INDIAN TREATIES AND SURRENDERS

IN

RECORD GROUP 10 - RECORDS RELATING TO INDIAN AFFAIRS

VOLUMES 1840 - 1853

The documents on this microfilm were transferred to the National Archives of Canada by Indian Affairs. They are held in Government Archives Division in RG 10, Vols. 1840 to 1853. Other documents, reports, correspondence, and lists related to these agreements are scattered throughout RG 10 and, to a lesser extent, certain other record and manuscript groups.

Beyond the record group and volume numbers, there are at least two important numerical references for each of the 506 documents microfilmed here. All have a registration number (a consecutive treaty number) that was assigned by Indian Affairs before any of the documents were transferred to the Archives.

All have been given a unique Government Archives Division "IT" number because -- for about half of the registered treaties and surrenders -- the Archives received more than one document per consecutive number. These "extra" documents frequently consist of the same text in various formats. Sometimes they are adhesions and, occasionally, they are related items such as minutes or Orders in Council.

Not to be confused with the numbering systems mentioned above is the alternative and, for many, the more familiar terminology of the Western Treaties. Numbered One to Eleven (over their consecutive numbers), these are the major treaties entered into between 1871 and 1921 by the Government of Canada and Indian groups living to the northwest.

The list that follows shows the correlation between the volume numbers in RG 10, the Indian Affairs' consecutive numbers, the IT numbers, and the Western Treaty numbers.

The Government of Canada published the text of consecutive treaty numbers 1 to 120 in 1891 and numbers 281 to 483 in 1912. In 1971, Coles Publishing Company, Toronto, reprinted numbers 1 to 483 in a three volume set entitled Indian Treaties and Surrenders which is currently out of print but is available in some libraries.

The Archives' treaty holdings do not include all of the items represented in Indian Treaties and Surrenders; moreover, there are some documents in RG 10, Vols. 1840 - 1853 that do not appear in Indian Treaties and Surrenders.

There is no single explanation for the gaps evident in Vols. 1840 - 1853; however, some documents may have been retained by the Department of Indian Affairs and Northern Development (DIAND) for operational reasons.

DIAND's Treaties and Historical Research Centre has produced a series of Treaty Research Reports that not only reproduce the text of certain treaties but also contain background essays. These are available for the eleven Western Treaties and the Robinson, Williams, and Manitoulin Island Treaties.

This 35 mm black and white microfilm of the Indian Treaties and Surrenders has been converted to a treaty-by-treaty fiche format available for consultation at the National Archives. Questions regarding these records or any other holdings of the National Archives may be directed to:

On the Petition presented to Us by Messieurs the Ecclesiastics of the Seminary of St. Sulpice established at Montreal in which they represent that it would be to the advantage of the Indian Mission of Sault-au-Recollet in the Island of Montreal, which is under their Care, if the said Mission was permanently established above the Island of Montreal on the lands lying on the North West side of the Lake of Two Mountains, which said Mission would be advantageous not only for the conversion of the Indians, who being at a greater distance from the City, would then have no opportunity of falling into intemperance, but also to the Colony, as by this means it would be protected from the incursions of the Iroquois in time of war praying us to grant them for the said Mission, a tract of land of the extent of three leagues and a half of frontage, commencing at a brook which falls in the Great Bay of the Lake of Two Mountains, and ascending along the said Lake

And

that they shall bear the whole expense necessary for the removal of the said Mission and also cause a Church and fort to be built there of stone as their own cost, for the security of the Indians according to the plans thereof which shall be by them handed over immediately to be by us seen and approved, and the said works to be terminated within the space of two years, subject also to the condition of fealty and homage (foi et hommage) which the said Sieurs Ecclesiastics of the Seminary, their Successors and Assigns shall be held to perform at the Castle of St Louis in Quebec and which they shall hold under the customary duties and dues and agreeably to the Custom of the Prevostship and Vicomty of Paris followed in this Country and that the appeals from the decisions of the Judge who may be established at the said place, shall lie before the Judges of the Royal Jurisdiction of Montreal, that they shall Keep and cause to be Kept house and home (feu et lieu) on the said Concession, that they shall preserve their oak timber fit for Shipbuilding which may be found upon the same, which the said Ecclesiastics shall have set aside for their principal Manor house and that they shall also stipulate the

