OTTAWA LETTER.

A Liberal M. P. Keenly Criticizes the Militia Management.

Says the Skeleton System is Not a Success in the Rural Districts.

Why Was Lord Dundonald's Annual Report Suppressed by the Minister? Leader of the Opposition Has Only Good Words for the Commander-in-Chief.

OTTAWA, July 2.—The feeling prevailing in the country that the Canadian militia force has been improving during the last few years will be discouraged by the statements made by Col. Thompson, the liberal member for Hamilton, and Monk, in a speech in the commons on militia matters.

Another regrettable feature noticeable about militia camps in Ontario this year, was the extreme ages of the men serving.

But apart from the willingness of the government to meet the wishes of Col. Thompson and those who support it, there is a very serious question before the public.

BOY'S HARD LUCK.

A Twelve Year Old Nova Scotia Lad's Experience.

Says Conductor Took His Ticket When Near St. John—Rode Into Bangor on a Freight.

George Stevens, aged 12, but well able to look out for himself, had a rather hard luck story to tell to the sympathizing crowd at the meeting held on Sunday afternoon.

"I started Thursday morning to go to Brookfield to take the train there, and I had bought a half rate ticket with a class ticket with the \$5.00 which my father sent me.

"From St. John, the boy started to walk. He had no money and was carrying a satchel containing his ticket and a few articles.

Sunday afternoon the boy reported to the police and they promised to help him. Monday morning he was on the boat he was going to Boston on the boat if he could get money enough.

MAY APPEAL TO EUROPE.

To Secure Protection For American Colored People.

SPRINGFIELD, O., July 3.—At a meeting of the National Anti-Slavery and Lynch Law Association just held here it was decided to petition congress and the president for some legislation "for the protection of the negroes of the country from the lynching and slave drivers. If the rulers of the United States fail to remedy the evils which exist, then we will appeal to the Christian nations of Europe."

MT. ALLISON MAN.

S. S. Taylor, a Graduate of the Sackville University, Nominated as Liberal Candidate.

The Nelson, B. C. News, of June 20, says: "If there were any doubt about the unanimity of the liberal party in this city, last night's meeting dispelled them. The gathering was a large and thoroughly representative one, and the hearty and unanimous manner in which it unanimously endorsed the liberal candidate recommended by the committee of twenty must have been gratifying to Mr. Taylor. The meeting demonstrated that the liberal candidate can count upon the solid and enthusiastic support of the party, and he enters the contest with every prospect of successfully redeeming this constituency for the liberal cause. Sydney Stockton Taylor, K. C., was born in Havelock, New Brunswick, in 1855, and was brought up in Sussex, New Brunswick, where his parents, the late Mr. and Mrs. W. H. Taylor, were engaged in the business of a law office in the office of his uncle, C. A. Stockton, at St. John, N. B. After finishing his profession for a year in New Brunswick, he came west, and in April, 1889, opened a law office at Edmonton, Alberta. In 1897 he moved to Nelson, where he has since resided. He was called to the bar of this province in October, 1892, and in March, 1893, was called in the 28th of December, 1893. During his residence in this city, Mr. Taylor has always taken an active part in public affairs, and has done his share in advocating whatever he believed was in the best interests of the community."

JOHN WALSH ARRESTED.

A capture was made by the north end police yesterday afternoon which may result in the return to Dorchester penitentiary of John Walsh, a man who was tried in this city in 1897 for the murder of John Meehan on Douglas avenue, found guilty of manslaughter and sentenced to seven years imprisonment. This occurrence happened in a field off Douglas avenue on the night of October 5th, 1897. Meehan was struck on the head by a stone thrown by Walsh. Meehan was taken to the hospital and died the following day. The trial took place before Mr. Justice Mead. After serving five years in the penitentiary, Walsh was released on a ticket of leave, getting out on March 18th, 1892.

Walsh's conduct has not been what it should have been, according to the conditions of his release. To begin with, he was supposed to report to the authorities at certain times. This Walsh failed to do. In March, 1897, Chief of Police Clark reported to Ottawa this failure on the part of Walsh. On several occasions Walsh was reported for having assaulted people in the city and other places. He was charged against him. But Walsh was to be found in the city when the police sought him.

