ST. JOHN AVIATOR WHO LOST LIFE IN ENGLAND

Southampton, Eng., July 11.—Viscount Jellicoe, of Scapa, former first sea lord, speaking here yesterday, said—"I made a prophecy somewhat grandly some time ago that the submarine campaign would be defeated in August. I did not know at the time that my words would be quoted in every newspaper in the kingdom or perhaps I would not have spoken in such assured terms. Today, however, although ships are still being sunk, they are not being destroyed as fast as we are building them, while German submarines are being sunk faster than the Germans are building them. That is what I meant when I said that the submarine campaign would be defeated."

BRITAIN'S STAR AIRMAN FALLS ON THE FRENCH COAST AND IS KILLED

London, July 11.—Major James B. McCudden, British star aviator, who is credited with bringing down fifty-four German machines, was accidentally killed while flying from England to France on Tuesday. He fell on the French coast. He had won the Victoria Cross and many other rewards. He was a mechanic at the beginning of the war.

GERMAN INSISTENCE CAUSED AUSTRIA THE LOSS OF BATTLESHIPS

Italian Army Headquarters, July 10.—(By the Associated Press)—Insistence by the German admiralty upon the Austrian naval expedition for the destruction of the nets in the Straits of Otranto, and for the entrance to the Adriatic, and for an attack on the allied naval forces were responsible for the departure from Pola of the two Austrian dreadnoughts which were torpedoed by the Italians in the Adriatic on June 10, according to information from prisoners taken by the Italians in the recent fighting.

BELGIAN KING AND QUEEN FLEW ACROSS CHANNEL TO ENGLAND

London, July 11.—A royal air escort of three Belgian seaplanes guarded King Albert and Queen Elizabeth on their flight over the channel from Belgium to England on Saturday morning on a trip which marked the first time in history that a royal couple had crossed the channel by air. The queen descended soon afterwards, her seaplane also landing near Dover. They started from the Belgian coast and made the trip to England in about fifty minutes. The purpose of their visit to England was to attend the silver anniversary of King George and Queen Mary on Saturday.

BREAK IN STEEL

New York, July 11.—Stocks were irregular at the dull opening of today's market, but soon became active and rallied one to 1/2 points. Bethlehem Steel, old steel, reacted 5 1/2 points, Baldwin Locomotive 3 1/2, Sunnata Tobacco 3 1/2, General Electric Distillers, Coppers, and Shipings 1 1/2 to 2 and leading rails, including Union Pacific and Reading, all advanced one point. Trading was suspended from eleven to twelve o'clock as a tribute to the memory of the late Major Mitchell.

STRIKE SITUATION IN TORONTO AND ELSEWHERE

Toronto, July 11.—The general labor situation in Toronto is still unsettled and full of the most serious possibilities. The machinists at the Russell Motor Company refuse to return to work until the company restate several wrongs recently dismissed the employes with a strike of a telegram from S. J. Koenekamp, the president of the International Union, asking that they defer action until his arrival in Toronto; the civic strikers are still waiting upon the action of the city council, relative to their meeting.

Huns Now Murder 50 Belgian Girls

London, July 11.—(British Wireless Service)—In a recent German raid on the Belgians, more than fifty girls were killed by air bombs launched upon an ambulance park at La Panne, behind the user front, according to a special dispatch from The Hague. Fifty bombs were dropped in the immediate neighborhood of the park and several struck a large villa about 100 yards from the hospital.

A KAISER'S COMPASSION

It would be pleasing, if it were possible, to credit the German emperor with the compassionate disposition which he occasionally affects. People would think so much the better of him if as a man he had the tenderness of heart which he professes, though it were overvalued and trodden down by his own idea of duty as divinely appointed sovereignty or war lord. But are his professions sincere? Is it true that his "heart bleeds" as he looks upon the slaughter and havoc wrought by his army in France and Belgium?

### THE WAR SITUATION.

Today's reports attach much importance to the new drive in southern Albania, by Italian and French forces, who are aided by Albanians familiar with the country. It is pointed out that further advance would seriously threaten the flank of the Bulgarian armies in the region of Monastir, and success would also rally to the assistance of the Allies the hard-fighting hillmen, while it would greatly hearten those Slav races already in almost open revolt against Austria. A vigorous Allied offensive in this region might therefore have very important results, as there are persistent reports of discontent and an increasing number of desertions from the Bulgarian armies.

Two speeches in the Prussian house of lords are of interest. One speaker referred to the "good German sword" and described as shameful some recent speeches in the Reichstag. The other asserted that they "had vanquished the enemy in the east and would conquer in the west." He added that "victory is not far distant." The Prussian house of lords is the hive of the Junkerdom that imposes its will upon the German people.

### THE LID CLAMPED DOWN.

Quite recently a representative of the New Brunswick Power Company visited this city and interviewed many citizens. He wanted it very clearly understood that so far as they were concerned there was to be no secrecy. Their whole desire was to play fair, and restore public confidence in the company, if that confidence had been in any way impaired. There was nothing to conceal, nothing to cause anything but the most amicable relations.

Yesterday two eminent engineers employed by the city to make a valuation of the company's plant called on the manager and were informed that there was "nothing doing." They were flatly denied the opportunity to examine the cards which the company's spokesmen had assured the commission would all be laid on the table.

These engineers were brought to the city on the advice of the city's council. They are here for a perfectly proper purpose. They were brought here on the assumption that the company's representatives meant what they said when they declared there was nothing to conceal.