Yellow Head Speaker

Father — We received your message, and we are come here to hear what you have to say — Our Ears are open, and we now welcome the message that you sent us. — Five String Wampum

The Deputy Superintendent General

Children — I take you by the hand, and am glad to meet you at this Council fire, and I do now agreeably to the old customs established by your forefathers proceed to the Ceremony of condolence usual on these occasions. —

Children — With these strings of Wampum I do in behalf of your Great Father the King of England and all his Officers wipe away the tears from your eyes which you are shedding for your late Friends and Relations, and I clear your sight that you may look cheerfully at your Brethren who have accompanied

accompanied me to this place.

Childrun With this Shell I clear the passage to your hearts that you may speak chearfully and candidly on the subject ~~xxxxxx~~ ~~xxxxxx~~ which I shall speak to you of, as well as to remove all sorrow and uneasiness from your minds.

With this String I wipe away the blood of your friends from off your Faces, that you may on your return rest with ease and comfort on them.

Four Thing, white Wampum.

Childrun I am much concerned for the losses you have sustained in your Nation since I last met you, and sincerely condole with you for them.

With this String, I light up your Council Fires that the Chiefs remaining may on all occasions sit comfortable by them, and consult upon the several matters that may come before them, and zealously ably yourselves to every means that may tend to your Ease and Safetys.

Childrun, A very considerable change has taken place in this Country within a few years. Your Great Father the King's white Childrun encrease so fast, that the Country he has bought at several times from his Indian Childrun is not sufficient for the numbers that come to the Country. On this account therefore I now address you. The King your great Father never has, nor ever will take any part of land from any of his Indian Childrun without their free consent and paying them therefor.

Childrun From the many testimonies you have given of your great regard and Love towards your Father the King, there are no doubts on my

mind, that you will now chearfully comply with his request, and it will afford me great satisfaction, to assure him of the chearfulness with which you comply with his wishes.

Childrun I now lay before you a plan of the Country which it is his wish now to purchase from you for the comfort and accomodation of his white Childrun. It is but small, but your great Father wishes to have a free and safe road to his Western Childrun, with whom he is desirous of having a more extended and wider path than Heretofore. I hope therefore, my Childrun, that as the Sale is small, it will not take up much of your time to determine on giving me a favorable answer.

Four Things Black and white Wampum.

Childrun Another subject I have to mention to you. Your Father has ordered a Town to be laid out on this Ground, and posts have been planted to mark the boundary of each Lot, which I desire you will not remove, and that you will prevent your Childrun from destroying.

Childrun As you must be hungry, I have brought with me some of your great Fathers milk and bread, and some Ammunition for your young men, which shall be delivered to you before I leave this.

Yellow Head Speaker.

Father We have heard what you have said and certainly we will not refuse anything that our Great Father the King asks of us. We freely and chearfully grant him the Land described in

RG 10, Vol. 1842, IT 063, Indian Affairs' Consecutive Number 20 [?]
2

in the Plan which you have just laid before us — It is not only from my mouth that these words proceed, but from my Heart. — I am not the only One who thinks thus — We are unanimous in cheerfully Granting what our Father now requests of us — even our Children are pleased. —

Four Strings Wampum.

Father — We wish that our Great Father would send us a Blacksmith to make Spears and other things for us — Our Garden Grounds are poor, and require Iron to work them.

Young Messinse Speaker

Father — I request to be permitted to occupy my Garden Ground at Sandusky during my natural life, or until our Fathers white Children may want to take possession of it.

Father — Your Indian Children are often much in want of Provisions during the Summer — We request therefore that you will help us, and lend us a little Provisions every Summer whilst our Corn is ripening. —

Children — In the afternoon the Lieut. Gov. Lieut. General and the Chiefs I am much pleased with your cheerful and ready compliance with your Father the Kings request at this Council, and I now lay before you a Writing to be signed by myself on behalf of the King, and you on behalf of yourselves and your Nation. — This writing is an Agreement by which you bind yourselves to execute a regular Deed, transferring to your Great Father the King of England the Tract of Land described within the black lines on the Plan which I now give you

You

you, when the first of Four yearly Payments of Four Thousand dollars each shall be made to you in Goods at Montreal prices.

