BONUS TO IRON INDUSTRY URGED WOULD DEVELOP LAKE SUPERIOR REGION AND STIMULATE TRADE

R. R. Gamey Traces Evolution of Iron Mining in Ontario—Price Grays, But Production Has Not Increased—Surveys Show Promising Tracts in Northern Ontario.

The Ontario Legislature yesterday put itself on record as in favor of urging upon the federal government the importance of granting a measure that would stimulate the iron industry of Canada. What form that assistance would take would be left to the discretion of the ministers at Ottawa, but the idea would be to promote public interest that the iron and steel business, which now languishes, would be placed on an assured and permanent footing.

TRIED TO BRIBE ALDERMEN AT MONTREAL

Edward Beck Hints at Coming Startling Revelations—Detective Bidding of Burns Agency, Says Corporation "Approached" More Than One Alderman.

MONTREAL, March 12.—Edward Beck, former editor of The Montreal Herald, who conducted an investigation which resulted in proof that three members of the Quebec Legislature had accepted graft, is back home from a holiday in Bermuda, and in an interview tonight says: "My experience in Quebec showed me that exposure of graft among public officials is neither a profitable nor pleasurable duty. If, however, Mr. Louis McGibbon, whose public interest inspired this investigation, desires me to make public the result of my enquiry at the Montreal City Hall, I will do so. We have evidence that more than one city official was on the Burns operatives pay roll during the time they were engaged in Montreal."

NEWS OF SPECIAL INTEREST TO WOMEN

TORY WOMEN HEAR WONDERS OF HYDRO Hon. Adam Beck, in Address Tells What Has Been Done. TOLERABLE FARM LIFE Follows Invasion by Electric Light and Power - What Future Holds.

Adam Beck spoke before the ladies of Centre and South Toronto Conservative Association yesterday afternoon. He was introduced by Mrs. Arthur Vankoughnet, president of the society.

Because of its policy in conserving the resources of the country generally the present administration is now getting recognition all over the country, Mr. Beck told his hearers.

In Europe conditions were different. A farmer could live on fifty acres of land in comfort. He was an intensive farmer, the seed was unknown, and comfort and even luxury had been introduced thru the medium of electricity.

Large Things in View. "Large things in view are the establishment of electric power in Ontario for the purpose of introducing forty-six municipalities to produce Hydro, Port Stanley has given sixteen thousand dollars towards the work, and in nine months the surplus of eleven hundred in the bank. Power had been introduced at a cheaper rate than it is given in Hamilton.

LUCAS MET CHARGE OF EXTRAVAGANCE BY REFERENCE TO RULE OF LIBERALS

Division on Amendment to Government Motion Showed Conservative Majority of Fifty-Five — Budget Debate Closed With Vigorous Intercourse Between Rowell and the Provincial Treasurer.

The budget debate of the session came to a close yesterday afternoon with the opposition going down to defeat after a very spirited discussion. The last round of the speaking brought Mr. Rowell and the provincial treasurer to arms' length and some warmly expressed opinions were exchanged.

The opposition attack hinged about the right of appropriation of the funds which had been appropriated for specified purposes and turn them into other channels. Such a system, it was claimed, ran contrary to the very spirit of legislation and placed in the hands of the cabinet a dangerous rolling up of a huge statutory expenditure without the sanction of the House.

Mr. Rowell began by stating that ten years ago the province had been paying its way, but that now, although the bill, having been called twice and not proceeded with, he sent back to the House. I have a letter from the secretary of the Hydro-Electric Commission stating that this company has had a charter for twenty years and has done nothing. For that reason alone a time extension should not be granted.

Mr. Rowell claimed that it was illegitimate to leave on the receipt side the cash on hand at the beginning of the year, the T. and O. subsidy, which had increased the borrowings of four and a half millions, and the municipal sinking funds. If this sum had been deducted, as it should have been, the current receipts would have been ten millions. On the disbursement side also the two millions in cash on hand, the drainage debentures, and advances to the T. N. O. and Hydro-Electric Commission should come out, and then the province would have closed the year with a million less receipts than expenditures.

The chief point of the opposition leader's address was that money which had been borrowed for a specific purpose should have gone only into that account. The legislature had authorized certain borrowings, but these had been diverted to whatever purpose the treasurer afterwards saw fit to encourage. He had gone to the money market and raised one million for the Northern Ontario development authority, and again for another million. It was a wanton misuse of authority and should be condemned.

Mr. Rowell declared that the treasurer in his knowledge of finance that he would borrow money at six per cent and deposit it in the bank here at three per cent. The whole scheme was one of deluding the province as to the handling of their trust. He called attention to the fact that the statutory expenditure last year exceeded four and a half millions. It meant that the government had taken out of the hands of the legislature the expenditure of a sum nearly as large as the total liability ten years ago. Where was it going to stop?

