The Voice of UNB

FOUNDERS' DAY

The 182 anniversary of the University of New Brunswick will be marked Thursday, March 2. Known as Founders' Day, it celebrates those men and women who established this University in 1785. A debate in which members of the faculty and student body will take part, an address by Dr. Gerald S. Graham, professor of Imperial History at London University along with special visitors from government and business, an art and library exhibition along with special traditional ceremonies will pay tribute to the University's founders.

The action of formally paying tribute to the university's founders is not an old one. For those who enjoy splitting hairs, the ceremony is not old enough to be called a tradition. It was Dr. Colin B. Mackay who, when editor of the *Brunswickan* in the 1940's urged university officials to set a day aside each year to honor the founders of the university. The idea sparked officials' interest and then action. Founders' Day has been celebrated ever since.

Coupled with the formal gestures of respect to the founders is a ceremony of rent payment to the reigning monarch through his or her representative. Payment of the Quit Rent evolves from the requirement of the first land grant to the College of New Brunswick on July 18, 1800. The payment is in acknowledgement of the grant of 5,900 acres of land made to the college at that date. The

sum of one farthing for every one hundred acres of land granted was established as the Quit Rent "payable in each year on the Feast of Saint Michael to his Majesty King George the Third, his heirs and successors forever".

Lieutenant-Governor John B. McNair of New Brunswick is expected to receive the Quit Rent from Dr. Mackay at an evening ceremony.

The decision to hold Founders' Day sometime in March was an arbitrary one. Dr. Mackay, in his Founders' Day address in 1960, said: "The story of our university is one of a slow but determined attempt to achieve provision for higher education in the Province of New Brunswick. From the beginning it had stout-hearted supporters but their ideas met with such public and even open hostility that it led to no less than three successive reorganizations of the institution. It is because of

our chequered and often turbulent career that we have found it quite impossible to designate any one specific day as that most suitable to commemorate our foundation."

It was the year 1785 when seven leading Loyalists presented a memorial to Governor Thomas Carleton for the creation of an academy of liberal arts and sciences. Because the memorial clearly infers the establishment of an institution of higher learning, UNB traces its beginning back to that date.

Students and members of the public are cordially invited to attend both the debate being held at 4 p.m. in Memorial Hall, and the Founders' Day ceremony beginning at 8 p.m. in the same hall. The guest speaker in the evening will be the Canadian-born British historian Dr. Gerald S. Graham. His address is entitled: "In Defence of the Ivory Tower."

FUTURE PROMISING FOR UNB

The Commission on the Future of the University has presented its report to President Colin B. Mackay. The report discusses everything concerned with the University from the residence system to the quality of teaching to the University's role in the community.

Compiled over the past 15 months, Alfred G. Bailey, Vice-President Academic was the chairman of the Commission. The Commission was requested by the President to deal with any matter they felt was relevant to the future of UNB. The content of the report was supplied by presentations of briefs to the Commission by Deans, Department Heads, individual faculty members and student organizations.

The Commission met twice a week since the President requested a report in Feb-

ruary 1965. The 197 page report was written by Dr. Bailey, Alan M. Sinclair, Associate Law Professor, D. R. Galloway, English Professor, Dr. H.H. MacKinnon of the Senate, Prof. Louis R. Seheult of the Forestry Department, Dr. L. W. Shemitt of the Chemical Engineering Department, Dr. Zdenek Valenta of the Science Faculty and Arthur F. VanWart of the University Senate.

The report is available at the Library, Bookstore and the SRC Office. The following is a selection of quotes on matters of particular interest to students.

Library

"It is...of the very first importance to the University to institute a greatly accelerated program of book purchasing, accompanied by a more discriminating selection of books.

"The Library should be made to increase at least five-fold by the time enrolment reaches 7,000, probably by 1975.

Quality of Teaching

"The Commission recognizes that sometimes it is unavoidable...for certain undergraduate courses be taught by graduate students, but it recommends that all regular undergraduate courses be taught by regular faculty members, and that the University support the departments' requests for the necessary staff.

