ONE POLITICAL POLICY

War Makes What Was Impossible Year Ago, Accomplished Fact Today.

FETROGRAD, Sept. 8, via London, .14 p.m.—The Novoe Vremya announces the formation of a new maority in the douma which comprises the Liberal and progressive element,

replacing the Conservative majority. The newspaper editorially comments favorably on the formation of the new majority, saying: "After a year of war we now wit

ness a union of all social groups upon a general program of political action. What was impossible a year ago has been realized. "A union on a single political pro-

gram, responding to the requirements of the day of parties differing in political creeds-this is a fact of great

importance whose consequence cannot but be reflected immediately in the entire policy of the empire."

The Novoe Vremya has retained thru the last fifteen years a reputation as a weather vane. Its support of the new douma majority therefore is regarded as highly significant.

Of Historic Importance.

Debate in the douma on the military

Debate in the douma on the military censorship took a wide range, in view of the renewed reports that the Conservatives were working secretly for dissolution or prorogation. Prof. Paul N. Milukoff declared the formation of of the Conservative block to be an event of historic importance, adding the douma will bring about a solution of the question of power, provided the

douma remains alive.

"Popular instinct feels this," he continued, "and the people hear with deep concern all rumors of a dismissal of the douma. I believe you clearly un-derstand that in these circumstances dismissal would be political madness. Let those who are agitating it know. therefore, that if the douma is prorogued now we shall meet again in a few weeks, perhaps in a different frame of mind. HAMILTON Thursday, Sept. 9.—Hamilton citizens demonstrated their patriotism and desire to assist in every manner in the work of providing comforts and supplies for the soldiers in the English and French hospitals, and for the supplying of equipment for the Red Cross workers on the field of battle by attending the united patriotic fete held at the cricket field vesterday afternoon and evening in thousands. Some weeks ago the Canadian Club pledged itself to raise \$10,000 for this work by holding the fete, and, while no definite figures could be ascertained last night, it was announced that the desired mark had been passed. Nearly 18,000 persons were present during the afternoon and evening. The affair was the biggest of its kind ever held in this city.

Chened by Mayor.

The formal opening was made by Mayor Walters, in the absence of Hon. Sam Hughes and Sir John M. Gibson, from whom messages of regret were read. Following a short address by Mayor Walters, the procession of the living flag, in which 400 girls took part, was seld, and after they were placed in the stand they rendered a number of national and patriotic songs.

The Toronto-Hamilton Highway Commission is arranging to have the bridge over the western end of the bay built this winter. By the time snow commences to fall it is expected that most of the con-crete work on the new road will be done, with the exception of where there has been a big fill. In such a case the intention is to wait a year until the earth settles. By the end of 1916 the, the road-way will be completed. Berlin, Concerning Recent Act of Piracy.

. BERLIN, Sept. 8.—(Via London, 8.05 p.m.)—The commander of a German submarine which has returned to its base has reported to the admiralty that he torpedoed the liner Arabic in the belief that the Arabic's action indicated she was about to attack the submarine, and that he fired in self-defence. According to the submarine com-

mander's report, the submarine was engaged in destroying a freighter when the Arabic was sighted. The submarine was then on the surface. The Arabic, the commander de-clares, swung about and headed towards the freighter as if to attack the submarine. The commander of the undersea craft remained in doubt as to the intentions of the Arabic when the latter changed her course a few points, but still kept headed in a direction that was bringing her nearer to

Sunset last night was the beginning the Jewish new year, and prayers at the various synagogues in the city were held at 6.30. The University Avenue Synagogue was more than taxed to capacity, there being easily 2000 people present. One hundred Jewish members of the second contingent were granted two days' leave of absence from the Niagara camp. They arrived in Toronto ait 2 o'clock yester day afternoon, and were at the syna-gogue last night. Rabbi Julius Price granted the soldiers privileges of the synagogue, and arranged with the nembers to have each take one of the oldiers to their homes and entertain him while in the city. As there are over 500 members there was much confusion last night as to who would take a soldier. No sermon was preached at last night's session. to The World:
A great good to Toronto, both from patriotic and artistic sides, may be had thru the four grand opera and ballet performances which have been proposed for the latter part of Octo-ber, in the Arena, by the Boston Grand Opera Company and the Pavlowa Ballet Russe.

At the request of Toronto people, Mr. Max Rabinoff, managing director of these organizations, has generously agreed to substitute for his original offer another, in which the national committee of women for patriotic ser the receipts, and, also everything above actual expenses.

account have agreed to serve as an executive committee to co-operate in making the undertaking all-helpful to providing field comforts for fighting Canadians.

There has been some misunder-tanding of the original proposal made by Mr. Rabinoff, and for that reason as well as the need now of acquaint ing the public with the new and alto-gether satisfactory terms, we will appreciate it if you will give space in the columns of your newspaper to the enclosed signed statement from Mr.

Very truly yours, Mary R. Gooderham, Helen R. Bruce, Ada A. Cawthra, Executive Committee.

Mr. Rabinoff's letter follows:
Editor World: A great deal has been published in the Toronto newspapers since the middle of July, when papers since the middle of July, when I determined—if such a thing were possible in my capacity as managing director of the Boston Grand Opera Company, in conjunction with the Pavlowa Ballet Russe—to bring these organizations to this city for a series

of four performances.