Walsh was arrested yesterday afternoon near the Murray & Gregory mill property on a warrant for assaulting a Mr. Moore on March 28th last. He is also charged with the fatal shooting of a man named John Meehan, who was killed by Walsh near the Murray & Gregory mill property on a warrant for assaulting a Mr. Moore on March 28th last. He is also charged with the fatal shooting of a man named John Meehan, who was killed by Walsh near the Murray & Gregory mill property on a warrant for assaulting a Mr. Moore on March 28th last.

CLEANING.

House is one of the duties which a weak woman looks forward to with dread. As a rule, she knows that she must pay for the over-strain with days or weeks of womanly suffering.

Dr. Pierce's Favorite Prescription makes a weak woman strong and healthy. It cures the womanly diseases which undermine the general health, dries, weakens, drains, bleeds, inflames, and causes ulceration, and cures female weakness.

Favorite Prescription has the testimony of thousands of women who have obtained complete cure of womanly diseases. Do not accept an unknown and unapproved substitute in its place.

THE SEMI-WEEKLY SUN.

ST. JOHN, N. B., JULY 11, 1903.

A STATE OF DEMORALIZATION.

The view expressed by this journal that the ministers and their supporters were having their own troubles over the railway question is confirmed by the St. John Globe. The editor of the Globe is a member of the Canadian senate, and as a former member of the commons is in close touch with his party in both chambers.

MR. NEILSON.

General regret will be felt over the departure of Manager Neilson of the St. John Street Railway Company. There is a popular and probably correct impression that the somewhat progressive policy of the manager, who is not the fault of the local company would doubtless have exhibited much greater enterprise if the powers behind him had given authority. It is a tribute to Mr. Neilson's capacity that he has been selected for such an important and responsible position as that to which he has been called, a position which almost any man in his profession in Canada would have been glad to have offered him.

TOO LATE TO WITHDRAW.

The caucus of government supporters in the house of commons seems to have strongly criticized the proposal to vote \$500,000 to the Chignecto Ship Railway bondholders. It is said that the proposition may now be withdrawn. There is no doubt that the representative of the investors reached the agreement with the government that this amount should be paid. The agreement has been made public all over Canada and Great Britain. English financial papers have made it known to their readers, and all the parties interested have assumed that the matter is settled. It would produce a singular impression in financial circles if the arrangement should now be repudiated.

THE GOLD HUNTERS.

There is a great rush to Poplar Creek and other streams in the Lardo district of the Kootenay county. Rich prospects have been discovered there and at last accounts miners were flocking in from Kaslo and other Kootenay Lake points. At the end of June it was estimated that over one thousand men were camped about the creeks. The district is quite easily reached by rail or boat and the Canadian Pacific is improving both services with all possible rapidity.—St. John Star.

DUTY OR BOUNTY.

A few months ago at Yarmouth Mr. Fielding emphatically declared that the iron and steel bounties would be gradually brought to an end in the time and manner specified by the act now on the statute book. Still later the finance minister, his leader and some of their associates have made brave speeches, leaving the impression that no influence from the protected interests would move them from their determination.

LEGISLATORS AS PROMOTERS.

A bill to incorporate the Canadian Telephone and Telegraph Company is now before the railway committee at Ottawa. Among the incorporators mentioned in the preamble are Messrs. McCormick Culbert, Pope, McCreary

and Fowler, members of parliament. Making notice of this fact Mr. Blair said that it was getting very common now for the names of members of parliament to appear on bills which come before the committee. He went on to say that it was necessary for some one to call attention to it, and he would like to see members abstain from allowing their names to be used in this way, as it hampered their friends and colleagues in dealing with the bill.

Mr. Blair was certainly a little unfortunate in selecting a telephone charter bill as the one on which to raise the question of members taking a financial interest in companies seeking powers from parliament. It was only the other day that a railway bill was before the committee with the names of members of parliament as incorporators. Whether their names appeared or not it is a well known fact that some members are nearly every day indirectly or indirectly in public possession that it is sought from parliament or granted by ministers.

Mr. Blair held his interest and his office in the company before he went to Ottawa. But he was then in the local house, leader of the legislature, when the bill was introduced, when the company in which he holds a large and profitable an interest secured its privileges and concessions. If Mr. Blair when in control of the legislature could make this use of his position he might be expected to refrain from criticising a private member among two hundred colleagues at Ottawa because he is a shareholder in a company which seeks incorporation.

