WIDSHIPMAN JACKSON THOUGHT TO HAVE FOLLOWED WOMAN TO CANADA. NEW YORK, Aug. 5.—The Tribune says: D. N. Jackson, father of the missing midshipman of the battleship Missouri, left the city last night for Montreal. Mr. Jackson decided to go there, and it is said did so on the train, and it is said that he traced his son to that city. It was learned that the police got a letter addressed to the woman in whose company young Jackson was last seen here, sent from Montreal. The woman says she received a letter from Jackson dated Montreal. Mr. Jackson was informed of this late in the afternoon and started at once for Montreal.

WOLVES PROWL RIPTON STREETS. RUTLAND, Vt., Aug. 7.—The two wolves, the first seen in the state in more than half a century, which attacked Edward Harrington at Rippon July 25, have since made their appearance at several places on the outskirts of the woods, and, although they are becoming exceedingly obnoxious, no hunter has been sharp enough to kill them. Visits from the animals in other parts of the country lead to the belief that the pack has been augmented since first seen.

ONE OF THE FATHERS.

The statistical year-book of Canada received last week, gives the names and dates of births of five surviving "Fathers of Confederation."

It is not wrong to speak of the Newfoundland statesman as a father of Confederation even though the colony which he represented never joined the union, and Sir Ambrose himself never became a Canadian.

Suppose Russia should decide that Vladivostok cannot be held. She might withdraw from there all that is movable and destroy the rest. It is possible that she would do this.

Mr. Balfour is always described as a man of singular imperturbability. He won his first wreath of fame when as chief secretary for Ireland he refused to be disturbed by the methods of controversy and of obstruction then prevalent in the Nationalist ranks.

POLITICAL SPECULATIONS.

The New Freeman, whose political writer often makes a happy forecast of appointments, is informed that O. J. Le Blanc, M. P. for Kent, will be called to the senate. It is known to the New Freeman that the senatorship was guaranteed to Mr. Costigan before the last general election, but it is intimated that the legislation providing a pension for former cabinet ministers will be regarded as a satisfactory equivalent.

THE MEETING AT PORTSMOUTH.

There is no certainty that any treaty of Portsmouth will have a place in history. Whatever may be the powers of the plenipotentiaries as set forth in their commissions, they could not be invested with the full authority that their titles would imply.

No less completely will the hands of the Russian envoys be tied. The limits of submission and concession are determined on the Neva. What these limits are will probably not be known for some days.

Lord Strathcona celebrated his eighty-fifth birthday last week. England is a country where old men take their full share in public activities, but even there the high commissioner is a veteran.

ACETYLENE EXPLOSION.

Two Buildings Were Wrecked and Many People Injured, Some Dangerously, in Caledonia, Ont., Saturday Evening.

CALEDONIA, Ont., Aug. 6.—At 8.00 Saturday evening a heavy explosion occurred in the bakery of A. E. Jones. The entire front of the building, also that of Geo. E. Culp's jewelry store immediately adjoining, were blown into the street. The Bell telephone office was located within the former shop, and it was known that a large number of people had been within at the time of the explosion.

Contrary to the usual event, no fire followed and the work of rescuing those within the wrecked buildings had to be done in darkness or by lanterns. Twenty-two people were taken out in an incredibly short time by ready volunteers assisted by members of the fire brigade.

Nearly all of them required immediate medical aid. Several are so severely injured that at present their recovery is doubtful. The most severely injured are A. E. Jones, proprietor of the bakery; Geo. Murray, Caledonia; Gerard Delacherois, surgeon, Toronto; Theo. Draper, clerk in the bakery. The remainder escape with sprains, bruises from falling debris and cuts from flying glass. Delacherois was taken to the Hamilton hospital.

The remainder are being taken care of in their homes by local doctors. Both stores are completely wrecked. The cause of the explosion is supposed to have been a leak in the pipe leading from an acetylene gas machine in the cellar of the bakery.