It seemed to me, in the light of existing conditions, that no finer purpose could be accomplished in giving Toronto the most unique and perfect grand opera and ballet it had known expenses for the benefit of the patri

To that end, Mr. Pierre V. R. Key, personally representing me, conferred with Mr. Lawrence Solman and promi-nent Torontonians, and acting for me Mr. Key offered to arrange for the per-forming of two distinct grand opera novelties (neither of which has ever Welland Canal. The new bridge is been seen or heard here) and two across channels and will be ready for standard grand operas of demonstrated popularity, and to pay to any designated patriotic organization or organizations all moneys received from this

This offer, at the time, seemed eminently fair to those persons approached. But recently there has grown a feeling that a part of whatever sum is to be realized from the undertaking regardless of the size of the sum,

onto with the superiority of the Bos-ton Grand Opera Company appearing in conjunction with the Pavlowa Bal-let Russe, that its residents would vish to have these organizations regu larly appear here in future from year to year, I am willing cheerfully to change the original plan to the one I shall now set forth, and which bears

the approval of the national committee of women for patriotic service It is decided and agreed that 10 pe cent. of the gross receipts accruing from the proposed performances, no matter what the total amount may be shall be paid over to the national com-mittee of women for patriotic service. And simultaneously there shall be paid all local expenses (such as rent for the Arena, the cost of labor and necessary materials for erecting a suitable stage, necessary advertising of all sorts, and whatever items I or ny representatives find imperative in the circumstances, and such as would

ordinarily be included in what is term ed "local expense").
Thereafter, the Boston Grand Opera
Company and the Pavlowa Ballet Russe is to receive as much of the remaining receipts as shall yield \$20,000 for actual expenses, should such sum re-main, and all moneys so received in excess of the afore mentioned ten per cent of the gross, the "local expenses" and the \$20,000, shall also be paid over to the National Committee of Wome for Patriotic Service, to be combined with the ten per cent. amount and used, I am informed, for field comforts for fighting Canadians.
In order that the greatest sum pos

sible may be derived from these grand opera ballet performances for the benefit of this cause, an executive committee is being formed for the nurpose of keeping the "local expenses" to the lowest amount possible and of acting in an advisory capacity with the management. This committee, on which Mesdames E. E. Gooderham and John Bruce, president and treas-urer of the national service com-mittee, and Mrs. Victor Cawthra are now serving as administrative mem-bers, will conduct all negotiations for whatever may be required in conec

best auditorium available for the enterprise for two reasons: First because a larger stage than can be found elsewhere in Toronto is required for the adequate presentation of such productions as "The Dumb Girl of Portici," "L'Amore di tre Re," "Car-men" and "Madam Butterfly," in which some two hundred artistic rectors, principals, members orchestra, chorus, ballet and the mechanical forces are utilized with the most elaborate and largest senic masterpieces ever shown outside New York and Boston; second, because the largest seating capacity should be had for this undertaking, which has the two-fold appeal to civic bettermint and patriot-

organizations I represent will do their utmost, and that, the experts, will, I am sure, serve as sufficient guarantee of the artistic treat which is to be-come available during the latter part

It was, therefore, under such circumstances, no small triumph for this comparatively unknown girl to sing her way into one of the to sing her way into one of the world's most famous organizations. Farmers Who Have Left Old Ontario.

The writer, northbound for Englehart in mid-August, took train at the Union Station for above destination with the view of getting first-hand information of the crop outlook.

The devastating hurricane that swept over Ontario was observable for a distance of about 50 miles north of Toronto. The worst damage affected oats and wheat. Corn was but little affected considering the violence of the storm. Even with the loss sustained by the storm the crops must have been a wonderful yield.

Uniformly from Toronto to South River, a distance of nearly 200 miles, the crops of all kinds were magnificent. From that point northward thru forest, lake and rock ridges one would see oases of agricultural pros-

North Bay, which is considerable of a railway centre, is solidly built, with wide streets. Here the travelers transfer to the Timiskaming and Northern Ontario Railway without getting off the train. The country for a hundred miles is one vast stretch of forest and lakes, containing probably 40 per cent. agricultural possibilities awaiting development. The network of lakes that dot this region, together with its agricultural future, may yet support a large and prosperous population. Tima-

gami being the centre.

Past Latchford, where timber appears to be the chief commodity, thru
Cobalt and Halleybury, the train enters what is generally known as the "clay belt," in which region there are milbelt," in which region there are mil-lions of the most fertile land in ex-istence—the name clay belt might have a tendency to mislead; the clay is in reality clay loam; there are also Clay Belt Proves Attraction to areas of sandy loam. The soil is adapted to the growth of almost any kind of vegetation—reaching as far as and beyond Cochrene, which is the near future will be the centre of agri-

cultural Ontario. As for the grain crop—such as barley, wheat, oats, peas and buckwheat— the yield this year is something un-believable, in height reaching above the fences and heavy-headed. Every year sees greater areas under cultivation. Potatoes are marvelously proli-fic in this country and of great size. The vines in many places grow as long as five feet. All kinds of roots thrive to a wonderful degree. When fall tilling becomes the practice as it is done in older Ontario the farmer

will have nothing to fear as to results.

Along the line of railway at Earlton

Junction there is a field of 300 acres
in oats and wheat. It is a picture of agricultural perfection. The writer ascertained that the owner sold the standing crop for \$9000 and would not sell the farm for \$30,000.

In comparing acreage under culti-Charlton it can be seen that great progress has been made, as per example: In one section of country of about 1200 acres, last year the area under culti-vation was 25 acres; this year 100 acres, an increase of 300 per cent. This holds good wherever settlement takes

desirability of the "clay belt" is the fact that when questioned settlers from older Ontario who have left good hat gri-gri-t a servation made it plain that they never thought of going back again.

