

SEVEN KILLED IN SUNDAY MOTOR RACE

Three Others Are Likely to Die

Cycle Going 92 Miles an Hour Leaps Into Big Crowd

Rider Hurlled Fifty Feet in the Air and Every Bone in His Body Broken—Many Victims Among Spectators.

Canadian Press
Newark, N. J., Sept. 9.—The death toll resulting from the accident at the motor-race yesterday, when Eddie Haaha crashed into the grandstand on his machine during a motor cycle race, was increased to seven today by the death in the city hospital of Wm. Barnett, of this city. Barnett's skull was fractured.

Three other victims of the crash, two of them boys under fourteen years of age, are unconscious at the hospital and are not expected to survive.

A dozen or more eye-witnesses to the accident, including Paul J. Durkin, manager of the motor-race, were questioned today by the police and prosecutor. County Physician McKenzie changed his mind overnight about holding an inquest, and decided that there would be none, as the accident occurred in view of thousands. There was nothing hidden or suspicious about it, he said, and there did not seem to be reason for censoring anyone.

Five thousand spectators were witness to the finish of a four-mile free-for-all race when the daring Texas rider, doing 92 miles an hour, took his fatal plunge. He must have been instantly killed in the crash when the wheel of his heavy machine reversed and struck the upper rail. He was hurled head first fifty feet into the air. His body was shapely from broken bones when it was picked up, almost at the feet of his wife, seated in the bleachers.

Johnny Albright, with whom he was racing, was thrown head first in the other direction into the enclosure of the track, when the champion's wheel came sliding down the steep bank and struck him. He died later in the hospital.

The highest altitude he has reached is 500 feet—well over a mile in the air. At his height, he says, the earth appears like a brim.

Mr. Peoli is rapidly making a name for himself amongst airmen, and his keen and cool work should land him in good time amongst the best known fliers of the world.

About 2,000 people witnessed the start of the afternoon flight, and many more gathered yesterday afternoon, while around the way many other thousands took their turn.

The Telegraph takes this opportunity of thanking Captain Baldwin for his good offices in arranging an ascent for their representative.

FORGET, BEATEN IN MERGER FIGHT, RESIGNS OFFICE

Montreal Magnate Quits Board of Management of Pulp and Paper Company.

Montreal, Sept. 9.—It was announced today that Sir Rodolphe Forget has resigned from the board of Waygamack Pulp & Paper Company.

The resignation of Sir Rodolphe, it was stated, was handed in several weeks ago but no formal announcement of his retirement has yet been made by either side. It is understood that a difference of opinion was the cause of his withdrawal and that a considerable block of the stock has been marketed since.

The East Canada Power & Pulp Company is said to have been the bone of contention among the members of the board, one side favoring a merger between the two industries and the other faction successfully opposing the move.

MEXICAN BATTLE ON AMERICAN BORDER

Mesa, Texas, Sept. 9.—Ojings, Mexico, opposite Preside, Texas, is being attacked from two sides by 400 Mexican rebels. The battle commenced at 8 o'clock this afternoon. A bullet from the Mexican side struck an American at Preside, piercing his hip. A party of United States officers went to the scene of the engagement early tonight. There is fifty miles from the border. General Sanchez is in command of the federal defending Ojings.

40,000 CHINESE PERISH IN TORRENTIAL STORM

Shanghai, Sept. 9.—An immense loss of life is reported from Wen Chow, in the province of Chekiang.

Chinese estimates give the death toll between 30,000 and 40,000, as the result of a typhoon combined with torrential rains and high tides which occurred Aug. 29. Great floods followed and the upper Wen Chow river overflowed its banks and swept over a vast area.

The town of Tsingtau, about 40 miles to the northwest of Wen Chow, was overwhelmed and 16,000 of the inhabitants were drowned. Vastous other towns and villages were destroyed and the prefect at Chuchow, which is an important missionary station, was washed away.

TRAGIC END OF FORMER TWIRLER OF NEW YORK GIANTS

Arthur L. Raymond Received Fatal Injuries in Fight at Chicago Sunday Game.

