## OPPOSES IDEA OF "CLEARING HOUSE" FOR CHARITY WORK

Head of Salvation Army Not In Sympathy With Men's Federation Movement.

NOT A MATTER OF THEORY

Expert Knowledge Necessary in Handling Cases-Few Out of Work.

Major Frank Morris, head of the alvation Army in Western Ontario is not altogether in sympathy with the formation of a new charities clearing house for London, as the Men's Federation and other local social workers propose. The Salvation Army has well-organized charity department, and naturally does not fall in with the idea of working under any outside organization and handling only such cases as the clearing house might as-

Expert Knowledge Required. 'Knowledge and ability to deal with the poor, the 'down and outs' requires expert knowledge which can only be acquired by actually rolling up one's sleeves, and diving into the difficulties. It is not at all a matter of theory. A lifetime of sacrifice and self-abnegation is required to understand such conditions, and while such workers are always glad to have the assistance of a practical nature from those who desire to interest themselves and help, yet, as a rule, they cannot allow themselves to be governed or guided by those whose lives are spent in entirely different channels, and who have not fulfilled the obligations of the first principles in all

Major Morris also expressed the opin-fon that at the present time there are comparitively few people in London out of work, although there are many appli-cations for the work at the local office of the Army's immigration department Here, however, an effort is made to induce the out-of-works to go to the country, waere a great number of men are

## JOLD BOYS' SHOWS FOR OUEEN'S PARK

**Attraction Committee Decides** to Have Reunion Midway There.

MAYOR **OPPOSES** 

Carnival Company Agrees to Put Up \$1,000 Forfeit For Clean Shows.

That the London Old Boys' Association will not depart from the midway idea was conclusively evidenced at a meeting of the amusement committee held in the council chambers at the city hall last night, when the contract to provide amusements of that I'nd for the coming reunion was awarded to Victor D. Levitt, general agent for Leon Washburn's Mighty Midway Shows, of New York.

Recause of the fact that the president. Lieut.-Col. Dr. Harry R. Abbott, is out of the city, definite arrangements for the staging of the shows could not be arranged. The feeling was unanimous, however that the only alternative under the count Ouen's the circumstances was to accept Queen's Park as a site for the amusements and to centre the attractions there.

Puts Up \$1,000 Forfeit.

The meeting opened with a stormy session, several of the members criticizing the mayor for his attitude in the matter. The feeling was that if agricultural exhibits and similar displays were placed on the market, there was no reason why the shows should not be allowed. The fact that Victor Levitt, on behalf of his company, had placed \$1,000 in cash in the hands of City Treasurer James Bell to be forfeited in the event of indecent at-

the hands of City Treasurer James being to be forfeited in the event of indecent attractions being put on, was thought to be sufficient proof of the quality of the shows to be opened in London to the public by the Old Boys.

Advises Going Slowly.

The mayor strongly advised that the committee take its time in deciding on the form of amusement to be offered for the entertainment of the citizens. He was averse to a settlement of the matter immediately, on the ground that the committee would be able to decide to better advantage later.

It is expected that Dr. Abbott will return to the city the first of the week when a meeting will be called for definitely deciding on a site for the shows. That Queen's Park will be the selection, is practically certain.

The motion for the acceptance of the Washburn contract was made by Ald. F. G. Mitchell and seconded by W. H. Abbott.

Agreement Is Signed by Representatives of City and the Company.

The objections made by the company to the first bylaw prepared by the city solicitor have been met in the new document. The company will not operate the Railway street line or the short lines to its power house, on Sundays, nor is anything stipulated regarding operation into any extension. The Masonic Hall has been secured nexed districts. Of course, if any extensions are made within the city limits, they city on that day, and a big banquet

will of necessity be operated on Sundays along with the rest of the system.

Another clause of the bylaw reiterates the provision of the Ontario statutes respecting the hours of employes. Under it no employe may be employed more than will be invited. Sir Wilfrid Laurier Makes a Plea for Honest Redistribution.

WANTS LARGER COMMITTEE

Second Reading of Bill Deferred to Consider the Suggestion.

Ottawa, Feb. 17.—The principles thich should guide the preparation of the redistribution bill and define the boundaries of constituencies on which Can dians will vote for members of the next parliament were laid down in parliament today by Sir Wilfrid Laurier in a splendid speech. He was eagerly listened to on both sides. There is the greatest interest in the measure. Every man seems to feel that his seat may be put into jeop-ardy by the bill which is in the course of preparation, and today almost every tember was, in the place which the new law may take from him by shift of population. Seven of the members who listened today are wiped out by statutes, as even seats are taken from the west, and almost every man seemed o feel that possibly he might be one

of the victims. A discussion on proportional repre sentation served to show how much narrower is the difference in the voters supporting either side than the membership which the casting of the The staff record office of the C.P.R. votes by constituencies gives the par-Valhalla and registration office ties.

