QUEEN'S OWN TO ARRIVE THIS AFTERNOON AT 5 PARADE ON YONGE ST.

Col. Pellatt Changes Original Plans to Suit the Plans of the Reception Committee.

SCHOOL CHILDREN TO JOIN IN THE WELCOME

And so it's settled at last, after a series of bewildering announcements, as to when the Queen's Own Rifles, wearing their Aldershot laurels, will arrive in Toronto. It will be at or about the hour of 5 p.m. to-day that the regiment will detrain at North Toronto Station to receive the city's welcome after their seven weeks' absence. Last night, the 300 or 400 persons gathered around the station to welcome the boys, having had no later information than was afforded in the Saturday afternoon papers. The scene to-day promises to be a notable one. From an improvised platform, Mayor Geary will read a civic address of congratulation, to which Sir Henry Pellatt, Q. O. R. commandant, will reply. As a setting for the ceremonies, there will be not only the corps of returned soldier boys in their khaki uniforms, but the other corps of Toronto garrison will be represented, including the Q. O. R. "home guard" under Major Mercer, a detachment of ex-members and members of the different veterans' organizations.

But perhaps the most impressive part of the home-coming will be the parade to the armories, thru streets that will undoubtedly be lined with tens of thousands of citizens, as it will be around the busiest hour of the day, that the downtown section will be reached. School Children Out, Too. The spectacle will be enhanced also by the presence of thousands of school children. The scholars will march from their schools on being dismissed for the day, to points on Yonge-street most convenient for them, there to view the parade. Inspector Hughes was asked last night by Ald. Maguire, chairman of the civic reception committee, to make arrangements to this end. It was not until Sunday that the change in plans became known to the local civic and military authorities. On Saturday afternoon, word was received from Sir Henry Pellatt, on the Canada, between Fame Point and Rimouski, indicating arrival in Toronto on Sunday at 10 a.m. Sir Henry changed his intentions, however, on arriving at Rimouski and finding a letter from

Will Be Home To-day

"Mayor Geary. "Letter received. "Have pleasure in accepting proposed reception. "Have arranged to be at North Toronto at 6 o'clock. "Prefer moving direct to armories via Yonge and Queen-streets. "Notify Chairman Maguire. "Col. Pellatt."

Mayor Geary awaiting him. He thereupon wired the alteration in plans. Avoided Montreal. Ald. Maguire, who has been kept in a state of nerve-shattering uncertainty by the maze of complications, is now satisfied that the reception machinery will work smoothly. He has been in constant touch with the telegraph companies and railways, and order has been maintained and our chaos. The Queen's Own left Quebec in two trains early yesterday afternoon and arrived at Montreal at 7 o'clock last night. "I was thinking from my friends' main in mind, the regiment was taken 20 miles further on to spend the night. When the Q.O.R. arrive at Peterboro, they will be met between 11 and 12 p.m. by Controller Ward, Ald. Maguire and James Somers, secretary of the committee, who are to have in convoy from Toronto a supply of provisions and coffee. Each soldier will receive a box containing a lunch of sandwiches, cake, fruit and cheese. The men will detrain at Leaside, where the two sections of the train will be united.

The formal ceremonies will practically end with the civic address and reply thereto. The parade, headed by the members of the city council, will follow up and proceed to Yonge and Queen-streets to the armories, to which the public can only secure admittance by ticket. Hundreds of these passports are being issued to relatives of the returning ones. Lieut.-Col. Galloway has issued the military orders, which invite all units of the permanent and active militia of Toronto to drill under the command of the Q.O.R. The Highlanders and Grenadiers will each furnish a detachment of 100 men. The Royal Canadian Dragoons and police will jointly keep the line of march open. A company of the Royal Canadian Regiment at Stanley Barracks will also participate. Muster will be at the armories at 12 p.m. in drill order. The parade through Toronto will probably leave the armories about 4 p.m. It will proceed by University Avenue, Queen's Park, Avenue-road and Cottingsham-street. There will be no formal proceedings at the armories, just simply glad reunions.

STRONG PLEADING FOR CHURCH UNITY

Archdeacon Madden of Liverpool, and Dr. Hanson of Belfast Address City Congregations — Former Coadjutors Overlapping in Western Mission Work.