Chicago, Sept. 9.—Fred Cigaras, twenty-three years old, was arrested today and confessed to assaulting Arthur L. Raymond, former pitcher of the New York National Baseball Club, Sunday, Sept. 1, at a semi-professional ball game.

He said Raymond was an operator at the game and that some one threw a piece of pottery, which struck the pitcher on the face. Raymond picked up the missile and struck Cigaras with it and in the fight that followed Raymond was knocked down and kicked on the head a number of times.

Cigaras said he had no idea that Raymond was seriously injured. He told the police he had known the pitcher fifteen years.

While Cigaras was being taken to a police station the funeral cortege of Raymond passed and the prisoner wept as he told the story of the assault.

At the inquest, which began today, Dr. Springer reported that Raymond died from hemorrhages due to a fracture of the skull. Cigaras' arrest followed the disposal of the case, which was reported that his death was due to heart failure aggravated by the heat.

KEIR HARDIE SCOUTS GERMAN WAR SCARE

Declares the Manufacturers of Supplies Are at the Bottom of It—Says Workmen of Britain and Germany Would Go on Strike and Make Hostilities Impossible.

Guilph, Ont., Sept. 9.—President Parker, of the British Trades and Labor Council, opened the proceedings of the Trades and Labor Council of Canada today, being followed by Mayor Thorpe and Ald. Howard, on behalf of the city council; Hon. Mr. Reasens, Hon. J. Hanna, Hon. Mr. Guthrie, federal minister of labor; Hugh Guthrie, M. P. of South Wellington, took part in the opening ceremonies. President Watkins then took charge, receiving greetings from fraternal delegates J. T. Smith, of Kansas City, from the American Federation of Labor.

In acknowledging the ovation given Keir Hardie upon his arrival in the hall, the noted British labor leader took a full out of Harry Schofield, the local member, who had distributed the high cost of living to the German war scare. There are millions in it for the manufacturers of supplies. It is a manufacturers' scare who are now working to see that war is declared. The workmen of both countries will go on strike and make war impossible.

In conclusion, he advocated government ownership of Canada's railways.

GREAT AMERICAN HARVEST ASSURED

Government Crop Report Shows Enormous Increase in Production of Wheat, Oats and Corn—Quality Away Ahead of Past Years.

Washington, Sept. 9.—The September crop report of the department of agriculture, issued at 2:15 p. m. today, shows: Corn—Condition, 83.1 of a normal, compared with 88 August 1; 70.3 on September 10 last year and 81.1, the average condition on Sept. 1 for the past ten years. SAYS HOME RULE BILL WILL PASS

John Redmond Writes Hopefully to American Irish League

ULSTER OPPOSITION

Nationalist Leader Believes That New Conditions Will Be Accepted Without Any Trouble—Expects Lords to Bow Out the Measure for Two Years.

Philadelphia, Sept. 9.—Michael J. Ryan, of this city, president of the United Irish League of America, today received a letter from John B. Redmond, the Irish home rule leader, stating that his brother, William Redmond, would sail from Ireland on Thursday of this week to attend the national convention of the league to be held in Philadelphia, the latter part of this month, and declaring that so far as Great Britain is concerned the battle for home rule has been won.

"Our only embarrassment," he said, "is in the attitude taken up by a section of the people of Ulster." Continuing, he said: "This attitude will not, of course, prevent the passage of the home rule bill and my own strong belief is that, after that measure has become law, with that strong common sense that characterizes northern Irishmen, the present opponents will rapidly fall into line."

"The home rule bill will, therefore, pass through the house of commons before the end of the week, but I take it for granted that it will be immediately rejected by the house of lords. This means that we have really two years' work before us. During that time we will need all the material and moral support which is possible from our fellow countrymen abroad."

12,000 GIVE TO CAMPAIGN FUND OF DEMOCRATS

New York, Sept. 9.—Twelve thousand persons have contributed thus far to the Wilson and Marshall campaign fund. The fund at present totals \$175,000.

This was stated tonight at Democratic national headquarters, which at the same time made public a list of contributors, containing, it was stated, the names of all who had contributed the sum of \$100 or more to the fund.