The New Brunswick Power Company is operating public utilities by virtue of a charter granted by the citizens. Whatever its legal rights it has no moral right to refuse essential information when it is seeking to increase the charge for its services. That confidence in the company which the Boston representative of bond-holders desires to see restored will not come to pass while the lid is jammed down and the people's representatives denied information to which they are entitled.

This latest development will lend additional interest to Mr. W. Frank Hatheway's exposure of power company methods as applied in the legislature under the former government. That is a very interesting and instructive story.

### THE "THREE DECKER."

It will be remembered that an effort was made a few years ago in St. John to put a stop to the construction of three-story wooden tenements, but that it failed because private interests had more influence than consideration of public health and safety.

The same question has now come up in Toronto, where there is a very great shortage of houses, and there is a scheme afoot to create a thousand three-story tenement houses by enlarging old houses in the central part of the city. The city council is asked to endorse this plan. Dr. Hastings, the very efficient health officer, asserts, however, that even if the council agrees the board of health will veto the measure and prevent it from coming into operation. What he says is well worth considering in St. John as well as Toronto. We quote:—

"Apartment houses is only a dignified term for tenement houses, and I have always been heartily opposed to them. In 1911, after a very careful investigation of housing conditions in Toronto, I presented a report in which I strongly disapproved of apartment houses, and I have no reason to change my opinion. For the last seven years I have given

very careful attention to the means taken by almost every city of any size on the continent and in the United States, and the suggestion now before the city council is only an antiquated idea that many cities adopted ten and fifteen years ago and are now lamenting their action. The board has the power to condemn any system of housing not beneficial to the community, and experience has proved that this method of cluttering a city with apartment houses results in very bad conditions. They are an absolute curse to any municipality. The turning of residences into apartment houses is a degree worse than building them, which is itself a bad enough."

As was noted in the Times a few days ago, there is an alternative scheme by which companies can get a city guarantee of 80 per cent of the bonds issued to build proper houses. If taken advantage of it would result in the erection of a desirable class of cottages, and is so much more desirable than the three-story tenement plan that there could be but one choice in the matter. The difficulty, of course, is to get private capital interested in the latter plan. Dr. Hastings says the board of health proposes to take action immediately and submit a proposition on a large scale for the solution of the city's housing problem. In the meantime it will not stand for the "three-decker" tenement.

### CLASS AND CLASS.

That was a striking paragraph in the reply of King George to the address of the Lord Mayor of London last week in which he said:—

"Especially have I been struck on visits to the industrial districts by the evidence of a spirit of mutual concession and understanding between workers and animating employers and workers with the matters affecting individual interests, and a readiness to sink differences that the essential work of the country should be carried on. We may cherish well-founded hopes that in the furnace of war new links of understanding and sympathy are being forged between man and man, class and class, and we are coming to recognize as never before that we are all members of one community and that the welfare of each is dependent upon and inseparable from the welfare of all."

Strikes and the threat of more strikes indicate that there is still a good deal to be done in Canada before the new era of understanding and sympathy is ushered in. There is nothing more desirable, and whoever seeks to accentuate differences and arouse class prejudices with appeals to selfishness, whether on the part of employer or employed, is standing in the way of an understanding which must come if we are all to learn aright the lessons of the war.

Speaking before the recent Dominion W. C. T. U. convention in Ottawa, Sir George Foster referred to immigration and added "to save the life of a baby that comes into a Canadian home is far finer than to bring a full-grown man into the country."

They look sharply after slackers in Toronto. One of the papers tells us that upwards of 100 automobiles and motor cycles were halted on the Toronto and Hamilton highway the other day by Capt. Tom Flanagan and a squad of six sergeants "with polite but forceful requests to see the papers which were proof of the motorist's immunity from the Military Service Act." The result was that twenty-five men were bonded to appear at military headquarters.

The Standard this morning makes a most ill-advised and unwarranted attack on the board of health in connection with the recent smallpox epidemic. If the board had taken no precautions there would have been ground for protest, but to censure it for taking proper measures to prevent the spread of a loathsome disease is not only mischievous but a blow directed at the public welfare.

Toronto Globe: It is a great satisfaction to those who fought for prohibition in the days of its unpopularity to read the resolution in which the retail merchants of Manitoba express the opinion that "the general benefits of prohibition to the community have become so evident after two years' trial that any proposal to return to the old order of things would receive little, if any, support."

More than fifty Belgian girls making bandages for the wounded were killed by bombs dropped by German airmen on a villa behind the lines and within a hundred yards of a hospital. The Kaiser should strike a medal for these butchers. They are German heroes.

Viscount Jellicoe repeats the announcement that ships are being built faster than the Germans can sink them, and submarines are being sunk faster than the Germans can build them.

If all the scalders who worked under the late provincial government were as competent and conscientious as Mr. Murdoch confesses himself to have been, they were a notable aggregation.

Something Wrong.  
The day was drawing to a close, judges, jurors, witnesses, and lawyers, all were growing weary. Counsel for the prosecution was cross-examining the defendant.

"Exactly how far is it between the two towns?" he asked at length.  
For some time Faddy stood thinking, then "About four miles as the cry flows," came the answer.

"You mean 'as the fly cries!'" corrected the man of law.  
The judge leaned forward. "No," he remarked suavely, "he means 'as the fly crows.'"

### FIND PHARAOH'S THRONE.

Explorers from University of Pennsylvania Museum Make Important Discoveries in Egypt.