Second Reading Deferred. It was expected that second reading would have been given the bill but it was deferred that the enlargement of the committee might be con-

there—in his written record; his birth sidered. The second reading of the redistribution bill was moved by Premier Borden. He made no speech, saying that he had nothing to add to his remarks on first reading but that he could not accept the compu-tation of E. M. MacDonald which would served since the first man got a fob on the C.P.R. The living, too, in sepsave Ontario and the Maritime Provinces from the loss of seats.
Sir Wilfrid's Address.

"We are about to intrust to a commit tee the task of working out the details of this measure. Would it not be well card, which is put into a box. Each box holding hundreds of cards. Of to lay down unequivocally the principles which should guide the committee in the work of recasting the electoral map of Canada?" With these words, and saluted by the cheers of his followers, Sir Wilfrid opened a notable speech. He first review-ed previous redistribution bills and showclerks under Mr. A. Rondeau, the

1903 in office, by that I still stand. I have nothing to add and nothing to withdraw." He enumerated at length there a principle of the stand of the those principles: equalization of population in constituencies, compactness of constituencies, community of interest and close observation of county municipalities were the units of popu-

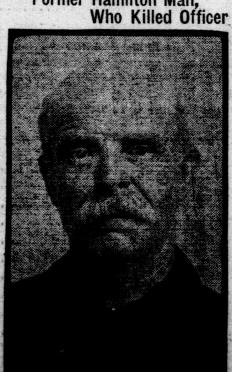

ment that is noted. His testimonials Though Premier Borden was to be congratulated on the way which he had apparently approached the task of relistribution, there was one weakness. He had left to the committee the task of saying whether Prince Edward Island should have three or four. In this matter there was no discretion. The law prescribed the number for each province according to population, and Parliament had to be guided by the law. If able to give Prince Edward Island special dispensation, why could it not be done for New Brunswick and Nova Scoting copies of original testimonials, which partment was set up in 1901; it had tia? The fact that the bill left the num small beginnings. At first the work ber for Prince Edward Island blank wa a victous feature, which might lead t serious consequences. Finally Sir Wil-frid suggested that the membership of the committee be enlarged from seven, as proposed, to nine, as since the last re-distribution there had been two new provinces added to the Dominion. He adthe records can be traced, it makes vised the preparation of a measure which would give opportunity in elec-tions, "for the most accurate expression the fatal statement attached to a of public opinion without regard to who will win or lose." Both sides applauded the Liberal chief as he resumed his seat.

#### THE COUNCIL'S DECISION.

IF the name "old home week" signifies anything the decision to keep a collection of street shows off the market square should not prevent the holding of the Old Boys' Reunion. It is not a question of prudishness nor of one class of citizens being too narrow-minded to allow the visitors a week of playfulness. When conditions become such as to debar anyone's mother or sister from such enjoyment as is provided; when young girls are subjected to indignities at the hands of a certain hooligan element to be found in every city; and when the whole shricks of a cheapness that shows through the veneer of novelty, it is time for the city to turn to something else.

Most of the visitors who come to London are not so much concerned with seeing a street show as they are with renewing their old affections and

a triffe old-fashioned, more suggestive of home, would appeal to them more. The old boys can make their own fun. They have done without street shows before, and they will appreciate the improvement of conditions brought through the absence of the shows from the market.

The Advertiser believes that home-loving citizens of London owe a debt of gratitude to Mayor Graham and the aldermen who turned down the board of control's recommendation to permit these shows to be the central attraction. And citizens should be ready with open purses to make the reunion a success. To pay willingly after one has prayed not in vain would be an evidence of hearty cooperation. The reunion should not fail because the shows have been refused the market. A get-together meeting for the purpose of arranging a programme should be the next step.

#### WHO ARE TO BLAME?

T a military dinner the other A evening in the armories the opinion was freely expressed that London was not giving that support to its local volunteer force that it should. We may assume that this is true to some extent at least for the officers who spoke, doubtless know the situation thoroughly. Who is to blame? If the volunteer movement is growing in public disfavor, there must be some cause for it.