# CANADA ANSWERED THE CALL WHEN EMPIRE SENT MESSAGE **ASKING GREATER PRODUCTION**

Patriotic Production Day at Exhibition Gives Striking Picture of How Canadians Have Become Linked Together in an Effort to Produce More.

The attendance at the Exhibition yesterday was 63,000, as compared with 59,000 for the same day last year and 83,000 in 1913. The attendance for nine days is 663,000.

Patriotic production received an impetus yesterday which will go far in impressing upon the citizens of Tohelping to do something worth while for the country in time of stress. It was a day especially set aside for that purpose and it fulfilled the hopes of

those who originated it. The enthusiasm and patriotism which has characterized the Canadian National Exhibition this year has been of a much different variety from that of other years. While everyone is keen to appreciate the sense of loyalty which is everywhere felt, it is with a seriousness the depths of which have

Sincere Loyalty. Shouting, cheering, flag-waving and all other outward signs of love for Canada and her soldiers has been done with a throbbing heart inside. A fast beating pulse has throbbed as the boys went marching by and tearstained eyes have turned away when the mob let loose in an outburst of pride. Many a "lump in the throat" has been swallowed this Expensive has been swallowed this Exhibition time because the seriousness of the crisis facing the country and the sac-rifice being made by her young men because of the war has been more and more impressed upon the people, and men today are not leaving Canadian shores for love of adventure, but because they realize that England calls of every true man and woman to re

radeship permeated everywhere, and whether he be the man behind the plow, lathe, pencil or gun, he felt a pride in participating in the day and in seeing what others are doing.

A Comment of Comment

A Common Interest. The Canadian National Exhibition CREATORE'S BAND PROGRAM has made it possible for great crowds to collect with a common interest. I has encircled thousands of people with patriotism. It has set a great example to all who have passed within the gates, but most of all it has enabled Canadians to see what their fellow men are doing. It has created a keenew interest in the industries without which the army would be a proless. which the army would be a useless conglomeration of human beings.

The manufacture of shells, shrapnel and high explosives, together with a hundred kindred industries, has been explained and no one need be ignorant of the labor, machinery, mechanism and material required to provide munitions for the army.

No more striking example of the

fact that Canadian manufacturers have stayed by their ships could have been had than the exhibits of Canadian goods which were manufactured pefore the war started, are still being manufactured and will continue to be manufactured in anticipation of the growth and progress which will come Canada following a noble victory. It has been made possible for men women to see that ruin does not stare Canadian industry in the face but that optimism and faith and confidence in the arms of the British Empire and her allies have spurred men of affairs to realize the value and importance of that cry which came up from the

mother country and was wafted across ocean and plain-"Business as Usual." Business as Usual. "Patriotic Production Day" brought home a realization that Canada has been conducting business as usual and upon a large scale. What the result of the onward wave of greater production will ultimately be none can foretell, but people have learned how to do things they had never attempted

Yesterday's illustration of what has been accomplished will bear much fruit. Thousands of visitors will carry away a better understanding of the Canada is taking in supplying goods for a world market. Her in-dustry is reaching a plane unheard of before, her farmers have taken a new interest in the possibilities of an acre of good soil.

#### Possible Grand Stand Record

If there is going to be a record anywhere at the Canadian National Exhibition this year it is going to be in attendance at the evening per-formances in front of the grand stand. With perhaps the exception of the opening night there has been an immense crowd to witness the "March of the Allies" on every

It is estimated that 200,000 people have seen the evening performances to date. This is considered a greater number than has been the case for the same length of time in any previous year.

The stand accommodates 18,400 people and there is room for several thousand more on the lawns in front. There has not been a night that this lawn of large numbers. Last night was no exception, and crowd was as enthusiastic as

# TRANSPORTATION FEATURED TODAY

Transportation Day will be featured by the displaying of the very latest achievements in regard to locomotion. A great deal of emphasis has been placed upon transportation this year, and probably this is because of the important part transportation is taking in the European war.

New models of motor cars are attracting considerable attention, but today these things will be in the foreground, and nothing will be left undone that will in any way enlighten the public on this subject.

There will be two prominent citizens as guests today-Sir George E. Foster and Hon. George P. Graham. They will speak at the meeting of directors after luncheon. The message which they will bring will be one of encouragement and confidence.

Within a year have the government lines been extended to the west. The taking over of the Transcontinental has more than doubled the mileage of the railways from the Atlantic coast to the west, and a glance at the map gives one a comprehensive idea of the vastness of the territory that has been opened up for colonization. The recent discovery of new gold fields has added to the general interest, and there are numerous enquiries concerning the hinterland of Northern On-

aming the equipment in detail the visitors were given an exhibition of company and platoon drill, with each movement performed with the precision for which this company is noted. Physical drill, like that put on in front of the grand stand, was put on by the soldier athletes, and altho the heat was most oppressive, the boys in khaki did not seem to mind and put as much enthusiasm into their work as if they were performing in the cool of the evening before a grand stand audi-

ence. Trench fighting was also shown by the troops and the operations in the trenches were followed by a bayonet charge on the "German" trench, situated 60 yards to the north of the Canadian salient. All of the visitors were most favorably impressed with what they had seen.

Had Many Visitors.

