Mr. Speaker reported His Excellency's Speech from the Throne, and read a copy thereof to the House, which is as follows :--

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In addressing the Parliament of Canada for the first time, in fulfilment of the important trust which has been committed to me as Her Majesty's Representative, I desire to express the satisfaction with which I resort to your advice and assistance.

I am conscious of the honour which attends my association with your labours for the welfare of the Dominion, and it will be my earnest endeavour to co-operate with you, to the utmost of my power, in all that may promote the prosperity of the people of this country, the development of her material resources, and the maintenance of the constitutional ties which unite her provinces.

It is to be regretted that the treaty concluded between Her Majesty and the President of the United States for the adjustment of the questions which have arisen with reference to "The Fisheries," has not been sanctioned by the United States Senate, in whom the power of ratification is vested; and that our legislation of last year on the subject is therefore in a great measure inoperative.

It now only remains for Canada to continue to maintain her rights as prescribe by the Convention of 1818, until some satisfactory re-adjustment is arranged by treaty between the two nations.

A measure will again be submitted to you to amend the Acts respecting the Electoral Franchise, for the purpose of simplifying the law and lessening the cost of its operation.

It is expedient, in the interests of commerce, to assimilate, and in some particulars to amend, the laws which now obtain in the several Provinces of the Dominion relating to Bills of Exchange, Cheques and Promissory Notes; and a Bill with this object will be laid before you.

A Bill will also be provided for making uniform throughout the Dominion the laws relating to Bills of Lading.

During the recess my Government has carefully considered the subject of Ocean Steam Service, and you will be asked to provide subsidies for the improvement of the Atlantic Mail Service, and for the establishment. in concert with Her Majesty's Government, of a line of fast steamers between British Columbia and China and Japan. Your attention will also be invited to the best mode of developing our trade, and securing direct communication by steam with Australasia, the West Indies and South America.

A Bill will be submitted for your consideration for the prevention of certain offences in connection with Municipal Councils, and to give greater facilities for making enquiries as to such matters.

Several measures will also be presented to you for improving the law of procedure in criminal cases. Among these will be a Bill to permit the release on probation of persons convicted of first offences, a Bill authorizing regulations to be made for the practice in cases partaking of the nature of criminal proceedings, and a Bill to make the Speedy Trials Act applicable throughout Canada.

Bills relating to the inspection of timber and lumber, for the improvement of the Postal System, and for increasing the efficiency of the North-West Mounted Police, will also be submitted for your consideration.

The Royal Commissioners on Labour having concluded their enquiries, I hope to be able to lay before you at an early day their report with the important evidence collected by them in various parts of Canada.

Gentlemen of the House of Commons :

The accounts for the past and the Estimates for the ensuing year will be laid before you. These Estimates have been prepared with a due regard to economy and the efficiency of the public service.

Honourable Gentlemen of the Senate : Gentlemen of the House of Commons:

I now commend these several subjects and the others which may be brought before you to your earnest consideration, and I trust that the result of your deliberations may, under the Divine Blessing, tend to promote the well-being and prosperity of Canada.

On motion of Sir John A. Macdonald, His Excellency's Speech was ordered to be taken into consideration to-morrow.

Resolved,—That Select Standing Committees of this House for the present Session be appointed for the following purposes :—1. On Privileges and Elections. 2. On Expiring Laws.—3. On Railways, Canals and Telegraph Lines.—4. On Miscellaneous Private Bills.—5. On Standing Orders.—6. On Printing.—7. On Public Accounts.—8. On Banking and Commerce.—9 On Agriculture and Colonization,—which said Committees shall severally be empowered to examine and enquire into all such matters and things as may be referred to them by The House; and to report from time to time their observations and opinions thereon; with power to send for persons, papers and records.

Mr. Speaker laid before The House,—The Report of the Joint Librarians of Parliament, on the state of the Library of Parliament, which is as follows :—

TO THE HONOURABLE THE SPEAKER OF THE HOUSE OF COMMONS.

The Joint Librarians of Parliament have the honour to report as follows for the year 1888.

It has been deemed advisable to delay the reprinting of the American Catalogue until the work can be performed by the Government Printing Bureau. The Librarians expect to be able to place the copy in the hands of the printers as soon as they are able to use it. In the meantime the Canadian section has received valuable additions. The collection of the original editions of the *Relations des Jésuites* has been nearly completed; a full series comprises forty volumes, and the Librarians have been able to secure up to the present time thirty-six volumes of the series. A complete set of these remarkable annals of our early history is now valued at \$2,500.

Among the principal additions which come under the general title of Americana, the Librarians desire to call attention to:

1st. The Christian Recorder, 2 volumes, published at York (Toronto) in 1819-20, one of the earliest prints of Upper Canada and one of the rarest.

2nd. A series of letters addressed by the late L. J. Papineau during the years 1824-5 and 6, to W. Nelson and members of the British House of Commons.

3rd. " Les Voyages de Champlain," 1613.

4th. Herrero's "Description des Indes Occidentales." (Amsterdam, 1622.)

5th. De Champigny's "La Louisiane Ensanglantée." (Londres, 1673.)

6th. "History of Massachusetts Bay," 4 volumes, 1628 to 1774; one of the most complete collections of papers on the history of the early settlement of Massachusetts.

Since last session, further additions have been made to the section devoted to United States Congressional documents; this section is approaching completion. In consequence of the publicity and interest attaching to several questions of the day, such as the proposal for the admission of Newfoundland to the Dominion; the Fisheries question; the Retaliation policy of the United States; the Reciprocity question; the Copyright Bill, &c., an effort has been made in the annual Supplementary Catalogue to supply members with a list of all books, documents and articles referring to such questions.

The debates of Congress on the Fisheries Treaty and on the Retaliation Message have been specially arranged and bound for Library use.

A special collection of all the American documents on the Fisheries question has been made from 1776 to the present date. The Catalogue for the year contains the contents of these volumes. Copies of all the recent publications of the United States on this subject have been provided, in number sufficient to satisfy the reasonable demands of members.

Attention has been given to the collection of Statistical Works and books on Political Economy, and the contents of Economical Works of various kinds, including some periodicals, have been printed for the assistance of members.

Among the donations which the Librarians have to acknowledge is a collection of pamphlets on the subject of Education, presented by the Honourable the Minister of Education of Ontario and by J. G. Hodgins, Esq., LL.D., his deputy.

The Library has also been enriched by the presentation. by His Holiness Pope Leo XIII, through His Eminence the Cardinal Archbishop of Westminster, of a copy in bronze of the medal presented by the Sacred Congregation of Cardinals to His Holiness on the occasion of his Sacerdotal Jubilee.

All of which is respectfully submitted.

A. D. DECELLES, G.L. MARTIN J. GRIFFIN, P.L.

(For the Appendix to this Report see Sessional Papers, No. 19.)

The House then adjourned.

country. 2. That without further legislation in the Imperial Parliament, the Parliament of Canada is powerless to make laws to deal with the whole question of copyright in Canada, because it has been authoritatively decided that any person who obtains a British copyright possesses the sole and exclusive right of reprinting the work in Canada, and that no legislation of the Dominion can affect such right.

Mr. Desjardins, from the Select Committee appointed to supervise the Official Report of the Debates of this House during the present Session, presented the First Report of the said Committee, which is as follows :---

The Committee would recommend :--

1st. That the Order of The House of the 14th July, 1885, be again suspended in so far as regards the printing and publishing of the Official Report of the Debates of this session, in octavo form with Brevier type, as arrangements could not be made to provide for the carrying out of that order.

2nd. fhat the contract for the binding of the Debates of the present session be again awarded to Mr. A. S. Woodburn, at the same rate and under the same terms and conditions as were mentioned in his contract with the Committee, which expired on the 31st December last.

3rd. That Mr. Alphonse Raby be appointed as an additional translator of the Official Report of the Debates, at a salary of \$1,000, so as to enable each member of the translating staff to revise his own proof, subject to the general revision of the chief, the services of Mr. Quéry, as proof reader, being no longer available.

The Committee have examined the notices given on the following Petitions and find them sufficient, viz.:--

Of the Corporation of Queen's College of Kingston, for an Act granting them additional corporate powers; of the Ottawa, Morrisburg and New York Railway and Bridge Company, for an Act of incorporation; of the Lake Seul Railway Company, for an Act of incorporation; of the Calgary, Alberta and Montana Railway Company, for an Act of incorporation; of the Pontiac Pacific Junction Railway Company, for an Act to extend the time for the completion of their Railway; of the Canada Congregational Foreign Missionary Society, for an Act of incorporation; and of the London Mutual Fire Insurance Company, for an Act to enlarge their corporate powers.

The Committee have also examined the notices given on the following Petitions, and find them short in point of time; but as they will, in each case, have fully matured before the Bills can be respectively considered in Committee, the Committee recommend that the notices be deemed sufficient, viz. :--

Of the Ontario Mutual Life Assurance Company, for certain amendments to their Act of incorporation; of the Hamilton Central Railway Company, for an Act to extend the time for the construction of their Railway; of the Ontario Loan and Debenture Company, for an Act empowering them to create debenture stock, &c.; and of the Kingston, Smith's Falls and Ottawa Railway Company, for an Act to extend the time for the construction of their Railway.

The Committee have also examined the Petition of the St. Gabriel Levee and Railway Company, for an Act to revive and amend the Acts relating to the Company by extending the time for the construction of their works, and find that notice has been published for a period of four weeks only, but as the Charter was allowed to lapse through inadvertence, and evidence was adduced to satisfy the Committee that all parties whose interests might be affected are in favour of the proposed measure, the Committee recommend that the 51st Rule be suspended in reference to this Petition.

On the Petition of the Lake Nipissing and James' Bay Railway Company, for an Act to change their corporate name and for other purposes, the Committee find that notice was published for three weeks only, but as the powers asked for are not of a nature to affect the interests of any persons other than the Petitioners themselves, the Committee recommend that the 51st Rule be suspended in regard to this Petition also.

The following Bills were severally introduced, read the first time, and ordered for a second reading to-morrow, viz.:--

By Mr. McKay:-Bill No. 39, respecting the Hamilton Central Railway Company.

By Mr. Denison :-Bill No. 40, respecting the Lake Nipissing and James' Bay Railway Company, and to change the name of the Company to "The Nipissing and James' Bay Railway Company." (Bule 51 suspended in relation thereto.)

Mr. Cook—On Thursday next—That the Parliament of Canada, in the year 1882, adopted an humble Address to Her Most Gracious Majesty the Queen, expressing the hope that a just measure of Home Rule would be granted to the people of Ireland, and

That in the year 1886, by Resolution of the House of Commons, the sentiments of said Address to Her Most Gracious Majesty were earnestly reiterated, and the hope again expressed that such a measure of Home Rule would be passed by the Imperial Parliament.

That in the year 1887, by Resolution of the House of Commons, profound regret was expressed at the introduction of a Coercion Bill for Ireland into the Imperial House of Commons; and a hope was expressed that a measure so subversive of the rights and liberties of Her Majesty's subjects in Ireland might not become law; and the further hope was expressed that, instead of the Coercion Bill, a substantial measure of Home Rule would be granted to Ireland.

That this House has learned with profound regret that no measure of Home Rule has yet been granted to Ireland, but that the rights and liberties of Her Majesty's subjects in Ireland have been subverted by the Coercion Bill against which this House protested in the year 1887.

That the coercive Irish legislation of the Imperial Parliament, and the administration of Irish affairs in accordance therewith, have aroused among the Irish and other people of the United States a state of feeling which prejudicially affects the relations between the Dominion of Canada and the United States.

