

NEW YORK CITY HAD COLDEST DAY OF WINTER

Extreme and Severe Cold Responsible for Several Deaths and An Explosion.

CITY SHIVERED AND SUFFERED

Shipping Circles Had Their Worries and Cutters Were on the Alert.

New York, Feb. 17.—The coldest day of the winter in this section to-night was held responsible for several deaths, an explosion and temporary crippling of one of New York's subways besides a host of minor mishaps.

The deaths occurred in Landing, N. Y., when the dynamite block house of the Atlas Power Works blew up. Plant officials pointed out that it was the third explosion to occur in February in the last three years and expressed belief that the extreme cold should be held accountable.

Another death was that of Charles Reed, seventy, of West Wood, N. J., who collapsed when he met with the wind on a street in Lower Manhattan. Falling, he struck his head and died before an ambulance could be summoned.

SHIVERED AND SUFFERED

With the mercury two degrees below zero in this city, and as much as 10 below in the Adirondacks, block signals in one of the tubes, connecting Manhattan and Brooklyn, failed, and all signals along red. Obeying rules, no motorcars would pass a danger signal without first walking ahead of his train to investigate.

All through the night and until noon the city shivered and suffered. Firemen hauling streams that turned to ice as they fixed them, themselves turned into icicles. The unemployed flocked to municipal lodging houses but departed eagerly in the cold dawn when it was announced that snow shovelling jobs awaited them. Steam whistles, shipping circles had their worries and coast guard cutters dashed out from port to seek vessels which, it was feared, might have met with mishap in the fierce gale that swept the coast last night. The cutter Grehan left to search for the steamer Narbo which, after having started for Russia with a cargo of furs, was reported in distress off Cape Penelop. Later she was released and was not in serious condition.

UNIFORMITY WANTED IN DAYLIGHT SAVING

Railway Association Asks Towns and Cities Adopting Daylight to Consider Time Schedules.

Montreal, Feb. 17.—To those cities and towns which intend to adopt daylight saving time this summer, the Railway Association of Canada is appealing for uniformity. It is pointed out by C. P. Riddell, general secretary of the association, that the railway time-tables will have to be revised in spring and autumn to meet the different needs of summer and winter traffic, and he is therefore suggesting to the municipal authorities that, wherever they adopt daylight saving this year, it should start on the same day and end on the same day as those on which the summer train schedule begins and ends, that is, on the first hour of Sunday nearest May 1, and the first hour of Sunday nearest Oct. 1, respectively.

"Trains will continue to run on ordinary sun time, except where suburban services remain in and out of cities that have adopted daylight saving may be adjusted to the convenience of the public in such districts."

WITNESSED THE WILL OF RAOUL DELORME

Former House Surgeon at Ottawa Hospital So Informs Authorities.

Ottawa, Feb. 17.—Dr. M. A. Renaud, former house surgeon at a local hospital, was one of those who witnessed a will signed by Raoul Delorme at the time he was about to undergo an operation there. Dr. Renaud stated today that he could not say, without seeing the will, whether it was the one he witnessed or not. Nor could he say, in any event, whether the will he had witnessed signed by young Delorme had been written by the young student or not.

FLATTERING OFFER TO HERBERT HOOVER

Philadelphia, Feb. 17.—An offer of \$150,000 a year for five years to Secretary of Commerce Hoover to become director of the proposed Sesqui-Centennial Exposition in Philadelphia in 1924, has been made by Edward Bok, it was announced today by Major Hampton Moore.

ADVOCATES USE OF FREE STATE TO GAIN ULTIMATE COMPLETE SEPARATION

The "Separatist" Makes its Appearance in the Irish Journalistic Field

Dublin, Feb. 17.—A new newspaper, "The Separatist," appears in Dublin today. Its announced policy will be advocacy of the use of the Free State as a step toward ultimate complete separation.

The paper is equally critical of Eamon De Valera's policy as of the Free State, but it deprecates a further split in the Irish ranks. Its general aim, however, will be to assist those in favor of the treaty with Great Britain, against Mr. De Valera and his adherents.

UNITED STATES READY TO BEGIN NEGOTIATIONS

For the Refunding of \$11,000,000,000 Owed the Country by Foreign Nations.

COMMISSION TO BE ANNOUNCED MONDAY

Negotiations, Through Diplomatic Channels, Will be Taken Up With Britain First.

Washington, Feb. 17.—Announcement of the membership of the Allied Debt Commission, created by Congress to conduct the negotiations for the refunding of the eleven billion dollars owed this country by foreign nations, will be made on Monday or Tuesday, it was said today at the White House.

The commission is to be composed of five members, of which Secretary Mellon will be chairman, and it is indicated that its personnel would include a member of the House and Senate, while high officials are understood to believe that Secretaries Hughes and Hoover will complete the membership.

Upon the organization of the Commission, it was said, word will go to the debtor nations, through the usual diplomatic channels, that the United States is prepared to begin refunding negotiations which, it is believed, will be carried on in the United States unless circumstances arising in the future require meetings abroad.

READY TO BEGIN

According to treasury officials, the Government is ready to begin negotiations at once. In view of the treaty, negotiations will be taken up with the different foreign nations in the order of the size of their debt, beginning with Britain, whose total approximates five billion dollars, and ending with the smaller nations, from whom the sums due are comparatively slight.