W. G. McAgoe, acting chairman of the Democratic national committee, declared that "a new political standard" had been set by this action. "The American people," he said, "will never elect another president without knowing the sources from which financial support is drawn." Rolla Wells, treasurer of the committee, declared that while the sum received was encouraging, it was "totally inadequate" to conduct the campaign properly, but he believed that contributions would continue.

The largest contributions thus far have been made by Henry Morgenthau, chairman of the national executive committee; F. C. Penfield, a wealthy Democrat of Germantown (Penn.), and Henry Goldmann, a New York banker. Each gave \$10,000.

Five \$5,000 contributions were received. The givers are Charles K. Crane, of Chicago, who is vice-chairman of the national finance committee; Rolla Wells, former mayor of St. Louis, the national treasurer; Cleveland H. Dodge and Jacob H. Schiff, New York bankers, and Hugh C. Wallace, of Tacoma, national committeeman from Washington.

SEES BORDEN'S FINISH ON TRADE AND NAVAL ISSUES

Senator Laverne Favors Canadian Navy, Built in Canada, to Be Used in Empire's Defence.

Winnipeg, Sept. 9.—Senator Laverne, who reached here today on his return east from the forestry convention at Victoria (B. C.), said that he and his companions would support a Canadian navy built in Canada. "What quarrels have the workmen of France and Germany with you that you should dress up in a uniform to shoot each other? I don't believe in the German war scare. There are millions in it for the manufacturers of supplies. It is a manufacturers' scare who are now working to see that war is declared. The workmen of both countries will go on strike and make war impossible."

SUDDEN DEATH OF HALIFAX LAWYER

W. L. Bars Stricken While on Way to His Office, and He Died Shortly Afterwards.

Halifax, N. S., Sept. 9.—(Special)—W. L. Bars, a lawyer, died suddenly today. He had been in his usual health and attended to his duties until the last, having left his home at Dartmouth this morning for the city. He called a physician, but shortly afterwards was stricken with apoplexy and passed away this afternoon.

He was a son of the late John W. Bars, of Wolfville, and leaves four sons—Benedict, Baptist minister, of Hamilton (N. Y.); Gordon, Baptist missionary in India; Geoffrey, studying medicine; and Walter, studying law. Mrs. H. O. C. Baker, of Dartmouth, is a daughter. He was sixty-one years of age.

THREE MEN IN AUTO CUT TO PIECES BY TRAIN

Newburgh, N. Y., Sept. 9.—Jas. Alva Terry, a hotel proprietor, W. H. Woodpile, a business man, and Grant Puff, a jeweler, all of this city were killed at Embler's crossing on the Wall Kill Valley railroad this evening, when a passenger train struck the automobile in which they were riding. The men were literally ground to pieces, and their car was carried for several feet on the pilot of the engine, finally falling by the track completely demolished.

Hope Their Future Political Differences Will Not Be as Wide as the Past Ones—Liberal Leader to Campaign in North Ontario Next.

Ottawa, Sept. 9.—Hon. R. L. Borden's first day at home was a notable one in every respect. Following an enthusiastic civic reception at the city hall at noon, when an address of welcome was tendered on behalf of the citizens of the capital, he drove to the exhibition grounds and formally declared the dominion fair open.

Laurier's Speaking Place

Special to The Telegraph.

Ottawa, Sept. 9.—Sir Wilfrid Laurier returned this morning, after his Mariville meeting in Quebec, well pleased with the reception he was given and apparently in splendid condition for the busy week which has been mapped out for him after Sept. 14. On the latter date Sir Wilfrid will speak at Sturgeon Falls, and on the following day will proceed to Cobalt. On the 19th he will speak at Ville Marie, and on the 20th at Cochrane.

In addition to these dates a reception will be accorded the Liberal chief at Haliburton and he will also while in northern Ontario take a trip over the completed portion of the Transcontinental.

Upon the return of Sir Wilfrid to Ottawa he will be present at the Canadian manufacturers' banquet which will be held on Sept. 26 at the capital.

Afterwards he will visit a number of points in Old Ontario. The dates for this itinerary have not yet, however, been definitely fixed but will be announced at an early date.