The camp was visited by a large number of visitors during the day, and all were greatly interested in the interior arrangements. The route march of the troops thru the grounds attracted as many people as ever, and, as one officer said. "Every appearance of the men on parade is a recruiting meeting in itself." It cannot be denied that the presence of the soldiers is a great help in getting men to enlist. A couple of score of enquirers visited the recruiting tent yesterday and many of them lecided to go to the central recruiting depot to pass the medical examination and start active service at once.

One man asked to be placed in the machine gun section of the 35th Battalion and was insistent that his request be granted. Many others showed an equally strong determination to get with some particular unit with their friends.

Since the opening of the fair, Col.Sergt. Fields and the recruiting sergeants of the various city regiments

So far there has been no great conflagration upon which the men might expend their energies and display their prowess, but their very presence lends a feeling of security to the management and exhibitors which nothing else could supply. At the fire station on the grounds everything is in readiness in case of a call. The bright red hose wagon and chemical from No. 1, Bay street, are standing in place and may be released at a moment's notice. Transfer Begins.

Lieut.-Col. Clyde Caldwell, Capt.

R. B. McGiffin and a staff of engineers moved their quarters yesterday from Niagara camp to Stanley Barracks.

Toronto. This is the first move in connection with the transferring of the troops from Niagara to this city. Eight battalions are expected to be quartered at the Exhibition grounds, one battalion at the old hospital and one battalion at the old hospital and the artillery at the Woodbine. It is also planned to quarter the 86th Machine Gun Battalion at Toronto.

Thru authority of Col. W. A. Logie, divisional commander, Lieut.-Col. Brock, chief recruiting officer for Toronto, has called a meeting of all the commanding officers of the Toronto regiments to be held at 4.30 this afternoon at the armories in the Grena-diers' room. It is thought that "re-eruiting" will be the main topic of the discussion. Col. Logie will be present.

Men Under Arms.

Recruits for active service training in Toronto yesterday totaled 1203. They are attached to the following units: G.G.B.G. (113), 9th M.H. (199), Q.O.R. (271), Grens. (158), 12th Yorks (114), 36th Peel (166), 48th Highlanders (36), 109th Regiment (66), 9th Battery, C.F.A. (41), C.A.M.C. (40).

of equipping with uniforms all its overseas recruits.

The 141 recruits for garrison duty, asked for by the 9th Battery, C.F.A., are wanted by tomorrow (Friday) night. This is an excellent chance for young unmarried men to "do their duty" and yet not go overseas. It is stated positively that these men will not be sent overseas. They will do garrison duty at Halifax and Quebec. The fact that the men will receive the same pay as those who go overseas makes this call for recruits especially attractive. The recruits must be single and under 30 years of age.

Big Rally Today.

Another huge patriotic meeting will be held in front of the city hall at 12 o'clock today by the Citizens' Recruiting League and under the auspices of the Veterans' Association. The Veterans will meet at the South African mounment at 11.45, and headed by a brass band are to par-

#### JAURES' ASSASSIN TO BE TRIED FOR MURDER

French Examining Magistrate Makes Commitment in Celebrated Case.

PARIS, Sept. 8, 11-20 p.m.—Examining Magistrate Drioux today concluded his investigation into the circumstances attending the death of Jean Leon Jaures, the French Socialist leader, who was assassinated July 31, 1914, by Raoul Villain. The magistrate sent Villain up for trial at the lems to which the government assize court on the charge of wilful must devote attention was that murder.

M. Jaures was shot and killed by Villain while dining in a Paris restaurant. The assassin, who was immediately apprehended, said that he had mmitted the act because Jaures had betrayed the country in leading the campaign against the three years' military law. At his preliminary examination Villain pleaded nervous troubles, and medical experts were ordered to report on his mental con-

### **FORGOT POLITICS** AT NORTH TORONTO

Liberal-Conservative Speakers Made Eloquent Pariotic Speeches.

STRONG IMPERIAL BOND

W. F. Maclean, M.P., Points Out Reforms and Lessons Learned From War.

Last night's rally of the North Toronto Liberal-Conservative Association, the first of the season, held in the Masonic Hall, was in point of numbers and enthusiasm one of the most notable gatherings ever held in the northern part of the city. While nomin. ally under the direction of the local Conservative organization, party politics were almost wholly eliminated, the big gathering dominated only by the highest patriotic spirit, cheering to the echo the lofty sentiments enunciated by the speakers of the evening. References to the prime minister, Sir Robert Borden, and the strong part taken by him in the motherland, were greeted by ringing cheers, but apart from this there were only passing references to party politics.

The address of W. D. McPherson, M.L.A. for Northwest Toronto, the guest of the evening, was especially able, and was referred to in the highest terms by W. F. Maclean, M.P. for South York, who likewise spoke at ome length on the great issues of the day. The reception of the federal member for South York, at the hands of his constituents, was of the most cordial nature, as was that accorded to George S. Henry, M.L.A. for East York. The chair was occupied by Richard Boaker, president of the association, and among others were Ald. H. H. Ball, John Paterson and Frank Howe. eloquent reference to the work of the Canadian and British troops and was accorded an ovation at the conclusion

of his address.

Canadians' Share. "One thing the present great European struggle has taught us is the value of organization and the dissemination of technical education," de-clared Mr. Maclean, Toronto has opened a magnificent technical school, but Germany had scattered them broad-

cast over the land.