Coming here to strengthen the work of the Evangelical Alliance, Archdeacon Madden of Liverpool, England, and Rev. Dr. Hanson of Belfast, Ireland, were not idle yesterday. Dr. Madden preached at St. Paul's Anglican Church in the morning, where he told of the drawing near of the Anglican Church and the non-conformists, and pleaded for an alliance among the churches for mission work in the Canadian west, while Dr. Hanson spoke at Trinity Methodist Church. In the afternoon both spoke at a mass meeting at Association Hall, and in the evening the archdeacon spoke at St. Anne's Anglican Church, and his associate at Cooke's Presbyterian Church. To-day, they will address the ministerial association in the morning and a gathering of ministers at noon, and in the evening a mass meeting in Association Hall. Both are eloquent speakers, and their addresses are certain to have powerful effect on the various churches with whom they come in contact. At the meeting in Association Hall, Rev. Dr. A. B. Winchester presided, and those who assisted in the service were Rev. Elmore Harris and Rev. Dr. Parsons.

Archdeacon Madden's address covered largely the ground of his morning sermon, being essentially a plea for unity of the Protestant churches, while he repeated with earnestness his views on the need of more widespread churches in the Canadian west. In comment thereon, Rev. Dr. Winchester expressed a fear that listeners might get the impression that

REV. DR. GEORGE E. HANSON OF BELFAST.

home mission funds were being unwisely spent. The Canadian church was aware of the difficult problems of the west, and, while in a few little centres, there might be too many churches for the size of the flock, the churches for the most part were founded on the assumption that the Bible was the work of inspired men. There were a great many new theologies and strange religions about, but so long as they presented God's truth, he did not oppose them. Unity was needed to fight the evil of intemperance and the social evil dominating great cities, and which was sapping the manhood of young Canada as in Europe. In Liverpool, the streets had been swept of flaunting, brazen profligacy, against the opposition of worldly men, who advised segregation. "It is not the duty of the church to put a fence around sin," he declared amid applause. He had been told that "provision should be made for poor weak human nature, but there was no such provision in the word of God."

Owing to the lateness of the hour, Dr. Hanson deferred his address, speaking merely a few words. He was given cordial and sustained applause on rising. Dr. Hanson declared that the alliance platform was broad enough for all who loved Christ, and that the vital and fundamental differences in creeds were exceedingly few. Signs of the Times. Preaching at the morning service at St. Paul's Anglican Church, Archdeacon Madden took his text from St. Paul's epistle to the Ephesians, the fourth chapter, in which the apostle exhorts to unity—"one Lord, one faith, one baptism, one God and Father of all."

The most popular religious subject for all who loved Christ, and that he said. It was being discussed in the press and from platform and pulpit.

GODERICH VISITED BY \$100,000 FIRE

Goderich Organ Company's Factory Destroyed—Help Brought From Clinton and Stratford.

GODERICH, Oct. 2.—About 9 last night, fire was discovered in the basement of the Goderich Organ Co.'s factory on the corner of East-street and Cambria-road. The firemen arrived promptly on the scene and managed to keep the fire inside the building until about 10.30 p.m., when the flames broke thru the roof. There was a strong northwest wind blowing, almost a gale, and it looked as the one section of the town was doomed. Help was telephoned for from Clinton and Stratford. Showers of sparks and blazing pieces of wood were blown as far as a quarter of a mile on the windward side of the fire, and the flames almost reached across the street. It was only by the energy of the firemen and the citizens that the nearby houses were saved, and had these caught fire, nothing would have saved the eastern portion of the town. At 11 p.m. the building was one mass of flames, the roof and the top story of the walls having fallen. The firemen now used all their endeavors to save the other buildings belonging to the company. At midnight the fire was under control, but still blazing briskly, owing to the oil and other inflammable material in the building. The Clinton and Stratford Fire Companies arrived on the G. T. R. train at 1 a.m., the train being held at Stratford to load their equipment. Although the fire was under complete control of the local firemen when the visitors arrived, they did some good work assisting to extinguish the fire. All the heavy lumber piles at the back of the factory were saved, which it contained is a total loss, amounting to about \$100,000, covered by the usual insurance.

WHO WAS GEORGE FRASER?