With the help of the diver the body should soon be recovered, as no doubt everything within a mile is being done by the men at the lake to recover the remains.

Yesterday morning the central in the telephone office at Edmondston was taken up, and in reply to a question as to whether any of the circumstances, said that even yet they had heard but few of the details in Edmondston.

THE I. G. R. FIREMAN KILLED. Was Sleeping Beside the Track and Started by Noise Jumped Up as a Train Was Passing.

MONKTON, N. B., Aug. 7.—The Maritime express coming down this morning killed a man named Harriman, who was lying asleep alongside the track.

The engine passed without striking him but the noise of the train appeared to have partially aroused him and he rolled over and was struck by the baggage car.

Harriman was a fireman on a working train but how he came to be asleep on the track is not explained.

THE I. G. R. FIREMAN KILLED. Was Sleeping Beside the Track and Started by Noise Jumped Up as a Train Was Passing.

MONKTON, N. B., Aug. 7.—The Maritime express coming down this morning killed a man named Harriman, who was lying asleep alongside the track.

The engine passed without striking him but the noise of the train appeared to have partially aroused him and he rolled over and was struck by the baggage car.

Harriman was a fireman on a working train but how he came to be asleep on the track is not explained.

CITY NEWS.

Recent Events in and Around St. John.

Robert Baker, said to have been held up near the Suspension Bridge on Thursday, is not in the employ of Mr. Stout, grocer, of Fairville.

The burial permits issued during last week numbered eight, as follows: Pneumonia, 1; heart disease, 2; cholera infantum, 1; phthisis, 2; diarrhoea, 1; old age, 1.

Baker's mill closed on Saturday for the remainder of the season. This move will effect Fairville to a considerable extent, as many of its residents are employed in the mill. There are between 200 and 225 names on the payroll and \$3,000 is disbursed in wages each fortnight.

LITTLE ACHES never grow to be big ones if they are promptly treated with Fenger's Peppermint Cure. A good thing to remember in the season of diarrhoea, cholera morbus and other bowel complaints that come with summer.

At a meeting of Mount Purple, L. O. L., at Lorneville, last evening, the following officers were elected and installed by E. G. M. David: High Priest, Albert Wilson, W. M.; John D. M. M., M. W.; Walter Wilson, Chap.; George McAllister, Sec.; William F. Galbraith, Ph. Sec.; Robert Baird, Treas.; J. P. Evers, D. of C.; Milford McAllister, Reporter; William Ewart, R. J. McKee, John O. Stenston, managing committee; P. M., George Stenston.

The Butte, Montana, Mirror reports the recent marriage of a former New Brunswicker. Describing the event it says: The Church of the Immaculate Conception, Seattle, was the scene of a very pretty wedding, when J. Harold Joyce, one of Butte's most promising and popular young men and grandson of the late John Price, of Woodstock, New Brunswick, was united in marriage to Mary Agnes Galiger by the Rev. Father Dethor, S. J., with nuptial high mass and full choir.

Evidence is multiplying rapidly as to failure of this legislation to meet the requirements of the people. A correspondent at Keswick Ridge, York county, writes:

"The highway act is most distasteful to the people of all shades of politics. It not only is harder on their pockets but the roads are not in half as good repair as they were by statute labor. From what I hear the same condition applies in most parts of the province. It is a most odious and noxious act, and it looks as if there must be a change soon."

DEATH AT NORTON.

HAMPTON, Kings Co., Aug. 7.—The death occurred yesterday morning, shortly after midnight, at her home in Central Norton, of Mrs. Betty S. Fairweather, beloved wife of Leonard B. Fairweather, at the early age of twenty-seven years. Mrs. Fairweather was the daughter of Mr. and Mrs. Thomas F. Seely, of Lower Norton. She was married to Mr. Leonard B. Fairweather on Tuesday afternoon, the 9th inst., at the residence of the bride's parents, Rupert street. Mrs. Fairweather, Miss and Master Ralph Sterne, have left to spend two weeks at "Brookside," Fairboro.