The Advertiser has always had a good word to say for our local companies, as well as in support of the cadet corps. And for a good reason. That Canada will ever be drawn into war on her own account, we think exceedingly improbable. But the empire may. And, as Sir Wilfrid Laurier should be an elevating entertainment. has said, "When the Empire is at war Canada is at war." Occasions may arise when the empire will need the help of the overseas dominions. So also, there may come a time when Depend on pork to save the day, says Canada, as part of the empire, will a dealer. The road to wealth is have to defend her own soil from aggression. For that reason there should be a military organization, with the nucleus of an army in our volunteer force. And this, more than anything else, we believe, is to be charged with any decreasing support of the volunteer movement.

A sane and judicious military policy is in the interests of the country. But a military craze, of which we have had so many evidences of late, only defeats its own purpose. It is not only bound A coroner's jury has recommended to fail itself, but it will most assuredly hamper and minimize the efforts of those who desire proper provision for the future of Canada. The men and the papers who are declaiming against militarism are not the men who are working evil, and trying to weaken the country and quench both local and imperial patriotism. The mad militant is the worst enemy of our volunteer force, as he is indeed the worst enemy the country can have.

#### CIVIL SERVICE REFORM.

THE late Liberal Government, in

L trying to reform the civil service, and get rid of some of the worst features of the patronage system, placed the inside service—that is the Ottawa portion of the service-under the control of a commission. All appointments were to be made after the applicant had passed an examination and all promotions were to be on account of merit. The inside service was first chosen for the experiment, because it was the part that could most easily be brought under the control of the commission. As soon as the work was fairly established in Ottawa it was to be extended to the outside service, The Conservatives were very impatient for the Government to hurry up with its scheme, and get the whole service under the commission. They blamed the acministration because it was too slow. But three years have passed since migration and advertising policy. It they attained power themselves, and finds that editorial comment is very the situation remains unchanged. No, not quite. Nominally, it remains the same. The inside service is still under a commission, and the outside service is still under the old patronage system. But the inside service is being drawn back to the vortex of patronage as fast as possible. The Secretary of State, in reply to a question by Mr. Murphy, stated that 361 persons had been appointed to the inside service under the present Government without the examination required by the regulations. Some people might be inclined to ask what is the good of having a rule that is violated 361 times in less than three years? Well, the only advantage we see is that the law might come convenient to keep out people you do not want in, while its violation will serve to help your friends. Otherwise, there Cummins of Iowa, is particularly is not much use in having the law. #### Yours, Aylmer, Feb. 15, 1914. A VETERAN. STARVED NERVES

The Cause of Neuralgia-It Must Be Treated Through the Blood.

Neuralgia is a cry of the nerves for more and better blood. It literally means that the nerves are being starved. Like every other part of the body, the nerves receive their nourishment through the blood. There is therefore no doubt that Dr. Willlams' Pink Pills will cure the worst cases of neuralgia. They actually make new, rich blood, carrying to the starved nerves the elements they need thus driving away the sharp. torturing pains, which nearly drives the sufferer wild. So many cases of neuralgia have yielded to treatment through Dr. Williams' Pink Pills that every sufferer from this dreaded trouble should lose no time in giving the Pills a fair trial. Mrs. Sophia H. Johnson, Mozan, Sask., says: "For upwards of ten years I was a periodical sufferer from neuralgia. It located in the side of my face and in the jaw, which would actually click every time I opened or closed my mouth. At times the pains would be almost unendurable, and as time went on, my whole nervous system seemed to be affected. I was con stantly doctoring, but the doctor did not seem to be able to give me permanent relief, and at last I decided to try Dr. Williams' Pink Pills. I got a half-dozen boxes, and before they were half- gone I felt much better, and by the time I had used them all every symptom of the trouble had gone, and I was enjoying a comfort I had not known for years. I have since remained in the best of health and can only say I owe the joy of living without pain to Dr. Williams Sold by all medicine dealers or by

The association voted, nowever, to keep alive the committee on rule revision and another attempt will be made two years hence to make one set of rules for the various trotting associations.

There was heated argument over amendment of the rule reading that "only the records made by the winners of races he records made by the winners of races

shall be considered."
The amendment was finally made tional with the secretaries of the various associations. An amendment saying that records made against time by non-winners shall not be considered a bar to eligibility races was adopted.

PHILLIES WILL RETAIN DOOLAN AND SEATON

President Baker States That Al Steps Necessary to Keep These Players Have Been Taken.