A firm conclusion of his Ontario tour Sir Wilfrid expects to go west to the prairie provinces and the coast. The Liberal chief will be accompanied in his northern Ontario tour by Hon. Charles Murphy, Hon. George P. Graham and Hon. Joseph Lemieux, together with certain local members of the districts visited.

ENORMOUS CROPS REPORTED IN SASKATCHEWAN

Regina, Sask., Sept. 9.—The estimate of the department of agriculture of the crop of 1912 based on reports received from 1,900 correspondents, is as follows: The total yield of wheat, oats, barley and flax is estimated at 238,408,104 bushels, or an increase of 15,735,891 bushels over the crop of 1911. This was shown on an estimated acreage of 382,359 acres.

Wheat shows an increase both in acreage and in average yield. Oats show an increase in acreage, but a slight decrease of the average yield, while barley and flax both show increases in acreage and in yield.

The district with the largest acreage under barley is the southeastern, possibly on account of the proximity to the United States market.

The increase in flax acreage is largest in those districts which have the least railway facilities, as the farmer with a long haul can obtain more money for his load of flax than he can for any other kind of grain. He can also get quicker returns, as flax is the most suitable crop for new broken land.

THE DAILY TELEGRAPH, THE SEMI-WEEKLY TELEGRAPH, THE EVENING TIMES. New Brunswick's Independent Newspapers. These newspapers advocate British connection, honesty in public life, measures for the material progress and moral advancement of our great Dominion.

While farmers still pay the high prices due to protection. The farmer has been fooled by the protectionists for a long time, but he has had his lesson. When he begins to ask firmly for fair play he will get it, or there will be a change of government.

SPARRING FOR TIME. Apparently Mr. Borden is still sparring for time. The difficulties he has to face in this question would tax the resources of a strong man.

The cabinet council from the time of its inception under William III, adopted two fundamental principles of a constitutional executive government, namely, that the ministry should consist of statesmen holding the same political principles and identified with each other, and, secondly, that the ministry should stand upon a parliamentary basis, that is, that it must command and retain the majority of votes in the legislature.

THE WHEAT MARKETS. The Montreal Gazette, senior Conservative newspaper of the Dominion, flatly contradicts the St. John Standard's assertion that wheat prices are higher in Winnipeg than in Minneapolis.

FOOD PRICES AND THE TARIFF. How food prices are affected by placing a tariff on imported foodstuffs, and how that the workingman fares under protection, is shown by Germany's experience since 1896.

FREE TRADE IN SHIPBUILDING. The much discussed Panama Canal Bill, besides rendering nugatory a solemn compact, contains a most important provision which may result in a revival of American shipping.

MORE EXPERT TESTIMONY. The Dominion commissioners who recently investigated the condition and prospects of the sheep industry in New Brunswick, cannot understand why we do not produce more sheep and why producers in doing so.

United States is to be admitted free of duty. The trifling with national faith, in the other section of the bill, caused the country to overlook this provision.

THE STRANGE BIRD AND THE GULLS. The tide was low, and thousands of gulls and hundreds of crows were on the Courtenay Bay sand flats.

THE TRAGIC STATESMAN. The historian Lecky was once asked why the Irish, instead of committing outrage, did not urge their grievances with calm reason.

IGNORANT ON MACHINERY. "The late Henry C. Lea," said a Philadelphia litterateur, "wrote the best history of the Spanish Inquisition that has ever appeared."

THE CLAM BAKE. Then came the clam bake. It was not the best of the season. The crowd gathered round the fire, sang merry songs, danced in Indian fashion, and did numerous other things.

ABE MARTIN. "Speakin' o' th' honest farmer, did you ever notice th' load he takes on in a family tike?" A cantaloupe haint even a good hundred 'o one shot.

right kind of immigration. I mean the right kind of immigration. When men of their own initiative come with a preliminary love of desire for America, to establish homes for themselves here and to identify themselves with the country, the result cannot be anything but good for the country itself.

It is difficult to disagree with the views of the Democratic candidate, but the point that is troubling the thoughtful men of the whole country is not touched by him, that is, the immigrants who are now thronging their shores are immeasurably different from the fathers who founded their political and religious institutions.

NOTE AND COMMENT. "Continued drift of American capital to Canada for investment in the paper industry shows that country profiting from better trade relations with the United States," says the New York Journal of Commerce.