Children — I do not consider that we have a right to take possession of those Lands untill the Deed of Conveyance shall be executed, and then is no objection to your occupying the Gardens Grounds at Penetanguishine Bay untill your Fathers whole Children shall have occasion for them.

I will take the first Opportunity of mentioning your request of Provisions to your Father the Lieut Governor.

The Yellow Head and the other Chiefs assembled on the afternoon of the 9th June.

Yellow Head Speaker.

Father — In the names of our Chiefs and all our People, I give you thanks for the things you brought us — Your Children feel grateful, and particularly your Grand Children, who were very hungry untile you came here — Our Children thank you very much. You gave us some of our Fathers Milk which has warmed our hearts — we thank you for that.

Father — We wish that our Parents may be sent to us earlier in the Season, as we lose much by their being sent to us so late. I have done. —

Young Miramice then spoke

Father — What my Friend has told you is true — I live a long way from this, and my Country is colder than this. — When I came for my Parents, by the time I return, the weather is so cold

that

that I cannot get to my Hunting Ground, and we love our Kids as we are him getting our parents at the time it is hot to gather. and when we get back it is all taken into the water Hope our Father will take pity on us and send us our parents soone. — We thank you very much for the Powder and Shot.

The Deputy Supt. General

Children I am happy to understand that you are all well pleased, and hope you directions that your Parents be sent in better season than usual.

City of Toronto 28th April
1835.

My dear Sir

I beg to hand you the accompanying Deeds recently executed by the Chiefs of the Six Nation Indians, which His Excellency was pleased to say at an interview I had with him yesterday he thought ought to be registered in the Secretary's Office. The one is a deed surrendering to His Majesty 4,000 acres of land for the purpose of sale for the benefit of the Indians, and the other is a Surrender of all the Lands included in the Brant Leases to His Majesty for the purpose of enabling Patents to issue to such persons as may be found equitably entitled to receive them. Both the deeds are of such an important nature that I should recommend strongly their

being recorded without delay.- After this has been done it would be well perhaps if they were returned to me to be kept with the Indian Papers or deposited in the Indian Office.-

I remain, my dear Sir,

Very faithfully Yours,

William Stephenson

My Children

Twenty Snow Seasons have now passed away since we met in Council at the Crooked place (Niagara) at which time and place your Great Father the King and the Indians of North America tied their hands together by the Wampum of Friendship—

Since that period various circumstances have occured to seperate from Your Great Father many of his Red Children, and, as an unavoidable increase of White population as well as the progress of Cultivation have had the natural effect of impoverishing your hunting grounds it

RG 10, Vol. 1844, IT 120, Indian Affairs' Consecutive Number 45

it has become necessary that new ar-
=rangements should be intered into for
the purpose of protecting you from the
encroachments of the whites.

In all parts of the world
farmers seek for uncultivated land
as eagerly as you, my red Children
hunt in your forest for game. - If
You would cultivate your land, it
would then be considered your own
property in the same way as your
dogs are considered among Yourselves
to belong to those who have raised
them; but uncultivated land is
like wild Animals, and Your Great
Father who has hitherto protected
You, has now great difficulty in
securing it for you from the whites,
who are hunting to cultivate it. -

Under these circumstances
I have been obliged to consider what
is best to be done for the red Chil-
=dren of the forest and I now tell
You my thoughts -

It appears that these Islands
in

on which we are now assembled, in Council, as well as all those on the North Shore of Lake Huron. also claimed by the English. the Ottawas, and the Chippewas. -

I consider that from their facilities and from their being surrounded, by innumerable fishing Islands, they might be made a most desirable place of Residence for many Indians who wish to be enlarged as well as to be totally separated from the Whites. and I now tell you that your Great Father will withdraw his claim to these Islands and allow them to be applied for that purpose.

Are you therefore the Ottawas and Chippewas willing to relinquish your unspecified claims to these Islands, and make them the property (under Your Great Father's Control) of all Indians whom he shall allow to reside on them - if so - affix your marks to this My Proposal

E. P. Bruce.

– To the Saukenogs. –

My Children –

You have heard the proposal I have just made to the Chippaways and Ottawas, by which it has been agreed between them and your Great Father that their Islands (Manatoulin) on which we are now assembled, should be made, in Council the property (under Your Great Fathers Control) of all Indians whom he shall allow to reside on them –

I now propose to you that You should surrender to your Great Father, the Sauking Territory you at present occupy and that you should repair without to this Island, upon which proper houses shall be built for you, and proper assistance given to enable you

* Or to that part of your territory, which lies on the North of Owen's sound –

to becom civilized and to cultivate land which your Great Father engages for ever to protect for you from the encroachment of the whites.