Philadelphia, Feb. 17.—William F. Baker, president of the Philadelphia National League Baseball Club, declared tonight that his club has taken all the steps necessary to retain the services of Tom Seaton, pitcher, and Mike Doolan, shortstop, who are reported to have received offers from the Federal League. President Baker made public a copy of a telegram sent to Seaton on January 22, accepting the latter's terms for a two-year contract. Doolan he said, took the trip around the world with the consent of the Philadelphia club officials and is insured in favor of the local club on his return to this country. A contract was sent to his Philadelphia address and a copy will be tendered him upon his landing in New York.

Pitcher Chalmers visited the o&cas of the Philadelphia Club today and affixed his signature to a 1914 contract. Cravath's contract was also received and it is reported that Pitcher Marshall had accepted terms and will report within a few days.

#### STEALING HIS "STUFF" [By Fullerton.]

Charlie Van Loan, the literary ex-pressman, is built on the white hope style, his gigantic frame being well fitted to that superimposed turret from which he fires literary and sporting broadsides. He carries a cane like a war club. He is jocose as a threeyear-old grizzly and when delighted he yells, "Yeh Bo," and beats those nearest him with fist, cane or golf stick in absence of a sledge hammer.

One day last summer Van was watching a ball game, and Bill Hanna, the sage of the Sun, was ufortunate enough to draw in near him. Van had routed every one within reach excepting Bill, who stuck to his wire while Van yelled gleefully and beat him with his cane at each good play. ers just relieve for the time being, but Old Iry Cobb, who was sitting near by, watched from safe distance. BOTH ST. THOMAS RINKS BEATEN YESTERDAY

Winnipeg, Feb. 17.—In the bonspiel to-day both St. Thomas rinks suffered de-feat, Cameron being knocked out of Purity Flour competition by Smith, Win-nipeg Assinaboines, 11 to 6, and Pans-ford going down before Burgess, of Min-nedosa, in the Eaton Trophy, 16 to 9. This made Cameron's second defeat.

Mixed With Sulphur Darkens So Naturally Nobody Can Tell.

The oldtime mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage. Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All brush with it and draw this through appears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching

# MESSAGE TO THIN

An Easy Way to Gain 10 to 30 Pounds of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fatyour digestive organs assimilate the fatmaking elements of your food instead of passing them out through the body as

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved. keep their hair a good, even color, them up. The thin person's body is like shrunken, run-down tissues and build a dry sponge-eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh-building elements and to stop the leakage of fats is to use Sargol, the and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy," for about 50 cents a bottle. It is very popular because no-body can discover it has been applied. amous Specialist's Recipe For Catarrhal Deafness and Head Noises.

If you know someone who is troubled

with head noises, or catarrhal deafness, cut out this formula and hand to them, and you will have been the means of saving some poor sufferers perhaps from total deafness. Recent experiments have proved conclusively that catarrhal deafness, head noises, etc., were the direct cause of constitutional disease, and that salves, sprays, inhalers, etc., merely temporize, with the complaint, and seldom, if ever, effect a permanent cure. This being so, much time and money has been spent of late by a noted specialist in perfecting a pure, gentie, yet effective tonic that would quickly dispel all traces of the catarrhal poison from the system. The effective proving from the system. The effective prescription which was eventually formulated, and which has aroused the belief that deafness will soon be extinct, is given below in understandable form, so that anyone can treat themselves in their own home at little expense. Secure from your druggist 1 oz. Parmint (Double Strength), about 75c worth. Take this home, and add to it ¼ pint of hot water and 4 oz. of moist or granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, headache, dullness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacional treatment. Nearly ninety per cent of all ear troubles are directly caused by catarrh, therefore there are but few ness, cloudy thinking, etc., while the catarrh, therefore there are but few people whose hearing cannot be restored

people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness or catarrh in any form should give this prescription a trial. There is nothing better.

Important.—In ordering Parmint always specify that you want Double Strength; your druggist has it or he can get it for you; if not, send 75c to the International Laboratories, 74 St. Antoine

### QUEEN PAID VISIT TO THE LONDON SLUMS

Inspected Church Army Labor Tent, and Gave Presents to Unemployed.

[Canadian Press.] New York, Feb. 18.—A cable to the ribune from London says: Queen Alexandra, accompanied by Princess Victoria, paid a visit last evening to the labor tent of the Church Army in Chadwick street, a squalid thorough fare in the slums of Westminster. The royal party inspecied the various de-

partments.