That this state of feeling in the United States conduced to the recent rejection of the Fisheries and Extradition 'I reaties, and militates powerfully against such amicable settlement of all matters in dispute between Canada and the United States as would promote in a high degree the welfare of Her Majesty's subjects in this Dominion.

That the granting of Home Rule to Ireland will not only gratify Her Majesty's loyal subjects in this Dominion, but will materially assist to establish on an enduring basis profitable and perfectly friendly relations between the Dominion and the United States, with the effect of relieving Her Majesty's Government from dangerous complications.

That the present Resolutions be forwarded to the Right Hon. the Marquis of Salisbury, Prime Minister, to the Right Hon. W. E. Gladstone, M.P., and to Charles Stewart Parnell, M.P.

Mr. Langelier (Montmorency)—On Friday next—ENQUIRY OF MINISTRY— Whether it is the intention of the Government to establish another School of Cavalry this year in the Province of Ontario; and if so, whether the officers forming part of the Quebec school will obtain promotion?

Of the Manitoba and South-Eastern Railway Company, for an Act of incorporation; of the corporation of the City of Winnipeg, for an Act to empower them to utilize the water power and improve the navigation of the Assiniboine River; of the Ontario and Quebec Railway Company, for an Act to ratify the conveyance by them of a certain lot of land to the Land Security Company; of the St. Lawrence and Atlantic Junction Railway Company, for an Act to extend the time for the construction of their Railway; of the Canadian Pacific Railway Company, for an Act to authorize them to issue bonds or debentures for the purchase of vessels to be run in connection with their Railway; of the South Ontario Pacific Railway Company, for an Act to continue the powers granted them in their Act of Incorporation; and of the Atlantic and North-West Railway Company, for an Act to extend the time for the completion of their Railway.

The Committee have examined the notices given on the following Petitions and find them somewhat short in point of time, but recommend that they be considered sufficient, inasmuch as they will have fully matured before the Bills are considered in Committee, viz. :--

Of the Berlin and Canadian Pacific Railway Company, for an Act to extend the time for the construction of their Railway; of the Kingston and Pembroke Railway Company, for an extension of the time for the completion of their Railway; of the Lake Manitoba Railway and Canal Company, for an Act of Incorporation; of the Canadian Pacific Railway Company, for an Act to empower them to issue consolidated Debenture Stock; and of the Cobourg, Northumberland and Pacific Railway Company, for an Act of Incorporation.

On the Petition of the London and Canadian Loan and Agency Company, for an Act to enlarge the time from five to ten years, during which they may hold any real estate required in satisfaction of any debt, the notice merely states that application will be made by the Company, for an Act to amend section 6 of their Act of incorporation, by substituting for the word "five" in the ninth line of the said section the word "ten." As the Committee are of the opinion that a notice so worded is not in accordance with the spirit and intention of the 51st Rule, which requires that the nature and object of the application shall be clearly and distinctly specified in the notice, they beg to recommend that this notice be deemed insufficient.

The following Bills were severally introduced, read the first time, and ordered for a second reading on Monday next, viz.:—

No. 19.

VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

OTTAWA, TUESDAY, 26TH FEBRUARY, 1889.

PRAYERS.

Thirty-six Petitions were brought up, and laid on the Table.

Sir Hector Langevin, from the Select Standing Committee on Railways, Canals and Telegraph Lines, presented the Second Report of the said Committee, reporting the following Bills with amendments, viz. :-

Bill No. 19, to incorporate the Assiniboia, Edmonton and Unjiga Railway Company.

Bill No. 21, respecting the New Brunswick and Prince Edward Railway Company,—and to change the name of the Company to "The New Brunswick and Prince Edward Island Railway Company."

Bill No. 31, to incorporate the Red Deer Valley Railway and Coal Company ;-

Bill No. 35, respecting the Niagara Grand Island Bridge Company.

Mr. Wood (Brockville), from the Select Standing Committee on Standing Orders, presented the Sixth Report of the said Committee, which is as follows :---

The Committee have examined the notices given on the following Petitions and find them sufficient, viz.:--

Of the North West Junction and Lake of the Woods Railway Company, for an Act of incorporation; and of the Northern Pacific and Manitoba Railway Company, for an Act of incorporation.

On the Petitions of the Supreme Court of the Independent Order of Foresters, for an Act of incorporation; of the Corporation of the City of Toronto, for an Act to compel telegraph, telephone and electric light companies to put their wires under ground; and of the Union Railway Company, for an Act of incorporation; the Committee find that the notices, though published in the requisite number of papers, are more or less short in point of time, but as they will have nearly matured before the Bills are considered in Committee, it is recommended that they be deemed sufficient.

In obedience to the Order of The House of yesterday, referring back for further consideration that portion of the Fifth Report of the Committee which has reference to the Petition of the London and Canadian Loan and Agency Company (Limited), the Committee have again had the said Petition under consideration, and while they still hold to the opinion that notices so worded are not in accordance with the requirements of the Rule, nevertheless, as the promoters have submitted further evidence to satisfy the Committee that, in this particular instance, no rights or interests are likely to be injuriously affected by the want of a specific notice, they recommend that the notice given be deemed sufficient.

143

The Committee have also examined the Petitions of the Three Rivers and Western Railway Company, and of the Ontario Manitoba and Western Railway Company, severally praying for leave to present a Petition for an Act of incorporation, notwithstanding the expiration of the time for presenting Petitions for Private Bills; and the reasons assigned by each for not presenting the Petition within the time limited, are such as to justify the Committee in recommending that the necessary leave be granted in each case.

The Committee have also examined the Petitions of the Canada Super-phosphate Company and of the Dominion Mineral Company, severally praying for an Act of incorporation, and find that no notices were published in either case, but as the proposed measures, should they become law, would not interfere with any existing rights, but would rather tend to open up and develop the section of country in which their proposed operations would take effect, the Committee recommend that the 51st Rule be suspended in each case.

On the Petition of the Bay of Quinté Bridge Company, for an Act to amend their Act of incorporation, the Committee find that no notices have been published, but as the amendments asked for have been rendered necessary on account of some ambiguity of expression in the Act of incorporation, the Committee are of the opinion that this application is not of a nature to require the publication of the usual notices.

The Committee have also examined the Petition of the Winnipeg and North Pacific Railway Company, for an Act to extend the time for the commencement and completion of their railway, and find that no notice was published in the District of Saskatchewan or in the Province of British Columbia, through both of which their charter authorized the company to construct their railway, nor was notice published in French in the Province of Manitoba, but as notice was published in English in the City of Winnipeg for the full time required, and as no interests are likely to be. affected by the measure, the Committee recommend that the 51st Rule be suspended in this case.

The Committee carefully examined the following documents and recommend that they be printed, viz. :--

19. Report of the Joint Librarians on the state of the Library of Parliament for the year 1888. (Sessional Papers only.)

27. Statement of all Superannuations and retiring allowances in the Civil Service, giving the name and rank of each person superannuated or retired, his salary, age and length of service, his allowance and cause of retirement, whether vacancy has been filled by promotion or new appointment, &c., for year ended 31st December, 1888. GOVERNMENT HOUSE,

OTTAWA, 21st February, 1889.

Sir John A. Macdonald presented,—Return to an Order of The House of the 6th instant, for copies of all petitions, reports and other documents in relation to the granting of subsidies by the Dominion Government, to the proposed line of railway from Montreal to Lévis, known as the Great Eastern.

Mr. Foster moved, That Mr. Speaker do now leave the Chair for The House to go again into Committee of Supply.

Mr. Laurier moved in amendment thereto, that all the words after the word "That" be left out, and the following inserted instead thereof:---

" in view of the rejection by the Senate of the United States of the Washington Treaty of 1888, and the unfortunate and regrettable differences existing between Canada and the United States on the Fishery and Trade questions, this House is of opinion that steps should be taken, at an early day, by the Government of Canada, for the satisfactory adjustment of such differences, and the securing of unrestricted freedom in the trade relations of the two Countries, and that, in any negotiations entered upon for such purposes, Canada should be directly represented by someone nominated by its Government.

That, in the meantime, and to permit of such negotiations being favourably entered on, and to afford evidence of the anxious desire of Canada to promote good feeling and to remove all possible subjects of controversy, this House is of opinion that the *Modus Vivendi* proposed on behalf of the British Government to the Government of the United States with respect to the Fisheries should be continued in operation during the ensuing fishing season."

And a Debate arising thereon,—the said Debate was, on motion of Mr. Macdonald (Huron), adjourned.

The House then adjourned.

The Committee have examined the Petition of the Napanee, Tamworth and Quebec, and Kingston and Pembroke Railway Companies, for an Act to confirm and legalize a certain agreement entered into by the said Companies, and find that the notices published therein are sufficient.

The Committee have also examined the Petitions of the Quebec Board of Trade, for certain amendments to their Act of incorporation; and of the Moose Jaw, Battleford and Edmonton Railway Company, for an Act of incorporation, and find that the notices have not yet been published for the full time required, but recommend that they be deemed sufficient, as they will have fully matured before the Bills are considered in Committee.

The Committee have also examined the Petition of the Great North-West Central Rsilway Company, for an Act to repeal the 26th clause of its charter granting running powers over their road to the Canadian Pacific Railway Company, and find that the notice merely stated that application would be made to repeal the said clause without specifying the nature or effect of the repeal, and also that notice was only published for a period of three weeks, but as no interests other than those of the Canadian Pacific Railway Company can be affected by the proposed measure, and as the latter Company have been duly notified and have signified their approval of the said application, the Committee are of the opinion that the requirements of the 5 ist Rule have been sufficiently complied with.

The Committee have examined the Petition of the Saskatchewan Railway and Mining Company, for an Act of incorporation, and find that they ask for power to construct a railway from Dunmore, on the line of the Canadian Pacific Railway, in a north-easterly direction, vid Saskatoon and Fort à la Corne, to a junction with the Winnipeg and Hudson's Bay Railway, and also a branch from Saskatoon to Green Lake and thence to Waterhen Lake in the District of Saskatchewan, and that notice was only published in one newspaper in the District of Assiniboia, namely, at Regina; they therefore recommend that the notice be deemed sufficient for a Railway and Mining Company from Dunmore to the northerly boundary of Assiniboia, at or near Saskatoon, and no further. The Committee have also had under consideration the Petition of George T. Baird, and others, for an Act to empower them to construct a railway from Edmundston, in the County of Madawaska, New Brunswick, to Florenceville, in the County of Carleton, and also a branch line from Grand Falls, through the Counties of Victoria, Northumberland and Gloucester, to connect with the Intercolonial Railway at Bathurst, and find that notice was published in the County of Carleton only; the Committee therefore recommend that the operations of the proposed Company be confined to that portion of the country which lies between Edmundston and Florenceville aforesaid.

The Committee have also considered the Petition of C. N. Skinner, on behalf of the Prince Edward Island and Continental Railway and Ferry Company, asking for permission to present a Petition for a Private Bill, notwithstanding the expiration of the time for presenting such Petitions, and the reasons assigned for the delay justified the Committee in recommending that the necessary leave be granted.

Sir Hector Langevin presented, — Return to an Order of The House of the 7th May, 1888, for copies of all papers, plans, letters, reports, and other documents whatsoever in relation to the building of a pier or wharf at Ste. Anne des Monts, in the County of Gaspé.