Dealing with the question of the emigration which after the war would emigration which after the war would bring people to Canada, in ever in creasing numbers, he stated that new-comers must be taught that this is a British country and furthermore, only one language and that the English must be taught. The time for sacri-fice had come and Canadians would give not along men, but money in ingive, not alone men, but money in in-

Dealing with provincial matters, Mr. Henry stated that the finances of the province were absolutely sound but that the present was an inoppor-tune time for launching any new en-

He referred briefly to the strong imperial bond between Canada and the motherland, and stated that it did not require any stretch of imagination to see Canada represented in he councils of the British nation in "Never in its long and brilliant history has the British Empire faced a situation so serious as now," said W D. #### The Real Situation

Those who think of Britain and Canada as members of the same household do not take kindly to the suggestion that all appeals for closer interest between them should be dis-"business is business." The supreme business just now is the safety of the empire. Those who argue that England should buy her wheat wherever are the first to resent the suggestion that Canada should sell her wheat wherever she can get the most for it. We have indeed forbidden export, not only to enemy country but to other countries that may be described as friendly neutrals.

It should not be necessary for the Canadian farmer to ask for this preference. Blood, affection, loyalty, comradeship, should all suggest that it hurts us to have to ask. If Canada and the United States between them

must turn a penny wherever he can without regard to sentiment. But the imperial government can transport the grain of the Canadian farmer so cheaply to Liverpool that the Canadian farmer can undersell his American competitor and still have a profit. Possibly to stabilize the market a portion of the crop should be purgovernment. Only thru the imperial government are we likely to sell any grain to France or Italy. But the principle is now formally recognized that Britain hereafter is to buy all the war munitions she needs and can obtain in Canada before going to the United States. In the same way she could buy all the wheat she needs here before going to our neighbors. She can help us by purchasing the crop outright or by carrying the price. The same feeling which prompts us to place all our wheat at It will just be a plain hole in a mudshould prompt the mother country United States.

It is up to the Imperial and Dominion Governments to find the way to implement this natural sentiment and laudable desire. If our farmers are left with a great crop on their hands or are compelled to take the motherland which will be nearly all absorbed in transportation charges, of if the American farmer gets the best of us as the American manufacturer seemed to be doing for a time, t will cause a shock if not a scandal in Canada and the motherland alike those philosophers who now dismiss as fantastic the proposal that Eng-land which needs the wheat should to fight them, and it would be monas fantastic the proposal that Engbuy it now and at a fair price from

cannot be called a success. They also remind themselves that t may not be absolutely necessary to build a mud-wall on the waterfront of the Esplanade. No engineering advice was ever taken as to the desirability of such a construction. A little committee simply decided that they would have a mud-wall, and then they called in an engineer, not to give them advice about it, or to approve it, or disapprove it, but just to design it. So the engineer designed a mud-wall, and the railway board, having been affireted with the waterfront for many years, looked at it and sniffed, and said that if Toronto wanted a mudwall it must have it. Ever since then the board of trade has been wondering why anything really good should come

so easy. The board of trade members have a dim consciousness of having been involved in the mud-wall scheme by certain hen-brained contemporary, who has the praiseworthy virtue of persistence. When persistence de generates into a vice, it is called by another name. It is related by cer That policy is a sound one. But some one has the power to put it over our contemporary in this fashion. It only sees one thing at a time, and while it sees that thing it remains in one position and keeps its bill to the ground A notable instance is the fire depart. ment, where some one has drawn a line called Smith, and the hen has never budged. The other line, called mud-wall by the irreverent, is equally potent, and an attempt is being made to hold the board of trade down to the

same chalk line. The board of trade people have been out at Sunnysile, and they have driven over the Sunnyside bridge, and they have compared it with a tunnel 230 feet long, under which they are to be asked to pass on the Esplanade every time they visit the R. C. Y. C. and return. A tunnel 230 feet long is quite a hole to go thru, and it will not be any pleasanter than the King street subway, and perhaps not so pleasant. wall. The board of trade men would rather go over a fine bridge like that at Sunnyside, and they believe it would look better on the Esplanade than a mud-wall, and they would get a better view from it of the lake and

the bay and the island. But what can you do with a hen wit its bill to a chalk line?

IN FIGHT TO FINISH

Radical Reorganization Shows Russia's Unflinching Determination to Win.

LONDON, Sept. 8 .- An army order issued by Grand Duke Nicholas, who has been commander-in-chief of the Russian forces, conveys the inference that Emperor Nicholas, in assuming supreme command of his armed forces, supplanted the grand duke.

The text of the order of the day isned by Grand Duke Nicholas, transferring command of the Russian ar-mies to the emperor, is forwarded by the Petrograd correspondent of the Havas Agency of Paris as follows:

"Valiant army and fleet: Today your supreme chief, his majesty the emperor, places himself at your head. I bow before your heroism of more than a year, and express to you my cordial, warm and sincere apprecia-

"I believe steadfactly that because the emperor himself, to whom you have taken your oath, conducts you, you will display achievements hitherto unknown. I believe that God from this day will bring to him final victory.

"(Signed) "General Aide de Camp Nicholas."
Tribute to Grand Duke. In relieving the grand duke the em oror addressed a communication to

which read as follows: "At the beginning of the war I was unavoidably prevented from following the inclination of my soul to put my-self at the head of the army. That was why I entrusted you with the commandership-in-chief of all the land and sea forces.

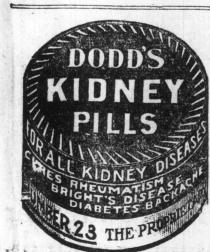

"Under the eyes of all Russia, your imperial highness has given proof during the war of a steadfast bravery which has caused a feeling of pro-found confidence and called forth the sincere good wishes of all who fol-lowed your operations thru the inevitable vicissitudes of war. Invasion the Reason.