The arrangements made with Britain are expected to form the model for the plan of payment worked out with all the debtor nations, and it is believed by the Treasury that Ambassador Geddes will represent this country in the negotiations. The total foreign debt, owing to the United States, approximates ten billion dollars of principal, and one billion dollars which is held in the form of demand obligations upon the various nations, which, under the authority of Congress, are to be refunded in long time securities of maturities of not more than 25 years, and bearing interest of not less than four and one-half per cent.

FRANCE FRIENDLY TO LITTLE ENTENTE

Will Participate in the Preliminary Examination of Genoa Conference Programme.

Paris, Feb. 17.—Poland and the Little Entente countries will participate in the preliminary examination of the Genoa Conference programme by experts of France, Great Britain, Italy, Belgium, Japan, under an accord which, it is semi-officially announced, has been reached by Great Britain and France. The inclusion of the Little Entente countries of Yugoslavia, Czechoslovakia and Rumania, together with Poland, in the conversations, is the suggestion of France.

BOSTON SUFFERED SEVERE COLD SNAP

Boston, Feb. 17.—Bostonians hurried to work this morning under stress of the coldest weather of the winter. The official weather bureau thermometer registered its minimum of four degrees below zero, as most persons were leaving home, and was only one degree higher at 10 a. m. Somewhat milder weather was promised later in the day.

ARENS ACQUITTED

Kitchener, Ont., Feb. 17.—Carl Ahrens, charged with the murder of his wife, was found not guilty shortly after court resumed this evening.

SEIZE POLICE HEADQUARTERS IN FIUME CITY

Fascisti and Adherents of Gov't of Zanella Opposing Each Other.

ITALIAN GOVT TAKES POSSESSION

Rome Press Incensed Against Zanella Because of Anti-Italian Tendencies.

Roma, Feb. 17.—There is much unrest at Fiume, with the Fascisti and the adherents of the Government of President Zanella opposing each other. General Spadolini, commanding an Italian brigade which is occupying territory south of Fiume, ceded to the Jugo-Slavs by the treaty of Rapallo, has sent a company of troops to seize police headquarters in Fiume and restore calm.

All the Zanella detectives and police have been relieved of duty, and their duties, until further orders, will be performed by Carabinieri and General Spadolini's troops. Zanella, who was elected President of Fiume last April, recently discharged more than 150 Italians acting as detectives in Fiume. This act antagonized the Italian Nationalist parties, who desire the reinstatement of the men.

The Rome press is incensed against President Zanella, on account of what they regard as his anti-Italian tendencies.

SYDNEY MAN SUFFERS UNHAPPY EXPERIENCE

Freezes Nose, Ears and Toes as Result of Singular Adventure.

Sydney, N. S., Feb. 17.—George Dooley, 22, a North Sydney cable operator, is suffering from frozen nose, ears and toes, as a result of a singular adventure which resulted from his being compelled to spend a bitter cold night in a barn at Point Edward.

Dooley, with fifteen companions, undertook to walk across the ice from Sydney to North Sydney after a 2000-yd. march here.

A bitter northeaster was blowing, and four miles out Dooley's strength failed. Matthews and Campbell, two companions, took him ashore at Point Edward and tried to gain admittance to the Marine Hospital there.

They were ordered away the caretaker evidently taking them for marauders. They were rescued by a boat from a house they had passed, Campbell and Dooley spent the night in the hay of an old barn, while Matthews pushed on to North Sydney, from whence a boat was sent back for the two men in the barn. The authorities have been asked to investigate the peculiar welcome the exhausted men received at the Marine hospital.

IMMUNITY PROMISED TAYLOR'S FORMER BUTLER

Theft Charge Not to be Pressed if He Helps to Clear Mystery.

Los Angeles, Feb. 17.—Immunity for Edward F. Sands, from prosecution on a charge of embezzlement preferred against him last August by William Desmond Taylor, murdered film director, was promised tonight by Thomas Lee Woolwine, District Attorney, provided Sands proves his innocence of the slaying of Taylor and can "untangle this murder mystery."

Mr. Woolwine's promise to the missing former butler-secretary to Taylor was made in a letter he addressed to Edward F. Sands, through the publisher, in answer to a letter he received and which purported to have been written by Sands.

The letter which was signed "E. F. Sands" was dated February 14. The writer declared he was living in Los Angeles and inquired whether if he surrendered and established his innocence of the murder of Taylor, he would be freed of the embezzlement charge.

"LISLE NATIONAL" TOUCHED FOR \$795

Woman Bound and Gagged and Knee Bank Robbed of Life's Savings.

New York, Feb. 17.—Two bandits bound and gagged Mrs. Antonio Malenchuk in her home in the Bronx, today, and robbed her "knee-bank" of \$795 in gold. Mrs. Malenchuk told the police she had for years carried the life savings of herself and her husband in a bag tied at her knee, thinking that the safest place for them.

The bandits, however, apparently had heard before of the "knee-bank" for they had little trouble in finding the bag.