The Committee have examined the Petition of L. G. de Bertram and others, for an Act of incorporation under the name of the Prince Edward Island and Continental Railway and Ferry Company, and find that no notices have been published except in the Canada Gazette, but as the operations of the proposed Company will, with the exception of about seven miles of road in Prince Edward Island, be confined to the County of Kent, New Brunswick, in which there is no newspaper published, and as the proposed measure would not appear to conflict with any existing rights, the Committee recommend that the 51st Rule be suspended in relation thereto; and as the time for presenting Private Bills expired yesterday, the Committee recommend that the 49th Rule be suspended in relation.

And on the motion of Mr. Laurier in amendment thereto, that all the words after the word "That" be left out, and the following inserted instead thereof :

" in view of the rejection by the Senate of the United States of the Washington Treaty of 1832, and the unfortunate and regrettable differences existing between Canada and the United States on the Fishery and Trade questions, this House is of opinion that steps should be taken, at an early day, by the Government of Canada, for the satisfactory adjustment of such differences, and the securing of unrestricted freedom in the trade relations of the two Countries, and that, in any negotiations entered upon for such purposes, Canada should be directly represented by someone nominated by its Government.

That, in the meantime, and to permit of such negotiations being favourably entered on, and to afford evidence of the anxious desire of Canada to promote good feeling and to remove all possible subjects of controversy, this House is of opinion that the *Modus Vivendi* proposed on behalf of the British Government to the Government of the United States with respect to the Fisheries should be continued in operation during the ensuing fishing season."

And the Debate continuing;

At Six o'clock, P.M., Mr. Speaker left the Chair, to resume the same at half-past Seven o'clock, P.M.

7.30 P.M.

NOTICES OF MOTIONS.

Mr. Wilson (Elgin)—On Wednesday next—BILL intituled: "An Act to amend Chapter 173 of the Revised Statutes of Canada, being an Act respecting Threats, Intimidation and other Offences."

Mr. Mills (Annapolis)—On Wednesday next—Committee of the Whole to consider the following Resolutions :—

That it appears the advisability of a union between Canada and the United States is now being very generally discussed throughout said Republic, and the commercial advantages of such a union are considered by some of the leading business men in the Republic to be of much importance.

That it also seems as if the experiment of Republican government has ever proved a practical failure, and there are strong indications that the dissolution of the Federation known as the United States is imminent, and the spread of anarchy, or the building up of other foreign powers in the adjacent States, known as the New England States, might imperil British interests on this Continent.

That facts go to show that the said New England States, since severing their connection with the British Crown, have not made nearly as great progress, relatively, as the Provinces of Canada, and while their return to their old allegiance would not only materially advance the trade and promote the prosperity of the people living in those States, but would be a probable benefit to the neighbouring Provinces.

That it is a recognized fact that the population of these States include many thousands of British-born people, who still owe allegiance to Our Sovereign Lady, the Queen, though they have crossed the ocean and taken up their residence in those States.

That it is also well known that one of the leading and influential papers of Massachusetts, representing the most important interests of that Commonwealth, is urging a federation with Canada upon the citizens of the United States.

That the Parliament of Canada now assembled, views this agitation with sympathy, ard will do all in its power to aid in the annexation of such New England States, and that His Excellency the Governor General in Council be, and is hereby empowered to co-operate with Her Majesty's Government in securing such an amendment to the Act of British North America as may be necessary to extend the boundaries of the Dominion of Canada, such boundaries, however, not to be extended in a westerly direction beyond the Connecticut River, the Green Mountains and Lake Champlain.

That, while the people of Canada, represented by their Parliament, are willing to welcome such of these New England States as wish to return to their old allegiance, they regard such a union as being more in the interests of said New England States than in that of Canada, and are unwilling that any force or undue influence should be used to bring about such a federation; nor would the people of Canada be willing to assume any burdens of debt of said New England States other than such as may be represented by the public works and buildings in such States as would be vested in the Crown, in case said States were admitted into the Dominion.

Mr. Eisenhauer-On Thursday next-ORDER OF THE HOUSE for Return of all correspondence between the Department of Marine and Fisheries and Mr. C. C. Resolved, That it is expedient to provide that a pension may be paid to any member of the North-West Mounted Police Force, other than a commissioned officer, for life, if such member joined the force subsequent to the 23rd day of May, 1873, and completed twenty-five years' service, or if, having completed fifteen years' service, he retires in consequence of bodily or mental infirmity, subject to an obligation in the latter case to return to duty if the incapacity ceases; and that the scale on which such pensions shall be calculated shall be as follows :—It the member has completed fiteen but less than twenty-one years' service, one-fiftieth of the annual pay for each completed year of service; twenty-one and less than twenty-five years' service, twenty-fiftieths, and in addition two fiftieths for every completed year of service over twenty; twenty-five years, thirty-fiftieths, and in addition one-fiftieth for every completed year over twenty-five, not to exceed, however, two-thirds of his annual pay at retirement; and further, that the annual pay shall be deemed to be the average annual pay, exclusive of extra pay or allowances, during the three years preceding retirement; and also that if the infirmity causing the retirement is caused by the default or evil habits of the member retiring, a less amount may be fixed by the Governor in Council as his pension.

Mr. Wilson (Elgin)—On Monday next—ADDRESS to His Excellency the Gover nor General for copies of all reports to Council, correspondence and other documents in possession of the Government, relating to the repatriation or immigration measure promised by the Minister of Public Works, in a public speech in Montreal, in November, 1883, in which he used the following language :— "And, gentlemen, this demonstration is also in approbation of the great measures

which have been adopted by the Administration of which I am a member. First, there was the Confederation Act, and since we returned to power we have adopted the National Policy, and the great Pacific Railway measure, and finally, we have adopted another measure scarcely less important, in respect of the encouragement of immigration into this country. * * But, gentlemen, our mission would be but half accomplished if we forgot that we have on the other side of latitude 45, a great number of our fellow-countrymen, who would like nothing better than to return home and sit down to the family table, and to eat with us, and to earn their living under the institutions now existing in Canada. I need not say, gentlemen, that it is with the greatest satisfaction and pleasure that I am able to announce to you this evening that the Government of Canada intend to take measures, and energetic measures, to recall into the limits of our own territory all our fellow-countrymen in the United States who desire to return and live with us; you well understand, gentlemen, that at a banquet like this, I must be excused if I do not give all the details of the Ministerial measure that we propose to bring down next Session. But, in any case, it is well that you should know that our compatriots in the United States, whether they be of French origin, or of any other origin, are not forgotten, and that all that can be done to bring them back to this country we shall do most heartily."

REPORT OF THE CLERK OF THE COMMITTEE,

COMMITTEE ROOM,

25th February, 1889.

To the Chairman and Members of the Joint Committee of both Houses on the Printing of Parliament:—

GENTLEMEN,—I beg to submit the Annual Statement of the Receipts and Expenditure on account of the Printing Services of Parliament for the fiscal year 1887-88, showing the cost of these services to have been \$73,109.56. This is certified to, as being correct, by the signature of the Auditor General

Accounts, in detail, covering the expenditure of the above sum, with fyles of the work performed, as vouchers, are prepared for the examination of the Audit Committee. During the Recess I received several letters from the Queen's Printer and others, which read as follows :--

No. 1,

DEPARTMENT OF PUBLIC PRINTING AND STATIONERY, OFFICE OF THE QUEEN'S PRINTER AND CONTROLLER OF STATIONERY,

OTTAWA, 26th June, 1888.

SIR,—I am directed to call your attention to the fact that the Government has entered into arrangements with the contractors for Parliamentary Printing whereby they surrender their contract therefor, and cancel it from 1st July next. This Department, therefore, will be charged, on and after that date, with the execution of all Parliamentary Printing, under the provisions of the Act, R. S. C., c. 27, and the amending Act, 51 Vict., c. 17. All requisitions issued on and after that date, for printing, must be addressed to this Department.

It will be also necessary that your final settlement with the contractors for the current financial year, should extend, not only to jobs ordered and finally completed, but also to portions of them, however great or small, which have been put in type or printed, on or before the 30th instant.

I have the honor to be, Sir,

Your very obedient servant,

B. CHAMBERLIN, Queen's Printer, &c.

H. HARTNEY, Esq.,

Clerk of the Joint Committee of the two Houses on Printing.

By this letter I presume that the Department of Public Printing and Stationery, having assumed the contract of Messrs. MacLean, Roger & Co., became, as it were, the contractors for the printing of Parliament, for the purpose of working out its provisions and fulfilling its obligations, till its expiry on the 31st December, 1888, and that that contract was to be carried out in its entirety; the same as if it still remained in the hands of the late contractors. I have so guided myself, and by arrangement with the Queen's Printer, had the work performed and charged for at the prices as specified in the contract, the same as if no transfer had taken place.

No. 2.

DEPARTMENT OF PUBLIC PRINTING AND STATIONERY, OFFICE OF THE QUEEN'S PRINTER, OTTAWA, 28th June, 1888.

DEAR SIR,—In supplement of my letter of 26th instant, respecting the cancellation of the contract between Messrs. MacLean, Roger & Co. and the Queen for Parliamentary printing, I should perhaps have requested, what, with the assent of the Honorable the Secretary of State, was intended in that communication, that is, that the contract with Messrs. MacLean, Roger and Co. being put an end to, a final settlement should be made with them of all outstanding accounts of all kinds and whensoever accrued; and upon such settlement, satisfactorily concluded, all security for this or previous contracts, held by you, should be surrendered.

I remain, Dear Sir,

Yours truly,

H. HARTNEY, Esq., &c. &c., Printing Committee, Parliament House.

In accordance with the provisions as contained in the above letter, I finally closed the accounts with Messrs. MacLean, Roger & Co. This necessitated the payment for work in progress, as well as for that completed, and caused the expenditure for 1887-8 to be larger than usual, as under ordinary circumstances, this progress work, when finished, would have been charged in the accounts of the succeeding year.

I also surrendered to the late contractors the deposit receipt from the Bank of Montreal, for \$5,000, being the security held by me, as Clerk of the Committee, for the faithful performance of their contract.

No. 3.

DEPARTMENT OF PUBLIC PRINTING AND STATIONERY, OFFICE OF THE QUEEN'S PRINTER AND CONTROLLER OF STATIONERY.

SIR,—I have the honor to enclose herewith, for your information, copy of a contract entered into between the Government and Messrs. MacLean, Roger & Co.

Under it the then existing contracts for printing become cancelled, and the work is to be carried forward under the provisions of the Public Printing and Stationery Act and amendment—R.S.C., Cap. 27, and 51 Vict., Cap. 17.

I have the honour to be, Sir,

Your very obedient servant,

B. CHAMBERLIN,

Queen's Printer and Controller of Stationery.

H. HARTNEY, Esq.,

Clerk, Joint Committee of Parliamentary Printing.

leave the premises in good repair. And Her Majesty, for herself, her successors, and assigns, doth hereby covenant, promise and agree to and with the said Lessors, their heirs, executors, administrators and assigns, that she or they will, during the continuance of her or their possession of the said premises under these presents, keep up policies of insurance for the amounts mentioned in the schedule annexed hereto upon the said buildings and premises, and their contents.

Proviso for re-entry by the Lessors on non-payment of rent or non-performance of covenants.

The said Lessors covenant with Her Majesty for quiet enjoyment.

And it is hereby agreed, by and between the Lessors and Her Majesty, that Her Majesty, her successors or assigns, upon giving notice to the Lessors, their heirs, executors, administrators and assigns, of her or their intention so to do, at least one month before the expiration of the said term, may continue to occupy and use the premises hereby demised for the term or period of one month, or of two or more months after the expiration of the said term.