AMHERST, N. S., Aug. 7.—Invitations are out for the marriage of Miss Grace, youngest daughter of Rev. Dr. Steel, to Aubrey G. Robb, of the Robb Engineering Co., which happy event is to take place on Wednesday, the 9th inst., at the residence of the bride's parents, Rupert street. Mrs. Sterne, Miss and Master Ralph Sterne, have left to spend two weeks at "Brookside," Fairboro.

\$10,000 MONTREAL FIRE; ITS PECULIAR ORIGIN.

MONTREAL, Aug. 7.—Kearney Brothers' wholesale tea warehouse at 14 St. Peters street, was damaged by fire early this morning. The injury to the building was not great, but so much water was poured into the place that it is feared the loss to stock will run close to \$10,000. The warehouse is across the street from the Starke hardware store, and fire is believed to have started from a wire cable which caught fire in the Starke building and smouldered until it reached the Kearney premises.

WARDING OFF OLD AGE.

A famous French general when asked how it was that he had such an erect carriage replied that it was because he bent over and touched the floor with his fingers thirty times every day. If he had acquired rigidity of the spine so that he could not do that he would have had with it weak abdominal muscles, which result in portal congestion. This congestion interferes with stomach digestion and with the action of the liver. The poison destroying power of the liver is lessened, auto-intoxication results and arteriosclerosis and old age come on at a much earlier day. But by keeping the spine flexible and the abdominal muscles strong and taut the portal circulation is kept free and old age is held off.—Good Health.

FATAL DEFECT.

"His new book is doomed to failure." "Looking in plot?" "No, but the hero is not named Jack."

A CHANGE TO SMILE.

There is a young lady in Yorkshire named P. who is six feet five inches high. People say there are women above price.

The woman who said the latest thing out was her husband, was answered by her neighbor, who said that her husband always came home early—before any one was up.

A girl at Osage, Iowa, whose ears are grown up, has no method of hearing except through her mouth. When young man is talking, she keeps saying "Yes," for fear he might, you know, propose to her and she not hear it.

A finely dressed lady slipped and fell, and the man who assisted her to her feet, inquired: "Did you break any bones, madam?" "No, I guess not," she replied; "but I am just as mad as if I had broken a dozen of them."

A daily paper advertises for girls for cooking, and a contemporary replies: "You will like them raw when you get accustomed to them."

Who can refrain from smiling at the story of the young lady who, after delivering a lecture in Springfield, the other evening on dress reform, went to sit down, and couldn't get within six inches of the chair?

If a woman could talk out of the two corners of her mouth at the same time, there would be a good deal to be said on both sides.

Olive Logan is about to lecture on "Nice Young Men," but before doing so has made arrangements to marry one of them. Wirt Sites is the victim, but fortunately for him he is hard of hearing.

A western exchange says Mishawaka girls take comfort in the fact that Naomi, daughter of Enoch, was 630 years old when she married.

There is no time when a woman so thoroughly commands the respect of a man as when she is about to throw a stone at a hen. Especially is this the case when she happens to be standing behind her, and is lame in one leg.

Wives are presumptuous creatures. They always ask for a lock of their lover's hair before marriage, and take it without asking afterward.

"My dear Julia," said one pretty girl to another, "can you make up your mind to marry that odious Mr. Snuff?" "Why, my dear Mary," replied Julia, "I believe I could take him at a pinch."

Mrs. Snidkins says her husband is a three-handed man—right hand, left hand, and a little behind hand.

The following toast was pronounced at a friend's dinner, and was received with great applause: "The ladies—their eyes kindle the only flame against which there is no insurance."

A good-natured spinster used to boast that she always had two good beaux—they were elbows.

SUSPECTED MURDER AT MONTREAL.