BOMBING OF CHILDREN WORST THING THAT HAS HAPPENED

"Distasteful Outrage" in Belfast Denounced by Both Collins and Craig

London, Feb. 17.—Winston Spencer Churchill, Secretary for the Colonies, in acknowledging a message from Michael Collins, leader of the Provisional Government in Ireland, admits that the bombing of several children in Belfast is the worst thing that has happened in Ireland for three years. The secretary says he has sent another telegram to Sir James Craig, the Chief Executive, who has already denounced the incident as a "distasteful outrage."

NEW BRUNSWICK LOSES LEADING JOURNALIST

John T. Hawke, Editor and Proprietor of Moncton Transcript, Passes Away.

TOOK ACTIVE PART IN CITY AFFAIRS

Held Many Positions of Trust in City and Provincial Organizations.

Moncton, N. B., Feb. 17.—John T. Hawke, editor and proprietor of the Moncton Transcript, passed away today at his home, 65 Wesley street. Mr. Hawke, who has been in failing health for the past two years, having suffered a paralytic stroke on Dec. 21, 1919, contracted typhoid about two weeks ago, since which time he has been bedfast. About ten days ago pneumonia developed, and other complications, which terminated in his death at 3.15 o'clock this afternoon.

The deceased leaves his wife, formerly Miss Della Thomson, of Aylmer, West Ontario, also three daughters, Mrs. John E. Barry and Mrs. Wilson W. Lodge, Jr., of this city, and Mrs. Melville Howe, of Central, Alta. One brother, Harry Hawke, of Leduc, Mich., also survives.

Mr. Hawke was of Cornish descent, and was a son of the late John P. and Mary Harvey Hawke. He was born in Plymouth, England, on April 30, 1864, and was, therefore, in the 58th year of his age.

The deceased came to America in 1873, and in the same year moved to Canada. He was legislative reporter on the Ontario Leader from 1875 to 1878. He also served on the staff of the Ottawa Citizen and Toronto Globe.

For the latter he was parliamentary reporter and political correspondent at Ottawa, and managing editor of the Hamilton Tribune, a prohibitionist daily, in 1885, and later was editor-in-chief of the Ottawa Free Press. Since 1887 Mr. Hawke has been editor and proprietor of the Moncton Transcript.

The deceased was secretary of the Maritime Press Association during the first three years of its existence, and was also secretary of the New Brunswick Association from 1907 to 1909. He was also chairman of the Moncton School Board for ten years, having resigned some months even when covered with the influenza epidemic of 1918, and was president of the Moncton Liberal Association for nine years. He has also been president of the Moncton Board of Trade, and was elected vice-president of the Moncton Canadian Club in 1909.

Mr. Hawke represented the city of Moncton at the coronation of King George in 1911.

The funeral will be held at 2.30 Monday afternoon.

RATHER TOUGH ON THE OLD MAN

Ottawa, Feb. 17.—If a married woman, residing in the Province of Quebec, sells liquor illegally and she is caught, her husband must bear the court's sentence. Orville Chartrand was sentenced to one month in the Jail jail by Magistrate Miller after he had been convicted of selling liquor.

ARMED MEN SEIZED NATIONALIST PAPERS

Irish Independent and Freeman's Journal Seized from Mail Team at Cork.

Cork, Feb. 17.—When the mail train from Dublin arrived here this morning, a party of armed men seized all the copies of the Irish Independent and the Freeman's Journal, both Nationalist newspapers, and drove off in autos. The copies of the United Irish Times and the English newspapers were not touched.

55 ASSIGNMENTS
Ottawa, Feb. 17.—(Canadian Press)—Notice of assignment of fifty-five business firms under the Bankruptcy Act appears in this week's issue of the Canada Gazette.

Halifax, Feb. 17.—Nearly all trains to Nova Scotia were delayed today as a result of the snow storm.

GERMANY VERY UNEASY OVER TRADE REPORT

Russia - France Agreement Said to be Worrying German Industrial Leaders.

GREATLY FEAR COUNTRY'S ISOLATION

Believed Such Agreement Would Give France the Whip Hand Over Continent.

Berlin, Feb. 17.—Frequent reports of the conclusion of a trade agreement between Russia and France which, however, have not been verified, have been the cause of uneasiness in Germany in connection with the negotiations in progress between Leonid Kravtsov, Karl Radek and M. Stomankov, representatives of the Soviet, and German officials looking to an economic agreement between Germany and Russia. The eventual success of these negotiations, it is feared, may be threatened in the event that France really establishes a friendly financial arrangement with the Soviet Government.

The chief anxiety appears to be that a Franco-Russia agreement would tend further to isolate Germany, politically and commercially, and give to France an opportunity for a drastic exploitation of Germany's defeat in the war.

Stinnes' Opinion
Hugo Stinnes' organ, the Algemeine Zeitung, expresses the belief that France would use a Russian agreement as another weapon against Premier Lloyd George of Britain. This paper suggests that even the discussion of such a plan would serve the aims of M. Poincare with regard to the Genoa economic conference.

The Boersens Courier thinks France is seeking such an agreement "to complete her conquest of the continent," and that Russia is bankrupt and unable to offer satisfactory guarantees, but seeking to establish her position among the other nations, will listen to all proposals and agree to almost anything. This newspaper adds that the Bolsheviks are playing comedy with France, as well as the other nations.