Yielding and paying therefor a rent or sum at the rate of five hundred dollars, to be payable on the last day of each month of such continued occupancy.

And the said Lessors, for themselves, their heirs, executors, administrators and assigns, and Her Majesty, for herself and her successors, hereby covenant that an Inventory, to be prepared as soon as may be after the execution of these presents, and to be identified on the face thereof as the Inventory referred to in these presents of the said printing presses, type and other contents of the buildings and premises hereby demised, shall, when signed by the Lessors, their heirs, executors, admintrators or assigns, and by The Honorable the Secretary of State of Canada, on behalf of Her Majesty or her successors, be taken for all purposes to include all the contents of the said buildings and premises which it is intended should be demised therewith by these presents, and that thereupon these presents shall be read and construed as if the said Inventory so prepared, identified and signed, were embodied therein and formed part thereof.

With regard to the Binding, I sent the following letter to the Queen's Printer :---

DEPARTMENT PRINTING OF PARLIAMENT,

OTTAWA, 17th October, 1888.

My DEAR SIR,—Can you inform me if the Department of Public Printing and Stationery will likely be in a position to perform the Binding required by Parliament, after the present Contractor, Mr. Mortimer, has finished the present year's work? May I also draw your attention to the custom heretofore prevailing with us, viz.: "That the Printers should send the printed sheets intended for Binding in the "Sessional Papers, direct to the Binder, so soon as they leave the Press, that they

"may be pressed and folded, and then deposited in the Vaults till required. I have "thought it right to let you know this, especially if you intend to make arrange-"ments for the Binding different from what has hitherto prevailed."

Yours truly,

HENRY HARTNEY,

Clerk, Printing of Parliament.

Col. CHAMBERLIN, Queen's Printer, &c., &c.

In reply to the above, I received the following note :---

DEPARTMENT OF PUBLIC PRINTING AND STATIONEBY, OFFICE OF THE QUEEN'S PRINTER, OTTAWA, 17th October, 1888.

DEAR SIR,—Yours of this morning received. I was about to write to you, or go to see you, upon the same subject. When does Mortimer's contract expire? We shall be very glad to send the sheets to him out of our way, if he still holds:

the contract.

Yours truly,

B. CHAMBERLIN. Queen's Printer, &c.

H. HARTNEY, Esq.,

Clerk Parliamentary Printing.

The contract for the Binding with Mr. Mortimer had been extended by Parliament to the 31st December, 1888, and as the Queen's Printer had informed me, verbally, that the Department was not prepared to assume the performance of that work at present, I thought it advisable to obtain from the Contractor, Mr. Mortimer, in writing, what he would be prepared to do, should his services be required. The following letter is his answer to my inquiry :---

OTTAWA, October 19th, 1888.

H. HARTNEY, Esq.

DEAR SIR.-Agreeable to your request, I beg to state that I am willing to continue the contract for the Binding for both Houses of Parliament under the same conditions as heretofore.

I remain, Yours respectfully, W. McG. MORTIMER.

The above letter of Mr. Mortimer's is submitted for the information of the Committee; as well as for such action thereon, as may be considered necessary, as provision must be made for the binding of the Sessional Papers.

I also received the following letter from the Queen's Printer of Ontario :---

OFFICE OF THE QUEEN'S PRINTER, ONTARIO, PARLIAMENT BUILDINGS,

TORONTO, 13th February, 1889.

To the Clerk of the Printing Committee :--

Under instructions from our Printing Committee, I have the honor to report to your Printing Committee, that on account of each of our Members having received a set of your Consolidated Statutes of Canada, we will proceed to send a set of our Revised Statutes of Canada to each Member of your House who represents an Electoral District in Ontario.

I have further to inform your Committee, that in the distribution of our Annual or Sessional Statutes, we have been accustomed to send one copy to every Senator and Commoner representing Ontario, and for which our Committee hope that your Committee may take such action as will result in our members being annually served with one copy each of your Sessional Statutes.

Please to lay this letter before your Printing Committee for their consideration, and if they make a Report to the House and have it adopted, I will be pleased to know of it and inform our Committee.

Yours respectfully,

JOHN NOTMAN, Queen's Printer.

On receipt of the above, I wrote to Col. Chamberlin, Queen's Printer, as follows:-

(Memo.)

DEAR SIR,—I have been asked if it is the intention to supply the M.P.P's. of the Ontario Legislative Assembly with the Annual Dominion Statutes, as they supply the M.P's. from Ontario in the Dominion Parliament with their Annual Statutes. As I know the question will come up, will you please answer, and oblige,

Yours, &c.,

HENRY HARTNEY.

To the Queen's Printer.

In answer to the above, I received the following :-

DEPARTMENT OF PUBLIC PRINTING AND STATIONERY, OFFICE OF THE QUEEN'S PRINTER AND CONTROLLER OF STATIONERY.

DEAR SIR,—I find that the order of the two Houses, as embodied in the approved Report of the Committee on Printing, directs the distribution of the Statutes to the members of those Legislatures which "reciprocate by sending a copy of their respec-"tive Statutes (Annual and Consolidated) to EACH Member of BOTH Houses of the "Dominion Parliament." Are there any which have offered or made such a distribution? Your memo. seems to imply that in the case of Ontario, the Provincial Statutes have only been offered or sent to the Members of the House of Commons elected for Ontario constituencies; not to the other members of the House of Commons, or to any Senators.

If I have correctly understood you, does not the case call for further action by the Printing Committee of this year.

Yours truly,

B. CHAMBERLIN, Queen's Printer. &c.

P.S.—The Revised Statutes have been sent to the Members of the Ontario Legisture, pursuant to instructions from the Privy Council, conveyed through the Secretary of State.

HENRY HARTNEY, Esq.,

Clerk of the Joint Committee on Printing.

I asked for the reduced sum of \$75,000 to be placed on the Estimates for the Printing of Parliament, for the fiscal year 1889-90, subject to the approval of the Committee.

All which is respectfully submitted,

HENRY HARTNEY, Clerk, Joint Committee on Printing.

Mr. Foster moved, That Mr. Speaker do now leave the Chair for The House to go again into Committee of Supply.

"Mr. Speaker do not now leave the Chair, but that it be Resolved, That an humble Address be presented to His Excellency the Governor General setting forth:

"1. That this House regards the power of disallowing the Acts of the Legislative Assemblies of the Provinces, vested in His Excellency in Council, as a prerogative essential to the national existence of the Dominion.

"2. That this great power, while it should never be wantonly exercised, should be fearlessly used for the protection of the rights of a minority, for the preservation of the fundamental principles of the Constitution, and for safeguarding the general interests of the people. "3. That, in the opinion of this House, the passage by the Legislature of the Province of Quebec of the Act initialed: 'An Act respecting the settlement of the Jesuits' Estates,' is beyond the power of that Legislature. Firstly, because it endows from public funds a religious organization, thereby violating the undoubted constitutional principle of the complete separation of Church and State, and of the absolute equality of all denominations before the Law. Secondly, because it recognizes the usurpation of a right by a Foreign authority, namely, His Holiness the Pope of Rome, to claim that his consent was necessary to empower the Provincial Legislature to dispose of a portion of the public domain, and also because the Act is made to depend upon the will, and the appropriation of the grant thereby made is subject to the control of the same authority. And thirdly, because the endowment of the Society of Jesus, an alien, secret, and politico-religious body, the expulsion of which from every Christian community wherein it has had a footing has been rendered necessary by its intolerant and mischievous intermeddling with the functions of civil government, is fraught with danger to the civil and religious liberties of the people of Canada.

"And this House therefore prays that His Excellency will be graciously pleased to disallow the said Act."

And a Debate arising thereon,—the said Debate was, on motion of Mr. McCarthy, adjourned.

A Message was received from the Senate, agreeing to the following Bills without amendment :--

Bill No. 57, to incorporate the Cobourg, Northumberland and Pacific Railway Company.

And,-agreeing to the following Bills with amendments :-

And also, with the following Bill of their own to which the concurrence of this House was desired :---

And, communicating the evidence taken before the Select Committee on Divorce of that House, whereon the Bill was founded.

No. 48.

VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

OTTAWA, WEDNESDAY, 10TH APRIL, 1889.

PRAYERS.

On motion of Mr. Ives, the 49th Rule was suspended in so far as it relates to a Report to be presented, this day, from the Select Standing Committee on Miscellaneous Private Bills.

Bill No. 123, from the Senate, intituled: "An Act for the Relief of George McDonald Bagwell."

Bill No. 124, from the Senate, intituled: "An Act for the Relief of Arthur Wand;"-and

Bill No. 125, from the Senate, intituled: "An Act for the Relief of William Henry Middleton."

A number of witnesses appeared before the Committee, and, being examined under oath, gave evidence in respect to the divers ways in which they had been defrauded into the purchase of goods which were altogether unfit for the purposes for which they were obtained.

It does not seem necessary to enter into the particulars of these practices, as they are fully detailed in the evidence and supplement annexed herewith submitted as a part of this report. It is clear, however, that in connection with grape vines, agricultural implements, pumps, seeds, fertilizers and other goods, purchasers have been induced to accept of them solely upon representations which have eventually turned out to be untrue. Many of the acts testified to by the various witnesses, by which parties were fraudulently induced to part with meney or to sign promissory notes, valuable securities, come within the provisions of the present Statute in regard to the obtaining of money or goods by false pretences, and the penalties by that Statute are sufficiently severe for the offences therein specified.

It seems to the Committee, however, that the legislation on the subject should make a special provision in regard to representations as to future events.

The Committee are profoundly impressed with the many weys by which farmers and others allow themselves to be cheated by the false suggestions and representations of cunning agents, and by holding out prospects of enormous profit endeavour

alm off their goods upon the unwary, and they wish to state that the public canbe too much upon its guard against being duped by these dishonest speculators.

Now that agriculture has advanced to such a degree that almost every farm is carried on by machinery altogether unknown not many years ago, the farmer seems to be made a special object of attack, and in innumerable instances he has fallen avictim.

There is evidence of imposition upon the farmer in many ways. He thoughtlessly bargains with an individual of whom he knows nothing, assuming all his representations to be true. He purchases goods in good faith without examining them, trusting to verbal representations in respect to their character or their fruits. He executes a contract in respect of them without such representation being inserted in the contract. He signs promissory notes without knowing the effect of what he signs, these notes being transferred to third parties before maturity, and in multitudinous other ways he allows himself to be made a victim of designing craft and cunning mendacity.

The Committee desire to call the attention of the farming community to the dangers by which they are surrounded, and to the attacks which, from time to time, are being continuously made upon them in the manner indicated.

The public should always bear in mind that when a promissory note is signed, whatever may be the consideration, or when there is no consideration, or even when it is fraudulent, such note becomes binding upon the signer, in the hand of a third party to whom it has been transferred before maturity, and he has to pay it, although he might have a perfectly good defence against the person to whom he gave it.

he might have a perfectly good defence against the person to whom he gave it. The Committee would also suggest that many of the evils complained of may, when promissory notes are given for goods, either delivered, or to be delivered, be obviated by the making such notes, taking care to make them payable to the seller ONLY and not to bearer, or to the seller's order. He would then always know with whom he had in the future to deal, and very often, in the case of fraud, would be protected from actual loss.