MONTREAL, Aug. 6.—As a result of the body of Dorion Mitchell, a middle-aged man, being found on Lake St. Louis on Saturday morning, Charles G. Ward, Mrs. Kernish and Mrs. Charles G. Ward, were arrested under arrest, charged with being concerned in his death. The four had been picnicking and it is said a quarrel ensued between Mitchell and Kernish, during which the latter was smashed over the head with a bottle and then thrown in the water. This the prisoners deny, saying Mitchell fell in the water, and that the bottle on the head were caused by his falling on rocks.

TRAIN HIT TROLLEY CAR.

CLEVELAND, Aug. 6.—The fast Pittsburg flyer, No. 560, on the Cleveland and Pittsburg R. R., crashed into an east-bound St. Clair street car at 9:30 o'clock tonight, killing a child instantly and fatally injuring six people, while fifteen others sustained injuries. The accident happened without a warning, as the conductor had just crossed the railroad tracks to see that the line was clear and had thrown a safety derailer switch to permit the car to pass.

WORK.

"Anyhow you can't deny that Hewitt is a self-sufficient man. He worked his way through college." "He certainly did. He worked nearly every student in the institution."

MECHANIC AND COFFEE

The old Coffee Troubles Left He Quit.

"Since quitting coffee I am hearty and well at 63 and go to my work every day and feel stronger and better in every respect than when I was considerably younger." "I am a mechanic and have been a great lover of coffee and used it all my life until a few months ago, when I made up my mind that it was hurting me. I suffered from constipation, indigestion and kidney troubles, and I used to boast up and have pains in my back." "Something had to be done, and I quit coffee, the old kind, I mean, and began to use Postum Coffee. In a few weeks I was a well man again. My bowels became regular, my food digested comfortably, the bloating and pains in my back no longer troubled me and my kidneys resumed healthy, normal action. That improved condition remained until I am sure I owe it to Postum Coffee, for I have used no medicines." "I like Postum much better than the old kind. It seems to be more satisfactory and I am sure my whole family drink it morning, noon and night. This is my honest statement of what Postum has done for me." Name given by Postum Co., Bath Creek, Mich.

BALFOUR AND HIS OPPOSITIONS.

Closing Speeches of an Animated Debate—Sharp Controversy as to Whether the Government Should Resign.

Following is the London Telegraph's report of the latter part of the spirited debate in the Imperial House of commons on Monday, July 24th:

Mr. Churchill said they were accused of taking for their motto as the antidote to the poison distilled by H. Vincent, but for once the two were in agreement. He had often wondered at the marvellous economy of nature in contriving to grow from a single stem the nettle and the dock. (Laughter.) The power given to Lord Salisbury had been assumed by another with whom the latter had had no dispute. (Laughter.) The prime minister, it was true, had made many sacrifices, but he had not sacrificed the principles of justice, dignity and respect for the right hon. gentleman had led the house with respect and affection from all quarters. (Laughter.) Whatever he might lead the house to do it would not be with the respect and affection of one side of the house. (Opposition cheers.) How had his followers responded to the magnanimity of the right hon. gentleman, the man taken for their motto as the antidote to the poison distilled by H. ## THE RADICAL CHANGES IN PICTURE-HATS

A New Picture Hat

### KEEPING THE CHILD NEAT, THOUGH COOL, ON HOT AFTERNOONS

Even on hot afternoons it's possible to dress the tots of the family in a way that is cool and good-looking.

Press-up Comfort

### Dainty Floral Mission Workers

It's doubly hard to be sick in hot weather, and a breath of the fields is like a tonic. Through the wards they go, giving a cheery word with each bunch.

Not enough to go around. There are not nearly enough to go around—there never has been—yet fields and gardens are full of waving blooms, and country and mountain resorts are blooming with young girls whose work it should be.

### THE SCIENTIFIC WAY TO PACK A TRAVELING BAG

SOMEbody says that it only takes a woman of ordinary intelligence to pack a trunk, but a genius to pack a bag. And, in fact, it is a pretty hard thing to do.

