the fields of Asphodel?

"The very reason I recommended a

ters, among the fields of Asphodel?

"The very reason I recommended a young friend of mine not to go to Mrs. Montpellier's last night," observed the astute John. "If it was Lady Barthedore's, or Ormulu House, or here, for instance, I told her it would be a different thing; but this is your first season, I said; you don't know many people, mind you only know good ones."

Lady Gertrude made a funny little face—she was not deficient in penetration; while her aunt signified a gracious approval.

You see your way more clearly thanmost people," the latter observed, en-couragingly; "men so seldom can be made to understand these matters, Poor made to understand these matters. Poor Mr. Orme would ask all sorts of people out of the highways and hedges, and expect me not only to be civil to them, but | defeat. The story of the race: know them and their wives after-

"I take a great interest in this girl."
resumed John, whereat Lady Gertrude
glanced quickly in his face, "and I
should like to see her well launched. I
wish you would let me introduce her to
you, Lady Olivia."
"Would she like a card for tonight?"

inquired her ladyship, very graciously; "I should be happy to take her by the hand, I am sure, if she is a nice person, hand I am sure, if she is a nice person, and belongs to people that one know."

Now here was the difficulty. Alderman Jones, in the execution of his duties as her son's guardian, had come frequently in contact with Lady Ollvia, and it speaks well for the alderman's good-humor that their disc assion had never terminated in an outbreak. He was an old friend and schoolfellow of her husband; the boys had been at Charter House together, when the latter was a second son, with but modest expression and the latter was a second son, with but modest expressions and the latter was a second son, with but modest expressions and the latter was a second son, with but modest expressions and the latter was a second son, with but modest expressions and the latter was a second son, with but modest expressions and the latter was a second son, with but modest expressions and the latter was a second son, with but modest expressions and the latter was a second son, with but modest expressions and the latter was a second son, with but modest expressions and the latter was a second son, with but modest expressions and the latter was a second son, with the second son, with the second son, with the second son, with but modest expressions and the latter was a second son, with the second son, with and belongs to people that one knows."

Now here was the difficulty. Alderman

Woodstock Won Another Easy Game at Stratford.

London Bowlers Defeated Aylmer Rinks-St. Mary's Alerts Coming Saturday.

Lovers of lacrosse may anticipate a fast game at Tecumseh Park on Saturday when the St. Mary's Alerts will meet the London senior team. Although in the intermediate class, the Alerts are by no means to be despised. Indeed, it is doubtful whether the province can produce a speedier intermediate team. Not long since they gave the Stratford Iroquois a good scare on the latter's own grounds, the score at the end of the game being 3 to 2 in favor of the Iroquois. The Alerts on that occasion played with only half their team, a fact that would indicate that their best outfit is almost fast enough for senior company.

Poor old Stratford is on the toboggan, for fair. Woodstock's easy victory yesterday was about the last straw. The Iroquois were greeted by barely a handful of spectators when they appeared in their war paint yes- day. Score: terday, a circumstance which provides a golden opportunity for the Classic City sport writers to blame it all on an apathetic public. 'Twas ever thus. When the home team strike the chute, play disgustingly bad lacrosse and behave like rowdies, the influential local paper blames it on the public. It is safe betting the Iroquois have themselves to blame for the poor attendance yesterday.

The great event at Henley, the race for the Grand Challenge cup, was won this year, by Third Trinity, Cambridge. The final heat was rowed today, the victors' opponents being the famous Leander crew, who have won the cup several times in succession. The Leanders were looked upon as the fastest crew of oarsmen in the world, and their defeat at the hands of Third Trinity was something of a surprise. The defeat of the Argonauts by Third Trinity was a circumstance over which the Canadians have no cause to feel shame. The Cambridge men at no stage of the race found time to loaf, and English sporting writers agree that no crew would have listened with grim approval.
"We don't visit Mrs. Montpellier," said

John Gordon was by no means given to making rash promises. The wariest of weasels, however, is on occasion to be caught asleep, and John, in a moment of abandon, had promised Miss Jones that she should receive an invitation to Lady Olivia's coming "at home" in Belgrave crosse. It is difficult to place the blame on either of these men, but there were no reasons for any further ruling off until nearly the end of the game, when Gifford and Ross Hess were sent off, the former with a broken finger, and the latter with a smashed finger. It was a clean game, and one which deserved the patronage of the citizens, but which, although played on a half-holiday hardly comanded a corporal's guard. It is no wonder the boys who play lacrosse here get discouraged.

INDIANS PLAYED LACROSSE. A team picked from the London seniors and juniors played an interesting game with a team of Oneida Indians at Tecumseh Park yesterday

There was a recommendation of the control of the co afternoon. There wasn't much science about the match, but the spectators thoroughly enjoyed it, nevertheless. picked team was as follows: Goal, Leddy; defense field, Kelly, Bretz, Ladrewe, Douse and Mara; center, Brennan; home field, Buckley, O'Brien,

A TEN-ROUND DRAW. Providence, R. I., July 10. — Jimmie Briggs, of Chelsea, and Jack Lowery, of Brooklyn, made a draw in a tenround boxing match before the New Century A. C. here last night. BRUSSO BEAT SMITH

Mt. Clemens, Mich., July 10 .- Noah Brusso repeated in his bout with Dick Smith here last night, getting the decision after ten fast rounds. Brusso defeated Smith here two weeks ago in two rounds, and started out to repeat the feat, but after the first round Smith came back and a most exciting fight was witnessed. Brusso had the better of the argument all along. Smith took the count twice in ninth, the bell alone saving him. Smith displayed gameness in the tenth, taking part of the count three times.
Brusso received the decision.