Word has been received at the University of Pennsylvania from Dr. Clarence S. Fisher, head of the Eckley B. Cox expedition to Egypt, that excellent success has resulted from winter explorations at Denderah, the ancient capital of Egypt, up the Nile. He returned to Memphis, Egypt, in April, and continued his work of uncovering the place of Merenptah, which is identified by many Biblical scholars as the Pharaoh of the

Oppression, whose stubbornness brought on the ten plagues. If this is correct, the great hall and throne room of the palace, which has been completely uncovered, was the scene of the appearance of Moses and Aaron before Pharaoh, and where the signs and wonders were performed. The throne is said to be in good condition, but Egypt will not permit of its removal to this country.

Fortunately, Dr. Fisher has worked over the pieces of twelve colossal pillars which upheld the roof, and has recovered enough to make one complete pillar, which will be brought to the University Museum and set up. It will be the most notable specimen of Egyptian architecture

in this country. The pillars were six feet in diameter, eighty feet high, covered with inscriptions and pictures inlaid with gold. Much of the paneling of the room and the lintels of the doors also were inlaid with gold, and these will be brought to America.

The natives of Egypt, it is said, call the palace "The Temple of Moses," as they have an idea that is where he was reared.

Endures It.

Food Board Flashes For Feminine Folk

Couldn't a good many of us eat less than we do at present? There is no need for us to go on actual short commons in Canada but we manage to consume a good many extra meals that are quite unnecessary and which must, therefore, be condemned as wasteful.

Many of us eat more than is essential for our physical well-being and especially in this time during the summer months.

Once again the old cry is repeated—save meat and bacon! Use plenty of milk, poultry, fish, eggs, fruits and vegetables.

Department of Railways and Canals,  
TENDER FOR WATER TANKS  
CHAIRED TENDERS ADDRESS TO: "undersigned and marked 'Tender for Tanks,' will be received up to and including twelve o'clock noon, Monday, July 15, 1913, for the construction of 40,000-gallon wooden water tanks at Hampton, N. B., and West Bay Road, N. S.  
Plans, specifications and blank form of contract may be seen at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, Ont., at the office of the Chief Engineer, Canadian Government Railways, Moncton, N. B., and at the office of the Resident Engineer, New Glasgow, N. S.  
All the conditions of the specifications and contract forms must be complied with.  
Tenders must be put in on the blank form of tender, which may be obtained from any of the offices at which plans are on exhibition. Separate tender forms must be submitted for each tank.  
Each tender must be accompanied by an accepted bank check, payable to the Honorable the Minister of Railways and Canals for an amount equal to ten per cent. (10 p.c.) of the tender.  
The lowest or any tender not necessarily accepted.

By order,  
J. W. PUGSLEY,  
Secretary,  
Department of Railways and Canals,  
Ottawa, June 29, 1913. 7-13.

Experienced.  
The head of the household was worried dark when he beheld the numerous bills that confronted him. "Your extravagance is becoming unbearable," he growled. "When I die you'll probably have to beg."  
"Well, I should be better off than some poor women who never had any practice," replied his wife.  
James Couzens, Detroit's police commissioner, is a likely majority candidate.

#### ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain How to Treat.  
Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not, as some believe, to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well.  
Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

ANOTHER MOVE SAVE WHEAT

Food Board Limits Amount That May Be Used in Breakfast Foods

Ottawa, July 11.—The Canada Food Board yesterday issued an order providing additional regulations in order to conserve wheat, by requiring the use of substitutes in the manufacture of breakfast foods now made wholly or in part from wheat. The order provides that no person shall manufacture or sell any rolled wheat, wheat flakes, wheat meal or cracked wheat containing more than eighty per cent, by weight, of wheat. Manufacturing any of these products of the whole wheat, from which the bran and shorts are removed, no substitutes need be added. No alimentary paste or self-rising flour containing more than eighty per cent, by weight, of wheat flour may be manufactured. The manufacture of buckwheat flour containing more than thirty per cent of wheat flour is prohibited.

ADD TO TROUBLES OF THE AUSTRINIANS

Successes of the Allies in Albania—Enemy on Saloniki Front Grows Nervous

London, July 11.—(British Wireless Service)—Success won by the Allied troops in Albania will add seriously to the troubles of the Austrians. They were won by a fresh, determined attack in the Balkan area where any military success must always have immediate and valuable political results. The line on which fighting is going on at present runs from the River Devoll to the Adriatic, a distance of more than sixty miles. In addition to the French and Italian troops engaged in the battle, Albanian troops are fighting against the Austrians and because of their familiarity with the country, are in a position to give valuable assistance. Although the region of the allied advance is only a few miles from the Saloniki front, there are already signs of nervousness among the enemy troops in that area. The advance in Albania is a serious matter, and it is significant that the Bulgarians in the region of Monastir. This is evidently appreciated by the enemy, and it will have the effect of bringing to the side of the allies many of the hill tribes, which are among the fiercest fighters in the world. Every fresh success of the allies will hearten the south Slav races, who are already in revolt against their Austrian rulers. A further short advance will bring the allies to Berat, the chief town of Southern Albania, and it is significant that Austrian official statements admit the progress of the French and Italians.

