PREFACE.

The Publishers in presenting the fifth edition of their Business and Farmers Directory of the counties of Carleton, Lanark, Renfrew and Russell, have endeavored to merit the approval of the public by presenting a work that will be found the most complete of the kind ever published in the district. It will be found to contain more information of a nature valuable to business men of all branches than any other publication heretofore placed in the hands of the people.

Among the contents will be found the name of each farmer and owner or tenant of a lot outside the limits of each city, town or village, with post-office, lot and concession, a complete list of towns, with the business people alphabetically arranged, also a separate list of business people classified with reference to their business. The whole combined making one of the most complete directories ever published.

A work of this kind involves a great amount of expense and labor, and the publishers have spared neither, but have made every effort to make a reliable work worthy of the confidence of the people.

Thanking those who have kindly given us information, also the business people and the public generally who have given the work their support, we remain,

Respectfully Yours,

The Gold Medal Woven Wire
ROLLER SPRING BED.

—o—

We are manufacturing : No. 1, No. 2 and No. 3.

W. B. NOYES, PATENTEE.

No Sagging or Rolling to the centre of this Bed. Pat'd. July 31, 1888.

HERE IS SOMETHING NEW. GOOD AND THOROUGHLY RELIABLE.

Will retain its elasticity. The springs can never become depressed by long use. The bed is elastic and yielding in all its parts, conforming perfectly to the form and weight of the person lying upon it, and is at the same time, from its simplicity of construction, of great durability. The Bed is a new one, but the principle is well known and has always been recognized as the true one upon which to construct the most luxurious couch known. We have made extensive preparations for the manufacture of this Spring, and expect for it a tremendous sale.

None Genuine unless stamped, "Gold Medal Spring Bed. Noyes' patent, July 31. '88.'

This is the only bed made that can be changed in the twinkle of an eye to accommodate a light or heavy person. The tension of the Spring required is enough and not too much. When two of different weights occupy the same bed, then its good qualities appear best. In all our fabric, which are woven by experienced hands, we use only the best make of tinned steel wire. For all Helical Springs, the best W. W. W. Besmer Steel Wire is used, japanned or coppered. The Supporting Springs are fastened securely to the Woven Wire Fabric; there is no possible way of them turning or becoming depressed from long use.

We use the Hartford Stamped weave for our No. 1 and 2 Beds. **No. 1 Bed** has 2 rollers and 4 cross slats, with 32 Helical Springs. **No. 2 Bed** has 1 roller and 3 cross slats, with 24 Helical Spring. **No. 3 Bed** has a split weave and is provided with S. S. take up device.

On each side of the Bed, and running through the border of the fabric, runs a stay wire rod; both ends of each rod are fastened to the top of the rail; one end of the rod has a coiled spring which allows the rod to give under a heavy weight.

There are no ridged edges, no uneven spots, or anything that will wear or tear the mattresses or bed-clothing.

The Beds in all Hospitals and Asylums should be supplied with these Springs, thus making it perfectly easy to adjust the tension of the Fabric so as to make it conform to the shape, condition and requirements of the occupant. A result never before obtained.

On orders for a dozen or more Springs, customers may, by so directing, have their names stencilled on the side rail, without extra charge.

Send us a sample order; if not satisfactory you may return, we to pay freight both ways.

ORDERS MAY BE ADDRESSED TO