"My duty to my country, which has been entrusted to me by God, impels me today, when the enemy has penetrated into the interior of the empire take supreme command of the active forces and to share with the army the fatigue of war and to safeguard with it Russian soil from attempts of the enemy. The ways of Providence are inscrutable, but my duty and my desire determine me in my resolution for the general series of the serie for the good of the state.

"The invasion of the enemy on the western front, which necessitates the greatest possible concentration of civil and military authorities as well as the unification of command in the field, has turned our attention from the southern front, and I appoint you viceroy of the Caucasus and commanderin-chief of the valiant Caucasian

The correspondent at Petrograd of the Exchange Telegraph Co. says:

"The decision of Emperor Nich." "The decision of Emperor Nicholas to take chief command is regarded as the best possible reply to recent talk of peace proposals, and as showing clearly Russia's determination to bring victory to herself, and her allies.

A Radical Change.
The action of Emperor Nicholas in transferring his cousin, the grand duke.
to arm, equip and maintain the troops
to the Caucasian front is perhaps the most important change of this nature which has been made by any of the belligerent nations. The only com-parable incident was the retirement by Empreor William in October of last year of Lieut.-General Count Helmuth Von Moltke as chief of the German

general staff. The position to which Grand Duke Nicholas has been transferred is of relative unimportance as compared with his prestige and vast powers of his former office as commander-in-chief of all Russia's great fighting forces. The Caucasian campaign presents only a minor aspect of the war.

Latest Winter Millinery Modes Are on Display at Fairweather's.

VELVET IS IN FAVOR

Characteristic Creations for New Season Are Now on View.

One of the prettiest millinery sea sons in many years is undoubtedly to be enjoyed by fashion devotee judging from the galaxy of exquisite chapeaux now being displayed in the reliable salon of Fairweather's, Limited. Winter modes are at once alluring, it being impossible for the exclusively gowned woman to look better than when clothed in rich velvets and elegant fur. Velvet is promised the position paramount this winter, and a demand for chic fur toques quite startling has been made. All feather mounts will be much in evidence, especially the graceful, curled ostrich and gorgeous paradise in white or saf-

wisps of paradise to the flat brim. A Smart Model. Quaint and extremely effective is another model revealing the possibili-ties of the poke with a unique ar-rangement of the brim. Simplicity itself is this old-fashioned bit of headdress made of black silk velvet and wreathed with exquisite dark foliage, pink and blue rosebuds, which simply breathe Paris, the fashion shrine of the world.

An extremely chic model which Fairweather's state to be the very latest in street millinery is in black velvet with narrow rolled brim and a very high crown banded with narrow fancy black ribbon. Severely tailored bows distinguish the front of this vet, with a touch of fur trimming on crown, while an exquisite mount of every exclusive model. HARRISBURG TODAY. Harrisburg, with our old friend Wyatt Lee a member, will be here today for a doubleheader with the Leafs at the Stadium, the first game beginning at 2 o'clock. Tomorrow a single game will be played, while on Saturday the Skeeters will be here for a doubleheader.

Friday will be ladies' day, President McCaffery having set aside Tuesday and Friday as the days when the fair sex will be admitted free.

BODY WAS RECOVERED.

County Constable Beach and the life-saving crew last evening recovered the body of Richard Howarth, age 16 Galt avenue, who was drowned Tues-day in Coatsworth's Cut. The body was removed to the morgue, but an inquest is unlikely.

MONTREAL GRAIN AND PRODUCE. MONTREAL, Sept. 8 .- There was MONTREAL, Sept. 8.—There was a better enquiry from across the water for grain today, and several fair-sized contracts for October and November shipment were closed. The prices bid were well in line with local views, but were based on present exchange rates and also on freight space at prevailing levels. There is, therefore, considerable speculation as to whether firms here will profit by the business, as in case of a further depreciation in sterling or an advance in freight rates they stand to encounter losses of considerable dimensions. The local buying of oats was reported counter losses of considerable dimensions. The local buying of oats was reported to have improved. No. 2 local white oats sold in carload lots around 42½c to 43c per bushel. Flour was in better demand by local buyers, but was quiet so far as export business was concerned. Millfeed was in good demand at the lower prices and stocks continue to be very small. Butter firm. The cheese market is steady, and eggs slightly higher. Selected grades are selling at 28c per dozen, new laids at 30c and No. 1 at 23c. Other departments were quiet and firm at unchanged prices.

## California Racquet Stars in Court Duel

FOREST HILLS, N.Y. Sept. 8.—In the most remarkable exhibition of tennis doubles play witnessed in this country in many years, William M. Johnston and Clarence J. Griffin, both of San Francisco, wrested the champlonship from Maurice E. McLoughiln of San Francisco and Thomas C. Bundy of Los Angeles, here this afternoon, by scores of 2-6, 6-3, 6-4, 2-6, 6-3. No more thrilling climax to the thirty-fifth annual championship tournament of the National Lawn tennis Association could have been staged had the play been pre-arranged. For more than two hours the four California racquet stars engaged in a court duel that aroused unbounded enthusiasm among the 700 spectators that filled the grand stands and clubhouse galleries. How closely the contest was waged is shown by the fact that the victors won 23 games and 154 points to the losers' 22 games and 154 points. Johnston and McLoughlin stood out as the individual stars of the match, altho both were ably supported by their partners. Griffin and Bundy.