More light upon the by-election in North-West Manchester which Conservatives like to describe as a protectionist or "tariff reform" victory.

The question is very complicated in view of the class of immigrants pouring into the United States at present. Washington refused to encourage immigration at all in the early days when the country was empty, and has certainly would discourage it from the old races that have not made good in the experience of Europe.

When the Unionists strike the golden mean for a leader—a man who will think and who will fight at the same time? Bonar Law and Balfour stand at the opposite extremes in every way; there is an absolute contrast between them.

GIVE MAYOR A RIDE IN A WHEELBARROW

Commercial Men Take Charge. They Own the Town for a Day and "Make Good"

Half a Thousand of Them Enjoy Sail on River, See Baseball Game, a Fat Man's Race, and Visit Exhibition. A Fine Programme in the Evening—Can Have Town Again if They Want It.

Saturday, Sept. 7. Five hundred commercial travellers from the city and outside places, had a glorious big day—out to speak of the night in the city yesterday. It was "Travelers' Day" and that meant if you didn't wear one of those little red badges, you might as well "get off the pike," because you couldn't get a look at anything. That's what it meant all right, for the knights of the grip came in a narrow margin of owing the town yesterday and judging from their performances they wouldn't make bad owners.

NEW YORK LAWYER FACES SERIOUS CHARGE

Burton W. Gibson Has Much to Explain Authorities Probing Drowning of Woman Client Who Went Boating—He Was Executor of Her Estate—Three Other Persons He Did Business For Died Tragic Deaths.

New York, Sept. 7.—District Attorney Rogers, of Orange county, New York, was due here today to consult with District Attorney Whitman concerning the drowning in Greenport, N. Y., of Mrs. Rosa Szabo, who perished while in company with Burton W. Gibson, a New York lawyer, now executor of her \$10,000 estate.

The Austro-Hungarian consulate here set the inquiry afoot several days ago by charging Gibson with fraud in connection with the will, and the publicity uncovered a chain of coincidences now linking the lawyer's name with four other clients or friends, or relatives of clients, directly involved in litigation with Gibson, who were murdered or died violently, or strangely disappeared. Gibson says he can explain everything.

Besides Mrs. Szabo, the four tragedies which figure in Gibson's career, as uncovered since the Szabo investigation started, are: Mrs. Alice C. D. Kinnam, daughter of an aged woman whose property Gibson handled, murdered at her home in the Bronx.

Michael Shippo, a witness at the Kinnam inquest, found drowned in a creek in the Bronx in two feet of water. George L. Malcolm, a Wall Street broker, was nephew of Mrs. Louisa Stan, Mrs. Kinnam's mother, drowned in Long Island Sound, from a yacht accident, naming it to his death he thought Gibson for the control of the estate.

John Rice O'Neill, a British subject, who had won a \$10,000 damage suit for the loss of a leg, disappeared more than a year ago after conferring with Gibson concerning a mortgage transaction. The British consul has sought him without avail.

Gibson appeared at his office as usual today, harassed by reporters, but was not communicative. He is due to appear before the surrogate on Sept. 17 to show cause why he should not be removed from control of the Szabo estate. Detectives employed by the Austro-Hungarian consul have been trailing him to and fro for two days past.

FAITHFUL OUT STRONG TO WELCOME BORDEN

Six Cabinet Ministers Among the Prominent Conservatives from Many Sections to Greet Their Chieftain—Premier Said Many Things, But Was Silent On the Result of His Mission to England.

Montreal, Sept. 8.—Few more enthusiastic welcomes have been accorded to any Canadian minister than those which have marked the progress of Premier Borden since he landed at Quebec on Friday last.

More ideal conditions could not have prevailed than those at Montreal on Saturday night, the prevailing weather of the day clearing off at sundown. From the start to finish the welcome was a success.

Even after the premier and his party had departed, the members from the maritime provinces continued the gathering, the Hon. Mr. Hosen sitting as chairman.

When Premier Borden stepped ashore and mounted the reception stand at Victoria pier on Saturday night he was the centre of a group of six cabinet ministers.