Residences and Student Affairs

"The Commission recommends that a new residential college be established to the east or south east of Lady Dunn Hall. It should be composed of four adjoining houses placed around a quad-

range...Each house might be given over to a particular age class...This college would have its own kitchen and dining facilities...also...a new women's residence similar to the above mentioned men's residential college.

"The Commission recommends that the system outlined above be applied to the old residences which would constitute two colleges."

Students and

University Government

"The Commission recommends that there be both faculty and student representation on the Board (University Senate).

"It is recommended that the students elect a Rector to represent them on the Board (University Senate). Such a Rector must not be a student but might be already an existing member of the Board

(University Senate) or any Faculty member above the rank of assistant professor.

Admissions

"In order to effectively plan other areas of development...we are prepared to recommend the following:

(i) that the present ceiling should be lifted from enrolment beginning the academic year 1967-68.

(iii) that the enrolment be projected tentatively for 1975 at 7500 students...

(v) that the enrolment of students from outside New Brunswick fluctuate somewhere between a minimum of 25% and a maximum of 40% of the total population.

University of New Brunswick in Saint John

"The Commission does not recommend an extension of the present program beyond the first two years...it is

The Voice of UNB

BEACH REPORTS:

Mackay Recommends SDC Seat on Board of Deans

Wayne Beach is carrying out his program of "Action Now." At the first SRC meeting of his term of office he made several remarkable announcements.

He has met with Dr. Mackay and reports that the president has set May 15 as the opening date for the New Harriet Irving Library.

Dr. Mackay also said that he would recommend to the Board of Deans that the Student Disciplinary Committee Chairman sit in on all the meetings of the Board of Deans concerning student discipline.

Beach also said that he was encouraging concerning the SRC's Centennial Project and that he predicted that work on the Student Union Building would begin soon.

Co-ops

The other major matter of discussion was co-op housing. Farmer Council president, Lawson Hunter will head up the committee to get co-ops on their feet in Fredericton. It will be a small project at first with only 15 or 20 male students living there. It is estimated that it will cost \$538 for room and board in the co-op. A 90% loan must be negotiated from Canadian Housing and Mortgage Company and 10% of the cost will have to be raised and sufficient furniture will have to be collected.

The SRC is now calling for names of interested students with reference to co-operative housing. The Students Council wishes to see this program on its feet by early next year. Any student or organization interested in co-op housing is asked to write or see Wayne Beach or Lawson Hunter.

Concessions

The SRC has taken over the Student Directory Handbook concession from the Business Administration Club and placed it in the hands of an Administrator. The Administrator is to be hired by the SRC to handle its business and all advertising contracts.

FIRST STAGE OF COURSE EVALUATION COMPLETED

The Course Evaluation Committee has completed the first stage of what it has discovered to be an enormous and time consuming project.

Over 4500 forms have been completed and presently the Committee is preparing them for computer programming.

The purpose of the program is to promote the professor student relationship in education.

With few exceptions, professors were co-operative with the students delivering the questionnaire. Because of the unexpected magnitude of the response, results will not be available for the professors concerned until Monday.

Three Speakers, No Bills, At Model Parliament

This year's version of the Annual Model Parliament turned out to be quite extraordinary.

The Friday night and all day Saturday sessions saw three different speakers and the government refuse to resign after defeat on a major piece of legislation.

The speakers for the sessions were Professor Fitzpatrick of the Political Science Department who resigned after the Friday evening sitting. Gary Davis filled in on Saturday morning until a more able person could be found. Ronald Stevenson, a former clerk of the Provincial Legislature and presently a lawyer in Fredericton took the chair

for the remainder of the session.

None of the bills presented by the parties were passed by the house.

The government, headed by Alan Mitchell refused to resign when its bill failed to receive a majority of the votes cast. The Christian Atheists joined with the Liberals to enable them to remain in power.

The NDP was not permitted to present its bill because it was not considered constitutional.