Purchasers should also take care when asked to sign any agreement that the whole bargain is in it. Any representations or promises made at the time are worthless, unless made a part of the written contract, and if a person refuse to insert a representation, which is the foundation of the bargain, in the written evidence of it, or any obligation, which he himself has undertaken, it may with reason be concluded he intends to take an improper advantage of the absence of the provisions which the document ought to contain.

It is impossible in the nature of things to put a final stop to the perpetration of frauds upon the community. To be forewarned, however, is to be forearmed, and many a dishonest attempt may be defeated, and many a temptation successfully resisted by persons if they are told how similar suggestions have resulted in other cases.

'The Committee recommend-

(1) That this report, including the evidence taken during the present Session, and the supplement thereto annexed, consisting of the report made and evidence taken in the Session of 1888, before the Select Committee on "Fraudulent Praetices," be referred to the Department of Justice with a view to the preparation of such legislation as will meet the case of false representations in respect of future events; and—

(2) That 5,000 copies of this report, including the evidence and the supplement referred to, be printed, and that one copy be sent to each Senator and twenty to each member of the House of Commons, and one copy to each person entitled, under the provisions already made, to a copy of the Revised Statutes; and also to as many officers of agricultural societies as may desire to have a copy.

(For the evidence, etc., accompanying this Report, see Appendix No. 1.)

On motion of Mr. Hickey, it was Resolved, That as it appears from the Minutes of Proceedings of the Senate of 28th March, 1889, that the Select Committee of the Senate on Railways, Telegraphs and Harbours reported that they had decided by a majority not to pass Bill No. 43, to incorporate the Ottawa, Morrisburg and New York Railway Company, which report the said Minutes show was concurred in by the Senate, on 2nd April instant, the Accountant of this House be authorized to refund the Fee and Charges paid on the said Bill less the cost of printing and translation.

On motion of Mr. Carling, The House resolved to go into Committee of the Whole, to-morrow, to consider the following proposed Resolution : -

That it is expedient to provide that the amount due on certain loans, amounting in the aggregate to \$96,400, made to Mennonite immigrants on the security of members of that community resident in the Province of Ontario, under the authority of the Act 38 Victoria, Chapter 3, should be computed as though the interest stipulated in the agreements relating to such loans had been four per cent. simple interest, instead of six per cent. compound interest, and that payment in full may be accepted on the basis of such computation.

A Message was received from the Senate, agreeing to the Bill No. 67, to incorporate the Assiniboine Water Power Company, without amendment.

And,-agreeing to the following Bills with amendments, viz .:-

Bill No. 74, to incorporate the Supreme Court of the Independent Order of Foresters ;-and

Bill No. 79, to incorporate the Union Railway Company.

And,-agreeing to the amendments made by this House to their amendments to the Bill No. 49, respecting the Alberta and Athabasca Railway Company, and to change the name of the Company to "The Great North-Western Railway Company," without amendment.

And also,-with the following Bill of their own, to which the concurrence of this House was desired, viz .:-

Bill No. 133, intituled : " An Act for better securing the safety of certain Fishermen."

Mr. Foster moved, That Mr. Speaker do now leave the Chair for the House to

go again into Committee of Supply. Sir Richard Cartwright moved in amendment thereto, That all the words after

pears, from the Public Accounts and from statements made in the House by the Minister of Finance and from the prospectus of the Loan, that the Government of Canada placed a loan of £4,000,000 sterling on the London market, in the month of June, 1888.

2. That the said loan bears interest at the rate of 3 per cent. per annum, and is made re-payable at the end of fifty years. 3. That the said loan was sold at an average price of £95 1s.

4. That while the said loan had no new special Sinking Fund attached thereto, it is provided in the prospectus issued in connection therewith by Messrs. Barings and Glyn, the financial agents of the Government of Canada, that,

"With a view of rendering the Sinking Funds of the various loans more effective " than heretofore, the Canadian Government intends to apply the sums annually re-" quired for the reduction of the national debt in purchases of the stock now offered."

"The amount at present annually applied to the reduction of the national debt " is £350,000 sterling, and as the Sinking Fund is accumulative the amount yearly " increases."

5. That the effect of the said clause is that the Canadian Government will be obliged in order to comply with the obligation therein entered into on their behalf, to re-purchase the entire loan of £4,000,000 sterling above mentioned in two or more annual instalments, averaging £400,000 each,

6. That the said loan will be thereby (as far as the Dominion of Canada is con-cerned) converted from a loan having (nominally) 50 years to run, into a loan having a little over five years to run.

7. That all former unguaranteed loans, having Sinking Funds attached, contain a provision, inserted in the bond or prospectus (and usually in both), setting forth that the Government of Canada shall not be obliged to purchase said stocks on account of investment for Sinking Fand, if said stocks should raise above par.

8. That neither the prospectus, nor the bond issued in connection with the said three per cent. loan of $\pounds 4,000,000$, contain any such provision.

9. That the natural tendency of the existence of the obligation to apply a Sinking Fund of this magnitude to the purchase of a loan of $\pounds 1,000,000$ will be to raise the price of the said stock abnormally, and may result in the loss of a large sum to this country.

10. That in any case the cost of the commission, brokerage and other charges incurred in negotiating the said loan, spread over a period of about five years, will add greatly to the rate of interest payable on the said loan.

11. That, even if the said loan can be re-purchased at an average of par, it will involve the payment of a rate in excess of the price obtained for the said loan which will make the annual charge for the said loan (till the same be re-purchased) equal to a rate of interest of about five per cent. per annum, and will at best make the transaction unduly onerous to this country.

12. That the said transaction is improvident and evidences negligence on the part of those charged with the interests of Canada in this matter.

And a Debate arising thereon;

At Six o'clock, P.M., Mr. Speaker left the Chair, to resume the same at half-past Seven o'clock, P.M.

7.30 P.M.

(The Order for Private Bills was called under Rule 19.)

The amendments made by the Senate, to the following Bills, were severally taken into consideration, and concurred in, viz.:-

Bill No. 22, to incorporate the Assets and Debenture Company of Canada.

And the question being put on the amendment;—it was negatived on the following division:—

Mr. Speaker informed The House that he had received a letter from His Excellency the Governor General's Secretary, intimating that the Honourable Mr. Justice Strong, acting as Deputy to His Excellency the Governor General, will proceed to the Senate Chamber, to-morrow afternoon at 4 o'clock, for the purpose of giving assent to Bills which have passed the Senate and House of Commons.

The Committee have also had under consideration the amendments made by the Senate to Bill No. 73, to incorporate the North-Western Junction and Lake of the Woods Railway Company, and recommend that the first amendment be disagreed to, because in order that "The Railway Act" shall apply to the bridge of the Company, it is necessary (under paragraph Q of section two of that Act) to authorize in the special Act the construction of such a bridge; but they recommend that the other amendments made by the Senate to this Bill be agreed to.

The Committee further recommend that the consideration of this Report be made the First Order of this day after Routine Proceedings.

22

Mr. Laurier moved in amendment thereto, That the said Resolution be not agreed to, but that it be Resolved, That whilst this House will ever be ready to favour any reasonable scheme to promote and extend the trade of this country, the Government, in asking an annual expenditure of $\pounds 25,000$ sterling for the establishment of a steamship service between Canada and the Australian Colonies and New Zealand, has failed to show that such a service would result in advantages in any way commensurate with the large amount of the expenditure required. Mr. Davies moved in amendment thereto, That all the words after the word "That" be struck out and the following substituted therefor :—" this House should not be asked to agree to a Resolution providing for the granting of an annual subsidy for a fortnightly or monthly steamship service between British Columbia and China and Japan, supplementary to one to be granted by the British Government, until the correspondence and negotiations relative to the granting of such a subsidy and the agreements between the British Government and the Canadian Paeific Railway Company, under which the subsidy of the British Government is payable, and all other necessary information relative to the character of the service, have been laid before it; and the House is further of opinion, from the information at present before it, that, if any subsidy is voted for such service, it should be conditional on the steamships calling at either Victoria or Esquimalt."

Mr. Foster moved, That the said Resolution be now agreed to.

Mr. Jones (Halifax) moved in amendment thereto, That the said Resolution be not now agreed to, but that it be referred. back to a Committee of the Whole to amend the same so as to reduce the amount named therein to a sum sufficient to provide for a 17-knot fast mail service, which, in the opinion of this House, is all that is required to promote the postal and passenger service of the Dominion, and is at the same time better calculated to serve the general business and commercial interests of the country; and that it be expressly provided in any contract entered into that the terminal point on this side shall be at a Port within the Dominion of Canada.

Mr. McMullen moved in amendment to the amendment, That all the amendment and all the words after the word "That" in the main motion be left out, and the following substituted therefor: "this House is of opinion that the mail and passenger service now rendered by the Allan, Beaver and Dominion Lines of Steamers is amply sufficient for the requirements of this Dominion and that it is inexpedient to increase the burdens of the people by granting increased subsidies to foster Atlantic Steamship Lines."

No. 57.

VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

OTTAWA, TUESDAY, 23RD APRIL, 1889.

PRAYERS.

On motion of Sir Hector Langevin, the Bill No. 145, from the Senate, intituled : "An Act further to amend 'The Dominion Lands Act,'" was read the first time, and ordered for a second reading to-morrow.

Mr. Tupper presented,—Return to an Order of The House of the 11th instant, for copies of all papers and correspondence in connection with a claim of Messrs. A. and J. Adams for loss incurred by the wreck of their vessel, "Carrier Dove," caused by the charge of lights at Crapaud Harbour, without due notice to the public.

On motion of Sir John Thompson, the Order for the third reading of the Bill No. 101, to amend the Copyright Act, was discharged, and the Bill re-committed to a Committee of the Whole, for further consideration; reported with amendments, considered as amended, read the third time, and passed.

Mr. Foster delivered a Message from His Excellency the Governor General, which was read by Mr. Speaker, as follows :---

STANLEY OF PRESTON.

The Governor General transmits to the House of Commons, Supplementary Estimates of sums required for the Service of the Dominion, for the year ending 30th June, 1890; and in accordance with the provisions of "The British North America Act, 1867," he recommends these Estimates to the House of Commons.

GOVERNMENT HOUSE,

OTTAWA, 22nd April, 1889.

On motion of Mr. Foster, the said Message and Supplementary Estimates were referred to the Committee of Supply.

Sir John Thompson moved, That the Bill No. 11, for the prevention and suppression of Combinations in restraint of Trade, be now read the third time.

Mr. Curran moved in amendment thereto, That the Bill be not now read a third time, but that it be re-committed to a Committee of the Whole in order to provide: "An Appeal shall lie from any conviction under this Act to the highest Court of Appeal for criminal matters in the Province where such conviction shall have been made, upon all issues of law and fact, and the evidence taken at the trial shall form part of the record in Appeal, and for that purpose the Court before which the case is tried shall take notes of evidence and legal objections."

And the question being put on the amendment;-it was negatived.

And the question being put on the main motion ;-it was agreed to.

The Bill was accordingly read the third time, and passed.

The Bill No. 84, to extend the provisions of the Extradition Act, was read the second time, considered in Committee of the Whole, reported with amendments, considered as amended, read the third time, and passed.

Mr. Foster moved, That Mr. Speaker do now leave the Chair, for The House to go again into Committee of Supply.