FAVORABLE 1921 TRADE BALANCE FOR U. S.

Four Times Greater Than That of the Last Pre-War Year.

Washington, Feb. 17.—A world trade balance in 1921 favorable to the United States, four times greater than that of the last pre-war year, notwithstanding a decline of 45 per cent. in exports, and 52 per cent. in imports for 1921, over 1920, was announced today by the Department of Commerce in a review of trade conditions.

The total export trade, the review said, fell from \$2,228,000,000 in 1920 to \$4,485,000,000 in 1921, while imports fell from \$2,278,000,000 to \$2,509,000,000 during the same period. This decline, it was explained, however, was more apparent than real, even when compared with the unprecedented trade of 1920, as values in that year were "enormously inflated," and 1921 was a year of rapidly deflating prices.

MARRIED AFTER TWO WEEKS' ACQUAINTANCE

Eighteen Year Old Bride Now Seeks to Have Marriage Annulled.

Montreal, Feb. 17.—To be married to a man after two weeks' acquaintance and to part from him after a three weeks' honeymoon, when he informed her that he had a wife living, was the experience of 18 year old Diane Mischkan, as related in the superior court here this afternoon, when she appeared for annulling of her marriage to William Klein, alias Nelson, at Montreal, last February. She stated that Klein, after the marriage, had offered to introduce her to his wife and his fourteen year old son. The case was adjourned to February 27 in order that legal proof of the first marriage might be adduced.

TRAINS SNOWBOUND ON P. E. I. RAILWAY

Some Did Not Leave Their Stations—Stalled in Snow Banks.

Charlottetown, P. E. I., Feb. 17.—All trains on the Prince Edward Island Railway were held up by snow storms today. Some did not leave their stations; others, including the train which left here this morning for Bordet to connect with the car ferry steamer, are stalled in snow banks. Several will be out on the line for two nights. The drifting has ceased tonight, but the temperature is 14 below.

HISTORIC FOOTBALL A MOST CURIOUS GIFT TO PRESENT TO PRINCESS MARY

The Wedding Present Came From Inhabitants of Ashbourne, Derbyshire.

London, Feb. 17.—One of the most curious gifts ever presented to a bride-elect was included in today's presents to Princess Mary, namely an historic football, decorated with portraits of Princess Mary and Viscount Lascelles. The ball came from the inhabitants of Ashbourne, Derbyshire. It is similar to those used in a strange game played at Ashbourne each Shrove Tuesday since the year 1500.

TAKES SWING AT ANGLO-IRISH PEACE TREATY

Unionist Member of Commons Accuses Chamberlain of Signing Away Conservative Doctrine.

THINKS PREMIER LLOYD GEORGE BLUNDERED

Declares He Will Be Known As Man Who Won War But Lost Empire.

London, Feb. 17.—Roland McNeill, Unionist member for the Canterbury division of Kent, attacking the Anglo-Irish treaty in the House of Commons today, declared that Mr. Chamberlain, in the dead of night, had signed away the whole basis of the Conservative doctrine. He said he feared Mr. Lloyd George's name would go down in history "as the man who won the war and lost the Empire."

Secretary Churchill announced the receipt of a message from Michael Collins, telling of the latter's success in securing the release of 42 kidnapped Unionists. Repeating the charge of Mr. McNeill, he said the bill was not the policy which any party sought to follow. "When I signed the treaty, I knew the risks I was running. I staked my whole political life and reputation—and what is more, the respect of my friends and colleagues."

The signers of the Anglo-Irish treaty on behalf of Great Britain were Premier Lloyd George, Austen Chamberlain, Lord Birkhead, Winston Churchill, Sir Laming Worthington Evans, Sir P. Gordon Hewart and Sir Hamar Greenwood.

BOOK OF RECIPES FOR SUCCESSFUL LARCENY

Overcoat Lifter Introduced to New York Court as Literary Robber.

New York, Feb. 17.—David Passanoff was today introduced to the court of general sessions as a literary robber, armed with a book of recipes for successful larceny. Before he was sentenced to the penitentiary for six months to three years for theft of several overcoats, probation officers read these excerpts from a notebook they found in his possession:

"Hide behind a door when the freight elevator man comes down with the elevator. When he goes up, run up the stairway and hide behind the stairs."

"Apply for a job. If refused, grab what you can as you go out. If you get the job hang around the locker and when you get an overcoat leave with it and don't return."

QUEBEC JOB PRINTERS STILL ON STRIKE

Fresh Differences Have Cropped Up Between Parties to Wage Dispute.

Quebec, Feb. 17.—Although the strike of job printers here seemed on the eve of being settled on Thursday night, fresh differences cropped up today and resulted in holding up the negotiations. The employers and representatives of the strikers met this morning, and, after a lengthy conference, the negotiations were referred to another meeting which will be held on Monday morning next.

REQUESTS PARLEY ON NEAR EAST PEACE

Paris, Feb. 17.—The Marquis of Curzon, British Foreign Secretary, has informed Premier Poincare, who also acts as the French Foreign Minister, that he wishes to meet him to discuss the question of Near East peace as soon as the ministerial situation in Italy permits the Italian Foreign Minister to come to Paris.