Get Everything Together Before You Begin

### SWIMMING SLEEVES FOR BEGINNERS

SWIMMING sleeves for beginners who need only confidence to help them finish learning how to swim, are a clever little contrivance.

For a Very Young Place

### CHEERY NEW LAMPS THAT DON'T LOOK WARM AND ARE NOT

THE most attractive lamp\* are to be had—kinds that just suit the character of country houses, or are pretty for sitting rooms and dens of town houses.

These new lamps are cheery without being warm-looking, and are made of stained glass brought together, not in the dull, rich effects of the water-blues and greens and reds, suggestive of Egyptian influence—but in as cheery colors as a Christmas party, red and green worked out in glowing flower patterns in art nouveau effects.

### Being Ready for Any Emergency

SOMEbody with a genius for reformation ought to come along and establish a training school with a course in getting ready—not for any particular thing, but just for the emergency that will crop out.

### Not Enough to Go Around

There are not nearly enough to go around—there never has been—yet fields and gardens are full of waving blooms, and country and mountain resorts are blooming with young girls whose work it should be.

### Close Strapping Prevents Cheating

Close strapping prevents cheating. Pack everything as tight as you can. If your bag has straps across the lower part, as well as the lid, draw them tightly and press everything together.

### The Most Compact Way to Carry Toilet Articles

The most compact way to carry toilet articles is in one of the attractive little cases that come for just such purposes. Bottles should be carried in another case that comes for just such purposes.

As a girl, you should be ready for any emergency. Being ready for any emergency is a must for every woman.

Education ought to be the means of developing powers of doing—if it isn't, it's practically worthless. Algebra is useless, as considered by itself; yet a clever woman asserts that she trained her mind to grasp the methods of managing a home by the training of algebra.

The trouble with most of us is that we learn our lessons like parrots, without understanding their application. The few exceptions who take each lesson as a step toward wider knowledge, are the men and women who are always ready when emergencies rise.

HALF A MILLION FIRE IN NEW YORK Water Front was Lighted For Miles.

Blazing Ferry Boats Floated Into the River—Fire Under Control Early This Morning.

NEW YORK, Aug. 8.—Inside of three-quarters of an hour late last night, fire swept away the Delaware, Lackawanna and Western R. R. Co.'s terminal in Hoboken, seized upon two ferry boats and practically ridded the water front for half an hour threatened a conflagration of the entire waterfront in the vicinity, including the big Hamburg-American and North German Lloyd steamship docks at which several big ships were lying. The property damage is estimated at from \$400,000 to \$500,000. So far as is known no lives were lost.

EPIDEMIC OF CEREBRO SPINAL MENINGITIS.

Five Deaths Have Occurred, All of the Victims Being Boys.

HALIFAX, Aug. 7.—There is an epidemic of cerebro spinal meningitis in Lunenburg county. It appeared in the town some time ago, and now it is prevalent in Bridgewater and vicinity. So far there have been five deaths from the disease. All the victims have been boys. It is children who are attacked, except in two cases, one a youth about fifteen and the other a man of about 35 years. The children who have died are two sons of Capt. B. E. Manning, a son of Michael Griffin, a son of Dr. Stewart Nova today a son of P. W. Clark. All the deaths have occurred within a very short time after the moment the disease appeared. The local board of health has ordered a quarantine of infected places, and the Sunday schools have been closed.

NOVA SCOTIA'S FRUIT CROP IS A FAILURE.

Yield Will Not Be More Than One Third of the Average—Frost is the Cause.

HALIFAX, N. S., Aug. 7.—A careful examination of the Nova Scotia apple bearing districts by men interested in the transportation of the fruit has just been completed. As a result of their work they announce that the crop this year, which should be 600,000 barrels to be up to the mark, will not be more than 200,000, or possibly will reach only 200,000 barrels. The shortage they report will be chiefly in the late winter varieties, though Gravenstein and Ribston also will be light. Nova Scotia fruit and its chief export market in London. Early in the season there was a very heavy frost, which badly injured the blossoms.