Mr. Rowell figured out a deficit of four millions for the coming year, and speculated on the way it would be met according to the government's unjust methods, and he treated either by forming new sources of revenue or by borrowing, and this latter, which was likely to be followed, did not commend itself to the independent opinion of members of the house. What the province wanted was a fair clear-cut statement and there would be no fear for the future.

Not Earning Their Salaries. Pursuing his way down the financial statement, the opposition leader discovered an unwarrantable increase in the majority of the departments. Men under employment were not approaching in value their salaries, and the government plainly considered the test of good financing to lie in expenditure.

ELECTION INTEREST HIGH AT MIDNIGHT

Varsity Polls Closed at Witching Hour — Party Feeling Ran High.

LARGE VOTE IN EARLY

Many Motor Cars in Use—School Men Plan Revel Tonight.

Scenes of excitement were presented at the Varsity Lt. elections yesterday, when the three-cornered battle for control of the fortunes of the U. C. Literary Society was fought. From early morning until 2 o'clock this morning, the three parties held forth, and at no time did interest flag while the issue was being fought out.

Each of the three parties had a number of automobiles which they used to bring out their supporters. The vote for the U. C. Athletic Association was duly announced at 11 o'clock, and the building was thronged with a large number of ballots were registered.

The school elections are billed for tonight, and as generally the case election night provides a great excitement than any other day on the academic calendar. The science men will exercise their franchise in the draughting room behind convocation hall, and when the officers of the Engineering Society for the coming year have been duly announced, the program of the evening will be officially ushered in.

SIGNED BILL FOR ALASKA RAILWAY

Will Be First Railroad Constructed by Government of the United States.

WASHINGTON, March 12.—President Wilson today extended what he termed the hand of real helpfulness and brotherhood to Alaska when he signed the bill authorizing the expenditure of \$25,000,000 for the first government-owned railway constructed by the United States.

Secretary Lane, a group of senators and representatives and members of the Seattle Chamber of Commerce stood beside the president as he affixed his signature. When the bill had been signed the president made a brief speech. Secretary Lane immediately afterward had a long talk with the president about the selection of engineers for the work. The Col. Goethals had been mentioned it is unlikely that he will be thru with the Panama Canal in time for the present undertaking, which Mr. Lane intends to get into operation at once.

The work is a newspaper for the home as well as for the business man.

NEWS FROM THE CITY HALL

PURCHASE OF T. E. L. WOULD BENEFIT PROVINCIAL HYDRO

Good Results From Municipalization of Interurban Would Only Follow if Toronto Electric Light Were Bought Up as Well—Clean-Up Agreement Now Almost Complete.

The negotiations for the clean-up of the franchises are now in the final stage, and the amended agreement of purchase is being completed with the least possible delay. The parties of either part are in accord in drawing up an agreement which will not only clean up the franchises, but will exclude provision for running rights of radial cars within the city limits until the city has regained control of all electric lines.

Now that the Provincial Hydro-Electric Commission has invited the city to co-operate in the purchase of the Interurban Electric Company system, the provincial commission has practically joined forces with the city for the buying out of the Toronto Electric Light Company system. There would be no business proposition for the city to buy out the Interurban unless the Toronto Electric Light Company wires of the Interurban. With the Toronto Electric Light Company's system municipalized, the city could then find it a business proposition to buy out the Interurban system so as to clean up the franchise.

That portion of the Interurban system that is within the city limits is worth no more than \$60,000 to the city. The company asks \$286,000 for it, and the provincial commission advises the city to buy at that price. Should the city buy at that price, the provincial commission would then be enabled to buy out the portion of the Interurban system that is outside the city limits, and the cost would be no greater than the value.

With the Interurban absorbed by the provincial system, the hydro-electric interests of the province would be benefited most satisfactorily, but those interests would be benefited even more by the city buying out the Toronto Electric Light Company. The provincial commission expects that the city will not only expend \$8,000,000 in municipalizing the Toronto Electric Light Company's system, but will invest an extra \$200,000 in cleaning up the franchise of the Interurban in the city.

REQUIRE PAGE TO EXPLAIN SPEECH

Ambassador's Statements at London Have Created Re-sentment at Washington.

According to custom, if Ambassador Page does not forestall the action by voluntarily forwarding an explanation of the incident, the resolution will be tabled tomorrow as soon as it is sent to the state department.

Representative Murray's resolution sets forth that the remarks of Ambassador Page seem to portend the abandonment of the Monroe doctrine and to invite European violation.

It would ask the state department whether "a new American policy of subjecting American policy of the self-interest of the nations of Europe" is the fundamental reason for the force, exempting American vessels conducting a coastwise trade from canal tolls.

What the district attorney's office described as "material for at least fifty indictments" against Henry Siegel and Frank E. WIDEN MAIN STREET AND BUILD SUBWAY

Commissioner Harris Will Recommend This at Cost of Two Hundred Thousand.

