There is no material change. Turpentine shows another advance, now being quoted at 57c. It took a jump of 3c in Savannah, and consignments to arrive here next week will be quoted a couple of cents higher than present prices. Demand is not good for turpentine. Linesed oil is in good demand at 55c for raw and at 55c for boiled. White lead is slow owing to the unfavorable weather. The first consignment of spring glass is due here about April 1. Payments continue fair.

HARDWARE.

There is a marked improvement in the state of trade generally, and the tone is healthier. Metals are a good deal framer. This applies more particularly to copper, which has advanced fully 10 per cent.

15,000 of these chains will be given away to create an interest with the public in our great fight, Frank S. Taggart & Co, versus the Canadian Association of Jobbers in American Watches.

The first mail on Monday brought us a large number of replies. We would like to large number of replies. We would like to print all of them, but space costs money, so we give but a few of the answers received, yet everyone we have had is of the one

opinion. William White, Palgrave, Ont., says: Having seen your proposition to send gold-filled chain to all persons answering questions in The Empire, I begleave to answer them as follows: First—Combines do not act in the interests of the people; quite the contrary. Second—The middlemen are not a bensit to consumers. Third—It is a great advantage to have a catalogue and prices of watches and other articles, as then people, can choose for themselves. Also find \$2 enclosed, for which send chain.

Mr. J. E. Gerdon, Tweed, says: Dear Sig.—My answers are as follows: First

No. Second—No. Third—Certainly. \$2 enclosed; send me nice pattern. F. J. C. Tighe, Emerald, Amherst Island, Ont., writes: To the first and second questions given in Ex-pire I answer, "No," and to the third, "Yes." Also kindly send me your catalogue of watches and sporting goods.