Drowned at New Orleans, But Has Connections Here.

Who knows of George Fraser, who until lately resided at Atlanta, Ga.? George Kingston, assistant general manager of the Union Trust Co., on Saturday received a letter from a firm in that city, stating that a young man, whose name had been given as near New Orleans on Sept. 24, and that among his possessions was a receipt for a safety deposit vault with the Union Trust. Mr. Kingston also received a personal letter from a friend some 50 miles from New Orleans asking information concerning one Geo. Fraser, son of a Baptist minister, and promising to send some additional particulars when he had a reply.

AEROPLANES ON WARSHIP.

PARIS, Oct. 2.—Admiral Boue de Lapeyre, the minister of marine, has ordered the re-arrangement of the superstructure of the torpedo depot ship La Foudre, for the accommodation of aeroplanes. This is the first step in the practical employment of aeroplanes in the navy.

TERRIFIC WIND CAUSES FATALITY IN MONTREAL

MONTREAL, Oct. 2.—(Special.)—This city was visited yesterday afternoon by a storm of rain and wind of unaccustomed violence, trees being blown down, fences overturned, and even fatalities are reported. While the wind was blowing at the rate of sixty miles an hour, James Turner, who was engaged in a building at the quarry at Autremont, lost his life by the structure being overturned, only living a few hours after being taken to the hospital. Two men named Riederick and Neagle, who were working with Turner when the building fell, were also injured, but will recover. A man named Lapointe, driver for Cole & Co., fruit dealers, has a strange story to tell, and his was one of the narrow escapes of the afternoon. He was driving along the lake and bay were very rough; gusts of wind lifted the wagon, loaded with 17 barrels of apples, and over went the whole into the river, horses and all, and altho Lapointe jumped for his life and was saved, the horses and load are gone, \$700 being the firm's loss. Scaffolds and signs were carried around like so many toys, and many half-breed escapes are reported. In fact, the damage to property in the city and suburbs must have been many thousands of dollars. A good deal of damage generally is reported from the wharves, and one of the features was the failure of the telephone service, consequently the inability to get the hospital ambulance on the spot. On the whole it was a great storm.

Bitter Hereabouts, Too.

In Toronto, the extreme velocity is put at around 34 miles an hour. The dust swept along the streets, and small boys collected many baskets of chestnuts and acorns. At the reservoir, where the men were busy scattering the bastin had the appearance oftentimes of a desert sirocco. The heavy wooden benches on the grass surrounding the basin were blown over.

TREASON AGAINST THE NATION.

Le Canada, Montreal: The Toronto World publishes a cartoon representing the trunk of a field with towers and masts. The tree is ticked "Canadian maple." On one side of the trunk one reads the word "French." On the other side the word "English." Between the two an open split made by a wedge, marked "sold vote," is seen. Standing up against the tree, and regarding the inscriptions, one sees a workman having in his hand a mail, which has just been used to give in the wedge. This workman is Mr. Bourassa and his mail is inscribed "race and creed campaign."

There is no trouble in understanding the thought of the artist. Mr. Bourassa, with his appeals to race and religion, is in the act of splitting the tree of Canadian nationality, and every one knows that a tree that is split in effect a tree that is dead.

PHYSICIANS CAN'T TRUST COUNCIL TO MAKE CHOICE

And a Large Number Petition That Selection of M. H. O. Be Left To a Commission of Three.

That the appointment of a medical health officer for Toronto be virtually taken out of the hands of the board of control and city council and entrusted to three prominent medical men, is the suggestion contained in a petition which is said to have invaded the home of every doctor in the city yesterday. The campaign so suddenly launched was apparently on systematic lines. The city was divided into about a dozen sections, and a list of the medical men in each given to messenger boys, who spent a busy day. The doctors had the option of signing on the sheet or declining. Many appended their names; some did not and were as indignant that they phoned The World to voice their objections. They seemed to regard the move as being in the interests of one candidate. The commission suggested is Dr. A. Macdonald, president of the Academy of Medicine, Dr. C. K. Clarke, dean of the faculty of medicine of Toronto University, and Dr. J. N. E. Brown, superintendent of the General Hospital.

ENGLISH HATS THE CHOICE.