ENGLISHMAN NOT PLEASED WITH GUEST

Entertaining in His Home by Order of Court, New York City Policeman.

CHARGED WITH BEING COMMON GAMBLER

Englishman's New York Home Raided; Under Suspicion of Being Gambling Resort.

New York, Feb. 17.—(By Canadian Press)—Henry R. Brownlow, of 16 Park Lane, London, England, is not feeling very enthusiastic over the guest he is entertaining today in his New York residence, 106 West 59th Street. The guest is a city policeman. He will remain in the Brownlow home until February 23, when nearing of a charge of "being a common gambler," brought by the police against Mr. Brownlow, will be continued. Mr. Brownlow was arrested early Wednesday morning. After hearing his story the magistrate yesterday adjourned the hearing in order to inquire into the police investigation of the Englishman's home.

Weird Accounts of Raid
Several weird accounts of the "raid" have been published. One was to the effect that the detectives gained entrance by impersonating a cat and "meowing" plaintively at the door, and that Mr. Brownlow had been dragged off to a cell in evening clothes. The guests, whom Mr. Brownlow was entertaining when the police entered his apartment, included a number of prominent New York society people. Lord Auckland, who was one of the old newspaper reporters that no gambling was going on, and the nearest thing which the police found to gambling paraphernalia was a toy roulette wheel.

It was reported, today, that the British Consul here has interested himself in the matter, and a demand for a complete investigation of the intrusion of the city detectives will likely be made.

SYDNEY ASKS GOVT FOR MORE RAIL ORDERS

Prominent Citizens Wait on Minister of Railways With Request to Relieve Unemployment.

Sydney, N. S., Feb. 17.—That the Government will at once consider whether it will give rail orders or other work to relieve the unemployment situation at Sydney steel plant, was the promise of Hon. W. C. Kennedy, Minister of Railways, to a group of prominent citizens who interviewed him here today.

In reply to suggestions that the Government place orders for 24,000 tons of steel rails here, Hon. Mr. Kennedy said that these orders were in the hands of the railway management, and that anyway he had been informed that all the rails needed for the Canadian National have been rolled.

The Government, however, he said, was under a certain responsibility to do whatever it can, whenever it can, to relieve unemployment.

Mr. Kennedy left by special train this afternoon for Ottawa via St. John.

UNITED STATES MAY ATTEND CONFERENCE

Whether or Not They Accept Invitation to Genoa Depends on London Conference.

Washington, Feb. 17.—The response of the United States Government to the invitation to participate in the Genoa Conference, it is understood, will be delayed until some results are achieved by the British and French economic experts who are to meet next week in London to arrange, if possible, a definite programme for the Conference.

Should the experts at their London meeting develop a basis for complete agreement between Britain and France on the principles to govern the Genoa meeting, and should these principles accord with the policies of the United States Government, the belief, in some quarters here today was that the United States would reply favorably to the invitation extended by Italy on behalf of the Allied Powers.

NEGRO MOB KILLS ONE OF OWN RACE

Valdosta, Ga., Feb. 17.—John Glover, a negro, was shot and killed by a mob of his own race today at Indiana, seven miles east of here, after he had shot up a negro school house, killing a little girl and fatally wounding a boy.

Every One Has A Kind Word to Say of The Page (Internal) Pile Treatment

Two Tablets and Back to Work

"I have been a sufferer from piles of the worst form for the past six years. I had consulted with the best doctors, but to no avail. I had been unable to work for the two weeks previous to the time I sent for your treatment, and suffered terribly, not being able to find a position I could rest in.

"The day I received the medicine I took two pile tablets after supper and one pill before I retired. The next day I worked and have continued to work ever since. I feel like a new man.

"I have recommended your treatment to a friend of mine who is bothered with itching piles, as I know it will knock 'em out.

"Thanking you kindly for the prompt attention given my order, I am, yours for success,
"IRA M. SACORA."
Ainsworth, Iowa.

Age 88—Suffered for Years

"I want you to know what your treatment has done for me. I had suffered with piles for many years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old and the oldest active blacksmith in Michigan, I feel years younger since the piles left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish and I hope it will lead others to try this wonderful remedy.

"Yours truly,
"J. L. LYON."
Stewart, Mich.

Told There Was no "Home Cure"

"Replying to your recent inquiry I am glad to be able to state that the two large-size packages of Treatment I ordered for my son cured him sound and well.

"I have tried several remedies but none seemed to have any effect. I was told by some that there was no such thing as a Home Cure for piles. Then by chance I picked up a piece of scrap paper and saw your advertisement. I asked for a free sample, got it, and after I had seen what it had done. I ordered a large-size treatment and it almost completely cured my son. Then I ordered another, and I say I can blast the day that I picked up that scrap of paper and answered your advertisement. I can't say enough for the E. R. Page Pile Remedy. I have recommended it to my friends here and sent some of your pamphlets to friends in other states.

"Now you may use this letter or any part of it as you may see fit, to introduce your wonderful remedy. With best wishes for your success, I remain,
"Yours very truly,
"L. M. COPLIN."
Box 104, Dearing, Mo.