~~At least on the Quantity you at present Occupy shall remain unalienated, you will from full liberty to Cultivate it as your hunting grounds~~

Are you thereforn the Sauking Indians willing to accede to this arangement, if so, affix Your marks to this my proposal.—

report to Hble Executive Council —

Indian Office
Toronto 5th January 1844

The Lieutenant Governor has directed
me to inform the Deputation of Chiefs
from the Grand River, that he has attentively
considered their Speech to him, and
particularly that important part of
it which relates to the occupation
of their Lands by white people without
authority —

The Lieutenant Governor is
of opinion, that very great difficul-
-ties will be found in any Statutory
course, between the Expulsion of all
intruders or Non interference — as Ex-
-perience has shewn that, until the
Province is able to do justice, and both
use the Power exercised to prevent
injury to Indian interests, the
interference of the Indians themselves
continually, has created new diffi-
-culties to which there seems to be
no End: And yet the Government
is expected to compromise its own
Character by adjudging what is

RG 10, Vol. 1844, IT 129, Indian Affairs' Consecutive Number 50

right and wisely recommended by the Indians, or what on the other hand may be capriciously or corruptly counselled by them -

The Lieutenant Governor is of opinion that then can be no remedy found for the Continuance of this unsatisfactory and embarrassing state of affairs, while the Lands remain general property under circumstances, which is no reproach to the Indians to say that they cannot manage the Estate for the general interests of the Tribes -

The Lieutenant Governor therefore Considers that it would be very much for the benefit of the interests of the Indians if they surrendered into the hands of Government the whole Tract with the exception of such part of it as they may choose to occupy as a Concentrated Body - so that the same may be disposed

of by Government; And the Lieutenant Governor therefore strongly recommends that this Course be adopted by them. That they immediately select a Tract of sufficient extent to give each head of a family or grown up man a farm of one hundred or Two hundred acres (as may be thought expedient) for Cultivation in the most Eligible Situation on the River together with a further quantity to be reserved for Fire wood and other Contingencies - That the Indians then remove to this Tract and live together as a Concentrated body upon the farms assigned to them and that the residue of this Tract be surrendered to be disposed of for the Exclusive benefit of the Indians

The Lieutenant Governor is also of opinion that when the Indians are thus settled together there will be no difficulty in keeping away intruders, & summarily punishing them should they persevere in Committing Trespasses on this Tract of Land.

RG 10, Vol. 1844, IT 129, Indian Affairs' Consecutive Number 50

2

The Lieutenant Governor feels confident that the proceeds of the sale of the residue of the Land and the Timber growing upon it will retrieve the affairs of the Six Nations Indians as much as can for at that Section of the Province a lasting benefit, by bringing into Cultivation a large Tract of the finest description of Land which at present is not only unprofitable to the Indians, but absolutely useless to them in every point of view and which is considered by the Public a bar to the improvement and prosperity of the Districts in which it is situated, and in fact a Nuisance which the Public have a right to call upon Government to abate.

It is unnecessary for the Lieutenant Governor again to explain the great Anxiety felt by the Indians Government to promote the interests of the Indians and to carry out such a System in the Management of their Affairs

as may conduce to this end - And
his Lieutenant Governor therefore trusts
that every Member of the Community
of the Six Nations Indians will believe
him when he states, that if he were
not firmly Convenced that the Plan
proposed in this Communication
was the most prosperous for their adop=
=tion he would not have recom=

Seneca 15 January 1841

To The Chiefs of the Six Nations Indians —

Being convinced by Conversation with Several Indians of the Six Nations, since my arrival among them, that my Communication to the Chiefs of the 5th January 1841 relating to the Six nations Land upon the Grand River is altogether misinterpreted by them, I have thought it necessary to submit the following, in explanation of that Document, and of the intention of Government, in order to protect the true interests of the Indians.