At all events the company might have been withheld until it could be directed against the promoters of a measure in the defeat of which his own corporations would have had an interest. In any case the rebuke might have come more appropriately from another source, for with one doubtful exception there is no member of the Laurier cabinet who has made more use of his official position to benefit himself, his family connections, and his personal associates, than Mr. Blair.

BINDER TWINE BOUNTY.

It is proposed by the government to pay a bounty for the manufacture of binder twine in Canada. The bounty is to equal the export duty collected by the United States on Manila hemp brought into this country. It is of course, generally understood that the Manila hemp used in the manufacture of binder twine comes from the Philippine Islands. Fortunately an export duty collected on this manilla, levied on all alike, without regard to the country of destination. But under the United States regime the system was changed. While the export duties are still imposed on manilla intended for manufacture in Canada, the fibre which is to be manufactured in the United States goes out of the country free of duty. That gives the United States manufacturer of binder twine a great advantage over all other countries.

The situation in Canada is further affected by the circumstance that the present government made binder twine free. The late government had in 1894 placed the duty at 12 1/2 per cent, which is less than a revenue tariff, and yet was sufficient to preserve the binder twine industry for Canada. As a supreme act of foolishness, Mr. Fielding swept away the duty, and thus closed most of the factories in Canada. The industry ought to have been greatly increased, for an enormous demand for the goods, in 1902 no less than \$1,500,000 was sent to the United States to pay for binder twine for Canadian farmers, while our own factories were standing idle, and the United States were discriminating against us on the export duties, and at the same time levying a prohibitive tariff on imported twine.

This bounty is a mere trifling matter. The thing to do is to impose a stiff protective tariff on binding twine. St. John has attained to general recognition as a winter port for through export and import business. In time it will be found to have considerable advantages for the summer export trade from the west. A large shipment of cattle is about to be made by the Donaldson line from St. John under conditions which are likely to occur frequently in the future.—St. John Star.

THE GLORIOUS TWELFTH.

The Anniversary Will Be Finely Celebrated by St. John Orangemen Sunday and Monday.

The Orangemen of St. John will under the banner of the St. John district lodge attend service at St. David's church Sunday morning. Rev. Dr. Morrison will be the preacher. The Prentice Boys will turn out with them. The Artillery band will lead the procession in the afternoon.

FAIRVILLE NOTES.

July 9.—T. H. Wilson has returned home after a very pleasant trip as far as Calgary. He seems to be better in health than when he last journeyed. A source of enjoyment.

George Johnson of Milford, who had his hand so badly lacerated in the box mill a short time ago, is improving and will soon be able to resume work. He has lost his thumb to the second joint, besides some terrible gashes in the hand. It is, fortunately, the left hand, and he will be able to use his right hand in his work.

The new sidewalk from Pleasant Point through Milford to the corner of the road leading to Randolph, is completed, and is an excellent piece of work.

John Linton, who was taken suddenly ill on the street a few days ago, is again. It is thought that heart trouble was the cause of his illness.

Rev. W. C. Mathews, the newly appointed pastor of Zion's street church here on Sunday morning next. Mr. Mathews has removed away from Fairville, and the church is without a sexton.

DIVORCE CASE SETTLED.

The divorce case of Hon. George W. White of Carleton county against his wife, formerly Miss Fanny Mason of St. John, is now settled.

It is understood that a private settlement has been reached by which Mrs. White will be paid a sum of \$10,000 and the couple will live apart. The private settlement will prevent an airing of the domestic affairs of the couple. Miss Mason, it is reported, is to be paid \$5,000 for her share of the property on Charlotte street, and for her share of the property on the corner of St. John and Water streets, which she was to have had for her share of the property on the corner of St. John and Water streets, which she was to have had for her share of the property on the corner of St. John and Water streets.

Mr. White followed this suit with one for divorce from his wife, requesting the right to marry again. He then brought a claim for divorce on the ground of adultery. In his plea, Mr. White alleged that he had been induced to sign deeds giving to Mrs. White's son all her husband's property, and that she was giving him only one piece which he was to have for a home. The object of her suit was to establish her right of dower in the property transferred.

DIGBY NEWS.

DIGBY, July 8.—Douglas Daley, manager of the electric light plant here, was yesterday with his wife and young daughter having an outing at the Digby house, John O'Connor, proprietor. Just as they were leaving for home, Mrs. Daley having the reins, she stepped into a rut, and the horse and carriage were thrown overboard.