The PC's were led by Terry Delaney with the NDP led by Macie Goldman. The Christian Atheists were led by Mike Carty.

Student Help Needed For Indian Project

A program has been established to help the underprivileged youth from the Maliseet Indian Reserve, but help is still needed, especially in dance and music instruction. This is a wonderful opportunity for Sociology Psychology and Physical Education students to gain valuable experience and at the same time to help some of the less privileged members of the community. Other

interested individuals are, of course, invited to take part in the program. Volunteers will not be asked to devote more than one evening a week. Instruction takes place in the Saint Marys' Band Hall on Union Street opposite the New Brunswick Hydro Office. Since the academic year runs its course in April, interested students from the Fredericton area would be especially interested. The program is arranged as follows:

MONDAY: (boys & girls)

7:30-8:30 Art Instruction

8:30-10:30 Music Instruction (guitar)

WEDNESDAY: (boys)

7:30-8:30 weight-lifting & body building

THURSDAY: (girls)

7:30-8:30 Modern Dance Instruction

8:30-10:00 Records and Casual talk

FRIDAY: (boys and girls)

8:30-11:30 Dance (Records Or Tapes)

SATURDAY: (boys and girls)

8:30-12:00 Music Instruction (boys)

1:30-4:00 Weight-lifting

The University contact for students and others interested in helping with instructions are:

Richard Wilbur, History Department - Local 352 or 454-5123

Ludo Abicht, German Department - Local 251 or 475-5021

Prof. Maher Honored By Students

Professor E. D. Maher was honoured by the Business Administration students last Thursday night. A presentation was made in appreciation of his years of effort in building up the UNB Business Administration Department to its present position of prominence in the Maritimes and Canada.

Over 175 of the Business Faculty's 250 students were in attendance and showed their enthusiastic support for Prof. Maher's efforts with a rousing ovation as he accepted the presentation.

Prof. Maher took over the Business Administration Department in 1954 shortly after its opening. It was then a one man operation. The Department now has five members.

Optimism this Week

The report of the Commission on the Future of the University appears to be a major step in defining the role of the student, and faculty member in this university community.

The programs outlined in the report are extremely optimistic and practical. Dr. A. G. Bailey is to be congratulated for the work of his Commission.

The recommendation that both faculty and students be represented on the University Senate is excellent. Both students and faculty members have wanted this for a long time.

Another recommendation is that steps be taken immediately to appoint a committee to study the question of the constitution and powers of the executive committee of the Board of Governors.

The Board of Governors is the recommended name for the senate. The Commission was progressive enough to recommend that the names of various offices of the University be updated to correspond with the names of similar University offices across the country.

Optimism is shining everywhere this week. Dr. Mackay set the new Students Representative Council off on the right foot by announcing a new role for the chairman of the SRC, the pending start on the SUB and his enthusiasm in the SRC's Centennial Project. His enthusiasm isn't enough, his financial support is what that project needs.

The recommendations of the Commission need only be enacted.

Letters to the Editor

MODEL PARLIAMENT A FARCE

Editor:

As a participant-observer during last weekends Model Parliament, I can only say that it was a lost weekend. Four bills were presented to the house, and of them, three were defeated, and the fourth was ruled out of order. These bills went down, not amidst intelligent conversation, but rather, rude outbursts, laughter, stupid questions, and sheer ignorance.

The original intent of Model Parliament was to provide students an opportunity to participate in or observe a Parliament session similar to those conducted in Ottawa. It was designed to be both educational and enjoyable. Admittedly, I got my share of laughs, but the educational merit was nil. If this is an example of the governing body of tomorrow, the Parliament Hill, as bad as it may be, has a hell of a lot going for it.

Whereas Model Parliament as it now exists is a farce,
Be it resolved that it be

discontinued or oriented toward its original intent.
Secunder anyone?

P.O.