Wentworth Lewis

News of the death of Wentworth Lewis, which occurred in the General Public Hospital last evening, will be received with deep regret by his numerous friends. Mr. Lewis was well and favorably known in the community and was a prominent member of the Knights of Pythias. Mr. Lewis was a comparatively young man, being but thirty-one years of age. He was taken to the hospital some few weeks ago. A sad feature of his demise is that he had only a few days to spend with his family. He leaves besides his wife, three brothers and two sisters. The funeral arrangements have been made for Friday afternoon at 2 o'clock from his late residence 129 Charlotte street. Mr. Lewis was the youngest son of the late Alderman Lewis.

RECENT WEDDINGS

Davis-McLeod

An interesting ceremony took place at the residence of W. Bayard McLeod, August Ridge, yesterday, when his eldest daughter, Muriel, was united in marriage to Fred Davis of Queenstown. Rev. Mr. Saunders, of Petticoat, officiated. A large number of beautiful and costly presents were received. The bride and groom left for St. John to spend a short time before proceeding to Queenstown, where they will reside.

German Abuse of Prisoners

British Government is Keeping a Record Await Accounting

News of Fresh Outrages Comes Via Holland — A Notorious Commandant

It is a great satisfaction to know that the British government, and it is presumed the Dominion Powers as well, is keeping a careful record of cases of inhumanity and brutality of which its troops have been witnesses in the prison camps. There will be an accounting some day, and we can only hope that the records of these cases will be made public. The more cultured and humane nations of the world will be shocked and appalled at the news of these outrages. The Law As To Hospital Ships

(New York Sun)

The determination of the Kaiser's government to make the German navy a law unto itself throughout the civilized world has never been made more manifest than by the sinking of the German hospital ship Landvoerde Castle. Assume, if you please, that the commander of the German submarine, justified in believing that American aviators were on board; his right under the rules of international law was to search the hospital ship and make capture of the military men, if any there were, or take the vessel into port as a lawful prize for having violated the rules of the Geneva convention.

ENGLISH LIBERALS ADOPT A PLATFORM

London, July 11.—At an important representative meeting of Liberals from all parts of the country held yesterday in the House of Commons, a platform for the present national situation was adopted. It has these planks:

- 1.—Control by parliament of the foreign policy and the ratification of treaties.
2.—Full restoration of free speech, free press and rights of civil trade.
3.—These matters are to be investigated and will be pressed into parliament. The league question promises to be the great dividing line between the progressive and the reactionary parties at the next election.

THE TORONTO WORLD AND THE INTERNATIONAL NICKEL CO.

Toronto, July 11.—In a double column black faced type front page editorial today, The World publishes a list of the directors of the International Nickel Company and says: "Not one Canadian is in the list. This is the company, some of whose nickel refined from Canadian ore in the States, got to Germany, the company which has up to the present failed to disclose the actual metal content of these ores, other than nickel, or copy the company that last year paid out of its profits on this nickel over three millions as a war tax to the United States and as far as we know, little or nothing to the government of Canada."

Austrian Food Misery Told By Prisoners

Soldiers Eat Every Army Horse That Dies—Peace Spirit Rife Everywhere

London, July 10.—(British Wireless Service)—Prisoners of war from Austro-Hungarian prisoners captured by the Italians in the course of the recent operations, interesting information has been gleaned of conditions on the battlefield, as well as in the Dual Monarchy itself. Officers, non-commissioned officers, and men agree that things along the front line are going very badly, and that, although the officers and men are not actually starving, they are "always hungry." Horses dying from exhaustion or wounds are at once cut up and eaten by the troops. There is a great scarcity of food throughout both Hungary and Austria, and a distressing number of Austro-Hungarian soldiers returning from captivity in Russia are frequent occurrences. Prisoners of war are not actually starving, but they are "always hungry." Horses dying from exhaustion or wounds are at once cut up and eaten by the troops.

Next Session In Fredericton

Currie Inquiry Goes Over Until Wednesday; Further Testimony of Interest

Campbellton, N. B., July 10—The first sitting of the court inquiring into the charges against Hon. Wm. Currie closed this evening. The hearing will be resumed in Fredericton next Wednesday and another session will be held later in Campbellton or Moncton. One of the chief results of the inquiry so far has been to show the entire unreliability of Archibald Murchie, the former scaler on whose affidavit the charges were based. What information of value was elicited came chiefly from an employee of Mr. Currie, Charles Purvis, whose full, frank and unquestioned testimony drew a tribute from Mr. Baxter who is appearing in support of the charges.

The books of the Continental Lumber Company were opened freely for the purposes of the inquiry and the company's account of their operations was willingly given. So far the result of this evidence has been to show that the actual cut was larger than Murchie's returns. Mr. Purvis explained that certain deductions were made usually to allow for conditions in the industry, but how this affects the final total was not presented in actual figures. Murchie's evidence regarding his allegation that Mr. Currie had influenced him to reduce his estimates was decidedly weak and was further weakened by contradictory statements.

Mr. Currie's side of the story which will be told when he takes the stand will be awaited with interest. Afternoon Session. When the court resumed after the noon recess, Charles Purvis resumed the stand to continue his evidence regarding the company's record of the cut. He said that the deductions made by the company from the cut of the contractors for cuts, fir, etc., was about 4-1/2 per cent of the total. He went through his records and gave the amount deducted from each. The deductions totalled about \$80,000.

Alberta Supreme Court Issues Writ for Depot Battalion Commander

Calgary, July 10—On the order of the military officials of No 18 district to produce the body of Private Norton, of the Alberta Depot Battalion, before Chief Justice Harvey, of the supreme court of Alberta, in Calgary, this morning, Registrar Carson, representing the Canadian minister of militia, said that on instructions from the acting premier of Canada he was to quote section five of the order-in-council to show that no court in Canada had any authority to make an order on any military commander until the case of Norman Lewis was fully dealt with by the supreme court of Canada.