FOR SYSTEMIC CATARRH

Peculiar to Summer Pe-ru-na Gives Prompt and Permanent Relief.

C. S. Rhoads, Indianapolis, Ind., writes: For the past two years I have hardly known what it was to have a sweet, restful night's sleep. Cares and overwork seemed to weigh me down more than it should or would had I been able to get my proper rest. My feet were unable to help me and ordered me South for a complete rest and change. As this was simply out of the question, and as I had heard several of the men under me speak of how much Peruna had helped them, I decided to try it and am glad indeed that I did. Six bottles made a new man of me. I eat well, sleep well and get up feeling refreshed and rested.

"My official duties are not half so hard and I certainly have good reasons for heartily endorsing Peruna."—C. S. Rhoads.

as I can safely testify. I have not felt so well in five years, having walked over one mile without ill results, and have also gained three pounds since commencing to take Per-na. In fact, I cannot praise it too highly."—Mrs. Amanda Morrill.

IRON MAGNETS

Not Satisfied With Hon. Mr. Fielding's Bounty Announcement.

MONTREAL, July 8.—To those interested in the iron business, Mr. Fielding's bounty announcement proved a sore disappointment. Speaking on behalf of the Canadian manufacturers' association, George E. Drummond, who is heavily interested in the iron business, said that the bounty offered was of assistance to iron manufacturers as a temporary arrangement, but it was hardly to be expected that capitalists would invest heavily in costly steel plants when the assurance offered was merely of a temporary character. The government's action would relieve the situation at Sydney, but it would do little else. What the iron men want is protective duties which will assure them the Canadian iron market for years to come. With this protection they could speedily make Canada independent of other nations as far as the iron business is concerned. In his opinion a full revision of the tariff was necessary at an early date. This expression fully indicates general opinion as evidenced by the course of the iron stocks on the stock market today.

DOMINION STEEL COMMON, closed last night at 20 1/2. The market opened today at 20, falling off to 16 3/4, while preferred closed last night at 38 and sold down today to 36 1/2. Bonds were firm. Dominion Coal went off from 106 1/2 to 103 1/2. N. S. Steel was down from 97 3/4 to 95. Sales were not heavy.

PARLIAMENT.

OTTAWA, July 6.—In the house of commons today private bills occupied considerable time. The Century Life Insurance Co.'s bill to reduce the amount of capital which must be paid in before the company can commence business, from 25 to 10 per cent, was held up for investigation.

When the Quebec, New Brunswick and Nova Scotia railway bill came up John Costigan asked to have it sent back to the railway committee in order to give the promoters a chance to define their route. He complained that the line as proposed would interfere with the rights of the Quebec and New Brunswick railway, now under contract to construct a line through the same territory.

Logan, of Cumberland, who is in charge of the bill, declined to consent to allow it to go back. The line would connect the MacKenzie and Main systems at Quebec, with a winter port at Country Harbor, and thus give them shipping facilities winter and summer.

Prater contended that if the Grand Trunk Pacific were to be given the charter to run east, other transcontinental roads should also be given a chance. Blair's railway commission bill was next considered. A number of amendments were offered by the minister, one of which proposed to only prevent the railway from having a station on the streets of any municipality.

It was held by the opposition that the section of the bill which would allow the railway to take over any street, extra, and will not interfere with those regularly held in the winter months. Blair disclaimed any intention of interfering with municipal rights and refused to change the clause.

After dinner Mr. Barker opened up the discussion by stating that Blair's bill had no more right to assume control of city streets than it had to exercise supervision over the canals in Manitoba, if they existed.

The minister of railways admitted that it would be unfair to take any powers from the municipalities. He suggested to compel all tramways to go to the provincial legislatures for charters.

Hon. Mr. Prefontaine gave notice of two resolutions, one to provide for the abolition of steamship inspection fees and dues for the better regulation of yachts propelled by gas fuel, and another to amend the act relating to certificates to masters and mates of ships by providing for a new certificate called the "Home trade certificate."

HELPING FARMERS' WIVES.

Three Hundred Domestic Science Meetings Begun in Ontario.

A gigantic propaganda to improve the methods of housekeeping, sanitation, dairying, etc., on the farms of Ontario, has been undertaken on a large scale, and the success of the women's institutes has encouraged Superintendent Creelman to extend the field.

This is the first time this work has been undertaken in Ontario on a large scale, but the success of the women's institutes has encouraged Superintendent Creelman to extend the field.