Suffered 25 Years

"It gives me great pleasure to write and tell you I am troubled no more with Piles. I am 64 years of age and have suffered for over 25 years; have tried all kinds of Ointment, etc., without success.

"You are at liberty to use my name in reference to your Pile Cure and also my photograph, which I am sending you. With best regards, I remain yours very truly,
"JOHN W. SHUMAN."
1648 N. 8th Street, Philadelphia, Pa.

Bleeding Piles for Six Years

"Your Pile Tablets are surely wonderful. I was troubled with bleeding piles, off and on, for six years; couldn't get anything to cure them until I read your ad. in the daily paper. The sample must have cured me—I haven't been bothered since."

Yours truly,
MRS. M. J. MANBECK.
R. R. 2, Box 98,
San Bernardino, Calif.

"Can Not Be Praised Too Much"

"After suffering years with Piles I feel now as if I had never had them. Your remedy is certainly a success and cannot be praised too much. Had it not been for running across your ad. in the World Almanac, I suppose I would be still bothered with this awful disease. I want to thank you for your kindness, and if I ever have an opportunity of recommending it I will do so."

Sincerely yours,
E. R. RAYMOND.
238 Broadway,
San Diego, Calif.

Took the Page Treatment 18 Years Ago

"One of the most grateful letters ever received in our office is dated from Gate City, Virginia, and is signed by Mr. T. H. Quillin.

"Mr. Quillin writes that he used our method for treating piles eighteen years ago. He states that he was cured at that time and has never had any return of his trouble. He orders a treatment for his son.

This is a case to be proud of.
E. R. PAGE CO.
Was About to Undergo Operation.
Camden, N. J., 2817 Polk Ave.
Mr. E. R. Page,
Dear Sir—
"You will have to excuse me for not

answering your letter before, but I

wanted to convince myself of the merit of your treatment before replying. Now in regards to the treatment I cannot praise it too highly.

After seven months of continual pain I was surprised how quickly your treatment worked.

I tried several different kinds of treatments and I found them all wanting. I was on the verge of going to a doctor for an operation when I saw your advertisement.

It appeared to me because to cure piles you have to know what causes them. It is now six months since I have taken your treatment and I have not had any trouble since.

I personally recommend this treatment to all pile sufferers.
Wishing you the best of success, I remain, gratefully yours,
HARRY SCHLECHTER.

Doctors Recommended An Operation.

"I was a sufferer from piles. Two doctors had said there was nothing that would do me any good but an operation. First I tried a sample of your Pile Treatment and was greatly relieved. Then I ordered a regular treatment and now I feel that I am cured. I advise all people who suffer with piles to take the Page Treatment."

Sincerely yours,
J. W. SHORES.

CRIPPLED WITH RHEUMATISM

Then She Took "FRUIT-A-TIVES" And Has Been Well Ever Since

Madam Sloat
Porth Junction, N. B., Jan. 22nd, 1920

"For many years I was a great sufferer from indigestion, constipation and rheumatism. My stomach was weak and gave me constant distress, while rheumatism in my joints made me almost a cripple, was treated by two different doctors, but their medicine did me no good.

Then I tried "Fruit-a-tives" and at once that fruit medicine helped me soon the constipation and indigestion were relieved and the rheumatism began to go away, and in a few weeks entirely disappeared.

Two years ago, my health has been first class, and I attribute it to the use of "Fruit-a-tives" which I take regularly."

Treat Rheumatism Through The Blood

Liniments and Rubbing Only Give Temporary Relief.

Rheumatism is a trouble extremely difficult to get rid of. If a tendency to rheumatism is established in the system it makes itself manifest by every spell of cold weather. This is why so many people think the trouble is due to cold or damp. The fact is known, however, to medical men, that with the health of the sufferer in good condition, it is a rapid thinning of the blood, and that the rheumatic poisons are only expelled from the system when the blood is restored to its normal condition. This means that to drive rheumatism from the system it must be treated through the blood, and for this purpose Dr. Williams' Pink Pills have been very successful, as they build up and enrich the blood, thus easing the aching, swollen joints, and benefiting the health of the sufferer in other ways as well. Among the rheumatic sufferers who have satisfactorily used this medicine is Mr. James Gillan, Charlestown, P. E. I., who says: "For three long months I suffered terribly from rheumatism. It is why so many people think the trouble is due to cold or damp. It is why so many people think the trouble is due to cold or damp. The fact is known, however, to medical men, that with the health of the sufferer in good condition, it is a rapid thinning of the blood, and that the rheumatic poisons are only expelled from the system when the blood is restored to its normal condition. This means that to drive rheumatism from the system it must be treated through the blood, and for this purpose Dr. Williams' Pink Pills have been very successful, as they build up and enrich the blood, thus easing the aching, swollen joints, and benefiting the health of the sufferer in other ways as well. Among the rheumatic sufferers who have satisfactorily used this medicine is Mr. James Gillan, Charlestown, P. E. I., who says: "For three long months I suffered terribly from rheumatism. Weekly Chat

Dear Chums: Here we are again one week older, and while I am feeling in very good health, I am sorry indeed to learn that some of the children's corner members are ill, mostly with bad colds, which I trust will not last long and that my chums will soon be about and taking all the enjoyment in life that is offered to them.