Registrar Carson stated to the court that the finding of the supreme court of Alberta in the Lewis case has produced a state of unrest and defiance of the law among the men now called to the colors in Canada and that the lawyers of Canada were now advising the draftees to disregard His Majesty's uniform. Order For Arrest. A writ of attachment was ordered this evening by the appeal division of the supreme court, and Sheriff Graham ordered the arrest of Colonel Moore before the supreme court for contempt of court. Colonel Moore, acting under orders from the adjutant-general, refused to appear this evening to produce some twelve men ordered held in the province under writ of habeas corpus, and who, it is understood, are now on their way to France.

GRANDMOTHER WAS THE DRUGGIST

In the early days of our country grandmother was the druggist, and her drugs consisted mostly of roots and herbs gathered from the fields and forests. There was peppermint for indigestion, mullein for coughs, skull-cap for nervousness, thoroughwort for colds, wormwood for bruises and sprains and so on. They were successful remedies, too. It was from a combination of such roots and herbs that Mrs. Lydia E. Pinkham of Lynn, Mass., more than forty years ago, originated her now famous Vegetable Compound; and during all these long years no other remedy has ever been discovered to restore health to ailing women so successfully as the good old-fashioned root and herb medicine.

The Scientific Way to End Corn

The Blue-jay plaster is a scientist's invention. It is made by the makers of B&B surgical dressings, used by physicians and hospitals everywhere. So you may be sure that this is the right way to treat a corn. The corn is ended by a bit of wax, which is centered on the corn. It cannot spread. While the wax is acting, a pad protects the corn. So all pain ceases when the plaster is applied.

A band wraps the toe snugly and fastens itself. With this comfortable dressing one forgets the corn, and the plaster can't become displaced. The pain stops instantly. Then the bit of wax gently undermines the corn. In Let Blue-jay prove itself tonight. You will never again merely pare a corn, or treat it in the old crude way.

**A GARDEN PARTY  
BACK OF LINES**

Function Conducted By a Canadian Unit

by the Evening Regimental Band Music, a Good Floor and Delightful Partners All Within Sight of the Flares of No Man's Land

(By W. A. Willison, Canadian Press Correspondent.)  
Canadian Army Headquarters in France, June 15—Throughout Canada you will be having your dances and your garden parties, but none more enjoyable or more thoroughly appreciated than that given by a Canadian unit this afternoon somewhere back of the line. It would be a pleasure to describe minutely the grounds and the buildings and just as great a pleasure to be able to mention individuals, but military experience permits of neither.  
So, it must suffice that the driveway was shaded with trees, that the lawns were green, though untimmed—for France has no men these days for gaveling and the little luxuries of peace. As for the individuals—there were nursing sisters there, first of all from many Canadian and British casualty clearing stations and with them were generals whose names are household words in the Dominion, and colonels and staff officers galore, the red and blue and green of tabs and hat bands combining with the smart uniforms of the nursing sisters to give touches of color to an animated scene.

Early a Success.  
Just before five o'clock, indoor baseball—played, of course, out-of-doors—demanded the attention of many hot and

**LIPTON'S**

It stands to reason that a firm that owns its own plantations and grows, blends, packs and sells its own Tea can guarantee its quality better than a firm that does not have these advantages.

For this reason, therefore, if you wish to get perfect quality Tea, buy Lipton's, because it is the only guaranteed quality Tea obtainable in Canada.

The very fact that "Lipton's" is synonymous with "Tea" is because we have made Lipton's worthy of this association of ideas.

chairs and more games—things to satisfy many tastes and as far removed from the war as the atmosphere of the place and the thoughts of those who had the good fortune to be present.

So much for the day. In the evening there was regimental music, a good floor and delightful partners. No wonder the garden party was a success, and that people left reluctantly and only at the last minute. You who read have all seen many dance programmes, but few of you have seen one of a fighting unit at rest but still within sight of the flares of No Man's Land. For that reason, I reproduce the following: You will notice that the waltz and the two-step are favored above their newer rivals.

Programme of Music.  
(1) one step, a la carte; (2) fox trot, York Wonders; (3) waltz, Nights of Gladness; (4) one step, Chinatown; (5) waltz, Kiss Me Too; (6) one step, Circus Day in Dixie; (7) waltz, Barbara; (8) two step, Tulp Time in Holland; (9) one step, Old Fall River Line; (10) waltz, Amorous; (11) one step, When It's Night Time Down in Burgundy; (12) fox trot, The Irish Tango. Extra—(1) waltz, On the Shores of Italy; (2) one step, Good Night Nurse; (3) two step, Selected.

Faith Personified.  
And last, and most impressive incident of all the day, the old world-wide prayer of the Empire, "God Save the King" with the instantaneous cessation of all movement and officers standing to attention. How often you have seen it at home, but out here there is a reality and a significance to the homage and that acknowledgement—not of a man but of an Empire and a faith personified—that is not always apparent at home and that reveals as little, the reason and the purpose that is in the hearts of those men and those women who deal with death in France because of the faith that is in them.