Mr. Barron moved in amendment thereto, That all the words after the word "That" be left out, and the following inserted instead thereof:----"Mr. Speaker do not now leave the Chair, but that it be Resolved, That it appears from a Return laid upon the Table of this House, that the Government of Canada, in the year 1886, acquired from the Band of Indians known as 'Shawanakiskic's Band' a surrender of the Indian title to the merchantable pine timber on the White Fish Lake Indian Reserve, or Reserve No. 6, in trust, to be sold for the joint benefit of the said Band on such terms and on such conditions 'as to Her Majesty's Government of Canada 'should seem proper, 10 per cent. of the bonus derivable from the sale of the said 'timber to be divided among the said Band, the remainder of the proceeds to be in-'vested for their sole joint benefit and for the benefit of their descendents in such 'manner as to said Government of Canada should seem to be most conducive to the 'interests of said Band.'

And it appears that at and prior to the time of the sale thereof, hereinafter mentioned, the Government of Canada had been officially advised that the said reserve contained "a large quantity of valuable pine timber fit for lumber much more than the Indians would be likely to require for their own purposes."

than the Indians would be likely to require for their own purposes." And that in consequence of the reserve not having been surveyed or laid out until recently, the Government of the Province of Ontario had no means of knowing of the existence of said reserve, and having no such knowledge, proceeded in the year 1872 to sell, and did sell, the pine timber thereon for several thousand dollars, all of which was well known to the Government of Canada prior to their selling the same, as hereinafter appears.

And that it further appears from said Return that the Government of Canada, without conferring with the Indians of said Band (or any of them) as to the price to be obtained for said pine timber, or in any way whatever enquiring as to their views or wishes regarding the same, and without communicating to them, or any of them, as to the sum of money for which they proposed to sell said pine timber, sold and disposed of the same, covering an area of 79 square miles, at a private sale, without competition of any kind, to one Honoré Robillard, now a member of the House, and a supporter of the said Government, for a nominal sum of \$316.

And it appears that the said pine timber is, and was at the time of the sale thereof, of a value in excess of the sum of \$50,000, and, by reason of the aforesaid facts, the Indians have been grievously wronged, and the trust they reposed in the Government of Canada has been violated and misused.

That in view of the facts aforesaid this House expresses its disapproval of the sale of the pine timber for the nominal sum of \$316 and of the manner in which it was sold, and this House declares it to be a gross violation of the trust reposed by the Indians in the Government of Canada, and it is the duty of this House to record its condemnation of the transaction."

WEDNESDAY, 24th April, 1889.

And the question being put on the amendment;—it was negatived on the following division :—

Has a deputation from the County of Peterborough waited upon the Government in regard to said undertaking? If so, what reply was made to said deputation? Has the Government been informed that the County Council of Peterborough will grant the sum of \$5,000 towards the undertaking, if the Government will bear the balance of the expenditure?

Return of the Collingwood Marine and General Hospital, for the year 1888.

Mr. Desjardins, from the Select Committee appointed to supervise the Official Report of the Debates of this House during the present Session, presented the Third Report of the said Committee, which is as follows :---

With a view of avoiding in future any possible delay in the printing of either the English or French editions of the Debates, the Committee have adopted certain rules which they append hereto and would direct the attention of The House to the same, and suggest that such arrangements be made during Recess of Parliament as will ensure the prompt issue of the English and French editions of the Debates.

RULES FOR THE PRINTING OF THE DEBATES OF THE HOUSE OF COMMONS.

The printing shall be performed daily, on sheets of sufficient size as may be directed, to contain the speeches which have been delivered at the previous sitting of the House, and be published as reported in the language in which they are delivered, the said sheets to be delivered to the Distribution Office by three o'clock, p.m., after each such sitting, and the French copy of the Debates shall be published within three juridical days after the copy of the same has been placed in the hands of the Printer.

In the event of the House sitting after (12) twelve o'clock, the daily sheets of the Debates are to be delivered as expeditiously as possible after (3) three o'clock of the following day.

The type to be used shall be Brevier type, with quotations in Nonpareil.

The type to be kept standing and three (3) days allowed for corrections, and then to be made up in the revised or book form edition. The sheets of the same to be returned by the Printer for Binding.

The Chief Reporter shall see that the Printer's copy of the daily sheet be furnished concurrently with the Debate as the Debate proceeds, and said copy shall be accepted by the Printer as correct for the purpose of the daily publication, and all the copy for each day's publication shall be delivered to the Printer within two (2) hours after the adjournment of the House—the Printer to give the Chief Reporter a receipt for the last copy delivered for that day's issue.

The Printer shall receive the revised proofs of the daily sheets for correction not later than forty-eight (48) hours after publication.

The Officer of the House whose duty it is to revise the Debates shall proof-read the daily edition, as well as transcribe corrections made by Members, before sending such proof-read and revised daily edition to the Printer for correction.

The signed proofs for the bound edition shall be returned by the Chief Reporter to the Printer for press within twenty-four (24) hours from the receipt of the same by him.

The Chief Translator shall see that the index of the French edition is prepared within one month after the work of translation has been completed.

Any member requiring extra copies of his own or any speech may have them furnished, covered or not covered, as may be required, at the actual cost not including composition.

Mr. Sproule, from the Select Standing Committee on Agriculture and Colonization, presented the First and Final Report of the said Committee, which is as follows :-

The Select Standing Committee on Agriculture and Colonization respectfully submit their first and final report.

The Committee examined Mr. John Lowe, Deputy Minister of Agriculture, on the subject of Immigration.

He made a statement respecting the results of the year, from which it appears that the total number of immigrants who settled in Canada during the year 1888 was 88,766, as against 84,526 in 1887.

The character of the year's immigration was reported to be satisfactory, it being alleged that no paupers were shown to have arrived who were in any way a burden on any Charity; and further, that none of the immigrants who came to seek work remained over at any of the Departmental agencies, unemployed.

It was stated that the High Commissioner in England, Sir Charles Tupper, has an understanding with the Local Government Boards, in virtue of which no paupers are allowed to embark for Canada without his consent, which is not granted unless it is shown they have friends to take care of them.

As regards the immigration of children under the auspices of benevolent persons or societies, it was ordered, in accordance with the suggestions of the Committee last Session, that there should be a medical inspection of each child before embarking; and it is reported that the practice has been carried out with satisfactory results.

The number of settlers who were reported to have gone into the North-West during the year 188³, was 29,685, as against 21,685 in the previous year. These figures include immigrants from other countries and immigrants from the older Provinces.

So far as ascertained and reported by the immigration agents, the sum of \$3,774,455 in money and effects was brought in by settlers.

The system of assisted passages which had been in operation since 1872 ceased altogether on the 27th April, 1888.

The total expenditure during the calender year for immigration purposes is \$183,057, to which must be added \$13,444, on account of assisted passages, the liability for which had been incurred before the commencement of the year, as against \$313,891 for 1887, thus showing a very decided reduction in the cost of the service.

The total expenditure of the Department in Canada for immigration publications during the calendar year 1888, was \$23,534, a fact showing retrenchment in this branch of the service as compared with previous years.

Mr. Lowe also gave the Committee some valuable statistics respecting the movements of populations in Canada and the United States in relation to the subject of immigration, having special reference to the agricultural classes. The facts stated by him, as reported, are contained in the Appendix herewith.

Mr. W. A. Webster was examined in relation to the efforts made by agents of American Railway Companies to induce Canadians in Ontario and the older Provinces to emigrate to the North Western States.

He stated that he had travelled over a considerable portion of the States of Dakota and Minnesota, with a view of ascertaining by personal observation whether those States possessed any advantages over our own North-West for immigrant settlement. He also visited Manitoba and the Canadian North-West. The result of the observations and the conclusions arrived at are that the advantages of our North-West over that portion of the North-Western States consists in the fact of possession of better soil, a milder climate, and more equitable homesteading land laws, together with greater immunity from early frosts and violent storms.

Mr. Webster visited many of the Counties in Ontario with a view of pointingout the advantages he described, to the young men of that Province, and he expresses the opinion that the information thus conveyed had induced many to migrate to-Manitoba and the North-West Territories, who would otherwise have gone to the United States.

Mr. J. T. Carey appeared before the Committee, to make objections, on behalf of the Knights of Labor, to the payment of a bonus as an assistance to child immigration. He spoke in special reference to the competition of these children in the Canadian labour market. His remarks, as reported, are contained in the Appendix herewith.

Professor Saunders, Director of Government Experimental Farms, was examined by the Committee, and he stated that the results of numerous experiments had shown that the wheat called "Ladoga" ripens fully ten days earlier than the "Red Fyfe." There appears, however, to have been considerable difference in the opinion expressed by the different bodies of experts to which the wheat was submitted, as to its quality, the same samples having been graded variously as "hard wheat," "soft wheat," and "No. 1 hard."

Mr. Saunders having stated that a series of careful experiments had been made by the Chemist of the Central Experimental Farm which demonstrated that the Ladoga was superior in gluten to the Red Fyfe, while reports from bakers and specimens of bread shown proved that the flour produced from it was strong in breadmaking qualities, even more so than that from the Red Fyfe, the colour of the bread, however, being a shade less white.

The remarks made by Mr. Saunders on the subject of the barley product of the Dominion and the importance for Canadian farmers of growing varieties suitable for malting purposes in England, cannot be too carefully considered by them. He showed that we were in danger, from two causes, of a lessened demand for our four and six-rowed varieties in the United States markets, which had hitherto taken such large quantities; and, on the other hand, that the importation into England, for malting purposes, reached the quantity of 35,000,000 bushels a year, and tor which much higher prices are paid than our farmers have hitherto obtained. It has, therefore, become a matter of prime importance for Canadian farmers to produce varieties to suit the English market. The kind used in England is the two-rowed; the four and six-rowed being not at all saleable there for malting purposes. Mr. Saunders stated that a large number of samples of the very best varieties of the two-rowed had been distributed among farmers in different parts of the Dominion.

Mr. Saunders stated that 913 seed germinating tests had been made during the year, of which 216 were of frozen wheat, 20 of frozen oats, and 19 of frozen barley. These tests showed that the vitality of frozen wheat varied from 21 to 99 per

These tests showed that the vitality of frozen wheat varied from 21 to 99 per cent.; frozen barley, 14 to 99 per cent.; and frozen oats from 2 to 94 per cent. The conclusion arrived at was that it was most unwise for farmers to sow anything but good seed, unless driven to it by absolute necessity, the rule being the same in vegetable as in animal life, from which it followed that a good constitution of seed was necessary in plant life to produce a good result.

Much of the information presented to the Committee on these subjects is contained in a bulletin published in March last; and the evidence of Mr. Saunders, as reported, is contained in an appendix herewith.

The Dairymen's Association of the Dominion, which held its meetings at Ottawa on the 9th and 10th of April, appointed a delegation to present its views before the Committee; and the statements made by the delegates are submitted herewith as part of this report.

The importance of the dairying interest to the Dominion is evidenced by the fact that our exports of cheese grew from \$13,675, in 1860, to \$8,928,242, in 1888; and the excellence of Canadian cheese is made manifest by the further fact that whilst the Dominion exported during the last year four million pounds less weight than the United States, the actual money value of the Canadian export exceeded that of the United States by nearly \$.00,000.

The representations in relation to butter making which were made by the delegates, are worthy of the attention of farmers. Their main object was to cause such steps to be taken as would increase the product, and improve the quality of Canadian butter.

The resolution passed by the Committee after the hearing of the delegates, in approval of their recommendations, is appended herewith, as a portion of this report.

The elaborate report of the Sub-Committee, of which Gen. Laurie was the Chairman, on the subject of tuberculosis in animals, in relation to its effects on mankind, as a question of public health, is hereto appended. The Sub-Committee was requested, during the last Sessien of Parliament, to continue its enquiries during the recess. This has been done with great carefulness and elaborateness, and for which, the thanks of the Committee were expressed by resolution.