The whole country at the present time is covered with a heavy blanket of snow and ice, and presents the real appearance of winter. Old Jack Frost has been rather severe this winter giving us some very cold weather, and then suddenly the weather becomes mild, many districts during the hills, making on the hills, lakes or rivers, snow shoes and other winter pastimes, which are not as strict as they used to be, and are given all the attention to them, then back to health and strength again.

To all my chums who are ill I extend my warm sympathy and wish they would soon be better. Saint Valentine's day has passed, and I am quite sure all the U. S. members took advantage of the day and enjoyed sending valentines to their friends and acquaintances. It is a happy time, especially for the boys and girls, and there is great fun in drawing your valentine instead of purchasing them in stores. While your Uncle Dick may not come very pretty valentine, I trust you could see some of the funny ones that I have enclosed for you. They were so amusing, some people have all the fun out of Saint Valentine's day by sending valentines to people for the sake of having their feelings, this is not good, but the true spirit of the day is to show your affection to those you love.

Some members of the Corner have requested me to explain just what Saint Valentine's day means, and for the benefit of all you will find the interesting story printed on another part of the Children's Page, and I am sure you will find it very interesting reading. So far this week I have only received a couple of letters which would be in time for today's paper, and will therefore wait until next week before answering them. I hope that I will receive quite a lot of mail in the next few days. Don't know exactly what to think of the members, surely you have not forgotten to write, it only takes a short time to send a letter, and I would like to have a number of the members to take just a little time and tell me how you are making out, and anything else you like about what is going on in the place where you live. There surely must be something of interest to tell, and if you would only just put your "Thinking Cap" on for a few moments you would find something to write. Uncle Dick about last week I received quite a few very interesting letters, and you really don't know how pleased I am to hear from my chums.

I will have to bring this chat to a close now, and will anxiously await some nice letters from my chums next week.

The Place de la Bourne, in the heart of Paris, is not generally considered, and nothing there seems to recall any rural reminiscence. That is why the thousands of people who pass through every morning on their way to business raise their heads in surprise and amazement at the superb carving of a cock lifting the roof. It is said that, somewhere in this quarter, somebody has had a four-legged hen on a roof.

In any case, the hen is here, crowing in the Place de la Bourne for all the world as if he were an emperor.

JACKO SCORES AGAIN

His brother Adolphine came back of her big day and found the whole family seated on the grass by the river in a state of utter dejection.

"What's the matter?" he asked, stroking over to them.

The father, who was looking like a forlorn, withdrawn his hands, and said in a hoarse voice:

"We are bankrupt, my boy—bankrupt!"

"How do you know that?" replied Adolphine.

"I know that," replied Adolphine.

Remarkable Man

A very remarkable man has passed away in St. John. He was a veterinarian, and his name was Dr. J. H. Jones. He was born in 1850, and died in 1923. He was a very kind and generous man, and he was loved by all who knew him.

He was the inventor of the pneumatic tire, and from that invention progress was made in the automobile industry.

John Dunlop was born at Downpatrick, April 21, 1800. He became a first-class veterinary surgeon, and in 1847, when 47 years of age, settled in Belfast, and had great success in that line of horse-fitting.

First Pneumatic Tyre. It is a fact that a Scotchman named Thomas had invented an air-filled tyre in 1845, but as there were no vehicles to use it then the device never came into vogue.

John Dunlop, however, had a different idea. He was a veterinarian, and he was interested in the health of horses. He thought that a better tyre would be of great benefit to them.

He made a tyre of solid rubber, and he called it a "pneumatic" tyre. It was a great improvement on the old solid rubber tyre, and it was soon adopted by the public.

ISRAEL'S NARROW ESCAPE

"It seems to me, that this year would not be one year of trouble," said Aunt Viny, discouragingly, as she sat on the sofa and looked at the children who were gathered round her.

"Why, Aunt Viny, what dreadful thing has happened to you?" inquired Miss Nancy.

"The Israel Johnnie, my dear," said Aunt Viny, "is a very good boy, but he is a little bit of a mischief-maker."

Lost Mantle of Australia

To multitudes of Australians, the winter of the wonder of their British winter is the snow, which many parts of the island continent never see.

Yes, the old houses of England, like the North and South Poles of today, Australia has had its snow.

At its close little Ruth, the youngest daughter, leaving her hot hand upon her father's forehead, "Daddy, I've never seen snow before."

"Daddy, I've never seen snow before," said little Ruth.

SAINT VALENTINE DAY

Tuesday last, February 14th, was St. Valentine's Day, and many thousands of boys and girls all over the world observed the day, but few think that many are unaware just what the meaning of the day is. I feel quite sure that there are many grown-ups who do not know the history, and I have been requested by some of the Children's Corner members to give an explanation, it is as follows:

Saint Valentine's Day, the 14th of February, is the feast of the patron saint of lovers. It is said that a poet in ancient Italy, who was called Valentine, was a Christian who was imprisoned in a prison for his faith. He was a very kind and generous man, and he was loved by all who knew him.

Valentine was a very kind and generous man, and he was loved by all who knew him. He was a very kind and generous man, and he was loved by all who knew him.

Unknown Hero

American unknown soldier laid to rest with all the pomp a nation can bestow on a hero who has passed on in state on Abraham Lincoln's birthday.