It is an established fact among well-dressed men that the best made hats in the world come from London and New York. It is often hard to select, but the man who once decides on the English make invariably returns when he needs another hat. He is assured that the goods have both the style and the quality. The best known maker in England and one of the best known in the world is Henry Heath of London. He manufactures for all the crowned heads of Europe, including His Majesty King George. The Dineen Company are sole Canadian agents for the Heath hat, and Mr. Dineen says his last shipment includes some particularly nice styles in Derby, Silks, Alpines and Fedoras. These are now on display and the man who wishes the English make of hat can not fail to secure one to suit his taste.

FIND TWO BOMBS THAT DIDN'T EXPLODE

Little Doubt That Destruction of Los Angeles Times, With the Loss of Nineteen Lives, Was Deliberately Planned — The Publisher's Narrow Escape.

LOS ANGELES, Cal., Oct. 2.—An attempt to destroy the residence of General Harrison Gray Otis, publisher of the Los Angeles Times, by an infernal machine was made yesterday, following an explosion which earlier in the day killed a man and destroyed the buildings and plant of the Times, and a suspected effort to blow up the auxiliary plant of that paper. A powerful infernal machine was also found yesterday against the residence of Secretary Zehandelaar, secretary of the Merchants' and Manufacturers' Association.

General Otis, who is on his way home from Mexico, and other responsible heads of the Times, unequivocally charge the Times building disaster and the narrowly averted attempts at further destruction of life and property to labor union sources. The leaders of union labor repudiate the accusation, and offer all aid in their power to detect the culprit. Rewards of \$10,000. Three arrests have been made since the explosion. One of the suspects is an alleged anarchist, Martin E. Gan. In the hope of securing information as to the perpetrators of the outrages, Mayor Alexander increased the city's offer of reward to-day, to \$100,000. This, with the offers of local newspapers and labor organizations, whose leaders have announced a determination to assist in the search for the criminals, raises the total amount of the rewards to \$135,000. The city's offer is intended to tempt any one having knowledge of a definite conspiracy to divulge the secret. There are no conditions.

Will Continue to Fight. The Times made public the following telegram from General Otis: "Your wire, with its terrible news, reached me this morning. I am amazed at the desperation of the criminal conspirators in destroying The Times building and slaying its loyal defenders, whose loss I deeply deplore, but The Times itself will live on, bravely defending the vital and essential principle of industrial freedom, under which law must yet triumph in the entire nation." (Signed) Harrison Gray Otis. For twenty years, following a quarrel with the Typographical Union, and the changing of The Times to a non-union paper, General Otis had fought unionism. He has been badly seconded in this fight by the Merchants' and Manufacturers' Association, whose secretary's home was the object of a frustrated dynamiting attempt yesterday.

LYNCH INDIGNANT

Denies Unionism is Responsible for Los Angeles Explosion.

INDIANAPOLIS, Oct. 2.—President James M. Lynch, of the International Typographical Union, gave out a statement yesterday relative to the explosion in the plant of The Los Angeles Times, in part as follows:

The Los Angeles Times has for many years been a bitter, unrelenting and unreasonable enemy of trade unionism, and it is characteristic of the Times management that, immediately after the explosion which wrecked its plant, and without awaiting any investigation as to the cause of the catastrophe, it should charge the disaster to the trade unions. The Typographical Union repudiates and refuses this charge. We have defended ourselves against the attacks made by the Times as best we could, but we have always been ready to accept the truth. No one regrets the catastrophe more than I do, and especially the loss of life following the explosion. On the other hand, we are determined to protect our members against any opportunity that will be embraced by General Otis and his subordinates to attempt to fasten the explosion on the trade unions. To-day I caused to be sent to our representative in Los Angeles the following telegram: "In conjunction with president and board of trustees, No. 174 take such measures as may appear necessary to protect International Typographical Union and local union from any charge of complicity with alleged dynamiting of Times office. Press reports continue to state that explosion was caused by faulty gas mains, and give entirely to unsanitary condition of Times plant."

Queen's Own, Landing at Quebec, Are Praised by the Governor-General—Homeward Bound.