Mr. Borden left for England the middle of June, and has been away about two and a half months. His stay there was characterized by a long succession of brilliant assemblies in his honor in addition to a round of official duties which kept him constantly occupied.

SIR WILFRID COLPITTS OPENS QUEBEC CAMPAIGN

JURY DISAGREED IN COLPITTS CASE Stood Eight for Conviction and Four for Acquittal WILL BE TRIED AGAIN

Accused Albert County Man Freed on \$1,500 Bail—Took the Stand in His Own Behalf, and Contended That He Had Two Votes in Provincial Election.

Hopewell Cape, N. B., Sept. 6.—After being out two hours the jury in the perjury case against John W. Colpitts, charged with taking a false qualification oath at the recent provincial election, reported that they were unable to agree on a verdict.

The jury retired at 5.30 p. m., at the close of the judge's charge, and after two hours deliberation were still hopelessly disagreed.

The accused was liberated on \$1,500 bail and a new trial will be held at the circuit in April.

The first witness this morning was Mrs. Barbara Fowles, who said that Colpitts, the accused, had been a tenant of hers in Moncton from No. 19, 1910, to May 19, 1911. He had secured the rooms, he said, for office purposes.

Charles H. Webb, an assessor in Moncton parish, said Colpitts had complained about his name being down as non-resident and stated that he was a resident of the parish of Moncton and wished his name on the voters list.

On the closing of the case for the crown, Mr. Sherman opened for the defense and stated that the case against the accused was brought from spite and the defense proposed to prove that the defendant was a bona fide resident of the county of Albert.

Liberal Chieftain Greeted by 4,000 Laurier Declares His Party Were Never So United

Will Never Try to Raise Popular Prejudice Against the Naval Question, But Will Study Borden's Policy on Its Merits and Act Accordingly.

Mariville, Que., Sept. 8.—Speaking to the electors of the district last night, Sir Wilfrid Laurier made a stirring appeal for his policies, in what may be said to be the opening gun of an extended campaign.

These words did Sir Wilfrid Laurier express himself at a demonstration attended by upward of 4,000 Liberal followers of the Montreal district at Mariville Saturday night.

The ex-premier was in fine fettle and gave an exposé of the views of Liberalism and the political situation at present agitating the popular mind.

Sir Wilfrid twitted the government on its action since its accession to power, starting with the Manitoba school question and ending with the navy and the proposed changes to the National Transportation Act.

In terms of the utmost delicacy and diplomacy, the speaker referred to the reception being held in honor of the return of the premier, and declared that if he were connected with the municipal administration of Montreal or Quebec, he would consider it a privilege to associate himself with those thus honoring the Hon. R. L. Borden.

The premier was in fine fettle and gave an exposé of the views of Liberalism and the political situation at present agitating the popular mind.

MILKED COWS BY HYDRO POWER

Great Demonstration on Ontario Farm in Presence of Many SOLVES HELP PROBLEM

Hon. Adam Beck, Who Helped in Threshing Out, Says He is Confident That \$100 a Year Will Pay for Power to Operate Every Department of the Farm.

Berlin, Ont., Sept. 7.—Hon. Adam Beck, minister of power, assisted in solving the three-fold problem in a practical manner at the hydro-electric Power Commission's demonstration at the farm of John Schaefer, two miles west of Berlin, yesterday afternoon.

A large number of farmers were present to watch the demonstration. In addition to threshing several hundred bushels of oats, cows were milked, butter was churned, dinner and supper were cooked by electric power, and the entire demonstration was an immense success.

HAMPTON STATION MOURNS OVER LOSS OF BEAUTIFUL TREES

Giant Elms Cut Down on Railway Avenue Preparatory to Removing Station Buildings.

Hampton Station, N. B., Sept. 6.—The September Circuit Court for Kings county opened here on Tuesday with Judge McKeown on the bench, but was at once adjourned until this morning, the expectation that the lawyers would be ready to take up a civil case to come before the court.

This morning a large gang of railway men were busy tearing down the fence around the southwestern end of the station after which they proceeded to cut down three forty-four year old elm trees on the track side of Railway street, preparatory to removing the station building to the other side of the track.