The Government are of opinion that it would greatly conduce to the happiness, comfort and wealth of the Six Nations, if all their Land, with the exception of what is necessary for their own Cultivation, and for fire wood, should be disposed of, so as to create a fund Continually Increasing for the

RG 10, Vol. 1844, IT 129, Indian Affairs' Consecutive Number 50

5

benefit of the Six Nations; and upon such a Plan they are of opinion that the income of the Six nation can be immediately encreased by a Sum, varying from £3.000 to 5.000 per annum

The Government therefore in the Communication of the 5th January instant proposed to the Chiefs and Warriors, that the Whole tract with the Exception of such part of it as they may Choose to occupy as a Concentrated body, should be surrendered, So that the same should be immediately disposed of for the benefit of the Indians, and to relieve the present embarraped State of their Affairs -

The Government were also of opinion that it would be for the benefit of the Indians and proposed in the Communication of the 5th instant, that

they should remove to such Tract as should be thus reserved and set apart for their Exclusive benefit. And became pledged to protect the same from every species of injury or intrusion upon the part of the white Man But in opposing this, their opinion to the Chiefs and proposing that such a reservation should be made, it was by no means the intention of the Government, nor is it their intention to desire the removal of any Indians from a farm at present in his occupation, and when the Indian himself is content to remain - but they deem it desireable, to secure a Tract permanently for their occupation in case any of the Indians should voluntarily desire to dispose of their improvements under sanction of the Government and to remove to such Reservation

RG 10, Vol. 1844, IT 129, Indian Affairs' Consecutive Number 50
6

when a home should be
secured to him apart from the
interference of the white man-
and [illegible] it were to be thoroughly
understood, that it is by no means
desired to remove the Indians
from Lands at present in their
Occupation, nor at any time
to press such a measure upon
them - but that the removal in
all cases should emanate
voluntarily from themselves, if
at any future period they
should think it advantageous
so to do - And that the white
men who are now on the tract
and who have almost with-
-out Exception, been invited
and introduced into the tract
by the Indians themselves
should be no longer suffered
to remain upon those Valuable
Lands without paying a single
Shilling to the Indian Funds
but the Government should

RG 10, Vol. 1844, IT 129, Indian Affairs' Consecutive Number 50

7

immediately interfere to compel the Payment of a fair Value into the Hands of the Indian —

It is also likewise to be understood, that in case any Indian (upon the proposed Plan) should desire to dispose of his Improvement, and to remove to the Reserved Tract, no bargain can be noticed or allowed, which is not in the first instance proposed, as such by the Purchaser as the Indian, to the Department and approved of — and that any further trespass or intrusion, of any nature whatsoever upon the Reserved tract, whether Committed without or with the approbation of the Indians, either singly or Collectively, will meet with the strongest disapprobation of the Government, and that the Parts offending shall be immediately removed and punished according to the Law

From a Careful Enquiry into the nature of the Claims of the White men to the Lands in

RG 10, Vol. 1844, IT 129, Indian Affairs' Consecutive Number 50

their occupation of it is but too plainly apparent that they have been invited by the Great Majority of the Indians, and that the latter have received large sums of money which they are wholly incapable of ever refunding — so far indeed from the Government, receiving any Co operation from the Indians notwithstanding their repeated remonstrances, and calls upon them for Protection, they find every measure proposed thwarted by the conduct of the Indians themselves, by the repeated pretended Sales of their Public Property, and that too, not only within the last year, but if I am correctly informed within the last fortnight, by some of the Chiefs and Indians who have been most urgent in their remonstrances

Under such circumstances

it cannot be expected, nor would it in any manner tend to the interest of the Indians, that expenses of 2.000 white persons, nearly equal in number to the Indians upon the Grand River should be totally removed from their homes, for which in some instances they have paid so dearly to individual Indians — Neither Justice or policy, or a due regard to the Indian interests, requires or will permit of such a measure nor can any such be expected to be approved of by me, or recommended to the Government

I am informed and believe from my own observation, that the above plan proposed, meets with the approbation of the most intelligent, industrious and worthy of the Indians, and I am fully satisfied that their true interest, requires its adoption