In the tent set apart for meetings, a pretty little ceremony, not without its pathetic side, was gone through. The 130 inmates of the tent were each presented by Queen Alexandra with a warm shirt and a pair of knitted woolen socks. On the top of each parcel her majesty placed a shilling. Hetty hastily closed the magazine and held it behind her. Booth had intended to show the reproduction to Mrs. Wrandall, but the girl's behavior caused him to change his mind. He felt that he possessed a secret that could not be shared with Sara Wrandall, then or afterward. Moreover, he decided that he afterward. Moreover, he decided that he would not refer to the Hawkright picture again unless the girl herself brought up the subject. All this flashed through his mind as he stepped forward to greet

When he turned again to Hetty, the magazine had disappeared. He never saw it afterward, and, what is more to the point, he never asked her to produce it. There was a marked change in Hetty's There was a marked change in Hetty's manner after that when they were left alone together. She seemed inert, distrait and at times almost unfriendly. There were occasions, however, when she went to the other extreme in trying to be at ease with him. These transitions were singularly marked. He could not fail to notice them. As for himself, he was unnotice them. As for himself, he was un-comfortable, ill-at-ease. An obvious barrier had sprung up between them.
When Sara was present, the girl seemed to be her old self, but at no other

He had the feeling that she was trying to read his thoughts, but what impressed him more than anything else was the increasing look of wonder and appeal that lurked in her deep, questioning eyes. It seemed almost as if she were pleading for mercy with them.

He thought hard over the situation. The obvious solution came to him: she had been at one time reduced to the necessity of posing, a circumstance evidently known to but few and least of all to Sara Wrandall, from whom the girl plainly

#### To Renew Complexion Without Cosmetics

[From the Dermatologist.]

If the excessive user of cosmetics only knew the impression her artificiality really makes upon others, she would quickly seek means of gaining a natural complexion. Let her acquire the mercolized wax habit, discarding make-ups entirely, and she will soon have the kind of complexion that women envy and men admire. It's so easy to get an ounce of mercolized wax at any drug store, use nightly like cold cream, and wash it off mornings. And the results are so remarkable. Gradually the lifeless cuticle peels off, in almost invisible flaky particles. In a week or so there's a [From the Dermatologist.] lifeless cuticle peels off, in almost invisible flaky particles. In a week or so there's a brand new complexion, clear, velvety-soft, of girlish color and texture. The treatment is so simple, harmless and marvellously effective, the wonder is that every woman whose skin is withered, discolored, rough, chapped, freckled or pimpled, has not already adopted it.

Let wrinkled women quit pastes and massage creams, which mar the skin still more, and try this more sensible treatment: Dissolve 1 oz. powdered saxolite in half pint witch hazel; use as a face bath. Every line will quickly disappear.—Advt.

Prof. Dearness Says Sighting of Bear Was Great Event in Early Days.

FRENZIED PUSSIES MANY

Wild Pigeon Were Killed by the Carload, and Thames Teemed With Game Fish.

"Biological Changes in Western Ontario Since Its Settlement," was the subject of a comprehensive and interesting paper which Prof. John Dearness, M. A., of the Normal School, read before the London and Middlesex Historical Society last night David Rodger, vice-president, presided in the absence from the city of the president, T. H. Purdom, K. C.

Among the wild game, according to Mr. Dearness, bears were not very common, for in Horton's Life of Thomas Scatcherd one reads of the whole community setting out to track a bear, which they would scarcely meant to keep the truth. This conviction distressed him, but not in the way that might have been expected. He had no have done had bears been everyday sights. Wolves were common enough, scruples about sharing the secret or in keeping it inviolate; his real distress lay although seldom approaching the homes of the settlers except after in the fear that Mrs. Wrandall might hear of all this from other and perhaps ungentle sources. As for her posing for night.

Not Many Wild Cats.

Wild cats were also to be found particularly in a tamarack swamp in the northeast corner of London township. On the occasion of the bear hunt which Horton tells about, Howay and Newlands, two expert woodsmen, and were lost for seven days in the married a chap he knew very well, and who was fully aware of that short phase in her life. That feature of the situation without seeing any sign of a settlement.

Passenger pigeons were innumerable. In the north part of Michigan carloads of them are said to have been shot. In Middlesex they could be killed with clubs or picked off of small shrubbery and killed by wringin his arms, and implore her to tell him ing their necks. Now they are pracall, to trust him with everyting. At such times the thought of holding the slim, warm, ineffably feminine body in his tically extinct and \$1,000 reward has been offered for a single nest. Those Were the Days.