The destruction of the beautiful avenue which has been one of Hampton's boasts and pride, and the consequent reduction of property values on Railway avenue, is causing a great deal of dissatisfaction, and is condemned by almost every resident, as the government owns plenty of other properties could have been obtained by which the general appearance of the town might have been improved instead of destroying the chief beauty spot and reducing the value of property.

KENT COUNTY MAN KILLED BY KICK OF A HORSE

Andrew Legere, of Notre Dame, Fell on Animal When Carriage Was Detached and Received Fatal Injuries.

CHATHAM DOCTOR UNDER ARREST

Grave Charge Made Against Dr. Byrne by Parents of 12-year-old Girl—Accused Man Admitted to Bail of \$2,000.

Chatham, N. B., Sept. 8.—The news of the arrest of Dr. T. J. Byrne, one of the most prominent physicians of the county, a former mayor of the town and a candidate for nomination at a party convention in the last federal general election, on a most serious and revolting criminal charge, became public today and caused one of the greatest sensations in the history of Chatham.

The charge is that of attempted assault on the twelve-year-old daughter of a well known and highly respected citizen of the town.

The alleged offence is said to have been attempted on Thursday. The child told her parents and the warrant for Dr. Byrne's arrest was sworn out last night.

The latter was thought to have left town but on Saturday night Chief of Police Peter Coughlan, who had been watching the doctor's residence at the corner of St. John and Wallington streets, entered the house and found him. He at once placed him under arrest and brought him before Magistrate Connors. Bail was given for \$2,000.

Dr. Byrne was arrested at the residence of his wife, Mrs. J. L. Stewart and Joseph Grogan each subscribing to bonds of \$1,000, and the doctor was allowed his freedom. A date has been set by the magistrate and the defendant will have to appear for preliminary examination before him.

The Heart of a Woman

CHAPTER XXVII.—(Continued). Beyond that the whole appearance was essentially English; the fair hair neatly groomed, with just a suspicion of curl here and there, and a slight of gold in the light, the stiff neck encased in its immaculate collar, the perfectly tailored clothes, the hands large but well formed and carefully tended, which slightly interlaced, hung in marble-like stillness before him.

two o'clock and already the gas had to be lighted—two incandescent burners just above the corner's table—hard, unimproving lights, that threw a sickly green tinge on every face and cast deep black shadows under every eye.

CHAPTER XXVIII.—(Continued). It seems that coroner and jury had spent quite so much time over luncheon as the more or less interested spectators. When the crowd began to file back again into the seats, the coroner had already examined and dismissed one witness and was questioning another.

CHAPTER XXIX.—(Continued). The man who had made the extraordinary assertion, he seemed quite unconscious of the effect which it had produced. As for the man who had supposed the body lying in the street, he was actually found in his natural place in every-day life.

CHAPTER XXX.—(Continued). The man in the shabby clothes shambled forward, with arms dangling beside him, a hunched, apologetic look on his careworn face. He might have been any age from thirty to fifty; time and a perpetual struggle for existence had given away all traces of actual age.

CHAPTER XXXI.—(Continued). The man who had made the extraordinary assertion, he seemed quite unconscious of the effect which it had produced. As for the man who had supposed the body lying in the street, he was actually found in his natural place in every-day life.

Man Killed on I. C. R. Crossing at Gilbert's Lane is Identified as Elo Lorette of Middle Sackville—Inquest Begun Last Night—George Gould the Other Victim.

At the inquest into the death of Elo Lorette, of Middle Sackville (N. B.), who was killed at Gilbert's Lane on Saturday, conducted by Coroner Berryman last evening, it was contended that the public at the crossings in the I. C. R. yards is not well guarded.

When one went there the Pike was the same center of activity that it had been during the week. People giggled, wondered, had their fortunes told and took chances on winning "birds," came and all the other attractive but useless articles displayed to wheedle money from one's pocket.

When the witnesses who gave evidence last night were through, it was found that evidence of two which will be returned next Thursday evening, when the inquest will be resumed.

George Pond, Officially Declared Dead, is Heard From. The body of George Pond, who was killed at Gilbert's Lane on Saturday, was identified as that of George Pond, of Middle Sackville.