(For the Report of the Sub-Committee, and the evidence accompanying this Report, etc., see Appendix No. 4.)

Sir John Macdonald moved, That The House do now go into Committee of the Whole, to consider the following proposed Resolution :--

That it be declared that the provision in the Act 51 Victoria, Chapter 3, respecting the Pontiac Pacific Railway Company extends the several subsidies in aid of the said Company for four years from the passing of said Act, that is to say, from the 22nd May, 1888.

Whereupon Sir John Macdonald informed The House, that His Excellency the Governor General having been informed of the subject-matter of the said Resolution, recommends it to The House.

Ordered, That The House do now go into Committee of the Whole, to consider the said Resolution.

The House accordingly resolved itself into a Committee of the Whole, on the said Resolution.

(In the Committee.)

The following Resolution was adopted :--

Resolved, That it be declared that the provision in the Act 51 Victoria, Chapter 3, respecting the Pontiac Pacific Railway Company extends the several subsidies in aid of the said Company for four years from the passing of said Act, that is to say, from the 22nd May, 1888. XXVI.-GEOLOGICAL SURVEY.

166 Amount required for Geological Survey..... 60.000 00

And the question being put, that the said Resolutions be now read a second time.

Sir Richard Cartwright moved. That the Resolutions relating to Railway and other expenditures, be not now read a second time, but that it be Resolved, That in the course of his budget speech, it was stated by the Minister of Finance, that an expenditure of \$12,738,849 would suffice to meet all the engagements of the Dominica on capital account, up to the 1st July, 1892, and would secure a fourteen foot canal system from Lake Superior to Montreal.

That it now appears, from subsequent statements made by the said Minister of Finance and other members of the Government, that the requirements of the Dominion on capital account must be estimated for as follows:-

1. For Canals, as aforesaid, \$13,551,109.

2. For Intercolonial and subsidiary lines of road, \$3,000,000.

3. For subsidies, \$6 000,000.

4. For annuities capitalised, \$4,000,000.

5. Road from Harvey to Moneton, \$3,000,000.

6. For minor works, \$1,000,000; being in all, about \$30,000,000.

That the Government have further agreed to expend \$750,000 per annum, for terms of years, in subsidising certain lines of steamers, less the amount now paid to the Allan and Dominion lines.

That the said annual charge for subsidies, and for interest on the said \$30,000,000, will involve an addition to the fixed charges on the revenue of \$1,700,000 per annum.

That the estimated expenditure for the year ending 30th June, 1889, is \$37,-893,384.

That the inevitable effect of a large portion of this expenditure on capital account will be to diminish the traffic and to further increase the heavy deficit now existing in working the Intercolonial Railway.

That, under these circumstances, the conduct of the Government in assuming these other and further obligations, is reckless and improvident; -which was negatived on the following division :--

Resolutions 74, 75, 76 and 77 were then read a second time, and agreed to. Resolution 78, being read a second time;

Sir Richard Cartwright moved, That the said Resolution be not agreed to, but that it be Resolved, That it appears, from statements made in this House by Sir Charles Tupper, then Minister of Finance, that "The construction of the road (Oxford and New Glasgow Junction), which I proposed to this Parliament to secure, shortens the distance between the whole of that great portion of Nova Scotia and the rest of Canada by no less than from forty to forty-five miles for every pound of

freight and for every passenger that is carried." That, on the faith of this statement, the House was induced to undertake the construction of this road as a Government work, and to incur an expenditure of not less than \$1,500,000.

YEAS :

That it now appears, from statements made in this House by the First Minister and others, that the distance, instead of being reduced from forty to forty five miles, has only been reduced by a distance variously estimated at from four to seven miles, and that the statement above mentioned was without foundation in fact, and that the House was induced to undertake the construction of the said road by false representations; —which was negatived on the following division :—

Resolution 78 was then agreed to.

Resolution 201, being read a second time;

Mr. Davies moved, That it appears, from the Report of the Minister of Railways, that one of the chief causes of the very large deficit of \$363,000 incurred in the working of the Intercolonial Railway for the financial year ending June 30th, 1888, was the carriage of coal from the Spring Hill Mines at rates far below paying ones. That such a policy, while very advantageous to the shareholders of the Spring Hill Mines, is unfair and unjust to the Farmers, Fishermen, Artisans, and other taxpayers and industries of this Dominion, and results in taxing the vast mass of the community in the interests of a small and wealthy class. That the policy of discri-minating in favour of the carriage of coal on a Government railway and against Farm produce, Lumber, Flour, Fish, and other articles, does not meet with the approval of this House, and that the Vote No. 201 for Intercolonial Railway, of \$3,200,000, be not agreed to, but be referred back to the Committee of Supply, with instructions to reduce the same to the sum of \$3,000,000 ;-which was negatived on the following division :--

		AND A STATE OF CALLED

Resolutions 195, 197 to 200, inclusive, 207 to 215, inclusive, being read a second time, were severally agreed to.

Resolution 216, being read a second time;

Sir Richard Cartwright moved, That it appears from the Public Accounts that the cost of managing the public lands in the North-West amounted to the sum of \$461,474 in the year 1887, and \$426,820 in the year 1888.

That the total receipts from all sources amounted to \$191,781 in 1887, and \$217,0c3 in 1888, showing a deficiency in two years of \$479,432.

That in the year 1880, the First Minister, being then Minister of the Interior, stated that he estimated the net proceeds to be received from these lands before 1890 at \$68,900,000, after deducting the costs of survey and administration.

That on the 4th May, 1883, Sir Charles Tupper informed the House that the Deputy Minister of the Interior calculated that the receipts from said lands "would amount to \$38,000,000 from 1st January, 1883, to 31st December, 1891, both days inclusive."

That the total expenditure for North-West lands up to the 1st July, 1888, on Capital Account is stated at \$5,778,777, and the total receipts credited against the said expenditure were \$4,275,526, leaving a deficit of \$1,503,251 on Capital Account only.

That the expenditure of the said Department of the Interior is extravagant, and that the said vote of \$185,748 for Dominion Lands be not agreed to, but that it be referred back to the Committee of Supply, with instructions to reduce the same to the sum of \$100,000; — which was negatived on the following division :—

Resolution 52, being read a second time; Mr. Somerville moved, That it appears from evidence reported to this House from the Committee on Public Accounts that one Henry Smyth, heretofore employed by the Department of Immigration, had furnished a return of expenditure under false dates, and for services which he did not render; and that one W. A. Webster, likewise an employé of the said Department, was shown to have been actively engaged in byc-elections while drawing pay from the Department; that it is improper and inexpedient that the public funds should be used for the payment of such persons, and that the said vote for \$95,135 for Immigration be not agreed to, but that it be referred back to the Committee of Supply, with instructions to reduce the same to the sum of \$50,000 ;-which was negatived on the following division :-

The House went into Committee of the Whole to consider cortain proposed Resolutions to authorise the granting of subsidies to certain Railway Companies and towards the construction of certain Railways therein mentioned, and progress having been made, and reported, the Committee obtained leave to sit again on Monday next

Mr. Foster delivered a Message from His Excellency the Governor General, which was read by Mr. Speaker, as follows :--

STANLEY OF PRESTON.

The Governor General transmits to the House of Commons, additional Supplementary Estimates of sums required for the Service of the Dominion, for the year ending 30th June, 1890; and in accordance with the provisions of "The British North America Act, 1867," he recommends these Estimates to the House of Commons.

GOVERNMENT HOUSE,

OTTAWA, 27th April, 1889.

On motion of Mr. Foster, the said Message and Supplementary Estimates were referred to the Committee of Supply.

The House then adjourned until Monday next.

JOSEPH ALDRIC OUIMET.

Speaker.

NOTICES OF MOTIONS.

Mr. Macdowall-On Monday next-ENQUIRY OF MINISTRY-Whether a letter was written James P. Lake, stating that he would be paid \$270 for a wire rope and use of scow by the Militia in 1885 ?

Has this been paid? If not, why not?

Mr. Davin—On Monday next—ENQUIRY OF MINISTRY—Whether the attention of the Government has been directed to the question which, on the 4th April, in the English House of Commons, was put by Mr. E. Beckett to the Under-Secretary of State for the Colonies, respecting the action of the Manitoba Legislature in passing an Act on the 2nd of March, 1889, repudiating the statutory guarantee of interest on the bonds of the Hudson's Bay Railway Company, for twenty-five years, which was provided for by an Act of the said Legislature in 1886, and the answer of Baron de Worms, in which he stated it was a matter entirely for the Provincial and Dominion Legislatures ?

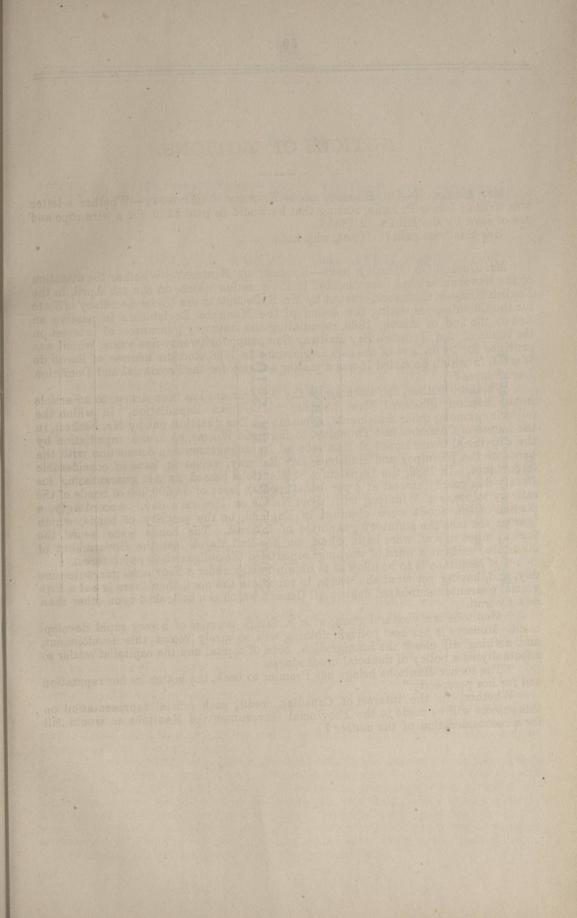

Whether, further, the attention of the Government has been drawn to an article in the London *Financial News*, headed: "Manitoban Repudiation," in which the following, among other statements, appears:—" The question put by Mr. Beckett, in the House of Commons last Thursday, to Baron de Worms, as to the repudiation by the Provincial Government of Manitoba of its engagements in connection with the bonds of the Winnipeg and Hudson's Bay Railway, raises an issue of considerable importance. In 1886, the Legislature of Manitoba passed an Act guaranteeing for twenty-five years, interest at 4 per cent. upon an issue of \$4,500,000 of bonds of the railway to connect Winnipeg with Port Nelson on Hudson's Bay. Accordingly, a portion of the funds were obtained in England, on the security of bonds, which bear on the face the statutory guarantee of interest. The bonds were issued, the first 40 miles of road were built, when, on the 2nd March last the Government of Manitoba, without a word of warning, repudiated the obligation to pay interest.

"If Manitoba is to be allowed to obtain money under a Provincial guarantee one day, and, having got what she wants, to repudiate the next, then there is not a Provincial guarantee municipal debt in all Canada which can be looked upon other than as a fly-trap.