The tributaries of the Thames, Fish Creek and other streams abounded in bass, chub and brook trout. The Hamilton road ran through a white pine forest. Other parts of the county were covered with white hard maple. Southeveller called reason! It spoils many good He admitted to himself that he was under the spell of her. It was not love, he was able to contend; but it was a mysterious appeal to something within that had never revealed itself bewest of London were a great variety He couldn't quite explain what it ing as large and as beautiful as they do much further south. He was silent for a few minutes, studying her face and figure with the critical eye of the artist. As he turned to the canvas with his crayon point, he remarked, with an unmistakable note of relief in his voice:

"That explains everything. It must have been Hetty Glynn who posed for all those things of Hawkright's."

"I dare say," said she indifferently.

"The Ghost at the Feast.

The next day he appeared bright and in the contage on the upper road, he was wont to take his friend Leslie Wrandall into consideration. As a friend, was it not his duty to go to him with his sordid little tale? Was it right to let Wrandall go on with his wooling when there existed that which might make all the difference in the world to him? He invariably brought these deliberations to a close by relaxing into a grim smile of amusement, as much as to say: "Serve him right, anyway. Trust him to sift her antecedents thoroughly. He's already done it, and he is quite satisfied with the result.

On the fifth day of a serious of rather prolonged and tedious sittings, he was obliged to confine his work to an hour and a half in the forenoon. Mrs. Wran-

Prof. Dearness expressed doubt whether the social customs of pioneer days were not richer in enjoyment, the logging bees, barn-raisings, quilting ees, and gatherings, than social customs which prevail today. He quesdall was having a few friends in for auction-bridge immediately after luncheon. She asked him to stay over and tioned whether the boy who rode a barebacked to the neighbor's horse was not quite as happy as the young farmer who now rides in his autotrain. Booth, in commenting on this, again remarked a sharp change in Hetty's mobile.

Mrs. E. W. Silver, South Milford Annapolis County, N. S., writes: "I have used Dr. Chase's Syrup of Linseed and Turpentine for my little boy with most satisfactory results. His hroat would fill up with phlegm so bad that he could scarcely make sound, and I thought he would surely strangle. He grew worse, and had frequent had attacks, so I began using Dr. Chase's Syrup of Linseed and Turpentine. Scarcely half a bottle was used when the strangling ceased This medicine has a wonderfully soothing effect, and when he had taken two bottles I could not tell that he had any throat trouble. We have also used Dr. Chase's Ointment equally good results. It is a grand medicine for salt rheum."

Most folks forget that the kidneys, ike the bowels, get sluggish and clogsed and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys

active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. grapes and lemon juice, combined with ithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids n the urine, so it no longer irritates, thus ending bladder disorders. Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-

#### How To Gain Flesh

A simple but sure way to increase the weight, it is asserted by several well-known physicians, is to take regularly for several months one or two 3-grain hypo-nuclane tablets after each meal These little tablets have the distinguished merit of increasing the red and white blood corpuscles, aiding digestion and promoting assimilation and absorption of the elements in the food which go to make blood and solid tissues. They are obtainable in sealed packages from physicians and well-stocked apothecary shops .-- Advt.

## BREEDERS COMMEND PLAN OF FAT STOCK SHOW FOR LONDON

Declare City's Location, in Centre of Stock-Raising District, Would Insure Exhibition's Success-Farmers Would Extend Their Patronage to Exhibition.

That the agitation for a fat stock, Ont., director Canadian Clydesdale Asshow for London, to be held during sociation: "You may say such shows are now established in Guelph, Toronthe winter months, is meeting with the unanimous approval of the big breeders throughout Western Ontario, is shown by communications received by Industrial Commissioner Gordon The fact that London is situated in the heart of the most successful cattle-raising district in Ontario, is regarded as proof of its suc-

there would be no difficulty in getting there would be no difficulty in getting a fat stock exhibit together in London during the early winter, second to none, if there is a good substantial prize list put up. London is surrounded by good stockmen, and many new exhibitors would start in if they had a show right at home, and I see no reason why it wouldn't be patronized by farmers if such a show is launched."

Mac Campbell, Northwood, Ont., secretary Dominion Swine Breeders' Association: "With buildings and money you should soon equal Guelph and be better and larger, as Guelph has neither room for the show nor hotel accommodation for the people. As to the date how would about two weeks before Easter do? It would give the stock men a little bette: chance to sell their finished stock for the eastern market."