EXHIBITION CLOSED AFTER FINE WEEK. The results of the judging as announced Friday were as follows: Women's Work.

GARDEN SUBURBS

Important Development Going On at Coldbrook

FACTORIES AND GARDENS

Company's Plans Are Most Comprehensive—It is Putting Most Modern Ideas into Practice—A Model Scheme for Homes and Industries

Last spring The Telegraph had the pleasure of announcing that the Coldbrook Realty & Development Company, composed of New Brunswick and Montreal parties, had acquired the Gilbert property at Coldbrook, consisting of nearly 800 acres, and intended to develop it as an industrial centre.

A portion of the level land, of which there are about 180 acres, will be subdivided into storage lots for market gardening purposes, the soil being rich and admirably adapted for the raising of celery, cabbages and other vegetables.

Another large area, consisting of upwards of 400 acres, situated on a hillside overlooking the valley, will be divided into a beautiful valley, with sloping hill sides thoroughly sheltered by a high ridge from the north winds, and presenting opportunities for many attractive home sites.

One important consideration has been to secure a good supply of pure water for the factories and residences, and the company is fortunate in this respect, because running down the valley, with sloping clear and pure water. Some distance from the mouth of the valley there is a series of falls from which the very appropriate name of Glen Falls has been given to the valley.

At the Second Falls, a concrete dam is being erected to create a storage reservoir, from which the water will be carried by a 12 inch pipe to the water works, and across the level land as far as the automobile factory and other buildings, near Coldbrook station.

One objection which is sometimes raised to locating factories outside the city, is that it is difficult to get a good supply of water. The Coldbrook Realty and Development Company believe, however, that the advantage of comfortable homes, with all city conveniences, and the opportunity of raising small acreages of land, where they can raise flowers, fruit and vegetables, will appeal to many working people who will welcome the opportunity to bring up their families in the midst of such healthful surroundings.

THE SUPPLY EQUAL TO DEMAND

TO TEACHERS

Chief Superintendent of Education Points Out That Standards Are in Danger of Becoming Lower—New Manual Training Building in Moncton

Dr. Carter, chief superintendent of education, passed through the city on Saturday on his return from Moncton where he had been looking over the new manual training building, now in preparation for that subject and domestic science.

While in Moncton Dr. Carter conferred with Inspectors O'Blene and Hebert with reference to having a joint meeting of the teachers of Westmorland, Kent and Albert at an institute to be held in Moncton early in October next.

When asked regarding the supply of teachers, Dr. Carter said that the supply is scarcely equal to the demand. There are not enough teachers for the high and normal schools and for those in the remote country districts.

Nineteen births were recorded last week at the office of J. B. Jones, registrar of vital statistics; eleven boys and eight girls. There were ten weddings registered.

It was said Saturday morning at the board of health officers that the latest placard indicating contagious diseases had been taken down the street, and a clean bill of health. This year has been remarkable in this regard.

The Montreal men who were interested in the coal development at Mount Middleton have withdrawn their interest. The presence of oil at the point where the operations were being carried on discouraged those behind the scheme.

WEDDINGS

MeVha-Ladlin

St. Stephen, Sept. 4.—A very pretty wedding was solemnized this afternoon at the home of Mr. and Mrs. Albert A. Ladlin, Prince William street, when their only daughter, Lila Elizabeth, was united in marriage to Frederick W. McVha, son of Mr. and Mrs. John McVha, of this town.

The bride looked very winsome in a gown of white-batiste and Irish lace, and carried a bouquet of white asters and maiden hair fern. She was attended by Miss Ethel Boyd, of St. John, as bridesmaid.

After a tempting wedding supper, Mr. and Mrs. Pearson left for Sussex en route for St. John. The bride is going away with her groom, who is going to receive many useful and costly presents.

SOME GOOD ADVICE TO FRUIT GROWERS

Care Should Be Taken in Packing Fruit for Market—Clean and Tidy Packages Required

To the Editor of The Telegraph. Sir.—Will you be good enough to permit me, through the columns of your widely circulated paper, to address a few words to those of our fruit growers who are engaged in apple production and who, I trust, are anxious to build up a good name for New Brunswick apples and sell their fruit for the highest market price.