Ald. Walton put thru the city council a resolution for a report upon the widening of Main street, between Gerard street and Danforth avenue, and upon applying for an order to compel the G. T. R. to construct a new bridge over its tracks there.

The proposed subway would have a five per cent grade of approach beneath the tracks of the G.T.R. in place of the present bridge. This subway is sixty-six feet in width, with the east wall located on the new east street line, and provides for fourteen feet head room. This plan provides an approach to Bridge street very similar to the one in existence at the present time, and permits easy access to Stephenson avenue.

The cost is estimated at \$207,750, and the commissioner recommends that it be borne by the city at large.

CITIZENS PAY NO RATES BUT GET WATER SERVICE

Delivery of water by carts in the Midway district, commenced in 1911 and has cost the city to date \$476,640. No water rates for this service have been paid. The carts supply one hundred and eighty-eight houses, the cost for each house averaging \$12.53 per year.

ASK THAT CLASS BE OPENED AGAIN

Deputation Seek Channel of Instruction for Their Deficient Children.

BOARD QUITE WILLING

Will Arrange New Class if City Council Will Provide Building.

Aid. Wanless headed a deputation of parents, who asked the management committee yesterday afternoon to keep up the Grace street class for deficient children.

A motion was adopted which will be sent to the mayor, expressing the readiness of the board to arrange for classes for deficient children as soon as the city council is prepared to open a municipal building for such pupils.

Aid. Wanless said that he will support the proposal in the city council. Inspector Rogers reported that Miss Leighton, against whom charges of excessive strapping a girl at Earl's court, had been published, had been prostrated on account of the charges. The investigation and the statements of the girl whose hand was strapped, had, according to Inspector Rogers, cleared the teacher from blame, to the entire satisfaction of the committee of enquiry appointed by the Education branch of the British Empire League.

Rosebush Will Appeal.
I. P. Rosebush appeared with his young daughter and protested against the child being placed in the Orde Street Portico unless the charges of getting her former place at McCaul street, after a prolonged absence thru illness. As the McCaul class was full the committee could take no action. Mr. Rosebush said he would go to the board of control about it.

Secretary Manley of the Ontario Safety League addressed the committee on the question of the warning defraying the cost of 150,000 warm blankets, to be taken home by the school children.

Could Not Accede.
As the board has a contract for all printing costing over \$10, the committee was unable to accede to the request, but will endeavor to co-operate with the Safety League on some other basis.

MORE HOUSES WOULD HELP SUDBURY GROW.

SUDBURY, March 12.—The announcement today, giving the population of Sudbury at 7061, exclusive of transient, the addition of which would bring the total up to a conservative estimate of 7500, is doubtless highly gratifying to most citizens. The increase over the previous 12 months is on a par pro rata with former growing years.

"With sufficient suitable houses available there would be 800 families, or approximately 800 more people resident in Sudbury than at the present time," was the statement made by a man who is in the house renting business today.

The Harvest of Health

Wheat flour made into bread yields more nourishment with less tax on the digestion than any other food.

That's why big bread eaters are generally the healthiest people. They get all the nourishment their bodies require without loading their stomachs and clogging their systems with heavy foods, of which a large percentage is waste.

You should eat more bread

for your health's sake and for the sake of economy. You'll be surprised at the way you can cut down your living cost by eating more bread and less high-cost foods—and you'll be all the better for it physically. Try it—and to be sure that you get the best bread—the lightest and most digestible kind,

BOYS WHO COVET OTHER'S BELONGINGS

"He joined the Boys' Dominion Club and got into bad company," explained Billy's loyal pa, before the juvenile court, where his innocent offering was summoned on a charge of theft. A gold watch had proven too strong a temptation, and with a few simple twists of the wrist Billy was in possession of this coveted article. Although home conditions are favorable, the boy seems unable to refrain from disobedience, and is often caught playing truant. A few words of advice from Mr. Graham and a probation card are expected to do wonders for the offending Billy.

TWO MISSIONARIES MISSING.

Seven boys, charged with trespassing on Toronto Street Railway property and stealing 40 light bulbs, were made to realize the value by being fined \$1 each. WOULD HOLD ALL DIRECTORS LIABLE

Banking Committee Still Considering Powers of Trust Companies.

OTTAWA, March 12.—The banking and commerce committees of the commons resumed consideration this morning of Hon. Mr. White's bill respecting trust companies. A clause introduced from the Companies Act makes the directors of a company liable to the company and the individual shareholders, in case the directors pay any dividend when the company is insolvent, or a dividend which diminishes the capital stock. Discussion centered around a proposed clause making the directors liable to the company alone.

SEPARATE SCHOOL BOARD IS DIVIDED AT OTTAWA

OTTAWA, March 12.—The stormiest meeting ever held by the Ottawa Separate School Board, reached a climax last night when the English section moved that the Ontario Government be asked by the board to enact special legislation whereby the separate schools might be so divided that the English-speaking Catholics and the French-speaking Catholics might each elect their own board of trustees.