James Douglas, Caledonia, Ont., direc-James Douglas, Caledonia, Ont., director Ontario Sheep Breeders' Association: "If you would add the breeding classes as well as fat classes, as the season is late for a fat stock exhibit alone, if you would arrange your date after some of the other fat stock shows, say between Guelph and Ottawa to make a circuit for exhibitors, you would sure get a good exhibit and that will bring the people. "In answer to yours of the 12th would say that a show such as you refer-to. does an unlimited amount of good to an agricultural community such as you have around London."

Kenneth Featherston, Streetsville, Ont.: "Your proposition is one that I personally heartily indorse for several reasons. London location is one of the best with a great farming, stock raising country all around. Also these occasions are worthy of everybody's support. As to estimating the value to city and county at large is beyond question. I have not any hesitation in stating that, as a breeder, and can safely vouch that breeders and farmers will fulfill their

G. L. Telfer, Parls, Ont., director On-G. L. Telfer, Parls, Ont., director Ontario Sheep Breeders' Association: "In reply would say that a fat stock show and winter fair properly managed and housed would no doubt draw many breeders to your city, and would without doubt draw a large number from the outlying districts adjacent to London, who can hardly find time to make the trip to either Guelph or Toronto."

Robert McEwen, Byron, Ont., president Ontario Sheep Breeders' Association: Ontario Sheep Breeders' Association:
"Replying to your favor of the 12th
regarding a fat stock show and winter
fair it appears to me that something of
the sort is required for this western part the sort is required for this western part of the Province, which furnishes so many winners to Guelph, Toronto and Ottawa Winter Fairs. With the exhibits from Middlesex, Huron, Lambton, Kent, Elgin, Oxford and Wellington out of the Ottawa show there would be very little competishow there would be very little competition in beef cattle, sheep and swine and from these counties alone you could rely upon receiving abundance of entries of high class stock with which to make a good start. Live stock owners always tell you they like to come to the Western Fair for the reason that they do more business than they do at Toronto and on this account I would expect they would come here to a winter fair with fewer inducements than any other place I could name. Last week the sheep breeders voted \$75 to \$100 to the winter fairs at Guelph, Toronto, Ottawa and

airs at Guelph, Toronto, Ottawa and ondor if it has one." E. C. H. Tisdale, of the firm of Hodg. kinson & Tisdale, stock raisers, Beaverton: "London, as it is situated in the centre of the best part of Ontario,

the centre of the best part of Ontario, should be an ideal location for a winter fair, if it can be financed, and you have the proper buildings and management."

J. T. Gibson, of Denfield, a director of the Ontario Sheep Breeders' Association: "Surrounded as London is by such a good farming country that can produce so much good stock of practically all the breeds, I think you can depend upon the patronage of the stock breeders and farmers, provided the prizes are liberal enough."

P. J. McEwen, Wyoming: "I see no reason why a winter fair could not be reason why a winter fair could not be reason."

John Rattray, Famous as Caledonian Dancer, Dies in Detroit.

AN ADVERTISER GRADUATE

Learned His Trade on Paper Where He Started as a Carrier Boy.

"Johnny" Rattray, a graduate of The Advertiser composing room, and one of the best known Scotch dancers in the days of the Caledonian games, was accidentally asphyxiated in his boarding house in Detroit yesterday

Mr. Rattray had been employed as a linotype operator on the Detroit Free Press for some years and evidently met his death while sleeping. The Advertiser was notified of his death and informed that the typographical union of Detroit was taking charge of the remains, which were to e forwarded to Hamilton, where Mr. Rattray's mother resides.

A Boy With The Advertiser. Coming to this city as a boy from Hamilton, where he was born, when his father, John Rattray, Sen., was appointed manager of the Shedden Company, the unfortunate man first carried a route of papers on The Advertiser and subsequently entered the composing room, learning the printing trade and becoming a linotype operator. His father was one of the prominent figures in the Caledonian games and under his tuition the son became famous as a dancer, winning many medals and trophies As one of his old associates in The Advertiser put it, "He was one of the finest lads who ever came around the clock cor-

London, Feb. 18 .- Money supplies are shrinking and discounts were firmer today.

The recent plethora of new issues continues to weigh down the stock market and trading was quiet and easy today. The chief declines were in home securities, rubber stocks and Russian mines. The continental favorites hardened in the late trading.