Then the cars and other varied means of transportation and a happy day is passing into a morrow that may bring a new offensive. And not much later you might have sat on the steps of a mess with one of your partners at the dance and watched the searchlights sweeping the sky for enemy aeroplanes. In the moonlight, you could have seen the bursting of anti-aircraft shells—mere fire-works of light in a great space and here and there you could have heard the distant rattle of machine guns. Then, at the slight creak on you would hear the distant and unmistakable hum of hostile machines and the faraway burst of exploding bombs.

Barbarism Enters.  
In tents close at hand, other sisters were tending to the wounds of grievously injured men and even at that time some soul might have gone out that died for Empire's sake. For many have gone out in this Canadian Casualty Clearing Station lately. Just beside you there is a ward where tortured men are fighting with all the agonies of gas poisoning that Germany introduced into civilized warfare.

Always, there is the tragedy—always the glory of men who suffer and die that freedom may live on the earth. Always there is the patient, wonderful service of nursing sisters, who know of the agony and the terrible torture of war and who live to serve, and so living are touched with the divine.  
The enemy has dropped his bombs and the night is quiet. One wonders if some other casualty clearing station has his own worry—for wounded men have gone

**Swordfishing is Exciting Work**

Anywhere along the Atlantic seaboard from Cape Sable to the harbors of Cape Breton the swordfish sports himself. It was not always thus. The swordfish is a late comer. A few years ago the Americans showed a taste for this fish and the canny Nova Scotia fishermen proceeded to satisfy it. The swordfish belongs to semi-tropical waters, but he comes on our coast in the

pulpit an opportunity to strike with his harpoon. This harpoon is made fast to a line which is again made fast to a small barrel. Immediately the harpoon is driven home the barrel is thrown overboard. This barrel again is made fast to the boat by means of a line so that the swordfish cannot get away. There is considerable sport in getting up alongside the fish. It requires skill and judgment to successfully harpoon the monster. Now, if you want a genuine thrill, you should be in the boat when the fish receives the dirk. He does not show fight, but he makes you hold your breath and wonder what will happen next. For he has attempted to go to the bottom and there wriggle the harpoon out of his side. But the fisherman knows the depth of water and has arranged the line which

it will not allow the fish to go to the bottom. Finding himself foiled, the fish turns his sword surfaceward and comes up straight as a die. Nothing is going to stop him. If the boat is in the way, then he runs his sword through the bottom of the boat. This is no unusual occurrence. I have known him to do this several times in one day. The fisherman would rather chase swordfish than go to a dance, and that is saying something.

The Canadian Government Railways publication, "The Bras d'Or Lakes," has further details in connection with swordfishing as a sport.

When the swordfish appears there is something doing among the fishermen. The boats are overhauled. These are the ordinary fishing boats, mostly power boats. On the bow is erected what the fishermen call the "pulpit." It usually consists of a plank running out over the bow of the boat and an iron rail protects the fisherman, who stands there with harpoon in hand, from falling into the sea. The boats cruise off the land generally about three miles, and the fish seem to run in schools. They are generally observed from the large fin on their back protruding out of the water. The boat is manoeuvred so as to allow the man in the

## REFUSES ENGINEERS PERMISSION TO EXAMINE PROPERTY

Mr. Hopper's Stand Upon Mayor's Request That American Experts Have Chance for Inspection

(Daily Telegraph.) "Nothing doing." This was the ultimatum of General Manager Hopper of the New Brunswick Power Company, yesterday, to a request from the mayor to permit two engineers

## A Single Application Will Banish Objectionable Hairs

(Aids to Beauty) Here is a home treatment for removing hairs that is quick, painless and inexpensive: With some powdered dextrose and water make enough paste to thickly cover the objectionable hairs, apply and after 2 or 3 minutes rub off, wash the skin and it will be left soft, clear and hairless. This treatment will not mar the skin, but to avoid disappointment, be careful to get real dextrose.

which the city brought here, to examine the company's plant.

W. C. Whiting, of Boston, and W. B. Bennett, of Melrose (Wis.), two prominent American engineers, were secured by the city a few days ago, in order to provide expert evidence at the next session of the special commission that has been appointed to go into the matter of the New Brunswick Power Company's request to increase its rates. Dr. W. B. Wallace, K.C., one of the counsel for the city, said to The Telegraph last night that the company had told the commission that the city might secure any evidence it deemed necessary for its case from the company during the interim between the first and following sittings, that in fact the company would "throw all their cards on the table."

The two experts arrived in the city yesterday at noon and interviewed His Worship Mayor Hayes. Owing to the fact that the company, at the first session of the commission stated explicitly that its "cards were on the table" and that it had "nothing to conceal" his worship was of the opinion that the company would, in line with this statement, permit representatives of the city free access to its property in order to secure expert information.

In view of this opinion Mayor Hayes gave the engineers a letter to General Manager Hopper which, couched in courteous terms, asked that the bearers be permitted to go through the company's plant and inspect its property. The engineers presented the letter to the general manager on their arrival at his office and his reply was a brusque "Nothing doing." This seemed to end the matter so far as the engineers were con-

cerned so they returned to the city hall. Further efforts on the part of the mayor and Dr. Wallace failed to secure the necessary permission to allow Messrs. Whiting and Bennett to inspect the company's plant. These gentlemen, who are men of high standing in their profession, were brought to St. John at a considerable cost to the citizens and today they must return to their homes practically empty handed so far as the information they desired, or the city desired them to secure, is concerned, and

## Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Don't use prepared shampoos or anything else that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain milled coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and its soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

all because of the arbitrary attitude assumed by the company. Dr. Wallace pointed out to The Telegraph last night that technically the company had the right to refuse the representatives of the city permission to visit the plant and secure information, but based on a technical ground. He also pointed out that this company was a public utility which existed for the service of the public and from the public secured its right, by charter, to operate in the city. In view of this fact, he said that it was quite beyond the scope of reason that such refusal should be made by the company to such a reasonable request, particularly as the company had stated before the commission that any information that they could provide the city with was free for the asking.