#### QUICK RESPONSE MADE TO APPEAL FOR FUNDS

Thousand Dollars Wanted for Band Instruments Subscribed by

An appeal for \$1000 for band instruments in order that the Third Batta-lion at the front, known officially as the "Toronto" regiment, could have band, was met in remarkably quick time yesterday. R. H. Greer, presi-dent of the Sportsmen's Patriotic Association, and Thomas Flanagan, vice president, on behalf of that organization, presented the whole \$1000 needed in the afternoon. The appeal was made in the morn-

ing and came thru Capt. A. K. Hay-wood, medical officer of the Third Battalion, now at home in Toronto on sick leave, and who himself was decorated with the military cross for great gallantry while under fire.

LETTER-CARRIERS' PICNIC.

The letter-carriers of station C., P.O. department, held their first annual picule on Saturday afternoon, about 150 being present, including their wives and families. There were some thirty sporting events, keenly contested, in which the sprinting ability of some of the carriers was a great surprise, but none more so than the officials' race, which was won by John Howard, with the postmaster, W. B. Rogers, a close second. John Reed and Alex. Middleton finished in the order named. Col, and Mrs. Geo. Ross had refreshments with the carriers and were very pleased with the splendid and were very pleased with the splendid turnout. After the presentation of prizes by the postmaster a picture was taken in group style. The carriers of station C were loud in their praise of the splendid prizes donated by the merchants in that district

CAPITAL-ATHENAEUM SERIES.

The first game of the Capital-Athenaeum series will take place Saturday, Sept. 11, at Vermont Park at 3 o'clock. This should be a very hard fought battle and a great drawing card. These clubs are very evenly matched and have always given a great exhibition of baseball. Players are asked to note the change of grounds. Batteries: Capitals, Stanley and Harrigan; Athenaeums, Brown and McWhirter.

## PRICES EASED OFF ON CATTLE MARKET

Butchers' Cows Only Class Which Maintained Price Levels.

EMBARGO IS STILL ON

No Word Yet as to Removal of Restrictions on Stockers and Feeders.

The receipts of live stock at the Union Stock Yards on Wednesday numbered 102 cars, comprising 1347 cattle, 263 calves, 1627 hogs, 3020 sheep and lambs and 96

Butcher cattle: The market was only fairly active after a slow opening, many conspicuous breaks being noticed in the line going to the weighmaster. By noon the bulk, however, was pretty well sold out, a few common ones sticking.

The greater part of the cattle on sale The greater part of the cattle on sale were very poor quality, and so many of this class have passed thru this market lately that the market at once became easier. The bears were active, and the bids were 15c to 25c lower all around, the exception to the rule being the butcher cows, which were stronger in accordance with the place afforded them for nearly a week. Choice cows in number were not equal to the demand. Many buyers would have taken two or three times the quantity available for them. Stockers and feeders: Hon. Martin Burrell has no definite word as yet concerning the lifting of the English embargo permitting live "stockers" to be traded in. All cattle arriving in English ports alive must be killed there. The lifting of this restriction seems near at hand, and would stimulate trade in the above classes. Locally it is very quiet,

Milkers and springers: Trade here is at Milkers and springers: Trade here is at Milkers and springers: Trade here is at Milkers and springers: Trade heavy run of sheep and lambs yester-day made a slow opening market. Trading did not develop until late in the morning, and the prices quoted Monday were lowered. Light sheep suffered a break of 25c per cwt... and lambs 25c to 50c. As for the calves the grassers have no demand, medium to good qualities are barely steady and choice veal sold up to 10½c ib. yesterday; this is also a cut; last week choice veal brought lic to 11½c.

Hogs: The light shipments in this divides a stated before, are giving this

Steel was under mild pressure until the final hour, when it advanced to 75 1-8, a gain of 3-4 on beavy buying, which ranged from 1000 to over 3000 shares in individual lots. and comparatively strong towards the end, the excellent government crop report infusing renewed interest and causing short covering.

Among the few stocks whose strength was traceable to defnite conditions was Western Union Telegraph, which rose two points to 77, its best price since 1912, on an increase of the dividend from a 4 to 5 per cent. basis. Advices dealing with the steel and iron trade were decidedly optimistic including some substantial new orders including some substantial new orders are moderate setback from the top prices of the session.

Corn weakened owing chiefly to correct predictions that the government report as to corn would suggest the likelihood of a big yield. Mackay. Twin City sold at the minimum price of 93, but these are the first dealings for a long time. Mackay advanced a point to 79 on a broken lot. Both were bought by investors, and the purchases on that account are more acceptable as an aid to the market's stability. The market as a whole was dull. There was a stability of activity in Steel of Teck-Hughes Annual. Canada, but despite this and the pubicity campaign which is being conducted, the shares were by no means buoyant. Nova Scotia Steel advanced half a point, but the demand was quite imited. The unlisted section w

Dominion Bridge and Laurentide Strong—Other Issues Reported Dull.

MONTREAL, Sept. 8.—Dominion Bridge and Laurentide were strong and moderately active features in an otherwise dull market for stocks here today. The former rose 2 to 145 in the morning, retaining all but \% of the gain in the final dealings, while the latter scored a spectacular advance of 6 points to 169 in the last hour and finished with a net gain of 61/4 for the day. Dealings in Bridge amounted to 575 shares and in Laurentide 1170 shares, the aggregate for the two representing two-thirds of the entire business in stocks exclusive of mining of Canada improved % to 33. Car sold at 104% to 105, last sale at the latter.

