False doctrine and heresy are even worse than schism. If people separate themaelvea from teaching which is positive-ly false and unscriptural, they ought to cases separation is a virtue and not a sin.
It is easy to make sneering remarks about "itching ears" and "love of excitement" but it is not so easy to convince a plain reader of the Bible that it is his duty to hear false doctrine preached. The old saying must never be forgotten. "He is the schismatic who caused the schism." Unity, quiet and order amongst pro-fessing christians are mighty blessing, They give strength, beauty and efficiency to the cause of Christ. But even gold may be bought too dear. Unity which pleases God. There is quiet and stillness enough in the grave, but it is not the quiet of health but of death. It was the false prophets who cried, peace, when there was no peace.