QUEBEC, Oct. 2.—(From our man with the regiment)—The steamer Canada of the Dominion Line, bringing the Q.O.R. fresh from their English laurels, arrived in port at 10.30 this morning. The commissioner's wharf had been decorated with flags of all nations, on account of the arrival of the regiment. Earl Grey, accompanied by Lady Grey, stood on the dock and watched the regiment disembark and get into regimental formation. Then he walked in front of each company with Col. Sir Henry Pellatt, and looked the men over. After that he returned to his carriage in front of the corps, mounted that and gave an address. He said: "I congratulate you, gentlemen, on the parts you have individually and collectively played in what appears to have struck the popular imagination as an almost epoch-making move in the education of the empire. We have read with the royal marks of approval and encouragement the regiment received from our sovereign. A Light on the Mountain Top. The spontaneous, public-spirited action of the officers and men of the regiment in going to England in order that they might learn to raise the standard of their own efficiency and also that they might show the people of the motherland how great is their desire and power to help, has been regarded, not only in England, but in Australia, South Africa and elsewhere, as a light on the mountain tops. I praise another bright and glorious day for the British Empire. "Col. Sir Henry Pellatt, I congratulate you on the example you have given, and the service you have rendered to Canada and the crown. For the information of Lady Grey, I may say that these uniforms have been worn for the past two months by day and often by night, sometimes lying on the great road, and their appearance here to-day reflects great credit, both on the men and on their tailor."

The Helpfulness of the "Customer's Deposit Account"

Our Customers' Deposit Account system does away with the necessity of carrying money with you while shopping.

Such an account is "opened" by depositing a sum of money at the "D. A." office (Basement), where you will be supplied with a "D. A." number.

In purchasing throughout the Store thereafter, you simply advise sales clerk: "Charge my D. A." giving number. This means that your purchases will be charged to your deposit at the "D. A." Office and delivered home as a paid parcel.

Withdrawals and further deposits may be made any time.

You have no more worry about C.O.D. parcels. For further particulars enquire at "D. A." Office, Basement.

Superb Showing of Lovely Dress Trimmings

Bandings, Applique, Fringes, Medallions and Passementerie in All the Beauty of the Season's Designs.

Glittering gold and silver, inset with turquoise, emerald, amethyst, and other gem productions, supply the dominant note in the splendid showing in the Dress Trimming Section. The idea is expressed in a multitude of different forms in wavy and straight bandings, medallions, motifs and edgings, in both heavy and light effects, suitable for the airiest of evening fabric and the handsomest of out-door wraps. And in addition to these is a beautiful array of chiffon, net, chinchilla, jet, and bugle ornamentations, some wonderfully harmonious Dresden and other floral representations being wrought out for the effective trimming of gowns, suits and wraps. Fringes, tassels and garnitures are represented in the very latest productions of Paris and New York.

An artistic touch of bright and Frenchy trimming is an essential note in the season's costuming. This display supplies an exceptionally beautiful field of choice.

O'BRIEN SAYS REDMOND IS A "WOLLY WAGUIRE"

And Earl Grey's Federation Plan Is Said To Be Now Supplanting Home Rule. LONDON, Oct. 2.—(New York Sun Cable).—John Redmond's utterances during his American money collecting tour are probably attracting more attention here than in the United States, and they certainly do not tend to lessen the embarrassments of the present government.

THEIR SUPERFLUOUS FLESH, AND ALL HARDENED UP. Those who arrive home lean can blame it on sickness. The ones who were not sick have spent the week getting fat. It is surprising how plump one can become during a week of inactivity after a long season of hard work.

"EVERY DOLLAR REDMOND BRINGS HOME will have been obtained by false pretences. The whole of the funds O'Connor secured last November were employed not in the land purchase but in trying to kill off home rulers—making war on me and on old and tried patriots such as Timothy Healey, and why? Because we protest against the predatory budget; because he has just obtained our lands for our own people we object to Lloyd George's schemes of land nationalization; because the lords have been given the right to buy budget, morals and politics since war us from this mad radical endeavor to destroy the second chamber.

THE HARDEST DAY WAS SEPT. 25. The regiment was awakened at 1 a.m. and was started on a night march, but whoever led the column forgot to call one halt, and the men had to keep on going from 3.15 to 5.10. The joke was on the officer in command, who was suspected of having gone to sleep in his horse, and the men who were killed did not appreciate the joke.