WORKMAN KILLED; ANOTHER WILL DIE.

BUFFALO, N. Y., Aug. 7.—A gang of men unloading steel girders from a flat car at the Buffalo Structural Company's yards, were caught beneath an immense girder, which slipped from the car this afternoon. Michael Grace was killed and Joseph Stein so badly crushed that he will die. The others escaped with slight bruises.

RESULTS OF RECENT NORMAL SCHOOL ENTRANCE EXAMS

It is believed she was the Peary steamer Roosevelt. The three-masted schooner Ann Locke is anchored in the harbor. The West India liner Oruro is expected to arrive at this port this evening.

YELLOW FEVER IN NEW YORK.

One Death and Nineteen Suspects—Eight Deaths and 28 New Cases at New Orleans. NEW ORLEANS, Aug. 6.—Yellow fever report up to 8 o'clock p. m.: New cases today, 23; total cases to date, 533. Deaths today, 3; total deaths to date, 105. Today's report is interpreted by the authorities here as encouraging, particularly as there were only two new sub-foci, one up town and one down town. It is estimated there are now 233 cases in the city. The marine hospital service has not yet assumed control of the situation, but it is expected to do so tomorrow. The condition precedent to their assumption of the duty is that the citizens of New Orleans pledge themselves to put up \$250,000 to defray the cost of labor and material, has been met and Surgeon White in his momentary expectation of receiving the formal order from Surgeon General Wyman to take charge.

NEW YORK, Aug. 6.—One man died of yellow fever at New York detention hospital at Quarantine today, making the total number of deaths discovered on ships entering New York this summer and the second death. There are at quarantine nineteen other persons who were taken off ships because of the fever, and the number to the degree fixed for yellow fever suspects used in examining the ships which enter New York. Only two of these persons are from New Orleans. Deaths of the others are from the Panama district.

FATHER SAVAGE'S SUCCESSOR

Rev. Joseph McDermott of This City Appointed Pastor of the Catholic Church at Sussex. The New Freeman announces the appointment of Rev. Joseph McDermott of this city to succeed Rev. Father Savage, recently appointed to the vacancy in Moncton created by the lamentable death of Rev. Father Meahan. Father Meley, for Sussex, says the Freeman is a native of this city, is a son of John McDermott, of Middle street, and was educated at St. Malachi's school here, and at the University of St. Joseph's, in Quebec, having been examined in the Grand Seminary of Laval University, Quebec, and was ordained at the Cathedral of the Immaculate Conception here in June, 1896. He was sent immediately to Peterborough to assist the late Rev. Patrick Farrell. On Father Farrell's death in January, 1903, Father McDermott was appointed pastor of the parish of St. Joseph's, Ormectio, Fredericton Junction, Gasquetown and the Nerepis. That appointment was the last official act of the late late Bishop Sweeney. Since that time Father McDermott has been an efficient and zealous worker in this part of the Lord's vineyard.

ARRESTED FOR MURDER OF DROIT JEWELLER.

DETROIT, Mich., Aug. 6.—Supt. of Police Downey today received a telegram from Chief Kohler of the Cleveland police department, notifying him that Harry Parker and Harry Johnson were arrested there today, suspected of the murder of Fawn Broker Joseph Meyer, of this city, July 28. Chief Kohler's telegram said that the Cleveland officers have recovered several thousand dollars' worth of jewelry that was stolen from Meyer's shop. Meyer was murdered in the most brutal fashion about 6 o'clock in the evening while alone in his store. His skull was battered to pieces.

THE PILGRIM'S PROGRESS

ROME, Aug. 5.—The American Catholic pilgrimage, which has been in Rome since August 28, left for Florence today. After a short stay in Florence the pilgrimage will go to Switzerland, after a tour of which they will leave for home. The pilgrimage numbers one hundred persons.