"BOYCOTT THE PIZZA"

Editor:

The student body of UNB is rather well known for its mental indolence. But the time has come to shake off this lethargy. This is a call for action! - not for a Berkeley-type of protest against the War in Viet Nam or for a Freedom-Sex Movement on the Campus (That is all beyond the capacities of this student body - let's face it!) but on a matter which is of immediate concern - that which affects our belly and purse!

Over the past few months the price of the pizza delivered at the Campus has steadily risen and presently the cost of a "small" pizza stands at an incredibly all-time high of about \$1.60-perhaps a 300 per cent net profit for the suppliers; which is nothing but a sheer mass exploitation of the hunger-stricken stu-

dents on the Campus. We in the Campus are the main consumers and it is this demand which has encouraged the suppliers to raise the prices without any rhyme or economic reason. Everybody in the residences knows that we are being exploited but no single person can do anything about his without the co-operation of others. What we need is mass action. So let's act NOW. Let's all boycott the pizza until the prices are brought down to a reasonable level - at least for the students on the Campus. The House Committees should get together and fix up a date for the start of the boycott.

"BOYCOTT THE PIZZA"
Let's unite and let's test our strength!
THE MAN FROM MacKENZIE

NOUMOFF

Editor:

Something is amiss, indeed when an invidious attack is made upon any group which is concerned with attempting to aid in the realization of human freedom. While one may be selective as to emphasis at a given point in time, the concept itself is quite inseparable. Will the cause of the local Indian population, which you have suddenly displayed such an interest in, best be served by withdrawing support for the African in a like situation, or by expanding a conscious commitment to the values of justice.

Aware of this precise situation the Fredericton Anti-Apartheid Group took the following action this academic year: 1. At the first meeting in September it was decided to broaden our use of the term "apartheid" to include all policies of racial discrimination; 2. initiate a community program aimed at eliminating discrimination in residential accommodations. The first step of which was to have a letter published in the *Brunswickan* and the *Gleaner* requesting that complaints be filed with us; 3. commence a program for September 1967 which would attempt to expose and remedy all cases where students of this University found themselves discriminated against in seeking accommo-

dations within the city. It might also be of interest to note that the majority of regular attending members of the Fredericton Anti-Apartheid Group are simultaneously involved in organized and individual efforts on behalf of the Indian population.

The essence of quality journalism is not presumption, but speculation which is either verified or modified by going to the source. This clearly was not done prior to the drafting of sentence five in your recent editorial.

Sincerely,
S. J. Noumoff

6.8% OF CO-EDS LITERATE

Editor:

In January 12th edition of the *Brunswickan* the Ladies' Society (to which all UNB co-eds automatically members) put forth the proposal for a Women's Council, which would consist of executive members from a So-

ciety for non-residence girls, the LDH Society and the Maggie-Murray Society. Seven hundred and twenty-five questionnaires were mailed to UNB co-eds as a system of vote. These questionnaires were easy to answer as they only required a few check marks beside the desired answers and dropped into the Campus Mail.

Here's the result. Forty-eight votes out of seven hundred and twenty-five were returned. This shows that at least 6.8% of Co-eds on this campus read and answer their mail.

AT FESTIVAL OF THE ARTS

Earle Birney Speaks Friday

Free-lance movie producer and director Gerald Budner of Montreal spoke Friday evening on "Directing a Film on Art".

Mr. Budner is the second speaker to be at UNB during the university's three-week long Festival of the Arts program.

Mr. Budner outlined the steps in making a film on David Milne, starting with the reasons for selecting

Milne, through the preliminary photography, to editing the film from the "rushes", measuring and timing the numbers of frames to be used, writing the narration and the final mixing of the music and the spoken word for the film's presentation.

The Festival of the Arts is an annual UNB event which this year is sponsored by the Creative Arts Committee and

the Art Centre. Canadian architect Ronald J. Thom opened the festival last week with an address on university architecture, complementing it with an exhibition of his own university designs. The Festival's last guest will be Canadian poet Earle Birney who will read selections from his poetry on February 24 in Memorial Hall at 8:30 p.m.