THEIR SUPERFLUOUS FLESH, AND ALL HARDENED UP. Those who arrive home lean can blame it on sickness. The ones who were not sick have spent the week getting fat. It is surprising how plump one can become during a week of inactivity after a long season of hard work.

STRONG PLEADING FOR CHURCH UNITY

Continued From Page 1. The Anglican Pan-American Congress had shown breadth and charity toward "our separated brethren." At the bishop's conference at Lambeth, the Archbishop of York, son of a moderator of the Presbyterian Church in Scotland, had presented a report on church unity with tears in his eyes, and the presided that Christian men everywhere should stand together for God and truth.

Learned Mutual Respect. "But we learned to respect each other and got rid of much prejudice," the speaker, who referred next to the great Baptist conference in Liverpool last spring, when the Lord Bishop of Liverpool was present and invited the 3000 assembled to join in the prayer, "Unity and peace, the occurrence creating a tremendous impression. At the meeting of the Congregational union at Sheffield the Bishop of Sheffield had led in prayer.

Not Mere Organic Union. But unity was not necessarily organic union, and there must be no hurrying into any kind of a union, the result of which would be disastrous. "Before organic union there must be a unity of spirit based on love and truth, because on no other basis could the church hope to unite to the strain and the stress of its life to come."

THE DEAD. Ferdinand D'Zibus, sales manager of the Pope-Harford Auto Company, of New York, who held a special meeting while car coasted into a ditch. Matthew R. Bacon, mechanic to Harle old Stone, when the car plunged off bridge and turned turtle on bursting of rear wheel.

PASTOR RUSSELL'S SERMON

BLOOD ATONEMENT FOR SIN IS A NECESSITY

BROOKLYN, N.Y., Oct. 2.—Pastor Russell of the Brooklyn Tabernacle addressed a large and very attentive audience to-day at the Academy of Music from the above text. He said: "There is a day in which, more than ever before, the statement of our text is disputed—disputed—by Jews, Gentiles and Christians. The great Christian apostle, Paul, agrees exactly with the words of Moses in our text, saying, 'Without the shedding of blood there is no remission of sins.'"

These worldly-wise cannot deny the fact that there is sin in the world and that there is death in the world and that the tendency of all sin is towards death. They cannot deny that death is gaining a greater hold than ever before upon our race. Insane asylums, prisons and reform schools show that, notwithstanding our educational facilities and wonderful achievements and the enlightening influences of the new dispensation now dawning—nevertheless, the insanity statistics and the prison statistics and the physical statistics show that, in spite of everything, our race is becoming mentally and physically weaker day by day. It is for them to explain how these facts fit to their theory of evolution.

By the term Christian we refer to those who intelligently believe the explanation of the Bible respecting sin, that it is a violation of the divine law and carries with it a penalty—that Father Adam was created as sinless as the angels and as perfect as they, only on a little lower plane of being. Obedience was required of him as the price of divine favor and everlasting life. Disobedience thrust him from Paradise into the unprepared earth to wrestle with the thorns and the briars where the decree, "Dying thou shalt die," accomplished his execution. His race was in his loins and naturally shared by heredity his weakness and death penalty, so that the entire race is a dying race. But the Creator was unwilling that Adam and his children should die as brutes. God did not re-voke His decree of death, but gave an invitation that He had done unjustly in condemning His creature. He did, however, provide a way for their relief. He provided that, as the first man alone had sinned actually, so one Redeemer alone would be necessary for the race. And to him he offered a great reward, so that His sacrifice for sin would work out to His own advantage, as well as to the sinner's. A part of the reward was the high exaltation to the heavenly nature—far above angels, and the gift of the kingdom of earth necessary for the ruling and subduing of the spirit of rebellion in the world and for the exalting and uplifting from sin and death conditions of all the willing and obedient of Adam's entire race.