The fifth session of the coroner's inquest on the death of Augustus Ninham took place last night before Coroner Ferguson and his jury. The session was the shortest one yet held, taking up only three hours. The evidence of eight witnesses was heard. The most sensational feature of the tions of either of these two female evening was the testimony of a little girl, who swore that she saw Gus Ninham and another Indian fighting in front of a hotel in the city, early in part by her mother, to whom she told her story on her return home. The to McArthur's leaving about 10:30 p.m., was highly amusing to the big crowd present, and the constables had re-Bride and Mrs. Quick, the wives of previous witnesses, and by three men who were at the hotel on the night of Ninham's death.

The usual large crowd was present during the first couple of hours of the inquiry, every seat being occupied, and the doors and aisles blocked. As the evening advanced, however, the crowd thinned out, and at the time of adjournment the courtroom was not half

What Mr. Sharkey did say was that McArthur was singing in the parlor where Bricklin and fight. the lady were. As will be seen from to the hotel with another young man. SKUSE WAS SOBER.

The first witness called was Skuse, who said he lived on Brick street, about two miles west of the Wharncliffe highway. He was at Sharkey's hotel on the night of June 21. He met John McArthur in the city in the afternoon, between 4 and 6 o'clock. The witness's memory aptime he was with McArthur.

Coroner Ferguson. excuse you from giving evidence,

said the coroner. Skuse said he did not think he was at the Boswell House with McArthur, but could not remember exactly where he was. He was with McArthur at the Collins House from the time first met till after 8 o'clock.

On leaving the Collina House Mc Arthur and the witness drove to Sharkey's hotel. Witness did not stay there an hour, probably half an hour, he thought. He left and arrived home shortly after 9 o'clock. Witness left McArthur standing near the watering trough in front of the hotel. Witness did not recognize any of the five or six men he saw at Sharkey's. Witness did not see McArthur from that night at Sharkey's hotel until last Monday night, when he saw him

in the courtroom. Witness did not know Gus Ninham by sight. This finished Skuse's evidence. Mr. Faulds did not cross-examine him.

DIDN'T SEE HIM COME HOME. Mrs. Lavina Quick, who was next called, said she lived at 125 Bruce street, near the Wortley road. She was the wife of Wm. Quick, one of the men who went to Sharkey's with Wm. Mc-Bride. She could not tell what time her husband came home on the night of Saturday, June 21. She had not been feeling well, had retired about 9:30, and was asleep when her husband came in. He might have come in few minutes after or some hours after. Her husband is at present away on a visit, but is expected back within a few days. Witness knew

John McArthur, but had never seen him at her house. McBRIDE'S HOMECOMING. The next witness was Mrs. Nettie McBride, wife of Wm. McBride, witness who said he saw McArthur leave the hotel and start for home at 10:30. SAW NINHAM FIGHTING. Alice Scott, the 14-year-old daughter of the previous witness, said that she was picking berries for Mr. W. Baker on Saturday, June 21. Gus Ninham was also picking berries there. Witness and her sister left home about o'clock and went up to the city. When | Sharkey's absence, left the house and they were near the hotel at the corner John McArthur went to the hotel in of King and Ridout streets witness saw Gus Ninham and another Indian standing in the doorway disputing. They came outside and started to Then several men came out of the hotel, and one of them struck Gus last night's evidence, McArthur drove Ninham. She thought the blow fell on his nose. The other Indian ran up the street, but Gus and the man who anything, he said. struck him stood and talked together in loud tones. Gus did not strike back at the white man. He did not stagger

Mr. Ross said he was at Sharkey's hotel on June 21, having been there for three days. He was there all Saturday evening, and went to bed between 10:30 and 11 p.m. He judged the time by seeing veand bicyclists coming from Springbank at the conclusion of the concert. Witness occupied an upscairs room near the northeast corner of the hotel. He went to sleep ten or fifteen minutes after retiring. Witness was awakened by hearing Mr. Sharkey going to the door, someone having roused him. Witness heard the sounds of the telephone being used, and Sharkey came up afterward and told witness something was wrong with one of Mr.

Baker's Indians. Witness did not know who was in the hotel that evening, as he had been upstairs all evening, except for a cou-ple of times when he went down for a few minutes. Witness was downstairs a few minutes before he went to bed, and again about an hour before. Witness was quite alone upstairs. He did not see Hugh Sharkey, sen. upstairs during the evening. Witness heard voices during the evening, from the direction of the southwest room downstairs. There may have been people also in the northwest corner room downstairs. Witness saw no persons around the driving-shed. Witness heard

There is no quicker of more certain way of curing back pains and kidney disease than by the use of Dr. Chase's Kidney-Liver Pills. Scores of thousands remarked it at once. Another reason why witness remembered that McArthur had his hat on was that witness "WELL, JACK, ARE YOU OFF?" and McArthur answered, "Yes," to which witness replied, "Well, goodbye; I'm going to bed." Witness thought McArthur wore a black fedora hat, but was not sure. Witness did not see Brazel Fox or man named Bricklin at the hotel.

He did not hear any noise outside after he went to bed.

To Mr. Faulds, ewitness repeated that after seeing McArthur in the hall he had gone straight upstairs to bed. Witness said he remembered seeing a vehicle in front of the hotel, but could not say what kind of a rig it was, nor at what time he saw it. He He

thought it was a covered buggy. AN AMUSING WITNESS. Hugh Sharkey, sen, father of

proprietor of the Woodbine Hotel, next took the stand. He proved an entertaining witness. He had been at the hotel, he said, on the night of June 21. He saw the Abels, Mr. McBride and Mr. McArhur at the hotel. Others were there, but he did not know them. Witness went to bed about 11 o'clock, by his watch. Witness was sitting on the veranda when McArthur came out, and said he was going home. A one-horse rig, with two people in it, drove horse rig, with two people in it, drove up from the west, and