President Harding walked on foot behind the coffin on his way to the Capitol, where the coffin rested, surrounded with the trappings used at a funeral of Lincoln.

Finally, there has just come to light the story of a man who saw Abraham Lincoln die.

Fifty-six years ago he was a boy of seventeen working in a Government office at Washington. He looked for a chance to see the President, and on the night of April 15th, he was trying to get into the house when he saw a commotion and saw a light from being carried out of the theatre. He ran across the road, "What has happened?" he asked himself standing by.

"The President has been shot," he said.

Boy Becomes Famous. Instantly the boy called to the doctors Abraham Lincoln to come into the house where he lay. He ran upstairs before them, turned back the coverings of a bed, and had the wounded hero laid in it. Thus he was associated with one of the most tragic events in modern history, and for a few days he became famous.

Then for a great many years he disappeared from view. He left the Government office, became a lawyer, got together a pretty good practice, and interested himself in natural history.

Fortune seemed to have a kindness for him when suddenly he had a breakdown in health. Then it was discovered that he was not so well off as he appeared to be. His means melted away, he could only just keep his head above water, and after a few years of struggle he gave up the law and went into an automobile business. He was six years ago, and he has lived a broken man, unthrifted of his money.

Memory of the Past. An American scout had searched for a survivor of Lincoln's death for many years. He had been told that the old man had been shot by a man named John Wilkes Booth. The scout had been told that the man had been shot in the back of the head, and he had been told that the man had been shot in the back of the head.

THE WEATHER
Toronto, Feb. 17.—Shallow depressions are situated over Lake Superior and in British Columbia, and pressure is now highest along the United States Atlantic coast. The weather is fine and very cold from the Ottawa Valley to the Maritime Provinces, while over the Gulf of St. Lawrence the temperature is rising attended by a few snow flurries.

AROUND THE CITY
"WORK-A-Lot" GLASS
The "Work-a-lot" class of Main street Baptist church, held an apron show last evening at the home of the teacher, Mrs. David Hutchinson.

THANKS HOSPITAL
In view of the kind attention and courteous treatment he received while a patient at the General Public Hospital when he recently underwent a serious operation, Thomas Prince, the well known railroad engineer, desires to express his thanks and appreciation to Dr. Murray MacLaren and the physicians and nurses of the hospital.

WIDENING AVENUE
Rock drilling will begin next week in connection with the widening of Millingville avenue, a work which is being conducted by the Public Works Department. The trees have already been cleared off the area included in the new street lines. The rock drilling will be made with the aid of a steam drill.

MOTOR SHOW
Official permission to use the armory for the motor show was received yesterday from Ottawa and plans are now being drawn up for the spacing for exhibitors. It is expected about 70 of this year's cars will be on exhibition and from 15 to 18 accessory exhibits. Arrangements are being made to have one of the women's organizations in the city operate a tea room. The show will open on March 27 and close on April 1.

ORDER CANCELLED
The St. John Board of Trade has been advised by the Minister of Customs that the departmental circular requiring changes in renewal sales tax license numbers, to which objections had been taken by the board, has been cancelled. The Minister, in his letter, states: "I can assure you that it is not my desire that the business public should be put to any inconvenience or expense that can be avoided."

COSTLY STORMS
The city will pay dearly for the last few snow storms which visited it during the past week. According to a statement made by Commissioner Frink yesterday, more money was expended on snow removal during the last week than was necessary during all last winter. Thirty-six teams and more than 100 men were engaged yesterday in the work of snow removal, four of the gangs being taken on under the emergency scheme recently adopted by the council.

WILLIS LODGE FAIR
At the fair, held last night in Fairville under the auspices of Willis L. O. L., the door prize, which was won by Oliver Stinson, was a pair of boots, donated by the Weston Shoe Co. The prize for highest score at the bean board was won by William Stinson; at the ladies' bean board, by Miss Pearl Cooper; at the bowling alley, by K. Coug's.

ARRIVED ON MELITA
Miss Cora Hill, author and editorial writer for the Wintipeg Free Press, who was formerly prominent in the Women's Canadian Press Association, arrived in the city yesterday to take passage on the C. P. & S. Moltis for England, where she will remain until June, investigating the cattle embargo in the interests of Western Canada farmers. Miss Hill, who is one of Canada's foremost special writers, is thoroughly conversant with the embargo question, having studied the situation here and reported, written and spoken in Canada on behalf of the farmers of the West. Her investigation in England will continue probably until June. She will lecture there and do general publicity work.

Clear Officers And Pilot of Steamer

Brant County Stranding Attributed to Non-Operation of Range Light at Cap Brule.
The enquiry into the stranding of the Brant County in the St. Lawrence on the night of December 1, 1921, has been concluded and the court found the entire blame to lie on the non-operation of the range light at Cap Brule.

The finding was as follows:—
The court having carefully weighed the evidence adduced, finds, for the reasons mentioned in the brief analysis of the evidence, that the master and second officer of the S. S. Brant County are free from any blame for the grounding, and also exonerates Pilot Hermenegildo Lachance, on account of the casualty being due solely to the non-operation of the range light at Cap Brule.