From the divine standpoint, the man Christ Jesus gave Himself a ransom for all, for Adam's entire race, to be testified in due time. He antityped the bullock of Israel's Atonement Day, as well as antityped the priest who slew the bullock. Because He offered up Himself, Rewarded by the Almighty, He was raised from death to the spirit plane, higher than the angels. Applying His merit to the antityped Levites, "the household of faith," the church of the first-born. He then began a work, first understood by either Jews or Christians, but nevertheless clearly outlined through this age has been the gathering of the elect class—which is chosen because of faithfulness to Him and obedience in walking in His steps in the narrow way. These, composed both of Jews and of Gentiles, have for centuries been in course of development—their sacrifices typified by that of the Lord's sacrifice on Atonement Day. Their sacrifices are small and less like that of the goat, in comparison to the bullock. But they are accepted by the Lord, and His merit is counted as His own. Thus eventually the high priest will complete His work of sinning (we believe very soon) and then His merit will be applied to the blood upon the mercy seat will be made, just as it was written in the law, "On behalf of all the people," only scale will not mean merely the Israelites outside of the Levites, but will mean the whole world of mankind outside the household of faith, the antityped Levites. For the sake of the whole world will be turned over to Messiah, the antityped Prophet, Priest, King, Mediator, Judge. Then for a thousand years the world will receive the blessed, uplifting influences.

There will come in Israel's share in the great work of recovering the world to God. They are still beloved for the sake of the covenant, the gifts and calling of God to them are things that will not repent of. At that time the great antityped Prophet, Priest and King will begin His work as a mediator. He will mediate by bringing into operation the new covenant, which God promised He would make with Israel and Judah, "after those days"—after the days of their humiliation and being cast down, they shall be reclaimed and uplifted and blessed and used of the Lord. This is God's covenant with them when He will take away their sins—when by virtue of the "better sacrifices" their sins shall be absolutely and forever canceled by the antityped Priest, of whom the Prophet David wrote, "The Lord hath sworn, and will not repent, thou art a priest for the age after the order of Melchizedek"—a kingly priest on the spirit plane (Psalm cxiv 4).

The word atonement or Atonement signifies the bringing of persons accused or estranged back into harmony, sympathy, union. Many are perplexed at the doctrine of blood-atonement so prominently set forth in the Bible. The shedding of blood is naturally revolting and properly so. It seems strange, therefore, to those who do not understand the philosophy of the divine plan of salvation, why God should have required a blood-atonement for sin. Sometimes the very people who object to blood-atonement believe something much more awful—that an atonement for sin can be effected by hundreds or thousands of years of most terrible torture. Some believe even worse than this—that an everlasting torment penalty for sin will be exacted of an expectant saintly few of humanity. How inconsistent and illogical we have all been in our reasoning upon religious subjects!

In scriptural usage blood stands for, or represents, the life. In harmony with this is our ordinary use of the word. We read, "The blood of Jesus Christ our Lord cleanseth us from all unrighteousness." Here the word blood stands for death, or rather, for the merit of the sacrifice of Jesus. His death would have been equally efficacious as man's ransom-price if His side had not been pierced. It would have been equally meritorious if He had died in any other manner except that He was to take the place of the sinner to the very last degree—the Mosaic law declares, "Cursed is everyone that is hanged upon a tree." The crucifixion on the cross as the most ignominious form of death.

TEXT: "The life of the flesh is in the blood, and I have given it to you upon the altar, to make an atonement for your souls; for it is the blood that maketh an atonement for the soul."—Leviticus xvii: 11.

Adam die, even so all in Christ shall be made alive." These worldly-wise cannot deny the fact that there is sin in the world and that there is death in the world and that the tendency of all sin is towards death. The crucifixion on the cross as the most ignominious form of death.

But why should God require the death of a victim as a basis for forgiveness of the sinner of Adam and his race? We reply that God's law was intended to be an illustration of the exactness of divine justice. Justice could not punish Adam nor his children with everlasting torture or any other of the horrible things we once imagined. The severest penalty of the divine law is represented in our common law, which, as an extreme penalty, requires the death of the transgressor. Adam, having been sentenced to death, would have had no future opportunity of escape, no resurrection, nor otherwise. Adam's children, sharing his weakness, would have had no opportunity to regain life, because justice is unchangeable. If it was just to condemn the man Adam, it would be unjust to rescind the penalty and set the culprit free. Divine love has provided a way by which Adam and his children may be freed from death and have an opportunity of eternal life—by violating the requirements of divine justice, but by fulfilling them. Hence in due time, the man Christ Jesus, the man Adam, to cancel his sin, to satisfy his penalty. And since his sin and penalty have been inherited by his children, one sacrifice for sin is sufficient for all.