"Manitoba is a youthful giant, with a future promise of a very rapid development. Honesty is her best policy!; nothing will so surely retard this development, and nothing will check the immigration, both of capital and the capitalist settler so effectually as a policy of financial crookedness.

"The sooner Manitoba brings her Premier to book, the better for her reputation and for her prosperity."

Whether, in the interest of Canadian credit, such official representation on this subject will be made to the Provincial Government of Manitoba as would call for a reconsideration of the matter ?

502 4 8rd Session, 6th Parliament, 52 Victoria, 1889. **VOTES AND PROCEEDINGS** A. Surfoal, Superintendent of Printing. OTTAWA, SATURDAY, 27th APRIL, 1889. HOUSE OF. COMMONS. For the Queen's Printer, &c. OF THE OTTAWA: No. 61. All address of the second s THE HAR - united a 15

No. 62.

VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

OTTAWA, MONDAY, 29TH APRIL, 1889.

PRAYERS.

Sir Hector Langevin, from the Joint Committee of both Houses appointed to enquire into the expenditure of the country in respect of Legislation and the practicability of reducing the same, presented a Report, which is as follows :--

The Committee have had under their consideration certain comparative statements in relation to the expenditure of both Houses, and have agreed to report as follows :---

1. Your Committee had under consideration the suitability of amalgamating the Law Department of both Houses, but it being shewn to them that the Law Clerk of the Senate, in addition to filling the duties of Law Clerk, was also Clerk of Committees, and as such Clerk of the following Standing Committees of the Senate, viz.: "Railways, Telegraphs and Harbors," "Banking and Commerce," "Divorce," and "Contingent Accounts," and further, is English Translator as well; and as it was considered that though the Law Department were amalgamated, still a clerk would be required for the Committee work, and as, furthermore, they demed it extremely desirable that an independent opinion might or should be obtained upon Bills, your Committee do not think it advisable to interfere with the present arrangement.

2. The propriety of amalgamating the Post Offices of the two Houses was also suggested, but as considerable inconvenience to Senators and Members of Parliament would be created thereby, and your Committee being made aware that in the Senate Post Office there was only one official, viz., the Postmaster, who attends to the whole duties of the office, your Committee recommend no change from the present system, as in their opinion no saving would be made by such amalgamation.

3. It was also suggested to your Committee that an amalgamation might be made of the Acccuntant's Departments of the Senate and House of Commons, but as such an arrangement would be the cause of very considerable inconvenience to the Members of both Houses, and, furthermore, as your Committee note that, in the Senate, the Clerk of the Senate is the Accountant, and that the Assistant Accountant, in addition to his duties as such, has a great deal of work to do in the Clerk's office, and as he would still have to be employed, his services being necessary, your Committee do not see where any saving would be effected, and therefore recommend no alteration in the present system.

4. Your Committee had also under consideration the matter of amalgamating the Reading Rooms of both Houses, and do not advise any alteration of the present system, inasmuch as the amalgamation would require an enlarged room, which, under the circumstances, would require a large expense, and there would be no saving in the staff, one officer only being now employed for each Reading Room. Moreover, many of the files of newspapers required for binding in the Library are, on account of their careful handling and good condition, taken from the Senate Reading Room.

As regards the Senate, your Committee recommend :--

5. That on the expiry of the tenure of the present incumbent of the Chaplainer of the Senate, the office shall be abolished.

6. That the rooms at present occupied by the Gentleman Usher of the Black Rod, and the Housekeeper, shall be vacated by them, compensation being allowed them therefor.

7. That in future the amount to be placed in the Estimates for stationery shall be four thousand dollars, and such amount is not to be exceeded.

8. That the successor to the present incumbent of the office of Gentleman Usher of the Black Rod may receive a salary of one thousand dollars (\$1,000), with no residence, and no compensation therefor.

9. Your Committee also recommend, that, leaving the present incumbents undisturbed, the appointments and salaries to vacancies in the offices of the Senate may be as follows :-

10. The Clerk Assistant to begin at \$2,400 and to rise to \$2,800.

11. The second Clerk Assistant to begin at \$1,400 and rise to \$1,800.

12. The first English Clerk, etc., to begin at \$1,400 and rise to \$1,800.

13. The second and third English Clerks to begin at \$1,100 and rise to \$1,400.

14. The first French Translator to begin at \$1,600 and rise to \$2,000.

15. The Sergeant-at-Arms, etc., to begin at \$1,400 and to rise to \$1,800.

16. The Postmaster to begin at \$1,000 and rise to \$1,200.

17. The Assistant Clerk of French Journals to be in at \$600 and rise to \$900.

18. The Assistant Accountant to begin at \$750 and rise to \$1,000.

19. The Junior Clerk to commence at \$600 and to rise to \$1,000.

20. It was also agreed to recommend that future appointments and salaries of permanent Messengers shall be as follows:-

Chief Messenger, Doorkeeper and Speaker's Messenger, to begin at \$400 and rise to \$600; all other Messengers, including the Wardrobe and Assistant Door-keeper, the Bank Messenger and News Room Keeper, to begin at \$300, and rise to \$500.

21. It was also agreed, that the number of Pages be limited to five, and that of the Sessional Messengers also to five.

22. It was also agreed to recommend, that all increases to salaries shall be by an annual amount of \$50, until the maximum is reached.

A Schedule is attached, showing the offices, and present and proposed salaries of the staff of the Senate.

In respect of the House of Commons, your Committee recommend :---

23. That the rooms at present occupied by the Sergeant-at-Arms and the Chief Messenger be resumed possession of by the Government, and compensation allowed the occupants.

24. That in future the amount to be placed in the Estimates for Stationery shall be ten thousand dollars, and such amount is not to be exceeded.

25. It was agreed to recommend, that, leaving the present incumbents undisturbed, appointments and salaries to vacancies in the offices of the House of Commons may be as follows :---

26. The Clerk Assistant to begin at \$2,400 and to rise to \$2,800.

NOTICES OF MOTIONS.

Sir Donald Smith-On Wednesday next-ENQUIRY OF MINISTRY-With respect to the Fund for the relief of sick and distressed Mariners:

1. Does not the Act 31 Victoria, chapter 64, require that the Minister of Marine and Fisheries shall make periodical reports of the receipts and expenditures under the said Act?

2. Was not a summary of these reports for the previous eighteen years given in the Nineteenth Annual Report of that Department, page 34?

3. Did not that summary show the total amount of Disbursements as being \$752,238.47, and of receipts as being \$725,679.84, leaving an apparent deficit of \$26,558.63?

4. Did not this item of Disbursements, \$752,238.47, include:

(1.) The hospital care in the Marine Hospital at Quebec of 8,293 persons, who were not sick mariners, for an aggregate of 272,617 days, at an average cost of $86\frac{2}{5}$ cents per day, amounting to the sum of \$235,541.08; and

(2.) The sum of \$16,500, being subventions from time to time paid to two local hospitals, one in St. Catharines, and the other in Kingston, together aggregating the sum of \$252,041.08?

5. Are not these expenditures outside the scope of the Sick Mariners' Act, which provides that "The monies so received shall * * form a fund, to be called and known as the Sick Mariners' Fund, for the purposes mentioned hereinafter, and no other"?

6. Instead, therefere, of there being, as on 30th June, 1886, a debit balance against the Sick Mariners' Fund of \$26,558.63, as shown in the said Nineteenth Annual Report, was there not, in fact, a surplus of \$225,482.45 at the credit of the Fund on said date, if the account had been correctly stated ?

7. Were not the dues, levied on shipping by the said 31 Victoria, increased by 50 per cent. in 1875, by 33 Victoria, chapter 31, on the erroneous plea that the receipts from the tax were insufficient to meet the expenditures of the Department for the care of sick and distressed seamen?

8. What steps do the Ministry propose taking :

(1.) To correct the returns made to the House, and to show the foregoing surplus, \$252,041.08, at the credit of the Sick Mariners' Fund, as on 30th June, 1886; and

(2.) To reduce the tax on shipping, so as to make it no greater than is necessary to meet the expenditure for care of sick mariners, as provided by law?

Mr. Charlton—On Wednesday next—ENQUIRY OF MINISTRY—What are the names of the six Pagans returned for the Parish of St. Elizabeth, in the County of Joliette and Province of Quebec, in the Census Returns of 1881, as appears from the original schedule of the enumerator for that parish ?

Objection having been taken to the regularity of the motion,

Mr. Deputy Speaker thereupon ruled the motion out of order, on the ground that no notice had been given thereof.

The House went into Committee of the Whole to consider certain proposed Resolutions to amend the Act respecting the Judges of Provincial Courts, etc.

(In the Committee.)

The following Resolutions were adopted :--

1. Resolved, That it is expedient to amend the Act respecting the Judges of Provincial Courts and to provide that the salaries of thirteen Judges of the Superior Court, in the Province of Quebec, whose residences are fixed at Montreal or Quebec (not including the Judge of the district of Terrebonne), shall be \$5,000 per annum.

"In the name of the Commons, I present to Your Excellency the following Bill :-

"An Act for granting to Her Majesty certain sums of money required for defraying certain expenses of the Public Service, for the financial years ending respectively the 30th June, 1889, and the 30th June, 1890, and for other purposes relating to the Public Service,' to which Bill I humbly request Your Excellency's assent.

To this Bill the Royal Assent was signified in the following words :--

"In Her Majesty's name, His Excellency the Governor General thanks Her Loyal subjects, accepts their benvolence and assents to this Bill."

After which His Excellency the Governor General was pleased to close the THIRD SESSION of the SIXTH PARLIAMENT of the Dominion with the following speech :--

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In relieving you of the arduous labours which the present Session of Parliament has imposed on you, I rejoice that I am able to congratulate you on the number of important and useful measures which have resulted from your deliberations.

I have reason to hope that the authority which you have conferred on my Government will enable them to conclude an arrangement for effective steam communication with Europe and with Asia, whereby the trade and commerce of Canada will be widely extended and the traffic passing over her lines of communication greatly developed.

You have again made liberal provision for extending the railway facilities of the Dominion and for increasing their efficiency.

The Act relating to the Electoral Franchise will, I believe, be found an important improvement, tending to economy and certainty in the administration of that branch of the law.

The measure by which the system of Speedy Trials for criminals has been extended to the Maritime Provinces is likely to prove a valuable addition to our Criminal Procedure.

It is gratifying to know that your address referring to the boundaries of Ontario, will lead to the early settlement of the principal question which has remained unsettled to the present time between that Province and the Dominion, in a manner entirely satisfactory to all concerned.

The amendment of the laws relating to Copyright, will, it is hoped, remove some of the embarrassments under which the printers and publishers of Canada have laboured for some years past, without doing injustice to authors in this or other countries.

You have provided for greater efficiency and economy in the Postal Service, for giving greater facilities for the settlement of our lands in the North-West Territories, and for increasing the safeguards of life and property on our ships.

Many of the other measures although of a minor character will be found of great usefulness in conducting the affairs of administration.

Gentlemen of the House of Commons:

You have liberally provided for the various requirements of the public service.

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

In taking leave of you I congratulate you on the indications of prosperity which appear in all parts of Canada, and on the increasing revenue which promises amply to meet the appropriations for the year.

I sincerely hope that in the season which is now opening the labours of our people may be blessed by Divine Providence, and that when it shall be my duty to summon you again, I shall be able to renew the congratulations which I have already expressed on the marked welfare and progress of the Dominion.

The Parliament of the Dominion of Canada was then prorogued until Tuesday, the 11th of June next.

JOSEPH ALDRIC OUIMET,

Speaker.