Messrs. Whiting and Bennett had with them the reports of Messrs. Sloan and Waterman and it was their desire on behalf of the city to compare these reports with their own observation and to verify the statements that had been made by the two gentlemen who previously had made an examination of the company's plant and property.

Dr. Wallace has telegraphed J. A. Sullivan, the city's chief counsel, in Boston, informing him of the action of the company, and it is not known just at present what further step the city can take in the matter.

## Organized a "Company Union."

Chicago, July 10.—Organization of a "company union," of employees of the Western Union Telegraph Company was begun today at a meeting of sixteen delegates from various sections of the country. The delegates said that they were loyal to the company and the government and had no desire to strike.

## You Feel Fine

Fatigue is the result of poisons in the system, the waste matter resulting from the activities of life. The kidneys have failed to filter these poisons from the blood and you are tired.

But awaken the kidneys and liver by using Dr. Chase's Kidney-Liver Pills and you soon feel fine. The poisons are swept from the system, the pains and aches are gone and you are ready for work and for play.

## UNITED FARMERS WANT REPRESENTATIVE IN PROVINCE LEGISLATURE

Woodstock, N. B., July 10.—Fifty delegates from the United Farmers of New Brunswick met today in the vocational school and discussed placing a candidate in the field to contest the by-election likely to be held in this county in the early autumn. The meeting was very enthusiastic and harmonious, though some differences of opinion prevailed as to the advisability of entering the political arena before the organization was entirely completed.

President C. L. Smith, in opening the meeting, said it was something new in the history of the county to have so many farmers meet for the purpose intended. He was very proud of what had been accomplished in three months, and in every county he visited he found the one sentiment existing that farmers should be organized. The manufacturers were organized and their influence meant loss to the farmers. The recent convention of farmers in Ottawa made the government sit up and take notice. The organization was not going to follow party blindly any longer, and they meant to have a say in the events that are taking place in Canada. He wanted party politics dropped where it affected the farmers, who should stand

shoulder to shoulder for their own interests. Gordon Sharp, the secretary, objected to the press representatives being present, but a motion was carried, almost unanimously, that they be allowed to remain. A long discussion took place over entering the local contest in the by-election and after several amendments had been voted down, the following resolution was passed:

"That the delegates of the United Farmers of New Brunswick appoint a committee to wait on the leaders of the two political parties and ask them to allow us to elect a representative by acclamation to fill the vacancy in the local legislature caused by the death of Mr. L. White, of Carleton county."

E. W. Melville, A. A. H. Margison, C. L. Smith and T. W. Caldwell were appointed the committee. Before adjournment the following was passed:

"We, the United Farmers of New Brunswick, wish to put ourselves on record as being strictly opposed to all forms of bribery in the running of elections, and hereby pledge ourselves to see that the election law regarding bribery is enforced to the best of our ability and we consider this practice tends to the government of the people by moneyed interests."

SANG AT OPENING OF NEW THEATRE Madame Kathleen Furlong-Schmidt, accompanied by her sister, Miss Helen Furlong, of Boston, arrived from the city at noon today for a stay at the Furlong shore cottage, Red Head. Madame Furlong-Schmidt has been singing in New England theatres of late weeks and in Nashua, N. H., a few days ago was one of the performers on the high-class programme at the opening of a costly new house—an event which was largely attended by the elite of the city. The St. John singer was accorded a most flattering reception according to Nashua newspapers to hand.

HIS FATHER DEAD Alexander Irvine of the N. B. power house last evening received the sad news that his father, Samuel Irvine, of Chatham, had died after a lingering illness from heart trouble. Mr. Irvine was born in Scotland eighty-three years ago and came to this country when a young man and settled on the Miramichi. He was one of Chatham's most worthy and highly respected citizens and his numerous friends will hear of his death with sincere regret. For many years he had been a regular attendant and staunch supporter of St. James' Methodist church in Chatham. He is survived by three sons, John and Robert of Chatham and Alexander of St. John; also by two daughters, Mrs. Theall and Mrs. McLean, both of Chatham.

NEWS OF PYTHIANS

Half Million War Fund—New Brunswick Lodge Officers—Decoration Day

The Knights of Pythias of America, which includes Canada, are raising a half million dollars as a benefit fund for members of the order disabled in the war. Various lodges throughout the province are contributing such amounts as they think they can afford. At a recent meeting of Union Lodge, No. 2, of this city the sum of \$200 was voted towards the fund. New Brunswick Lodge No. 1 has the matter under advisement.

At the fortnightly convention of New Brunswick Lodge No. 1 last evening in Castle Hall, German street, the following officers were installed: Chancellor—Commander—R. C. Thomas. Vice-chancellor—Walter E. Campbell. Preceptor—James E. Arthurs. Master of work—Chris. G. Morrison. Master at arms—W. E. Demings. Keeper of records and seal—James Moulson.

Master of finance—B. L. Sheppard. Master of ceremonies—E. E. Thomas. Inner guard—James Stevenson. Outer guard—Bayard Stillwell.