Those who are opposed to it, must therefore reflect

RG 10, Vol. 1844, IT 129, Indian Affairs' Consecutive Number 50

9

that any private division in the Council, from whatever cause proceeding, cannot prevent the Government from interfering, in seconding the wishes of the Industrious and from promoting the wealth and prosperity of the nations as a body -

In case any further divisions should take place in Council, and by declining amicably to meet the views of Government, the Indians should continue to thwart the measures deemed as most conducive to their interest I do apprehend that the Government must be compelled however reluctantly to take into their own hands the exclusive Management of their affairs, and no Chief Superintendent should be my duty, immediately upon my Return, to recommend such a course, to prevent the

Public Property of the Six Nations
from being Sacrificed to the
avarice and rapacity of In=
=dividuals -

Hence made frequent
applications to the British Govern
= ment, relating to the Stock
in the Grand River Navigation
Company held by the Indians
and I think I can with safety
say, that measures will be
soon adopted in relation to
that matter advantageous
to the Indians -

In Conclusion I can only
further Report that of the
above measures proposed,
had not been Maturely Considered
and if it was not ~~Considered~~ Thought not
most Calculated to promote
the interests of the Six Nations
& I never would have
Received the Approbation of
the Government nor of Myself
as Head of the Department

I therefore recommend
to the Indians in Council

acres as a further Reservation
and that the Selection of this

The Lieutenant Governor has directed me to inform the Deputation of Chiefs from the Grand River, that he has maturely considered their Speech to him, and particularly that important part of it which relates to the occupation of their Lands by White People without authority.

The Lieutenant Governor is of opinion, that very great difficulties will be found in any medium course, between the expulsion of all intruders or non-interference—as experience has shewn that, with all the anxiety to do justice, and with all the care exercised to prevent injury to Indian interests, the interference of the Indians themselves continually, has created new difficulties to which there seems to be no end; and yet the Government is expected to compromise its own character by adjudging what is right and wisely recommended by the Indians, or what on the other hand may be capriciously or corruptly connected by them.

The Lieutenant Governor is of opinion that there can be no remedy

remedy found for the continuance of this unsatisfactory and embarrassing state of affairs, while the lands remain general property under circumstances, which is no reproach to the Indians to say that they cannot manage the Estate for the general interests of the Tribes.

The Lieutenant Governor therefore considers that it would be very much for the benefit of the interests of the Indians if they surrendered into the hands of Government the whole Tract with the exception of such part of it as they may choose to occupy as a concentrated Body, & that the same may be disposed of by Government; and the Lieutenant Governor therefore strongly recommends that this course be adopted by them. To the Chiefs of the Six Nation Indians

Being convinced by conversation with several Indians of the Six Nations since my arrival among them, that my communication to the Chiefs of the 5th January 1841 relating to the Six Nations Lands upon the Grand River is altogether misinterpreted by them, I have thought it necessary to submit the following, in explanation of that Document, and of the intention of Government, in order to protect the true interests of the Indians.

The Government are of opinion that it would greatly conduce to the happiness, comfort and wealth of the Six Nations, if all their Land, with the exception of what is necessary for their own cultivation and for fire-wood, should be disposed of, so as to create a fund continually increasing for the benefit of the Six Nations, and upon such a plan they are of opinion that the income of the Six Nations can be immediately encreased by a sum, varying from £3,000 to £5,000 p.r annum.

The Government therefore in the communication of the 5th

RG 10, Vol. 1844, IT 130, Indian Affairs' Consecutive Number 50

4

5th January instant proposed to the Chiefs and Warriors, that the whole tract with the exception of such part of it as they may choose to occupy as a concentrated body should be surrendered, so that the same should be immediately disposed of for the benefit of the Indians, and to relieve the present embarrassed state of their affairs.