Ful. Gilt-edged secrities were in demand, but the war loan advanced, and home rails, Japanese bonds and shipping shares were firmer. The other sections were quiet.

American securities at 1041/2 to 105, last sale at the latter price being down 1 from last previous transaction about a week ago.
Total business 2622 shares, 1220 mines and \$16,000 bonds.

### TRUTH CAME LATER

Rethlehem Marked Up Twelve Wet Weather in U. S. A. Also Had Influence on Market.

> CHICAGO, Sept. 8 .- Wheat advanced in price today owing largely to an erroneous belief that the government crop estimate would prove a help to the bulls. The close was firm, 7-8c to 1 3-8c net higher, with September 93 7-8c and December at 911/4c. Corn lost 1 1-8c to 1 3-8c and oats 1-4c to 3-8c. The result in provisions varied from 10c decline to a rise of 5c.
> Bullish sentiment regarding wheat
> appeared to be more general than has
> been the case for nearly a month. The great majority of traders were acting on the assumption that the crop re-port from Washington this afternoon would indicate a material reduction in the probable yield of winter wheat. It was not until after business was over was not until after business was over for the day that the report was received showing the winter crop estimate to be the same as a month previous, whereas the spring crop was figured as much more abundant than had generally been looked for.
>
> Rains Helped Buying.
>
> Wet weather, which retarded the movement of wheat in the northwest as well as in some of the winter crop states, had a good deal to do with

states, had a good deal to do with stimulating buyers ,especially at the outset. The absence of any export buying tended later, however, to cause

# **PEACHES SUPREME** ON FRUIT MARKET

Heavy Shipments Commanded Entire Attention of Dealers Yesterday.

### TRADING VERY HEAVY

Choice Fruit Sold Readily, But Poor Qualities Were Hard to Sell.

Peaches have again come into their own, and are supreme on the wholesale fruit market, almost excluding the demand for anything else.

There was a huge market again yesterday, fourteen freight cars coming in as well as the express shipments, and the large amount carried by the boats, and these consignments were principally peaches. The market was so heavy they were not all unloaded at 5.30 p.m., and in many places the floor space was so thickly covered it looked as if the market had just opened.

Choice peaches sold readily, but the poor ones were difficult to dispose of, and there were a large number in the latter class yesterday. The prices ranged from 30c to 50c, and a few up to 65c, for the 11-quart leno baskets, and 20c to 40c for the 11-quart flats, the six-quart flate bringing 20c to 40c, and the six-quart flate 17½c to 20c, a few extra fancy in 11-quart leno baskets bringing 75c.

Plums were slow, as the buyers are now after peaches, the 11-quart baskets selling at 20c and 25c, and the 6's at 13c to 15c, a few choice leno 11's bringing 30c and 35c, while some extra fancy ones brought from 40c to 60c per 11-quart leno baskets.

Pears sold at from 40c to 65c per 11-quart basket.

Pickling onlons are practically unsale-Peaches have again come into their

Pears sold at from 40c to 65c per 11quart basket.

Pickling onions are practically unsaleable. There is no demand for them
whatever, and it seems a shame to have
them lie on the market until they spoil.

If the shippers have any place to keep
them, it would be advisable to do so for
a short time.

Tomatoes were very slow, the sixquarts selling at 13c to 15c, and the 11's
at 20c to 25c.

Corn was also a drug on the market,
and, while a small quantity of extra
choice sold at 10c to 15c per dozen, there
were large quantities remained unsold.

Graper are coming in more freely, the
Champions selling at 15c and 20c per
six-quart basket, and Campbell's Early
at 25c per six-quart basket.

Cantaloupes sold at 30c to 50c per 16quart basket, and 20c to 35c per 11-quart

# **GOLD! GOLD! GOLD**

Northern Ontario is rapidly becoming the greatest gold mining region in the world. Porcupine is already a very great camp. The Dobie-Leyson in Munro, has produced fabiliously rich ore, and Kowkash is now attracting much attention. We can sell at a very reasonable price a limited number of shares in one of the best companies in the North. This ited number of shares in one of the best companies in the North. This Company has the gold, the real yellow stuff. One rich outcrop when found was guarded day and night, but notwithstanding this, it is estimated that high graders removed over \$30,000 in gold. There are many rich veins on this great property. These statements we can absolutely prove. We have the report of a leading expert and other data which will be sent on request. We have also for sale 160 acres adjoining the Doble-Leyson. We keep in very close touch with conditions in the mineral district, and deal only in the safest and most profitable investments.

# **EXCITEMENT IN WHEAT** ON WINNIPEG MARKET

Prices Firmer Than on Tuesday After Opening-Then Buying Slackened.

WINNIPEG, Sept. 8.—Steady Liver-pool cables and weather conditions over the west caused considerable ex-citement at the opening of the wheat market today. At the low point of opening prices were 1 to 1 3-4 over Tuesday's close and the range was 1-2 to 3-4 over these figures. Following opening there was further fractional advance in October and May, while December was steady.

Shorts having fuffiled covering the market turned quiet and prices sagged from the high points of the early hours. Assisting the stronger values were more bullish reports from Europe, or disappointing threshing returns

greater part of the day were around the high points. Flax opened 3-4 to 1 3-4 higher and weakened generally

Export business was not quite so active today, the total worked for that purpose being around 200,000 bushels. In the cash department there was a good demand for spot wheat, but owsomewhat scarce.

Total inspections on Tuesday 363 cars against 1388 a year ago. Of the 268 cars inspected 22 graded No. 1.