On Tuesday, Aug. 19, the three local lodges K, P, and F will decorate the graves of their departed brethren in the several cemeteries in this city and throughout the province. In St. John they will start out at 6 o'clock in the evening, which will be an innovation.

WILL NOT WINTER AT RED HEAD

Military Man Says Nothing to Report About Siege Battery—Rebuild Partridge Island Quarters

Since the 9th Siege Battery has gone into camp at Red Head there has been a constant rumor in military circles that it was possible that the battery would remain encamped there during the winter months, this to be made possible by the militia department erecting huts on the grounds.

A military official speaking this morning said that it was not at all possible that the battery would remain encamped at Red Head much later than September. As to the erecting of huts, he said the militia officials at Ottawa were not likely even to consider such a scheme. He said that the barracks on Partridge Island which was burned down was to be rebuilt and intimated that when finished it would be the quarters of the battery.

SCRAMBLE AT THE BOATS FOR BERRIES

Some 6,000 Boxes at Indianotta Yesterday—A Matter of Sugar For Preserving

By river steamers alone yesterday close to 6,000 boxes of cultivated strawberries reached the local market, selling all the way from eleven cents for the best fruit down to eight for the inferior. There was a great scramble of dealers and sub-dealers for the berries at the closest dicker and when it comes time to make the peace terms at The Hague it is doubtful if any finer half-splitting or argument will be used than was heard roundabout the freight sheds of the Oceanic and Maritime at Indianotta. After the dealers and retailers had their bargaining the householder—mostly shrewd housewives—started in. It was not long before the sheds were empty and in many a home big steaming kettles and canning boilers were under full steam.

This advent of the preserving season brings to the surface a rather worrisome and at least somewhat vexatious problem. In the past, it is said, would try to make it so. In several localities about town some grocers are insisting that each customer buying white sugar take a certain quantity of brown—at least one part of brown to three parts of white. In the preserving season when most housewives require a large quantity of white sugar the demand of these grocers makes it very expensive. As a matter of fact a leading uptown merchant told the Times this morning that this one-in-three ruling of retailers and wholesalers is purely a trade arrangement not necessarily affecting the retail customer. If the storekeeper can work his wiles under this white sugar scheme all well and good but with so much fruit to be bottled nowadays a decided hardship could be worked upon family folks if it were insisted upon. It is said that no limit has been placed upon the amount of sugar a householder may purchase, provided it is not in excess of a fifteen-day supply. Just what interpretation can be put upon this fifteen-day supply regulation in preserving time is not given out by local food officials. It is assumed since the preserving of fruit and other foods is being loudly advocated by the government that the materials for carrying out these suggestions will be forthcoming under the law.

The Times asked several well-known household experts in preserving processes if brown sugar could be used for this kind of work. The answers were mostly negative with such exceptions as pickles, vinegar syrups, etc., unless the family is content to put up with an inferior and much darker line of preserves.

NOW ABOUT 900 IN THE NAVY LEAGUE IN ST. JOHN

Should be at Least 2,000—More Than 1,000 in Fredericton

With branches now firmly established in Fredericton, Moncton, Sussex and Woodstock, and more expected in new days in other towns, the Navy League is growing in membership and usefulness. The roll of members in St. John is now about 900 regular and associate, but the executive are very anxious to double this number and there is a request to all citizens to hand in their names, as it is impossible personally to canvass everyone. It is also requested that every member wear his or her badge, as this is not only a sign of membership, but that they who wear this believe in sea power and what the navy has done for us. The Fredericton branch now numbers more than 1,000 members, so it is felt that St. John should be double that number. The first number of "The Sailor," the official magazine of the Navy League will be issued on August 1.

Montreal has a campaign on this week to secure 5,000 members in that city alone, and meetings and demonstrations are held every evening with addresses by prominent citizens. The number is now nearly secured, while the aim of the provincial division is to get 25,000 members for the Province of Quebec.

FOOD CONTROL MATTERS

Mr. Potts' Visit to North Shore—The New Regulations for Next Monday

Water S. Potts, provincial official acting for the common food controller, has arrived home after a trip along the North Shore, where he made investigation into lobster canning operations. Details of his mission are not forthcoming. Mr. Potts visited Miscou Island, Shipigan, Island River, Chatham, Loggieville and Richibucto.

Speaking of food control matters throughout the province generally Mr. Potts is of the opinion that everything is running smoothly. Both dealers and populace seem to be co-operating nicely in carrying out the conservation measures laid down by Ottawa. He referred chiefly to the new regulation becoming operative next Monday, July 15, when housekeepers and others will be required to buy one pound of substitute with every two pounds of wheat flour. For example a person buying ten pounds of white flour for bread, cake or pastry purposes will be compelled to lay in five pounds of something that will take the place of white flour. These substitutes include well-known cereals and meals such as cornmeal, plain cornmeal, potato flour, rice, buckwheat, oatmeal, bran, tapioca, sago, rolled oats, corn starch, etc. It is true these substitutes are more expensive than wheat flour in the general average and the effect will probably be to lighten the cost of living a few more notches. Still, it is to save the wheat that substitutes are being forced upon the public. Wheat is desperately needed in Europe. In this country there are plenty of substitute foods upon which the people can fall back; over there there is practically nothing. The matter of expense is really not a paramount consideration on this side of the water. It is felt we are better able to stand the temporary strain than our fighting allies and allies, to say nothing of starving millions in France, Belgium and elsewhere.