The Government were also of opinion that it would be for the benefit of the Indians, and proposed in the communication of the 5th instant, that they should remove to such tract as should be thus reserved and set apart for their exclusive benefit; and became pledged to protect the same from every species of injury or intrusion on the part of the White man. But in expressing thus, their opinion, to the Chiefs, and proposing that such a reservation should be made, it was by no means the intention of the Government, nor is it their intention to desire the removal of any Indian from a farm at present in his occupation, and where the Indian himself is content to remain, but they deem it advisable, to secure a Tract permanently for their occupation in case any of the Indians

Indians should voluntarily desire to dispose of their improvements under sanction of the Government and to remove to such reservation where a home should be secured to him apart from the interference of the White Man, and I wish it now to be thoroughly understood, that it is by no means desired to remove the Indians from Lands at present in their occupation, nor at any time to press such a measure upon them, but that the removal in all cases should emanate voluntarily from themselves if at any future period they should think it advantageous so to do. And that the White men who are now on the Tract, and who have almost without exception, been invited and introduced into the Tract of the Indians themselves should be no longer suffered to remain upon these valuable Lands without paying a single shilling to the Indian Funds, but the Government shall immediately interfere to compel the payment of a fair value into the funds.

I wish it likewise to be understood, that in case any Indian (upon the proposed plan) should desire to dispose of his improvement, and to remove to the

RG 10, Vol. 1844, IT 130, Indian Affairs' Consecutive Number 50
5

the Reserved Tract, no bargain can be noticed or allowed, which is not in the first instance, proposed, as well by the purchaser as the Indian, to the Department and approved of - and that any further Trespasses or intrusion, of any nature whatsoever upon the Reserved Tract, whether committed without or with the approbation of the Indians, either singly or collectively, will meet with the strongest disapprobation of the Government, and that the party offending shall be immediately removed and punished according to the Law.

From a careful enquiry into the nature of the claims of the White Men to the Lands in their occupation if is but too plainly apparent that they have been invited by the great majority of the Indians, and that the latter have received large sums of money which they are wholly incapable of ever refunding - so far, indeed, from the Government receiving any co-operation from the Indians notwithstanding their repeated ~~notwithstanding their repeated~~ remonstrances, and calls upon them for protection, they find every measure proposed thwarted by the conduct of the Indians themselves

RG 10, Vol. 1844, IT 130, Indian Affairs' Consecutive Number 5

6

themselves by the repeated pretended
Sales of their Public property, and
that too, not only within the last
year, but if I am correctly informed,
within the last fortnight, by some
of the Chiefs and Indians who
have been most urgent in their
remonstrances.

Under such circumstances
it cannot be expected, nor would
it in any manner tend to the
interest of the Indians, that up-
wards of 2,000 White Persons,
nearly equal in number to the
Indians upon the Grand River
should be utterly removed from
their homes, for which in some
instances they have paid so
dearly to individual Indians-
neither Justice or policy, or a due
regard to the Indian interests,
requires or will permit of such
a measure, nor can any such
be expected to be approved of by
me, or recommended to the
Government.

I am informed, and believe
from my own observation, that
the above plan proposed meets
with the approbation of the most
intelligent industrious and
worthy of the Indians, and I am
fully satisfied that their true
interest requires its adoption.

it, must therefore reflect that any private division in the Council, from whatever cause proceeding, cannot prevent the Government from interfering in seconding the wishes of the industrious and from promoting the wealth and prosperity of the Nations as a body.

In case any further divisions should take place in Council, and by declining amicably to meet the views of Government, the Indians should continue to thwart the measures devised as most conducive to their interest, I am apprehensive that the Government will be compelled however reluctantly, to take into their own hands the exclusive management of these affairs, and, as Chief Superintendent, it will be my duty, immediately upon my return, to recommend such a course, to prevent the public property of the Six Nations from being sacrificed to the avarice and rapacity of individuals.

I have made frequent applications to the British Government, relating to the stock in the Grand River Navigation Company held by the Indians, and I think I can with safety say, that measures will be soon adopted in relation to that matter advantageous

=vantageous to the Indians.

In conclusion I can only further assure you that if the above measure proposed, had not been maturely considered, and if it was not thought most calculated to promote the Interests of the Six Nations, it never would have received the approbation of the Government nor of myself as Head of the Department.

Therefore recommend to the Indians in Council that they approve of the Government disposing for their exclusive benefit and advantage, either by Lease or otherwise of all their Lands which can be made available with the exception of the farms at present in their actual occupation and cultivation and of 20,000 Acres as a further Reservation and that the selection of that Reservation be deferred until after a general Survey of the Tract, when the position most advantageous to the general interests and peculiar wants of the Indians can be more judiciously selected.

I will merely add that I will meet the Chiefs in Council at the Onondaga Council House on Monday next at 1 O'Clock to receive their answer.