American securities opened quiet and steady. Canadian Pacific advanced 1%, and the rest of the list small fractions on covering during the forenoon, but later the market moved sluggishly and closed

New York, N. Y., Feb. 18.—Wall Street, noon.—The market assumed no definite activity until shortly before noon, when there was a general rise in prices. Prior to that time the movement was narrow and pessimistic. Selling of Great Northern preferred and Union Pacific gave the list at times a reactionary trend. The improvement which eventually took place lifted Union Pacific, United States Steel, New York Central, Pennsylvania and Lehigh Valley a point over yesterday's closing, and other leading shares nearly as much. New Haven made up most of a loss of 1½. Buying was not in large volume, but operations on the long side were conducted more confidently when it became evident that bear selling was having little effect. Bonds were steady.

Paris, Feb. 18.—Prices were irregular on the Bourse today. Three per cent rents, 87 francs 35 centimes for the ac-count. Exchange on London, 25 francs 201/2 centimes for checks. Private rate of discount, 23/4 per cent.

#### THE RIDOUT STREET BANK THAT IS AGAIN CAUSING ALARM

With the approach of spring freshets in the river and the usual spring thaws, residents of the east side of Ridout street south, immediately south of the Ridout street bridge, are again becoming alarmed at the condition of the bank in the rear of their houses. As the photograph indicates, there is practically nothing between the rear of the most the only course that can be adopted to has gradually filled in the east bank of northerly houses and the brink of the Dumping of refuse on the other side of the river is claimed to have diverted the current so that it washes in at this point. It is gratifying to observe the creased interest on the part of the farmers of the province in approved agricultural methods. An indication of this is found in the fact that the attendance at the Ontario Agricultural College is about double what it was ten years ago, while the number of new students registered at the opening of the present term shows a marked advance over that of the previous year. To meet these conditions an enlarged equipment has been provided, and plans for further extensions are now receiving attention

The number of district representatives of the Ontario Department of Agriculture has been increased, and the work of the individual representatives has been made more effective. One marked feature has been the holding of rural school fairs, with a view to interesting the rising generation in better agriculture—seventy of these fairs having been held during the past season with marked success. It is hoped to extend this work until the whole province is served.

## on the Liver

So important is the liver and so great is its influence on the other vital organs of the body that it may be said you have little to fear from the ordinary ills of life so long as the liver is in a healthful working order. The digestive processes are so dependent on free action of the liver that any derangement of this organ soon brings trouble.

Biliousness and constipation follow, with headache and depressed spirits. Additional work is thrown on the kidneys, and soon the whole eliminating system is deranged and the blood carries poisons through the body. Careful eating is a great help towards keeping the liver right, but when it does get wrong there is nothing like Dr. Chase's Kidney-Liver Pills to re-store the liver to healthful action.

With the secretion of bile by the liver, constipation and biliousness are cured, and the digestive and excretory systems are set in order. It is won-derful the benefit obtained by a few doses of Dr. Chase's Kidney-Liver Pills under these circumstances. trial will convince you of superior merit.

Salary Boost For Chief Magistrate Causes Lengthy Discussion.

TANCOCK TAKES OBJECTION

Says That Graham Should Receive Only Stipend of \$2,000.

The city council, at its adjourned meeting, last night, spent nearly an hour in discussing the paying of \$1,000 per year to Mayor C. M. R. Graham as a controller's stipend, along with his regular controller's stipend. along with his regular salary of \$2,000, as mayor.

Ald. J. A. Tancock objected strenuously to his worship being paid \$3,000 a year, and claimed that such had not been intended, but others thought that the mayor was quite entitled to the complete sum by reason of the heavier duties

devolving upon him following the formation of the board of control.

The mayor allowed a free and easy discussion of the matter but stated that while he was not seeking charity, he was prepared to accept the amount. He pointed out that in other cities, the mayors received controllers' salaries in addition to their mayoralty remuneration, and intimated that if the position of mayor in London had been worth \$2,000 in former years, the inauguration of the board of control warranted the increase,

on account of the many extra duties.

is Entitled to Amount.

Controller J. P. Moore, vice-chairman of the board of control, said that the matter had been given to the attention of the controllers by the city treasurer. The city solicitor had advised that the mayor was a member of the board of control and fully entitled to the regular ontrollers' salary of \$1,000. The whole discussion commenced from the reading of the accounts which in-cluded \$416.65 for the controllers. The

The mayor was unable to give the percentage, but said that it had been fluured that about one hundred tons of coal would be saved. This statement contrasted very strongly with one given The Advertiser a few days ago to the effect that about one hundred additional tons at about one hundred of coal would be used this year as the result of heating part of the hospital