Public Amusements. Mrs. Fiske in "Pillars of Society." "Pillars of Society" stands unique among Menck's plays. Written in 1877, it is the first of his long series of prose dramas, and marks practically the beginning of the modern drama. The materialist, ideal of his poetic plays. Heredity and mysticism, which figure so prominently in his later work, do not appear here, nor is the exposition of character a prime feature. Indeed, it is in no sense a great drama, but it is interesting as showing the first flight, so to speak, of a great dramatist.

L. SIMPSON

Ready to Wear---Worthy to Wear WOMEN'S Garments that have not the latter quality have no right to claim the former, for they are not ready for any woman of taste or intelligence.

SIMPSON'S garments are worthy in the quality of the fabric used in their manufacture. They are worthy in the taste and skill displayed in their form and fit. Last, but not least, the sewing is worthy. Come and see for yourselves. We name four or five, but there are dozens of others equally interesting.

SIMPSON'S \$25.00 SUITS AND DRESSES.

Fur-Bearing Animals

THAT'S where we Canadians are all right when the weather goes below freezing point. When the best New York and Paris designers produce the garments the result is not only artistic, it's fascinating. That's what makes our showroom the rendezvous of fashionable women.

Almost daily at this time of the year this store receives novelties in furs, something entirely different from what has hitherto been shown. This week our furs of acknowledged superiority are specialized. You may see them in: Pure White "Arctic," Natural Blue, Hudson Bay (brown), Jet Black, and Silks, both plain and pointed. Scarfs from \$15.00 to \$175.00. Muffs from \$17.50 to \$75.00.

Alaska Sable (that most fashionable and durable of all furs), in long "strand" scarfs, stoles and wide shoulder effects, from \$15.00 to \$110.00.

Muffs in "strand," rug, pillow and novelty shapes, from \$10.00 to \$65.00. Mink Furs are as fashionable as ever, and what fur wears better? Our showing was never so complete. You can choose from the smallest neck-piece to the elaborate 3-yard long "strand" scarf-muffs in all the new shapes.

We are showing the best values in Persian Lamb Coats, over 36 inches long, garment made with long roll shawl collar, semi-fitting back, lined with French brocade, skins best selected, Leipzig dye, at \$210.00. Cannot be duplicated in Canada.

Rain Coats---Fancy Vests

THESE latter are an attractive bargain in stylish waistcoats, many at less than half price. Our word to the wise is "Come Early." The raincoats are splendid value, and the risk of going without a raincoat after the first of October need only be mentioned to be apparent. Of course if you can stand wetting through to the skin and turn up all right the next morning, well and good. It costs most people a doctor's bill and loss of time that would pay for several raincoats.

MEN'S AND BOYS' NEW FALL RAINCOATS.

Men's Fine Quality English Cravenette Raincoats, in dark Oxford grey or olive fawn shades, cut in the latest single-breasted style, large and roomy, lined throughout with good quality linings. Sizes 35 to 44. Price \$12.00.

Men's English Covert Cloth Raincoats, a smooth, firmly woven material, suitable for fall wear or for protection from rain, in a rich dark Oxford grey shade; cut from the popular single-breasted models; full length; splendidly tailored, with broad shoulders, and full chest effect. Sizes 35 to 44. Price \$18.00.

Boys' English Cravenette Waterproof Coats; guaranteed thoroughly rainproof, of a rich olive fawn shade; cut single-breasted style; buttoning close up to the throat; finished with neat military collar and wind straps on sleeves. Sizes 26 to 32. Price \$6.50.

The Best Kind of Velvet Rugs

A well-woven Velvet Rug is almost equal to a Wilton in appearance, and often wears as well, but it must be a good velvet. We carry only one grade of velvet rugs—that is the best.

The variety of designs and colorings we show for this season are just a little ahead of last year's splendid assortment.

The pretty chintz patterns for bedrooms, the small motif centres with plain borders, and the Turkish and Persian effects, are all much like Wiltons in their appearance and will wear almost as well. 3x3 1/2 yards, \$17.50; 3x4 yards, \$20.50; 3 1/2 x 4 yards, \$24.50.

Red Cedar and Matting Boxes