THE FLOATING POOL ROOM LEAVES CHICAGO.

CHICAGO, Aug. 5.—The steamer City of Traverse, the "floating pool shop," which on Thursday and yesterday boated the police, cleared for Kenosha last night. It is the generally accepted opinion of the police that no further effort will be made to use Chicago as a base for the operations for the boat, and that she will prefer to leave for Kenosha to receive wireless messages on racing results.

CHINESE BOYCOTT STARTED AT YOKOHAMA.

YOKOHAMA, Aug. 5.—The boycott against America has started here, the Chinese refusing to handle freight on the Pacific mail steamer Manchuria for Hong Kong. The Chinese will hold a meeting tomorrow to organize the movement.

PRINTING BUREAU EMPLOYEES KICKING.

OTTAWA, Aug. 6.—Edward Ogara, son of the late Police Magistrate Ogara of Ottawa, was ordained a priest here this morning by Archbishop Duhamel. He will be stationed in this diocese. Complaint is being made by employees of the printing bureau with regard to the observance of the civil holiday tomorrow. Hitherto it has been the custom for this to be recognized as a holiday in the government departments. This year, however, it has been decided to close the offices and give the holiday, but as far as the printing bureau is concerned they will not be paid for the day. The men regard this discrimination as unfair, contending that under the agreement made last year, they should get the same holidays as the other departments and be paid for them. The employees are very much disappointed at the treatment they are receiving.

MARRIED AT SALISBURY.

MONCTON, N. B., Aug. 6.—rev. Arthur Hawkins of Halifax, was married in the Methodist church at Salisbury on Friday to Miss Lillian, daughter of the Rev. John Howie, pastor of the Salisbury Methodist church. The church was beautifully decorated for the occasion. The ceremony was performed by the bride's father, assisted by his brother, Rev. John Howie. After the wedding the bride and groom were spending some time in Halifax. Mr. and Mrs. Hawkins leave for their field of labor in Bermuda.

DEFICIT WILL BE LARGE.

SYDNEY, C. B., Aug. 6.—It is thought last week's carnival will show a deficit of several hundred dollars. The committee went to a very heavy expense in connection with the affair and the inclemency of the weather prevented larger gate receipts.

ST. MARTIN'S MAN APPOINTED.

KINGSTON, Aug. 6.—The Bishop of Ontario has appointed Rev. Alfred Baramah of the parish of St. Martin, N. B., to the parish of Augusta to take charge October first.

MARRIAGE OF MISS ASHLEY VAVASOUR TO DOUGLAS BLACK—NEW ORGAN FOR CATHEDRAL.

FREDERICTON, Aug. 6.—A number of removals in some of Fredericton's leading business houses, it is reported, will take place at an early date for a number of years, further up Queen street to the Veness store. The premises which contained the shops of Messrs. Blackner and Jennings have been purchased by McMurray & Co., who, after making thorough repairs, will transfer their stock to this building. It is further said that G. T. Whelpley will at no distant date move to the store occupied by Oak Hall, while the latter will take up business in the premises vacated by McMurray & Co.

PROFITKIN ON THE REVOLUTION.

Prince Kropotkin, whose book, "Russian Literature," shows how prevalent socialist and democratic tendencies have been amongst Russian writers, is himself both an author of opinion and a democrat in exile. In a recent letter on the present condition in Russia, he complains that there are "so many nurses and dummies among the people, so many clanking, don't do this, and don't do that," and that he has to "work by force." "But few," he remarks, "dare to say, as Danton said, 'Have the courage—the courage to do and to act—the courage to think and to act.'" And Kropotkin concludes eloquently: "And it is necessary that the few should encourage the mighty of the people to think and to act mightily. It is necessary that the few should encourage the people in all their struggles and plans, and give them hope in revolutionary destruction of the old and the responsibility of the new forms of life."

BIRTHS.
